Pesticides Ban – Over-the-Counter Products

June 30, 2009

Media Release

1 of 9.

The **PROVINCE OF NEW BRUNSWICK** will ban the sale and use of all pesticide products that are registered with the **PEST MANAGEMENT REGULATORY AGENCY OF HEALTH CANADA** as domestic class products (i.e., those that are available for over-the-counter retail sale to the general public) for use in lawn care that meet one or more of the following characteristics :

I. Combination Products

This includes all domestic lawn care products that consist of a pesticide combined or packaged with a fertilizer. This would include fertilizer/herbicide combinations, fertilizer/insecticide combinations, etc.

New Brunswick Prohibition of Pest Control Products. Special Report.

30/03/2009

II. Hose-End Products

This includes all domestic lawn care pesticide products that are designed to be applied using a garden hose. These are most commonly used to apply herbicides over large areas but can also be used for other types of pesticides.

III. Concentrates and Products Requiring Preparation

This applies to all domestic lawn care pesticide products that require mixing, dilution, or some other form of measuring or measurement-related handling by the user prior to application. By way of example, a pesticide that must be poured into or through a measuring device into a diluting agent or into a specialized application device would fall within this category.

2 of 9.

IV. Granular Spreadable Products

This includes all granular and pelletized domestic lawn care pesticide products that are delivered by means of a spreading device. Spreadable herbicide pellets would be the prime example for this category.

V. Pesticide Products Containing the Pesticide Ingredient 2,4-Dichlorophenoxyacetic Acid

All domestic lawn care pesticide products that contain the pesticide ingredient 2,4-dichlorophenoxyacetic acid, which is commonly known as 2,4-D.

New Brunswick Prohibition of Pest Control Products.

Special Report.

30/03/2009

For consumer information the following domestic lawn care pesticide products meet one or more of these criteria, and will be affected by the ban.

FORCE OF NATURE was launched for continuous transmission on the Internet on January 1st, 2009. It is a series of e-newsletters destined for the **GREEN SPACE INDUSTRY**, the **ENVIRONMENTAL MOVEMENT**, politicians, municipalities, and the media, nation-wide across Canada, and parts of the United States. **FORCE OF NATURE** is produced in two parts. First. The **MEDIA REPORT** itself that reports on the current events affecting the future of the **GREEN SPACE INDUSTRY**. Second. **INDEPENDENT PERSPECTIVE**, which is a running commentary, sometimes also of a more technical in nature.

FORCE OF NATURE is the brainchild of William H. Gathercole and his entourage. The opinions expressed in these e-newsletters, even though from an **INDEPENDENT PERSPECTIVE**, may not reflect those of everyone in the **GREEN SPACE INDUSTRY**, or Mr. Gathercole's many associates. Be warned ! Mr. Gathercole and his team may sometimes be very irreverent and fearless with these e-newsletters.

William H. Gathercole holds a degree in Horticulture from the **UNIVERSITY OF GUELPH**, and another pure and applied science degree from **MCGILL UNIVERSITY**. He has worked in virtually all aspects of the **GREEN SPACE INDUSTRY**, including public affairs, personal safety, and environmental issues. Mr. Gathercole has been a consultant and instructor for decades. Mr. Gathercole has been following the evolution of **ENVIRONMENTAL TERRORISM** for over a quarter-century. His involvement in environmental issues reached a fevered pitch in the 1990s, when he orchestrated, with others, legal action against unethical and excessive municipal regulations restricting the use of pest control products. (i.e. the Town of Hudson.) Although he can be accused of being **ANTI-ENVIRONMENT-MOVEMENT**, he is, in fact, simply a strong advocate **FOR** the **GREEN SPACE INDUSTRY**. However, this position has not precluded him from criticizing the industry itself. Nonetheless, his vast knowledge of our long journey with environmental issues is **UNDENIABLE**. (Hopefully !) For many years, Mr. Gathercole has been a contributing columnist for **TURF & RECREATION Magazine**, Canada's Turf and Grounds Maintenance Authority.
