Iron-Based Fertilizers Are NOT Registered As Pest Control Products

Government of Canada Will Take APPROPRIATE ENFORCEMENT MEASURES
Mr. DiGiovanni,

It has recently come to our attention that a number of Landscape Ontario members are promoting the use of unregistered iron-based fertilizers for the selective control of broadleaf weeds in turf.

At the present time, there are only two commercial iron-based products registered under the Pest Control Products Act (PCPA) for the selective control of broadleaf weeds in turf, including Fiesta Lawn Weed Killer Ready To Spray (PCP No. 29534) and Fiesta Lawn Weed Killer (PCP No. 29535).
The use of unregistered pest control products in Canada is prohibited as per Section 6 (1) of the PCPA; « No person shall manufacture, store, transport, import, distribute or use a pest control product that is not registered under this Act ... ». Accordingly, any person found using/promoting an unregistered iron fertilizer for weed control will be subject to compliance and enforcement measures, as set forth by the authority of the PCPA and Regulations.

I am sending you this information for your consideration. I would be most interested in obtaining any ideas or suggestions you may have to help effect compliance with our Federal Legislation.

I look forward to your comments or suggestions and thank you for your attention in this matter.

Sincerely,

Linda McIntosh

RE: USE OF UNREGISTERED PEST CONTROL PRODUCTS – ‘Iron-based Fertilizers’

Dear Mr. DiGiovanni,

It has recently come to our attention that a number of Landscape Ontario members are promoting the use of unregistered iron-based fertilizers for the selective control of broadleaf weeds in turf.

At the present time, there are only two commercial iron-based products registered under the Pest Control Products Act (PCPA) for the selective control of broadleaf weeds in turf, including Fiesta Lawn Weed Killer Ready To Spray (PCP No. 29334) and Fiesta Lawn Weed Killer (PCP No. 29335).

The use of unregistered pest control products in Canada is prohibited as per Section 6 (1) of the PCPA: “No person shall manufacture, store, transport, import, distribute or use a pest control product that is not registered under the Act...”. Accordingly, any person found using/promoting an unregistered iron fertilizer for weed control will be subject to compliance and enforcement measures, as set forth by the authority of the PCPA and Regulations.

I am sending you this information for your consideration. I would be most interested in obtaining any ideas or suggestions you may have to help effect compliance with our Federal Legislation.

I look forward to your comments or suggestions and thank you for your attention in this matter.

Sincerely,

Adequate broad-leaved weed control with Fiesta Herbicide is only achieved with an EXHORBITANT 6 TO 8 REPEAT APPLICATIONS PER SEASON, or more.

Even with REPEAT APPLICATIONS, the weeds are NEVER ENTIRELY KILLED, and EXCESSIVE USE of iron will lead to a DETERIORATION IN TURF QUALITY AND DENSITY, which will lead to further problems with weed invasion.

Fiesta Herbicide was registered and approved for use in the Province of Ontario in April 2010, and was quickly incorporated into weed control programs — NOT BECAUSE OF ITS EFFICACY, but because of the 2009 legislation that IMPOSED AN UNECESSARY AND UNREALISTIC ANTI-PESTICIDE PROHIBITION which PREVENTED Professional Lawn Care companies from using conventional herbicides that WERE TRULY EFFECTIVE AS WELL AS SAFE.

The CATASTROPHIC CARNAGE of the Professional Lawn Care Industry in Provinces like Ontario was EXTENSIVE because there were NO valid economical alternatives to replace the prohibited conventional products.

Because of PROHIBITION in Ontario, the Professional Lawn Care Industry LOST OVER 500,000,000 DOLLARS, with UP TO 12,500 UNEMPLOYED, and ONE COMPANY-PER-WEEK DISAPPEARS INTO TOTAL OBLIVION.

The vast majority of users OVERWHELMINGLY CONDEMN Fiesta, hence, the MAJOR REASON for the DOOMING of the Professional Lawn Care Industry that ENTIRELY DEPENDED upon its success.

In fact, conventional herbicides, such as 2,4-D, are deemed SAFER than Fiesta.

Fiesta, and any of its iron-based derivatives, is considered to be DISMAL FAILURES as weed control products, especially because of the EXHORBITANT NUMBER OF REPEAT APPLICATIONS REQUIRED EVERY SEASON.

In fact, ALL so-called Green Alternative Pesticides and Green Alternative Methods are DISMAL FAILURES — they DO NOT WORK!

By the year 2011, in jurisdictions like Ontario, the EXHORBITANT REPEAT APPLICATIONS AND STUNNINGLY HIGH COST of Fiesta prompted Professional Lawn Care companies to CONCOCT their own iron-based mixtures through the ILLEGAL USE of LOW-COST AGRICULTURAL FERTILIZER IRON.
We are living in the 9/11 Era of Anti Pesticide Terrorism where at least ONE SUBVERSIVE ACT OF TERROR is perpetrated EVERY SINGLE DAY by enviro lunatics.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FAKE SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, and INTERNET RUMOUR. Scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

NORAHG is the National Organization Responding Against HUJE that seek to harm the Green space industry.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OPPOSED to Anti Pesticide PROHIBITION and the CLOSURE of green spaces under the RIDICULOUS PRETEXT of somehow « saving » the environment.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

Anti Pesticide HUJE are enviro lunatics and lawn haters who particularly DESPISE the golf industry — they are Hateful Underhanded Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS.

There is NO RECOURSE but LITIGATION against Anti Pesticide HUJE.

Another RECOURSE is to SEEK the CANCELLATION of GOVERNMENT GRANTS and REVOCATION of the TAX EXEMPT STATUS of Anti Pesticide Organizations.

HUJE should Get OFF Our grass, and they should Roast In Hell.

NORAHG manages the Library of Force Of Nature Reports and References, which is a VAST ARCHIVE of REPORTS, MEDIA REFERENCES, AUDIO CLIPS, and VIDEOS on ALL Anti Pesticide Terrorist Acts of Subversion.

The purpose of this ARCHIVE is to provide information that will lead to a SUCCESSFUL LITIGATION AGAINST Anti-Pesticide Organizations.

All names, statements, activities, and affiliations have been ARCHIVED for the intention of eventual CRIMINAL CHARGES.

When CRIMINAL CHARGES for FRAUD and CONSPIRACY are laid, legal experts say that the ARCHIVE is sufficient to lead to a SUCCESSFUL PROSECUTION!

NORAHG also produces FORCE OF NATURE, reports that present THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE about environmental issues, including anti pesticide terrorism.

FORCE OF NATURE is a series of reports destined for the green space industry, the environmental terrorist movement, governments, and the media, nationwide across Canada, the United States, and overseas.

FORCE OF NATURE is committed to SOUND SCIENCE, as well as ground breaking original reporting that informs, entertains, and creates real change.

The Force Of Nature Series of Reports — Agriculture • ALBERTA Conspiracy • Bee Colony Collapse Disorder • Bee Colony Collapse Disorder • Benefits of the Turfgrass Industry • Beyond Pesticides • Book: That Screwed Up the World • BRITISH COLUMBIA Conspiracy • Canadian Cancer Society • Canadian Association of Physicians for the Environment • CARNAGE and Consequences of Lunatic Terrorist Prohibition • Controversial Prohibitions • Culprits of the Prohibition Conspiracy • Daffodils, Toxic Pest Control Products Soaked in Formaldehyde • Dating Services for Enviro Maniacs • David Suzuki Foundation • DDT and Our World of Politicized Science • Death and Illness (Alleged) • Departure Letters • Ecoljustice Canada • Energy Sector • Environmental Terrorists UNMASKED • Environmental Terrorist Organizations • Enviro PROFIT • Environmental Defense • FAILURE of IPM, Pesticide Manufacturers, Ban on Trade Associations • Famous Quotations About Enviro Lunatics • Fertilizer TERROR • Food and Farming • Get Off Our Grass • Global Warming, The Scam of Our Lifetime • Glyphosate Herbicide • Golf Industry • Green Alternatives • Green Party • Halloween Terror • Happy Holidays • Health Canada • Health Concerns with Pest Control Products • Heroes Speaking Out Against Environmental Terror • History of Environmental Terror in Canada • History of the Turfgrass Industry • Letters to the Editor • LIARS and Lying Sacks of (Enviro Maniac) Crap • Mock Advertisements • Mock Speeches • Myth BUSTING • NATIONAL Prohibition • NEW BRUNSWICK Conspiracy • NO Prohibition Exception for AGRICULTURE Industry • NO
Here is a brief summary of Mr. Gathercole’s career —

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University • University of Guelph • the first person even to obtain university degrees and contribute to both the professional lawn care and golf maintenance industries

Expertise — environmental issues and anti-pesticide terrorism • turf and ornamental maintenance and troubleshooting • history of the industry • sales and distribution of seeds, chemicals, fertilizers, and equipment • herbicide-manufacturing and distribution

Notable activities — worked in virtually all aspects of the green space industry, including golf, professional lawn care, distribution, environmental compliance, government negotiations, public affairs, and workplace safety • supervisor, consultant, and, programmer for the successful execution of hundreds of thousands of management operations in the golf and urban landscape, as well as millions of pest control applications • advisor, instructor, and trainer for thousands of turf and ornamental managers and technicians • pesticide certification instructor for thousands of industry workers • founder of the modern professional lawn care industry • prolific writer for industry publications and e-newsletters • first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouver Fraser Valley region • with Dr. Peter Dernoien, confirmed the presence of Take All Patch as a disease of turf in Eastern Canada • with Dr. David Shetlar, confirmed the presence of Kentucky Bluegrass Scale as an insect pest in South Western Ontario, and later, in the Montreal and Vancouver regions

Special contributions — creator of the exception status that has allowed the golf industry to avoid being subjected to anti-pesticide prohibition • creator of the signs that are now used for posting after application • co-founder of annual winter convention for Quebec golf course superintendents • the major influence in the decision by Canadian Cancer Society to stop selling for profit pesticide-treated daffodils • the only true reliable witness of the events of anti-pesticide prohibition in the town of Hudson, Quebec • retired founder of FORCE OF NATURE and A LOOK AT reports

Notable award — the very first man of the year for contributions leading to the successful founding of Quebec professional lawn care industry, which served as a beach-head against anti-pesticide activists in the 1980s and 1990s

Legacy — Mr. Gathercole and his colleagues designed and implemented strategies that reined anti-pesticide activists to provide peace and prosperity for the entire modern green space industry across Canada • orchestrated legal action against anti-pesticide activists in the town of Hudson, Quebec • launched the largest founding professional lawn care business in Canada • quadrupled the business revenues of one of the largest suppliers in Canada
Why bother with legal and registered products when you can LIE and CHEAT with iron-based fertilizer?
