Do Kamloops' Residents Want To
Be Enslaved By Lunatic Operatives
Who Receive Instructions From
Radical Organizations Like Green
Party & Canadian Cancer Society ?

FORCE OF NATURE | THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from NORAHG
National Organization Responding Against HUUJ that seek to harm the Green Space and other industries

Singh's Pivotal Vote Against Pest Control Products Demonstrates Depraved Indifference Against Businesses That Desperately Rely Upon These Products

On January 1st, 2016, the city of Kamloops, British Columbia, will arbitrarily impose prohibition against pest control products used by businesses operating in the professional lawn care industry. The pivotal vote that allowed this by-law to be enacted was made by Councillor Arjun Singh.

Singh's pivotal vote served NO other useful purpose than to impose a deviant life-style choice that fanatically and arbitrarily prohibits against conventional products that are safe and effective. As a consequence of Singh's pivotal vote, Kamloops' fanatical-prohibition will inflict destruction against decent & tax-paying businesses. These businesses desperately rely upon conventional products in order to avoid losing their customers.

Singh was/is ABSOLUTELY WRONG ! His statements are TOTAL FABRICATIONS and FALSE ALLEGATIONS that have rendered observers SPEECHLESS !

Singh should CUT THE CWAP about his difficulty in making a decision that favoured fanatical-prohibition. His position on the matter has been very clear for several years. <http://wp.me/p1jq40-4ox>

Singh says despite the overwhelming dissatisfaction from a majority of residents who oppose fanatical-prohibition, he will NOT be changing his pivotal vote. Why?!?! Because Singh prefers the role of LAP-DOG for pesticide-hating operatives, like Donovan Cavers, who is a high-ranking official with Green Party of Canada, with ties to Canadian Cancer Society and Pesticide Free BC ... all three are anti-pesticide organizations that seek to impose deviant life-style choices by using fraud and conspiracy in order to create a so-called healthy society. Neither Singh, nor Cavers, nor any of their organizations believe in democracy; they only believe in their CLEAR AND CONFLICTING VESTED INTERESTS within organizations that DO NOT, ethically and morally, represent the will of the people of Kamloops.

Do Kamloops' residents want to be governed by fanatical operatives who receive instructions from radical organizations like Green Party & Canadian Cancer Society?!?!

Singh's pivotal vote will inflict destruction & failure against TWO VERY SPECIFIC LOCAL BUSINESSES. Because of Singh's pivotal vote, the owners, employees, and families dependent on professional lawn care businesses face terror, despair, and destitution. In essence, Singh's pivotal vote will destroy their businesses, their assets, their customers, their homes, their lifestyles, their job security, their families, their children, their loved-ones, and their future. Singh's pivotal vote will hurl them all into squalor and despair, forcing them to burn-in-hell. Singh himself has demonstrated DEPRAVED INDIFFERENCE since he knew full well, by observing other jurisdictions, the carnage that fanatical-prohibition inflicts upon businesses. <http://wp.me/P1jq40-43B> <http://wp.me/P1jq40-238>

According to Singh — « *I'm willing to give up some of the beauty of the city if it reduces the health impacts.* » Singh is NOT a scientist and is NOT a researcher. And yet, he has evaluated, in defiance of all of the scientific assessments performed by Health Canada, that there is some vague and undefined impact when using pest control products. Furthermore, Singh has decided to choose of life-style, which, in this case, is a clear preference to live in an environment that looks like a garbage dump. However, Singh must now face the consequences of the imposition of HIS personal choice on the majority of the community that DOES NOT want to live in this manner. In all likelihood, Singh and other councillors who voted in favour of prohibition will be thrown out of office !

Singh also falsely alleged that « *there's lots of towns that have pesticide bans where the town hasn't used them at all and they have very beautiful public spaces, they have very beautiful gardens and grass.* » With pesticide bans, green spaces EVERYWHERE have become pest-infested and dangerous garbage dumps. <http://wp.me/P1jq40-44g> <http://wp.me/P1jq40-4z3> <http://wp.me/p1jq40-7C4> With pesticide bans, playing surfaces become thin and yellow, and over-run with weeds and infested with insects, resulting in the dismal destruction of safe turf playing surfaces.

Singh further falsely alleged that « *there are good alternatives so we have to promote those and help people get their heads around those.* » There are NO alternatives and practices that work ! NONE ! Seemingly, Singh's pivotal vote in favour of fanatical-prohibition was decided based upon myths. <http://wp.me/p1jq40-3jm> It is IMPOSSIBLE for home-owners or professionals to keep their properties beautiful by using so-called green alternative pesticides and practices. <http://wp.me/p1jq40-24g> There are NO viable, NO efficacious, NO economical, or NO low-risk alternatives to replace conventional pest control products. Green alternative pesticides are bogus and dismal failures — they DO NOT WORK and they are NOT

innovative products. <http://wp.me/p1jq40-24g> By definition, alternatives are inferior, which is why they did NOT win the market-place originally <http://wp.me/p1jq40-5r8> Overall, green alternative pesticides are ineffective, inadequate, inferior, high-risk, more toxic, and stunningly expensive ! In many cases, green alternative pesticides are questionably higher in toxicity, and pose higher environmental risks. Green alternative pesticides and even organic fertilizers often contain living pathogenic organisms, fermented materials, or metals that may be deemed unsafe for children, adults, and the environment.

A well-maintained lawn and landscape can ONLY be achieved with conventional pest control products. These products are absolutely necessary. Fortunately, conventional pest control products are safe, effective, economical, and low-risk.

SINGH HAS NO OTHER RECOURSE THAN TO WITHDRAW HIS VOTE IN FAVOUR OF PROHIBITION, OR FACE THE CONSEQUENCES, EITHER ELECTORAL OR LEGAL !

Kamloops Must Get Rid Of #@!!% Pesticide-Hating Fanatics Like Singh & Cavers !

We are the National Organization Responding Against HUJE that conspire to destroy the Green space and other industries (NORAH G).
