Global Warming

The Scam of Our Lifetime

Time to Hold Environmental and Climate Doom-Sayers To Account

October 25th, 2010

Tim Ball

Canada Free Press

Selected and adapted excerpts

The 1990 Enviro-Maniac Greenpeace Report on Global Warming said carbon dioxide is added to the atmosphere naturally and UN-NATURALLY.

They define UN-NATURAL as anything humans do — it is part of the THEME OF ENVIRONMENTALISM —

Humans shouldn't be here or tolerated only if they behave as they are told.

Enviro-Maniacs use FALSE IDEAS that are presented OUT-OF-CONTEXT, then left uncorrected by lack of follow-up.

This is especially true if the story is a prediction.

We need a media vehicle to analyze the story in context followed by the aftermath.

It's time for a program on which Doom-Sayers, who profited financially or politically from false stories and predictions, are confronted and held to account.

Here are some recent stories that proved INCORRECT. —

Global Warming

The Scam of Our Lifetime

David Suzuki has spread more environmental misinformation than most

ARCTIC ICE

Stephen Leahy, self-proclaimed International Environmental Journalist, claimed in 2008 that —

Arctic Ice Gone By 2015 — First Time in One million Years.

Leahy said it's well ahead of the 50 to 70 year prediction of the **Intergovernmental Panel on Climate Change (IPCC)**, but they're WRONG as well.

The one-million-year claim is SCIENTIFIC NON-SENSE because three previous inter-glacials were warmer than the current one.

Leahy's source was David Barber, who conveniently got a large research grant to study Arctic ice.

Intergovernmental Panel on Climate Change (IPCC)

EXTINCTION

David Suzuki has spread more environmental misinformation than most.

One involved a 2007 cross-Canada tour claiming EXTINCTIONS of 3 species per hour.

Global Warming

The Scam of Our Lifetime

*Suzuki's real legacy is destroyed economies,
lost jobs and hardship for people, anxious children,
and weakened communities*

« *The extinctions of 3 species per hour* » is an ARTIFICIAL NUMBER from a theory based ON FALSE ASSUMPTIONS proposed by E. O. Wilson.

He ESTIMATED 27,000 species lost per year, which is 3 per hour.

Can someone identify them ?

PACIFIC SALMON

In 2009, **David Suzuki** claimed —

We have witnessed decades of decline for diverse sockeye populations from the Fraser Watershed, some of which are now on the brink of extinction.

The 2010 Sock-Eye Salmon run was the largest in almost 100 years, and Suzuki is silent.

David Suzuki is too busy on a book tour promoting his FALSE LEGACY.

Suzuki's real legacy is destroyed economies, lost jobs and hardship for people, anxious children, and weakened communities.

Global Warming

The Scam of Our Lifetime

*Exploiting false data on salmon and extinction
is a Suzuki family legacy*

Exploiting false data on salmon and extinction is a family legacy.

Suzuki's daughter was a keynote speaker at the 1992 Rio Conference, organized by **Maurice Strong**, the Master of Misinformation and Economic Destruction.

Suzuki's daughter made SALMON AND EXTINCTION the centre of her presentation.

HURRICANES

Predictions about more and stronger hurricanes are ANOTHER BUST.

The Intergovernmental Panel On Climate Change (IPCC) has been COMPLETELY WRONG.

According to Accumulated Cyclone Energy (ACE), hurricanes have DECREASED.

How much money have insurance companies gouged from the public with these false threats ?

Insurance giant Swiss Re has sponsored documentaries and actively promoted global warming.

[Swiss Re is a Swiss re-insurance company. It is the world's second-largest re-insurer, after having acquired GE Insurance Solutions. Founded in 1863, Swiss Re operates through offices in more than 25 countries.]

Global Warming

The Scam of Our Lifetime

Insurance companies even appeared before the United States Congress with Dr. Paul Epstein, SUPPOSED EXPERT from Harvard Medical School, pushing global warming.

Epstein said —

The intense weather extremes associated with warming of the atmosphere and oceans create conditions favorable to « clusters » of disease outbreaks.

This comment is based on the INACCURATE Intergovernmental Panel On Climate Change (IPCC) reports.

It's time to ask these people what they have to say now.

Has Swiss Re reduced premiums for hurricane insurance ?

Has Epstein issued a retraction ?

POLAR BEARS

David Suzuki, Al Gore, and environmental groups have EXPLOITED EMOTIONS AND FEARS ABOUT POLAR BEARS.

FALSE STORIES about them drowning, being malnourished, and in danger of extinction, flooded the media.

The ice is NOT melting, and Polar Bear numbers are INCREASING, but it's never about facts.

Global Warming

The Scam of Our Lifetime

David Suzuki, Al Gore, and environmental groups have exploited emotions and fears about Polar Bears

To SUPPRESS the facts, world **Polar Bear** expert Mitch Taylor, who has lived and researched in the High Arctic for over 30 years, was told NOT to attend a meeting in Copenhagen of the Polar Bear Specialist Group, set up under the International Union for the Conservation of Nature/Species Survival Commission, BECAUSE HE QUESTIONED THE SCIENCE OF GLOBAL WARMING.

Moreover, Inuit leaders fought U.S. attempts to have Polar Bears listed as ENDANGERED with accompanying trade restrictions.

President of Canada's Inuit Mary Simon said —

I don't understand, and many Inuit don't understand to this day, why the U.S. is so intent on actively pursuing the implementation of highly restrictive protections on Polar Bear at the expense of Inuit, despite the fact that the species is one of the most managed species in world, and is NOWHERE NEAR BEING THREATENED WITH EXTINCTION.

This is a direct attack on our rights, culture, hunting practices, conservation and management agreements, and local economies as an Indigenous peoples of the Arctic.

Most do NOT know the economic value of the Polar Bear to the Inuit.

Global Warming

The Scam of Our Lifetime

*Polar Bears are nowhere near
being threatened with extinction*

President of Canada's Inuit Mary Simon said —

The Polar Bear (Ursus maritimus) is a common pool resource that contributes to both the subsistence and monetary aspects of the Nunavut mixed economy through its use as food, the sale of hides in the fur trade, and sport hunt outfitting.

But the Polar Bear is NOT endangered.

A report appeared recently about the Churchill Region, the area where starving bears were previously reported —

If the summer season is any indication of what we have in store for us, this October and November there will be prodigious numbers of Polar Bears in the Churchill region. Bears frequently can be seen in summer, though not normally in the numbers we have seen this year.

ACCOUNTABILITY

Leaders of environmental groups, and all who cry wolf, demand accountability from everyone else.

Now it's their turn, after which they should be BANISHED.

Preferably to the High Arctic, with NO access to the world, so they cannot continue their destructive falsehoods.

FRIENDS OF SCIENCE —
PROVIDING INSIGHT INTO
GLOBAL WARMING

<http://www.friendsofscience.org/>

Our goal is to educate the public about climate science, and through them, bring pressure to bear on governments to engage in public debates on the scientific merits of the hypothesis of human induced global warming, and the various policies that intend to address the issue.

While Friends of Science does not do any original scientific research, it draws on the world-wide body of work by scientists in all fields relating to global climate change.

It is our opinion that the Sun is the main direct and indirect driver of climate change.

Variations in solar activity and cosmic rays correlate to temperature much better than CO₂. This may be because an electromagnetically active sun diverts cosmic rays from hitting the atmosphere. Cosmic rays have been shown experimentally to assist in cloud formation. Fewer cosmic rays result in reduced low cloud cover, which allows more sunlight to warm the Earth's surface.

The United Nations–IPCC reports have been misrepresented by the non-scientific IPCC bureaucrats in preparing the Summary–for–Policy–Makers.

Recent research casts doubt on historical data used by the IPCC. Urban effects have contaminated surface temperature data. Some measured CO₂ levels of the past 180 years appear to be in excess of present levels. Current climate computer models are unsuitable for making reliable climate forecasts mainly because they assume without justification that CO₂ is the major driver of climate. The cosmic ray effects on clouds are ignored. The input assumptions are adjusted to make the temperature projections match recent temperature trends, thereby grossly exaggerating the effects of CO₂ on the climate. The models, in response to CO₂, predict a distinctive temperature profile in the atmosphere, which is totally absent from the observational record.

CO₂ SCIENCE —
CENTER FOR THE STUDY OF CARBON
DIOXIDE AND GLOBAL CHANGE

<http://www.co2science.org/>

The Center for the Study of Carbon Dioxide and Global Change was created to disseminate factual reports and sound commentary on new developments in the world-wide scientific quest to determine the climatic and biological consequences of the ongoing rise in the air's CO₂ content.

It meets this objective through weekly online publication of its CO₂ Science magazine, which contains editorials on topics of current concern and mini-reviews of recently published peer-reviewed scientific journal articles, books, and other educational materials.

In this endeavour, the Center attempts to separate reality from rhetoric in the emotionally-charged debate that swirls around the subject of carbon dioxide and global change.

Force Of Nature presents THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from National Organization Responding Against HUJE that seek to harm the Green Space Industry (NORAHG). It is a series of Reports destined for the Green Space Industry, the Environmental Terror Movement, Governments, and the Media, nationwide across Canada, the United States, and overseas. The information presented in Force Of Nature has been developed for the education and entertainment of the reader by providing a sequence of historical events WITH COMMENTARY. The neutrality of these Reports might be disputed. Don't thank us. It's a public service. And we are glad to do it.

O

HUJE are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each Enviro Maniac Culprit is a misguided adversary, each still deserves our respect. The use of the terms Maniac, Culprit, Terrorist, or Basterd are not accusations of any legal wrong doing. Force Of Nature is simply holding Enviro Maniac Activists accountable for conspiring to change public policies that TERRORIZE, HARM, and THREATEN the Green Space Industry.

HUJE is a term used to describe Enviro Maniac Activists that routinely concoct FEAR MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRACIES that are DESIGNED to SCAM and DECEIVE the public into believing there is some IMAGINARY DANGER with conventional pest control products. HUJE also SCAM and DECEIVE Government Officials into the NEEDLESS, SENSELESS, and MALICIOUS CONSPIRACY to PROHIBIT conventional pest control products that are FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE.

HUJE have created LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, inflicting DESPAIR and DESTITUTION for THOUSANDS of hapless victims throughout the Green Space Industry. The DEPRAVED INDIFFERENCE of Maniac Culprit Terrorist Basterd HUJE is viewed as a form of TERROR, HARM, and THREAT against the Green Space Industry.

This Report provides NO guarantee regarding accuracy or completeness. In no event shall Force Of Nature be liable for any incidental or consequential damages, lost profits, or any indirect damages. Force Of Nature is TOTALLY INDEPENDENT of any trade association or business operating within the Green Space Industry. The events, characters, companies, and organizations, depicted in this Report are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental. All information, excerpts, and pictures contained in this Report were found somewhere on the Internet, and may be considered in the public domain, serving one of the following purposes — archive, education, promotion, publicity, or press release.

Force Of Nature, and its various incarnations, is the brainchild of William H. Gathercole and his colleagues. Mr. Gathercole is a principal FOUNDER of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from MCGILL UNIVERSITY. He has worked in virtually all aspects of the Green Space Industry, including GOLF, PROFESSIONAL LAWN CARE, and CHEMICAL INDUSTRY, and has served in environmental compliance, government negotiations, public affairs, and workplace safety. Mr. Gathercole has supervised, consulted, programmed, and/or overseen the successful and safe execution of HUNDREDS OF THOUSANDS of pest control applications in the urban landscape. He has trained, instructed, and consulted with THOUSANDS of turf managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority.

A

Mr. Gathercole and his colleagues have followed the evolution of ENVIRONMENTAL TERRORISM for over a quarter century. For FIFTEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of the VERMIN OF ENVIRONMENTAL TERROR for the entire Modern Green Space Industry across Canada. Their involvement in Environmental Issues reached a fevered pitch in the 1990s, when he orchestrated, with his colleagues, legal action against the Forces of Environmental Evil in the Town of Hudson, Quebec.

Today, Mr. Gathercole is the ONLY TRUE RELIABLE WITNESS of the Hudson Affair. Mr. Gathercole is personally credited for crafting the Golf Industry Exception Status that endures to this day. He is also the creator of the signs that are now used for posting after application. His vast knowledge of our long journey with Environmental Issues is UNDENIABLE — hopefully ! Mr. Gathercole is now retired, although his name continues to appear as FOUNDER of Force Of Nature.
