

LETTER TO THE EDITOR. THE DAILY NEWS. KAMLOOPS, BRITISH COLUMBIA. RESPONSE TO WARREN BELL. JULY 30th, 2011.

Ontario College of Family Physicians (OCFP) concocted a disgraceful, false, misleading, biased, and subversive bogus LITERATURE REVIEW of pest control products — this review has been DEBUNKED !

This review has absolutely NO CREDIBILITY in the legitimate scientific community, and has been REFUTED and DISCREDITED.

Internationally, this review has been viewed as • inadequately addressing the issues • inconsistent • over–interpreting studies • superficial in its approach • unclear • weak quality.

This review has absolutely NO CREDIBILITY since none of its authors and reviewers has ANY recognized expertise, training or background in matters concerning pest control products

Among the authors and reviewers of the OCFP–review, there are doctors who were found guilty of professional mis–conduct over sexual activities, doctors whose license was suspended, and doctors who deny having reviewed the document.

The BOGUS–OCFP–Review has been used a PRETEXT for the NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION of pest control products.

Moreover, thanks to the AGREEMENT reached between Dow AgroSciences and the Canadian federal government of May 25th, 2011, it was concluded that ...

- Pest control products are SCIENTIFICALLY SAFE
- PROHIBITIONS are IRREFUTABLY INVALIDATED

Sadly, in those jurisdictions where PROHIBITION has been legislated, EXTENSIVE CARNAGE has been INFLICTED on Professional Lawn Care companies, in the form of HORRIFIC FINES and BUSINESS FAILURES.

PROHIBITIONS are NOT NECESSARY since pest control products are HEALTH–CANADA–APPROVED, FEDERALLY–LEGAL, and SCIENTIFICALLY–SAFE.
