Overview from an Independent Perspective

Ignoring the fact that pest control products are SCIENTIFICALLY SAFE, on April 22nd, 2008, the Province of Ontario INTRODUCED legislation for the « *Cosmetic Pesticides Ban Act* ».

Two months later, on June 18th, 2008, Ontario « *rammed* » its « *Cosmetic Pesticides Ban Act* » through the legislature as it launched its NEEDLESS, SENSELESS, and MALICIOUS attack against the Professional Lawn Care Industry and Do-It-Yourself Homeowners. The Agriculture and Golf Industries were provided with an EXCEPTION STATUS.

There are fifteen principal Environmental-Terror-Organizations that have operated within the Province of Ontario. They CONSPIRED to prohibit FEDERALLY LEGAL, SCIENTIFICALLY SAFE, and TOTALLY IRREPLACEABLE pest control products —

- Canadian Association of Physicians for the Environment (CAPE)
- Canadian Cancer Society (CCS)
- Canadian Environmental Law Association (CELA)
- Children's Hospital of Eastern Ontario (CHEO)
- David Suzuki Foundation
- Ecojustice Canada
- Environmental Defence
- Ontario College of Family Physicians (OCFP)
- Ontario Medical Association (OMA) — Pediatrics Section
- Ontario Public Health Association (OPHA)
- Organic Landscape Alliance (OLA)
- Coalition For Pesticide Reform Ontario
- Prevent Cancer Now
- Registered Nurses' Association of Ontario (RNAO)
- The Learning Disabilities Association of Canada (LDAC).

The Ontario legislation IMPLEMENTING a « *cosmetic pesticides ban* » took effect one year later, on April 22nd, 2009. The requirements of the ban are now detailed in Ontario Regulation 63/09 and the Pesticides Act, which was amended by the « *Cosmetic Pesticides Ban Act 2008* ».

The Ontario Regulation now contains the following provisions —

- PROHIBITION of the sale and use of pest control products for « *cosmetic* » (i.e. « *non-essential* ») purposes — EXCLUDING GOLF COURSES, SOME SPORTS FIELDS, SPECIALTY TURF, FORESTRY, and AGRICULTURE.
- ESTABLISHMENT of 11 classes of pest control products —
 - One class of pest control products may NOT be sold or used.
 - Another class may be sold and used according to label directions without any additional restrictions.
 - Another class of products have both « *cosmetic and non-cosmetic* » uses, with specific rules provided for vendors to follow when dealing with potential purchasers. This is intended to ensure that purchasers do not use these products for « *cosmetic* » purposes.

Prohibition was enacted in Ontario because Environmental-Maniac-Activists freely used a CACOPHONY of « *Weasel-Words and Terror-Talk* » in order to DUPE the public and Government Officials.

The Cacophony of Weasel-Words and Terror-Talk in the Province of Ontario 2002-2010

Canadian Association of Physicians for the Environment (CAPE)

There are four people of interest within this organization.

Gideon Forman is Executive Director of Canadian Association of Physicians for the Environment (CAPE).

CAPE is an Environmental-Terror-Organization that has conspired to prohibit federally legal, scientifically safe, and totally irreplaceable pest control products in the Province of Ontario.

Within the Environmental-Terror-Movement, Forman is the current heir apparent to the aging David Suzuki. But, in order to ascend to such a venerable position, Forman will have to address those issues pertaining to his public image. Whereas Suzuki projects the image of the kindly-wise-but-deadly Mister Miyagi from the original Karate Kid movies, Forman's demeanour, with his goatee and stern Fu Manchu look, reminds people of the sinister Emperor Ming (the original and not the current) from the Flash Gordon films.

Enviro Terror Talk

Weasel-Words, Green Talk and Phrases Used by Environmental-Terrorists To Concoct Fear-Mongering, Fraudulent Lies, Misconceptions, Coercion, Threats, Deceptions, Terror, and Paranoid Conspiracies

CAPE was created for concealing the extremist views of supposedly moderate professionals, such as Enviro-Maniac-Health-Care-Workers (i.e. doctors and nurses).

Surprisingly, most CAPE members are not even physicians.

In 2009, Forman stated —

<< You don't have to be a DOCTOR to join [CAPE] — thousands of our members are NOT physicians. >>

Moreover, CAPE represents an infinitesimally small number of doctors. CAPE merely represents less than 4 per cent of all doctors in Canada.

Weasel-Words and Terror-Talk used by Forman —

<< It's [the prohibition in London, Ontario] an enormous victory. The way we see it, the new bylaw PROTECTS 350,000 people. That's a huge number of citizens who will no longer be exposed to some VERY TOXIC SUBSTANCES. >> [?!?!] — 2007

<< While doctors APPLAUD THE PROPOSAL TO PROHIBITION the sale of three-hundred pesticide products, we're disappointed the new Act stops municipalities from passing stronger pesticide legislation. We're also concerned that any exceptions (i.e. the Golf Industry) could permit the very cosmetic pesticides this law is supposed to prohibit. >> — 2008

<< All pesticides POSE RISKS and when it comes to those whose only purpose is changing a property's appearance, the RISK simply isn't worth it. >> — March 2nd, 2009

Warren Bell was Board Member, Co-Founder, and President of Canadian Association of Physicians for the Environment.

Moreover, Bell has had personal affiliations with other organizations that have conspired to prohibit federally legal, scientifically safe, and totally irreplaceable pest control products in the Province of Ontario —

- Board Leader on Medicine and Environment Committee. Canadian Cancer Society, British Columbia Chapter.
- Member of Prevent Cancer Now, the public affairs shield for Canadian Cancer Society.
- An outspoken speaker on near-death or out-of-body experiences. ☺

Weasel-Words and Terror-Talk used by Bell —

<< From any of these sources [concocted only within the Enviro-Terror-Movement], you can find ABUNDANT EVIDENCE that pesticide exposure is CLEARLY ASSOCIATED with cancers, neuro-developmental problems and birth defects, among other HARM. >> — February 24th, 2009

Kapil Khatter is former Executive Director and President of Canadian Association of Physicians for the Environment.

Moreover, Khatter has had multiple affiliations with other organizations that have conspired to prohibit federally legal, scientifically safe, and totally irreplaceable pest control products in the Province of Ontario —

- Board Member at Canadian Environmental Law Association.
- Board Member at Ontario College of Family Physicians.
- Board Member on Environment Program Committee at Laidlaw Foundation, a major source of financing for Environmental-Terror-Organizations.
- Management Consultant at Health Canada.
- Pollution Policy Advisor and Scientific Advisor at Environmental Defence, until 2008.
- President of Board of Directors and Board Member at US-based Health Care Without Harm.
- Project Manager at Canadian Partnership for Children's Health and the Environment.
- Research consultant in matters of health and environment statistics at Statistics Canada.

Weasel-Words and Terror-Talk used by Khatter —

<< Lawn and garden pesticides are just not worth the risks. There are ASSOCIATIONS with non-Hodgkins [sic] lymphoma, prostate cancer and other DISEASES THAT ARE ON THE RISE in Canada. >> — November 2002

<< Approval by the Pesticide Management Regulatory Agency is NOT PROOF of 2,4-D's safety. Leaded gasoline was once government-approved as well. No reasonable person would call leaded gasoline safe. Or take cigarettes. They're certainly approved for sale, but used as directed, they cause lung cancer. >> — February 25th, 2005

Enviro Terror Talk

Weasel-Words, Green Talk and Phrases Used by Environmental-Terrorists To Concoct Fear-Mongering, Fraudulent Lies, Misconceptions, Coercion, Threats, Deceptions, Terror, and Paranoid Conspiracies

<< *The best way to prevent these [alleged] tragic pesticide POISONINGS is by banning TOXIC lawn chemicals. That's why [a few] doctors strongly support legislation – at all levels of government – which phases out the use and sales of these products.* >> – June 21st, 2007

<< *No one contests that these things are POISONS. The big question is exactly how much is HARMFUL ? Up until now a lot of the standards didn't take into account that we are exposed to more than one pesticide at a time and that they MAY INTERACT. [?!?!]* >> – 2008

Farrah Khan is Executive Assistant (Secretary) at Canadian Association of Physicians for the Environment.

Weasel-Words and Terror-Talk used by Khan –

<< *CAPE's many successes with anti-pesticide campaigns have inspired bans in municipalities across the country. Now, CAPE has a strong presence at the provincial level, which means environmental PROTECTION for millions of Canadians.* >> – 2009

<< *A recent Ministry of Environment study reveals that since the law was implemented, pesticide concentrations (like the commonly used herbicide 2,4-D) in urban streams have been reduced by 80%. [?!?!] This is a dramatic decrease in UNNECESSARY POISONS that are LINKED to cancers, birth defects and neurological illness, and great news for wildlife and human health.* >> – June 16th, 2010

I hate
Enviro
Maniacs !

*We must defend the industry,
whatever the cost may be !*
