

LETTER TO THE EDITOR. RESPONSE TO GIDEON FORMAN. MAY 28th, 2011. CALGARY HERALD (CALGARY, ALBERTA).

As usual, Forman and his buddies at Canadian Association of Physicians for the Environment (CAPE) are NOT TRUTHFUL about the CARNAGE caused by the PROHIBITION of pest control products in the Province of Ontario.

PROHIBITION is NOT good for job-creation, and NOT good for business.

In fact, PROHIBITION DESTROYED the Modern Professional Lawn Care Industry.

A Calgary PROHIBITION of pest control products will ALSO lead to DESTROYED ECONOMIES and LOST JOBS AND HARDSHIP for the Professional Lawn Care Industry, just like in the Province of Ontario.

Ontario PROHIBITION of pest control products led to LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, inflicting TERROR, DESPAIR, and DESTITUTION on THOUSANDS of hapless victims throughout the Professional Lawn Care Industry.

In the Province of Ontario, the Professional Lawn Care Industry LOST OVER 500,000,000 DOLLARS, with 8,300 TO 12,500 UNEMPLOYED.

In Ontario, ONE-COMPANY-PER-WEEK DISAPPEARS INTO TOTAL OBLIVION, thanks lunatics like GIDEON FORMAN.

Forman ALLEGES that ONE company once SURGED in growth by 400 per cent — The Environmental Factor. [?!?!]

What Forman FAILS to mention is that, for years, he has acted as a MERE SALES REPRESENTATIVE for HIS OWN BRANDS OF PRODUCTS AND SERVICES through The Environmental Factor (TEF), an organization that supplies BOGUS and so-called Green Alternatives.

Moreover, the ALLEGED growth of TEF was, in fact, VERY SMALL AND SHORT-LIVED in 2009.

More recently, several TEF outlets have CLOSED or FALLEN INTO BANKRUPTCY.

Observers have found TEF to be MISCHIEVOUS, to say the least.

TEF is an example of a supply company seeking the PROHIBITION of conventional pest control products, and then, brandishes its STUNNINGLY EXPENSIVE and HIGHLY COSTLY, but BOGUS, INEFFECTIVE, and often HIGH-RISK Green Alternative products and services.

Forman also suggests that PROHIBITION is somehow GOOD for job creation.
[?!?!]

Forman is NOT ENTIRELY ACCURATE.

Without the use of conventional pest control products, many jurisdictions have had to resort to the back-breaking and agonizing job of WEED PULLING BY HAND !

With several Professional Lawn Care companies, the entire professional labour force has been DEVALORIZED into a group of mere COTTON-PICKERS, thanks to Forman's actions in Ontario.

Moreover, most people CANNOT afford the high cost manual labour required for weed pulling.

Additionally, so-called Green Alternative products DO NOT WORK.

Consequently, the CARNAGE caused by the LUNATIC-PROHIBITION has DESTROYED Ontario's residential lawns and public green spaces.

PROHIBITION denies the use of pest control products that are otherwise HEALTH-CANADA-APPROVED, FEDERALLY-LEGAL, and SCIENTIFICALLY-SAFE.

Why bother with Health Canada since all of its decisions are being reversed by NON-EXPERT PROHIBITIONS ?

A CALGARY PROHIBITION will lead to IMMENSE LOSSES to the Professional Lawn Care Industry.

A CALGARY PROHIBITION will lead to DESTROYED ECONOMIES and LOST JOBS AND HARDSHIP for the Professional Lawn Care Industry.

PROHIBITION is NOT good for job-creation, and NOT good for business.

As usual, Forman is in a CONFLICT-OF-INTEREST, since the principal mandate of his organization is to attract MORE MEMBERS, MORE DONATIONS, and MORE PROFIT by SCAMMING THE PUBLIC with the

CONCOCTION of FRAUDULENT LIES and IMAGINARY DANGER about pest control products.

And Forman also has a VESTED INTEREST in SELLING Green Alternatives.

Forman is NO expert.

Health-Canada-Approved pest control products are SCIENTIFICALLY SAFE since they have been scrutinized and approved by the HUNDREDS of expert scientists at Health Canada.

Overall, when pest control products are used properly, there are NO harmful irreversible effects to health and the environment.
