LETTER TO THE EDITOR

RESPONSE TO GIDEON FORMAN

INVERMERE VALLEY ECHO

INVERMERE, BRITISH COLUMBIA

Paul Visentin is ABSOLUTELY CORRECT in his assessment of the Literature Review of pest control products CONCOCTED by Ontario College of Family Physicians (OCFP).

According to Visentin —

« The OCFP report he refers to is a cherry-picked epidemiological report that has been DEBUNKED many times over by the credible scientific community. »

To paraphrase a famous poet, *« Ontario College of Family Physicians uses statistics as a drunken man uses lamp-posts ... for support rather than illumination. »*

BOGUS Literature Review

In 2004, Ontario College of Family Physicians (OCFP) CONCOCTED a Literature Review of pest control products.

Ontario College of Family Physicians is a DISCREDITED RADICAL Anti-Pesticide Organization.

The primary OBJECTIVE of the BOGUS-OCFP-Review had NOTHING TO DO WITH HEALTH but had everything to do with BUSINESS, CASH-FLOW, PROFIT, and INCREASING MEMBERSHIPS AND DONATIONS for Ontario College of Family Physicians.

In return for CONCOCTING the review, OCFP was PAID-FOR-PROFIT by Laidlaw Foundation, an organization that also FINANCIALLY SUPPORTS other Anti-Pesticide Organizations.

The BOGUS-OCFP-Review was also used as a PRETEXT to FINANCE Anti-Pesticide Organizations that CONSPIRED to PROHIBIT pest control products in the Urban Landscape.

The Government of Ontario SPENT OVER 2,000,000 DOLLARS on the CONSPIRACY to PROHIBIT pest control products.

Under the guise of GOVERNMENT GRANTS, PAY-OFFS were provided to Anti-Pesticide Organizations affiliated with Ontario College of Family Physicians.

On April 22nd, 2009, the Government of Ontario ARBITRARILY PROHIBITED pest control products that were, in fact, HEALTH-CANADA-APPROVED, FEDERALLY-LEGAL, and SCIENTIFICALLY-SAFE.

The Government of Ontario spent OVER 2,000,000 DOLLARS on the DESTRUCTION of law-abiding tax-payers and businesses in the Professional Lawn Care Industry.

The Government of Ontario spent OVER 2,000,000 DOLLARS to BASELESSLY SMEAR, FALSELY ACCUSE, GROTESQUELY PUNISH, INNOCENTLY CONVICT, SHAMELESSLY PERSECUTE, and WRONGFULLY DEPRIVE those people working in the Professional Lawn Care Industry who used pest control products that were nonetheless HEALTH-CANADA-APPROVED, FEDERALLY-LEGAL, and SCIENTIFICALLY-SAFE.

The Professional Lawn Care Industry's own TAX-DOLLARS were used to DESTROY its companies, and UNEMPLOY its workers.

Is OCFP MORE KNOWLEDGEABLE Than Health Canada ?!?!?

NO !

Conventional pest control products are SCIENTIFICALLY SAFE since they have been scrutinized and approved by the HUNDREDS of expert scientists at Health Canada !

Evidently, OCFP-Lunatics conveniently considered the hundreds of qualified scientists of Health Canada's respected Pest Management Regulatory Agency to be incompetent and/or incapable of arriving at correct scientific findings concerning conventional pest control products.

In order to allow SOUND SCIENCE to be effectively practiced, it would be preferable leave the interpretation of scientific research to those people who ARE competent to do it — Health Canada, and NOT OCFP–Lunatics.

NO pest control product can be sold or used until Health Canada's scientists have evaluated ALL the existing evidence to determine whether the product meets stringent health and safety requirements.

Overall, when they are used properly, there are NO harmful irreversible effects to health and the environment !

Prohibition NOT Necessary

Any PROHIBITION of pest control products is NOT JUSTIFIED because STRICT REGULATIONS BASED ON SCIENTIFIC RESEARCH ALREADY PROTECT OUR HEALTH and OUR ENVIRONMENT.

PROHIBITIONS, such as the one IMPOSED in Ontario, were 100 per cent Politically–Based and 0 per cent Science–Based.

Incredibly, jurisdictions ARBITRARILY PROHIBIT pest control products that are, in fact, ...

- Health–Canada–Approved
- Federally–Legal
- Safe For Children *
- Scientifically–Safe
- Practically–Non–Toxic
- Cause No Harm
- Do Not Cause Cancer
- Enhance the Urban Landscape
- Good for the Environment

* Except when stored improperly in the home.

In 2011, PROHIBITION led to the DEATH of an elderly man who was forced to hand–pull TOXIC NOXIOUS WEEDS.

PROHIBITION INFLICTED IMMENSE LOSSES to the Professional Lawn Care Industry, in the HUNDREDS OF MILLIONS OF DOLLARS.

Because of PROHIBITION, green spaces were OVER-RUN WITH WEEDS, INFESTED WITH INSECTS, and DISMALLY DESTROYED — they looked like GARBAGE DUMPS.

In fact, when pest control products are used properly, there are NO harmful irreversible effects to health and the environment !

WILLIAM H. GATHERCOLE AND NORAH G

National Organization Responding Against HUJE that seek to harm the Green Space Industry (NORAHG).

NORAHG is a NATIONAL NON-PROFIT NON-PARTISAN organization representing RESPECTED and HIGHLY-RATED TRUE EXPERTS who promote PESTICIDE-REALISM and PESTICIDE-TRUTHS — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

HUJE are enviro-lunatics, anti-pesticide activists, and lawn-haters, who particularly DESPISE the golf industry. They are Hateful Underhanded Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS.
