**Leaves
In Disgrace**

Paul Tukey

On August 15th, 2013, Paul Tukey announced that he has officially abandoned his Safelawns Foundation, which he started in 2006.

Years of demands and complaints against Tukey culminated in his demise — a victory for businesses operating in the green space industry.

Overall, Tukey was a destroyer of businesses, a failed journalist, a paid-for-profit anti-pesticide lunatic-terrorist, an illegal non-registered lobbyist, a tax-evader, and a supplier of bogus green alternative products and services.

The Anti-Pesticide Basterd Is Finally Gone !

With his anti-pesticide terrorist-organization, consisting of a single employee, himself, Tukey conspired across North America to prohibit against pest control products used in the urban landscape by supporting bogus organic lawn maintenance practices that did not work.

Tukey could only present unverifiable success stories about such practices that had been internationally-discredited by true experts.

Unfortunately, organic pesticide-free maintenance leads to unbearable and destructive pest problems and disorders.

Without the use of conventional pest control products, anti-pesticide jurisdictions were/are forced to resort to the back-breaking and agonizing job of weed pulling by hand !

Before operating as an paid-for-profit environmental-lunatic-terrorist, and illegal non-registered lobbyist, Paul Tukey was a failed and bankrupt lawn care operator who was apprehended by authorities for applying pest control products without the necessary legal licensing.

Subsequently, he lashed out and defamed his former competitors, and attempted to annihilate the modern lawn care industry that rejected him.

Because of prohibition, Paul Tukey destroyed lawn care businesses, more than almost any other person on the planet.

While operating as an anti-pesticide lunatic-terrorist in Canada, Tukey obtained vast financing to subvert and pollute the justice and legislative systems during a time when legal actions were being launched against his co-conspirators.

Tukey's Forced Departure Is A Tremendous Victory Against Anti-Pesticide Terrorism !

Consequently, demands and complaints were continuously made to have Tukey banned from entering Canada for his role in the subversion and pollution of the justice and legislative systems.

Demands and complaints were also made to have Tukey arrested for the avoidance of the payment of taxes.

Additionally, observers believed that Tukey required investigation in both the United States and Canada.

From 2010 to 2013, Tukey was paid-for-profit to promote the prohibition against pest control products, despite the fact that they were proven to be scientifically-safe.

Also in 2010, Tukey brokered a for-profit-arrangement with Canadian Cancer Society, a radical and contemptible anti-pesticide terrorist-organization that sold-for-profit ...

- Tukey's videos
- Tukey's books
- Tukey's presentations, and
- Tukey's public speaking, as well as
- Tukey's illegal non-registered lobbying services of government officials.

In Canada, Tukey's acts of subversion were directly financed by the following anti-pesticide and environmental-terrorist organizations —

- Awakening Festival in Hudson, Quebec
- Canadian Cancer Society
- Environmental Law Centre in Edmonton, Alberta

The Anti-Pesticide Basterd Is Finally Gone !

- Prince Edward Island Department of Environment Energy and Forestry
- Prince Edward Island Environmental Health Coalition
- Prince Edward Island Environmental Health Co-Op
- Saskatchewan Environmental Society
- Town of Hudson
- University of Ottawa Ecojustice Clinic
- University of Ottawa's Faculty of Law
- University of Ottawa-Ecojustice Environmental Law Clinic
- Western Canada Turfgrass Association (WCTA).

In December 2010, demands and complaints against Tukey successfully resulted in his being banned from the prestigious Canada Blooms Show for 2011.

Tukey is no longer the flavour-of-the-month, and is now a dismal failure, and rumours are now circulating that Tukey can only find work as a sex-worker-manager since female-enviro-lunatics think he is somehow attractive.

Regardless of where Tukey attempts to hide, demands and complaints will continue to be made to have Tukey arrested for the avoidance of the payment of taxes, and for the subversion and pollution of the justice and legislative systems.

Our prayers have been answered, and the master-basterd anti-pesticide destroyer of businesses is gone !

The Tukey Legacy

- Tukey's acts of subversion led to catastrophic and horrendous carnage inflicted by his anti-pesticide prohibitions.
- Tukey's acts of subversion destroyed people's businesses, as well as destroyed their assets, their customers, their homes, their lifestyles, their job security, their families, their children, their loved-ones, and their future.
- Tukey's acts of subversion destroyed communities and their economies, and destroyed law-abiding and legitimate businesses operating in the professional lawn care industry.
- Tukey's acts of subversion destroyed the modern professional lawn care industry — in fact, Tukey destroyed more businesses than almost any other person on the planet.
- Tukey's acts of subversion led to garbage dump green spaces infested with invasive pests.
- Tukey's acts of subversion led to loss of revenues, business failures, bankruptcy, and unemployment for businesses operating in the professional lawn care industry.
- Tukey's acts of subversion led to terror, despair, and destitution for thousands of people dependent on the professional lawn care industry.

The Tukey Legacy (cont)

- Tukey's acts of subversion led to more dangerous playing surfaces with more slipping and tripping injuries for children.
- Tukey's acts of subversion led to the extensive devastation of the professional lawn care industry because there were no valid economical alternatives to replace the prohibited products.
- Tukey's acts of subversion led to the imposition of higher costs for green alternative products, that Tukey derived profit from, under the pretext that they were somehow better for health and environment.
- Tukey's acts of subversion led to the inability of businesses operating in the professional lawn care industry to provide adequate weed and insect control, and led to the inability of keeping their customers satisfied.
- Tukey's acts of subversion led to stunning increases in expenses for the maintenance of green spaces.
- Tukey's acts of subversion led to the termination of many or most of employees working in businesses operating in the professional lawn care industry.
- Tukey's acts of subversion led to unemployment for thousands of people in the professional lawn care industry.
- Tukey's acts of subversion was financially lucrative for Tukey and any organization that helped Tukey conspire to prohibit against pest control products in the urban landscape.
- Tukey's acts of subversion were needless, malicious, reckless, senseless, and unnecessary.
- Tukey's acts of subversion were malicious, reckless, senseless, and unnecessary since pest control products are government-approved, federally-legal, scientifically-safe, practically-non-toxic, and cause no harm.

Thank you
