LETTER TO THE EDITOR
RESPONSE TO PATTI MOORE
THE BULLETIN
KIMBERLEY, BRITISH COLUMBIA

Enviro-Poll

Patti Moore operates as a PAID LOBBYIST with Canadian-Cancer-Society.

It is not surprising that Moore reports that her organization's ENVIRO-POLL indicates that pest control products are somehow harmful to the environment.

A poll BOUGHT and PAID FOR by Canadian-Cancer-Society CANNOT possibly be considered as legitimate since this organization has INCESSANTLY CONSPIRED to PROHIBIT pest control products used in the Urban Landscape.

Sadly, this Enviro-Poll was commissioned by MISAPPROPRIATING and SQUANDERING PUBLIC MONEY THAT WAS NOT DONATED FOR THIS PURPOSE.

A MORE LEGITIMATE POLL, conducted by Canadian Consumer Specialty Products Association (CCSPA), indicated that ...

- The VAST MAJORITY of residents FAVOUR THE CONTINUED USE OF PEST CONTROL PRODUCTS around their homes and in public green spaces
- Residents are CONFIDENT they can SAFELY USE pest control products, and SUPPORT THE CONTINUED USE OF PEST CONTROL PRODUCTS in the Urban Landscape

Safety of Children

Moore also ALLEGES that CHILDREN are somehow harmed by pest control products.

This is WRONG ! — pest control products DO NOT HARM CHILDREN !

Pest control products are carefully regulated by Health Canada to prevent adverse effects on health and environment.

Moreover, pest control products cause NO HARM, including chronic effects such as CANCER.

Health Canada's assessment of pest control products takes into consideration sensitive groups, such as INFANTS, and CHILDREN.

CHILDREN's physiology, behaviours and habits WHILE PLAYING ON TREATED GRASS are considered by Health Canada when determining the safety of pest control products, and EXTRA SAFETY FACTORS are applied.

Prohibition Farce

Once PROHIBITION is in place, Moore CLAIMS that residents comply.

This is NOT TRUE — Anti-Pesticide PROHIBITION is a FARCE for residents, and here's why ...

- MOST RESIDENTS STILL DO NOT KNOW THE REASONS FOR PROHIBITION — in jurisdictions where PROHIBITION has been legislated, government has done a POOR JOB OF INFORMING THE PUBLIC as to the reasons why greens spaces now LOOK LIKE WEED-INFESTED and INSECT-DESTROYED GARBAGE DUMPS
- MANY RESIDENTS HOARDED PRODUCT PRIOR TO PROHIBITION — residents simply stockpiled products prior to PROHIBITION, and are using them as they see fit — correctly or incorrectly — we will never know, since it is now out of reach of provincial over-sight and regulation that licensed applicators and companies needed to obey — so the misuse of pest control products remains — and PROHIBITION has ENSURED this
- RESIDENTS ARE OBTAINING PRODUCTS FROM OUTSIDE — residents are obtaining products either from other provinces, or mostly from across the border in the United States — it is NOT illegal to own or possess these products, only to apply them — again, the mis-use of products remains — thanks to PROHIBITION

- RESIDENTS ARE USING HOME-MADE AND INTERNET RECIPES — this is where it gets scary — gasoline, kerosene, naphtha, bleach, sodium chloride, nicotine tea, and the list goes on

Prohibition Carnage

Because of Anti-Pesticide PROHIBITION, DAMAGES to the Professional Lawn Care Industry were EXTENSIVE because there were NO valid economical alternatives to replace the prohibited products.

In the Province of Ontario, the PROFESSIONAL LAWN CARE INDUSTRY LOST OVER 500,000,000 DOLLARS.

Professional Lawn Care businesses were forced to TERMINATE many or most of their employees — UP TO 12,500 BECAME UNEMPLOYED.

Observers are expecting 780 BUSINESS FAILURES OR BANKRUPTCIES.

In Ontario, ONE-COMPANY-PER-WEEK DISAPPEARS INTO TOTAL OBLIVION.
