[annual fertilizaer and weed control on lawn](#)

[BK in Don Mills](#) ³ | Nov 17, 2011

Good service. When weeds still appeared after weed spray, they came back and re-sprayed without argument. Always phoned before spraying. Courteous worker did the spraying, and even shot-sprayed some patio weeds for no additional charge.

[Lawn grass chemical application to eliminate weeds](#)

[Khaled Khadra in Aurora](#)³ | Nov 05, 2011

don't waste your money. They promised to make my lawn green and weed free, and that I won't have to pull out weeds every weekend, this is the exact opposite to what happened. My garden was full of weeds, and their chemicals only weakened my grass. Worse thing is they kept following for payments for the the useless services the provided, I wasted up to 200\$, and terminated their services. Very bad email follow up by company, they only contact you to suck money

 Company Response:

I am sorry that your experience with us was not satisfactory. The products we use cause no negative effects to your regular grass. This was your first season with us and when we inspected the lawn in late May we found no weeds remaining in your backyard but the front lawn required another application which was completed at no charge. The next time we heard from you was an email in early August which we called and left you a message but never heard back from. Your second crop of weeds was starting to grow and your next scheduled weed control was due to come up early to mid August but your email stated that you were not happy with the weeds in your lawn and you had also sold your house. Three services over 2.5 months is enough to show a difference but not enough to remedy all your lawn concerns. The services are designed to improve your lawn over the entire season and to strengthen your grass and reduce the weed population dramatically. Steve Stronge Customer Service Manager

[Lawn Care](#)

[ANTONIA SCARBOROUGH](#)¹ | Nov 03, 2011

This is my first year with a lawn care company, so I wasn't sure what I expect. I am happy that I decided to go with Weed Man Scarborough. The first weed control I got didn't kill much. I called customer service and the young lady that help me was great. She sent out a tech to respray and it was done in 5 business day and the respray was free. Overall, I am happy with the service and I plan to continue with the company.

[Weed and fertilizing on 2 acres for 4 applications](#)

[Carla Del Giudice in Brampton](#)¹ | Oct 21, 2011

More weeds than ever before. We have a large property and they were not able to service the whole thing because their hoses were not long enough even though they said they could. I paid them for fertilizer and weed control although they did nothing. They harrassed me until they received payment because they said their guarantee is to come out as many times as it takes to get rid of weeds. When you call saying the weed control did nothing they

say they have to send out a supervisor. Now

you waste more time dealing with people. If they did their job properly from the beginning their would be no need to deal with supervisors and the office. Never, Never will deal or recommend to anyone. [read less](#)

Company response:

What could this company do to improve their service? I called this company to improve their service. I was told they would call me back in a couple of weeks and instead waited 2 months to call me and because I did not respond immediately they had someone else to the application for me so I would still have to pay the balance under an original offer for 2 months and never received the call back and they would make the balance the concern with you a couple of weeks ago the balance was already adjusted and you had decided to go with a private contractor who had a full size tractor that could drive across your over 2 acre property and spray your weeds. We both agreed he had a better machine to maintain your large property have an option of hand held and application manual spraying your entire property. You paid my office \$357 for a fertilizer and weed control when the original price was \$654. Your account has been closed and we will not be contacting you in the future I am sorry to say. [Weedman lawn service - payment by application](#)

[Selim Shakra in Markham](#)¹ | Oct 14, 2011

agreement with Weedman- service only if authorized - we called.cancelled late July - they still came in Aug & told them discontinue service - they came again Sept while I was away on vacation - sent them email 9/13 saying I'll pay Aug but definitely not Sept - & they still hassle me for Sept payment - terrible customer service

[weed control](#)

[Sujata Duggal in Thornhill](#)⁶ | Sep 23, 2011

Found that I have had to call several times for reapplication. First time did not seem to work on my lawn. On one occasion they committed to a service however later it was denied. They told me that they had a recording so I asked them to find the recording and play it to me. The latter half of the conversation was chopped off! (of course that was the part that was relevant for me)

Company Response:

Please contact my office so we can resolve your weed concern and have a manager look at your backyard to determine the best course of action. 416-269-8333. We are delayed in completing our weed controls because of the weather, no one can apply fiesta weed control when the temperature is around 30 degrees which is was for almost all of July. We have been spraying lawns now for the last couple of days. Please call my office.

Lawn care 2 years subscription

[Irina in Maple](#)² | Aug 06, 2011

I hoped to rely on professionals to fight with lawn weeds... VERY disappointed. They do not know how to do their job. Weeds grown up even better, while grass is stressed down... Never see any weed dried after their application. When I refused their service for the next year (2011), a manager Ken S. called me and promised his own supervision of my lawn. He swore that my lawn would be perfect this year. I believed him... it was my mistake... He never called me after I signed the contract. I am afraid I need to re-grass my lawn from scratch next season. Would not recommend their services to anybody. Agree with John: their calls are very annoying as well even after you said NO. Company Response:

Please call my office and ask for me Steve Stronge Customer Service Manager. If you are not seeing results I need to know. I do not want you feeling as if you wasted your money because the service works, it takes time and sometimes extra free applications but we will kill the weeds I promise. 416-269-8333. When calling please refer to Home Stars Thank you.
