Excellent Work

[Debbie, Scarborough](#) ¹ | May 31, 2012

I am sending this review of the services we have received from Weed Man this year (as well as services over the past 2 years). The technician's Darryl and Trevor who have come to our home have always been very professional and informative. They explain what they are applying to our lawn, the proper procedures that a home owner should follow after each application to insure that the product works and any questions or concerns I may have are answered on site. They work quickly and quietly... [read more](#)

[Friendly Employee](#)

[Karen, Bowmanville](#)¹ | May 31, 2012

Technician Tom is a friendly Weed Man employee who always takes the time to explain what treatment he is doing and ask if we have any concerns or additional areas that may require attention. We are very happy with the service and results to date. Keep up the good work.

[Please and efficient customer service](#)

[Mae, Scarborough](#)¹ | May 31, 2012

Today I spoke to one of your customer service employees, Nicole, and I found her to be the most pleasant and efficient customer service employee I have encountered in a long while. Not only did she know her job but was courteous, efficient and made a difficult situation for me quite relaxing. I also commend you on how you let your customers who are waiting for service know just where they stand in the line up, many other companies could benefit from adapting this. Thank you.

[Weed Control](#)

[Rajan in Scarborough](#)¹ | May 29, 2012

i have hired weed man for weed control and so far I have been happy with their service. Weed management is definitely under control and they have managed to get rid of my dandelions which drive me nuts. I am yet to see the benefit of the fertilizer hope I will benefit from it. The technician (Chris) was very polite and weed man have kept their appointments as promised.

[Weed control](#)[Pete in Markham](#)⁴ | May 24, 2012

I recently hired The Weedman and while their responsiveness to my questions and requests are great...I'm very disappointed in the both the effectiveness of their weed control product as well as the attitude of their technician. After the first application, I saw no improvement whatsoever in the amount of weeds so I called back to request another treatment. When the technician showed up the next day to reapply the treatment, my wife commented to him that it was great that he was able to come out so quickly...his response to her was "GOOD FOR YOU" in a very condescending tone. I expected a lot better from a company with such a well-known brand. [read less](#)

Fewer Weeds

[Charmaine, Scarborough](#)¹ | May 18, 2012

I wanted to comment on the service/weed treatment we have had so far, really we have only had two, however, we wanted to thank you. Our grass is looking beautiful, we have to confess that we were somewhat skeptical at first about your product, (we tried other companies that did not work) but we are now becoming believers. We have fewer weeds, which makes our lives that much easier, we are not spending as much time digging weed, we can concentrate on our gardens instead.
