The Public REJECTS PROHIBITION in B.C.

Where does the public stand on the use of so-called chemical pesticides?

A recent POLL conducted by Canadian Consumer Specialty Products Association ( CCSPA ) showed that the VAST MAJORITY of residents in British Columbia are OPPOSED to the PROHIBITION of conventional pest control products, and they actually FAVOUR the continued use of these products around their homes and in public green spaces.

The Public REJECTS PROHIBITION in Ontario

According to another recent Ontario poll, MORE THAN HALF of Ontario home-owners feel the provincial government DID NOT DO THE RIGHT THING by implementing Anti-Pesticide PROHIBITION.

Ontario home-owners WOULD RATHER HAVE THE BAN SCRAPPED OR MODIFIED.

Indisputable Proof — Pesticides DO NOT Cause Cancer

Pest control products are SCIENTIFICALLY SAFE, and NO HARM WILL OCCUR when they are used according to label directions.

Even Canadian Cancer Society states on several of its web-sites that scientific research DOES NOT PROVIDE A CONCLUSIVE LINK between pesticides and human cancer.

NO CONCLUSIVE LINK (Report)

http://pesticidefacts.com/2012/03/06/indisputable-proof-pesticides-do-not-cause-cancer/

Pest control products like 2,4-D Herbicide have been used for the control of broad-leaved weeds in the Urban Landscape SINCE 1946.

2,4-D has a 65-YEAR UNBLEMISHED SAFETY RECORD regarding long-term risk to health.

Health Canada’s EXTENSIVE TOXICOLOGY DATABASE INDISPUTABLY PROVES that pest control products are SCIENTIFICALLY SAFE since they have been scrutinized and approved by the HUNDREDS of expert scientists at Health Canada!

Health Canada requires each new pest control product to go through about TWO-HUNDRED SEPARATE TESTS to examine health and environmental impacts as well as value, and costing about 250 MILLION DOLLARS.

There are THOUSANDS OF DEATHS per year from KNOWN CANCER-CAUSING SUBSTANCES such as cigarette smoke and alcohol.

There is NOT ONE KNOWN CANCER DEATH from the proper use of pest control products used in the Urban Landscape.
Conversely, Anti-Pesticide Organizations like Canadian Cancer Society have NOT SPENT A SINGLE PENNY to research pest control products.

Anti-Pesticide Activists COULD NOT EVEN BE BOTHERED to have used the EXTENSIVE TOXICOLOGY DATABASE that is available from Health Canada.

They are not only SCIENTIFICALLY IGNORANT, but also LAZY and OBTUSE.

Furthermore, according to American Cancer Society, CANCER RATES AND DEATHS ARE ACTUALLY DROPPING.

**BOGUS Green Alternatives**

It is IMPOSSIBLE for home-owners or professionals to keep their properties beautiful by using so-called Green Alternative Pesticides.

There are NO viable, efficacious, economical, or low-risk alternatives to replace conventional pest control products.

Green Alternative Pesticides (a.k.a. Natural or Eco-Friendly Options) are BOGUS and DISMAL FAILURES — they DO NOT WORK.

A well-maintained conventional lawn and landscape can ONLY BE ACHIEVED WITH CONVENTIONAL pest control products and fertilizers.

Fortunately, CONVENTIONAL pest control products are SAFE, EFFECTIVE, ECONOMICAL, and LOW-RISK.
Mock Consultations Done In Bad Faith

In 2011, the Government of British Columbia invited the public to participate in MOCK-CONSULTATIONS concerning a proposal to PROHIBIT pest control products in the Urban Landscape.

The MOCK-CONSULTATIONS by Special Committee on Cosmetic Pesticides were DONE IN BAD FAITH.

And PROHIBITION will INEVITABLY include the GOLF INDUSTRY.

Any PROHIBITION of pest control products is NOT JUSTIFIED because STRICT REGULATIONS based on scientific research already PROTECT British Columbian health and environment.

If (or when) British Columbia IMPOSES PROHIBITION, it will be 100 per cent Politically-Based and 0 per cent Science-Based.

No Recourse But Litigation

If (or when) British Columbia IMPOSES NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION against pest control products used in the Urban Landscape, there will be NO RECOURSE but LITIGATION against Anti-Pesticide Activists and Government Officials.

Moreover, demands will continue for the CANCELLATION of GOVERNMENT GRANTS and REVOCATION of the TAX EXEMPT STATUS of Anti-Pesticide Organizations like Canadian Cancer Society.
Anti-Pesticide Activists and Government Officials are advised that all names, statements, activities, and affiliations have been ARCHIVED for eventual CRIMINAL CHARGES.

When criminal charges for FRAUD and CONSPIRACY are laid, legal experts say that there is sufficient information to lead to a SUCCESSFUL PROSECUTION!

The Government of British Columbia may wish to consider providing an EXCEPTION STATUS to ALL CERTIFIED APPLICATORS, including those in the Professional Lawn Care Industry.

EXCEPTION STATUSES have been adopted in jurisdictions like Kamloops and Salmon Arm, where Government Officials have left pest control products in the hands of professionally-trained applicators.

NORAHG is the National Organization Responding Against HUJE that seek to harm the Green space industry.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OPPOSED to Anti Pesticide PROHIBITION and the CLOSURE or ABANDONMENT of green spaces under the RIDICULOUS PRETEXT of somehow « saving » the environment.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

NORAHG was the brainchild of William H. Gathercole and his colleagues in 1991. Mr. Gathercole is now retired, although his name continues to appear as founder.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, and INTERNET RUMOUR — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

HUJE are enviro-lunatics, anti-pesticide activists, and lawn-haters, who particularly DESPISE the golf industry.

There is NO RECOUSE but LITIGATION against these HUJE.

Another RECOUSE is to SEEK the CANCELLATION of GOVERNMENT GRANTS and REVOCATION of the TAX EXEMPT STATUS of their organizations.

HUJE should Get OFF Our grASS, and they should Roast In Hell.

NORAHG manages the Library Force Of Nature Reports and References, which is a VAST ARCHIVE of DOCUMENTS, AUDIO CLIPS, and VIDEOS on ALL Anti Pesticide Terrorist Acts of Subversion.

The purpose of this ARCHIVE is to provide information that will lead to a SUCCESSFUL LITIGATION against Anti-Pesticide Vermin.

All names, statements, activities, and affiliations have been ARCHIVED for the intention of eventual CRIMINAL CHARGES.

When CRIMINAL CHARGES for FRAUD and CONSPIRACY are laid, legal experts say that there is sufficient information to lead to a SUCCESSFUL PROSECUTION!
