Anti-Pesticide Hero Speaking Out Against TERRORISM

Jacquie Doherty
We Are Living in the 9/11 Era of Anti-Pesticide Terrorism ...

On May 17th, 2012, British Columbia’s Special Committee on Cosmetic Pesticides announced that it WILL NOT RECOMMEND PROHIBITION against the use of pest control products in the Urban Landscape.

During the presentations to the committee, Rob Fleming, the New Democrat Environment Critic, demonstrated a COMPLETE DISREGARD FOR THE PROCESS.

On November 8th, 2011, Fleming got up a few short minutes into a presentation by Dr. Keith Solomon, and left, only to return at the end of the presentation.

Dr. Solomon is a world-renowned toxicologist and expert on pest control products and their effects on human health and the environment.

According to Solomon, there are NO TOXICOLOGICAL OR HEALTH REASONS that justify Anti-Pesticide PROHIBITION.

There is NO EVIDENCE of ANY causal link between the use of pest control products and cancer.

There is NOT a pesticide registered in Canada that causes cancer or has any links to cancer.

Rob Fleming clearly demonstrated that he is an Anti-Pesticide Enviro-Lunatic with NO INTEREST IN THE TRUTH.

New Democratic Party is the POLITICAL SHIELD for Anti-Pesticide and Environmental-Terrorist Organizations.

New Democratic Party HAS A POLITICAL AGENDA TO BAN PEST CONTROL PRODUCTS regardless of the facts presented by world-renowned experts like Dr. Keith Solomon.

On May 17th, 2012, British Columbia’s Special Committee On Cosmetic Pesticides announced that it WILL NOT RECOMMEND PROHIBITION against the use of pest control products in the Urban Landscape.

The Elected Government Officials (a.k.a. Members of the Legislative Assembly, MLAs) serving on the Special Committee On Cosmetic Pesticides were —

- Bill Bennett, MLA (Kootenay East), Chair — Liberal
- Rob Fleming, MLA (Victoria-Swan Lake), Deputy Chair — New Democrat Anti-Pesticide Lunatic
- Scott Fraser, MLA (Alberni-Pacific Rim) — New Democrat Anti-Pesticide Lunatic
- Barry Penner, MLA (Chilliwack-Hope) — Liberal and former Attorney General
- Michael Sather, MLA (Maple Ridge-Pitt Meadows) — New Democrat Anti-Pesticide Lunatic
- John Slater, MLA (Boundary-Similkameen) — Liberal
- Ben Stewart, MLA (Westside-Kelowna) — Liberal
- John Yap, MLA (Richmond-Steveston) — Liberal

The Committee was first appointed in June 2011 and was given the task of examining the scope of a possible PROHIBITION against pest control products used in the Urban Landscape.

New Democrats operate their party as a POLITICAL SHIELD for Anti-Pesticide and Environmental-Terrorist Organizations.

New Democratic Party of British Columbia (BC NDP) is a social-democratic political party. The party currently forms the official opposition to the governing Liberal Party following the 2009 provincial election.

Most of these organizations are presently UNDER INVESTIGATION FOR CHARITY FRAUD AND CONSPIRACY.

These organizations are FUND RAISING, PROFIT-SEEKING, and LOBBYING organizations — they are NOT science, research, health, or physicians’ organizations.

New Democratic Party has made four attempts to bring into law a province-wide PROHIBITION against the use of pest control products in the Urban Landscape.

On May 30th, 2012, Opposition NDP Anti-Pesticides Leader Adrian Dix INTRODUCED A BILL called the Cosmetic Use of Pesticides Control Act in the legislature.
I am well aware the British Columbia’s Special Committee on Cosmetic Pesticides did not have a consensus, but the majority of members agreed THERE WAS NOT SUFFICIENT SCIENTIFIC EVIDENCE TO BAN THE USE OF COSMETIC PESTICIDES.

That is how a democracy works, majority rules.

Am I surprised the New Democratic Party (NDP) were opposed?

Not in the least.

New Democrats have stated that a PROVINCE-WIDE PESTICIDE BAN is one of their election platforms.

I was surprised, however, with one of the NDP committee members’ COMPLETE DISREGARD FOR THE PROCESS.

A colleague and I made a presentation to the committee on behalf the Integrated Environmental Plant Management Association of Western Canada and its members who are certified pesticide applicators.

What Is IEPMA?

The Integrated Environmental Plant Management Association of Western Canada supports the use of pest control products under the guidelines of ...

- Health Canada’s Pest Management Regulatory Agency,
- British Columbia’s Integrated Pest Management Act and Regulations.

Integrated Environmental Plant Management Association of Western Canada DOES NOT SUPPORT FURTHER RESTRICTIONS.

IEPMA believes in a SCIENCE-BASED APPROACH when dealing with pest control products.
No Surprise New Democrats Are Opposed To Pesticides (continued)

As a presenter, I was fortunate to sit in on other presentations that day, one of which was by DR. KEITH SOLOMON, a world-renowned toxicologist and expert on pest control products and their effects on human health and the environment.

You can only imagine my surprise when Rob Fleming, the New Democrat Deputy Chair of the committee, got up a few short minutes into Dr. Solomon’s presentation, and left, only to return at the end of the presentation.

So, am I surprised there was not a « consensus » or « unanimous » findings between committee members?

Not in the least.

The New Democratic Party HAD A POLITICAL AGENDA TO BAN COSMETIC PESTICIDES regardless of the facts presented at those hearings.

Who Is Keith Solomon?

Doctor Keith R. Solomon, Ph.D., is a Professor in the Department of Environmental Biology at the University of Guelph.

Solomon is also Director of the Centre for Toxicology.

He conducts research into the fate and effects of pest control products and other substances in the environment, exposure of humans to pest control products and industrial chemicals, and risk assessment.

Solomon also teaches courses in toxicology and pesticides.

Solomon is a Graduate of Rhodes University in Chemistry and Zoology.
No Surprise New Democrats Are Opposed To Pesticides (continued)

Yes, precautionary measures are taken as they are with many household products or everyday consumer goods that have labels advising proper use.

Will Anti-Pesticide Activists be calling for a ban on all these products as well?

Sign-posting is a requirement in cities like Kamloops, British Columbia.

Fertilizer is applied to our clients’ lawns, so yes, we do leave after-care instructions for the home-owner.

The fact is ... there is NOT a pesticide registered in Canada that causes cancer or has any links to cancer.

It is the job of Health Canada’s Pest Management Regulatory Agency (PMRA) and its 350 qualified scientists to ensure their safety before they can be registered for use.

The PMRA looks at all the data, NOT ONLY A FEW SPECIFICALLY SELECTED EPIDEMIOLOGICAL STUDIES as did Canadian Association of Physicians for the Environment.

The MYTH of Cancer

It is COMMON KNOWLEDGE that there are NO pest control products that are known or probable carcinogens.

It is a MYTH to believe that pest control products somehow cause cancer.

Environmental Protection Agency’s (EPA) and Health Canada’s EXTENSIVE TOXICOLOGY DATABASES INDISPUTABLY PROVE that pest control products are SCIENTIFICALLY SAFE and DO NOT CAUSE CANCER!

Both EPA and Health Canada require each new pest control product to go through about TWO-HUNDRED SEPARATE TESTS to examine health and environmental impacts as well as value, and costing about 250 MILLION DOLLARS.

There is NOT ONE KNOWN CANCER DEATH from the proper use of pest control products used in the Urban Landscape.
No Surprise New Democrats Are Opposed To Pesticides (continued)

For example, over 40,000 studies have been done on 2,4-D Herbicide alone.

I would welcome a list of the many, many effective, non-toxic alternatives referred to by Anti-Pesticide Activists.

Keep in mind all pesticides sold in Canada must go through the same regulatory process.

It is odd how Anti-Pesticide Activists trust the PMRA on the safety of the alternative products but not on the conventional ones, as they all must go through the same scrutiny.

Unless, of course, they are referring to alternatives that do not have a government registration number.

But I’m sure, with their so-called expertise on the issue, Anti-Pesticide Activists are aware that would be illegal.

BOGUS Alternatives

It is IMPOSSIBLE for home-owners or professionals to keep their properties beautiful by using so-called Green Alternative Pesticides.

There are NO viable, efficacious, economical, or low-risk alternatives to replace conventional pest control products.

Green Alternative Pesticides (a.k.a. Organic or Natural Pesticides) are BOGUS and DISMAL FAILURES — they DO NOT WORK and they are NOT INNOVATIVE products.

Overall, Green Alternative Pesticides are INEFFECTIVE, INADEQUATE, HIGH-RISK, MORE TOXIC, and STUNNINGLY EXPENSIVE!

In many cases, Green Alternative Pesticides are questionably HIGHER IN TOXICITY, and pose HIGHER ENVIRONMENTAL RISKS.
Summary of Doctor Keith R. Solomon’s Presentation to British Columbia’s Special Committee On Cosmetic Pesticides, November 8th, 2011

- There are NO TOXICOLOGICAL OR HEALTH REASONS that justify Anti-Pesticide PROHIBITION.
- NOT EVERY pest control product is highly toxic.
- NOT EVERY pest control products is highly dangerous.
- Pest Management Regulatory Agency uses the PRECAUTIONARY APPROACH to set guidelines for exposures for humans.
- At least in home and garden use, most pest control products are actually VERY NON-PERSISTENT.
- There is really A LACK OF EVIDENCE linking pest control product exposure to human risks of cancer.
- There is NO EVIDENCE of ANY causal link between the use of pest control products and cancer.
- Pest control products are LESS TOXIC THAN TABLE SALT.
- EPIDEMIOLOGY STUDIES are really based only on CORRELATION and SUGGESTED LINKS, and they CANNOT ESTABLISH CAUSALITY ON THEIR OWN.
- If Government Officials want to IMPOSE A PESTICIDE BAN FOR POLITICAL REASONS, that’s fine. That’s within their mandate. But if they do that, they should be honest enough to admit that they are actually doing that.
Everyone in the Green Space Industry — no matter where they live — must meet with their Member of the Legislative Assembly (MLA), preferably not from New Democratic Party.

In order to meet and inform the MLA, you must donate the maximum amount to the party, which is 1,100 dollars in British Columbia.

The cost of this donation is insignificant when compared to the catastrophic business losses inflicted by anti-pesticide prohibition.

Any business owner in the Green Space Industry who does not bother to meet with the local MLA is a pitiful fool and an idiot, and does not deserve a career, or a business, or any success.

COMPLAIN, COMPLAIN, COMPLAIN.

Anti-Pesticide Terrorists are NOT CREDIBLE SOURCES OF INFORMATION upon which political decisions are made — they LIE and LIE and LIE.

There is NO RECURSE but OFFICIAL COMPLAINTS as well as LITIGATION against Anti-Pesticide Terrorists.

They DO NOT DESERVE ANY DONATIONS OR SUPPORT.
They DO NOT DESERVE ANY GOVERNMENT GRANTS.

Nor do they deserve TAX-EXEMPT STATUSES.

They DO deserve to FACE THE SPOTLIGHT OF SCRUTINY and THE TERROR OF THE COURTS!

Anti-Pesticide Terrorists in organizations like Canadian Cancer Society are presently UNDER INVESTIGATION FOR CHARITY FRAUD AND CONSPIRACY.

The Government of Canada DOES NOT want its society to continue living in the 9|11 Era of Anti-Pesticide Enviro-Lunatic Profit-Hungry Terrorism!

And neither should anyone in the Green Space Industry.

All names, statements, activities, and affiliations have been ARCHIVED for anyone wishing to lodge an OFFICIAL COMPLAINT or lay CRIMINAL CHARGES against Anti-Pesticide Terrorists.

On The Pesticide Truths Web-Site, NORAHG manages a VAST ARCHIVE of REPORTS, MEDIA REFERENCES, AUDIO CLIPS, and VIDEOS on ALL Anti-Pesticide Terrorists.
We know who they are, and where they are hiding, and what they have said and done.

When CRIMINAL CHARGES FOR FRAUD AND CONSPIRACY ARE LAID, legal experts say that the NORAHG ARCHIVE is sufficient to lead to a SUCCESSFUL PROSECUTION against Anti-Pesticide Terrorists!

Business owners in the Green Space Industry should talk to their lawyers, members of the legislative assembly, and local media outlets.

Thanks to The Pesticide Truths Web-Site, they have all the DOCUMENTED EVIDENCE that they need.

LET THESE TERRORISTS FACE THE SPOTLIGHT OF SCRUTINY and THE TERROR OF THE COURTS!

Anti-Pesticide Terrorists are GOVERNMENT-FINANCED with TAX-FREE MONEY — they must not be allowed this money to defend themselves in court.

Demand a REVOCATION of their organizations’ REGISTERED CHARITY TAX-EXEMPT STATUS!

SUE THE BASTERDS’ BRAINS OUT!
STOP lying around doing NOTHING against Anti-Pesticide Terrorists
We are living in the 9|11 Era of Anti Pesticide Terrorism where at least ONE SUBVERSIVE ACT OF TERROR is Perpetrated EVERY SINGLE DAY by enviro lunatics.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FAKE SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, and INTERNET RUMOUR — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

NORAHG is the National Organization Responding Against HIJE that seek to harm the Green space industry.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OPPOSED to Anti Pesticide PROHIBITION and the CLOSURE of green spaces under the RIDICULOUS PRETEXT of somehow « saving » the environment.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

Anti Pesticide HIJE are enviro lunatics and lawn haters who particularly DESPISE the golf industry — they are Hateful Underhanded Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS.

There is NO RECOURSE but LITIGATION against Anti Pesticide HIJE.

Another RECOURSE is to SEEK the CANCELLATION of GOVERNMENT GRANTS and REVOCATION of the TAX EXEMPT STATUS of Anti Pesticide Organizations.

HIJE should Get OFF Our grass, and they should Roast In Hell.

NORAHG manages the Library of Force Of Nature Reports and References, which is a VAST ARCHIVE of REPORTS, MEDIA REFERENCES, AUDIO CLIPS, and VIDEOS on ALL Anti Pesticide Terrorist Acts of Subversion.

The purpose of the ARCHIVE is to provide Information that will lead to a SUCCESSFUL LITIGATION AGAINST Anti-Pesticide Organizations.

All names, statements, activities, and affiliations have been ARCHIVED for the intention of eventual CRIMINAL CHARGES.

When CRIMINAL CHARGES for FRAUD and CONSPIRACY are laid, legal experts say that the ARCHIVE is sufficient to lead to a SUCCESSFUL PROSECUTION !

NORAHG also produces FORCE OF NATURE, reports that present THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE about environmental issues, including anti pesticide terrorism.

FORCE OF NATURE is a series of reports destined for the green space industry, the environmental terrorism movement, governments, and the media, nationwide across Canada, the United States, and overseas.

FORCE OF NATURE is committed to SOUND SCIENCE, as well as ground breaking original reporting that informs, entertains, and creates real change.

FORCE OF NATURE, A LOOK AT, and their various incarnations, was the brainchild of William H. Gathercole and his colleagues in 1981. Mr. Gathercole is now retired, although his name continues to appear as founder.

Here is a brief summary of Mr. Gathercole's career —

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University, University of Guelph, the first person ever to obtain university degrees and contribute to both the professional lawn care and golf maintenance industries.

Expertise in — environmental issues and anti pesticide terrorism, turf and ornamental maintenance and troubleshooting

history of the industry, sales and distribution of seeds, chemicals, fertilizers, and equipment, fertilizer manufacturing and distribution

Notable activities — worked in virtually all aspects of the green space industry, including golf, professional lawn care, distribution, environmental compliance, public relations, capital, and workplace safety, supervisor, consultant, and manager for the successful execution of hundreds of thousands of management operations in the golf and urban landscape, as well as millions of pest control applications, advisor, instructor, and trainer for thousands of turf and ornamental managers, and technicians, pesticide certification instructor for thousands of industry workers, founder of the modern professional lawn care industry, prolific writer for industry publications, and mail-order experts. Mr. Gathercole continues to appear in the industry's most influential books, magazines, and websites. Mr. Gathercole is now retired, although his name continues to appear as founder.

Special contributions — creator of the exception status that has allowed the golf industry to avoid being subjected to anti pesticide prohibition, co-founder of annual winter convention for Quebec golf course superintendents, major influence in the decision by Cancer Society to stop selling for profit pesticide treated daffodils, the only true reliable witness of the events of anti pesticide prohibition in the town of Hudson, Quebec, retired founder of "FORCE OF NATURE" and A LOOK AT reports

Notable award — the very first man of the year for contributions leading to the successful founding of Quebec professional lawn care industry, which served as a beach-head against anti pesticide activists in the 1980s and 1990s, the major influence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated daffodils, the only true reliable witness of the events of anti pesticide prohibition in the town of Hudson, Quebec. Mr. Gathercole is now retired, although his name continues to appear as founder of "FORCE OF NATURE" and A LOOK AT reports.
