

RESPONSE TO K. JEAN COTTAM. MAY 19<sup>TH</sup>, 2011. THE ENTERPRISE-BULLETIN. COLLINGWOOD, ONTARIO.

MISS KAZIMIERA is WRONG !

CropLife Canada IS CORRECT — Canada has one of the most modern and stringent regulatory systems in the world to ensure that pest control products are HEALTH-CANADA-APPROVED ARE SCIENTIFICALLY SAFE.

Overall, when they are used properly, there are NO harmful irreversible effects to health and the environment !

MISS KAZIMIERA JEAN COTTAM is merely an 81-year-old divorced chronologically-gifted octogenarian.

MISS KAZIMIERA, and her GHOST-WRITERS, often employ the title of « Doctor » and « PHD » in order to pretend to possess expertise in order to SCAM and DECEIVE the public, and lend credibility to her Enviro-Prohibition ideas.

In fact, MISS KAZIMIERA herself acquired a mere doctorate in RUSSIAN AND EAST EUROPEAN HISTORY from University of Toronto in 1971.

MISS KAZIMIERA alleges having « an intimate knowledge of the pesticide review process at Health Canada ».

Neither she nor any of her Ghost-Writers has certainly have ANY expertise regarding HEALTH CANADA.

In 2004, officials at HEALTH CANADA were deceived by MISS KAZIMIERA's false credentials, and took the time to answer EVERY SINGLE ONE of her concerns regarding pest control products.

NOT ONE of her allegations was confirmed, so MISS KAZIMIERA, with the help of Ghost-Writers, decided to throw an Enviro-Lunatic-Activist tantrum and write to anyone who would dare listen to them.

They profess to want to save the world from pest control products, whether it needs to be saved or not.
