

Happy Holidays

Prohibition isn't a form of terror. It's a feeling.
2010 will be a new start on more prohibitions.

<< We're delighted the government has listened to our doctors and nurses and introduced a ban [in Ontario] on lawn and garden pesticides. We still need to ensure the regulations are good and strong, but Ontario is now positioning itself to be a North American leader in this area. >>

Gideon Forman

Fund-Raiser

Canadian Association of Physicians for the Environment

April 22nd, 2008
