Global Warming Is Nonsense

The idea that humans are causing global warming is little more than NONSENSE. The goal of the perpetrators is a transfer of wealth with the apparent forfeiture of power to a proposed ENVIRONMENTAL WORLD GOVERNMENT formed by the United Nations. A possible vote on this socio–political concept could be held in Copenhagen, Denmark, in December [2009].

This would be the abandonment of everything hard working, decent individuals have accomplished over hundreds of years, and satisfies only the cravings of a POWER HUNGRY, UNSCRUPULOUS INTELLIGENTSIA that somehow believe they should RULE THE WORLD.

The cost will be horrendous.

The Wisdom of Bill Bell !

The Scam of Our Lifetime

Unbelievably, the British, led to believe that their nation would soon disappear beneath the sea, passed a Climate Change bill which that same government concedes will cost 18 billion pounds a year. Tax on a new car in England is already over 5,000 pounds.

Cost of Global Warming to Canadian Tax–Payer

A recent study commissioned by the Toronto Dominion Bank to the Suzuki Foundation and the Pembina Institute projected a cost to Canadians at between $46–$72 billion dollars over the next 10 years.

The Harvard Business School recently concluded that consumers' energy costs using CAP AND TRADE (one of the current proposals for reducing CO_2) will increase the energy costs of a family of four by $6,800 US per year by 2025.

Why should Canadians grovel in fear and be browbeaten into actions that have no rational explanation or purpose ?

Intergovernmental Panel on Climate Change (IPCC)

[In the early 1970s] Secretary General U Thant [of the United Nations] tapped Maurice Strong (yes, the same Maurice Strong who engineered the National Energy Program that had a very detrimental effect on Western Canada) to organize the Stockholm Conference on Human Environment or the First Energy Summit [in 1972].

Strong gathered a few climatologists, environmentalists, and political activists to form the IPCC (Intergovernmental Panel on Climate Change) which in retrospect appears to have been little more than a plausible excuse for WORLD DOMINATION by the United Nations.

Australia's highly decorated scientist Ian Plimer recently published a book « ***Heaven and Science*** » [« *Heaven and Earth — Global Warming : The Missing Science* »], which clearly outlines the INADEQUATE AND SCIENTIFICALLY UNSUPPORTABLE CLAIMS by the IPCC reports.

This book led to the Australian Senate failing to pass CAP AND TRADE legislation, which may yet lead to a general election and the possible defeat of Prime Minister Kevin Rudd, who since explains he knows the science of climate change is settled because 4,000 scientists stood behind the most recent IPCC [Intergovernmental Panel on Climate Change] reports.

At a September 2007 United Nations Climate Change Conference, Klaus spoke of his disbelief in global warming, calling for a second IPCC [Intergovernmental Panel on Climate Change] to be set up to produce competing reports, and for countries to be left alone to set their priorities and prepare their own plans for the problem. This appearance is viewed as having been instrumental in the Czech Republic's failing to secure a place on the United Nations' Security Council.

HOT AIR FOR CASH, OR CARBON REDUCTION OFFSET PROJECTS

The Alberta government has many ways to dispose of money, but let me reference just two. ONE is « *HOT AIR FOR CASH* », actually called CROP (Carbon Reduction Offset Projects). You see, by tilling the land less deeply or less often, it supposedly either reduces CO_2 emissions, or absorbs more CO_2. This apparently generates credits for the farm land, which can be sold, in the instance of a Strathmore farmer, to a company expelling CO_2 from their coal–fired generators, namely EPCOR. (A form of CAP AND TRADE with a broker taking a profit from both the buyer and the seller.)

You must be pleased to know nothing changes at EPCOR, as the supposedly harmful gases continue to pour out of the chimney, but the farmer receives $100,000.

Albertans are now ecstatic because they save Mother Earth by paying the $100,000 in extra monthly fees on their power bill.

Three solar minima occurred during the Little Ice Age, 1350-1850, the longest of these, the Maunder Minimum, starting in 1625, and lasting almost a century with very few sun spots.

The Maunder Minimum was followed by a smaller event, the Dalton Minimum, from 1790-1835.

The sun now has had 750 sun spot free days, the longest quiescent state in the last two hundred years, with characteristics virtually identical to the onset of the Dalton Minimum, which was a period of extremely cold winters, freezing major rivers, such as the Thames, Hudson, and the Mississippi 200 miles south of St. Louis. »

Mr. Gathercole has supervised, consulted, programmed, and/or overseen the execution of HUNDREDS OF THOUSANDS of pest control applications in the urban landscape. He has trained, instructed, and consulted with THOUSANDS of turf managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority.

Mr. Gathercole has followed the evolution of ENVIRONMENTAL–TERRORISM for over a quarter–century. His involvement in Environmental issues reached a fevered pitch in the 1990s, when he orchestrated, with his colleagues, legal action against the prohibition of pest control products in the Town of Hudson, Quebec. For FIFTEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of Enviro–Terror for the entire Modern Green Space Industry across Canada. Mr. Gathercole is personally credited for crafting the Golf Industry Exception Status, that endures to this day. He is also the creator of the signs that are now used for posting after application. Although he can be accused of being Anti–Environment–Movement, he is, in fact, simply a strong advocate FOR the Modern Green Space Industry. However, this position has not precluded him from criticizing the Green Space Industry itself. Nonetheless, his vast knowledge of our long journey with Environmental issues is UNDENIABLE. (Hopefully !)

Force Of Nature is the instrument of National Organization Responding Against Huje that harm the Green Space Industry (NORAHG) by concocting statements and activities seeking to prohibit FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE conventional pest control products. Enviro–Maniacs are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each Enviro–Maniac–Culprit is a mis–guided adversary, each still deserves our respect. The terms Maniac, Culprit, Terrorist, or Basterd are not accusations of any legal wrong–doing. Force Of Nature is simply holding Alleged culprits accountable for conspiring to change public policies that TERRORIZE and THREATEN the Green Space Industry. Their pretentious prohibitionist rants has created LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, inflicting DESPAIR and DESTITUTION for THOUSANDS of hapless victims throughout the Green Space Industry. The actions of Maniac–Culprit–Terrorist–Basterds are viewed as a form of TERROR against the Green Space Industry. The information presented in Force Of Nature has been developed for the education and entertainment of the reader by providing a sequence of historical events with commentary. Additionally, Force Of Nature inspires people to believe that ENVIRONMENTAL–TERRORISM can be STOPPED !
