

FORCE OF NATURE

THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from
National Organization Responding Against HUJE that seek to harm the Green Space Industry (NORAHG)

The Wisdom of Lorne Hepworth

Government DOES NOT Listen to Rants from Enviro-Lunatics

August 5th, 2011

Lorne Hepworth

Letter to the Editor

The Guardian

[Province of Prince Edward Island]

Selected and adapted excerpts

Lorne Hepworth is president of CropLife Canada, the trade association representing manufacturers, developers and distributors of pest control products, including those designed specifically for urban use.

The Wisdom of Lorne Hepworth

Why is the Government of PRINCE EDWARD ISLAND not listening ?

Why would the government of Prince Edward Island listen to activists like LISA GALLANT when the federal government already regulates pest control products through Health Canada's Pest Management Regulatory Agency ?

Pest control products get a thorough review before they're approved for sale

BACKGROUND INFORMATION FROM AN INDEPENDENT PERSPECTIVE

There are three Environmental-Terrorist-Organizations operating in Prince Edward Island —

- Canadian-Cancer-Society
- Green Party
- Sierra Club

Enviro-Lunatic LISA GALLANT was a member of the 2007 City of Charlottetown ad hoc committee that recommended phasing out the use of pest control products in the Urban Landscape.

Charlottetown is the provincial capital of Prince Edward Island.

The Wisdom of a REAL Expert

Scientifically Safe

What readers should know is that before any pest control product can be sold in Canada it must undergo a comprehensive scientific review and risk assessment by Health Canada.

Through this process, pest control products receive a greater breadth of scrutiny than any other regulated product and only those products that meet Health Canada's strict health and safety standards are registered for sale and use.

BACKGROUND INFORMATION FROM AN INDEPENDENT PERSPECTIVE

Prince Edward Island (PEI or P.E.I.) is a Canadian Atlantic province consisting of an island of the same name, as well as other islands.

This maritime province is the smallest in the nation in both land area and population (excluding the territories), and has about 122,000 residents.

The island has a few other names — « *Garden of the Gulf* », referring to the pastoral scenery and lush agricultural lands throughout the province; and « *Birthplace of Confederation* », referring to the Charlottetown Conference in 1864.

The Wisdom of Lorne Hepworth

Quebec Re-Positioning

The Quebec government, which [Enviro-Lunatic] Lisa Gallant uses as an example of a government that knows what it is doing, recently re-positioned its stance by stating that —

« products containing 2,4-D do not pose an unacceptable risk to human health or the environment. »

This is exactly what the expert scientists at Health Canada have said all along.

BACKGROUND INFORMATION FROM AN INDEPENDENT PERSPECTIVE

Prince Edward Island's PROHIBITION of pest control products — which came into effect April 1, 2010 — differed from legislation proposed in the nearby Province of Nova Scotia, meaning a different set of lawn care products could be sold on either side of the Northumberland Strait.

P.E.I.'s banned list included more than 240 products, many of which contained the chemical 2,4-D.

It also included any pest control product sold in concentrated or granular form.

The legislation mirrored a similar PROHIBITION in the adjoining Province of New Brunswick.

The Wisdom of a REAL Expert

Enviro-Terror Will NEVER Ends

The reality is that the Canadian Cancer Society and numerous other activist groups will continue to want more products banned, for more uses.

This is just the thin edge of a wedge that leads to bans where the repercussions are more threatening to our overall health and well-being because they deny people access to safe living conditions and an abundant supply of healthy food.

BACKGROUND INFORMATION FROM AN INDEPENDENT PERSPECTIVE

The Government of Prince Edward Island (P.E.I.) stopped short of proposing a TOTAL PROHIBITION of pest control products.

So-called controversial ingredients, such as 2,4-D, would still be allowed for use by the GOLF INDUSTRY, but Prince Edward Island has indicated that the Golf Industry Exception Status will eventually be REVOKED.

Here is what the Government of Prince Edward Island said —

<< We're allowing it on GOLF COURSES because it's a major industry for P.E.I. and we're working towards getting off it. >>

<< What we're basically saying is you [the GOLF INDUSTRY] better find a way to get off it over the next couple of years. >>

The Wisdom of Lorne Hepworth

Investor Uncertainty

The divisive debates about pest control product bans will continue as long as municipalities and provinces continue to arbitrarily ban products that have been approved for use by Health Canada.

The uncertainty created by these various levels of government mean that new products will not be brought forward for approval and the public will have fewer and fewer options for controlling the numerous insect and weed infestations affecting their properties.

It's high time that science-based decisions be re-introduced into the pest control products debate.

BACKGROUND INFORMATION FROM AN INDEPENDENT PERSPECTIVE

Now that Canada has become a HAVEN FOR ENVIRO-TERRORIST ACTIVITY, companies and investors SHUN CANADA, and GO ELSEWHERE — this has occurred in the pest control product manufacturing industry.

Canada will no longer benefit from ANY additional investment regarding new technologies in pest control products.

Manufacturers are TERRIFIED at the prospect of investing hundreds of millions of dollars on the research and registration of new products in an unstable Canada.

Businesses abhor operating in markets made UNSTABLE by TERRORISM, whether it is political or environmental.

Lorne Hepworth hepworth@croplife.ca

Dr. Lorne Hepworth is President of CropLife Canada, formerly Crop Protection Institute of Canada, since 1997, as well as its past Vice-President.

CropLife Canada is the trade association representing manufacturers, developers and distributors of pest control products, including those designed specifically for urban use.

Hepworth is chief spokes-person

He is responsible for overall strategic direction and management.

Hepworth is a member of the Canadian Agri-Food Research Council.

He has served on the federal government's Pest Management Advisory Committee and National Biotechnology Advisory Committee; and chaired CropLife International's Stewardship and Sustainable Agriculture Committee.

Hepworth is a graduate of Western College of Veterinary Medicine at University of Saskatchewan.

He was a veterinarian in Alberta and Saskatchewan until 1982, when he was elected Member of the Legislative Assembly for the Constituency of Weyburn, Saskatchewan.

Hepworth served nine years in the Saskatchewan Cabinet, holding portfolios for Agriculture, Education, Finance, and Energy and Mines.

Hepworth maintains a grain farm near Assiniboia, Saskatchewan.

In Letters To The Editor across Canada, Hepworth has personally spoken out against activists and prohibitions on a very frequent basis.

Here are examples of some of Hepworth's wisdom —

<< The day that we start abdicating, and delegating and relegating to political whimsy and polling and fear-mongering and uninformed and misinformed public policy, I think it's a sad day for all of us here in Canada, and particularly Prince Edward Island. >>

<< A province-wide ban on all pesticides is NOT JUSTIFIED because STRICT REGULATIONS BASED ON SCIENTIFIC RESEARCH ALREADY PROTECT OUR HEALTH. >>

<< [The ...] MIS-LEADING CHARACTERIZATION of the Ontario College of Family Physicians' review of pesticide literature is a DISGRACE, although it is typical of activist groups, such as the Canadian Association of Physicians for the Environment, which search far and wide for support of the extreme anti-pesticide position, and yet continue to find themselves unable to point to anything better than the 2004 family physicians' report which is a literature review, not an actual scientific study. >>

Lorne Hepworth (continued)

Here are more examples of Hepworth's wisdom —

<< *If left unchecked, weeds can DESTROY IMPORTANT GREEN SPACES and other costly infrastructure, and ROB CHILDREN of the opportunity to enjoy ever-so-important outdoor activities. For example, pesticides help ensure students have access to SAFE RECREATIONAL SPACES where they can play without the THREAT OF TRIPPING AND INJURING themselves. >>*

<< *If the Canadian Cancer Society has information to back up its pesticide claims, it is irresponsibly squandering its efforts on municipal campaigns. >>*

<< *It's a shame that the Ontario government is unwilling to do the hard work of giving due consideration to the many sides of a thorny issue when there is a vocal minority to appease. Such is the case with Ontario's decision to ban pesticide use on lawns and gardens — a decision that is both short-sighted and mis-guided. >>*

<< *Pesticides are currently one of the MOST REGULATED PRODUCTS you will ever come across. >>*

<< *Surely we can all agree that FACTS AND SCIENCE SHOULD GUIDE THE REGULATION OF PESTICIDES. Unfortunately, activists advocating a ban disagree because in this case, THE FACTS ARE NOT ON THEIR SIDE. And WHEN THE FACTS DON'T SUPPORT THEIR POSITION, ACTIVISTS PREFER TO IGNORE THEM. >>*

<< *The divisive debates about pest control product bans will continue as long as municipalities and provinces continue to arbitrarily ban products that have been APPROVED FOR USE by Health Canada. >>*

<< *The uncertainty created by these various levels of government mean that NEW PRODUCTS WILL NOT BE BROUGHT FORWARD FOR APPROVAL, and the public will have fewer and fewer options for controlling the numerous insect and weed infestations affecting their properties. >>*

<< *The weight of scientific research PROVES that pesticides can be SAFELY USED, and Canadians should feel comfortable if they choose to use them. >>*

<< *Virtually no other consumer product has been subject to the same level of scientific scrutiny and regulatory oversight as pesticides. >>*

<< *What readers should know is that before any pest control product can be sold in Canada, it MUST UNDERGO A COMPREHENSIVE SCIENTIFIC REVIEW AND RISK ASSESSMENT BY HEALTH CANADA. This means that, in addition to OVER TWO-HUNDRED scientific studies covering health and environmental effects, Health Canada examines all studies, and makes a decision based on all of the scientific evidence available. Through this process, pest control products receive a greater breadth of scrutiny than any other regulated product and only those products that meet Health Canada's STRICT HEALTH AND SAFETY STANDARDS are registered for sale and use. >>*

NORAHG

In the 9/11 Era of Environmental-Terror, at least ONE MALICIOUS ACT OF TERROR is Perpetrated EVERY SINGLE DAY by Enviro-Lunatics.

Enviro-Lunatics, devoid of any sound science, have been WRONG For Over 50 Years !

FORCE OF NATURE presents THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from National Organization Responding Against HUJE that seek to harm the Green Space Industry (NORAHG).

HUJE are LAWN HATERS, and particularly DESPISE the Golf Industry. Many HUJE operate Environmental Terrorist Organizations that CONSPIRE to PROHIBIT pest control products, despite the fact that these products are GOVERNMENT APPROVED, FEDERALLY LEGAL, and SCIENTIFICALLY SAFE.

It is a series of reports destined for the green space industry, the environmental terrorist movement, governments, and the media, nationwide across Canada, the United States, and overseas.

The information presented in FORCE OF NATURE has been developed for the education and entertainment of the reader by providing a sequence of historical events WITH COMMENTARY, striving for accuracy in history, politics, and science.

FORCE OF NATURE is TOTALLY INDEPENDENT and NON-PROFIT. Don't thank us. It's a public service. And we are glad to do it. FORCE OF NATURE provides NO guarantee regarding accuracy or completeness. In no event shall FORCE OF NATURE be liable for any incidental or consequential damages, lost profits, or any indirect damages.

All information, excerpts, and pictures contained in FORCE OF NATURE were found somewhere on the Internet, and may be considered in the public domain, serving one of the following purposes — archive, education, promotion, publicity, or press release.

FORCE OF NATURE, and its various incarnations, is the brainchild of William H. Gathercole and his colleagues.

Here is a brief summary of Mr. Gathercole's career —

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University • University of Guelph • the first person ever to obtain university degrees and contribute to both the professional lawn care and golf maintenance industries

Expertise in — environmental issues and environmental terrorism • turf and ornamental maintenance and troubleshooting • history of the industry • sales and distribution of seeds, chemicals, fertilizers, and equipment • fertilizer manufacturing

Notable activities — worked in virtually all aspects of the green space industry, including golf, professional lawn care, distribution, environmental compliance, government negotiations, public affairs, and workplace safety • supervisor, consultant, and, programmer for the successful execution of hundreds of thousands of management operations in the golf and urban landscape, as well as millions of pest control applications • advisor, instructor, and trainer for thousands of turf and ornamental managers and technicians • pesticide certification instructor for thousands of industry workers • founder of the modern professional lawn care industry • prolific writer for industry publications and e-newsletters • first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouver/Fraser Valley region • with Dr. Peter Dernoeden, confirmed the presence of Take-All Patch as a disease of turf in Eastern Canada • with Dr. David Shetlar, confirmed the presence of Kentucky Bluegrass Scale as an insect pest in South-Western Ontario, and later, in the Montreal and Vancouver regions

Special contributions — creator of the exception status that has allowed the golf industry to avoid being subjected to the prohibition of pest control products • creator of the signs that are now used for posting after application • co-founder of annual winter convention for Quebec golf course superintendents • the major influence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated daffodils • the only true reliable witness who intervened in the development of prohibition in the town of Hudson, Quebec • retired founder of FORCE OF NATURE and A LOOK AT e-newsletters

Notable award — man of the year for contributions leading to the successful founding of Quebec professional lawn care industry, which served as a beach-head against activism in the 1980s and 1990s

Legacy — Mr. Gathercole and his colleagues ... designed and implemented strategies that reined environmental activists to provide peace and prosperity for the entire modern green space industry across Canada • orchestrated legal action against activists in the town of Hudson, Quebec • launched the largest early professional lawn care business in Canada • quadrupled the business revenues of one of the largest suppliers in Canada

Mr. Gathercole is now retired, although his name continues to appear as founder of FORCE OF NATURE and A LOOK AT e-newsletters.

The Force Of Nature Library of Reports contains all FON Reports, as well as PESTICIDE TRUTHS and OTHER FACTS with Audios, Educational Material, History, Links, News, and Videos.

It is a LINK DATABASE created to support efforts to fight and exterminate the Environmental-Lunatic-Vermin with reports developed for the education and entertainment of the reader.

The Force Of Nature Library of Reports — A LOOK AT Career Management, Creeping Bentgrass, Golf Course Maintenance, Green Alternatives, Kentucky Bluegrass, Summer Stress, Turf Diseases, Insects & Weeds • Agriculture • ALBERTA Conspiracy • Bee Colony Collapse Disorder • Bee Colony Collapse Disorder • Benefits of the Turfgrass Industry • Beyond Pesticides • Books That Screwed Up the World • BRITISH COLUMBIA Conspiracy • Canadian Cancer Society • Canadian Association of Physicians for the Environment • CARNAGE and Consequences of Lunatic Terrorist Prohibition • Controversial Prohibitions • Culprits of the Prohibition Conspiracy • Daffodils, Toxic Pesticide Treated Flowers Soaked Formaldehyde • Dating Services for Enviro Maniacs • David Suzuki Foundation • DDT and Our World of Politicized Science • Death and Illness (Alleged) • Departure Letters • Ecojustice Canada • Energy Sector • Environmental Terrorists UNMASKED • Environmental Terrorist Organizations • Enviro PROFIT • Environmental Defence • FAILURE of IPM, Pesticide Manufacturers, Prohibition, Trade Associations • Famous Quotations About Enviro Lunatics • Fertilizer TERROR • Food and Farming • Get Off Our grASS • Global Warming, The Scam of Our Lifetime • Golf Industry • Green Alternatives • Green Party • Halloween Terror • Happy Holidays • Health Canada • Health Concerns with Pest Control Products • Heroes Speaking Out Against Environmental Terror • History of Environmental Terror in Canada • History of the Turfgrass Industry • LIARS and Lying Sacks of (Enviro Maniac) Cwap • Mock Advertisements • Mock Speeches • Myth BUSTING • NATIONAL Prohibition • NEW BRUNSWICK Conspiracy • NO Prohibition Exception for AGRICULTURE Industry • NO Prohibition Exception for GOLF Industry • NOVA SCOTIA Conspiracy • North America Free Trade Agreement (NAFTA) • ONTARIO Conspiracy, Haven For Environmental Terrorists • Ontario College of Family Physicians • Organic Golf Courses • Organic Maintenance • Organizations of the Prohibition Conspiracy • Pesticide Q & A (Questions and Answers) • Positive Waves (Interesting and Innovative Thinking) • PRINCE EDWARD ISLAND (PEI) Conspiracy • QUEBEC Prohibition • Quotations About Enviro Lunatics & Maniacs • Rachel Carson, The Queen of Junk Science • SASKATCHEWAN Conspiracy • Satire, Laughs & Insanity • Terror That NEVER Ends • TERROR Talk and Weasel Words • THE AVENGERS • The Environmental Factor • The FAILURES of Green Alternatives, Organic Golf Courses, BROWN Golf Courses, Integrated Pest Management, Pesticide Free Parks, and Pesticide Manufacturers • The Industry STRIKES Back • The Wilhelm Scream • The Wisdom of REAL Experts • Tukey TERRORISM • TWISTED Precautionary Principle • United States Enviro TERRORISM • UPDATES • VICTORIES Against Terrorists • Video, Audio, and Slide Shows • VIOLATING Federal Law • VIOLATING Prohibition • WARNINGS • Weapons of Ultimate Environmental Terror • Wind Power (Bogus) • 2,4-D
