

Force
Nature

Environmental–Maniac–Activists
rely upon lies, fear–mongering,
misconceptions, coercion,
threats, deceptions, terror,
and paranoid conspiracies.

They concoct fraudulent
and non–existent
alarmist issues such as
the so–called global warming
as well as the alleged threat of
pest control products !

These Enviro–Basterds
cannot be trusted !

Global Warming

The Scam of Our Lifetime

DISASTROUS COMPUTER MODEL PREDICTIONS FROM LIMITS TO GROWTH TO GLOBAL WARMING

April 26th, 2010

Dr. Tim Ball

Canada Free Press

AN UNAVOIDABLE TRUTH

« *Every time history repeats itself, the price goes up.* » — Anonymous.

No matter what political committees try to absolve corruption of climate science of the Climatic Research Unit (C.R.U.) and the Intergovernmental Panel on Climate Change (I.P.C.C.), they cannot hide the COMPLETE FAILURE of the COMPUTER MODELS to make a single accurate prediction.

LEAKED E-MAILS from the Climatic Research Unit received media attention, but the emphasis must shift to the COMPUTER MODELS. I.P.C.C. models are part of continuum of the exploitation of USELESS computer models to promote ENVIRONMENTAL EXTREMISM and POLITICAL AGENDAS.

They gave the I.P.C.C. reports far more credibility than they deserved by producing simple graphs and crude maps of a warmer world with increasingly, expanding and threatening RED (HOT) areas that avoided the need for scientific understanding.

Intergovernmental Panel on Climate Change (IPCC)

Global Warming The Scam of Our Lifetime

INFAMOUS HOCKEY STICK GRAPH

What was more dramatic than the infamous HOCKEY STICK ? The combination of the flat handle achieved by ELIMINATING the Medieval Warm Period, and the upturn of the blade in the 20th Century with Phil Jones' undisclosed data, was visually dramatic. The PROPAGANDISTS in Hollywood who produced Al Gore's movie understood this.

Climate models DO NOT produce anything useful other than to DECEIVE and SCARE the public

UNWARRANTED SCIENTIFIC CREDIBILITY

Computer climate models give UNWARRANTED SCIENTIFIC CREDIBILITY for people who don't understand them.

As Pierre Gallois explained —

<< If you put tomfoolery into a computer, nothing comes out of it but tomfoolery. But this tomfoolery, having passed through a very expensive machine, is somehow ennobled and no-one dares criticize it. >>

Dr. David Frame, Climate Modeler at Oxford University said —

<< The models are convenient fictions that provide something very useful. >>

Global Warming The Scam of Our Lifetime

EARLY EXAMPLE OF POLICY DRIVEN BY COMPUTER OUTPUT

« *Limits To Growth* » was a 1972 report produced for The Club of Rome.

It used GROSSLY SIMPLISTIC LINEAR MODELS to claim the world was on the verge of collapse.

The central theme was a continuation of the idea about POPULATION CAPACITY OF THE WORLD that has gone on THROUGHOUT WRITTEN HISTORY.

Plato and Aristotle discussed the IDEAL SIZE for a CITY-STATE in the 3rd and 4th Centuries BC, but Confucius preceded them in the 5th Century with WARNINGS ABOUT EXCESSIVE GROWTH.

Predictions of population outgrowing resources were given a boost by the SPECULATIONS of Thomas Malthus with his 1798 « *An Essay on the Principle of Population* ».

THE POPULATION BOMB

« *Limits To Growth* » followed and built on Paul Ehrlich's 1968 book « *The Population Bomb* » that claimed the world was already overpopulated and DOOMED.

According to Ehrlich —

<< We must have population control at home, hopefully through a system of incentives and penalties, but by compulsion if voluntary methods fail. >>

Global Warming The Scam of Our Lifetime

RIDICULOUS EHRlich PREDICTIONS

Some brand Ehrlich's predictions among THE MOST RIDICULOUS ON RECORD.

Consider just three, any one of which should raise flags about the author's credibility —

<< The battle to feed humanity is over. In the 1970s, the world will undergo famines. Hundreds of millions of people are going to starve to death in spite of any crash programs embarked upon now. >>

<< Four billion people — including 65 million Americans — would perish from famine in the 1980s. >>

<< In ten years [i.e. 1980], all important animal life in the sea will be extinct. Large areas of coastline will have to be evacuated because of the stench of dead fish. >>

ENVIRO-MANIAC ADVISOR TO OBAMA

Despite the LUDICROUS NATURE of these Ehrlich claims, they drew attention and promotion from environmentalists and people who saw the political POTENTIAL OF THE FEARS HIS CLAIMS ENGENDERED.

Not least among these was John Holdren, who co-authored a 1969 article with Ehrlich that claimed —

<< [...] if the population control measures are not initiated immediately, and effectively, all the technology man can bring to bear will not fend off the misery to come. >>

Global Warming The Scam of Our Lifetime

With an Enviro–Maniac Wack–Job in the Obama White House, America is utterly SCREWED !

John Holdren is in a position as Science Czar in the Obama White House to try and make his prophecies a reality.

Holdren was a fully paid–up member of The Limits to Growth Club.

In his 1971 Sierra Club book, « *Energy : A Crisis in Power* », Holdren declared that —

[SIERRA CLUB IS AN ENVIRONMENTAL–TERROR–ORGANIZATION]

<< [...] it is fair to conclude that under almost any assumptions, the supplies of crude petroleum and natural gas are severely limited. The bulk of energy likely to flow from these sources may have been tapped within the lifetime of many of the present population. >>

Because of this view, Holdren joined with Ehrlich and John Harte in a bet with economist Julian Simon that five metals would INCREASE in price over ten years because of increasing scarcity. Simon easily WON the bet.

[FORBES, FEBRUARY 3RD, 2009]

FAILURES FAIL TO DESTROY CREDIBILITY

Despite this, the credibility of these people remained unsullied and essentially unchallenged in the same way that the credibility of the Climatic Research Unit and Intergovernmental Panel on Climate Change does today.

A significant reason was because they both used computer models that MYSIFY AND BEGUILÉ MOST PEOPLE, as Gallois observed.

Global Warming The Scam of Our Lifetime

However, beyond not understanding the mathematics, was the public belief that the models produced accurate predictions of the future.

In fact, the « *Limits To Growth World 3* » model was NOT intended to be predictive —

| << *In this first simple world model, we are interested only in the broad behavior modes of the population-capital system.* >>

The « *population-capital* » phrase is telling because it links the catastrophic population predictions of Ehrlich with the economic system. It was a barely disguised attack upon the capitalist system.

Intergovernmental Panel on Climate Change models do the same thing. Most think they are ONLY about global temperature, but that is incorrect. The final reports produced by Working Group II are based on the temperature predictions —

| << *After confirming in the first volume on « The Physical Science Basis » that climate change is occurring now, mostly as a result of human activities, this volume illustrates the impacts of global warming already under way, and the potential for adaptation to reduce the vulnerability to, and risks of, climate change.* >>

These are blended into the influential Summary for Policy Makers (S.P.M.), that says population and economic growth measured by CO₂, have caused temperature increase, and the solution is to STOP THE ECONOMIC GROWTH and REDUCE THE POPULATION.

Models of both groups are built on population projections, and assume business as usual. Both are simplistic linear MODELS BASED ON VIRTUALLY NO DATA, with COMPLETELY INADEQUATE understanding of the mechanisms, and INABILITIES to accommodate feedback.

Every model prediction or projection of both groups was REMARKABLY WRONG, regardless of attempts at improvement. This is true for weather, climate, population, and economic models. A similar record of FAILED PREDICTIONS would doom any other area of research and policy. But money and politics, combined with the use of computer models, bestows a completely UNJUSTIFIED CREDIBILITY. It's time their failures were exposed.

« *Those who cannot remember the past are condemned to repeat it.* »
— George Santayana [SPANISH-AMERICAN PHILOSOPHER]

N

Force Of Nature presents THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from National Organization Responding Against Huje that seek to harm the Green Space Industry (NORAHG). It is a series of e-newsletters destined for the Green Space Industry, the Environmental Terror Movement, Governments, and the Media, nationwide across Canada, the United States, and overseas. The information presented in Force Of Nature has been developed for the education and entertainment of the reader by providing a sequence of historical events WITH COMMENTARY.

O

Huje is a term used to describe Enviro Maniac Activists that routinely concoct FEAR MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRACIES that are DESIGNED to SCAM and DECEIVE the public into believing that families are in some NON-EXISTENT danger with conventional pest control products. Huje also SCAM and DECEIVE Government Officials into the NEEDLESS, SENSELESS, and MALICIOUS prohibition of FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE conventional pest control products.

All information, excerpts, and pictures contained in this document were found somewhere on the Internet, and may be considered in the public domain, serving one of the following purposes — archive, education, promotion, publicity, or press release. The events, characters, companies, and organizations, depicted in this document are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental. Force Of Nature is TOTALLY INDEPENDENT of any trade association or business operating within the Green Space Industry. Don't thank us. It's a public service. And we are glad to do it.

R

Force Of Nature is the brainchild of William H. Gathercole and his entourage. Mr. Gathercole is a principal FOUNDER of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from MCGILL UNIVERSITY. He has worked in virtually all aspects of the Green Space Industry, including GOLF, PROFESSIONAL LAWN CARE, and CHEMICAL INDUSTRY, and has served in public affairs, workplace safety, and environmental compliance. Mr. Gathercole has supervised, consulted, programmed, and/or overseen the successful and safe execution of HUNDREDS OF THOUSANDS of pest control applications in the urban landscape. He has trained, instructed, and consulted with THOUSANDS of turf managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority. Mr. Gathercole is now retired from Force Of Nature, although his name continues to appear as the founder. Mr. Gathercole is personally credited for crafting the Golf Industry Exception Status, that endures to this day. He is also the creator of the signs that are now used for posting after application. His vast knowledge of our long journey with Environmental Issues is UNDENIABLE — hopefully! For FIFTEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of Environmental Terror for the entire Modern Green Space Industry across Canada. Mr. Gathercole's involvement in Environmental Issues reached a fevered pitch in the 1990s, when he orchestrated, with his colleagues, legal action against the Forces of Environmental Evil in the Town of Hudson, Quebec. Mr. Gathercole is the ONLY TRUE RELIABLE WITNESS of the Hudson Affair.

A

Mr. Gathercole and his entourage have followed the evolution of ENVIRONMENTAL TERRORISM for over a quarter century. Through Force Of Nature, Enviro Maniac Activist Huje are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each Enviro Maniac Culprit is a misguided adversary, each still deserves our respect. The use of the terms Maniac, Culprit, Terrorist, or Basterd are not accusations of any legal wrong doing. Force Of Nature is simply holding Enviro Maniac Activists accountable for conspiring to change public policies that TERRORIZE, HARM, and THREATEN the Green Space Industry. Their pretentious prohibitionist rants have created LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, inflicting DESPAIR and DESTITUTION for THOUSANDS of hapless victims throughout the Green Space Industry. The DEPRAVED INDIFFERENCE of Maniac Culprit Terrorist Basterd Huje is viewed as a form of TERROR, HARM, and THREAT against the Green Space Industry.
