VIOLATING Federal Law
Definition of a NATURAL pest control product —

A NATURAL pest control product has an active ingredient that is a biochemical or some other NATURALLY-OCCURRING SUBSTANCE, as opposed to a synthetic pest control product, in which the active ingredient has been manufactured.

Definition of an ORGANIC pest control product —

A pest control which is defined as ORGANIC must have the active ingredient that is derived from the REMAINS OF ANIMALS, BIRDS, HUMANS, MARINE CREATURES, OR PLANTS.

It must not be assumed that NATURAL or ORGANIC pest control products are safer or more environmentally-friendly.
Fiesta Herbicide

Fiesta is a so-called Green Alternative Pesticide that somehow replaces three-way phenoxy turf herbicides, such as Killex, which contains the active ingredient 2,4-D.

Fiesta contains 4.43 per cent iron (Fe) present as FeHEDTA, a chelated iron.

It is NOT a NATURAL or an ORGANIC product.

Lawn care companies that have employed these inaccurate terms in their advertising campaigns have been instructed by Health Canada to DESIST.

Moreover, problems with supply and cost have forced lawn care companies to UNWISELY SELECT THE LOWEST RECOMMENDED RATE OF APPLICATION, WHICH IS LESS EFFECTIVE.

Unfortunately, adequate broad-leaved weed control with Fiesta Herbicide is only achieved with an EXORBITANT 6 TO 8 REPEAT APPLICATIONS PER SEASON, or more, well beyond the label recommendation of 4 APPLICATIONS.

Some companies have even resorted to the use of FERTILIZER-GRADE sources of iron, which is ILLEGAL under Federal Law.

And of course, companies who advertise Fiesta as a NATURAL or ORGANIC product are also VIOLATING Federal Law.

Illegal Advertising ?!?!?
Say “No” To Weeds This Summer

Weeds are the bane of every homeowner’s existence. While chemicals may seem like the ideal solution, they can leach into vegetable and flower gardens, rain and trickles into groundwater supplies, and let’s not forget they’re now illegal in Ontario. Nutri-Lawn Ottawa Sprinkler Systems believes there are better ways to deal with weeds than to suffocate them with toxic chemicals. What’s more, in most cases these new methods are more effective and less expensive than chemical treatments. Turn your lawn into a weed-free sanctuary with these lawn care strategies from Nutri-Lawn’s Ottawa sprinkler experts.

Use Organic Herbicides for Natural Weed Control

Despite the Ontario pesticide ban, the lawn care technicians at Nutri-Lawn Ottawa Sprinkler Systems can still provide you with environmentally friendly treatments to protect your lawn from weedy residents. (Still unsure of the rules and regulations associated with the Ontario pesticide ban? Then check out our helpful guide for further information.)

On such treatment is our FIESTA Weed Control, an organic herbicide that is child and pet friendly.

FIESTA works by targeting the root of a weed. Typically, weeds will begin to turn black within 24 hours of the application. They will then decompose and disappear. The nice thing about FIESTA is that you’re not required to water the lawn with your Ottawa sprinklers in order to activate the treatment. It’s truly a no-mess, no-fuss weed control solution.
Weeds are the bane of every homeowner’s existence. While chemicals may seem like the ideal solution, they can leach into vegetable and flower gardens, runoff and trickle into groundwater supplies, and let’s not forget they’re now illegal in Ontario. Nutri-Lawn Ottawa Sprinkler Systems believes that there are better ways to deal with weeds than to suffocate them with toxic chemicals. What’s more, in most cases these new methods are more effective and less expensive than chemical treatments. Turn your lawn into a weed-free sanctuary with these lawn care strategies from Nutri-Lawn’s Ottawa sprinkler experts.

Use **ORGANIC** Herbicides for **NATURAL** Weed Control

Despite the Ontario pesticide ban, the lawn care technicians at Nutri-Lawn Ottawa Sprinkler Systems can still provide you with environmentally friendly treatments to protect your lawn from weedy residents.

One such treatment is our FIESTA Weed Control, an **ORGANIC** herbicide that is child and pet friendly.
Observers are suggesting that Nutri-Lawn reconsider its advertising program.

Clearly, advertising Fiesta as a NATURAL or ORGANIC product is VIOLATING Federal Law.

If Nutri-Lawn can't be a good example, then it will just have to serve as a horrible warning.

Government Definition of Organic and Natural

The Government of Canada has defined and interpreted the terms NATURAL or ORGANIC.

For example, there is information contained in the Fertilizers Act and Regulations that is applicable to fertilizers containing ORGANIC or NATURAL materials.

This information may be used as guidelines for pest control products.

Organic

The government defines ORGANIC MATTER as the PARTIALLY HUMIFIED REMAINS OF ANIMALS AND PLANTS.

For this reason, only products that are solely derived from organic matter may be identified or described as ORGANIC.

If the product contains at least 15 per cent organic matter however, it may be described as ORGANIC-BASED.

Natural

The same rationale described for ORGANIC applies to the term NATURAL.

Materials that are directly MINED FROM MINERAL DEPOSITS, and only subjected to physical processes such as crushing and drying, may be described as DERIVED FROM NATURALLY OCCURRING SOURCES/DEPOSITS.

Selected and Adapted Excerpts
Nutri-Lawn, North America’s leader in ecology friendly lawn care is very excited to offer its customers the best \textit{NATURAL} Weed Control product to hit the market since the Ontario wide ban of pesticides, one year ago.

Fiesta Lawn Weed Killer received federal regulatory approval by the PMRA and is now registered and available for use in Ontario to control broadleaf weeds in turf. Nutri-Lawn is proud to be one of the first companies to have tested the product and now have this service into production throughout Ontario with plans for other markets this summer.

Fiesta is a \textit{NATURAL} alternative to the traditional three-way chemical herbicides such as Killex that have been banned in the province of Ontario.

Its timely introduction comes in a season where Dandelions rule the landscape and homeowners are fed up with the lack of solutions.

About Nutri-Lawn

Nutri-Lawn has continued to expand in Canada and the United States due to the success of its \textit{ECOLOGY} Friendly approach. They have built a reputation on quality customer service and the majority of their customers are repeat and referred clients.

Nutri-Lawn introduces Fiesta, a new NATURAL Weed Control.

Nutri-Lawn, North America’s leader in ECOLOGY friendly lawn care, is very excited to offer its customers the best NATURAL Weed Control product to hit the market since the Ontario wide ban of pesticides, one year ago.

Fiesta Lawn Weed Killer (Reg. No. 29535 P.C.P. Act) received federal regulatory approval by the PMRA and is now registered and available for use in lawns, parks, cemeteries, golf courses and athletic fields to selectively control broadleaf weeds in turf.

Nutri-Lawn is proud to be one of the first companies to have tested the product and now have this service into production throughout Ontario with plans for other markets this summer.

This new product was developed by Neudorff North America.

Fiesta is a natural alternative to the traditional three-way chemical herbicides, such as Killex, that have been banned in the provinces of Ontario and Quebec and many municipalities across Canada. Its timely introduction comes in a season where Dandelions rule the landscape and homeowners are fed up.

The active ingredient of Fiesta is Iron in the form of FeHEDTA.

Fiesta iron is chelated with hydroxyethylenediaminetriaceticacid (HEDTA) to form FeHEDTA. Fiesta contains 4.43% Iron in the form of FeHEDTA.
VIOLATING Federal Law

If you can't be a good example, then you'll just have to serve as a horrible warning
We are living in the 9|11 Era of Anti Pesticide Terrorism where at least ONE SUBVERSIVE ACT OF TERROR is Perpetrated EVERY SINGLE DAY by enviro lunatics.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FAKE SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, and INTERNET RUMOUR — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

NORAHG is the National Organization Responding against HUJE that seek to harm the Green space industry.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OPPOSED to Anti Pesticide PROHIBITION and the CLOSURE of green spaces under the RIDICULOUS PRETEXT of somehow « saving » the environment.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

Anti Pesticide HUJE are enviro lunatics and lawn haters who particularly DESPISE the golf industry — they are Helpful Underhanded Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS.

There is NO RECOUSE but LITIGATION against Anti Pesticide HUJE.

Another RECOUSE is to SEEK the CANCELLATION of GOVERNMENT GRANTS and REVOCATION of the TAX EXEMPT STATUS of Anti Pesticide Organizations.

HUJE should Get OFF Our grass, and they should Roast In Hell.

NORAHG manages the Library of Force Of Nature Reports and References, which is a VAST ARCHIVE of REPORTS, MEDIA REFERENCES, AUDIO CLIPS, and VIDEOS on Anti Pesticide Terrorist Acts of Subversion.

The purpose of this ARCHIVE is to provide information that will lead to a SUCCESSFUL LITIGATION AGAINST Anti-Pesticide Organizations.

All names, statements, activities, and affiliations have been ARCHIVED for the intention of eventual CRIMINAL CHARGES.

When CRIMINAL CHARGES for FRAUD and CONSPIRACY are laid, legal experts say that the ARCHIVE is sufficient to lead to a SUCCESSFUL PROSECUTION.

NORAHG also produces FORCE OF NATURE, reports that present THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE about environmental issues, including anti pesticide terrorism.

FORCE OF NATURE is a series of reports destined for the green space industry, the environmental terrorist movement, governments, and the media, nationwide across Canada, the United States, and overseas.

FORCE OF NATURE is committed to SOUND SCIENCE, as well as groundbreaking original reporting that informs, entertains, and creates real change.

The Force Of Nature Series of Reports — Agriculture • ALBERTA Conspiracy • Bee Colony Collapse Disorder • Benefits of the Turfgrass Industry • Beyond Pesticides • Bee Books That Screwed Up the World • BRITISH COLUMBIA Conspiracy • Canadian Cancer Society • Canadian Association of Physicians for the Environment • CARNEGIE and Consequences of Lysic Terrorist Prohibition • Controversial Prohibitions • Contests of the Prohibition Conspiracy • Dioxin, Toxic Pesticide Treated Fruits and Vegetables Normaldehyde • Dating Services for Enviromaniacs • David Suzuki Foundation • DOT and Our Letters • Ecojustice Canada • Energy Sector • Environmental Terrorists UNMASKED • Environmental Terrorist Organizations • Environmental Terrorist Prohibition • Environmental Terrorist Propaganda • Environmental Terrorist TERROR • Get Off Our grass • Global Warming, The Scam of Our Lifetime • Glyphosate Herbicide • Goop • Golf Industry • Green Alternatives • Green Party • Halloween Terror • Happy Holidays • Health Canada • Health Concerns with Pest Control Products • Heroes and Their Environmental Terrorist ‘Abusers’• History of Environmental Terror in Canada • History of the Turfgrass Industry • History of US Pest Control Industry • H立志 Speeches • Myth BUSTING • NATIONAL Prohibition • NEW BRUNSWICK Conspiracy • NO Pesticide Exceptions for AGRICULTURE Industries • NO Pesticide Exemption for GOLF Industry • NOVA SCOTIA Conspiracy • North America Free Trade Agreement (NAFTA) • ORANGE COUNTY (CA) Conspiracy • Organic Golf Courses • Organic Maintenance • Organizations of the Prohibition Conspiracy • Pesticide Q & A (Questions and Answers) • Positive Waves (Interesting and Innovative Thinking) • PRINCE EDWARD ISLAND (PEI) Conspiracy • QUEBEC Prohibition • Quotations About Enviromaniacs
Here is a brief summary of Mr. Gathercole's career:

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University • University of Guelph • the first person ever to obtain university degrees and contribute to both the professional lawn care and golf maintenance industries

Expertise in — environmental issues and anti pesticide terrorism • turf and ornamental maintenance and troubleshooting • history of the industry • sales and distribution of seeds, chemicals, fertilizers, and equipment • fertilizer manufacturing and distribution

Notable activities — worked in virtually all aspects of the green space industry, including golf, professional lawn care, distribution, environmental compliance, government negotiations, public affairs, and workplace safety • supervisor, consultant, and programmer for the successful execution of hundreds of thousands of management operations • advisor, instructor, and trainer for thousands of turf and ornamental managers and technicians • pest control certification instructor for thousands of industry workers • chemist and practicing professional lawn care industry • prolific writer for industry publications and newsletters • first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouver / Fraser Valley region • with Dr. David Shetlar, confirmed the presence of Take All Patch as a disease of turf and ornamental grasses • travel and lecture across Canada and around the world.

special contributions — creator of the exception status that has allowed the golf industry to avoid being subjected to anti pesticide prohibition • creator of the signs that are now used for posting after application • co-founder of annual winter convention for Quebec golf course superintendents • the major influence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated daffodils • the only true reliable witness of the events of anti pesticide prohibition in the town of Hudson, Quebec • retired founder of FORCE OF NATURE and A LOOK AT reports

Notable award — the very first man of the year for contributions leading to the successful founding of Quebec professional lawn care industry, which served as a beach-head against anti pesticide activists in the 1980s and 1990s

Legacy — Mr. Gathercole and his colleagues designed and implemented strategies that turned anti pesticide activists to provide peace and prosperity for the entire profession of industry workers • a championship legal action in the town of Hudson, Quebec • launched the largest founding professional lawn care business in Canada • acquired the business revenues of one of the largest suppliers in Canada

Mr. Gathercole is now retired, although his name continues to appear as founder of FORCE OF NATURE and A LOOK AT reports.
