

**LETTER TO THE EDITOR. THE RECORD. NEW WESTMINSTER, BRITISH COLUMBIA.
RESPONSE TO WARREN BELL & GIDEON FORMAN CONCERNING THE ENVIRONMENTAL
FACTOR. AUGUST 12th, 2011.**

Warren Bell and Gideon Forman are BOTH INCORRECT !

There was NO BUSINESS EXPANSION because of the PROHIBITION of pest control products, and CERTAINLY NOT with the SMALL BUSINESS called The Environmental Factor.

The story of The Environmental Factor is NOT a good example of successful SMALL BUSINESS GROWTH under the PROHIBITION of pest control products.

The Environmental Factor was/is a MINOR SUPPLIER of Green Alternatives that supposedly replace PROHIBITED conventional pest control products.

Despite views to the contrary, it did NOT have a SUSTAINED 400 per cent increase in sales.

Its so-called growth was ARTIFICIAL, and NOT INFLUENCED BY LEGITIMATE BUSINESS DEVELOPMENT in the sale of Green Alternative products and Organic Lawn Care services.

In fact, ITS SO-CALLED GROWTH WAS MORE INFLUENCED BY GOVERNMENT GRANTS — and NOT LEGITIMATE SUCCESSFUL SMALL BUSINESS GROWTH !

Moreover, The Environmental Factor is an example of a MINOR SUPPLIER that ostensibly CONSPIRED TO IMPOSE PROHIBITION of conventional pest control products, and then, ATTEMPTING to move in with its own line of STUNNINGLY EXPENSIVE BUT BOGUS, INEFFECTIVE, GREEN ALTERNATIVE PRODUCTS AND SERVICES !?!?

The Environmental Factor was even FEATURED in a PROHIBITION PROPAGANDA VIDEO produced by Gideon Forman.

Unfortunately, since 2009, The Environmental Factor's BUSINESS GROWTH SEVERELY DECLINED BECAUSE ...

- demand PLUMMETED for its granular Corn Gluten Meal product line
- several of its lawn care franchises FELL INTO BANKRUPTCY

So, was there SMALL BUSINESS GROWTH !?!? — YES, from GOVERNMENT GRANTS !

In fact, the Government of Ontario showed its gratitude to several organizations that CONSPIRED TO IMPOSE PROHIBITION of conventional pest control products through GOVERNMENT GRANTS dispensed by the Agricultural Adaptation Council.

Agricultural Adaptation Council

Not surprisingly, PROHIBITION brought with it an urgent need to develop so-called Green Alternatives or « *new approaches* » to the use of conventional pest control products.

In 2010, the Government of Ontario, through the Ministry of Environment, provided an initial 480,000 DOLLARS to the Agricultural Adaptation Council (AAC) to DISPENSE GOVERNMENT GRANTS (i.e. PAY-OFFS) to « *research* » so-called « *new approaches* » to pest control.

The Environmental Factor BENEFITED from this FREE TAX-PAYER MONEY with a 30,000-DOLLAR PAY-OFF under the guise of « *research* ».

It must be noted that The Environmental Factor is NOT a research organization, nor does it have any experts capable of executing a legitimate research program.

The PRETEXT FOR THE GOVERNMENT GRANT PAY-OFF was « *research* » into the Green Alternative control of weeds with Hydrolyzed Liquid Corn Gluten Herbicide, compared to the granular formulation.

University research has already concluded that Corn Gluten Meal Herbicide IS A DISMAL FAILURE as a weed control product.

University research has already proven that Corn Gluten Meal DOES NOT CONTROL ANY WEEDS, in ANY trials, under ANY circumstances.

City of Oshawa

The Environmental Factor also BENEFITED FROM FREE TAX-PAYER MONEY FROM THE CITY OF OSHAWA, ONTARIO.

Since 2009, The Environmental Factor has been on some form of Oshawa payroll for AT LEAST 25,000 DOLLARS, dispensed in small amounts since 2009.

THE PRETEXT FOR THE OSHAWA GRANT PAY-OFFS was « *research* » into the Green Alternative control of Chinch Bugs with Neem Oil Insecticide.

NEEM OIL is NOT Health-Canada-Approved and it is FEDERALLY-ILLEGAL to use in Canada.

Here are some examples of the OSHAWA GRANT PAY-OFFS —

- June 2009, 12,678.75 dollars
- August 2009, 973.50 dollars
- June 2010, 5,581.50 dollars
- September 2010, 6,191.27 dollars

Again, The Environmental Factor is NOT a research organization; furthermore, The Environmental Factor is NOT a good example of successful SMALL BUSINESS GROWTH under PROHIBITION — there are NO PROHIBITION SUCCESS STORIES.
