ARE STUDENTS LEARNING ABOUT THE CORRUPTION OF CLIMATE SCIENCE ?

May 20th, 2010

Tim Ball

Canada Free Press

BIASED INFORMATION CONTINUES

The mainstream media actively promoted global warming, then effectively ignored evidence of CORRUPT CLIMATE SCIENCE, and essentially ignored the whitewash investigations of the activities of members of the Climatic Research Unit (CRU) and members of the Intergovernmental Panel on Climate Change (IPCC).

They promoted Al Gore's movie « *An Inconvenient Truth* », yet ignored the evidence of MAJOR SCIENTIFIC ERRORS.

They quickly condemned Martin Durkin's documentary « *The Great Global Warming Swindle* » because of one small error on a graph. Durkin withheld the DVD until the error was corrected.

Al Gore's movie is still shown UNCORRECTED in most schools, although a United Kingdom court ordered the government to have teachers advise students of the BIAS AND ERRORS.

It appears little has changed in the schools. Some teachers are giving both sides of the story, but they appear to be the exception. But why would a teacher change or be willing to present both sides ?

Global Warming The Scam of Our Lifetime

Governments continue to push the arguments based on the Intergovernmental Panel on Climate Change (IPCC) research. They were COMPLICIT in the WHITE-WASH investigations, and need the tax and control Cap and Trade provides.

Most of the change in the schools comes from students who do some investigation, often triggered by YouTube videos.

In the United Kingdom court case, the student COMPLAINED to his father about having to watch Gore's movie MORE THAN ONCE.

THEIR QUESTIONS TELL A TALE

Each week, I receive three or four requests from students doing projects on global warming. Some come from other countries, but most are from the United States. Usually they seek answers to written questions. I give answers, but also attach a list of other sources so they can dig deeper.

Most of the time they are researching the SKEPTICS' VIEW, and I am the chosen spokesperson. Interestingly, very few requests are from university or science students. Most are in social studies but a surprising number are doing English essays. One or two tell me their research supports the SKEPTICS' VIEW, but most clearly accept the government global warming position, and appear to be trying to understand why I could have it so wrong. Most have seen Al Gore's movie, but none appear aware of the errors.

AN EXAMPLE

The following is just one example of the type of questions asked with my answers.

The questions are generally typical; however number three is particularly interesting.

It isn't clear if the student is aware of the complexity of the associated ideas.

My answers are in *italics*, and cursory but provide my view. I expect the student to pursue these ideas with the web sites provided.

Global Warming

The Scam of Our Lifetime

DO YOU BELIEVE THAT GLOBAL WARMING IS CAUSED BY MANKIND ?

No.

The claim is that human produced CO₂ is the cause of warming.

The problem is we produce such a minuscule amount relative to natural production that it is impossible to detect it within the crude measures of these sources.

For example, the amount we produce is less than the error of the estimate for three natural sources, including the oceans, soils, and rotting vegetation.

More important, it is assumed that an increase in CO₂ results in an increase in temperature.

Every record shows that exactly the opposite happens.

The temperature increases before CO₂.

WOULD A MODEST INCREASE IN THE TEMPERATURE
OF THE PLANET NECESSARILY BE BAD ?

The world has been warmer many times in the past and survived.

Whenever change occurs, there are winners and losers.

Overall history shows warming creates better conditions for life on earth that is the flora and fauna, which includes humans.

For example, more plants animals and people die of cold than warm.

Global Warming

The Scam of Our Lifetime

CAN GLOBAL WARMING CREATE AN ICE AGE ?

Ice ages are marked by growth of ice sheets.

The idea that warming can produce them recognizes that somehow you must have more snow survive the summer melt.

This argument is based on the idea that glaciations are either produced by cooler temperatures, with less winter snow, but less summer melt, or by warmer temperatures that results in more evaporation, more snowfall, and even though more melts in the summer, the net survival amount is an increase.

ARE GLOBAL WARMING AND CLIMATE CHANGE THE SAME THING ?

Yes and no.

Global warming is one type of climate change.

When temperatures began to decline in 2001, and CO₂ continued to increase, they stopped talking about warming and began talking about climate change.

This then allowed them to point at any change, and claim it was caused by human activity.

WHAT ROLE DO NATURAL FORCES PLAY
IN THE CURRENT GLOBAL WARMING TREND ?

All the warming over time, and now, is caused by natural forces, primarily the sun.

Even the Intergovernmental Panel on Climate Change (IPCC) admit that warming up to about 1950 was over 50% due to the sun.

Global Warming

The Scam of Our Lifetime

Since then, they say, with 90% certainty, that human CO₂ is the cause.

They base this claim on the output of computer models that ignore most changes in solar mechanisms, and many other factors, such as variation in water vapor, by far the most important greenhouse gas.

WEB SITES

Here are a few web sites that provide many of my views to expand on the above.

The first is for a group I helped organize and contribute articles to occasionally.

It is strictly devoted to the science.

FRIENDS OF SCIENCE — PROVIDING INSIGHT INTO GLOBAL WARMING

<http://www.friendsofscience.org/>

Our goal is to educate the public about climate science, and through them, bring pressure to bear on governments to engage in public debates on the scientific merits of the hypothesis of human induced global warming, and the various policies that intend to address the issue.

While Friends of Science does not do any original scientific research, it draws on the worldwide body of work by scientists in all fields relating to global climate change.

Global Warming

The Scam of Our Lifetime

It is our opinion that the Sun is the main direct and indirect driver of climate change.

Variations in solar activity and cosmic rays correlate to temperature much better than CO₂. This may be because an electro-magnetically active sun diverts cosmic rays from hitting the atmosphere. Cosmic rays have been shown experimentally to assist in cloud formation. Fewer cosmic rays result in reduced low cloud cover, which allows more sunlight to warm the Earth's surface.

The United Nations-IPCC reports have been misrepresented by the non-scientific IPCC bureaucrats in preparing the Summary-for-Policy-Makers.

Recent research casts doubt on historical data used by the IPCC. Urban effects have contaminated surface temperature data. Some measured CO₂ levels of the past 180 years appear to be in excess of present levels. Current climate computer models are unsuitable for making reliable climate forecasts mainly because they assume without justification that CO₂ is the major driver of climate. The cosmic ray effects on clouds are ignored. The input assumptions are adjusted to make the temperature projections match recent temperature trends, thereby grossly exaggerating the effects of CO₂ on the climate. The models, in response to CO₂, predict a distinctive temperature profile in the atmosphere, which is totally absent from the observational record.

The second is a more political/science mix, and here is a list of all the articles I have done over the last few years.

CO₂ SCIENCE —

CENTER FOR THE STUDY OF CARBON DIOXIDE AND GLOBAL CHANGE

<http://www.co2science.org/>

The Center for the Study of Carbon Dioxide and Global Change was created to disseminate factual reports and sound commentary on new developments in the world-wide scientific quest to determine the climatic and biological consequences of the ongoing rise in the air's CO₂ content.

It meets this objective through weekly online publication of its CO₂ Science magazine, which contains editorials on topics of current concern and mini-reviews of recently published peer-reviewed scientific journal articles, books, and other educational materials.

In this endeavor, the Center attempts to separate reality from rhetoric in the emotionally-charged debate that swirls around the subject of carbon dioxide and global change.

In addition, to help students and teachers gain greater insight into the biological aspects of this phenomenon, the Center maintains on-line instructions on how to conduct CO₂ enrichment and depletion experiments in its Global Change Laboratory (located in its Education Center section), which allow interested parties to conduct similar studies in their own homes and classrooms.

A RANGE OF QUESTIONS

A few questions follow that give an idea of how some students approach the topic.

Generally, they accept global warming is due to humans and their concern is with the impact.

Grade 10

1. How will global warming effect [sic] the wildlife ?
2. Will a changing climate create more problems ?

Global Warming

The Scam of Our Lifetime

3. What advice would you offer high schoolers [sic] to help them slow down the progress of global warming ?

Grade 7

1. What is global warming doing to the earth ?
2. What are some steps that can be taken to prevent global warming in our own homes and communities ?

Grade 11

1. Is climate change real, or is the earth going through cycles ?
2. In your opinion, what are the biggest contributors [sic] to climate change ?
3. How does cutting the rainforest effect [sic] global warming ?
4. Do you think global warming will ever stop ? When ? Why ?

N O R A H G

Force Of Nature presents THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from National Organization Responding Against Huje that seek to harm the Green Space Industry (NORAHG). It is a series of Reports destined for the Green Space Industry, the Environmental Terror Movement, Governments, and the Media, nationwide across Canada, the United States, and overseas. The information presented in Force Of Nature has been developed for the education and entertainment of the reader by providing a sequence of historical events WITH COMMENTARY. The neutrality of these Reports might be disputed.

Huje is a term used to describe Enviro Maniac Activists that routinely concoct FEAR MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRACIES that are DESIGNED to SCAM and DECEIVE the public into believing that families are in some NON-EXISTENT danger with conventional pest control products. Huje also SCAM and DECEIVE Government Officials into the NEEDLESS, SENSELESS, and MALICIOUS prohibition of FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE conventional pest control products.

All information, excerpts, and pictures contained in this Report were found somewhere on the Internet, and may be considered in the public domain, serving one of the following purposes — archive, education, promotion, publicity, or press release. The events, characters, companies, and organizations, depicted in this Report are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental. Force Of Nature is TOTALLY INDEPENDENT of any trade association or business operating within the Green Space Industry. Don't thank us. It's a public service. And we are glad to do it.

Force Of Nature, and its various incarnations, is the brainchild of William H. Gathercole and his entourage. Mr. Gathercole is a principal FOUNDER of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from MCGILL UNIVERSITY. He has worked in virtually all aspects of the Green Space Industry, including GOLF, PROFESSIONAL LAWN CARE, and CHEMICAL INDUSTRY, and has served in public affairs, workplace safety, and environmental compliance. Mr. Gathercole has supervised, consulted, programmed, and/or overseen the successful and safe execution of HUNDREDS OF THOUSANDS of pest control applications in the urban landscape. He has trained, instructed, and consulted with THOUSANDS of turf managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority. Mr. Gathercole is now retired from Force Of Nature, although his name continues to appear as the FOUNDER. Mr. Gathercole is personally credited for crafting the Golf Industry Exception Status, that endures to this day. He is also the creator of the signs that are now used for posting after application. His vast knowledge of our long journey with Environmental Issues is UNDENIABLE — hopefully ! For FIFTEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of Environmental Terror for the entire Modern Green Space Industry across Canada. Mr. Gathercole's involvement in Environmental Issues reached a fevered pitch in the 1990s, when he orchestrated, with his colleagues, legal action against the Forces of Environmental Evil in the Town of Hudson, Quebec. Mr. Gathercole is the ONLY TRUE RELIABLE WITNESS of the Hudson Affair.

Mr. Gathercole and his entourage have followed the evolution of ENVIRONMENTAL TERRORISM for over a quarter century. Through Force Of Nature, Enviro Maniac Activist Huje are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each Enviro Maniac Culprit is a misguided adversary, each still deserves our respect. The use of the terms Maniac, Culprit, Terrorist, or Basterd are not accusations of any legal wrong doing. Force Of Nature is simply holding Enviro Maniac Activists accountable for conspiring to change public policies that TERRORIZE, HARM, and THREATEN the Green Space Industry. Their pretentious prohibitionist rants have created LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, inflicting DESPAIR and DESTITUTION for THOUSANDS of hapless victims throughout the Green Space Industry. The DEPRAVED INDIFFERENCE of Maniac Culprit Terrorist Basterd Huje is viewed as a form of TERROR, HARM, and THREAT against the Green Space Industry.
