

SEPTEMBER 29th, 2011
LETTER TO THE EDITOR
RESPONSE TO THE GROUP K. JEAN COTTAM
THE LONDON FREE PRESS
LONDON, ONTARIO

The group of anonymous writers at K. Jean Cottam are WRONG !

And the FREEDOM PARTY OF ONTARIO is CORRECT !

Any PROHIBITION of conventional pest control products is NOT JUSTIFIED because STRICT REGULATIONS BASED ON SCIENTIFIC RESEARCH ALREADY PROTECT OUR HEALTH and OUR ENVIRONMENT.

Ontario PROHIBITION was 100 per cent Politically-Based and 0 per cent Science-Based.

Incredibly, the Government of Ontario ARBITRARILY PROHIBITED pest control products that are, in fact, ...

- Health-Canada-Approved,
- Federally-Legal,
- Safe For Children *
- Scientifically-Safe, and
- Practically-Non-Toxic.

* Except when stored improperly in the home.

Because of PROHIBITION, Ontario green spaces are now OVER-RUN WITH WEEDS, INFESTED WITH INSECTS, and DISMALLY DESTROYED — they look like GARBAGE DUMPS.

Here are some examples of the DISMAL and DEADLY CONSEQUENCES of PROHIBITION in Ontario —

The City of GUELPH has public green spaces that LOOK LIKE GARBAGE DUMPS, and, consequently, it has hired a contractor to apply AT LEAST THREE APPLICATIONS of PROHIBITED herbicides to eliminate weeds and grasses.

The City of KINGSTON has sports fields that LOOK LIKE GARBAGE DUMPS — they are OVER-RUN WITH WEED PESTS because there are NO valid economical alternatives to replace PROHIBITED herbicides, and Kingston does NOT have the budget for sodding or slit-seeding in order to repair all of the DAMAGE caused by PROHIBITION.

The City of KINGSTON was also the SCENE OF A DEATH RESULTING FROM PROHIBITION — on June 28th, 2011, an Ontario home-owner did not realize that HAND-WEEDING A TOXIC NOXIOUS WEED on his property would CONTRIBUTE TO HIS DEATH — this home-owner was ULTIMATELY DOOMED by PROHIBITION that prevented him from using the SAFEST and MOST EFFECTIVE products for controlling weeds, and he was FORCED TO PULL THE TOXIC NOXIOUS WEEDS BY HAND, an action that ultimately led to his DEATH.

The City of LONDON, once known as « *The Forest City* », has been UNABLE TO SAVE ITS DYING STREET TREES without the use of pest control products.

The City of SMITHS FALLS was the SCENE OF THE DEATH OF A DOG RESULTING FROM PROHIBITION — on December 10th, 2010, a woman watched her dog choke to death in a KILL-TRAP at Smiths Falls Golf and Country Club — PROHIBITION forced the club into using the DEADLY TRAPS since it was unable to SAFELY and EFFECTIVELY remove the rodents' food sources without the use of conventional insecticides.

The City of WINDSOR has LOST ITS STATUS as « *The City of Roses* » — Windsor is REMOVING MOST OF ITS ORNAMENTAL ROSE PLANTINGS because it is unable to take care of them without conventional pest control products.

The Township of GUELPH-ERAMOSA has road-sides that LOOK LIKE GARBAGE DUMPS — consequently, it has RE-INSTATED HERBICIDE APPLICATIONS where ROAD-SIDES ARE OVER-RUN WITH WEEDS, especially with European Buckthorn.

The ENTIRE Province of ONTARIO is INFESTED with BED-BUGS since many of the most effective insecticides against this indoor insect are PROHIBITED.

The Province of ONTARIO is known as « *The Dandelion Province* » because it is OVER-RUN with Dandelions — the SAFEST and MOST EFFECTIVE herbicides for controlling this broad-leaved weed were ARBITRARILY PROHIBITED.

The ENTIRE Province of ONTARIO is COVERED with ENVIRONMENTAL ALLERGENS, originating from grasses, ragweed and goldenrod that were once controlled by now PROHIBITED products — seasonal allergy sufferers are now, MORE THAN EVER, sniffing, sneezing, and coughing.

PROHIBITION has done nothing more than taken SAFE and EFFECTIVE products out of the hands of Ontarians and created NEGATIVE and DEADLY CONSEQUENCES.

Overall, when conventional pest control products are used properly, there are NO harmful irreversible effects to health and the environment !

Ontario needs FREEDOM in order to RESCIND the NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION of pest control products.

With FREEDOM, Ontario will have beautiful green spaces again.
