Bad News for Suzuki

Selected and adapted excerpts

Instead of dying off and drowning because of so-called Global Warming, and oceans rising because of the Dooms-Day scenarios that is continuously rammed down our collective throats by main-stream news idiots on behalf of David Suzuki and Al Gore, THE POLAR BEARS IN CANADA ARE ACTUALLY MORE PLENTIFUL THAN EVER !

That's BAD NEWS FOR SUZUKI who continuously scares the hell out of our children with tactics like he used at Christmas about the North Pole melting and Santa may even die by drowning !

Isn't his « *due date* » long gone, and why doesn't he just go for a visit to the Polar Bear region of Hudson Bay and let the real bears have a go at him !

David Suzuki
WRONG!
WRONG!

But then, that would involve being cruel to the bears !

It would come as no surprise if David Suzuki CALLED AN EMERGENCY MEETING of his David Suzuki Foundation over the weekend to deal with THE SAD NEWS THAT THE NORTH POLE WAS NOT MELTING.

Every eco-system has its canary in the coal mine and, in the case of the Arctic, it is the Polar Bear — SUPPOSEDLY DYING-OFF, say Doom-Sayers, because so-called Global Warming is melting the very ice on which these bears need to hunt.

The trouble with this, however, is that it is BOGUS.

Our Nanooks of the North HAVE NEVER BEEN HEALTHIER.

An aerial survey of the northern shore of Hudson Bay, where the Polar Bear is supposedly most threatened, shows a population some 66 PER CENT GREATER than what many scientists predicted.

This should drive Suzuki APOPLECTIC.

The dying Polar Bear, after all, is his MEAL TICKET.

Its impending demise turned the LIES of the film « *An Inconvenient Truth* » into a Nobel Prize for former U.S. Vice-President Al Gore.

This is A VERY DIFFICULT BELL TO UNRING.

WRONG !
WRONG !
WRONG !

The aerial survey's results, released last week by the Government of Nunavut, shows a bear population along Hudson Bay of 1,013 animals when the ALARMISTS predicted the number would be as low as 610.

These ALARMISTS would likely be the same « *scientists* » used by David Suzuki for his SKY-IS-FALLING, ICE-IS-MELTING, CANARY-IS-DYING FUND-RAISERS which have Santa Claus drowning as the North Pole melts.

What will they say now that this INCONVENIENT TRUTH has the Polar Bears flourishing, and NOT dying-off ?

It is a conundrum for the Suzuki crowd.

According to Drikus Gissing, Wildlife Management Director of Nunavut —

[The survey shows] *the bear population is not in crisis as people believed. There is no doom and gloom.*

What ? How could this be ?

Instead of listening to ECO-OPPORTUNISTS, or university professors, we would rather take the word of the Inuit.

It's their hunting ground too, and they say the Polar Bear is far from being endangered.

In fact, the 25,000 Polar Bears across Canada's Arctic is likely THE HIGHEST NUMBER EVER.

We trust, therefore, that David Suzuki will call a press conference to explain his Chicken Little routine.

Awful News for Suzuki

April 10th, 2011

The Globe and Mail

Selected and adapted excerpts

The Polar Bears of Hudson Bay are among the most endearing creatures on the planet.

On April 8th, 2012, a remarkable documentary broadcast on the Canadian Broadcasting Corporation showed them at their most compelling.

Narrated by David Suzuki, the film « *Polar Bears : A Summer Odyssey* » featured stunning images and a story-line that will have your kids in tears.

WRONG !
WRONG !
WRONG !

The film followed an adolescent bear, a teenager, as he struggled for survival and navigates the frigid ocean for the first time alone, without his mother.

We learned that the Polar Bears, who feed almost entirely during the winter, are IN DANGER OF STARVING TO DEATH because of so-called Global Warming.

According to David Suzuki —

Each year, the ice melts earlier. Today's bears have less time on the ice than their parents and grandparents ... When the ice finally vanishes, the long, hot summer begins.

This population, we are told, has dwindled by 22 per cent in less than two decades.

Or has it ?

In early April 2012, the government of Nunavut released a population survey of those very same bears.

It was considerably MORE OPTIMISTIC .

It estimates the Polar Bear population on the western shore of Hudson Bay at 1,013, which is a lot higher than some thought.

« *The bear population is not in crisis as people believed* » said Drikus Gising, Nunavut's Director of Wildlife Management.

This is AWFUL NEWS for the David Suzuki Foundation and other environmental groups that DEPEND ON THE PLIGHT OF THE POLAR BEAR TO RAISE MONEY.

WRONG!
WRONG!

After all, Polar Bears are even more photo-genic than Baby Seals.

The STAKES ARE SO HIGH that Polar Bear statistics are BITTERLY DISPUTED.

Whenever someone says the bears are okay, a dozen researchers rise up to protest that they are not — as in this case, where researchers who object to the government's finding say their methodology is more accurate.

The scientists simply don't believe the local Inuit, who say they are seeing as many bears as ever.

They believe the Inuit are BIASED because the bear hunt, which is tightly regulated, brings in lots of money.

Observers point out that the Polar Bears have managed to survive at least 100,000 years of freezing and melting, so they will probably out-survive us.

The most endangered species in the North is NOT Polar Bears.

It's people — especially young people.

Unfortunately, they're not as cute as Polar Bears, so they don't get much attention.

The social indicators of Nunavut's population, who are overwhelmingly Inuit and young, are the worst in Canada.

Nunavut has the highest rate of lone-parent families and the lowest education levels in the country.

WRONG !
WRONG !
WRONG !

Most kids don't finish high school.

The rate of teenaged pregnancy is five times greater than the national average, and the rate of child sex abuse is 10 times the national average.

The rates of suicide and murder are also more than 10 times higher than in the south.

Thirty per cent of people over 12 are heavy drinkers.

Among Inuit families with children aged 3 to 5, household food insecurity is 70 per cent.

There are about 25,000 Polar Bears across Canada's Arctic, according to Mr. Gissing.

There are about 33,000 people in Nunavut, who are overwhelmingly dependent for their survival on the state.

Social conditions haven't improved much in the 13 years since Nunavut became a territory.

Fortunately, the tourism business is reasonably good.

People from the South are happy to pay thousands of dollars for the chance to spot a Musk Ox or a Polar Bear.

At the moment, they don't seem to be having any problem.

DANGEROUS, HYPOCRITICAL, and INSATIABLE

As one of Canada's leaders operating an Environmental and Anti-Pesticide Organization, Suzuki is PAID-FOR-PROFIT TO SPREAD DOUBT AND CONFUSION about SOUND SCIENCE through the use of JUNK SCIENCE.

Moreover, David Suzuki's organization exists for one reason and one only ...

... and that is to MAKE MONEY.

This money is used for RADICAL and SUBVERSIVE CONSPIRACIES based ONLY on JUNK SCIENCE and MIS-INFORMATION.

David Suzuki DOES NOT deserve ANY accolades.

Nor does Suzuki deserve a TAX-EXEMPT status.

His foundation is DANGEROUS, HYPOCRITICAL, IMMORAL, INSATIABLE, LUNATIC, TACKY, and UNETHICAL.

In winter 2011-2012, David Suzuki told kids that Santa Claus WOULD DIE unless their parents GAVE HIM MONEY !

Ostensibly, Suzuki told children that Santa's home was to be DESTROYED BY FLOODS created by so-called Global Warming.

DANGEROUS, HYPOCRITICAL, and INSATIABLE

As a Buddhist, Suzuki **COULD NOT CARE LESS** about children and Christmas.

Furthermore, Suzuki has demonstrated that you can lure **DONATIONS ...** by saying and doing anything no matter what the consequences ... even **AT THE EXPENSE OF CHILDREN.**

All is fair, it seems, in the desire to accumulate **PROFIT**, even if it means damaging children's precious dreams ... the ones the rest of us spend so much time and effort protecting.

Additionally, in 1972, Suzuki **COMPARED HUMANS TO MAGGOTS.**

*« Basically, we're all fruit flies. Most people in the world are content to stay as first or second-level **MAGGOTS.** The guys that become tenth-level **MAGGOTS** are really big wheels. »*

Suzuki's **SUBVERSIVE CONSPIRACIES DESTROYED** the Professional Lawn Care Industry in several jurisdictions across Canada.

And now, Suzuki is even **DESTROYING** Santa Claus and Christmas.

Suzuki is leaving a **LEGACY** of **FRIGHTENED CHILDREN, DESTROYED ECONOMIES, LOST JOBS AND HARDSHIP FOR PEOPLE,** and **WEAKENED COMMUNITIES.**
