MEDIA RELEASE

RESPONSE TO GIDEON FORMAN & KATHRYN SEELY

REGARDING MUNICIPAL MOTIONS DEMANDING PROVINCIAL PROHIBITION

PROVINCE OF BRITISH COLUMBIA

Municipal Motions Are a FARCE

According to Anti-Pesticide Activists Gideon Forman and Kathryn Seely, several municipalities in British Columbia have passed motions supporting a province-wide PROHIBITION of pest control products used in the Urban Landscape.

These municipal motions are a FARCE !

These motions are 100 per cent Politically-Based and 0 per cent Science-Based.

These municipalities ARBITRARILY IGNORE the fact that pest control products are HEALTH-CANADA-APPROVED, FEDERALLY-LEGAL, and SCIENTIFICALLY-SAFE.

Poll Says NO PROHIBITION

Municipal politicians should listen to a POLL conducted by Canadian Consumer Specialty Products Association (CCSPA) in British Columbia.

In 2011, CCSPA conducted a POLL in British Columbia that provided the following conclusions —

- The VAST MAJORITY of residents are OPPOSED to the PROHIBITION of conventional pest control products

NORAHG

- The VAST MAJORITY of residents FAVOUR the continued use of pest control products around their homes and in public green spaces
- The VAST MAJORITY of residents said « *yes* » to conventional pest control products
- Only an INFINITELY SMALL number of residents say « *no* » to the use of pest control products
- Residents want to continue to have the option to use pest control products
- Residents SUPPORT THE CONTINUED USE OF PEST CONTROL PRODUCTS in the Urban Landscape

The Fraser Institute Says NO PROHIBITION

Municipal politicians should listen to The Fraser Institute.

The Fraser Institute is the HIGHLY-RATED independent non-profit research and educational organization (THINK-TANK) based in Canada that espouses free market principles.

In 2010, The Fraser Institute was ranked No. 1 among 97 THINK-TANKS in Canada, for the third year in a row, in the University of Pennsylvania's Global Go-To THINK-TANK Index, a global survey of close to 1,500 scholars, policy makers, and journalists.

The report also named The Fraser Institute as the only Canadian organization in the Top 25 leading THINK-TANKS in the world in 2010, out of a global group of 6,480 THINK-TANKS.

According to a 2011 report from The Fraser Institute ...

- PROHIBITIONS on the use of pest control product are ILL-CONCEIVED and DO NOT accurately reflect the current state of scientific knowledge.

NORAHG

- HASTY PROHIBITIONS of pest control products SHOULD NOT BE IMPLEMENTED until the underlying science is conclusive and until a comprehensive analysis of the potential side-effects resulting from the PROHIBITION has been undertaken.

PROHIBITION CARNAGE

Any PROHIBITION of pest control products is NOT JUSTIFIED because STRICT REGULATIONS based on scientific research already PROTECT our health and our environment.

ALL PROHIBITIONS are 100 per cent Politically-Based and 0 per cent Science-Based.

The MAJOR SOURCE of exposure to pest control products is from FOOD SUPPLY, and NOT the Urban Landscape.

PROHIBITION is NOT necessary, and has led to CARNAGE.

In jurisdictions like Ontario, PROHIBITION led to the DEATH of an elderly man who was forced to hand-pull TOXIC NOXIOUS WEEDS.

In jurisdictions where PROHIBITION has been IMPOSED, the Professional Lawn Care Industry has SUFFERED IMMENSE LOSSES, in the HUNDREDS OF MILLIONS OF DOLLARS.

Moreover, because of PROHIBITION, green spaces are OVER-RUN WITH WEEDS, INFESTED WITH INSECTS, and DISMALLY DESTROYED — they look like GARBAGE DUMPS.

PROHIBITION Is NOT Necessary

PROHIBITION is NOT necessary because, overall, when pest control products are used properly, there are NO harmful irreversible effects to health and the environment !

Incredibly, some jurisdictions ARBITRARILY PROHIBIT pest control products.

NORAHG

In fact, pest control products are ...

- Health-Canada-Approved
 - Federally-Legal
 - Safe For Children *
 - Scientifically-Safe
 - Practically-Non-Toxic
 - Good for the Environment
- * Except when stored improperly in the home.

Furthermore, pest control products ...

- Cause No Harm
- Do Not Cause Cancer
- Do Not Run-Off Into Lakes and Streams
- Enhance the Urban Landscape

Quebec Could NOT Validate PROHIBITION

In 2004, Quebec became the first province to ARBITRARILY IMPOSE the PROHIBITION of pest control products like 2,4-D.

Pest control products are SCIENTIFICALLY SAFE and prohibitions are now IRREFUTABLY INVALIDATED.

On May 25th, 2011, Dow AgroSciences, the manufacturer of the pest control product 2,4-D, SETTLED THE NAFTA CHALLENGE CASE with the Canadian government.

NORAHG

The North American Free Trade Agreement, or NAFTA, is an agreement signed by the governments of Canada, Mexico, and the United States, creating a tri-lateral trade block in North America.

2,4-D has been used for the control of broad-leaved weeds in the Urban Landscape SINCE 1946.

2,4-D has a 65-YEAR UNBLEMISHED SAFETY RECORD regarding long-term risk to health.

As part of the agreement, a VICTORY for the company, the GOVERNMENT OF QUEBEC was HUMILIATED into making a STATEMENT saying that ...

*« 2,4-D DOES NOT POSE AN UNACCEPTABLE RISK
to human health or the environment. »*

Quebec was the first province to declare weed control products containing 2,4-D as POSSIBLY carcinogenic, which has now been DEEMED AS FALSE.

On that basis, municipalities in Quebec instituted NEEDLESS, SENSELESS, and MALICIOUS PROHIBITIONS of 2,4-D use as a lawn pest control product.

Other jurisdictions outside of Quebec also CONSPIRED to IMPOSE the Anti-Pesticide PROHIBITIONS of 2,4-D under the PRETEXT that it was a so-called carcinogen.

In fact, ABSOLUTELY NO regulatory body in the world classifies 2,4-D as a human carcinogen — 2,4-D is probably the MOST STUDIED and BEST UNDERSTOOD of ANY chemical — not just pesticide — in existence.

2,4-D DOES NOT POSE AN UNACCEPTABLE RISK to human health or the environment.

Vested Interest

Anti-Pesticide Activists like Gideon Forman and Kathryn Seely have a HUGE VESTED INTEREST IN PERPETUATING IMAGINARY DANGERS about pest control products BECAUSE THEY ARE PAID TO DO SO.

NORAHG

Moreover, Forman and Seely are THE LEAST QUALIFIED TO PROVIDE ANY ADVICE concerning pest control products.

They are NOT CREDIBLE experts on pest control products.

This PROBLEM WITH LACK-OF-ACTIVIST-CREDIBILITY reflects the overall larger problem with ALL Anti-Pesticide Activists.

There are NO Anti-Pesticide Activists who are scientists or researchers with credentials in the field of pest control products.

NONE !

They are NOT COMPETENT to talk about pest control products.

Nonetheless, Anti-Pesticide Activists like Forman and Seely are PARTISAN, ARROGANT, and NARCISSISTIC ENOUGH to DEMAND that other people do things their way.

Anti-Pesticide Activists have a HUGE VESTED INTEREST IN PERPETUATING IMAGINARY DANGERS about pest control products used in the Urban Landscape — it enhances their BUSINESS, CASH-FLOW and PROFIT.
