

Recipient: Minister of Health and Justin Trudeau

Letter: Greetings,

Please disclose raw data and report of any safety test aimed to check if glyphosate exposure harms target animals, that ministry has sighted, before approving glyphosate for use as herbicide in Canadian agriculture.

If the government has never cited such a safety test report, and has based approval of glyphosate, the active ingredient in RoundUp herbicide, the most used weed killer chemical in Canada, only on third party opinion, then please cancel approval of this chemical and ask the maker to provide a safety test report with all raw data, for scrutiny by the ministry and also make the document public, for independent verification.

Rose Stevens	Beausejour, MB, Canada	2015-10-28	It is bad enough this carcinogen is in our food but now we find out it is in our tampons too. Is this why we are seeing an increase in cervical cancers? The WHO has said glyphosate is a probable carcinogen and many countries are banning it. What is wrong with Canada.? Why are we not following the precautionary principle? https://www.rt.com/usa/319524-tampons-cotton-glyphosate-monsanto/
grant honsinger	Orillia, Canada	2015-10-28	Tired of corporate and political greed putting profits and power ahead of safety
Ricardo Henriques	Goderich, Canada	2015-10-28	Rona has done nothing but throw the citizens she is sworn to represent under the bus. We need transparency and hard INDEPENDANT scientific evidence on what effect these hazardous and carcinogenic chemicals have on our families and our environment. There is a burden of proof that should be in place before we subject our country and our children to these substances. Citizens come before corporate or government interests!
m Pearson	Blind River, Canada	2015-10-29	I believe that glyphosate is causing many illnesses.
Judy Hoy	Stevensville, MT	2015-10-29	I am signing because newborn babies, wildlife newborns and domestic animal newborns are being severely maimed and killed by exposure to Roundup during development in the womb. Many studies show this.
Barbara Dempster	Edmonton, Canada	2015-10-29	This matters...
Bev Hearn	Calgary, Canada	2015-10-29	i care what we all eat!
Theresa Leclerc	Kapuskasing, Canada	2015-10-29	Having Multiple Chemical Sensitivities, I am very concerned about our future and the food that we eat, in particular GMO's and foods sprayed with glyphosate. We also need stricter regulations on cleaning products as many of them violate all scent-free policies, especially Gain, all Febreze products, and Downy Unstoppable, but that's another petition. Please do more to protect the bees and our environment.
Mara Nelson	Red Deer, Canada	2015-10-29	This is my most important question to every representative I meet. I abhor the thought that this is in our air, water, wild animals, soil, breastmilk and food. Every single body has a different medical reaction to glyphosates. We know this. It has been tested, proven, silenced and proven again. Do not let Canada be off the list of countries that changed this destructive behavior for finance gain to few and ill health to many.
Mark Mancino	Toronto, Canada	2015-10-29	It's time to end the pattern of collusion.
Matthew Calvez	Winnipeg, Canada	2015-10-29	Prove to the Canadian PEOPLE THAT ROUNDUP is safe
Chris Judd	Shawville, Canada	2015-10-29	Glyphosate (Roundup) has been on the market for decades and although "many" non-biased tests point to it being banned in several countries and "carsonigeniic"
April Nairne	Courtice Ontario, Canada	2015-10-29	It's safety has never been proven.
Marty Newcomen	Calgary, Canada	2015-10-29	This chemical is getting into all of our food etc. Carcinogen!!!!
Louis Blararu	winnipeg, Canada	2015-10-29	against glyphosate in my food

Name	Location	Date	Comment
Marla Evans	Niagara Falls, Canada	2015-10-29	I want a healthy life for myself and children and a world that is stable and lasts for years to come
maggie charter-pohl	lethbridge, Canada	2015-10-29	Glyphosate is a known carcinogen and should be banned in Canada. The government needs to be more transparent on this issue and stop being a party to poisoning its people.
Shelley Linteau	Notre Dame, Canada	2015-10-29	https://www.youtube.com/watch?v=yiU3Ndi6itk
John Bell	Truro, Canada	2015-10-29	I'm signing because I want the deadly garbage banned forever! Go organic, and grow real food instead of poison!
Scott Brown	Bradford, Canada	2015-10-29	I'm signing because my family who were ill including myself are all off medications and all in good health.
Halina Kwiatkowska	Delta, Canada	2015-10-29	This is very important to our health and to our planet's health.
BOYD MELLISH	CAMP MORTON, Canada	2015-10-29	THIS IS HARMFUL TO PEOPLE, ANIMALS, BIRDS AND GOOD INSECTS AND SHOULD BE BANNED IN CANADA. HEALTH CANADA SHOULD TEST THIS PRODUCT, NOT TAKE RESULTS FROM MONSANTO.
Matthieu Cameron	Alexandria, Canada	2015-10-29	Glyphosate causes cancer, share the news and stop hiding behind your corrupt bureaucracy and industry funded science! WE deserve to know and BAN it right away!
Josette Wier	Smithers, Canada	2015-10-29	Glyphosate is found in most of our foods, yet there is no epidemiological study that examines the health effects of this possible cancer producing substance. Lobbying by major corporations has to end and our governments do what they are supposed to do which is protect the health and the environment of its citizens. This has been far from being the case.
Morgan Lewis	Coldstream, Canada	2015-10-29	Regardless of the outcome, these documents should be available to the Canadian public.
kerry stevens	Winnipeg, Canada	2015-10-29	I know how dangerous glyphosate is
taylor glover	st. catharines, Canada	2015-10-29	I want a safe and healthy world for our family and future generations.
susan lillemo	Lethbridge, Canada	2015-10-29	I am very concerned about our food - Canadians are sick, our children are sick and glyphosate has been proven enough around the world to be harmful enough to be banned - let us be one of those countries - I beg you...
kelley bench	vernon, Canada	2015-10-29	Because we have a right to know. It matters!
joan diamond	cornwall, Canada	2015-10-29	Glyphosate is making islanders sick. We hope our new government will serve the interests of the people over the interests of corporations like Monsanto.
Dee Nicholson	Toronto, Canada	2015-10-29	For the Ministry of Health to ignore the voices of independent/honest scientists warning government about harm done by products approved by that government is unconscionable. There is no shortage of evidence against Roundup and Glyphosate... so where is the action to protect us all? The stuff is even in our tampons!
Filo MacRae	Collingwood, Canada	2015-10-29	P
Stephanie Seneff	Winchester, MA	2015-10-29	It is urgent that all nations reevaluate the safety of glyphosate in light of the WHO's recent relabelling of glyphosate as "probably carcinogenic." Glyphosate is widely used on core food crops, and, if it is not safe, there are devastating consequences. Governments should be held accountable.
Michaëlle Brass	Utopia, Canada	2015-10-29	I believe this to be a highly dangerous chemical.
Dale Sali	Kelowna, Canada	2015-10-29	We need to know the truth behind this agricultural chemical.

Name	Location	Date	Comment
Tara McDonald	Ottawa, Canada	2015-10-29	<p>There is an extremely unsettling correlation between Glyphosate and numerous diseases. Despite increases in chronic illness, including autism, in our children and the desire of the CMA to force vaccination mandates on Canadian citizens, there isn't even a lab in Canada for MDs to provide surveillance of this malnourishing (probable) carcinogen, and there is NO research on the interaction of GMOs and Glyphosate with potent vaccine ingredients.</p> <p>Through family illness, I learned how Glyphosate works and am honestly quite horrified that we were not protected from it. Transparency regarding Glyphosate is Long Overdue. Please ensure our well-being. Like the author of this petition, my efforts for disclosure have also been thwarted.</p> <p>http://www.organic-systems.org/journal/92/JOS_Volume-9_Number-2_Nov_2014-Swanson-et-al.pdf</p>
Melissa Bordeleau	Cold Lake, Canada	2015-10-29	The public has the right to know
Taelor Branco	Toronto, Canada	2015-10-29	I believe our Government should be working for the people, not against.
Andrea Modrea	Ottawa, Canada	2015-10-29	Glyphosate is killing the planet and all its inhabitants!
Shannon Christensen	Vanscoy, Canada	2015-10-29	Glyphosate is used on GMO crops like corn, wheat and soy and these ingredients are found in at least 70% of our food. If glyphosate is indeed a carcinogen then our land and water are poisonous to us.
Rick Tufts	Reno, NV	2015-10-29	I want proof that GMO's are safe for me, my family and all people of the world.
David Newsham	Winnipeg, Canada	2015-10-29	Profit based science is prone to corruption. Science should be unemotional and seek to find facts. Let a group of unemotional scientists study glyphosate.
Dr.Douglas Lukinuk	Peterborough, Canada	2015-10-29	If the WHO says it's a probable carcinogen we should follow suit.
Sharon Mustos	Toronto, Canada	2015-10-29	I'm signing because I do NOT believe that glyphosate is safe and I challenge the Canadian government to persuade me otherwise. Is not able to do so, please ensure that the food that I feed my children is not contaminated. Thank you.
Therese Mosa	Delburne, Canada	2015-10-29	It is our right to know.
Audrey McDonough	Toronto, Canada	2015-10-29	This cost not only health care dollars but lives in the long run. Let's be proactive in our approach to Canadian health!
Rosalie Jones	Richmond Hill, Canada	2015-10-29	Canadian health is at great risk.
Neveen Korayem	Toronto, Canada	2015-10-29	I found out that the chronic mucus membrane inflammation in my throat and nose is actually the number one symptom of glyphosphate toxicity! This poison is slowly killing us!
Sean Bourassa	Regina, Canada	2015-10-29	Because it's the right thing to do.
marion and Allan lebeau	Ottawa, Canada	2015-10-29	We believe round up is bad for us and especially our children as well as animals, our soil and water.
Rajesh Gupta	London, Canada	2015-10-29	This glyphosate contamination in food stuff is affecting our health.
Tera Vollman	Langley, Canada	2015-10-29	Yes, prove it is safe or not, and then take the appropriate measures. Canadians have a right to know so we can protect our children and future generations.
Duane Vaags	Dugald Manitoba, Canada	2015-10-29	I question the safety of crops grown under the roundup ready program.

Name	Location	Date	Comment
Gaylene Rehwald	Courtenay, Canada	2015-10-29	Health Canada has a very unhealthy habit of rubber stamping 'made in USA' approvals, a trend notoriously amplified under 'free trade' deals like NAFTA and the TPP. We urgently need a return to independent scientific assessment and more transparency of the entire process. Glyphosate toxicity & widespread contamination (food, water, bodies) is emerging as an enormous problem.
Laura Aikin	Vernon, Canada	2015-10-29	I have children and pets. And have used a weed and feed product.
Richard Adam	Delta, Canada	2015-10-29	This is a dangerous product proven so by many different researchers and never should have gained approval.
nick mancuso	Toronto, Canada	2015-10-29	ROUNDUP IS TOXIC AND DEADLY TO ALL FORMS OF LIFE.it is poisoning our food supply for the sake of profit.it is the responsibility of Health Canada to protect us.nm
Marc Gagne	Edmonton Alberta ., Canada	2015-10-29	Time to step up for Canadians there Rona ! You have seen what happens when you do not listen to what the people of Canada are saying to you ?
aimee elzenga	deventer, Netherlands	2015-10-29	The future of the quality of life on earth depends on these kinds of things.
Sharon Leighton	Bedeque, Canada	2015-10-29	I cannot walk near a field that has been sprayed with RoundUp without being ill. I cannot eat food that has been sprayed with RoundUp without being ill. There is something wrong with the stuff, and we need to know the truth about it.
Karl Adihetty	Ajax, Canada	2015-10-29	There is far too much circumstantial, anecdotal and suppressed scientific evidence that indicates Glyphosate safety is far from assured. Release the documents!
timmins ecological beekeeping association same	Timmins, Canada	2015-10-29	Round up is poison it should not be anywhere in our environment , Mr Trudeau must ban it now...
ernestine hormann	New Tecumseth, Canada	2015-10-29	I am signing it because it is not safe and very dangerous for humans, animals & the environment. Glyphosate is not safe & costs cancer.
Gina Markov	Tyne Valley, Canada	2015-10-29	Canada must stop using this Poison NOW!!!
Ariane Gagnon-Légaré	Québec, Canada	2015-10-29	Les preuves que la glyphosate a un impact sur la santé humaine et l'environnement s'accroissent.
Erik Sandberg	West Kelowna, Canada	2015-10-29	I do not like being used as a guinea pig. I think if we are to live as debt slaves, we at least deserve healthy food and not poison
sarah gallant	petitcodiac, Canada	2015-10-29	Not safe and should not be used!!!
Nicole Henzel	Port Coquitlam, Canada	2015-10-29	I do not believe glyphosate is safe for the public in any way shape or form and want it banned in Canada.
Tina Knockaert	Bruxelles, Canada	2015-10-29	We are in an unprecedented time of chemical overload. Glyphosate has never been proven to be safe for human consumption. Roundup is an antibiotic, which in our food, is depleting our probiotics, weakening our immune system, which in turn creates many diseased conditions. We need to speak up and be concerned for our generation and future generations.
Diane Murray Murray	lower sackville NS, Canada	2015-10-29	Tired of censorship from government
Anna-Marie Carr	Wellington, Canada	2015-10-29	I want Justine Trudeau to do something about this.
André Comeau	Quebec City, Canada	2015-10-29	Je suis un scientifique, ex-chercheur fédéral dont les travaux ont été arrêtés sans raison valable par Agriculture Canada. Or j'ai passé des mois entiers à lire la littérature scientifique sur le glyphosate; et je suis convaincu que ce produit est dangereux, et qu'il y a plusieurs mensonges de la part de Monsanto. C'est Séralini qui dit vrai.

Name	Location	Date	Comment
tatiana vicol	Toronto, Canada	2015-10-29	Im signing because I care...
Elaine Hansen	Saskatoon, Canada	2015-10-29	Glyphosate is extremely toxic and it should be banned !
Cody Jamieson	Vaughan, Canada	2015-10-29	I care!
Jeri Malone	Waterville, Canada	2015-10-29	I worry about food safety for my family ..
Brigitta Waller	Langley B.C., Canada	2015-10-29	The use of Glyphosate should be banned in Canada
Emilia Kun	St. Davids, Canada	2015-10-29	We need to know the TRUTH
Sharon Calder	Peterborough, Canada	2015-10-29	supporting this petition for sure!
Carol Lorraine	Mission, Canada	2015-10-29	Please ban it
Lauren Rozon	Regina, Canada	2015-10-29	I'm suffering don't believe I'm celiac. Recently read it's from glyphosate. Not impressed why they would even let the chemical into our food industry.
Jonathan Girard	Saint-Constant, Canada	2015-10-29	This petition is to get the Government to come clean !! Its safety has never been proven to the Canadian people.
crystal brunschot	Leamington, Canada	2015-10-29	For my children and my children's children.
Layce Andrews	Stettler, Canada	2015-10-29	Canada needs to be Monsanto Free!!!!
Fiona Hughes	Toronto, Canada	2015-10-29	I'm worried about the unexplainable increase in chronic illnesses and think they're linked to toxins in our food supply chain, a link that health Canada refuses to acknowledge, putting big business and profits before the health of Canadians.
Donna Magliato	Cliffside Park, NJ	2015-10-29	I'm tired of seeing friends & relatives getting sick!! Stop poisoning our food & ruining the soil!!
Pam Bryan	Edmonton AB, Canada	2015-10-30	There is no excuse for you not doing your job, sharing relevant information and protecting the health of Canadian citizens.
TANYA PENDER	Bala, Canada	2015-10-30	Monsanto death does not belong in food!
Melinda Magee	Etobicoke, Canada	2015-10-30	It has directly effected my health and other members of my family.
Dr. Gerry Bohemier	Beauséjour, Canada	2015-10-30	A WHO stated carcinogen. Let's exercise the precautionary principle. Show us the safety data.
Grace Holderness	Walsh, Canada	2015-10-30	I agree that Glyphosate should have further testing for safety.
Connie Kuramoto	Nanaimo, Canada	2015-10-30	As a horticulturalist, mother, and grandmother I have studied glyphosate for many years and am concerned that the testing of it has not been adequate, especially since it is so widely used on food crops and in landscapes. We need independent testing, not testing done by a lab or university that receives its funding from the company that manufactures this product.
T Gander	Anola, Canada	2015-10-30	The poisoning of our good is causing all of the mental and physical illnesses that have been growing like a wildfire in the past 30 years
Lillian Hrytsak	Sudbury, Canada	2015-10-30	The use of Glyphosate (RoundUp). should be banned
Julia Langabeer	Nanaimo, Canada	2015-10-30	Concerned for my grandkids.
jane emlyn	Lumby, Canada	2015-10-30	It kills, that is what it was produced for.
SUSAN KELSEY	CHERRYVILLE, Canada	2015-10-30	I am sick of these murdering chemicals.
Susan Cunningham	Cranbrook, Canada	2015-10-30	There's no good place for RoundUp. We need our citizens protected, not corporations
Bonnie MacPherson	Stony Plain, Canada	2015-10-30	The previous minister of health didn't even bother to answer me...
Donna Kaster	Ottawa, Canada	2015-10-30	This is important to Canadians

Name	Location	Date	Comment
Amanda Nicholls	winnipeg, Canada	2015-10-30	I want tampons that are organic and safe. I want to trust my food sources again and have faith in the system.
Danielle Whiting	Sarnia, Canada	2015-10-30	Please abolish GMO food. It's slowly but surely killing us.
kelly armstrong	airdrie, Canada	2015-10-30	I work in healthcare ADHD in children is staggering Autism is 1 in 16 Hmmmmmm soon we will have more neurological disorders, cancers, with zero employable people Do the math!
Sue Hegedus	Wellington Ontario, Canada	2015-10-30	I can please & thank you!
Nancy Smith	Calgary, Canada	2015-10-30	Time for the truth to out in all things.
Bev Aalbers	Rockwood, Canada	2015-10-30	Because we want to know how this will affect our health now and years from now. 1 in 68 children with autism. Could this be part of the problem with such a increase in autism. Safer health for children as they are not science experiments.
Kim Darwin	Sechelt, Canada	2015-10-30	I don't want to eat food that has been modified my a man made molecule that was created as a boiler descaling agent that binds to metals and makes them biounavailable. You don't even have to be a trained genetisist or biologist to know that is a recipe for disasterous health consequences for humans, animals, water and soil.
Ruth Abbott	Toronto, Canada	2015-10-30	I want the truth to finally be revealed
Stephanie Barber	Cambridge, Canada	2015-10-31	I don't like chemicals being included in my kids food. I am trying to raise my children to be healthy and pray they don't ever develop cancer. This needs to stop. I want my kids to eat food, not chemicals or gmo's. Just food.
Kelsey Underwood	Paisley, Canada	2015-10-31	The evidence against glyphosate is growing and the issue cannot be ignored any longer. Enough damage has already been done. Please help make a healthier future!
Karen Cormack	Waterloo, Canada	2015-10-31	If our government allows the use of glyphosate for human consumption, don't we have the right to see the proof of its safety?
Brad Webb	surrey, Canada	2015-10-31	We have a right too know
Charlene McGill	Chatham-Kent, Canada	2015-10-31	Every single Canadian will have some percentage of glyphosate in their cells. This is wrong. It has been proven to be carcinogenic. Let's deal with this and stop killing, people, bees, birds and our environment!
Sandie Fischer	Barrie, Canada	2015-10-31	I am dead against glyphosate. It cannot be proven safe because it is already proven unsafe by the European union. Ban it!
Karen Napper	Port Dover, Canada	2015-10-31	Main reason is to stay healthy. You way makes me sick and actually kills people, animals and plants.
John Balatinecz	Toronto, Canada	2015-10-31	This is important!
Dave McFetridge	Malahat, BC, Canada	2015-10-31	Ban this poison!

Name	Location	Date	Comment
Kim Hunter	Vancouver, Canada	2015-10-31	I personally suffered 20 years of escalating "food" allergies" and gut ripping pain until I stumbled on gmo studies that mirrored my own failing health any simple switched to organic varieties of the exact same diet. . 4 days later the bleeding and swelling stopped and I was on the mend. That was 3 years ago. Turns out I have not ONE food allergy to clean food but ZERO tolerance for synthetic chemicals and "novel" GMO. Reaching out to Health Canada, I was sent to a site that looked to written by Monsanto that cited concerned scientists as "anti-gmo campaigners. Using 20 year old guidelines and patent owned 90 days studies if any at all is no less than gross negligence. How many people suffer due to "politics".
Ronald Wall	Duncan, Canada	2015-10-31	I'm signing because I suspect that there is more glyphosate and other pesticides in our food supply, soils, aquatic systems and bodies than there should be.
Sharon Warner	Minden, Canada	2015-10-31	Glyphosate has been already deemed by WHO to be a carcinogen, show us independent studies of it's safety.
Lee Boudreault	Whitecourt, Canada	2015-10-31	should have been done BEFORE contained studies. unacceptable
lenik Novak	Dorval, Canada	2015-10-31	I believe that science says it's danger for people.... please ban using it.
Nancy Stroud	Windsor, Canada	2015-10-31	This is toxic a chemical and i am worried for the well being of my children, grandchildren and myself as all the people in Canada ingesting it.
Lorraine Harrison	Fredericton N,B,, CA	2015-10-31	I would love to see GMOs ban from Canada,,then we have no need to worry about Roundup..GMOs are killing us and for you to allow this to happen to Canadians is horrific..
Ernie Matchett	London, Canada	2015-10-31	The poisoning of our Children and future generations must cease. Health Canada has a legislative responsibility to ensure the Safety of its citizens.
Shelley Giardino	Peterborough, Canada	2015-10-31	I care about the safety of all our crops ... we are eating this food and feeding it to our families! Come on, we have to be responsible to our earth and ourselves!
Marina Jensen	Delta, Canada	2015-10-31	GMOd and pesticides are killing us all
Alex Rozenfeld	Toronto, Canada	2015-10-31	I would like to know more about the studies conducted by Health Canada on the safety of Glyphosate.
Nick Woodard	Saint Catharines, Canada	2015-10-31	Knowledge is never a bad thing.
sherry sloove	blackfalds, Canada	2015-10-31	I'm petitioning because I am fed up with the governments turning a blind eye to what they know is chemicals in our foods that is killing mankind, and it has to STOP! it's called manslaughter no matter how you try to butter it up
Laura Lea Macaulay	Moose Creek, Canada	2015-10-31	This has gone on too long.
Carrie Watson	Kelowna, Canada	2015-10-31	I care about what I eat.
Sarah Gosse	Schomberg, Canada	2015-10-31	Glyphosate is actively used and by no means proven to be safe. Each decade we experience more health issues in the youth and others and it's about time we actively look to eliminate any dangerous, toxic, chemicals from our over saturated life. I firmly stand up for this petition.
Andre Ferrigno	Vancouver, Canada	2015-10-31	Let's move towards logic and reasoning and proof ... ban glyphosate
Shirley Tucker	Maple Ridge, Canada	2015-10-31	Roundup is deadly. Your neighbours are using it on their lawns, it's in our food, it's in our bodies. It is a poison and it should not be allowed in Canada. I believe it is banned in Europe. Why not here?
Cindy Pach	Oshawa, Canada	2015-10-31	I want clean food

Name	Location	Date	Comment
Hill Peppard	Toronto, Canada	2015-10-31	The ETA knew this was a dangerous carcinogen 30 years ago. Why must we go along with the corruption from south of the border. Ban this dangerous chemical now!
dorothy Cox Rothwell dotcox@cogeco.ca	Peterborough, Canada	2015-10-31	I am concerned about all the additives to our foods and the many illnesses that are being linked to additives, our government needs to do more about it, increasing autoimmune diseases linked to them.
Laurea Palmantier	Chilliwack, Canada	2015-10-31	Because I actually care about the planet and all living things, unlike the people the peddle these cancer causing agents!!
Theresa Poulin	Legal, Canada	2015-10-31	Just Hope that the new government will bring back our Country. Canada is a wonderful and rich country and I don't understand why governments are selling for almost for nothing our national resources to the Americans Big Businesses who poison us all.
kristie tait	Cold Lake, Canada	2015-10-31	It's POISON!! And many other countries have banned it's use. We should follow suit.
Mary Anthony	Grande Prairie, Canada	2015-10-31	We have a right to be aware of possible carcinogens so that we can make an informed choice about our food and other products such as tampons for example.
Jessie Honey	Welland, Canada	2015-10-31	I believe that food can either heal us in its natural state or kill us with all the human tampering that is not or has ever been necessary. Non-GMO! No pesticides!!
Blair Laing	Milton, Canada	2015-10-31	Monsanto's claims are false. They are mistaken about our gut bacteria. It does have a shikimate pathway and Glyphosate kills it just like it kills weeds. We seem to be weeds to Monsanto's financial interests.
Nina Dixon	Powell River, Canada	2015-10-31	Roundup is obviously so wrong on many levels. Please feel free to wake up soon.
Carrie Mudrick-Rubel	toronto, Canada	2015-10-31	We need to know facts. We owe our kids this and NOT Be human guinea pigs
Nasreen T	Mississauga, Canada	2015-10-31	Health Canada's mandate is to protect Canadians, not to be in bed with evil corporations like Monsanto. Bees are dying and so are the beneficial bacteria in our guts. Someone in a position of responsibility in Health Canada should be named and held accountable for the this disastrous decision and untold damage to people and the environment. Who gave the go ahead to use poisons without thorough and long term testing??
Leah Passler	Matlock, Canada	2015-10-31	I want to know what I am eating. I want us to find a safer way to produce food. I want us to start caring for the environment.
Chelsey Reich	Walkerton, Canada	2015-10-31	I care about the future of our planet.
Glennis MacDonald	West Kelowna, Canada	2015-10-31	I want to know what is in my food. Just label it already
Crystal Morrison	Edmonton, Canada	2015-10-31	I believe we have right to know.
heidi osterman	Kelowna, Canada	2015-10-31	The world health organization has listed the herbicide glyphosate as a probable carcinogen.
brianna french	Portland, Canada	2015-10-31	I'm against the use of chemicals in our food supply.
Richard Gordon	Victoria, Canada	2015-10-31	Glyphosate is obviously NOT SAFE! It's carcinogenic poison.
Nikki Bateman	Medicine Hat, Canada	2015-10-31	Gmo are not safe
Karen Newman	Langley, Canada	2015-11-01	Glyphosate is killing us. It's in tampons, food and other products. Enough of this poison.
Cory Payne	Fort McMurray, Canada	2015-11-01	We are paying the high price. And deal with the isolation. Show we should have the work for northern economy
Lucie Lamontagne	McMasterville, Canada	2015-11-02	Assez c'est assez!

Name	Location	Date	Comment
Veronica Sosa	Maldonado, Uruguay	2015-11-02	many scientific research and they have proven health wing damage caused by the consumption of foods sprayed with glyphosate. including the UN declared a highly carcinogenic glyphosate product
Elisabeth Dancet	Nyons, France	2015-11-02	The world would be better off without GMO and without Roundup and glyphosate
Debra Macapagal	Port Perry, Canada	2015-11-02	Other countries have proven Glyphosate safe, yet the conservative government who has done NO testing says it is perfectly fine. Now that we have the likes of Ambrose out of the way of real science hopefully tests can be done and get this stuff out of our food!
tina jensen	london, Canada	2015-11-02	We have a right to know if safety is being dictated by companies and corporate science instead of thorough independent assessment. End corporate science!
Bruce Batchelor	Langley, Canada	2015-11-03	the public needs to know
Donna Fraser	Ottawa, Canada	2015-11-03	We all want healthy children, healthy babies, and a real future. It's that simple. thanks!
Ann MacIsaac	Ste-Lucie-des-Laurentides, Canada	2015-11-03	I'm signing because its painfully obvious that the government does not represent the people.
Deane Parkes	Acton, Canada	2015-11-03	I care about our health
Paul Boisvert	Québec, Canada	2015-11-04	Paul Boisvert
Samantha Elliot	Brantford, Canada	2015-11-04	I am Canadian
Jennifer D'Angelis D'Angelis	Brampton, Canada	2015-11-04	I worry about cancer causing ingredients. We don't use weed control anymore for residential areas because they are bad for the environment
Raewyn Sinhuber	Cranbrook, Canada	2015-11-04	We need to get back to using natural ways to grow our food. Also need to get rid of GMO.
Margaret Unger	Clairmont Alberta, Canada	2015-11-04	With the increase in cancers one has to wonder if this product is safe as it is widely used in the agriculture sector
Sandy Longridge	Burnaby, Canada	2015-11-04	Glyphosate is ecoterrorism
martin girard	Granby, Canada	2015-11-04	I want to see the proof also
ROBERT MILLER	Winnipeg, Canada	2015-11-04	I believe governments need to be transparent in disclosing to public scrutiny the scientific basis for any policy decisions concerning health and safety.
Kaylyn Cordeiro	Mississauga, Canada	2015-11-04	I have a right to know.
Ryan Johnstone	Saint John, Canada	2015-11-04	As the #1 Country in the World..it is out right to know what is safe and not safe to use in the growing of our food!
Amy Reynolds	Calgary, Canada	2015-11-04	We deserve to know that the food in our homes, that we ingest every single day, isn't poisoning us. I do not believe it is a coincidence that we have seen a steady increase in disease since the introduction of this chemical.
James McGillivray	Collingwood, Canada	2015-11-04	I am a physician and I am concerned that there are too many poisons that mankind have made and introduced into the environment. We need to be sure that we are not poisoning ourselves!
Patrizia Hasou	Toronto, Canada	2015-11-04	We have the right to know
Alexis Ayotte	Frelighsburg, Canada	2015-11-04	Il faut changer les lois contrôlant l'arrosage chimique à tout prix ! Et surtout sortir Monsanto du Canada pour assuré la pérennité de nos terres, notre agriculture et de notre indépendance alimentaire !
Cedric Malitte	Thetford Mines, Canada	2015-11-04	We need the truth about what we are eating
Laura Morrison	Burnaby, Canada	2015-11-04	I am very concerned about the overuse of glyphosate. We do not have enough studies that prove it is safe.

Name	Location	Date	Comment
David Lee	Sussex, Canada	2015-11-04	I'm signing due to the thousands of acres that are sprayed in New Brunswick tree plantations with no oversight by anyone other than the forest industry. Please, we need a safe place for ourselves, our kids, and whats left of our environment!
Lenora Cook	Orillia, Canada	2015-11-04	Obviously pesticides are bad for all
Mathieu Drouin	Trois-Rivières, Canada	2015-11-04	Si elle pas public, c est que ca regarde mal.
Ben Fraser	Ottawa, Canada	2015-11-04	Proper safety analysis has not been completed
Tracey Carnahan	Kitchener, Canada	2015-11-04	Transparency in government is essential.
Charles Beauregard	MOntreal, Canada	2015-11-04	Écoeuré de boufer des pesticides
Julia Shams	Calgary, Canada	2015-11-04	Justin T- show everybody they were wrong and do the right thing for Canadians! This madness needs to STOP and the public requires new legislation to keep us safe. We are counting on you!
Brian Andrade	Calgary, Canada	2015-11-04	I care
Adam Froats	Cornwall, Canada	2015-11-04	Let's cut the bullshit.
Nath Devit	Brampton, Canada	2015-11-04	Leave nature fro nature; we can all do less eating.
Ted Richmond	Utterson, Canada	2015-11-04	Poisons and carcinogens used in agriculture are a potentially huge risk to human health as well as the environment -- we need to verify the safety of the chemicals currently employed.
silvia chiarangelo	beausejour, Canada	2015-11-04	And it is also sprayed with planes with no guarantee that the chemical ends just in the field but instead will be contaminating the neighnouring land and worst of all it is used to dry the crop not yet ready to be combined with the chemical ending in the seed that we will eat as flower or other food
Peter Amann	Burlington, Canada	2015-11-04	I want to see the proof as well, once and for all prove to Canadians that glyphosate is safe for humans
Cheryl Thomas	Clearwater, Canada	2015-11-04	I am a Mum and I want to feed 'safe' food to my family and because I want to KNOW that the Canadian Government does independent testing processes and doesn't just 'believe' the test of 'industry'
Walt Giesbrecht	Surrey, Canada	2015-11-04	I'm sick and tired of large, multinational corporations putting their bottom line ahead of public safety.....and co-opting Governments into rubber stamping approval without proper testing.
Tracy Howe	Kelowna, Canada	2015-11-04	round up is not safe to use on food of any kind , stop the use of it .
gary di tomasso	mississauga, Canada	2015-11-04	Transparency is a must especially regarding health related issues!
Krzysztof Mazurek	Port Coquitlam, Canada	2015-11-04	According to family doctor, lots of East European immigrants (my father included) begin to suffer from digestive track disorders in Canada that they never have had in Europe
David Cohlmeier	Thornton, Canada	2015-11-04	I live in a rural area where our water drains from fields in which RoundUp (and neonicotinoids) are used most years. During these years I see deformed frogs, disoriented swallows, fewer dragonflies, and reduced bats. All these return to normal in years these super-pesticides are not used. I want to see proof that these super-pesticides are not causing these problems.
Ed Stedman	Thornhill, Canada	2015-11-04	Recent research has indicated that glyphosate is definitely not safe and therefore it seems that an urgent reassessment of this matter is needed.
Kate Simans	Vaughan, Canada	2015-11-04	I believe in health and safety
Martin Chapman	Edmonton, Canada	2015-11-04	Probably not the only chemical we need proof on.

Name	Location	Date	Comment
colin collins	chilliwack..bc, Canada	2015-11-04	..because we have a new govt and a new perspective on science and our environment...
Gilles Dufort	Châteauguay, Canada	2015-11-04	Pour la santé et le bien-être des générations futures, M. ou Mme. le Ministre, clarifiez le dossier du glyphosate pour la population.
Russell McLellan	Edmonton, Canada	2015-11-04	We just don't know.
Alan Knight	Halifax, Canada	2015-11-04	The onus MUST be on the manufacture to prove that their product is safe. It is not good enough for government to allow the use of these chemicals, based solely on the statement of the chemical manufacturer.
Ian Elwood-Oates	Winnipeg, Canada	2015-11-04	I can no longer respect the honesty of the manufacturers, and so I want to see searches done by independent researchers and if there is insufficient information to make a balanced report then the government should be able to perform independent research without hindrance from lobbyists or other vested interests. The goal being honest, informed, and unbiased results and decision making.
Christine Steward	Surrey, BC, Canada	2015-11-04	transparency please!
Marj Sweet	Maple Ridge, Canada	2015-11-04	For the safety of all life in Canada, this needs to be proven without a doubt, or banned! In my opinion, there is no question that it is safe!
Frank Reashore	Vancouver, Canada	2015-11-04	I do not trust Monsanto. Who does.
Bob Gollinger	Prescott, Canada	2015-11-04	I worry about what is seeping into the ground water etc.
Angela Bouzetos	Brantford, Canada	2015-11-04	I want to see the proof that it is safe, make the government accountable and see it banned if not safe. (Our healthcare costs might not be so outrageous if there was more due diligence and transparency!)
Paul Walshaw	Surrey, BC, Canada	2015-11-04	"Wealth before Health" shame to those that follow this creed!!
Alice Robinson	Delta, Canada	2015-11-04	I'm worried that we are poisoning ourselves and our children with products like these. We need to stop. If it's benign, prove it!
Darren wrightDarrenWright	Caistor centre, Canada	2015-11-04	We need our government to start working for us again, instead of for the lobby groups.
Helene Metivier	Sté-Anna-des-Lacs, Canada	2015-11-04	H2meti@hotmail.ca
Sharon Mattick	Cloverdale, B.C., Canada	2015-11-04	I believe it is harmful for our food chain and all creatures that might ingest it in any level of its production and distribution.
Megan Giffen	Toronto, Canada	2015-11-04	I am a daily participator in the food system. I deserve the right to be aware of what is on my food, and how it effects me, especially if is unnatural. Especially if it is a substance that kills all living nature, unless it is genetically modified. We should want to make the world a healthier place for all living things.
Edie Tisch	Toronto, Canada	2015-11-04	everybody is entitle to know what they eat to avoid unnecessary illness.
Wendy Major	Chilliwack, Canada	2015-11-04	Schools routinely spray Round-Up containing glyphosate and children playing on grass rolling running along the fitness pathways that are sprayed to prevent weeds; are the most at risk of developing Cancer. I've never heard of or known about a common weed causing Cancer in a child.
David Maltese	Toronto, Canada	2015-11-04	Why put our health at risk? And why threaten our wildlife? Wildlife is something we all should value more than profits and jobs. Let's make the world better not worse.

Name	Location	Date	Comment
Neil Palichuk	Lamont, Canada	2015-11-04	I'm concerned with the use of major chemicals in our food system considering Monsanto's history of developing harmful chemicals marketed as safe for humans, animals and the environment. I feel that chemical agriculture is outdated and controlled by big corporations which are mainly interested in profit, not the consumer. It will give me peace of mind that proper studies are done by a third party or the government.
Nora Weber	Abbotsford. BC, Canada	2015-11-04	I am deeply concerned that glyphosate is freely used before proving its safety.
Emeka Bronson	Toronto, Canada	2015-11-04	I would like to know the truth.
Anke Effe	Calgary, Canada	2015-11-04	There needs to be an clear answer to this! I can not order a child's eat for my car when not tested and approved by Canada's safety board but this is getting in our food chains without proper research - how come???
Véronique Smith	Rawdon, Canada	2015-11-04	Je signe parce que je suis déjà assez malade pas besoin de plus de toxicité dans ma vie! Je crois que ce n'est pas bon du tout pour la santé!
Neil Rygus	Calgar, Canada	2015-11-04	Government is not doing its real job of ensuring the safety of our citizens and our food supply!
Nicole Apollonio	Hamilton, Canada	2015-11-04	The health of my children is of paramount importance to me and I do all that I can to make sure what they eat is safe. I need to know the government is doing their part in safeguarding the health of its citizens.
Beverly Pinnegar	Comox, Canada	2015-11-04	I don't trust Monsanto, along with millions of other people who feel the same. RoundUp is proven to be detrimental, and glyphosates are known bee killers. It should be banned. Monsanto should be asked politely to get out of Canada (preferably off the planet).
Samuel Levy	Montreal, Canada	2015-11-04	It appears to me that this process should be mandatory for all registered products in use in edible foods being sold on the market.
Kathy Stanley	Edmonton, Canada	2015-11-04	Real science must be used to determine safety.
Erika Furney	Welland, Canada	2015-11-04	I want to know my food is safe.
Lydan Akins	Calgary, AB, Canada	2015-11-04	I dont like chemicals in my food!
Lisa Weir	London, Canada	2015-11-04	Please look into this glyphosate and do what's right
Linda Cronk	Kingston, Canada	2015-11-04	This is not only important for me and my family but to future generations.
Adam Linka	Kitchener, Canada	2015-11-04	It is extremely important that we the people know what we are ingesting. It is absolutely ludicrous to think otherwise.
Jeanette Jerome	Winnipeg, Canada	2015-11-04	Food safety should be a priority when allowing the usage of any product. Widely used & approved does not mean safe. It might mean pockets were filled along the way. "Nobody died yet" doesn't cut it either, as many people DO die from mysterious origins, so proper testing would need proper follow-ups.
Ksenija Cucic	Guelph, Canada	2015-11-04	I'm signing because it's very important to decrease pollution. Everything that might increase pollution should be tested.
Jennifer Hibbs	Morrison, Ontario, Canada	2015-11-04	Why are we testing on animals?!?! Test on prisoners!!!
Marie Letourneau	Levis, Canada	2015-11-04	Je crois que c'est important mais j'aurais aimé voir la traduction française de la demande pour pouvoir la transmettre à mes amis.
Marie Gagné	Québec, Canada	2015-11-04	Pour un avenir en santé pour mes enfants.
Raja Raza	Calgary, Canada	2015-11-04	I want to see that document too
David Read	Wingham, Canada	2015-11-04	Why would "Health Canada" care about citizens? Sorry, taxpayers? Just pawns for The Corporatocracy, they are. Nothin' new there.

Name	Location	Date	Comment
Karren Sanvido	Guelph, Canada	2015-11-04	We should not have to eat food sprayed with these chemicals, nor should we have to breathe it.
Robert Hemsworth	London, Canada	2015-11-04	We must stop the polluting of our environment
stacie king	windsor, Canada	2015-11-04	This mass poisoning of the population needs to stop now!
Roland Cardinal	Stittsville, Canada	2015-11-04	This is imperative to all Canadians and our fauna!
Ray Toiviainen	Toronto, Canada	2015-11-04	Monsanto is a huge fascist corporation which kills people with it's poisonous products, like Agent Orange that it us3ed on hte Vietnamese killing & causing deformaties in babies for decades.
Bill Sherwood	Orillia, Canada	2015-11-04	There are a number of reports suggesting RondUp is dangerous to health. Is the dying Monarch butterfly our "canary" in the coal mine?
Lois Lockhart	ladysmith, Canada	2015-11-04	Hopefully, the new government will make transparency an issue and understand the people's right to know.
Marvin Dyer	Edmonton, Canada	2015-11-04	I am a student at the U of A, working towards completion of an honors degree in molecular genetics. Earlier this year, while doing research on the safety of GMO foods, I was pleased to discover that while GMO foods themselves are safe, a number of researchers have found evidence that glyphosate (which is applied heavily to a large number of GMO crops) may not be safe, and without question has been shown to have off-target effects on some animals in the environment where roundup is used. Based on my research, I believe it is time that a great deal more work be done to confirm or disprove the safety of glyphosate, particularly with regards to human consumption. Researchers in Quebec found last year that glyphosate doesn't simply pass through the body as has been generally believed, but rather is able to accumulate in human tissue; the study was especially concerning because it was found that glyphosate can accumulate in the tissue of fetuses, which causes one to question what effects this is having on overall development, and also how much can accumulate over the lifetime of an individual who starts consuming glyphosate before they are even born.
Sherry and Alvin Legary	Portage la Prairie, Canada	2015-11-04	I AM SIGNING BECAUSE I WOULD LIKE TO SEE A PUBLIC REPORT OF TESTING DONE ON GLYPHOSATE BEFOR DEEMING IT SAFE.
Dana Dyck	Penticton, Canada	2015-11-04	I am signing because I believe that these tests are important for the health of people, animals and our environment.
joel krajden	Montreal, Canada	2015-11-04	https://en.wikipedia.org/wiki/Glyphosate Many regulatory and scholarly reviews have evaluated the relative toxicity of glyphosate as an herbicide. The German Federal Institute for Risk Assessment published a toxicology review in 2013, which found that "the available data is contradictory and far from being convincing" with regard to correlations between exposure to glyphosate formulations and risk of various cancers, including non-Hodgkin lymphoma (NHL).[9] A meta-analysis published in 2014 identified an increased risk of NHL in workers exposed to glyphosate formulations.[10] In March 2015 the World Health Organization's International Agency for Research on Cancer published a summary of its forthcoming monograph on glyphosate, and classified it as "probably carcinogenic in humans" (category 2A) based on epidemiological studies, animal studies, and in vitro studies.[5][11][12]
Diane Keirstead	Thorsby, Alberta, Canada	2015-11-04	I want to know!!!!
Scott Kennedy	Saskatoon, Canada	2015-11-04	Safety first.
Sue ouimet	Parksville, Canada	2015-11-04	This is a very important issue

Name	Location	Date	Comment
Cherie Berlinquette	Fowler Ont., Canada	2015-11-04	World Health Org. has called it unsafe and you aren't allowed it in many cities but MNR continues to spray rural areas.
Brenda Shields	Salmo, Canada	2015-11-04	My husband has had cancer 3 times already. He doesn't smoke, he drinks on occasion, and the last time we cured it alternatively. We are no longer naive about the scenarios of food and water being contaminated by Conglomerate Billionaire companies dumping their chemicals in our ground. Who will be the champion in our government to stand up for your tax payers. We are dwindling with so many dying from cancer, birth rate down, and everything else. You need to open your eyes. Even a lot of doctors will not do the cancer treatment their patients.
Barbara Gray	Parksville, Canada	2015-11-04	Everything I have read shows no proof that it is not harmful and extremely dangerous.
Dorothy Ramien	TORONTO, Canada	2015-11-04	food matters and our health is dependent on it. I have grandkids and Justin you have young children, we must act responsibly.
Paula Paine	Napanee, Canada	2015-11-04	Glyphosate is not safe for human consumption. It is a known carcinogen. So, Health Canada, stop protecting GMO and its Roundup ready seeds and prove it's not harmful to humans and all living creatures in the food chain. Show us the safety data.
TIMOTHY Meyer	Allenford, Canada	2015-11-04	These chemicals are dangerous!
Eric Lavoie	Crabtree, Canada	2015-11-04	Transparency is always good.
Denise Verreault	Cap-Chat, Canada	2015-11-04	Glyphose was proven to be carcinogen
Jazmine Pixton	Kelowna, BC, Canada	2015-11-04	too much chemical and gmo ingredients are hidden in our food supply without the public's knowledge -- DISGRACEFUL!!
Sandra Brunetta	Fort Frances,, Canada	2015-11-04	We deserve to know the truth
luke brennan	Ameliasburgh, Canada	2015-11-04	I don't like eating things that could be potentially detrimental to my health, especially when I don't know I'm consuming them.
Mag Ruffman	Mulmur, Canada	2015-11-04	I don't trust the Ministry of Health to make the right decision or even do the correct research without extreme public pressure
Mark H	London, Canada	2015-11-04	I'm tired of governments believing what corporations tell them is safe. We all need to stand up against corporate greed. If they kill us all off then what will they do?
Allison Nicolas	Winnipeg, Canada	2015-11-04	This is a serious human & environmental health issue!!
Patricia Lapointe	Wakaw, Canada	2015-11-04	I want to live a long healthy life, with everyone I know and Round-up DOES cause cancer.
André Blanchette	Trois-Rivières, Canada	2015-11-04	Je suis contre les engrais chimiques
June Kendall	Hudson, Canada	2015-11-04	RoundUp should be a banned substance.
Francoise D-Couturier	St-André, N.-B., Canada	2015-11-04	Important!!!
Bruno Gagné	Montmagny, Canada	2015-11-04	Bruno Gagné
Anna Poulsen	Saint-Francois-Xavier-de-Brompton, Canada	2015-11-04	This is long overdue.
Tyler Achtem	Calgary, Canada	2015-11-04	Any corporation that deceived the public on the safety profile of an agricultural chemical: IS GUILTY OF CHEMICAL WARFARE AGAINST ALL SOVEREIGN NATIONS.
Nishma Karim	BC, Canada	2015-11-04	I believe we need to be safe and get results
Maurice Arsenault	Caraquet, Canada	2015-11-04	je veux un avenir pour la jeune génération!

Name	Location	Date	Comment
LD Hammond	Toronto, Canada	2015-11-04	Glyphosate has been discovered in cotton based products used in feminine hygiene products in Argentina- this is disturbing news as it is a carcinogen. Is it also in Canadian products and is anyone testing for this?
Yves Roy	Saint-Calixte, Canada	2015-11-04	Parce qu'il est temps que le démocracide prenne fin
Collin Erickson	London, Canada	2015-11-04	I'm TOTALLY against the use of pesticides--simple as that!
Dan Perry	Toronto, Canada	2015-11-04	Let's see how the new government reacts to this.
Linda Vien	Vanier, Canada	2015-11-04	If it is so safe, why do we need safety glasses and gloves??????
Eric Unger	Winnipeg, Canada	2015-11-04	As always, I'm amazed at the transparency of the cover-up by our government.
Natalie Buddo	Montreal, Canada	2015-11-04	Please make sure you write "cited" and not "sighted." If you need anyone to edit / proofread your letter, let me know. I'd be happy to help.
MONIQUE KOTAR	Montréal, Canada	2015-11-04	ma santé devrait passer avant les profits.
Ivan Tentcoff	Gibsons, Canada	2015-11-04	I have farmed and seen what it does to soil
Marcus Rogers	Vancouver, Canada	2015-11-04	We have a right to know, and a right to health.
Gerry Lincoln	Toronto ON, Canada	2015-11-04	Roundup is produced by Monsanto. 'Nuff said!
RM Hallam	Cranbrook, Canada	2015-11-04	Products need to be proven safe.
Guy Lavoie	Henryville, Canada	2015-11-04	J'en ai assez de manger des produits chimiques.
joey belair	Montreal, Canada	2015-11-04	joey belair
Graham Flitt	Toronto, Canada	2015-11-04	we need safe food
Alfred Guidolin	Delhi, Canada	2015-11-04	All citizens ought to have faith and certainty regarding agricultural science, health and safety, and food supply integrity.
kyle dwnrei	pitt meadows, Canada	2015-11-04	This style of farming actually reduces yeild
Trudy Elmore	Toronto, Canada	2015-11-04	I give a damn.
michel boyer	montréal, Canada	2015-11-04	This issue is important to all Canadians. I do not trust Monsanto.
mike newman	Ottawa, Canada	2015-11-04	new government, new attitude to science and evidence....?
Jerry Kroll	Vancouver, Canada	2015-11-04	We need ALL agri chemicals to be proven safe for people, bees and all animals!
Sue Toth	Toronto, Canada	2015-11-04	Test results should be available for the public to view since the use of this product could affect their health.
Julia Laidlaw	Kingston, Canada	2015-11-04	We don't want it if it isn't safe.
Marjorie Roden	Winnipeg, Canada	2015-11-04	Please make sure that we aren't making ourselves extinct by spraying this "poisonous to plants but supposedly not to any other air breathing lifeforms" around. PLEASE GET IT TESTED!!!! Signed, a very concerned farmgirl.....
Linda Bujold	Pierrefonds, Canada	2015-11-04	It would be good to know if it is safe to humans and animals.
Maxime Maltais	Rimouski, Canada	2015-11-04	many studies have already shown that it is harmful for both health and environment
Len Coste	Oxford Station, Canada	2015-11-04	I would like to know that what I am eating is safe.
Gordon Ross	Calgary, Canada	2015-11-04	Monsanto and other rogue outfits are risking our health and dominating our food supply.
David de Boer	Kitchener, Canada	2015-11-04	The agri business SEES no interest in making products safe for people or the environment over a long period. This has to change.
April O'Neill	Collingwood, Canada	2015-11-04	I applaud this for protection of the environment our unborn and our food chain
Austin Hogan	Windsor, Canada	2015-11-04	For your health.

p mihok	hamilton, Canada	2015-11-04	Too many things like this have been approved without disclosure of the data. Time to open up.
Jimmy Cuffaro	Montreal, Canada	2015-11-04	Countless research has linked the use of glyphosate to cancer, IT NEEDS TO BE BANNED!!!
Stephen Milroy	Toronto, Canada	2015-11-04	RoundUp. Organic chemistry run amok.
Stephen Hunter	Oshawa, Canada	2015-11-04	We need to more carefully scrutinize the chemicals in our environment. Remember lead in gasoline and what a struggle the chemical companies put up.
mervyn nicholson	kamloops, Canada	2015-11-04	the precautionary principle !
Susan White	Saint John's, Canada	2015-11-04	The chemicals that we use may not appear to harm us in the short term, but it's important to prove their safety for the long-term, for the sake of future generations.
brenna maccrimmon	toronto, Canada	2015-11-04	I think it is important for all manufacturers of chemicals to disclose the effects their products have and the government has a responsibility to ensure that products on the market are safe for all forms of life.
olivia collins	Montreal, Canada	2015-11-04	I want to know the truth
Mil Sepic	Lindsay, Ontario, Canada	2015-11-04	There are enough poisons floating around so let's not add to them.
Charles Windrum	Prince Albert, Canada	2015-11-04	If it so safe , they say that you could drink it.. well prove it and drink a glass
Ed Olson	Vancouver, Canada	2015-11-04	We need to be safe
Rupert Whiting	Richmond, Canada	2015-11-04	This is a reasonable request and I would have to wonder why it is not granted.
Marion Stahr-Elaschuk	Calgary, Canada	2015-11-04	How can food impregnated with species-killing chemicals be safe for HUMAN consumption?
Guy Brouillard	Terrebonne, Canada	2015-11-04	On a le droit de savoir.....
Rene Robinson	Nanaimo, Canada	2015-11-04	Why are these chemicals not proven safe for human consumption before they are used?. Do not those who make these decisions and use these products eat food also....and their children?.
Gloria Rebellato Lavoie	Whitefish, ON, Canada	2015-11-04	Thank you
Paul Hodgson	North Vancouver, Canada	2015-11-04	I'm signing because I value my health, and my children's.
Tristan Bairos	Montreal, Canada	2015-11-04	Look up UFC United Fruit Company regarding the banana industry. This major chemical in roundup is known to cause birth defects and all kinds of health problems with people in close contact.
Mike Bell	Ottawa, Canada	2015-11-04	Mankind has a sorry record of destroying the environment for profit motivated schemes that were promoted to be safe. This is a reasonable and supportable request
Jorge Pedret	Mississauga, Canada	2015-11-04	Have you seen the series ZOO (Netflix)?, exact description of what we are actually living with Monsanto. A must see series. Highly recommended!
judy Dupuis	Kingston, Canada	2015-11-04	We,as Canadians Need to know what we are consuming, how it could affect our health. The government and those at Health Canada should inform Canadians,so that we can make choices. Stop hiding behind their positions are answer to their people. Judy Dupuis Kingston,Ont
Jean-philippe Turcotte	Longueuil, Canada	2015-11-04	Because i want to know what i am eating, its outrageous wht they are doing with roundup and gmos... As tax payers in this society we deserve to know the truth

Name	Location	Date	Comment
Edward Schroeder	Erin, Canada	2015-11-04	The burden of proof for these technologies should not be on their manufacturer. Let's see the government fund some independent study of this chemical to determine its effect on human health. In the interim, I would ask Justin Trudeau to call for a moratorium on its use.
N A	Courtice, Canada	2015-11-04	I still have a few more years left and I have a Grandson, who also has the right to have a grandson...
Guy Rochefort	Saint-Hyacinthe, Canada	2015-11-04	Je signe parce que les seules informations valables sont celles d'essais scientifiques validés et publiés. L'hon. Eugène Whelan, lui, n'avait pas hésité à interdire le Lasso, parce que les données d'Industrial Bio-Test n'étaient pas crédibles.
Cam Forster	Burlington, Canada	2015-11-04	I don't think it's safe for us or bee's
Renee Wilson	Cambridge, Canada	2015-11-04	Big Agriculture has millions and millions of dollars invested in keeping malpractice and dangerous procedures out of public knowledge in order to keep costs down and revenue high. As an agriculturally-dependant nation, we've allowed these billion dollar corporations to dictate to the consumers and the government what they will and won't do, and it's time this stopped. The safety and health of all life involved in the process of agriculture, from beginning to end, should be a priority of the highest concern. Canada should lead by example when it comes to humane treatment of farmed animals, and in the use (and discontinued use) of chemical agents found to be toxic or potentially toxic when consumed. No amount of money should ever overshadow the need for ethical behaviour.
Simon Mercier	Brossard, Canada	2015-11-04	Information is good
Jeff Monk	Vancouver, Canada	2015-11-04	We all need to be concerned about chem
Herman Turkstra	Hamilton, Canada	2015-11-04	Round up is on a farm near my home and I should know whether or not it has been properly tested.
Randy gubersky	edmonton, Canada	2015-11-04	I am an organic farmer,I have been certified for around 15 years,before that we farmed conventionally,and sprayed roundup.That was at a time when monsanto insisted that its so safe you could drink it.my father used to breathe in alot of the fumes,he got throat cancer,along with alot of other farmers
oceane cote	Saint-Hyacinthe, Canada	2015-11-04	for helping the earth
Timothy Trylinski	Salmon Arm, Canada	2015-11-04	We need the truth about this herbicide ! Do it today !
Richard Neuls	Regina, Canada	2015-11-04	I care about future Generations, my Children and their children. The proponents of Glyphosate use the excuse that it is to feed the World. I think it is more likely they are using it for population control at our expense so they can fatten their coffers and pocket books.
John Keller	North Vancouver, Canada	2015-11-04	This type of public disclosure regarding this potentially unsafe and widely-used chemical is long overdue
Gordon Froese	St. Catharines, Canada	2015-11-04	I don't eat organic, so it's important to me that this chemical is tested so I don't grow another head or something.
jeffray earl	new westminster, Canada	2015-11-04	Health concerns.
Jonathan Blanchet	Verchères, Canada	2015-11-04	Ça pourrait peut être expliquer les nombres de cancer près des exploitations faire des liens avec cette consommation additionnel dans nos aliments!
Joan Gordon	Mile 108 Ranch, B.C., Canada	2015-11-04	Hopefully unbiased scientific methodology was used. If Glyphosate was tested - are you afraid of alleged negative results?
Dwayne Baldwin	Burlington, Canada	2015-11-04	If it is not safe it should be used. It's that simple.
Ed Smith	Dunrobin, Canada	2015-11-04	Want safe food

Name	Location	Date	Comment
Claudine Gagnon	Rimouski, Qc, Canada	2015-11-04	Il faut que ça change cette façon de procéder!
Siobhan Snyder	Calgary, Canada	2015-11-04	Use all the modern technology available so that animals need not be the test subjects. We are beyond needing the deaths of animals to provide proof that a chemical is harmful to humans. We are not however beyond the place of needing to know if a commonly used chemical is harmful to humans, based on old laws and or contracts that are outdated, of safety regulations standards. Prove that the Canadian Government has the publics health interest at the heart of their decision and law making choices.
Morwenna Given	Toronto, Canada	2015-11-04	Yet again the MOH has no evidence and offers no protection to the health of Canadians as it prefers to rely on manufacturers of harmful substances and take no responsibility for this failure of government.
Hernan Moraga	GATINEAU, Canada	2015-11-04	Canada needs to be a model country in these matters.
Audrey McLemore	Medicine Hat, Alberta, Canada	2015-11-04	Time to do something about the lies we are constantly bombarded with. My father was a farmer who never used round up because he knew the damage it would cause. He was ridiculed. Now 30 years later we are finally getting wiser. The cancer and disease caused by this poison is now epidemic but maybe now some one will listen.
shany palardy	Varenes, Canada	2015-11-04	C'est important de savoir.
Rebecca Roberts	St John, Canada	2015-11-04	I care about my health and the health of bees and other animals.
Roxana Gaciu	Vaughan, Canada	2015-11-04	It needs to be disclosed by the Government
Corinne Skulmoski	Devon, Canada	2015-11-04	fuck you Monsanto!
Lori Todd	Winnipeg, Canada	2015-11-04	We know it's not safe..not for this generation but most especially for the next. We are killing our planet. Please look further into this.
Neil Grahn	Edmonton, Canada	2015-11-04	This is a fair question and this kind of information should be public knowledge.
Maureen Day	Edmonton, Canada	2015-11-04	I don't believe Glyphosate is safe until Health Canada provides actual safety tests. If the Government has done safety tests, then these tests should be made public.
Jennifer Eastwood	kamloops, Canada	2015-11-04	Our government is tasked with ensuring that the rights, health and safety of all of our citizens are upheld. Our government is fully accountable to the citizens. Only through our collective voice can we hope to ensure that the rights of many trump the interest of the few. We have the right to hold our government accountable and to share documentation by which approvals are made.
Laura Hessel	Spruce Grove, Canada	2015-11-04	We should not be poisoning our own people period!
GLENYS WRIGHT	Sharbot Lake, Canada	2015-11-04	The previous government was too happy to ignore science, in favour of arrangements with big business.
Catrina Loman	Calgary AB, Canada	2015-11-04	Have read extensively about glyphosate and don't believe it should be in our food.
James Anderson	Oliver, Canada	2015-11-04	Is it killing us? I want to know.
Laurie Noble	Chemainus, Canada	2015-11-04	we are what we eat... I am currently dealing with cancer, again... our bodies can only filter so much crap and stay healthy...
David Jeffrey Spetch	Hamilton, Canada	2015-11-04	I'm signing because glyphosate doesn't appear to have been proven as safe therefor the government is putting Canadians lives at risk by approving it. Canadians also deserve the right to the information.
Brigid Dooley-Tremblay	Kingston, Canada	2015-11-04	I do not want glyphosate used in Canada and refuse to buy products that may have been tainted by it.
Joan Turnbull	London, On., Canada	2015-11-04	I don't wish to be poisoned. I don't wish to have cancer.

Name	Location	Date	Comment
yannick bolduc	Saint-Côme-Linière, Canada	2015-11-04	Pour la santé de ma famille.
susan dexter	toronto, Canada	2015-11-04	i am concerned about ecosystem health.
PHILIP VERNON	SALT SPRING ISLAND, Canada	2015-11-04	Glyphosate needs to be banned.
linda gardiner	Edmonton, Canada	2015-11-04	Too many pesticides in environment.
Eric St-Denis	Châteauguay, Canada	2015-11-04	Nous devons savoir si c'est sécuritaire .
Michael purdon	Toronto, Canada	2015-11-04	I'm tired of our government, and in particular our health department, siding with industry. I would like to see the safety data on glyphosate. Neonicatoids are another area our health department has dropped the ball and sided with chemical.makers despite growing wooden cell that Neonicatoids are killing off bees.
Phil Naylor	Clifford, Canada	2015-11-04	I am concerned about the health and environmental impacts of GMO foods and the chemicals that are sprayed on them that we consume and feed our children.
Louise Favreau	Montréal, Canada	2015-11-04	Pour la santé!
DJ King	Vancouver, B.C., Canada	2015-11-04	I doubt Health Canada will go this far, but what I'd like to see is *all* the data that industry has supplied to Health Canada over the years that supposedly demonstrates that Glypnosate is not unsafe. Although "proven safe" and "not proven unsafe" should never be confused as being equivalent. (Or even "substantially equivalent.")
Fern Chapman	Castle Bay, Canada	2015-11-04	our health is linked to our food and water source
Phil Pilon	Arnprior, Canada	2015-11-04	I don't believe it is safe for us
Cindy Walker Watson	Edmonton, Canada	2015-11-04	Glyphosphate may indeed be safe, but I see no reason not to release the evidence (raw data included) that proper testing was done to determine that fact. Transparency and access to information is what we're after.
Helen Prosser	Sechelt, Canada	2015-11-04	I understand that world population is higher than the world can feed and sustain and I would especially like birth control technology delivered more systematically to the worst offending countries in terms of overpopulation. Thanks
Toby Earp	Montreal, Canada	2015-11-04	Glyphosphate is a powerful chemical toxin and resistance to it has to be inbred by genetic manipulation. It has to be shown that the planet's gene pool is not being permanently altered for the sake of a few companies' non-permanent interests.
Nicole Fieger	Gatineau, Canada	2015-11-04	The government is protecting industry not the people. Show us transparency, please!
David Byrne	West Kelowna, Canada	2015-11-04	I care about my health, my wife's health, and my puppies health!!
Steve Cummings	Toronto, Canada	2015-11-04	I am signing because it is poisonous and not needed....get rid of the GMO's as well!!!!
Paul Hughes	Calgary, Canada	2015-11-04	B/c I effn' hate Round Up? Is that a good enough reason?
Antonia Bates	Otonabee, Canada	2015-11-04	It *is* HARMFUL: It's an ENDOCRINE DISRUPTOR!
Kara Kosaka	Port Moody, Canada	2015-11-04	I want to keep my family healthy.
Michel Dancause	Cap-Saint-Ignace, Canada	2015-11-04	nous savons depuis des années et fermons les yeux.il est temps de signer pour que ça cesse
Ted Slaman	Hamilton, ON, Canada	2015-11-04	I am signing because I fear the toxic elements around us are much more prevalent, and cause cancer and other health issues.

Name	Location	Date	Comment
Marie-Pierre Fréchette	Montréal, Canada	2015-11-04	C'est important.
Artur Ziobrowski	Toronto, Canada	2015-11-04	Environment and human's basic rights
Raymond Marietta	Edmonton, Canada	2015-11-04	It should be proven in all standards & measures first, before it may cause multiple deaths or illnesses on humans.
Suzane Larochelle	Trécesson, Canada	2015-11-04	Je veux choisir ce que je mange
Lynn Chodur	Tiny, Ontario, Canada	2015-11-04	We deserve to know what we are consuming
Claudette Melanson	Guelph, Canada	2015-11-04	So tired of humans poisoning the earth
Al Laccetti	Burlington, ON., Canada	2015-11-04	I need to know that Roundup and Glyphosate have been properly tested and verified not to be toxic to human beings. Tests should not be done by the manufacturer but by independent and verified companies. These companies should not be involved in the approval business.
NICOLE DUNN	Burlington, Canada	2015-11-04	I do not want glyphosate in my food, nor GMO's or any other POTENTIALLY harmful substances on my food that I eat and provide to my family.
Elle Mitchell	Luseland, Canada	2015-11-04	<p>Glyphosate is a disturbing product to say the least. I recently learned that this chemical is in my tampons. This chemical is absorbed in genetically modified cotton as it grows to prevent loss of the product. I contacted P&G and they flat out denied this but lab tests proved the claim that glyphosate IS in my tampons.</p> <p>What grows, absorbs. Please stand up for us and stop the corporations benefits of power and money at the expense of the quality of our lives. My mother died a savage death at the hands of cancer. Cancer exists at the creation of man. YOU have the power to keep us as safe as possible. While I know that fighting back will cost us...THIS is Canada.</p> <p>We have the resources to live comfortably and safely without the powers of this world, the USA and their masters. You know what I am talking about. Take a stand!</p>
Glen A. Fox	Ottawa, Canada	2015-11-04	I believe that Glyphosate was not adequately tested or reviewed. It was registered under pressure.
Ingo Grundmann	Parksville, Canada	2015-11-04	Our Federal Government has a total disregard for the safety of Canadian consumers by allowing poisonous , tainted human and pet foods in this country . The spraying of dangerous herbicides onto our food supply has to be stopped , and all dangerous foods from foreign countries , like ASIA , have to be banned in Canada .
Monique Crepault	Montreal, Canada	2015-11-04	Bedford
micheline howitt	owen sound, Canada	2015-11-04	Glyphosate is dangerous to everyone, and profit motives should not trump peoples health.
Sawan S	Vancouver, Canada	2015-11-04	It is utterly obvious that glyphosate is NOT safe to the vast majority of mammals. All evidence points towards glyphosate being carcinogenic and I believe that no one should ever be subject to sub-par food quality, especially when it clearly causes cancer. If given the opportunity, would you either consume 100% glyphosate enriched diet or a 100% herbicide, pesticide and glyphosate free diet? The choice is yours Canada, please be smart.
Anne Swanston	Toronto, On, Canada	2015-11-04	Prime Minister Trudeau - Please give the Canadian people the evidence that Glyphosphatye has been properly tested to determine if it is safe or not. Thank you.

Name	Location	Date	Comment
Lisa Morgan-Long	Toronto, Canada	2015-11-04	Industry should have to PROVE that all chemicals are safe BEFORE they are used. The onus should not be on Joe public to go up against powerful corporations to prove that chemicals are unsafe and should be removed.
Gerard Wood	Québec, Canada	2015-11-04	This is what I believe that our Liberal government will address. I would be really disappointed it they did not.
Melanie Smith	London, United Kingdom	2015-11-04	I know it isn't, it puts me in hospital.
Robert Bagamery	Winnipeg, Canada	2015-11-04	It's time we stopped taking manufacturer's at their profit-driven word as to what is safe and what is not.
Andi Mell	Toronto, Canada	2015-11-04	I need to know, because I don't believe modern chronic disease and cancer are just random
Michael Holubik	TORONTO ON, Canada	2015-11-04	Glyphosate IS NOT SAFE for humans!
Susan Stokes	Chemainus, Canada	2015-11-04	I believe it is a major issue for our environment; the future health of all Canadians and our Wildlife, Soil, Water, our World
Mark Clifford	Harrow, Canada	2015-11-04	I want to know what is in my food
Karen Scheffers	Vanderhoof, Canada	2015-11-04	This herbicide plays a huge role in our food chain and impacts more than just humans as it spreads throughout the environment.
Mike Daigle	Burpee, Canada	2015-11-04	This chemical is sprayed all over the woods less than 10km from my house and closer still to a wildlife management area.
Miranda Stewart	Duchess, Canada	2015-11-04	I would rather the farmers not spray chemicals on the food that they feed the people or the animals. It's just common sense. Would you want to eat chemicals Mr. Trudeau? , Health Canada?
Kelly Harding	McBride, Canada	2015-11-04	I am signing because we don't have near enough information about what gets in our food supply. Read this petition. The guy makes great points. It is your & my family eating this food. Do you trust it? I don't at this point in time.
Janis Kinnie	Windsor, Canada	2015-11-04	I do not need convincing, the product should be banned outright.
kathleen haggan	scarborough, Canada	2015-11-04	We need to know
mike demitre	Hamilton, Canada	2015-11-04	It is the responsibility of our government to protect it's citizens, not make it easier for gigantic multinational corporations to peddle their wares. It is your duty to test products, not simply take the corporations word that it is safe. We as citizens wish to see the document(s) stating its safe for human consumption. The Universe is watching.
Rhonda Visscher	Duncan, Canada	2015-11-04	We all deserve safe, nourishing food.
Alan Pickering	Shortts Lake, Canada	2015-11-04	Their is no oversight by gov.
Tristan Cunningham	Joussard, Canada	2015-11-04	People deserve to know if a chemical is harmful to our health
Lynn Lacourciere	Sudbury, Canada	2015-11-04	This is an extremely important issue. The health of Canadians is at stake.
Darren Akey	Toronto, Canada	2015-11-04	Quite reasonable request, strange that the answers are not more easy to find...ah right it's Monsanto, nothing is easy with them...
Micheline Marion	La Prairie, Canada	2015-11-04	Les dommages causés par les pesticides sont importants et de longue durée. Il est important de savoir ce qui est utilisé dans notre environnement.
Doug Dobbyn	Medicine Hat, Canada	2015-11-04	Nobody in authority seems to take public concerns about this product seriously. It needs, and WE DESERVE a proper test on it's safety.

Name	Location	Date	Comment
Lena Zotova	Saint John, Canada	2015-11-04	I want to live in a safe environment without waiting for cancer to knock on my doors because government doesn't do what they are here for - protect their people from harm, despite big companies paying big bucks for their product to be approved.
Beth Sissons	Montreal, Canada	2015-11-04	We need to know. Roundup is illegal in some provinces, but not all. This demands national attention
Jellica Jahncke	Halifax, Canada	2015-11-04	I'm concerned about the safety of certain chemicals used on food, we also have the right to know, no secrets please!
Natalie Bédard	Montréal, Québec, Canada	2015-11-04	Monsanto ... isn't a safe company.
Michel Cyrenne	Saint-François-Xavier-de-Brompton, Canada	2015-11-04	je signe parce que notre santé est importante car nous sommes végétariens et mangeons le plus possible biologique et sans produits chimiques
Claude LeDuc	Montreal, Canada	2015-11-04	I am signing because I care about our health and the environment.
Marc Joncas	Sechelt, Canada	2015-11-04	OMG the evidence of the mal health effects of Monsanto products are LEGION in volume.. can't believe a 1st world Country like ours can be so ignorant.. time to end the Monsanto monopoly.. Case Study: go look at India - enough said right there.
robert j petrusa	New Westminster, Canada	2015-11-04	poisons are killing bees, people and animals
Martin Price	Brantford, Canada	2015-11-04	The safety of glyphosate is unproven. Why take a chance on people's health?
Johanne Vincent	Xxxxxxx, Canada	2015-11-04	People's health is most important
Mark Pocklington	Edmonton, Canada	2015-11-04	Am a witness to the overuse of Glyphosate in agriculture since my first visit to a farm in southern Manitoba harvesting peas in the fall of 1981.
Jim Donachie	Calgary, Canada	2015-11-04	We have a right to see the data and a right to know how past government decisions will affect us.
Elizabeth Campbell	Port Moody, BC, Canada	2015-11-04	The industries that make this pesticide should prove that this is safe not the other way around.
Roslyn & Barry Silversides	Winnipeg, Canada	2015-11-04	If the Canadian Government can not prove it is safe, then it is not safe. This is a case of guilty until proven innocent. Please withdraw it until it is proven not harmful to Canadian citizen. This also applies to all citizens around the world.
jo saunders	chesterville, Canada	2015-11-04	if it is 100% safe - no harm in proving it
Randy Noel	Mount Albert, Canada	2015-11-04	Glyphosate is in almost everything we eat so it is imperative that it is proven to be safe or that it is stopped from being applied to almost every crop we grow and therefore the animals we use for food. It is not only used on GMO foods but also to kill non GMO food such as Potatoes in order to kill the green part of the plant so that the harvesting machines do not clog. I am certain it is used in many other ways otherwise I doubt the USA would be applying over 200 million pounds of it every year on their fields.
Ninon Trudrel	Levis, Canada	2015-11-04	Glyphosate is a real poison. We need to return to the old ways of growing REAL fruits and vegetables.
Eva Zmudka	Whitby, Canada	2015-11-04	I Care !!!
Douglas Chivers	Vancouver, Canada	2015-11-04	I'm signing because our children and future generations are important. We should not allow such chemicals to be used unless we are VERY sure that no harm will ensue.

Name	Location	Date	Comment
Diane Trelenberg	EDMONTON, Canada	2015-11-04	The health of people and animals is affected by every product we manufacture....ensure this one is safe!
Amy Swenson	Belle River, Canada	2015-11-04	let's go organic, it is safer
Martin Quinn	Montreal, Canada	2015-11-04	On a le droit de savoir, c'est de notre santé dont il s'agit...
Bianca desmeules	Montreal, Canada	2015-11-04	We should never be in contact with that even more eat it
kate Mason	Mississauga, Canada	2015-11-04	food is good and precious
Jean Mandeville	La Malbaie, Canada	2015-11-04	C'est la santé de mes petits enfants et le cancer dans ma famille qui m'inquiète, je veux savoir
Philippe Ouimet	Saint-Sauveur, Canada	2015-11-04	I'm totally against herbicides
Pierre Bouchard	Toronto, Canada	2015-11-04	Everyone's health is concerned. From farmers, to rural populations, to consumers. Are glyphosates safe?
Raymond Arcand Arcand	Saint-Rédempteur, Canada	2015-11-04	C'est notre santé et celle de nos enfants.
Rex Benning	Ottawa, Canada	2015-11-04	We need facts.
Joseph Lepage	Castlegar, Canada	2015-11-04	I know this sh!!t is poison,and give cancer Fu!k Monsanto,Monsatan
Louis Lachance	Saint-Lambert, Canada	2015-11-04	Il est le temps que nous soyons informés.
Sarah Gustafson	Calgary, Canada	2015-11-04	And Monsanto strikes again....I wish governments would stand up to them and ban their harmful products. There is nothing good or safe related to Roundup.
GRAHAM BLANDFORD	London, Canada	2015-11-04	I believe that glyphosate is an incredibly unsafe chemical and is the cause of many food sensitivities and auto-immune issues within people.
Krystina DeStefano	Toronto, Canada	2015-11-04	It is our right to know if the foods we are ingesting are safe in order to make educated decisions when it comes to purchasing the goods grown in our country. It should not be a secret.
Elaine Ayre	Linden AB, Canada	2015-11-04	I have been concerned about the safety of Roundup for a long time and the fact that much of the information given on this product is untrue
Richard Saint-Pierre	Longueuil, Canada	2015-11-04	L'organisation mondiale de la santé l'a classé comme cancérigène probable, la Californie veut l'interdire pour sa toxicité . Le Canada doit se positionner et nous prouver hors de tout doute que ce produit est sécuritaire.
keith wyndlow	Ladysmith, B.C, Canada	2015-11-04	I am signing this petition because INDEPENDENT scientists have proven that Glyphosate is NOT SAFE but these scientists are under intense pressure to have their studies and themselves discredited. Look at Research done by French Respected Scientist Gilles-Eric Seralini and colleagues that showed the Monsanto tests are over a too short time period
Marg Oleksow	Bellevue, Canada	2015-11-04	I want to know the truth and if it is killing humans, animals, insects, our earth, it needs to be stopped.
cynthia campbell	Saskatoon, Canada	2015-11-04	I've had concerns about this chemical for many decades!!!!
Michelle Davies	DELHI, Canada	2015-11-04	I want to know that our food supply is safe to eat!!
Greg Furan	Toronto, Canada	2015-11-04	Glyphosate is not safe, in my opinion and should be banned in Canada.
Elijah McCaughen	Belleville, Canada	2015-11-04	Monsanto Rep sure didn't want to drink a glass of it. Why should we believe its safe to spray on our food?!
LINDA Peteranac	Guelph, Canada	2015-11-04	I want the truth to be told and I want my government to protect me and my family now and in t.he future
Debbie Devita	Warkworth, Canada	2015-11-04	Its about time... This product has been banned. If there are studies to prove they are safe....show us...NOW!

Name	Location	Date	Comment
Corinna Klebe	Surrey, Canada	2015-11-04	Having been trained to dispense pesticides such as Roundup, I know that this is a deadly substance, not only to vegetation!
David Kirkwood	Toronto, Canada	2015-11-04	Glyphosate is a demineralizer/decalifier and kills everything in the soil probably remaining in our food.
Doreen Nix	Toronto Ontario, Canada	2015-11-04	Yes, this chemical has to be checked out, good for you Justin Trudeau, Canadians are with you
Roxane Bay	Hubbards, Canada	2015-11-04	I want to be sure the product is safe.
Sheena Vennessland	West Vancouver, Canada	2015-11-04	More than time to revisit Glyphosate please. And thank you
Michael Couture	Saint-Jérôme, Canada	2015-11-04	Parce que manger des OGM rempli de pesticide ne minteresse pas
Sandi Thomson	Waubaushe, Canada	2015-11-04	We should be able to eat vegetables without thinking they will harm us.
Wallace Hargrave	100 Mile House, Canada	2015-11-04	This stuff MUST be banned!!
Cynthia Solecki	Burns Lake, BC, Canada	2015-11-04	I DO NOT WANT TO BE EXPOSED TO ANY AMOUNT OF SYNTHETIC CHEMICALS IN MY FOOD. AND I WANT THE GOVERNMENT NOT TO CAVE IN TO CORPORATE INTERESTS, AT THE EXPENSE OF CONSUMERS. CONSUMERS DO NOT WANT CHEMICALS IN THEIR FOOD. IF THESE CHEMICALS ARE SAFE, SHOW US THE SCIENTIFIC PROOF.
Scott Strohan	Regina, Canada	2015-11-04	Fully support this petition. Canada needs better control on chemicals and more transparent reporting of what is used in our environment.
Gladys Loewen	Vancouver, Canada	2015-11-04	the health of everything is vital, people plants, animals, etc as we are all part of the same eco system. Please pass a ban on chemicals!
Archie HUNTER	Ottawa, Canada	2015-11-04	I'm concerned that this product is being ingested with our food
Jacqueline Cross	Calgary, Canada	2015-11-04	This is a sensible request. This research should be available to all Canadians.
Eric Lefebvre	Repentigny, Canada	2015-11-04	Ma santé est importante
Kathy Budai	Dartmouth NS, Canada	2015-11-04	When honeybees come into contact with glyphosate, the primary active ingredient in Monsanto's Roundup herbicide, they lose their ability to eat and have a much harder time learning how to forage properly.
Baldev Rai	Calgary, Canada	2015-11-04	Baldev
Roger Rouleau	Cowansville, Canada	2015-11-04	ROUND-UP est un danger pour tous
Marianne Joordens	Lincoln, Canada	2015-11-04	This is of critical importance and affects EVERY Canadian. A Montreal study found glyphosate in NEWBORNS!! It crosses the placenta. It also appears in baby formula. This needs to be dealt with ASAP!! Do not trust Monsanto or the U.S. FDA!
Marjorie Russell	New Westminster, Canada	2015-11-04	All creatures which includes have a lot at stake so prove these chemicals are as safe as is being claimed
Cheryl Farrancve	west Hill, Canada	2015-11-04	but we are also against animal testing???????????????
LINDA ALLAN	GORHAM, ON, Canada	2015-11-04	There are too many herbicides and pesticides that have unknown, long-term negative effects on the environment and people. Please do the due diligence before granting approval to market these items.
Roy Way	Burns Lake, Canada	2015-11-04	Do your job.
Jackie Pickering	Uxbridge Ontario, Canada	2015-11-04	Say no to gmo
Robin Sundstrom	Toronto, Canada	2015-11-04	Chemicals should be tested in independent labs, thoroughly, before being tested on humans!
Barry Strong	Sexsmith, Canada	2015-11-04	Our very existence is at stake.

Name	Location	Date	Comment
Hans Burgschmidt	Toronto, Canada	2015-11-04	I'm very concerned about the safety of glyphosate. It's been classified as a probable carcinogen in the US, and solid evidence provided by non-industry funded testing is required to see if it is safe for Canadians.
Hermel Bruneau	Québec, Canada	2015-11-04	La santé et la vie en dépend !!
France tremblay	Mascouche, Canada	2015-11-04	C'est notre santé Qui est en cause..... Cancer?....
Margaret Fellmann	Abbotsford, Canada	2015-11-04	I care about the environment and hav concern that the chemical lobby keeps these products in the marketplace.
Frank Moreau	London, Canada	2015-11-04	Dow ... Monsanto... castles of death. Slow Death.
Cindy Berg	Melfort, SK, Canada, Canada	2015-11-04	Glyphosate (Roundup) should HAVE TO BE PROVEN SAFE before it is allowed. Unfortunately I doubt that can be done as it has already been proven UNSAFE.
Tanya Dahms	Regina, Canada	2015-11-04	I think there is lots of evidence to show it is unsafe. Let's get it off the shelves now!
Luce Dorais	Lorraine, Canada	2015-11-04	I worry about the future and the health of our children
melanie devlin	thornhill, Canada	2015-11-04	I'm health conscious. Want what's right for me and my family
Richard Bird	London, Canada	2015-11-04	I believe the standard of care for chemicals should be to keep them out of use until proven safe
mabs yusuf	edmonton, Canada	2015-11-04	mabsmabs
Karen Grant	Sault Ste. Marie, Canada	2015-11-04	I am tired of chemicals in my food!!!
Alex Leduc	VAUDREUIL DORION, Canada	2015-11-04	santé
Ruth Rykse	Ontario, Canada	2015-11-04	I am concerned about the health of today's generation and the next generation.
Zuzanna Musial	Edmonton, Canada	2015-11-04	Some chemicals are causing Cancer.
Ira Bernstein	Toronto, Canada	2015-11-04	I am very concerned about the safety (or lack thereof) of glyphosate). It will be determined conclusively that Monsanto will be responsible for the shortened lifespans directly due to glyphosate use.
Lois Thompson	Prince Albert, SK, Canada	2015-11-04	I am not sure you can rely on Monsanto to do their own safety testing.
Robert Gagné	Laval, Canada	2015-11-04	Parce que je n'aime pas tout ce qui n'est pas naturel (CHÉMIQUE)(Non)....
Carla Arnold	Whistler, Canada	2015-11-04	Support organic. No GMO's or poisons like RoundUp.
Danielle Ste. Marie	Uxbridge, Canada	2015-11-04	I want to know for sure whether the food I buy is safe to eat.
Martin Castonguay	Saint-Félicien, Canada	2015-11-04	Pour notre santé et celles de tous les Canadiens .
Margaret Graczyk	Waterdown, Canada	2015-11-04	I am against chemicals in our food and I am against GMO s
Ken Sytera	Winnipeg, Canada	2015-11-04	Great petition Tony, thanks for posting.
James Graham	Gibsons, Canada	2015-11-04	Glyphosate is being sprayed on wheat just before harvest to dessicate it. Rogers Flour would not confirm to me that they are buying wheat that has not been sprayed pre -harvest. It is also being used to kill and dessicate lentils etc. and we are consuming it.
Daphne Paterson	nanaimo, Canada	2015-11-04	I sign because ther is no evidence that glyphosate is safe for humans and that the governing principles of Mr Harper did not allow Caanadian scientists to divulge their concerns. Please change the situaion and let us know the results.

Name	Location	Date	Comment
IRENE carlson	New Westminster, Canada	2015-11-04	I suffer severe MCS and multiple allergies inc. chemical..thanks.
Pam Little	McCreary, Canada	2015-11-04	I am signing this petition because we live on a farm that uses glyphosate and many times I have wondered what testing has been done to prove the safe levels for humans. My partner, a farmer for over 45 years has been diagnosed with Parkinson's like many others in our area. I often wonder how exposure to this and other chemicals used has contributed to his health issues.
Randy Janzen	Alberta beach, Canada	2015-11-04	I've always been under the impression that these test were done long ago as this product has been used for so long. Would be nice to know that no scrutiny of this products safety was left to chance. Wouldn't surprise me if it has not been documented!
Bernard Mercier	Longueuil, Canada	2015-11-04	Pour la santé et l'environnement !
Allan Platsko	Mitchell, Canada	2015-11-04	We should have complete transparency and clear information when it comes using any substance that will come in contact with any consumable goods
Peggy Proctor	Saskatoon, Canada	2015-11-04	I believe that government actions should be transparent.
bernard blachere	Stanstead, Canada	2015-11-04	Comme le prétend Monsieur Séralini après son étude sur des rats, l'usage du glyphosate est un crime contre l'humanité qui requiert un verdict des plus sévère.
Barbara Swail	Dawson Creek, Canada	2015-11-04	The Ministry has been negligent in proving the safety of this pervasive chemical and Canadians should have the information with which to make informed choices.
velimir lazarevic	Hamilton, Canada	2015-11-04	You are what you eat!
Mathieu Dagenais	Quebec, Canada	2015-11-04	It's Monsanto against the world! Stop 'em now!
valerie cormier	winnipeg mb, Canada	2015-11-04	The Government Health Minister never received a safety test, on this poison to our food supply, yet signed it was safe !!!
Mary Coling	Ayr, Ont, Canada	2015-11-04	I'm signing because I'm am concerned about the environmental issues we face today.
Mackenzie Remington	Richmond Hill, Canada	2015-11-04	We are the consumers. We have the right to know what is used in the production of our foods.
william john jones	BC, Canada	2015-11-04	□ All Life on Our Planet (Gaia) and throughout the Universe is Sacred.
Anil Liyanage	North York, Canada	2015-11-04	Glyphosate is associated with Kidney damage of farmers in many countries. I want to know the truth.
Russ Curtis	North Vancouver, Canada	2015-11-04	It is a new day and a new government that will respond properly? That is my hope.
Vivian Gies	Toronto, Canada	2015-11-04	Let's protect our environment, our children, our wildlife and domestic animals. Lead the forefront Prime Minister Trudeau and ensure we have the highest health and environmental standards in the world.
Michael Muirhead	Vancouver, Canada	2015-11-04	I eat plants... and that should be a safe way to live.
Barbara Claridge	Vancouver, Canada	2015-11-04	Health and well being of Canadians is important.
Matt Walker	Whistler, Canada	2015-11-04	Glyphosate research is showing probable correlation to human health issues, and we all deserve to have the safest food possible.
Darlene Knight	Medicine Hat, AB, Canada	2015-11-04	I feel very strongly that the information of food safety should be public information. I want to know that the food I feed my family is safe for long term and absolutely without doubt safe to eat. I also as a consumer want to know by mandatory labelling what is a GM product and what is not. I want to be assured that my grandchildren are eating safe, quality food. I feel I as a consumer have a right to know what I am buying and what I am eating.

Name	Location	Date	Comment
mike clunas	London, Ontario, Canada	2015-11-04	I am concerned about our food being safe for consumption and it is up to the Canadian Government to assure Canadians are safe.
Nenad Jug	Markham, Canada	2015-11-04	I care about the health and chemicals like these should be banned.
Karen Kelly	medicine hat, Canada	2015-11-04	It scares me
bonnie sokoloski	Kamloops BC, Canada	2015-11-04	I'd like to know if there are conclusive results from properly conducted tests regarding the effects of glyphosate use on humans. Do we get residues in food from sprayed crops? What about in the air we breathe?
Gerry McNulty	Timmins, Ontario, Canada	2015-11-04	All products used to spray on farm fields or gardens must be absolutely safe.
Lise Janelle	Toronto, Canada	2015-11-04	Even the World Health Organization says that glyphosate is a probable carcinogen, we need to protect ourselves and the generations to come
Nicole Normandeau	Hawkesbury, Canada	2015-11-04	Round up doit être éliminé de la planète, c'est la pire invention visant la mort à petit feu des humains les plus vulnérables.
David Flint	Toronto, Canada	2015-11-04	I lived and worked in south western Manitoba in the early 1960's. Roundup was commonly used the-- I.e over 50 years ago. Surely the Depr. Of Health by now must have scientific evidence about the dangers, or lack of, created by Roundup.
Harold Spring	Kelowna, BC, Canada	2015-11-04	Way to go Tony!! We (Citizens) need more intelligent & knowledgeable people to hold authorities accountable.
Stephanie Tofield	Vancouver, Canada	2015-11-04	I'm signing because the Harper government hid the scientific proof and we believe you will be honest.
Jocelyne Hébert	Bois-des-Filion, Canada	2015-11-04	Je signe parce que RoundUp tue les abeilles et peut-être les humains.
Roxane Blais	Montréal, Canada	2015-11-04	je désire être informée de ce qui est vaporisé sur les légumes que je mange
David MacLeod	Toronto, Canada	2015-11-04	Why does our no good politicians allow all these poisons? We are dying because of polluting our glorious planet but that seems to be okay with our stupid "leaders". We must go back for the future!
Helen Adam	Côte Saint-Luc, Canada	2015-11-04	I'm signing because Canada needs to know that its food is safe.
Ivana currie	Mississauga, Canada	2015-11-04	Yphosate is Roundup and is being sprayed freely in cottage country. During thanksgiving weekend it was sprayed without prior notice! That is contrary to existing bylaws! Cottages on Harris Lake were exposed as a result. Are we and our children and grandchildren consequently at risk of becoming ill? We want the truth about glyphosate (I.e. Roundup) !
krzysztof ruszkowski	mississauga, Canada	2015-11-04	If the Trudeau government will be as transparent as he said he will be, let's see from the beginning.
sabrina balsky	toronto, Canada	2015-11-04	the WHO has now said that it is a potential carcinogen
Jeffrey Saunders	Thornhill, Canada	2015-11-04	Because truth needs to come before commercial interests.
Ruth Wasylenko	Sherwood Park, Canada	2015-11-04	We all need to be healthy as Canadians if we are called to generosity for others. And we are.
Suzanne Gervais	Chambly, Canada	2015-11-04	je me préoccupe de ma santé et de celles de mes petits-enfants On nous demande de manger plus de fruits et de légumes mais enlever ces produits chimiques de notre assiette.
Linda Willman	Ottawa, Canada	2015-11-04	I am concerned for future generations and want our government to be a responsible steward of our world.
kelly murtland	Saskatoon, Canada	2015-11-04	I want to know for sure if this herbicide is safe for people to consume
Lawrence Jones	Brandon, Canada	2015-11-04	Too many chemicals have been released for use without full understanding of their results.

Name	Location	Date	Comment
Martin Deguire	Beloil, Canada	2015-11-04	Je signe cette petition parceque le gouvernement devrait simplement toujours disuser au grand public les effet que peuvent causer les nouveaux produit choisis sois en agriculture ou de tout se qui se raporte a la polution de laire . (carburant davion , bateaux. De voiture et tout produit difuser en agriculture
ken rimmer	Athelstan, Canada	2015-11-04	Simply amazing HC can allow a potentially dangerous product reach the market and yet becomes a bumbling bureaucracy when it comes to a simple plant like Cannabis. Past and present Health ministers should be apologizing to Canadians!
doug fischer	edmonton, Canada	2015-11-04	it's a simple request and a transparent government shows the public the basis for its decision
David McNary	Chilliwack BC, Canada	2015-11-04	Not an unreasonable request. Of course animal exposure would be minimal compared to the number of years humans live. Maybe that's why we've seen such a dramatic increase in cancers compared to fifty years ago.
Ron Garner	Nelson BC, Canada	2015-11-04	I'm signing because my own research has convinced me that glyphosate is very bad for everyone's health.
Arthur Davison	Edmonton, Canada	2015-11-04	We are exposed daily to many different chemicals, and we rely on the government to assure us that they are safe.
Jim Appleby	Woodmore, Canada	2015-11-04	pesticides, approved based on efficacy at killing, and not safety, make me sick.
Anne Simard	Weedon, Canada	2015-11-04	Nous devons cesser de détruire l'environnement ... Nos enfants hériteront de tout ce que nous avons laissé passer...
James Turner	Fredericton, Canada	2015-11-04	This strikes me as one of the best change.org petitions to come my way. Solid research, crucial issue, clear evidence of some sort of intentional muddying of the waters. Thanks Tony!
Agalya Dhanasekaran	Markham, Canada	2015-11-04	I care!
Gary Chambers	Dartmouth, Canada	2015-11-04	I care about the food my family eats. I have a wife, four grown children their spouses and our eight grand children.
Lara Dickinson	Nanaimo, Canada	2015-11-04	I have children
Sylvie Lavergne	Plantagenet, Canada	2015-11-04	Please stop the spraying of plants and field that's why so many people have cancer. STOP!
G A Quinton Kuschei	Oakville, Canada	2015-11-04	Tired of years of weasle-treatment by politicians.
Dean Ireland	Kamloops, Canada	2015-11-04	this needs to happen!!!
Benoit Bourque	Montréal, Canada	2015-11-04	I think we need to be transparent in the way we do agriculture in this country.
Edward Adamache	Moose Jaw, Canada	2015-11-04	Health hazard reasons
dimitri koutsoufis	montreal, Canada	2015-11-04	When profit margins become more important than people, as they have become, it sets up a potential to harm the very people who ingest these questionable products. Glyphosate is irresponsible and unnecessary and should be thoroughly tested. WE DON'T WANT TO EAT WEIRD CHEMICALS THAT CAN KILL US.
Kevin Tynan	Toronto, Canada	2015-11-04	kevintynan
Daniel-Jean Primeau	Montréal, Canada	2015-11-04	Vous devriez avoir aussi une version française du texte !!!!
Mike D.	Saskatoon, Canada	2015-11-04	drug & chemical companies are known liars and abusers of human/animal kind
Michael Allison	Calgary, Canada	2015-11-04	Our health is something to be taken extremely seriously
Jean-Claude Légaré	Lévis, Canada	2015-11-04	Où est l'éthique vis à vis le consommateur sinon !

Name	Location	Date	Comment
Georgeta Dumitrescu	Ottawa, Canada	2015-11-04	I am convinced that Glyphosate is killing bees and is a carcinogenic agent extremely dangerous for life in general. Sooner or later it reaches us as part of the bio chain or destroys other essential links in this chain. It has to be banned! And Monsanto sued for hiding evidence of toxicity, and for poisoning the environment.
James Wilford	Vancouver, Canada	2015-11-04	My land has been sprayed with glyphosate without my permission by industry and I want answers.
Danielle Mandeville	Sorel-Tracy, Canada	2015-11-04	Les pesticides sont très dommageables pour la santé des Canadiens
Kim Prezio	Mississauga, Canada	2015-11-04	The government full transparency to the people I'm not sure if that's possible we certainly hope someone comes forward to be truthful in the government when is it going to stop with our food chain that's why these health problems we are now getting because our food is mass production and cancer is on the increase ☐ ☐
christopher innes	Toronto, Canada	2015-11-04	So many chemicals have already had a severe effect - look at the figures for gluten allergy which are all due to Monsanto
Audrey Unger	Winnipeg, Canada	2015-11-04	We need to
DONNA JEAN RENZ	MISSISSAUGA, Canada	2015-11-04	We have a right as human beings to know what is being used in ANYTHING that is put into the air that we breathe. Unless we are updated on this and ASSURED its safety, IT MUST NOT BE USED!!!!
Michael Carman	Surrey, Canada	2015-11-04	We're not guinea pigs! Prove it safe first!
Pamela watson	Battersea, Canada	2015-11-04	We need to know glyphosate is SAFE
Brian Childerhose	Kingston, Canada	2015-11-04	Glyphosate is a terrible addition to the environment.
Lucie Bernier	Saint-Constant, Canada	2015-11-04	La santé des Canadiens est importantes.
Dianna Brown	Toronto, Canada	2015-11-04	Canadians want to trust their government to protect them from harmful substances
Martin Jordan	Etobicoke, Canada	2015-11-04	I want the government to give Tony Mitra what he asked for. Thank you.
Patti Richards	Outlook, Canada	2015-11-04	I am signing because I have children and a grandchild. What is best for our next 7 generations????
Alan Rimmer	Kitchener, Canada	2015-11-04	Most of these herbicides are used because of how agriculture is conducted but the negative effects are enormous for the complete ecosystem. the use of glyphosates should be stopped.
Kathleen Morton	Cambridge, On, Canada	2015-11-04	Its not gluten thats ruining digestive tracts its glyphosate
D Knight	Vancouver, Canada	2015-11-04	this is an important part of our food safety and please just do it for the birds and the bees!!!
Leanna Obirek	Winnipeg, Canada	2015-11-04	It should be self explanatory: what does the Government gain, if it poisons its own population, its own environment?
Ernest Jones	Oshawa, Canada	2015-11-04	Living organisms are nothing more than bags of chemistry, change the chemistry, change the organism. I don't know why we are messing with the future of our species, these matters need to be taken very seriously.
Doug Smith	Kitchener, Canada	2015-11-04	Round up for corn was only good for 10 years and has begun to fail. The residue is stronger bugs! Mono culture will not work.
Katherine Adlam	Sackville, Canada	2015-11-04	I'm concerned about chemical spraying and it's effects not only on the environment but the people living nearby.
Aaron Goldman	Winnipeg, Canada	2015-11-04	This is long overdue.

Name	Location	Date	Comment
t bell	steinbach, Canada	2015-11-04	the Conservative Government has failed Canada in far too many areas, this being one of them.
Sarah Demidiuk	Calgary, Canada	2015-11-04	Please Justin please also ban GMO and the steroids and hormones in meat production I pay 700\$ a month to eat organic because I feel sick when I eat that stuff and it disgusts me! Put yourself in the animals positions!!! They have feelings and ps congrats!!!! I believe in you!
Janice Gercken	Vancouver, Canada	2015-11-04	I want to know the food I eat is safe and healthy...don't you?
Chris Marshall	Edmonton, Canada	2015-11-04	I care about the safety if our food supply
Patricia Johnson	Campbell River, Canada	2015-11-04	I don't want my food treated with glyphosate or any other Roundup ingredieants.
Gilles Goulet	Fenelon Falls, Canada	2015-11-04	I would like to know if I am being killed slowly or something else
Kyle Ness	Regina, Canada	2015-11-04	The use of glyphosate is suspected of being the cause related to higher incidents of gluten intolerance and celiac's disease and I wholeheartedly believe we need to stop using this immediately until proven safe! Precautionary principle needs to rule here.
Jean-Yves Dionne	Mont Royal, Canada	2015-11-04	Le glyphosate est montré comme cancérigène et perturbateur hormonal
Lana Mitchell	south surrey, Canada	2015-11-04	Absolutely astounding the amount of harmful chemicals that the unknowing consumer is bombarded with. It is extremely expensive to avoid these said chemicals. Peoples health over profit!
Geri Kinzer	Chase BC, Canada	2015-11-04	Because im tired of being poisoned slowly to death
Tony Hill	Calgary, Canada	2015-11-04	Tired of corruption that we pay for with our lives!
Roger Gervais	Salmon Arm, Canada	2015-11-04	I don't think you should allow dangerous chemical in Canada! Merci
Mary Wiebe	Morden, Canada	2015-11-04	I'm signing this because I would like them to have proof it is safe.
John Allen Allen	Azilda, Canada	2015-11-04	We are being poisoned for profit. This may be one of the ways our government is putting profits before people. If it's safe prove it.
Gareth Williams	Calgary, Canada	2015-11-04	Many in our family suffer from severe seasonal nasal and chest issues but GPs will not recognize them as allergies. Testing discounts these health issues as allergies to natural environmental airborne particles. So what else could be causing issues? Your petition does beg the question are these sprays safe?
Martine Bergeron	Sherbrooke, Canada	2015-11-04	Parce qu'il est plus que temps de stimuler le recours à une approche biologique et retirer les produits dangereux pour l'humain et les éco -systèmes! Retirer le round-up! Et retire Monsanto du Canada en même temps!!! Martine Bergeron
Jeanette Paisley	Langley, BC, Canada	2015-11-04	Roundup should be banned outright.
kenner ames	toronto, Canada	2015-11-04	pesticides are killing us and causing cancer
John Eastwood	Stittsville, Canada	2015-11-04	I am signing because I believe that all people should have the relevant and current information about such products. If it is truly safe to use this product then those who want to use it should come totally clean about any potential adverse impacts that may result from its use. John
Jacqueline Hollenbeck	T.V., Canada	2015-11-04	Glyphosate and other agro chemicals and GMO's are ruining our soils, our families' heath and have never been proven safe. Time to protect "the people" and not the industries. People first, Industry interests after.
Rakesh Das	Kolkata, India	2015-11-04	It matters to me irrespective of which part of the world I am in.
Shawn South	Toronto, Canada	2015-11-04	its not too i want to see them prove it

Name	Location	Date	Comment
alan carlisle	Toronto, Canada	2015-11-04	Ag-ri-busi-ness is ruthless. Scientific Data about this and other products is essential.
Christian Ying	Mississauga, Canada	2015-11-04	If the government is for us, they they should prove that this chemical is safe.
Mary Lynn bartram	Ilderton, Canada	2015-11-04	I'm sure these chemicals that are sprayed on our food and into the air we breath are not safe.
Valerie Orton	Oakville, Canada	2015-11-04	I want to know the truth
amy graf	Windsor, Canada	2015-11-04	I am concerned about food safety and the the health of my family and fellow Canadians.
Josee Milroy	Forestburg, Canada	2015-11-04	I care about what I put in my month and environment
Gail Bartlett	Guelph, Canada	2015-11-04	The testing on glyphosate is very unsatisfactory. Very short term tests conducted mostly by scientists commissioned by the agrichemical industry. Testing conducted by scientists unconnected to the biotech industry shows very frightening results.
Aarif D	Calgary, Canada	2015-11-04	Make this planet safer and healthier! Investigate if harmful to human, OR ANY LIVING ORGANISM, because we are all linked in a chain...!
kim petersen	parksville, Canada	2015-11-04	The precautionary principle should hold.
Shauna O'Donnell	Saint Bruno, Canada	2015-11-04	I want to know if glyphosate is a health safety concern for Canadians.
Douglas Buck	Toronto, Canada	2015-11-04	We can no longer escape the reality that we are poisoning our land, our water, our air, and ourselves. All chemicals must pass third-party safety tests before they can be used. Even better, organic food production doesn't need to use virulent poisons.
Leonie de Young	Scarborough, Canada	2015-11-04	Along with the glyphosphate they are using GM grain seeds coated in nicotinoids which the government has said is safe. You cannot trust the government on this. Cancer has reached almost plague proportions worldwide and one has to wonder if this is not coming from the food chain. We really do not know what is in/on the foods we put in our mouths - washed or not. The new government needs to do something about these issues and be more open with the public.
Craig Bugden	Minden Ontario Canada, Canada	2015-11-04	I want safe food for all of us to eat.
riitta hietanen	toronto, Canada	2015-11-04	I don't want Canada to become increasingly toxic and dangerous to humans and animals and birds alike!
Shelley Ford	Calgary, Canada	2015-11-04	Using chemicals to spray plants is poisonous to the insects and animals it comes in contact with. They not only harm the animals and food chain, they are poisoning the earth. We need to be taking drastic measures to prevent this destruction from continuing.
Michelle Beaulieu	Laval, Canada	2015-11-04	Non à ce pesticide à cause des effets secondaires néfastes pour l'humain, l'animal, les abeilles surtout.
Des Carr	Burnaby, Canada	2015-11-04	It is a very simple request. It shouldn't be difficult to produce these results.
Linda Martens	Richmond, Canada	2015-11-04	this is common sense
Chantal Blanchette	Drummondville, Canada	2015-11-04	Je dois maintenant payer plus cher pour des aliments biologiques pour éviter d'être malade, mais mes enfants et la plupart des gens n'en n'ont pas les moyens et doivent obligatoirement nuire à leur santé en mangeant les produits traités avec ces herbicides et pesticides

Name	Location	Date	Comment
Dennis Sorenson	Vernon, Canada	2015-11-04	There as been too much misinformation used in this sort of thing. Big oil co. neaw There has been too much misinformation used in this sort of testing like big oil paying for a favorable result and not telling the truth. Which in turn hurts the whole food chain as a result.
Will day	Edmonton, Canada	2015-11-04	Monsanto is Evil!
Allison Tucker-Lamoureux	Fort Saskatchewan, Canada	2015-11-04	Glyphosate is used in so many agricultural applications including desiccating crops. This type of application could very likely cause residues to be directly contaminating our food. It's bad enough that so much glyphosate is used on so many crops during the growth phase but to spray it on crops just before Harvey is very risky particularly since the actual safety of this chemical on human health is unknown.
Gail Swiat	Mascouche, Canada	2015-11-04	I believe Canada should do their own testing before putting the product on the market.
Norman Smith	Campbell River, Canada	2015-11-04	We are not lab rats to be poisoned for profit. If you value your citizens then protect them not industrial polution.
Michelle Congdon	Nanaimo, Canada	2015-11-04	I do not support round-up, and i feel strongly about knowing the facts from non-government scientists. I want the unbiased truth
Gudrun Finnen	pender island, Canada	2015-11-04	prove that spraying our food with chemicals is not making us sick, we deserve to know.
Bonnie Dew	Toronto, Canada	2015-11-04	If the chemicals in Round Up are safe as stated, show the actual results so we, Canadians, are assured of its safety.
Diane Edwards	Chilliwack, Canada	2015-11-04	I'm tired of big companies, governments and special interest groups telling me lies about what is used on, in and GMO'd food. Why can we not just have good wholesome food that's not tampered with in anyway. Lets eat the way God intended us to.
Jocelyn Chouinard	Lunenburg, NS, Canada	2015-11-04	Canadian's deserve the right to an agricultural system that produces healthy and nutritious food, NOT one that poisons us, that destroys the soils ability to produce, nor the insects create the fruits and vegetable production. These dreadful poisons are required ONLY for the GMO crops that have wreaked havoc with our food production and are also responsible for the escalating incidence of Cancer - especially in our children!! Ample evidence exists which definitively confirms the toxic and carcinogenic results of dumping trillions of tons of these toxins on our FOOD supply and WE are ingesting these poisons, which can not be removed from our food! No agency, no corporation and no leader of any country has the right to knowingly put the lives of citizens at risk by using toxic poisons in the very food that we eat - ONLY for PROFITS. As a Canadian, I demand that unbiased 3rd party research be presented immediately to verify the toxicity and dangers of continuing to use both GMO crops and the trillions of tons of carcinogenic and poisonous Glyphosate and other herbicides and pesticides present in our food system. Stand up to Big Ag and Big Pharma (yes they are one and the same) and return the right to healthy and non-poisonous food for all Canadians!!
Helen Williams	Vancouver, Canada	2015-11-04	I want to see the test results!
Richard Sweeting	Abbotsford, Canada	2015-11-04	There does appear to be excessive use of pesticides and herbicides on our food supply without adequate testing having been done to ensure that they do not have any toxic effects on mankind.

Name	Location	Date	Comment
wendy Hill	Port LBERNI, Canada	2015-11-04	And make sure you use scientists who have NO conection to Monsanto or big Pharma!
Bev Playfair	Fort St. james, Canada	2015-11-04	This product is poison and should be banned.
Matthew Cavalli	Langley, Canada	2015-11-04	I work with food and am very passionate about the ingredients I use and consume everyday.
Clarke Hamel	Edmonton, Canada	2015-11-04	The interests of Monsanto and its peers are not mine or Canada's. My interest is in a whole food, plant based organic food system that does not include toxic and unsafe pesticides, herbicides and GMOs which harm both citizens and the environment. Such products must be clearly labelled and avoided until they are banned.
Dale Whiddon	Wheatley, Canada	2015-11-04	As Canadian citizens, we have a right to know that our food is safe both for humans and animals.
Leanne Wyatt	Lacombe AB, Canada	2015-11-04	I am signing because I am concerned about anything that will harm us and our province, country and the world. We know what these chemicals are doing to the bees.
Marian Sarbev	Montréal, Canada	2015-11-04	I want to know if Glyphosate is safe for us.
Michael Beresford	Orillia, Canada	2015-11-04	I'm a beekeeper, or was. I care about the environment. I don't want to eat vegetable/corn products that can resist this chemical.
Barbara Herbut	Calgary, Canada	2015-11-04	Read the scientific papers in respected journals, on the perils of glyphosate. Protect us by banning it!!
Cecilia Buck	Kelowna, Canada	2015-11-04	I don't think this is a safe product
Gaétan Marcoux	Saint-Adrien-de-Ham, Canada	2015-11-04	Enfin!!!! Essentiel pour la santé une étude qui aurait du être fait il y a longtemps
John Deringer	Flaxcombe, Canada	2015-11-04	Please upgrade pition to include the 37 other active ingredients in roundup, and how they react to glyosphate when mixed in there toxic brew. Not just glyosphate itself. If it goes to study this issue will fail.
kelly hicks	pugwash, Canada	2015-11-04	I am afraid if we keep contaminating our earth..the sickness rate in our world will continue to sky rocket.We cannot afford to destroy our water supply..this has to stop..before it is too late.
KEVIN FERGUSON	Hamilton, Canada	2015-11-04	I can't say I approve of the use of test animals, but I too, would like an answer to this question.
alexander Zielinski	Toronto, Canada	2015-11-04	The question will be clear if your government answers, a true report! Is this stuff toxic for us as Canadians we need to know!
Jean Dilcock	Markham, Canada	2015-11-04	I believe these substances to be poisonous to all living things.
Ron Bruce	Guelph, Canada	2015-11-04	I'm signing because this is another Monsanto scam of unproven science. And the last Minister of Health didn't know manure from canola.
Isabelle Watson	Mount Forest, Canada	2015-11-04	We know that it is NOT safe.
Allen Stevenson	Emsdale, Canada	2015-11-04	I am concerned about too many chemicals that we exposed to.
N A	bass river, Canada	2015-11-04	Monsanto didn't have their French installation torched because they're the good guys on the block.
Rachel Girard	Saint-Lambert, Canada	2015-11-04	c'est important pour la santé de tous
julie beland	Montréal, Canada	2015-11-04	J'ai le droit de connaître la composante de ce que je mange
Diego Martin	Moncton, Canada	2015-11-04	It as some not so safe side affect
Karen Thomas	Hammonds Plains, Canada	2015-11-05	I am very much aware of this probelm and the toll it will eventually take on human beings. Why I ask would anyone want to ingest glyphosate!!!

Name	Location	Date	Comment
susan zimmer	london, Canada	2015-11-05	our environmental toxins are killing us slowly but surely - in Europe, chemicals have to be proven safe BEFORE releasing them to public - here it is the other way around - sick
Pat mac Isaac	beamont Alberta, Canada	2015-11-05	Killing our grandchildren not safe all about Greed
bernard huneault	Sudbury, Canada	2015-11-05	I care about the health of country.
Lise Varin	Gatineau, Canada	2015-11-05	Pour l'environnement / et pour mettre du poids dan la balance ;)
Robert Croghan	Toronto, Canada	2015-11-05	About time!
Lilia Noriega	Terrebonne Québec, Canada	2015-11-05	These things are bad for our healt
Jean Marc Pitre	Val-Morin, Canada	2015-11-05	Jean Marc Pitre
Glenn Martin	Mississauga, Canada	2015-11-05	Im signing because I care what I eat
Celine Dan	Coquitlam, Canada	2015-11-05	The way these tests were done, then, we can assume that , whoever manufactures DDT.....will say it's safe again!!!!
Linda Burke	Spirit River, Canada	2015-11-05	Herbicides can be dangerous!!!
Margaret Hinkson	Newmarket on, Canada	2015-11-05	Glyphosate has not been proven to be safe
Vicky Mcneill	Mississauga, Canada	2015-11-05	We are entitled to this important information Regarding this health issue.
Douglas Pudsey	Burlington, Ont, Canada	2015-11-05	Is this product safe for Canadians?
Aloel Cristal	Thornhill, Canada	2015-11-05	I have seen a huge amount of independent data that shown that his substance is totally unsafe and causes a vast array of health problems in humans and animals.
CHUCK LIEBROCK	kelowna, Canada	2015-11-05	A few years ago, Roundup was not allowed to be sold in Retail outlets, in many Provinces. It was ruled to be unsafe, and only professionals could use it. The "Professionals" were 17 and 18 year old workers for Landscaping firms. This year it is back on the shelves for anyone to use, and without restrictions. This wavering back and forth, as to it's safety is more than disconcerting, and i agree; it is either safe for humans or not. I live in BC, and I see various sprays being applied by workers without protective gear Are they risking their lives; does it matter because they are only "Foreign, Seasonal Workers"
Margret Larochelle	North Bay, Canada	2015-11-05	I don't believe that it is safe!
Jeff Messier	Châteauguay, Canada	2015-11-05	We definitely need to save the bees!!
Bob Bastian	Fruitvale, BC, Canada	2015-11-05	It's time for government to stand up t5o big corporations. From so much of what I read, I find it very hard to believe that glyphosate is safe for people to use as it presently is. This testing must be done independently asap.
maggie grant	Kelowna, Canada	2015-11-05	I do not want my children and grandbabies eating anything that has been sprayed with Roundup. I'm sure as a parent or grandparent you feel the same.
Jesse Woods	Waubaushe, Canada	2015-11-05	It should be proven safe,before being used,to protect people and wildlife ,from potential health threats that may be overlooked
Gaétan Chênevert	Repentigny, Canada	2015-11-05	Non au poison
Leslie Martel	Mississauga, Canada	2015-11-05	Our scientists have been muzzled so long we no longer know what is safe. I don't trust the food we eat anymore. Time to give us the truth about Glyphosate. Leslie Martel

Name	Location	Date	Comment
Pranjal Patra	Saint John's, Canada	2015-11-05	I don't want to get sick
Sébastien Tremblay	Laval, Canada	2015-11-05	La santé de la population est importante...
Karen Hood-Caddy	Bracebridge, Canada	2015-11-05	With cancer rates at 30%, shouldn't we know what we're eating?
Audrey Brooks	Edmonton, Canada	2015-11-05	Canada needs to take better care of our people and land, and not even begin to think of hiding or ignoring concerns about chemicals like glyphosate, Please respond to my concern. Audrey Brooks, Edmonton, Canada
Rémi Galvin-Wagner	Stanstead, Canada	2015-11-05	Car cela concerne la nourriture que nous mangeons
Rick Rodland	Langley, Canada	2015-11-05	I care about our health and environment.
Steve Mason	Red Deer, Canada	2015-11-05	Its been well proven in many independent scientific studies that Glyphosate is extremely harmful to living tissue - people, animals. insects, plants, everything that lives! Im signing because I identify and follow the Truth, in all things.
Nicole Ouellette	Blainville, Canada	2015-11-05	Health Canada : Prove glyphosate is safe
Mary Brunet	Longueuil, Canada	2015-11-05	I don't want to eat poison and I want to know the truth. Let the scientists speak!
Carol Ring	Rothsay, Canada	2015-11-05	Glyphosate is NOT safe, it is a carcinogen.
Jerry Swyer	Waasis, Canada	2015-11-05	We should be able to buy vegetables, without the risk of poison, in our diet. It's fine if they are blemishes, we can go around that. Please don't kill the bees that we need. Just farm the way nature intended, Healthy!
tanya retallack	Australia	2015-11-05	It is important to me that all countries desist from poisoning the people. If you want to depopulate please do so by lowering the eligible birth rates. Not by killing people off that you allow to be born!
Eunice de Gruchy	Chateauguay, Canada	2015-11-05	We need to stop poisoning our food supply!!
iara ramanauskas	n.d.p, Canada	2015-11-05	Canadians must know it is safe.
Phil & Dee Warren	Delta, Canada	2015-11-05	Monsanto is one of the most corrupt corporations on the planet.
Keith Wilson	Nanaimo, Canada	2015-11-05	I think the answers will be interesting. . . and if they show glyphosate is safe, it should be promoted. If not, its use should be stopped forthwith.
Jessica Barron	Peterborough, Canada	2015-11-05	I'm signing because of my concern for our food's health safety and the environment.
Martine Iarrivee	Montréal, Canada	2015-11-05	Je suis tout a fait contre le round up ... Quel poison !!!
Rod Jamieson	Tsawwassen, Canada	2015-11-05	The new PM sworn in today has stated that his will be an open and transparent government that the people of Canada can trust. He has also said that decisions will be made based on the applicable science. So this should be an easy place for the government to start to show whether it is transparent and trustworthy.
Glynn Johnston	rothesay, Canada	2015-11-05	Safety is important
Rosemary Lowe	Ottawa, Canada	2015-11-05	For your children and my grandchildren!
Donna and Ken Zipse/Bendle	Stony Plain, Canada	2015-11-05	We were sprayed with this and the bees in our hives died, rabbits could not walk, humans had violent headaches.
Carly Terreault	Montreal, Canada	2015-11-05	I believe all scientific research should be public knowledge.
Dorine Garibay	Agassiz, BC, Canada	2015-11-05	Yeah, let's see the damn evidence.
Jennifer Cutbill	Vancouver, Canada	2015-11-05	I'm signing because food safety is critical to societal health:
Lester Pettyjohn	Kamloops BC, Canada	2015-11-05	It simply has to stop. We have to become better stewards of our planet

Name	Location	Date	Comment
David Baldock	Parkside, Canada	2015-11-05	I am signing because this kind of thing has been ignored or side-stepped in all sorts of cases recently. Many Genetically Modified crop varieties and the chemicals used to "treat" them are often left untested, or more commonly, tests are handled by the agricultural science companies who produce them, but who never disclose any of their internal results. Furthermore the companies involved refuse to allow third parties such as governments or private companies to do comparative studies. If anyone wants to know more, there are several great documentaries available, such as "GMO:OMG".
Clancy Clarence Higdon	Fort McMurray, Canada	2015-11-05	I want proper test and other papers to be shown has proper criteria to all types of testing that Canadians are being protected Leah's under firm and controlled environments for everything that we may use here in Canada and not make the same mistake that it did when it authorized the use of a chemical warfare chemical called aspartame
Aklilu Worku	Waterloo, Canada	2015-11-05	Safety first
Fred Rode	Alberta, Canada	2015-11-05	In many as this one the government is supposed to protect the consumer, NOT THE CORPORATION, Some governments are worse at safety enforcements.
Barbara Spaans	Surrey, Canada	2015-11-05	we all need to be safe.
christian major	grand-mere, Canada	2015-11-05	I want it out of my food
Gerri Link	Killam, Canada	2015-11-05	I too,would like to know it is safe by proven methods.
Tim Short	Edmonton, Canada	2015-11-05	I believe glyphosates are harmful to people and the enviroment
Debbie Angell	Saskatoon, Canada	2015-11-05	I care
Jacques Boutin	Longueuil, Canada	2015-11-05	Ma santé j'y tiens.
Ryan Lehman	peterborough, Canada	2015-11-05	i'm signing because i'm not a lab rat
Betty Borg	Peterborough, Canada	2015-11-05	I am signing because ill health costs us all in many ways. A clean environment is a first step to health for all.
Nicole pawis	Toronto, Canada	2015-11-05	I'm signing because our food matters help Tony get the reports to prove glyphosage is safe and actual has been sign that says it is. Every vote counts!
Don Ellis	St John's, Canada	2015-11-05	I want to know!
Kerri Taschuk	Winnipeg, Canada	2015-11-05	This needs to happen! Friends please sign Tony's petition!
J Brock	Lacombe, Canada	2015-11-05	I hope that the Agricultural Policies in Canada will change to support Organic Only food. Presently, Monsanto Corporation uses this product to spray crops and this poison ends up in the food chain of every Canadian citizen through ingestion of bread, meat and corn. GMO foods need to be outlawed so that the citizens of Canada are not poisoned by food consumption.This product needs to go.
Sharon Beecroft	Glencoe, Canada	2015-11-05	Canadians have the right to know that this is safe for humans and wildlife.
Alice Thomson	Winnipeg Manitoba, Canada	2015-11-05	This is JUNK, anything Monsanto has made will eventually destroy all our food and possible, even us, if we eat any of it
Fabienne Plasse	Ascot Corner, Canada	2015-11-05	Pour m'assurer que la nature réelle de cette substance ainsi que ses effets non désirables soient connus du public
Rob Rohrke	Warman, Canada	2015-11-05	It is our right as canadian to know if this product will harm us. AND the relevant disclosure on all safety reports under the freedom of information act.
Brenda Catt	Acton, Canada	2015-11-05	Time to put an end to chemicals on our food. Our food is toxic enough. Time for Medical care to be 100% free if you are going to allow such garbage that makes us sick.

Name	Location	Date	Comment
Michael Conway	Oakville MB, Canada	2015-11-05	Big Ag needs to free itself from chemical dependency. This method of farming is not sustainable. Farmers have become lazy and will take the chemical path to better secure their bottom line. Organic methods and other holistic approaches take too much work to achieve similar yields. Canada can do better!
Pierrette Béliveau	Aston-Jonction, Canada	2015-11-05	Parce qu'on essaie toujours de nous cacher la vérité.
Bev Shoemaker	Parry Sound, Canada	2015-11-05	The suggestion herein is the standard to which all chemicals need to be held. We are slowly dying from overexposure to a multitude of chemical toxins.
Joyanna Erickson	Mill bay, Canada	2015-11-05	Find out how safe it is. Stop fulling around with our health and Mother Earth
Gabriel Mimeault	Repentigny, Canada	2015-11-05	I'm affected by Glyphosate.
Joan Homer	Vernon, Canada	2015-11-05	With Justin Trudeau now our prime minister hopefully science will now have a voice. Prove glyphosate is safe!
Cornelius Timothy	Brampton, Canada	2015-11-05	There are studies that clearly show glyphosate damaging for humans and animals. It appears that Monsanto penetrated also our Canadian government and appears that they do not care about our health and the damaging effect upon life including humans and animals.
Gina Ducharme	Gillies Bay, Canada	2015-11-05	All these chemicals are inundating our people young and old with endless disease, thus costing our health care billions of dollars.
David LeMaitre	Bracebridge, On, Canada	2015-11-05	Because I want my Kids and Grankids to live!
Elizabeth Dunn	Coldwater, Canada	2015-11-05	I am signing this petition because I live next to a field that is in crop rotation of soybeans, wheat and corn and is sprayed regularly with Roundup. This fall after the spraying the smell lasted for 7 days. It seemed unusually strong. We grow our own food as organically as possible but are certain the gardens must get contaminated with the neighbour's use of this chemical. The honey bees here disappeared 2 years ago and there were very few crickets and grasshoppers this year. Also, the bumblebees are much smaller. Glyphosate is a huge concern for us and should be of concern to all Canadians.
Louis Desgroseilliers	St-isidore, Canada	2015-11-05	Je crains que ce produit continue à causer de grands dommages à notre écosystème.
Patricia Martin	Guelph, Ontario, Canada	2015-11-05	Let's get the facts - not the run around the bush!!
Nicole Lavoie	Azilda, Canada	2015-11-05	For my children and grand-children!
Lisa Johnson	Hamilton, Canada	2015-11-05	I live in a rural community amongst farms. I want to know that farmers are using safe products that are not detrimentally affecting the health of my family and neighbours.
Gennady Kucheruk	Toronto, Canada	2015-11-05	Plus it should enforce GMO labelling in Canada
Dave Harper	North Vancouver, Canada	2015-11-05	This is important!
Patrick Lobo	New westminster, Canada	2015-11-05	The stuff which is put in my food, I want to know it is safe
tiffany grenkow	Winnipeg, Canada	2015-11-05	i care
Sol Ange Palardy	Bromont, Canada	2015-11-05	je crois fermement que le round-up est très nocif pour l'environnement et les humains
Emily Storrison	Sharon, Ontario, Canada	2015-11-05	This is not safe, you think we are idiots?
Malcolm Fraser	Parry Sound, Canada	2015-11-05	Previous research classifying it as a carcinogen failed to stop the forest "stewardship" here in Parry Sound from spraying about 10 years ago!! It's way past time to ban this pesticide

Name	Location	Date	Comment
ken wolfe	Milton, Canada	2015-11-05	Glyphosate has been proven unsafe by Dr. Seralini .And the WHO has declared it a probable human carcinogen.
Elizabeth Matthews	Port Sydney, Canada	2015-11-05	The public has the right to review the research that states that glyphosate is safe to use ...after all it is their lives that are on the line!!!
Martin Carriere	Gatineau, Canada	2015-11-05	Je signe parce que c'est notre droit de savoir tous ce que nous consommons en tant que personne. Quand un individu consomme de l'a marijuanas il peut avoir un dossier criminel par sa consommation mais lui c'est par choix qu'il le fais. Mais quand on consomme des pesticides puis qu'on devient malade ces pas par choix c'est que le gouvernement a fait un choix de sanrichire aux dépriment de son peuple. Ca dois cesser ne lâcher pas le bon travail
Neil Fiertel	Spruce Grove, Alberta, Canada	2015-11-05	I am concerned about the safety of this her acids. I looked into it last summer and chose not to use it myself as I just did not know it was really properly investigated.
Frederick Rathje	North Vancouver, Canada	2015-11-05	I'm happy to sign this as glyphosate is killing our beneficial gut bacteria. While spraying of GMO crops is getting most of the media attention, less publicized is the spraying of wheat (in Canada) with glyphosate just before harvest as advocated by Monsanto. With wheat being a constituent of many foods, it is an efficient way to poison a large population.
Tracy Stevenson	Elmvale, Canada	2015-11-05	There is nothing more important than our food
Phyllis Naccarato	Newmarket, Canada	2015-11-05	Keep Canadians safe
Dr. Stuart Ross	Guelph, Canada	2015-11-05	It's not too much to ask for evidence when this may be a health risk.
James Houghtaling	Fort McMurray, Canada	2015-11-05	I care about my children's health
Karen Abbott	Edmonton, Canada	2015-11-05	Any product that has not been thoroughly tested by a third party should not be allowed to be used on any crop, whether it is for human or animal consumption..
Marie Reney	Montreal, Canada	2015-11-05	I don't want to ingest poison.
stef bollar	Montreal, Canada	2015-11-05	enough with lies of the chemical industry
Geneviève Beauvais	Saint-François-Xavier-de-Brompton, Canada	2015-11-05	Je signe parce qu'un environnement sain est primordial pour une société en santé!
James Murray	Sharon, Canada	2015-11-05	We need to make sure it is safe
Arthur Szliwoski	London, Canada	2015-11-05	I care
val koudelka	Oakville, Canada	2015-11-05	Too much cancer around
kim read	Vancouver, Canada	2015-11-05	no brainer
Joe Noonan	Toronto, Canada	2015-11-05	There's no need for all of this genetic engineering of food, especially if it means adding toxic chemicals to the food supply as part of the "magic formula." Monsanto is evil.
Beverly Ireman	Sutton, Canada	2015-11-05	I read food labels with scrutiny. Fresh produce does not come with a label. Should it?
Ozcan Sersan	Ottawa, Canada	2015-11-05	I want to know the correct data.
patrick arseneault	Montréal, Canada	2015-11-05	Parce que c'est assez!!!!

Name	Location	Date	Comment
Nathalie Ouellet	Montréal, Canada	2015-11-05	Ces pesticides sont nocifs pour l'être humain, nos enfants, nos animaux et restent longtemps dans le sol. Ils causent des cancers, maladies ect... Voir les études de santé Canada.
Amy Webster	Barrie, Canada	2015-11-05	I want my food and the food I feed my children and family to be good for them. Not carcinogenic
sara bostic	ottawa, Canada	2015-11-05	Why should animals be used to test this carcinogen? Use people because its for people, right? The scientists in the world already know how harmful and cancer-causing this chemical is. BAN IT NOW FROM USE IN THIS COUNTRY!! And stop bowing to big industry like Monsanto!!
Karen Jackson	Calgary, Canada	2015-11-05	I want to know if glyphosate is safe for human consumption! Come clean and let the public know!!
Marianne Bahlieda	Newmarket, Canada	2015-11-05	I care deeply about the environment (something which the previous gov't did not)
Patricia Hayman	Toronto, Canada	2015-11-05	I want to see an end to MONSANTO in Canada please
Anne-Laure Dubé	MONTRÉAL, Canada	2015-11-05	L'environnement est très important si on veut vivre dans une société où il fait bon vivre. Redevenons des leaders environnementaux!
Jodie Hamilton	Hamilton ON, Canada	2015-11-05	Testing should be done but NOT ON ANIMALS
Tim Eyre	Gananoque, Canada	2015-11-05	Because I don't spray Roundup on my salad...neither should the farmers
roger raiche	beresford, Canada	2015-11-05	its been made public before that many tests or studies regarding a products by chemical manufacturing companies has past front the front doors and out the back door of Government Safety Labs without any real test having been perform as to its safety for humans -people beware
Lara huget	Calgary, Canada	2015-11-05	Many countries in the world have banned roundup why wouldn't we
Bryan Finlay	London, Canada	2015-11-05	I believe Justin Trudeau's new government will AGAIN empower our government Scientists so that they can report the truth to other scientists at scientific meetings and in uncensored reports to the Canadian public.
Lynne Shibley	Campbellford, Ontario, Canada	2015-11-05	I want to know what tests have been done and I want to know what I'm eating.
George Greenwood	Greenfield Park, Canada	2015-11-05	I have serious doubts that GLYPHOSATE has been sufficiently tested for safe human consumption and would like to see it, if it exists.
Patrice Plouffe	Saint-Colomban, Canada	2015-11-05	We need proof of the safety of this product, as required by science!
Marie-Cécile Tarissants	Val-Morin, Canada	2015-11-05	La transparence mène à la sécurité et à la paix
Suzanne Maltman	Toronto, Canada	2015-11-05	Justin Trudeau and the Minister of Agriculture: it is paramount that glyphosate and other killer herbicides and pesticides be banned in Canada, along with GMOs because research has shown over and over that not only is glyphosate carcinogenic but it damages soil fertility, lowers crop yields and creates superweeds resistant to herbicide. The only solution to remediate the soil is to revert back to manuring fields with manure from non GMO grass fed animals, composting (same criteria), dusting with natural rock dusts and rotating non GMO crops... all tried and true agricultural methods. And if you really want to ramp up crop productivity and soil fertility use biodynamic gardening and farming methods which amplify the nutritoinal value and vital force of any and all crops. People and animals are healthier, fertile and disease resistant. I recommend you both source out and eat biodynamic fruit, veggies and dairy products as well as wine and beer from biodynamic vineyards and breweries... incredible difference in flavour!!
Lisa Bonadie	Barrie, Canada	2015-11-05	I want to know if this chemical is safe and what the consequences are to my future health and that of others. We have a right to know!

Name	Location	Date	Comment
Darryl Turner	Hudson's Hope, Canada	2015-11-05	I am extremely interested in reading that document(report).
Kaifee Haque	Calgary, Canada	2015-11-05	Glyphosate causes cancer. The World Health Organization knows it, and the chemical should be banned from Canada as soon as possible. The let ignorant Americans have their cancer.
Christian Rouvière	Saint-Henri, Canada	2015-11-05	It has to be proven
Marion Queen	Abbotsford, Canada	2015-11-05	What are they trying to do kill us all off? This product should NEVER be used in Canada.
Colleen Doty	Vancouver, Canada	2015-11-05	I care about the future of our planet.
Jill Lutz	Calgary, Canada	2015-11-05	Pretty simple that what we need is the safety date as proof. So let's see it Ministry of Health, not gobbled gook.
Johann Burkhardt	Toronto, Canada	2015-11-05	This can't be left up to chance! These chemicals are the mainstay of modern agriculture. We need to make informed, not money driven, decisions about this.
Philip Baker	Pickering, Canada	2015-11-05	There are enough kids with health concerns this must stop. Our young ones are our future.
Heath Purdy	Agassiz, Canada	2015-11-05	Glyphosate is POISON!!
Al Lehmann	Terrace, Canada	2015-11-05	Poison is poison.
Jean Visser	Fruitvale, Canada	2015-11-05	It seems a lot more children are evidencing ADD/ADHD as well as autism across a broad range. The only thing that comes to mind that is common among the children is food. What chemicals are we accepting that may be causing these changes in such precious lives?
N A	Toronto, Canada	2015-11-05	Do it for our children.
hugh dekraker	Gananoque, Canada	2015-11-05	the world outside the USA say's , glyphosate is NOT safe!
Susan Farmer	Calgary, Canada	2015-11-05	I'm worried!
Rachel Carreau	Montreal, Canada	2015-11-05	Je travail dans le domaine de l'horticulture et veut avoir l'heure juste.
bénédicte stordeur	Candiac, Canada	2015-11-05	C'est essentiel que nous sachions!
Khadija Barhoum	Montreal, Canada	2015-11-05	If everyone did what you are doing right now Tony, we would live in a better world.
joseph lebold	rr1 lucknow, Canada	2015-11-05	I have heard that it may be a key factor in causing gluten sensitivity.
Trevor Myers	Saint John's, Canada	2015-11-05	Roundup has already been proven to contain cancer causing agents...and they feed it to the sheeple.
Arlene Hazzan Green	Toronto, Canada	2015-11-05	We must clean up agriculture before it's too late. BAN ROUNDUP. LABEL GMOS. We don't need poisons to grow food. We need sound organic and sustainable farming practices to preserve the health of the planet and all its inhabitants.
Annie Gauthier	Sainte-Sophie, Canada	2015-11-05	Arrete de tout cacher aux simple gens en échange de la maudite argent!! Soyez humain pour une fois
brian kerr	scarborough, Canada	2015-11-05	We all eat . Wouldn't you want to know that your safe too. Mr , Ms, regulators ?
Sherry Gardner	Windsor, Canada	2015-11-05	We are slowly sliding down a slippery slope introducing GMO goods into our agrisystem. Monsanto being the chief patent holder of seeds modified to withstand the herbicide glyphosate. It's a monopoly and it undermines at its core the work that farmers have done for centuries harvesting the next crops seed from the current crop. Something that Monsanto will see stopped with its proprietary insistence that each year new grain seed be purchased fin them. Before we are exposed to more unsafe chemicals, and unproven food quality, we should have ALL the facts.

Marjorie Perreault	Sherbrooke, Canada	2015-11-05	Parce que nous sommes confrontés à consommer ceci chaque jour dans notre alimentation
Rhonda Bleau	Black Diamond, Canada	2015-11-05	We have a right to know what is going on our food
Ryan Dunne	London, Canada	2015-11-05	I know the biochemical effects of glyphosate on non- roundup ready plants and am interested to see where this goes.
christophe vinconneau	Piedmont, Canada	2015-11-05	Fuck you
France Thomassin	Québec, Canada	2015-11-05	Health is important
Lucie T. Paulozza	Montreal, Canada	2015-11-05	Je signe parce que j'ai à coeur ma santé et la santé de mes proches, donc oui je veux qu'on me confirme que c'est bio et sans effet pour la santé! et j'attend une réponse,
robert martin	Deux-Montagnes, Canada	2015-11-05	Poison is not good for my kids....
Trevor Achtymichuk	Edmonton, Canada	2015-11-05	Prove it Liars
Larry Hamilton	Lethbridge, Canada	2015-11-05	If its safe this should be easy.
ruth budd	Toronto, Canada	2015-11-05	It is important to be able to trust ,but we must have information
Lyette Cousineau	Montréal, Canada	2015-11-05	On veut manger santé pas se tuer en mangeant!!!
Nancy Garland	Campbell River B.C., Canada	2015-11-05	I care about our food source... No more industrial farming, the fast easy way. Organic is key to human health, and the health of Mother Earth.
Keith Johnston	Delta, Canada	2015-11-05	I want to live !
Nancy Miles	Waterloo, Canada	2015-11-05	Epideiology studies shouldn't be the way corporations find out if something is safe for humans. Appropriate studies need to be done or, even better, institute organic agriculture as the standard and best practice for food production and stop our reliance on dangerous chemicals.
Tracy Mercer	St. John's, Canada	2015-11-05	I want to know that what I am eating is safe.
David Waldman	Winnipeg, Canada	2015-11-05	I'm signing because of the lies and distortions in many studies. For example, Dr. Wakefield's study that was published in the Lancet that tied a vaccine to autism. I know people who still believe quote that study. Similarly, the error that cholesterol in diet contributes to cholesterol in blood (not true, but most people believe its true), or that salt is bad for all people (also not true).
Robby Gray	Seguin, Canada	2015-11-05	AS Glyphosate may well be carcinogenic, full disclosure from the ministry of health is of utmost importance.
Adam Farrell	Surrey, Canada	2015-11-05	But do not subject animals to the harmful testing in an effort to protect humans
Marian Schiefke	Ladysmith, Canada	2015-11-05	it is a great concern to me that we continue to use Glyphosate in agriculture use. It is my understanding that residues remain in the soil for extended periods.
jim wallace	felta, Canada	2015-11-05	There is a reasonable expectation of corruption in the approval process of not only glyphosate, but also pharmaceuticals and genetically modified food items..
Andréanne Dussault	Québec, Canada	2015-11-05	Le glyphosate est un cancérigène et perturbateur endocrinien reconnu.
Roberta Cain	Kanata, Canada	2015-11-05	I want to ensure the food I am eating is not going to give me cancer.
Kevin lalonde	Ottawa, Canada	2015-11-05	I care..
Nadine Schuurman	West Vancouver, Canada	2015-11-05	This chemically unstable and dangerous project is our food and harming our livers.

Name	Location	Date	Comment
Cristina La Fratta	Niagara Falls, Canada	2015-11-05	There is no way to prove this chemical is safe. Every study and test that has been done says its not safe. The World Health Organization has already declared it a probable carcinogen. Now all that has to happen is all governments have to ban it and let Monsanto know that their glory days are over. No more Roundup, glyphosate or GMO crops!
Jorge Pinazo	Toronto, Canada	2015-11-05	As a chef the best and healthiest produce is a must and making sure that it is without pesticides or chemicals shouldn't be a choice but rather mandatory
noreen Straughan	Goderich, Canada	2015-11-05	Justin trudeau--Please do the right thing for the health of all Canadians and get rid of Monsanto
Velupillai Thangavelu	Toronto, Canada	2015-11-05	No wonder cancer is on the increase despite medicines.
marianne haebler	Vancouver B.C, Canada	2015-11-05	I think it is an issue that needs clarification with regards to safety.
Alethea Strong	ON, Canada	2015-11-05	I'm concerned about my health and well being.
Elizabeth Duchene	Beamsville, ON, Canada	2015-11-05	The quality of our food has huge ramifications for our nation and our families. Please protect us.
Zachary Owen	Port Hope, ON, Canada	2015-11-05	All substances uses in food production need to be PROVEN food safe.
Susan Seltzer	Mahone Bay, Canada	2015-11-05	I'm very concerned about environmental toxins and would like to be informed re what is sprayed on the produce I consume.
Nina St John	Mission, Canada	2015-11-05	Glyphosate should be banned. It is destroying the environment and damaging our health. Why is our government not looking out for the wellbeing of it's people and it's land?
Lisa Craig	Bowmanville, Canada	2015-11-05	As a science teacher I like to see reliable, unbiased research.
Zachary Owen	Port Hope, ON, Canada	2015-11-05	All substances used in food production need to be PROVEN food safe.
Rob Hunter	Qualicum, Canada	2015-11-05	Not only STOP Harper But STOP glyphosate!
Steve Dandy	Edmonton, Canada	2015-11-05	I really don't want cancer for starters or be a Guinea pig for their toxic poisons.....
T Martin	Pictou County, Canada	2015-11-05	Organic Market Gardener with same the unanswered questions; "...can't prove it...REMOVE IT!!!" Simple...
Stephen hunt	blackfalds, Canada	2015-11-05	There is no reason our food needs to be sprayed with chemicals
Ursula Brown	Calgary, Canada	2015-11-05	I'm very concerned about the safety of this chemical.
claudio orgera	Grand Valley, on, Canada	2015-11-05	I'm tired of being given food that is treated God knows with what? It is time to have a second look at any compounds used on food crops really!!! What is going on are you really looking out for us or the big corporations that produces this compounds and I'm sure you stop one and right away they come up with a new one but are they really tested??? Pretty soon if still alive we will have two heads!n
Martin Deschênes	Montreal, Canada	2015-11-05	We need to know the truth!
Sonja Klyne	Williams Lake, Canada	2015-11-05	I don't want crap iny food!!!
Denise Desrochers	Hamilton, Canada	2015-11-05	I've had enough of the BS that the government tries to continuously pull over on us and tries to get away with by not giving us proof because they have something to hide. We the people have a right to the proof of these tests.
Colin Woods	Cascapedia-St-Jules, Canada	2015-11-05	I too disbelieve that Glyphosate is safe. I think its a ticking bomb and we need the information in the public domain. As I read elsewhere on the internet, we have strict laws stating that we have to know what is in our mattresses, cushions and soft toys, why can't we know what's in our food.?
Pierre Major	Montréal, Canada	2015-11-05	Par ce que nous ne sommes pas des cobayes!

Daniel Mudrick	Toronto, Canada	2015-11-05	Because my kids eat this. I've gone off food til I know better
Linda Nygaard	Courtenay, Canada	2015-11-05	It's in so many things, so we really need to know.
A Miller	Edmonton, Canada	2015-11-05	Roundup is TOXIC GARBAGE!
thomas surette	nanaimo, Canada	2015-11-05	safe food is our right
Elinor Hawke-Szady	Oakville, Canada	2015-11-05	Roundup is NOT safe and it goes without saying that glyphosate isn't safe either. I've seen first-hand what happens when Roundup is used on farmland. Insects disappear completely - crickets and grasshoppers most noticeably - this affects the entire food chain... Barn Swallows and other birds that depend on these insects for food disappear. Pesticide use of ANY kind should be stopped - PERIOD.
KIM BROWN	OAKVILLE, Canada	2015-11-05	I Agree that there should be proof but I don't like the idea of subjecting animals to the testing. It's been used long enough that there should be proof already if it has done harm to animals in breeding or birth. Poison is poison what more is needed.
EV MALKIN	Trenton, Canada	2015-11-05	We all have this chemical in our bodies, it's so pervasive and used without thought. Autism is found to be prevalent in areas it is used Please stop this poisoning of our environment.
Marc Ariss	Halfmoon Bay, Canada	2015-11-05	I agree
barry mcdougall	Sherwood Park, Canada	2015-11-05	I don't want anyone to ingest poison.
Moira Rehmer	Montreal, Canada	2015-11-05	Not only we humans, but also other species are, according to some research, at risk.
Jean-Paul Capaz	Montreal, Canada	2015-11-05	This information needs to be made public
Don Hart	mississauga, Canada	2015-11-05	We need to be able to trust our government to protect the safety of our environment.
Irina Mikhailyuk	Toronto, Canada	2015-11-05	To much chemical staff in our food. Government should prove all herbicides are safe to people before use it.
Ronnie Mullins	Hatley, Canada	2015-11-05	je tiens à notre santé et contrer les pesticides qui polluent nos champs de cultures et nous empoisonnent à petit feu.
Karen Lee	Toronto, Canada	2015-11-05	We have the right to know and the gov should be responsive to concerns over our health and we'll being
Miel Bernstein	Agassiz, Canada	2015-11-05	We are poisoning our planet and everything on it. Please, it's time for change...
Jennifer Smith	Edmonton, Canada	2015-11-05	As citizen's of Canada we should have access to see the report and it's basic answers of the effects of glyphosate ang know how safe it is. Thank you. Jenny.
Felice Lund	Boyle, Canada	2015-11-05	I cannot believe the general public is not aware that Roundup is used on crops to help them ripen. I have grave concerns regarding general human health especially with all the gastro illnesses, Cloititis, Chrohns, etc. I feel there is a link that needs to be investigated.

Miguel Hortiguella	Toronto, Canada	2015-11-05	Our health and the health of the environment should trump ANY economic arguments. Let's work together to find an alternative that meets the highest standards. Let's make decisions that consider our children and all future generations.
Brad Canning	Stratford, Canada	2015-11-05	I care deeply about the safety of the food we're consuming
Jennifer Mancuso	Thornton, Canada	2015-11-05	Truthfully, we all know there is no way this is safe! And no honest test would provide proof that it is. There is a need for open public scrutiny in these matters and high time for change. That's why I voted Liberal. Please help return health to our land. For everyone's sake. Not for the sake of money! Thank you for your consideration in this matter.
Ferne Baun	Stratford, On., Canada	2015-11-05	<p>HUMANS DON'T NEED POISONOUS SPRAYS ON OUR FOOD. WHY DON'T WE ALL GO BACK TO NATURAL FOOD THAT IS SOMETIMES NOT PERFECT IN EVERY WAY, BUT IT IS HEALTHY. IN THE PAST ALL HUMANS ATE NATURAL FOOD ALL THE TIME. NOW WE PAY EXTRA FOR FOOD CALLED ORGANIC. LET'S FORGET ALL THE SPRAYS AND GROW ALL OUR FOOD WITHOUT SPRAY THAT'S THE WAY IT USED TO BE WE DON'T NEED FOOD THAT IS LACED WITH SPRAY AND ANOTHER CROP THAT IS NOT LET'S ALL EAT THE SAME NATURAL FRESH FOOD. HOPEFULLY THIS COUNTRY WANTS PEOPLE TO BE HEALTHY AND LET'S START WITH NATURAL, UNSPRAYED FOOD ONCE AGAIN.</p> <p>THANKS</p>
Jason Howrish	Grande Prairie, Canada	2015-11-05	I want to know my family is safe
Jim McDonald	Gatineau, Canada	2015-11-05	Whatever the answer might be, we have a right to know.
David van Berckel	Vancouver, Canada	2015-11-05	I want my grandchildren to inherit a world that has not been poisoned.
Izabella Sokolowska	Toronto, Canada	2015-11-05	I fear for my health and that of the future generations of Canadians and world citizens alike. I don't just want to see results I want to see bans!
Mary Roycroft	East LaHave, Canada	2015-11-05	We need to get the ball rolling on all the chemicals used in/on the land and the food and water chain.
Holly Dressel	St-Chrysostome, Canada	2015-11-05	It is surprising that this petition doesn't mention the fact that the World Health Organization formally declared glyphosate a human carcinogen some months ago. So there's the proof. We need our government to pay attention to it.
Gloria Valentine	Toronto, Canada	2015-11-05	Let's see the truth out.

Name	Location	Date	Comment
Jack Parar	Mount Albert, Canada	2015-11-05	It's overdue that Health Canada protects the health of Canadians, not the health of corporations.
David Wrench	Sicamous, B.C., Canada	2015-11-05	What we are putting into the environment and our food is extremely important, especially when it is proven to cause cancer, it should be BANNED!
Brenda Hoskin	Ancaster, Canada	2015-11-05	Too many chemicals have proven to have terrible health risks for animals and people. We need to have evidence that this is safe.
Slade Doyle	Onanole, Canada	2015-11-05	Big agriculture is poisoning our people and our land and our water and our future generations future...enough said!
Ibrahim Abaza	Richmond Hill, Canada	2015-11-05	Round up was deemed as a potentially cancer causing agent. WE SHOULD BE CONCERNED.
Justin Sherk	Fort Erie, Canada	2015-11-05	I agree with this petition to the fullest extent. Governments that meddle in/with our food are supposed to display accurate reports, testing transparency to us the taxpayers. When they do nothing on the level of citing sources and displaying relevant test information it should raise major concern.
Steven Mccluskey	Saguenay, Canada	2015-11-05	As the Government of Canada... Scientific proofs must be made... It is the duty of responsibility to do so... and for NOW... not in 10 years or so...
Malcolm Weatherston	Langley, Canada	2015-11-05	Our food security of paramount importance.
Dixie Lorena Hodges	Calgary, Canada	2015-11-05	I am very concerned about this chemical and I have a right to be safe in my environment . I do vote.
alisha wamboldt	Red Deer, Canada	2015-11-05	We deserve to know if what we are feeding our families is safe.
Louise Bencharski	Airdrie, Canada	2015-11-05	I truly believe its is toxic beyond belief, and they know it.
ROBERT CHACRA	ST ETIENNE DE BOLTON, Canada	2015-11-05	I'M SIGNING BECAUSE I DON'T WANT POISON IN MY FOOD
D. T.	Toronto, Canada	2015-11-05	Our government works for us, not for corporations. If it can not do that, then it must dissolve itself and allow those that do care and put Canadians ahead of corporations to take the lead in governing the country. Cancel the use of this chemical in Canada. Cancel and stop the further destruction, manipulation and takeover of Canadian agriculture by Monsanto and companies like them. Do it now!
Deb Stevenson	Courtenay, Canada	2015-11-05	I want to know the food I eat is safe. The study also needs to be a longer term study than just 3 months also.
Joy Gilmour	Calgary, Canada	2015-11-05	Because I believe like all of our current systems, the food system is corrupt based on power and greed and big corps bottom line. I want to live in a country where the health of our planet, our people and all living things are paramount.
Kayla Bate	Burnaby, Canada	2015-11-05	I believe Canada can do better than this. I believe we can be a harmful chemical free country.
Jewel Walker	Gabriola, Canada	2015-11-05	We are having GMO food foisted on us without labelling which takes away our choice to avoid it. As there seems to be no data proving its safety, and data from other countries indicating it is not safe, the onus should be on our government to provide us with the proof that stringent testing has been done by providing the public with the test results.
Keith Edwards	Sunderland, Canada	2015-11-05	Round up is in every waterway in North America and is toxic to everything
alan serpa	toronto, Canada	2015-11-05	There needs to be ministry testing
Sue Maxwell	Whistler, Canada	2015-11-05	Our population should not be the guinea pigs. The precautionary principle should prevail.
Alexander Robinson	Grande Prairie, Canada	2015-11-05	I eat Canadian produce and wish to not be harmed by pesticide related side effects.

Name	Location	Date	Comment
John Szücs	Toronto, Canada	2015-11-05	This is where we start to see if promises made by the Trudeau government are for real.
David Critchley	Denman Island, Canada	2015-11-05	This ubiquitous chemical needs closer examination.
Shelley Myatt	Dawson Creek, Canada	2015-11-05	I beleive strongly that this issue needs dealt with!
Patricia Frazier	Mississauga, Canada	2015-11-05	Thanks to brave souls like Shiv Chopra and his colleagues, we all know about the "sham science" that "Health" Canada forces it's scientists to engage in so that Big Agra and Big Pharma can legally introduce dirty, poisonous products to be consumed by Canadians. Now that we finally have a responsible government in Canada, please lets stop the sham science. It's not acceptable to allow Canadians to be poisoned so that a few greed-infested people can get rich!
tim poole	barrie, Canada	2015-11-05	It's time our government starts protecting the people they serve,not there corporate sponsors.
Cheryl MacMillan	Port Carling, Canada	2015-11-05	In our family's personal quest for health (and recovery from autism) I have noted time and again that I react negatively to foods which are exposed to glyphosate both in field production and as a dessicant during harvest. Yet I have no reaction at all to those same foods if prepared organically (and typically non GMO as well).
Josh Pollman	Oakville, Canada	2015-11-05	Way too much money involved here for our govt to stop this. Its the same reason most exiting politicians go on to work for food comps after tgey leave office.
krysta mate	Beaverton, Canada	2015-11-05	Wake up Canada, your trying to kill your peopl, and all we want is the proof and the truth!!!!
Édith Blouin	Montréal, Canada	2015-11-05	Des chercheurs viennent de démontrer l'impact de l'exposition aux pesticides sur les femmes enceintes et les enfants; Des troubles de l'autisme et autres dommages sur le cerveau. L'emploi de produits toxiques a des effets irréversibles. C'est important de connaître les effets des produits utilisés.
Rebecca Taylor	Aurora, Canada	2015-11-05	I don't want Glyphosate in any form in the food chain.
Steve Racey	Elmira, Canada	2015-11-05	It's time to get rid of this dangerous chemical
SUSAN KELSEY	CHERRYVILLE, Canada	2015-11-05	This chemical kills everything
Christine McKee	London, Canada	2015-11-05	Yes, prove its safe for human consumption and the environment.
john payne	Surrey, Canada	2015-11-05	We don't know what long-term damage to human and animal (including bees) health can be done by overuse of many chemicals in herbicides and pesticides, so let's try alternative methods. We know that bees are being decimated by such overuse.
Deborah Cherry	Toronto, Canada	2015-11-05	I'm opposed to government and industry secrecy. "Trade Secrets" is a dangerous and outmoded excuse used by both of them for doing and getting away with anything they can when it comes to privileging business over the health of people.
sihaanm ardon	Mississauga, Canada	2015-11-05	I. Care.

Name	Location	Date	Comment
Judy Chaplin	Innerkip, ONtario, Canada	2015-11-05	The amount of chemicals we ingest is almost beyond comprehension. Gee, I wonder if that may have something to do with our rising cancer rates. It's becoming harder & harder to find clean, wholesome food anymore. Thank goodness for our home garden in the summer. I save what I can but during the winter it's like playing Russian Roulette. Organic produce isn't as readily available as I'd prefer during the winter months. I've been purchasing organic citrus from a particular business but someone sprayed all their crops this year with chemicals & now NONE of the organic orders can be filled. Either someone had better stop Monsanto or Monsanto WILL STOP Mankind.
elizabeth heon	warkworth, Canada	2015-11-05	Our health is each Canadian's most precious asset.
wendy ounpuu	Toronto, Canada	2015-11-05	mONSANTO HAS BEEN PRODUCING POISONOUS SUBSTANCES WHICH ARE A THREAT TO THE ENVIRONMENT AND AGRICULTURE.
Wanda Rich	Black Creek, BC, Canada	2015-11-05	I want proof.
George Pardalis	Montreal, Canada	2015-11-05	I am signing because I find it shameful that greasing the appropriate wheels would allow a dishonest company (like Monsanto) to sell poison to Canadians.
Wayne Bell	Calgary, Canada	2015-11-05	We need to force the Government of Canada to show us undisputable proof that the chemicals being sprayed on agricultural crops, leaves these crops fit for human consumption.
Darlene Sharples	Surrey, Canada	2015-11-05	We have enough poisons fed to us. Enough is enough. Get back to organic.
Elke Kriegel	Edmonton, Canada	2015-11-05	Please stop poisoning our food!!! And please show scientific evidence that HAS NOT been tampered with and has been done by a neutral third party. (Not sponsored by Monsanto!!)
Marilyn Hedrich	Trois-Rivières, Canada	2015-11-05	Glyphosate is having devastating effects on honey bees as well!!! We are shooting ourselves in the foot, and have totally lost respect for all living things! From a beekeeper in Canada.
Robert P. Kuszniier	Thunder Bay, Canada	2015-11-05	Hydro belongd to citizens of Ontario. She has no right to try and sell Ontario Hydro. We should put her butt in prison.
Christine Ilott	Richmond Hill, ON, Canada	2015-11-05	I'm not interested in studies from the USFDA. I want to see the results of Canadian studies. I've heard too many stories of corruption and the USFDA being bought off to trust them anymore
Pierre Labrèche	Saint-Laurent, Canada	2015-11-05	Base scientifique de l'innocuité et des effets sur l'écologie.
Judy Heron	Ottawa, Canada	2015-11-05	we don't want another DDT situation
Chris Packman	Woodstock, Canada	2015-11-05	What is sprayed on the land ends up in our food supply and ends in our bodies.
Greg Walker	Glen Huron, Canada	2015-11-05	My brother-in-law worked for the company selling the product to unsuspecting agricultural farming operations throughout the Province of Ontario - he passed away of cancer at the age of 54 - strong suspicion this was as a result of his close proximity to the product itself as well as the fields and orchards he monitored with his customer base.
Edgar Dahl	Salmon Arm, Canada	2015-11-05	Because the people need to know how the test results were, not just another avoidance from the industry and those who are responsible to protect citizens.
Pam Miller	Mission, bc, Canada	2015-11-05	We have to be better informed what, where and when the spraying happens. One Easter Sunday my friends neighbours aerial sprayed next door with all the kids out playing looking for eggs.
Kelly Mcdowell	Peterborough, Canada	2015-11-05	This is a reasonable request.

Name	Location	Date	Comment
Valluvan Alagirisamy	Toronto, Canada	2015-11-05	Was Glyphosate tested for safety? How rampant is its use? We have the right to know before we consume, not after getting widespread cancer.
Frances Sewell	Delta, Canada	2015-11-05	This is a very direct question . We need a direct answer
Brenda Rose	Brandon, MB, Canada	2015-11-05	I am signing because I desire to hear and read that glyphosate is safe for not safe or human consumption.
Greg Gamble	Pickering, Canada	2015-11-05	My govt needs to take leadership in providing healthy info, inspections of food/processes and certification of same to taxpayers.
nancy caron	Quebec, Canada	2015-11-05	La santé, c'est plus qu'important, c'est vital!
Luce Drouin	Beauceville, Canada	2015-11-05	Pour la santé de nos enfants et de nos petits enfants. Merci
John Larocque	Beaver Bank, Canada	2015-11-05	another urgent matter ignored by the harper government because of total ignorance and disrespect of the environment or concern for Canadians health.Over 660 protected lakes and rivers down to 130 left protected.total lack of concern for our future. these will all hopefully have there status restored under our new government. Go Justin!
Liz Buckham	Courtenay, Canada	2015-11-05	I'm very concerned about agricultural and other chemicals ending up in our water where we have no choice but to consume them. The surfactants used with glyphosate are also considered dangerous.
B.A. Bentley	Kingston, Canada	2015-11-05	We need to ensure our food is safe for all of us.
France Gosselin	Saint-Honoré-de-Témiscouata, Canada	2015-11-05	Ma santé est le bien le plus précieux que j'ai. S.V.P. aidez-nous à la conserver longtemps. Merci!
Anna Terpstra	Hamilton, Canada	2015-11-05	Please sign this petition, thanks!
Linda Green	Toronto, Canada	2015-11-05	this could backfire; it's a gambler's strategy considering how much bogus evidence gets produced by agribusiness; but we need to get this stuff banned so we have to start applying pressure on government
Yvan Rose	St. John's, NL, Canada	2015-11-05	Health trumps everything.
Nathalie Leblanc	Granby, Canada	2015-11-05	Hello, I totally agree. There should be more transparency in regards to insecticide and pesticide side effects en environmental effects as well. The whole food industry should as well be relooked about OMG as well. Studies made should be accessible to the public and researches made in labs as well even if reseaches companies had to close for budget reasons for exemple. Best regards, Nathalie Leblanc
Dan Mandziuk	St. Catharines, Canada	2015-11-05	It's very important that we have this. information
Richard Perriment	Vancouver, Canada	2015-11-05	I am TIRED of being sickened by the Chemical Industry!
Ashe Woodward	Toronto, Canada	2015-11-05	This matters!
Cindy Devine	Moose Jaw, Canada	2015-11-05	I don't believe that anything containing components of agent orange is something that I want my family to eat, let alone breathe. Saskatchewan has the highest incidence of cancer occurrence due to the high levels of pesticide, herbicide, fungicide and dessicant use - none of which has been proven by independent studies to be safe for humans over long periods.
Yasmine Amyotte	Montreal, Canada	2015-11-05	Thank you Tony. This is very important.
MICHELLE SCHULDER	TORONTO, Canada	2015-11-05	Yes, I want to see the new cabinet's response! Most countries in Europe banned GMO food and glyphosate while in North America ...it is pushed as "safe"! We've all seen the effects of both GMO and pesticides/herbicides on humans' and animals' health
Roger Gordon	Stratford, Canada	2015-11-05	I'm a scientist and I know how hazardous this substances is

Name	Location	Date	Comment
Michelle Kearns	Brantford, Canada	2015-11-05	We have the right to make informed choices especially when it comes to our food
Jane Vincent	Whitehorse, Canada	2015-11-05	I am very concerned about industrial agriculture; that as a nation that wastes so much food there is still such a push to intensify production
Linda Wills	Vernon, Canada	2015-11-05	I'm signing because I want to know what's in my food!
Tracey Nyczai	Winnipeg, Canada	2015-11-05	I want a safe environment for my children and grandchildren to grow up in.
UBALD GINGRAS	Saint-Casimir, Canada	2015-11-05	ubald gingras
Jamie Kutaj	Vancouver, Canada	2015-11-05	Protect yoself fools!
miomir eskic	toronto, Canada	2015-11-05	Government job is to protect people!!!
Armand LeBlanc	Quispamsis, Canada	2015-11-05	Who has money in this world has power, that is why Monsanto can do what they want, they just buy off the government officials!
peter reesor	Woodville, Canada	2015-11-05	we all have family's and need to know how safe this stuff is?? Soon we will be getting angry.. The Bee's, Bird's and small game have been affected by these poison crop's.. We need to know it's safe but YOU MUST not let the biotech company's test them..
Andrew Rooney	Chelsea, QC, Canada	2015-11-05	I'm signing this petition because Canadians have a right to know our food chain is safe. Show us the test results or is the Canadian Government in the pay of Monsanto?
Noel Paterson	London, Canada	2015-11-05	Proven not safe
Kathleen Kelly	collingwood, Canada	2015-11-05	I believe so many of these so called 'safe' chemicals are likely the cause of so many cancers. Who says they are safe?
Rituparna Venkatesh	Coquitlam, Canada	2015-11-05	I think this is wrong and we are living beings and we and all our generations to come need to be healthy and not mutilated or suffering from life threatening diseases!
Peggy siem	Kamloops, Canada	2015-11-05	I care about what my food contains and how it effects all people and the environment.
Robert McDonald	Russell, Canada	2015-11-05	I am signing because we need to be sure that we are not poisoning and killing other life forms than the target plant when we apply pesticides
Dave Beauchesne	Gibsons, Canada	2015-11-05	We deserve to know what our food is being treated with.
Dell Maxwell	Mayne Island, Canada	2015-11-05	I'm signing because we need to watch what we're poisoning our soils and our food with. Please do the research before unleashing this on our food supply. This is a main ingredient in Round-up. Would you feed round-up to your family?
Colleen Campbell	Gold River, B.C. CANADA, Canada	2015-11-05	I want glyphosate to be tested for safety as suggested by Tony Mitra. Anything less is irresponsible and puts human health and the environments at risk. What about biodiversity!
Gary Shaughnessy	Penetanguishene, Canada	2015-11-05	Concern for basic food safety and health risks for ALL Canadians
Tom Hamer	Whitby, Canada	2015-11-05	I'm signing because I seek a safe product to control rampant growth of invasive species.
Lisette Cousineau	Beaconsfield, Canada	2015-11-05	je ne veux pas de Roundup dans ma nourriture ou celles de mes petits.
Sandy Harris	Ottawa, Canada	2015-11-05	I am worried about over-use of pesticides, hormones and antibiotics in agriculture. Not just in Canada; this is also very much an issue for food imports.
Bernard Lalancette	Repentigny, Canada	2015-11-05	Je bois l'eau de la rivière l'Assomption qui reçoit les eaux de ruissellement des fossés qui bordent les champs où le glyphosate est très utilisé.
Kelsey Taylor	Winnipeg, Canada	2015-11-05	RoundUp is a company owned my Monsanto, ban it, enough said.

Name	Location	Date	Comment
Lorraine Steven	Salt Spring Island, Canada	2015-11-05	I care about the safety of my grandchildren and the people of Canada. I believe that glyphosate is a dangerous chemical. It must be tested before any kind of us.
Margo Griffith	Smithville Ontario, Canada	2015-11-05	We live in farm country where they spray. We need to know that the herbicide is safe for people and animals.
jim georgiev	Strathroy, Canada	2015-11-05	This is a serious matter. I have 2 children that are autistic with know answers why. I believe its possible that years of exposure to glyphosate could be one of the causes since every autistic person have different symptoms. Please for the childrens sake and the future of earth we need the truth!
bernard bergeron	Montréal, Canada	2015-11-05	Si une étude est demandée, les citoyens doivent en être informés. Ce sont ceux qui l'ont financée.
Lucille McInnes	Saskatoon, Canada	2015-11-05	It is my opinions that exposure to Glyphosyte as a kid ruined my health and robbed me of years of my life. Recovery requires a lifelong dedication to clean food. This whole system is backwards. Should have prooved it is safe for human exposure for decades before putting it into extensive use. Now it will probably take centuries to truly clean up the mess, if it is still possible.
Ciro Vergara	Edmonton, Canada	2015-11-05	Our health is priceless
Sharlene McDonal	EDMONTON, Canada	2015-11-05	It's killing me. Have someone spend the money for researching Morgellons instead!!
Greg Scott	Richmond Hill, Canada	2015-11-05	This is a serious concern and needs to be scrutinized wherever possible.
Frederic Lavallee	Montréal, Canada	2015-11-05	je veux léguer la santé à mes enfants
jamie macdonald	Kitchener, Canada	2015-11-05	Yes, this seems reasonable.
Ambroise Pelpel	Sherbrooke, Canada	2015-11-05	don't need to be intoxicated
James Sutherland	Toronto, Canada	2015-11-05	Tony is correct in expecting genuine test results to be made public
Dianne & Mike Churcher	Guelph, Canada	2015-11-05	This chemical could be slowly killing people or causing cancer. We should know if this is true or not as it is being used so much by people who have no fear of it.
Dianne Ritter	North Vancouver, Canada	2015-11-05	What is right for the health and safety of both humans and animals in Canada must supersede all other considerations.
Sheryl McCumsey	Edmonton, Canada	2015-11-05	We abuse pesticides in this country and this one is far more destructive than previously believed.....Since introducing GE crops we have tripled the use of this herbicide.
lora laz	red deer alta, Canada	2015-11-05	I WANT GMOs BANNED IN CANADA AS THEY ARE IN OTHER COUNTRIES WHO HAVE DONE, AND LISTENED TO THE RESEARCH PROVING IT IS HARMFUL TO HUMAN AND ANIMAL HEALTH. DO NOT CONTINUE TO POISON US JUSTIN, OR YOUR CHILDREN/GRAND CHILDREN OF YOUR FUTURE! STOP MONSANTOS SEED MONOPOLY IN CANADA. DO THE RIGHT THING AND SHOW US THE REAL DATA THAT PROVES IT IS SAFE, OR STOP OUR COUNTRY FROM USING IT.
Louis Tremblay	Montréal, Canada	2015-11-05	Des études conduites au GEOTOP (UQAM) démontrent que le glyphosate est beaucoup plus persistant dans l'environnement que ne l'affirment les études de Monsanto... Sans parler du produit de la dégradation de ce pesticide abondamment utilisé.
Rob Wettengl	Mississagua, Canada	2015-11-05	I want to know if it's safe
Michelle Tisza	Chilliwack, Canada	2015-11-05	We need to ensure that herbicides are safe for humans and other creatures. Apparently, glyphosates are very bad for frogs. They may harm bees as well. This has major implications for the environment.

Name	Location	Date	Comment
Shea Dedelley	Kamloops, Canada	2015-11-05	Because chemicals are not natural and are wrong
Hugo De Luca	Toronto, Canada	2015-11-05	Prime Minister Trudeau... if you care about us Canadian citizens you will protect us from these poisons that are in our food, and other products that are used daily.
Elaine Ethier	Hudson, Canada	2015-11-05	I do not agree to your message it is poorly written. You are not inviting mass. Stop Now and question you organization about credibility first . Vert fes privautés use round up. Agriculture Even Less. Dis information je not welcomed.
Melinda Clementi	Duncan, Canada	2015-11-05	STOP POISONING US!! :(
Jude Reynoldson	Regina, Canada	2015-11-05	Havn't other countries band this ?
Iain Gunn	Rivers, Manitoba, Canada	2015-11-05	It would really be nice to know the truth.
Jocelyn Bérubé	Québec, Canada	2015-11-05	Pour notre environnement, pour notre santé, pour notre avenir.
Mariah Bat-Hayim	Toronto, Canada	2015-11-05	Our government should be collecting and sharing this information
daniel brassard	Blainville, Canada	2015-11-05	capital créatif humain aborigene/amérindien
Mandy Goldau	Calgary, Canada	2015-11-05	I am anti pesticides that affect our health and we have a right to know what we are having to breath and ingest.
jennifer macklem	Ottawa, Canada	2015-11-05	Follow the science, please.
Dawn Pfeifer	Victoria, Canada	2015-11-05	I want to see Glyphosate BANNED in Canada.
Françoise Raymond	Ville-Marie, Canada	2015-11-05	Je signe parce que je me soucie de préserver la planète pour l'avenir de nos enfants.
peter popoff	Castlegar, Canada	2015-11-05	poison is poison; health does not come from ingesting a poisonous substance
Melodie LaGrotta	Nanaimo, Canada	2015-11-05	I want to know what is in my food and that it is safe to eat
Tara Thordarson	Red Deer, Canada	2015-11-05	I care about my health, my family's health and long for Canada to be advanced and proactive about the toxins in our water, food, cosmetics, drugs. Why is cancer everywhere? Why are other western countries such as European nations starting to ban GMO 's'? Canada is a western, affluent country with brilliant scientific minds. Start banning that which is proven to cause harm. Our leaders have been elected to do what's best for Canadians. Cancer and other environmental conditions are not best for Canadians, neither are proven carcinogens in our everyday products and foods!
Kevan Brown	Monkland, Canada	2015-11-05	So, How much did Monsanto pay to have this report obfuscated? Did they get a rebate when Stevo lost? Is the crop duster pilot growing a third eye? Come clean with the Canadian public.
Jolanta Komisarska	Langley, Canada	2015-11-05	I want to make sure that agriculture industry is not poisoning us
jimmy viau	oka, Canada	2015-11-05	Where do I sign ? There is No SIGN button
gloria fedy	Kitchener, Canada	2015-11-05	We need to stop poisoning our children and generations to come. Monsanto is trying to control the worlds food supply with their seeds which are sterile after one season. These seeds produce plants which withstand horrendous amounts or pesticides. They are a dangerous corporation and must be stopped. The cases of cancer and autism have skyrocketed since these poisons have been in use. All GMO foods must be labelled. We have a right to know what we are eating, to choose and to protect our children and future generations.
Rolf Jander	Surrey, Canada	2015-11-05	They dump this stuff on crops like it is water. What is it doing to us and the environment?
alex smith	guelph, Canada	2015-11-05	our natural world is te most important

Name	Location	Date	Comment
Vicki Sherwood	Orillia, Ontario, Canada	2015-11-05	The German Federal Institute for Risk Assessment published a toxicology review in 2013, which found that "the available data is contradictory and far from being convincing" with regard to correlations between exposure to glyphosate formulations and risk of various cancers, including non-Hodgkin lymphoma (NHL). A meta-analysis published in 2014 identified an increased risk of NHL in workers exposed to glyphosate formulations. In March 2015 the World Health Organization's International Agency for Research on Cancer published a summary of its forthcoming monograph on glyphosate, and classified it as "probably carcinogenic in humans" (category 2A) based on epidemiological studies, animal studies, and in vitro studies. It should not be allowed in Canada.
Mary Jane Hele	Toronto, Canada	2015-11-05	Butterflies, bees, birds. Need I say more. They pollinate. We need them.
Terry& Ann Duffy	Gibsons, Canada	2015-11-05	Government have a duty to look afterCanadains
Jacinte Eastick	Gabriola, Canada	2015-11-05	I believe this question to be very important and the answer to it even more so.
ryan swift	kelowna b.c., Canada	2015-11-05	Good luck on being the prime minister of Canada you earned it
christopher smith	toronto, Canada	2015-11-05	Glyphosate is toxic and will kill millions of Canadians if we don't stop its use.
Natalie Gauthier	Winnipeg, Canada	2015-11-05	I'm sick of being poisoned.
Malcolm Johnson	Pointe Claire, Canada	2015-11-05	The world's (Canada's) food producing area is getting smaller as city expansion grows. Protection of this vital resource is for our survival.
Cheryl White	Winnipeg, Canada	2015-11-05	I saw a former Ag Canada scientist speak on the subject of Glyosphate and GMOs. There's nothing safe about Round Up. Period! This herbicide has created super weeds, has destroyed the permeability in our guts(including mine); is linked to all sorts of chronic, degenerative diseases, it has polluted our streams and lakes, and is just downright dangerous for all living things. Ban it!
POIRIER Michel	La Patrie, Canada	2015-11-05	I request real transparency from all kevels of government
eddy & Jan Jang	Saltspring Island, Canada	2015-11-05	We need to know that our food is safe
Joshua Pearlman	Winnipeg, Canada	2015-11-05	In the near future, I want to be confident that the food I feed my kids is safe.
Caroline Lillico	Surrey, Canada	2015-11-05	I utterly and completely support this petition. Considering how farmers are using this herbicide we need proof this isn't harmful.
Amanda Loewer	Calgary, Canada	2015-11-05	Glyphosate is very harmful and now we just need the Cdn govt to provide the proof.
Dr. Vernon Raaflaub	Edmonton, Canada	2015-11-05	I agree that glyphosate should be poven safe for its continued use; consequently I have signed this petition.
john gulayets	cloverdale, Canada	2015-11-05	This is a huge safety and health issue
Peter Molloy	Longueuil, Canada	2015-11-05	Je n'ai pas confiance envers le gouvernement fédéral et encore moins envers le parti Libéral, d'autant plus que leur chef Justin Trudeau est le fils de Pierre Elliot Trudeau qui nous a toujours berné, nous les Québécois.
Fred martin	The Blue Mountains, Canada	2015-11-05	health is inportant
simon clifford	Ottawa, Canada	2015-11-05	hidden safety reports are not safe!
Jacques Gérin-Laj	Saint-Colomban, Canada	2015-11-05	osti on vas tu arrêter de faire des atrocités!!!
Genevieve Giroux	Montreal, Canada	2015-11-05	It should be public if everything was tested and is ok and not putting in danger our lives and any living thing that can be in contact with that ingredient.
Lori Galas	Edmontona, Canada	2015-11-05	Families just like the Prime Minister's all across Canada deserve to NOT be poisoned by corporate greed.

Name	Location	Date	Comment
Daryl Archie	Morson, Canada	2015-11-05	I don't trust unproven, dangerous chemicals in our food system
Myrna Forge	Moose Jaw, Canada	2015-11-05	Monsanto only runs safety tests for three months. The tests need to be run for a minimum of five years.
Carol Graham	Delta, Canada	2015-11-05	WE NEED THE PROOF THAT GLYPHOSATE IS SAFE.
Lynne Gavin	Rainy River, Ontario, Canada	2015-11-05	Because glyphosate is not safe.
John Jones	Windsor, Canada	2015-11-05	The number of Canadians taking part in the war on GMOs should demonstrate our concern. Less shared, but even more important is the reason GMOs were created, and why they're still being used. Food plant genes are altered so toxic chemicals sprayed on them won;t hurt them. They WILL hurt, and ARE hurting us. Please make decisions based on science, logic and compassion, and even if you can't ban GMOs (trade agreements are making that an impossibility), at least ban toxic chemicals from being sprayed on our food!
Irene Alatzakis	Toronto, Canada	2015-11-05	Cancer rates are rising no doubt in part to environmental toxins like Glyphosate. I do not believe this product is safe so let Canadians see what evidence the government has to the contrary. Evidence has been mounting to show that this substance is dangerous to our health and should be banned. Thank you.
Martin Holmes	Whitby, Canada	2015-11-05	Glyhosate is definately not safe under any circumstances, it is proven to be one of the worst poisons known to man and also ruins your property for several years as a no grow sight, i would not use it on a bet at anytime.....
Brittany Winn	Lethbridge, Canada	2015-11-05	Because the food industry is too big and too powerful...because we need to know if it safe not if it makes money.
Dilys White	St-Lazare, Canada	2015-11-05	Too many cancers appearing, too many cases of Autism are being diagnosed. Insects dying. WHY?
joseph baglieri	Toronto, Canada	2015-11-05	Enough with Harperite bullshit....New government, hopefully more openness...
Brian Campbell	Thunder Bay, Canada	2015-11-05	This seems a reasonable request for up to date health and safety test results or clinical evidence.
Sylvie Lepage	Saint-Bernard-de-Lacolle, Canada	2015-11-05	Je suis consciente des méfaits des produits utilisés en agriculture contre ma santé et celle de mes descendants...
Gavinaitis Florian	Sherbrooke, Canada	2015-11-05	Because glyphosate isnt safe. WHO said so.
Sheila Thwaites	Winnipeg, Canada	2015-11-05	We need to know if it's safe because it is sprayed all over our fields, seeds, fruit etc. etc. is it a carcinogen or not ? Let's find out !!!!!
marge chang	lasalle, Canada	2015-11-05	Glyphosate has been declared by WHO as possible carcinogen to human health, it is absolutely necessary to prove safe to use before apply to agriculture crops.
Lisa Cavalier	Newmarket, Canada	2015-11-05	Clarvoyance is a timely issue. We need truth, not opium.
Heather Parker	Dowling, Canada	2015-11-05	The MNR is spraying glyphosate near our home and we are seriously concerned about the safety of this practice and how it may affect our health and the well being of the animals in our area
Simon Wheeler	Vancouver, Canada	2015-11-05	I am concerned that the widespread use of glyphosphate may be a health hazard
G. M. Folker	Burnaby, Canada	2015-11-05	I don't want our collective health to further deteriorate.
Larry Tolton	Richmond, Canada	2015-11-05	I really, really dislike cancer.
Robert Kennedy	Aurora, Canada	2015-11-05	There are concerns that Glyphosate is not safe. Test it and let us know.
val koyanagi	Mississauga, Canada	2015-11-05	I would also like to see this looked into

Name	Location	Date	Comment
Jean-Marc Frion	Toronto, Canada	2015-11-05	Natural light is a great disinfectant when it comes to business ethics.
eve find	peace river, Canada	2015-11-05	It is important to put citizens health before corporate interests.
Ian Weir	Toronto, Canada	2015-11-05	All pesticides are poison and should not be used to support monocrop agriculture.
Patricia Gyorfi	Calgary, Canada	2015-11-05	I react severely to 'Round-up' and its many derivatives. I cannot believe this product is allowed to be used where people live. Bus stops, school grounds, sports fields, every patch of green between sidewalks and businesses are off limits to me. I have even been IN A PLAYGROUND with young children and have had herbicide sprayed without warning. This is chemical assault.
Sat Khalsa	Toronto, Canada	2015-11-05	Frankly I believe that the precautionary principle requires us to forego the use of virtually all pesticides, especially suspected carcinogens! Organic biodynamic farming can supply the world with needed food without degrading the environment.
André Comeau	Quebec City, Canada	2015-11-05	Ayant été congédié en tant que chercheur scientifique ('Agriculture et Agroalimentaire Canada) en avril 2013, j'ai passé 3 mois à lire tout ce qui touche le glyphosate. Je conclus que Séralini a probablement raison, et que ce produit est plus que douteux. J'ai déjà dit le contraire autrefois, me fiant aux autorités; mais j'ai perdu confiance dans des autorités dirigées non pas par la science, mais par la politique et les lobbys. SVP, il faut prendre le temps de bien lire les textes scientifiques avec un oeil critique avant de conclure. Monsanto a caché beaucoup d'information. Les dangers me semblent tout à fait réels. Il faut savoir sur quelle base Santé Canada et les autres Ministères concernés ont pris de telles décisions. Je remets en effet leur jugement en question, jusqu'à examen des documents demandés.
gavin jag	Winnipeg, Canada	2015-11-05	This is very important to me, I feel the food we eat should not contain a herbicide that may or may not be safe. The data saying it is safe should not be provided by the very company that relies on it sales.
Florence Jones	Winnipeg, Canada	2015-11-05	It's NOT safe, but gov't. don't want to take on Monsanto. Monsanto is HUGE. But we must take a stand. Maybe one day, Monsanto will be brought down,.
Christian Thomas	Montreal, Canada	2015-11-05	I am really upset and afraid our alimentary chain going to absolute degradation...
Ian Macdonald	Peterborough, Canada	2015-11-05	It is obviously what the Ministry of Health should be expected to do showing that all the requirements proving it's safe use have been met
Joanna Blitt	Calgary, Canada	2015-11-05	I am concerned about food safety and I would like to see proper study conducted on chemicals and additives in our food.
myrna reid	Saint John, Canada	2015-11-05	It is our right to know what we are putting into our bodies!! I find it hard to believe that it is safe for human consumption.
Jeanne Aten	Cobble Hill, Canada	2015-11-05	I was assured at Round up was a safe product to use on my farm and am now dismayed to find that it may have been misrepresented.
Beth Mason	Toronto, Ontario, Canada	2015-11-05	The science needs to be shown. That people have been eating it, as illness rates are rising, is not proof.
Michel Watier	Morin-heights, Canada	2015-11-05	we want proof
John Bella	Toronto, Canada	2015-11-05	Were being poisoned !!
DEb Lee	Calgary, Canada	2015-11-05	It is important to know that Health Canada is doing its due diligence related to the safety of products being used in our environment.
Andreas Fopp	Surrey, Canada	2015-11-05	I care about a healthy and sustainable agriculture and of course my own health.

Name	Location	Date	Comment
Karl Maier	New Westminster, Canada	2015-11-05	The case for support indicates that a safety test document is something the government should have. If so, I see no reason why it should not be disclosed.
Bev Hodson	Edmonton, Canada	2015-11-05	This is a reasonable request. Releasing tons of chemicals into the air and directly on to food we eat without knowing FOR SURE it's safe is reckless at the very least.
Hagan Beggs	Vancouver., Canada	2015-11-05	Stop spraying shit on our crops,
Jeff Lawrence	Toronto, Canada	2015-11-05	Where a herbicide is so widely used on crops that are intended for human consumption, safety is of paramount importance. The government must come clean on this.
Therese Theoret	Hamilton, Canada	2015-11-05	I have made a decision to go organic! Many products are not safe for the very reasons I'm signing this petition today!
Shirley Krayden	Port McNicoll, Canada	2015-11-05	I am not convinced glyphosate is a safe substance and I am not alone. Show us the tests that were done to determine its safety.
Carole Summers	Montreal, Canada	2015-11-05	We now have a new Health Minister!
Vicki Trueman	Toronto, Canada	2015-11-05	It is not up to the public to prove a chemical is not safe. It is up to the industry to prove it is safe.
Andy Baker	Nimpo Lake, Canada	2015-11-05	It is one of the safest and easiest herbicides to use.
Brandon Cochran	Kelowna, Canada	2015-11-05	Glyphosate needs to be BANNED
Deanna Mongeon	Winnipeg, Canada	2015-11-05	I am serious about my children and grandchildren having a sustainable healthy future.
PAUL CERIKO	Whitehorse, Canada	2015-11-05	I have done a lot of reading on glyphosate over the last few years, and from what I have seen, there is incontrovertible evidence that glyphosate is an endocrine disrupter and even a cursory look into the effects of endocrine disruptors should be enough to convince you that glyphosate should be banned.
Don Young	Toronto, ON, Canada	2015-11-05	Let's see your proof!
Genevieve Arcand	Montreal, Canada	2015-11-05	J'ai la maladie coeliaque depuis peu et selon entre autres la recherche de Stephanie Seneff, du MIT l'utilisation du glyphosate serait pour beaucoup responsable de tous les cas d'intolérance au gluten.
Justin Dockery	Woodbridge, Canada	2015-11-05	This is a very reasonable request, and as a Canadian citizen I want these results to be made available before its further use. Health Canada requires a high standard from many businesses, so it is reasonable for us to request a high standard from Health Canada as well.
Alexandre pelletier	chateauguay, Canada	2015-11-05	Stop playing with us life TKS !!
Steven Dunsbergen	Picture Butte, Canada	2015-11-05	I am concerned about the effects of glyphosate.
Helene Gagnon	Fenwick, Canada	2015-11-05	I think that all food sold in our grocery stores in Canada should be safe for consumption. All pesticide used in our agriculture should have been tested before being spread or sold. I also think that all produces entering Canada should be tested.
Susan Douglas-murray	coleman, Canada	2015-11-05	you are what you eat
Alan Hart	Burnaby, Canada	2015-11-05	I agree with the petition
Dale Chase	Hornby Island, B.C., Canada	2015-11-05	What I most want is GMO's to be labeled
Lynda Holst	Mississauga, Canada	2015-11-05	Justin.....prove it before you use it....be the leader you told us you were
Grenfell Fisher	Calgary, Alberta, Canada	2015-11-05	This is important testing that affects our health.

Name	Location	Date	Comment
Jack Coughlan	London, Canada	2015-11-05	i would like glysohate to be tested. i believe the test results from Germany that glysohate is poison to be true!
Anne Beers Trewin Info	Kitchener, Canada	2015-11-05	I can t believe an unproven product is being widely spread on our crops. Round Up is pure poison & was created to deaden any life on the ground. Are we insane & digging our own graves or what!
Zita Ryan	Morell, Canada	2015-11-05	I would like to know
Gertrud Bessai	Regina, Canada	2015-11-05	I find that I react badly whenever I eat wheat products but not rye or barley - therefore it is not gluten that is at fault ! the only thing I can think of is the liberal application of Glyphosate to the soil and the standing grain including at the end as a desiccant just prior to harvest!
Annick Rolland	Rimouski, Canada	2015-11-05	Important pour la santé de tous et l'environnement.....
Verna Braznell	Windsor, Canada	2015-11-05	I feel that we need and have the right to know if it's safe for humans.
Lynne Giesbrecht	Keremeos, Canada	2015-11-05	This problem needs to be addressed ASAP.
Glennis Grawberger	Winnipeg, Canada	2015-11-05	It's our food
Kristin Saunders	Kamloops, Canada	2015-11-05	A major problem with Glyphosate is that it kills beneficial organisms in the gut. There must have already been tests done for that because one of the patented uses for Glyphosate is as an antibiotic. A pretty nasty one though because it tends to kill off the beneficial organisms and leave the pathogenic ones alone.
Brian Scott	Edmonton, Canada	2015-11-05	Transparency and open government is a fundamental cornerstone of strong and lasting democracies.
Margaret Reid	Markham, Canada	2015-11-05	I want the actual truth about glyphosate not selective results. I have never trusted Monsanto's claims.
Larissa Allison	Winnipeg, Canada	2015-11-05	Me and all Canadians have the right to know what is going in our food.
Cedric Michaud	Montreal, Canada	2015-11-05	Le glyphosate est rendu partout : dans notre bouffe, dans nos vêtements, jusque dans les protections féminines... Il est grand temps de prouver son innocuité ou de s'en débarrasser!
iana cherris	new westminster, Canada	2015-11-05	show the proof before allowing this - is it safe or is it going to destroy vital agricultural lands, animals, the eco system and the health of all living organisms?
jeannette niggeraber	toronto, Canada	2015-11-05	Stop poisoning us
Susan Strandberg	Thunder Bay, Canada	2015-11-05	this is just obvious if we want to live. Lets dig ourselves out of the whole we are in with the bees and all of the environment!
Delena Pegelo	Bracebridge, Canada	2015-11-05	I want to know what I am feeding my family
Louis Chevrier	Saint-Basile-le-Grand, Canada	2015-11-05	I do not believe this product is safe for human environment
Debbie Lawson	Whitby, Canada	2015-11-05	I value my health and the health of all humanity.
Grant Honsinger	Orillia, Canada	2015-11-05	I'm signing because I feel strongly that the consumer should have independent verification of all claims made by food / chemical companies.
Marilyn Hansen Hansen	Summerland, Canada	2015-11-05	Glyphosate is massively used. We need unbiased health information on it.
karen sparkes	Lethbridge, Canada	2015-11-05	I am extremely allergic to herbicides!!!
William Baird	Drumheller, Canada	2015-11-05	our planet is being poisoned with glyphosate...this has got to stop
Ronald Verinsky	Agassiz, Canada	2015-11-05	Not signing is irresponsible.
Richard Nelson	Okotoks, Canada	2015-11-05	If it's poison we need to know? Full disclosure!

Name	Location	Date	Comment
Alexandria Aragona	Toronto, Canada	2015-11-05	I do not agree on the use of glyphosate in food or in any production for human consumption or exposure. It is a known carcinogen and that means it has the ability to cause cancer and considering there is not much research that has been done to see long term health effects of glyphosate, it shouldn't be US the people who are the Guinea pigs.
Tanya Gillies	Whitby, Canada	2015-11-05	Glyphosate is NOT safe.
Candis Zell	Pender Island, BC, Canada	2015-11-05	Health.
Rae Schimmel	Minnedosa, Canada	2015-11-05	It,s the right thing to do!
Anne Krupl	Hamilton, Canada	2015-11-05	We don't need to use chemicals for pesticides. There are natural ways to control pests. We are also harming the Bees which we need in agriculture.
Lauren Lambkin	Woodstock, Canada	2015-11-05	The government should feel free to tell us anything we ask.
Toni Walker	St. Catharines, Canada	2015-11-05	Prove glyphosate is safe!
Boroushan Pirzadeh	Pointe-Claire, Canada	2015-11-05	Recently scientist and WHO have demonstrated that Glyphosate is carcinogenic for humans Results of experiments published in most reliable scientific reviews include: Daniel Cressey, Widely used herbicide linked to cancer, Nature, 24 March 2015 Guyton KZ, et al (May 2015). "Carcinogenicity of tetrachlorvinphos, parathion, malathion, diazinon, and glyphosate". The Lancet. Oncology 16 (5): 490–1. doi:10.1016/S1470-2045(15)70134-8 IARC Monographs Volume 112: evaluation of five organophosphate insecticides and herbicides" International Agency for Research on Cancer, World Health Organization. March 20, 2015.
Sam Cockcroft	Oakville, Canada	2015-11-05	If there is meant to be a report, let us see it.
Candace O'Connor	Vancouver, Canada	2015-11-05	I believe Roundup causes breat cancer...and we're using it on our farms? We must be insane!
Joyce von Gunten	Delta, British Columbia, Canada	2015-11-05	We deserve to know the truth! The Government and the Ministry of Health deserves to acknowledge the proof that Glyphosate is safe!!
robin smith	nanaimo bc, Canada	2015-11-05	we need clean food, it needs to be good for us not Monsanto
cindy tuer	calgary, Canada	2015-11-05	I have three grandchildren and counting!
steve ainslie	kanata, Canada	2015-11-05	This is a "Need to know", not a "he said, she said" issue. Proof must be provided, not opinions that are subject to "encouragement " (i.e. "Research Grants" etc.) .
Barry Gamble	Dartmouth, Nova Scotia, Canada	2015-11-05	Glyphosate is not safe...prove that it is.
dr john clark	vancouver, Canada	2015-11-05	Chelates minerals reducing plant absorption from soils already deleted of minerals! May interfere with mammalian enzyme systems due to mineral chelation. BK gene in GMO corn may cause leaky gut syndrome in humans increasing risk of food allergies - I could go on! It is a travesty we are allowing this with no longterm independent safety studies!!!!!!!!
Hans Dürichen	Smithers, Canada	2015-11-05	It's banned in all Europe
Doreen Dewell	Surrey, Canada	2015-11-05	This herbicide has been so overused, contaminating agricultural land and the food we eat.
Ann Jewra	Forest Grove BC, Canada	2015-11-05	Our world has become so polluted because of the indiscriminate use of chemicals in our food. This is why allergies are so common. This is why I eat only organic food.

Name	Location	Date	Comment
Evan McFee	Langley, BC, Canada	2015-11-05	For God's sake, we need to know what is in our food. The consumerist industries are slowly killing us all for the sake of profit. And I would rather have a bug Maybe eat my food than have poison Definitely sprayed onto it any day.
T. Carroll	Squamish, Canada	2015-11-05	To date Canada and Health Canada specifically have been extremely cavalier about the Health of Canadians exposed in various ways to Glyphosate in Roundup or other manifestations. Unlike many European countries which have banned the use of glyphosate completely or severely restricted its use, the Canadian government, at least under the previous P.M., disregarded the science showing the extreme deleterious impacts glyphosate and Roundup have on the Canadian population, plus biodiversity, water, air, soil, etc. It has been scientifically proven over & over to be carcinogenic, yet Health Canada still does nothing. This is totally immoral, wrong, unconscionable. It could be that they have either been penetrated by Monsanto operatives or they are following the USA's FDA lead which is well known to be run by and influenced by Monsanto and similar corporations. Canada needs to revise its usage policy immediately and ban this carcinogen which is poisoning our land and killing our people and other creatures. I hope our new, open government will soon improve this dire situation & ban the stuff!
Dee Nicholson	Toronto, Canada	2015-11-05	I am outraged that Health Canada ever allowed this product to be used in Canada without proper, independent safety testing, when it has literally lethal capabilities to do damage to humans, livestock, birds, bees, and the environment! RIGHT THE WRONG!
Jennifer Wanner	Calgary, Canada	2015-11-05	Making the safety test results (if they exist) for Glyphosate available to the public would be in keeping with the Liberal government's promise of transparency.
Barbara Drury	Whitehorse, Canada	2015-11-05	I'm signing because this is a dangerous chemical which is poisoning the earth.
Cheryl de Boer	Blenheim, Canada	2015-11-05	my parents are farmers and they should be protected from harmful chemicals.
Francis Desrochers	Mont St-Hilaire, Canada	2015-11-05	It is used everywhere Mosanto has a piece to say, and that's here unfortunately. Prove that it can be safe in the longterm (which I doubt), OR BAN IT LIKE MANY COUNTRIES DID !
Orvel Miskiw	Cochrane, Canada	2015-11-05	This appears to be another case of the increasing negligence of our governments to ensure that products offered to Canadians for use in Canada are safe. Over the last 20 years Canadian governments have increasingly abandoned their responsibilities to police the products being sold or used in Canada, in order to save administrative costs and avoid interfering with profitable commerce: that defies their democratic responsibilities to the people of Canada, and must be corrected immediately. Companies that can't survive honestly by the sale of safe goods and services don't deserve to exist at all.
Debara Wood	Vancouver, Canada	2015-11-05	I am fearful about the use of roundup on our wheat crops.
Wayne Krekoski	Saint Paul, Canada	2015-11-05	No smoke and mirrors...DO THE SCIENCE...where have I heard that before..??
Jenny Tran	Toronto, Canada	2015-11-05	Chemicals used on our crops does not only end up in our food system; it further impacts our health via air quality and water quality and thus, our people have a right to know the safety data leading to approval of use or data that should cancel approval need be
Lill Mann	McLeese Lake, Canada	2015-11-05	It's not safe. Poisons humans slowly. Monsanto does not care about humans only cares about money!
Christine Ashton	Enderby, Canada	2015-11-05	Your government gave us a lot of hope when you were elected, please don't let us down. Look into glyphosate and what it is doing to our health and the environment

Name	Location	Date	Comment
Christine Francois-Bongarcon	North Vancouver, Canada	2015-11-05	We should be in the process to protect our planet for future generation. Stop poisoning our land and the earth.
nick haddad	ontario, Canada	2015-11-05	Because monsanto sucks, and no one likes their poison - especially when it winds up in our drinking water.
Eckhart Stoyke	Sturgeon County, Canada	2015-11-05	Crop rotation makes glyphosate application redundant and saves farmers health.
Doreen Godwin	Vancouver, Canada	2015-11-05	I am very concerned with the money being spent to hide independent research on information about the impact of glyphosate (GMO and spraying) on the health of animals and people. We are still suppose to be a democracy.
Heather Dewart	Edmonton, Canada	2015-11-05	I do not use any pesticides or herbicides now. They are killing our beautiful songbirds. I don't like Dandelions either but I dig them up. If you get on top of them it becomes easy!
Darko Dodig	Mississauga, Canada	2015-11-05	Tony Mitra is correct with requesting transparency in government.
Allan Menard	Winnipeg, Canada	2015-11-05	It has to stop
Roland Schmidt-Bellach	Foothills No 31, Canada	2015-11-05	A
Cynthia Clancy	Burlington, Canada	2015-11-05	I believe in this petition!
Michelle Meyer	Ottawa, Canada	2015-11-05	Round up is an extremely toxic POP. Cancer rates are going up, allergies among the Canadian populatin are going way up, and we need to support organic agriculture so we eat balanced nutritious foods without pesticide contamination. Healthy, well nourished soil leads to healthy, well nourished crops, leads to well fed people who are healthy and much more healthy than those who eat food grown on depleted pesticide treated soils.
Frederick Mclaughlin	Alderwood, Canada	2015-11-05	Je suis très concernés, due au fet que plusieurs agriculteurs utilisent ce produit près de chez moi
Pauline Verriere	Toronto, Canada	2015-11-05	I care about the food I ear
Nicholas Wickenden	Edmonton, Canada	2015-11-05	The safety of any agricultural chemical needs to be proved, not assumed
Connie Southwell	Forestburg, Canada	2015-11-05	I totally agree this should be banned in Ab. And Canada. All GMO's
Kevin Beeson	Barrhead, Canada	2015-11-05	I work around glyphosate on a regular basis and would like to see safety test results
Gilda Valli	Edmonton, Canada	2015-11-05	We did not spray our condo grounds for weeds this past summer because of a declaration made 24 March, 2015 by the World Health Org 's International Agency for Research on Cancer that glyphosate is "probably carcinogenic to humans". I applaud your initiative to get this stuff banned.
J. Kalmakoff	Vancouver, Canada	2015-11-05	I think it will not be possible to prove it is safe. There is already a lot of evidence that says it is not.
Rick Ketcheson	White Rock, Canada	2015-11-05	This is a serious issue. Stop Monsanto from poisoning us.
Paul Pinel	Sarnia, Ontario, Canada	2015-11-05	There is more than sufficient cause to once again put this chemical and all of it additives, through a rigorous analytical procedure to assure everyone that it is safe. We know that it is killing the bees, don't we?One scientist was fired because he would not sign on to an acceptance package for glyphosate issued by the Harper gov't and, as I understand it, all of the analytical records were destroyed by the Harper government.
Patrick Smith	Lethbridge, Canada	2015-11-05	We need to help earth survive
Bernice Murcheson	Nanaimo, Canada	2015-11-05	I know glyphosate is not safe. There are studies.

Name	Location	Date	Comment
Eric Courtemanche	San Tan Valley, AZ	2015-11-05	Glyphosate is toxic to people and the environment, and it's purported safety has never been proven.
Susan Wright	Sherwood Park, Canada	2015-11-05	i was personally very disappointed to see all the scientists at Responsible Technology and other scientist reports proving that Monsanto didn't do their job proving glycosate is safe. Even worse they covered up the studies that proved it wasn't safe, this gov'nt needs to reassess this chemical for the health of Canadian people
Helga Kostiak	Pefferlaw, Canada	2015-11-05	Let's get the poisons out of our food supply. Glyphosate is a poison. It has been tested and proven toxic.
Bruce Robertson	Powell River, Canada	2015-11-05	I hardly feel this question needs to be asked .I'm supporting a demand that the department of Agriculture provide the document verifying the safety of glyphosate is proven safe for human consumption through progressive build up as part of the food chain ingredients produced for human consumption.
Kathy Knight	Rigaud, Canada	2015-11-05	I believe glyphosate is poisoning the earth and water we grow our food in and in turn is poisoning us.
Gillian Callard	White Rock, Canada	2015-11-05	I am of the opinion that glyphosate was first produced as a Drain de-scaler.Am I wrong?
Ursula Ulrich	Kelowna, Canada	2015-11-05	the request is absolutely reasonable and in the interest of ALL living creatures
Maria-Anne J. Keiran	Calgary, Canada	2015-11-05	The time has come to stop poisoning ourselves, our children and future generation of Canadians! Glyphosate has already done far too much damage.
Maria-Anne J. Keiran	Calgary, Canada	2015-11-05	The time has come to stop poisoning ourselves, our children and future generation of Canadians! Glyphosate has already done far too much damage.
Vanessa Desaulniers	Edmonton, Canada	2015-11-05	I am signing the petition because I believe glycosphate to be harmful to the environment and humans.
Cindy Larsen	Gibsons, Canada	2015-11-05	I want to know the facts!
Graham Wilson	Campbell River, Canada	2015-11-05	It's for our Children.
Yves DAVID	Rivière-du-Loup, Canada	2015-11-05	On le retrouve un peu trop dans tout ce que l'on utilise et hors nourriture !
Chelsea Jamieson	Red Deer, Canada	2015-11-05	There is more science against glyphosphate than supporting it..It should not be on the market at all. The proof of damage from synthetic chemicals (to all living things & the environment) speaks for itself. You can't drink, breathe, or eat money. We need this planet to be healthy for us to be healthy.. And let's be honest, the level of health has dimished in our country substantially. There are more diseases and ailments than ever before. In the existence of living things on this earth, synthetic chemicals have only been used about 100 years. Most have minimal safety tasting by the very companies that profit from them. It's unacceptable. Right to clean air, water, and soil should be basic Canadian rights.
Paula Williams	Ottawa, Canada	2015-11-05	We need to start being cautious before we put things out into the atmosphere
Katherine McKay	Winnipeg, Canada	2015-11-05	It's time for positive change. Let's start with the poisoning of the food supply!
Scott Allston	Nelson, Canada	2015-11-05	Gmos are designed to make us sick, run down and are not food for any species
Stephen Schertzer	Vancouver, Canada	2015-11-05	This is a very important issue to properly study.
ghazaleh nasiri	scarborough, Canada	2015-11-05	I do not support pesticide use. It gets into our water and feed and into our system. It destroys us gradually.

Name	Location	Date	Comment
title: Richard - Micheal family: Goliboski	Hamilton, Canada	2015-11-05	NO to GMO ! Stop the poisoning and chemical warfare . There is no war with (V)other Nature.
Roland Penner	Tofield, Canada	2015-11-05	transparency lets me see your reasoning
Marsha Prattley	Stony Plain, Canada	2015-11-05	I have small children and I want to keep my family healthy and our health comes from our food!
Theresa Broeders	Wolfe Island, Canada	2015-11-05	I live on a dairy farm where Round Up is used and I want to know that it is not going to affect my grandchildren's health adversely.
Dianna Johnsen	South Surrey, Canada	2015-11-05	Many of the chemicals in RoundUp have been proven to be highly toxic to humans & animals. Glyphosate results should be released to prove they have been tested to ensure they are safe to use.
Melissa Goebel	Regina,SK, Canada	2015-11-05	My dad is a farmer. Many crops in his region are dusted. We have known far too many women in that area, my mother included who have died of cancer.
Robert Demorest	Richmond, Canada	2015-11-05	Of course something used so widely should be tested to see if it is safe.
Victoria Osztian	Medicine Hat, Canada	2015-11-05	It's our health and our right as Canadians!!!!
Claude Hewitt	Surrey, Canada	2015-11-05	We can't use RoundUp anymore in my city as it has been deemed unsafe for anyone with breathing problems, small children and pets. Please make sure it is taken off the market ASAP
Terry Harnden	Winnipeg, Canada	2015-11-05	It is unsafe because it removes minerals from plants and soil essential to your immune system and substitutes aluminum replacing iron in your bloodstream
Terra Yim	Toronto, Canada	2015-11-05	We deserve to know the safety of all herbicides.
MARNIE FRERICHS	EDMONTON, ALBERTA, Canada	2015-11-05	It's must more than "global warming" - you made a promise. Thank you!
Ward Middleton	Morinville, Canada	2015-11-05	I want proof
Guy Scharf	Prince George, Canada	2015-11-05	I want your children to be healthy!
Philippe Le Bourdais	Ottawa, Canada	2015-11-05	This is of critical importance.
Matthias Werder	Vancouver, Canada	2015-11-05	We'll poison the world until we're dead...
Carolyn Willmore	Burnaby, Canada	2015-11-05	I'm in full agreement that Glyphosates and RoundUp components do not belong in our food and dairy supply, personal care products and disposables that touch our skin from Pampers to Maxi Pads to Depends nor in our gardens or crops. Please look into these Health threats and ban them from Canada.
Rowan Wyatt	Toronto, Canada	2015-11-05	Why you gotta keep putting weird and possibly toxic junk on food?
Terry Brand	Toronto, Canada	2015-11-05	Safety must remain paramount to profit!
title:Richard-Michael family:Goliboski	Hamilton, Canada	2015-11-05	NO more GMO*z ! Stop the poisoning of our food*z.
Terry L. Brown	Powell River, Canada	2015-11-05	Evidence based decision making now!
Stacey Rose Bodnarchuk	Calgary, Canada	2015-11-05	Let thy food be thy medicine. And to be healthy it must be safe for consumption to ALL Canadians.
Michael St. Amand	Petawawa, Canada	2015-11-05	I'm signing because our health and the health of our children is at stake here.
Kirby Miller	Calgary, Canada	2015-11-05	We deserve to know about the safety of the food we eat
Anita Cabral	Edmonton, Canada	2015-11-05	Let's get to the truth!! We the people are entitled to it!! Our lives are on the line!
trish armstrong	logan lake, Canada	2015-11-05	Tired of being poisoned Ban gmo as well
Colleen Punt	Chilliwack, BC, Canada	2015-11-05	I'm sick and tired of have my food contaminated with pesticide...it is time that this crime be dealt with...Put an end to genetically modified food.

Name	Location	Date	Comment
Ashley Beamish	New Glasgow, Canada	2015-11-05	I'm signing because I want my two children to grow up without all these deadly cosmetic chemicals around them
richard zeman	montreal, Canada	2015-11-05	Let us see just how democratic our Canadian Govt is.
Claire Penrose	Brampton ON, Canada	2015-11-05	Claire Penrose
James Warden	St Catharines, Canada	2015-11-05	This chemical has been proven around the world to be unsafe and damaging to our health and the health of our animal friends of all shapes and sizes. It has a multi-generation accumulative affect on us all. Spraying fields gets it into our water table and is then no measurable. Stupid thug to do. Kill us all slowly.
Malika Chaouki	Outremont, Canada	2015-11-05	I care for the futur generations
Christine Migneault	London, Canada	2015-11-05	Before this is introduced into the human food chain and affects millions of people in adverse way, let us see documented proof that it is safe.
Sharron Cushman	Keaau, HI	2015-11-05	There is a cure for cancer. Stop using known cancer causing chemicals now.
Jan McColm	Halifax, Canada	2015-11-05	human health and safety is essential. do not use this product if there is any doubt - provide the evidence.
Melissa kimbell	calgary, Canada	2015-11-05	This is very important to me. I believe this chemical causes cancer and kills off bees.
Michel Gobeil	Sainte-Angèle-de-Prémont, Canada	2015-11-05	Je fais un effort pour acheter des denrées canadiennes. Je ne veux pas que l'on s'en serve pour m'empoisonner.
Abdul Hendricks	Toronto, Canada	2015-11-05	I am becoming increasingly aware of what I eat..
Anoinette Ritacco	Sault Ste. Marie, Canada	2015-11-05	STOP PROTECTING GREEDY CORPORATIONS BY POISONING CANADIAN CITIZENS AND THIS PLANET!
Sandra Chase-Rockwell	R.R.3, Inverness, Cape Breton Island, Canada	2015-11-05	Tony, wouldn't it be nice to have an answer. Do you think we can trust what any government tells us.
matthew rushton	Cannington, Canada	2015-11-05	Glyphosate is used by farmers and home owners all the time, even I have used it to control weeds. Sadly I should have reviewed this information before using it but alas there is only anecdotal info. All this anecdotal info tells me to avoid it because it causes gene mutation,etc. We just want the truth to make informed decisions; that's all ! Besides blood tests prove this stuff is in everyone already !
Michael quaiser	Cambridge, Canada	2015-11-05	This seems like a no brainer. Is health Canada in Monsanto's pocket or not. Show your research.
Bonnie Chevrier	Oshawa, Canada	2015-11-05	I'm so tired of seeing people sicken and die just so Monsanto can get richer. Anything that toxic to weeds and insects has no business being on our food.
Shi Sherebrin	London, Canada	2015-11-05	I don't trust Monsanto

Name	Location	Date	Comment
N A	London, Canada	2015-11-05	Glyphosate is everywhere.
Shirley Gallant	York, Canada	2015-11-05	I care.
Stéphanie Bolduc	Montreal, Canada	2015-11-05	Je suis tannée d'être un cobaye tout comme les autres humains qui m'entourent. Je veux s'il y a un lien entre l'utilisation de ce pesticide et tous les cancers qui touchent de plus en plus chers.
David Moraru	Stouffville, Canada	2015-11-05	Massive agriculture and Food industry Need to be much more unders public scrutiny!
julie ferland	Longueuil, Canada	2015-11-05	la santé avant tout
C Waite	Summerside, Canada	2015-11-05	I'm live in the smallest Province with the highest rate of cancer per capita. Cancer has touched my family. I believe pesticides contribute to this disease. Thank you for your attention to this serious issue.
Chida Sabati	Baie d'urfe, Canada	2015-11-05	I beleive that we have too many chemicals in our environnement and that Monsanto is lying to us about their product and health Canada has not done its job properly. The government needs to put people who elected them, first.
Isidore Bergeron	Saint-Jean-sur-Richelieu, Canada	2015-11-05	La nature devrait être conservé et protégée tout comme notre santé
Leisa Boudreau	Summerside, Canada	2015-11-05	The fact pesticides blanket this island is ridiculous. Cancer, allergy and asthma rates are beyond high on PEI. Farmers are allowed to spray literally just feet from your house??? This all needs to stop! Time to get a clue people, because it's been done so long doesn't mean it's "ok"
Marie-helene dubois	saint-hubert, Canada	2015-11-05	^pour nos vies si précieuse
valerie Pereira	oakville, Canada	2015-11-05	I have a right to know
Paulo Da Cruz	Montreal, Canada	2015-11-05	Because Roundup = Monsanto and you know that anything they touch is just fr profit they would sell theirs mom's to the highest bidder. Show us the proof! And if you can't take this garbage off our shelves and let them keep it.
Stéphanie Ghali	Montréal, Canada	2015-11-05	Je suis convaincu que les pesticides sont mauvais pour la santé
Justin Marchand	Sault Ste. Marie, Canada	2015-11-05	Because everyone's health is important. If it is safe for human consumption, then simply just prove it.
David Millar	Montreal, Canada	2015-11-05	Min.health needs to be accountable to the people's requests concerning health
Barbara Roddick	LONDON, Canada	2015-11-05	I believe that the allergies and illnesses in our children is being caused, not by inoculation but by our toxic environment.
Richard Lekeuche	Ste-Julie, Canada	2015-11-05	I am signing because I want Canada to stop using cancer and other illnesses killers. France has banned glyphosate as well as many other intelligent countries which care for their people. I want Canada to follow this exemple and stop thinking of profits before our health. We have to stop this as fast as possible. I want to eat good food, I am health conscious and do not want to continue thinking that when I eat vegetables I am hurting myself which brings huge amount of stress. I want this insanity to stop. thank you.
Armand Brisson	Longueuil, Qc, Canada	2015-11-05	Should also be safe for environment
Stéphane Dumas	Saint-Jean-sur-Richelieu, Canada	2015-11-05	ce produit nous a été présenté comme un produit qui était sans danger et qu'au contact du sol il se transformait en phosphate. Belle parole pour nous faire avaler encore une fois des mensonges que la compagnie devait savoir et qui gardait cette info pour eux. enfin on se réveille merci pour cvette démarche
Ron Flynn	Alberton, Canada	2015-11-05	There are no safe pesticides

Jane Fry	Chatham, Canada	2015-11-05	We need proof.
Serge Labonte	Sharbot Lake, ON, Canada	2015-11-05	Do we really know what is our food made of ?
Shirley Samuel	Toronto, Ontario, Canada	2015-11-05	People have a right to know how their health will be affected by such chemicals.
richard trinque	Saint-Hyacinthe, Canada	2015-11-05	Monsanto a un trop gros pouvoir et nous empoisonne
Julie Cazes	Amos, Canada	2015-11-05	Parce que l'agriculture intensive est malade et nous rend malade.
Diana Juchnowski	Winnipeg, Canada	2015-11-05	I believe that we are exposed to too many chemicals that may be unsafe
Lindsay Shunamon	Montreal, Quebec, Canada	2015-11-05	It's a poison, pure and simple! Do the right thing Mr. Trudeau and ban it once and for all!
Michel Cliche	Saint-Maurice, Canada	2015-11-05	Apprendre aux gens à respecter la Nature donner par Dieu + + +
Richard Bourassa	Quebec City, Canada	2015-11-05	If I pay the salaries to those in gouvernement look out for my well-being I EXPECT to have access to papers and documents that prove that these chemicals and any others are safe to my health.
Manon Charlebois	Rouyn noranda, Canada	2015-11-05	Îm concern
Lucie Massé	Oka, Canada	2015-11-05	En démocratie, les citoyens ont le droit de recevoir de la part des gouvernements une information exacte, complète et transparente.
E. Ann Clark	Warkwroth,, Canada	2015-11-05	Glyphosate and the inerts used with it have not be meaningfully tested given, and particularly, for endocrine disruptor effects, and particularly by researchers independent of industry.
Serge Roy	Trois-Rivières, Canada	2015-11-05	Trop de problème de santé sont dû aux interactions chimiques commercial
Greg West	Barrie, Canada	2015-11-05	This herbicide is incredibly widely used and has been for many years.
Lucinda Morrison	Stratford, Canada	2015-11-05	I want my tax dollars spent on ensuring I am not being poisoned by the food grown on Canadian farms..
Thérèse Cloutier	Racine, Canada	2015-11-05	je suis contre les poisons.
Lesley Forrester	Belleville, On, Canada	2015-11-05	Glyphosate is not safe and should be taken off the market.
Rebecca Gingrich	Princeton, Canada	2015-11-05	Innocent people around the world have no way of avoiding this poison on their foods and yet governments allow it to be used. We are supposed to be worried about smoking which people use at their own free will but we have no way to avoid this poison>>
Lucy Barris	LaSalle, Canada	2015-11-05	I'm signing because as citizens of Canada we have the right to know what we are exposed to. What is in Our food and water supply, and what our children are exposed to. I would like to see the report and have the opportunity to decide for myself if I purchase products affected by these chemicals or not. Other Commonwealth countries have had this on their packaging for many years. Why is Canada lagging so far behind?
Eleanor Johnston	Pelham, Canada	2015-11-05	I know from personal experience that drugs in herbicides can poison the health of humans as well as animals and birds (and plants besides weeds).
rebecca leblanc	lindsay, Canada	2015-11-05	This is bull shit Canada... we all need to grow are own stop buying food from were we dnt live . are government sucks
Melissa Livingston-Staples	Erin, Canada	2015-11-05	I am afraid to use it.
HANS MANIKUS	Brantford, Canada	2015-11-05	I'm signing this petition, but they don't need to use animals to do testing with, they can do test without hurting animals.
Jude Catudal	Gatineau, Canada	2015-11-05	Thank You Tony! Go On..!

Name	Location	Date	Comment
sandra prosdocimo	Vaughan, Canada	2015-11-05	I want my food to be free of cancer causing chemicals. The WHO stated that glyphates do cause cancer. PM Trudeau you stated in your speech that you want to make the world a better place for your and all Canadian children. Start by banning this chemical.
Jean Brownell	Sackville, New Brunswick, Canada	2015-11-05	Enough of this shit on our crops already...
Benjamin Lauzon	gatineau, Canada	2015-11-05	Organic is natural and going back to traditional living. Monsanto is destroying the world.
Sylvia Woodman	Digby, Canada	2015-11-05	We need to have responsible data before exposing Canadians to even more chemicals
Jeannie DeVogel	Caledon, Canada	2015-11-05	I believe Roundup is deadly to humans
Nicole Kilcollins	Stratford, Canada	2015-11-05	Our health is important
Sandra Thorkelson	Powassan, Canada	2015-11-05	I'm not convinced this is a product that should be sprayed on our food, and on the ground to contaminate our water and soil.
Michel Henry	Gatineau, Canada	2015-11-05	I care for my health
Robert Seymour	Lac Brome qc, Canada	2015-11-05	I am hopeful our new govt. will be much more diligent in protecting the Health of citizens
George Powell	Collingwood, Canada	2015-11-05	The present legislation is flawed. Pesticides are being registered that have no Canadian Water Quality Guidelines. I believe a pesticide should not be allowed to be registered if it doesn't have a standard.
marilou houde	Saint-Norbert-d'Arthabaska, Canada	2015-11-05	Glyphosate kills bees and pollutes rivers and the country side in general. I live in the country side and they spray Round Up in front of my house. I am trying to have an organic garden in my backyard that is safe for the environment. We are in 2015 just like you said Mr. Trudeau. It's time the government comes clean and admits that Glyphosate is far from being safe for us.
George Jr West	Pointe-Claire, Canada	2015-11-05	To Monsanto: If it's safe, why not have a cup of it? I'd like to see what happens, since it's apparently "safe for humans"?
Claudette Thériault	Dieppe, Canada	2015-11-05	Je signe parce que, à moins de la preuve du contraire, je crois que les herbicides sont nocifs pour les humains, les animaux et la faune en général. Il doit exister des moyens naturels pour éliminer certaines herbes ou types d'arbres. Peut-être que ces moyens sont plus coûteux, mais la santé des gens et notre environnement n'ont pas de prix. Sauvons notre planète, arrêtons de répandre plein de produits toxiques dans la nature.
AndréeAnne Houle	Saint-Jérôme, Canada	2015-11-05	Andree-Anne Houle
Brenda Meredith	Cambridge, Canada	2015-11-05	Our food supply needs to be protected. We consume too many pesticides, antibiotics, etc.
Francois Thibeault	Laterrière, Canada	2015-11-05	C'est le temps que l'empoisonnement arrête. Il y a des techniques alternative à l'épandage de produits chimique!!!
David Simmons	St Catharines, Canada	2015-11-05	When will we stop poisoning ourselves and the planet.
Jason Dery	hull, Canada	2015-11-05	Im signing because life is important and knowledge too
Trong Do	Brampton, Canada	2015-11-05	I am signing it because i don't think glyphostae doing any benefits to Canadian health.
Rick Finley	London, Canada	2015-11-05	More poison they are allowed to dump onto, and into our food!
Lisa Carragher	Tignish, Canada	2015-11-05	I live here.....and I hate being poisoned! I hate that my daughter is being poisoned even more!

Name	Location	Date	Comment
Lucie Carle	Montréal, Canada	2015-11-05	Parce que je suis en droit de connaître les produits mauvais ou bons qui sont dans mon environnement et que puisse décider si oui ou non ils sont compatibles avec le maintien de ma santé
Adele Reeves	rigaud, Canada	2015-11-05	Isn't it obvious that we prove that this is safe? We need to know that glyphosate is not making us sick. If it is poison than STOP using it-
janet raymond	Essex, Canada	2015-11-05	I want to breath and am already maxed out due to overload of chemicals.
Andrew Michalski	Yarker, Canada	2015-11-05	this is one of the most dangerous chemicals known to man and is only legal because Monsanto has so much MONEY!
richard blanc	Montréal, Canada	2015-11-05	<p>Parce qu'il semble coutume que les industrie de la nutrition et les instances publique ne joue pas le rôle de défense de la santé publique au profite de l'argent.</p> <p>Certaines études et information peuvent prouver que le facteur principal et primaire de l'augmentation des cancers provient de la nourriture industrialisé au travers entre autre des pesticides.</p> <p>Nos système parlementaire ou représentatif nous amènent a défendre ces industrie et les produits qu'ils vendent en smappuyant sur des organismes de contrôle qui n'utilise pas de moyen fiable et appuyé sur les études faites par ces mêmes industrie (le cas de l'aspartane est un des cas criant de commença cela marche, et on en trouve encore plein dans nos produits) .</p> <p>Les symptômes comme l'augmentation du cancer ou la pertes massive des spermatozoïdes chez les nouvelle génération sont d'autant de symptômes qui sont connu comme teillât des études fait sur les produits en rapport a nos industrie alimentaires.</p> <p>Il est grand tant que les pouvoir publics et les journaux (même si financer par les mêmes industrie agri alimentaire!!) laisse la réalité des études non ou mains influencé par les industrie arrivé aux yeux des consommateurs sans être modifier ou atténué.</p> <p>La vrai information et le prix a payer si on veut un avenir aux être humain.</p>
Sue Lyon	Kingston, Canada	2015-11-05	I'm signing because it is vital that proper safety tests are conducted before glyphosate enters the food chain.
Emily_ann Deschamps	timmins, Canada	2015-11-05	For or future. This is insane to poison are self's just for the greed of corporations. Stop this for are health and or planet before its to late!! We the people are speaking. You said you had change well this is change in the right direction...
Julka Vlajić	Belle River, Canada	2015-11-05	I am signing this petition because I dream of a time when we will return to a natural way of farming and living in a healthy environment. We are all allowed to dream.
Barry Wolframe	Thunder Bay, Canada	2015-11-05	We just don't know without the experimental data weather glyphosate is safe or not. This toxin should be off the market until good independent data is generated.
Ron Phelps	Milton, Canada	2015-11-05	I'm signing this on the basis that our Canadian government should be able to disclose several properly conducted test reports confirming any substance that is being introduced into our food chain is safe for our consumption, animals and the environment. This is common sense and the ultimate form of due diligence.... and we will all suffer the consequences if this chemical proves to be unsafe.
hilda dean	ingersoll, Canada	2015-11-05	I have the right to know!
Petra Blenkhorne	Oakville, Canada	2015-11-05	Thank you, Tony for your diligence and conscience on this issue (on our behalf)!

Name	Location	Date	Comment
Anne Laberge	Montréal, Canada	2015-11-05	Cette requête est sérieuse et nécessaire. Merci de voir à protéger la santé des canadiens.
Marc andre Octeau	Laval, Canada	2015-11-05	Health and safety is the most important thing when it comes to food I put in my kids mouth.
Steeve Ha	Montreal, Canada	2015-11-05	Don't mess up with my food.
Barbara Perry	New Glasgow, Canada	2015-11-05	PEI has one of the highest rates of cancer in Canada. Many of my friends and family either have cancer or have died from cancer. My grandchildren are now growing up and I want them to be saved from this suffering. Agriculture is the greatest perpetrator here on this small island. We cannot continue to justify the economic benefits of a few at the cost of the health of all citizens. That is sheer lunacy!
Craig Van Parys	Regina, Canada	2015-11-05	in the best interests of the public good, and for accountability.
Bryan Rusnell	Barrie, Canada	2015-11-05	Mr. Harper's preference for for "assisting" big business is well known. This is just one step towards correcting some very serious damage done by his behaviour.
D. Theodore Walker	Toronto, Canada	2015-11-05	My health is number one.
Martino Maggiolo	Monsantoville, Canada	2015-11-05	This is killing us. Please do something.
Tina Bieber	Toronto, Canada	2015-11-05	We have a right to know what we eat!!
Alicis Webb	Dayton, OH	2015-11-05	To spread the word!!
Joanne Brown	Whitby Ontario, Canada	2015-11-05	I think we know the answer. Anything in Round up is no good for people, insects or food.
Ariane Dind	Ottawa, Canada	2015-11-05	The WHO cancer agency, IARC, published a report stating that glyphosate is a probable human carcinogen. This pesticide is being used in rapidly increasing amounts in Canadian agriculture, partly due to the fact that many GMO crops are modified in order to be glyphosate resistant. This herbicide should actually be called a biocide, as it also kills bacteria and other living organisms. The product finds its way into our food supply and into our bodies. One cosequence is that our symbiotic intestinal bacteria is decimated, which has serious repercussions on our health. If the use of such a product is to be permitted, there must be credible scientific evidence of its inoculate for humans.
Lisa Bergamin	Kingsville, Canada	2015-11-05	Canada is one of the best countries in the world, so why does it feed its people food grown with poison?
Jennifer Brookes	Montague, Canada	2015-11-05	At this time, our food is poisonous.
Judy Sanders	Regina, Canada	2015-11-05	I believe we need to eliminate cancel causing chemicals fym our world
allan beattie	RR#3 DUNDAS ON, Canada	2015-11-05	Where is the unbiased scientific evidence that "roundup" is safe for use on food producing land and the environment in general?
Natacha Demers	Gatineau, Canada	2015-11-05	In definition, the Government is an organisation that is supposed to work for the public. Citizens have the right to know where is put in their food, especially if it can contrast with the being of their health.
Edward Woodland	Conception Bay South, Canada	2015-11-05	My health
elpida McLean	Toronto Ontario, Canada	2015-11-05	GlyphosateNo more
M david Skrobot	Calgary, Canada	2015-11-05	Good job Tony for acting on this Many communities have already banned it's use around. The world
Brent Howatt	Hamilton, Canada	2015-11-05	Because the safety of my family is important.
Miguel Reynaud	Montréal, Canada	2015-11-05	ma santé est importante

Name	Location	Date	Comment
Di Cavanaugh	Round Rock, TX	2015-11-05	This is important
Ashley Veniott	Halifax, Canada	2015-11-05	I have a feeling it wouldn't be possible to prove this is safe for humans, but if not then prove it's unsafe and lets say goodbye to it!
Diane Cyr	Boisbriand, Canada	2015-11-05	La santé c est important et nous devons penser à notre héritage
Patricia Kastanek	Hillsburgh, Canada	2015-11-05	I am an organic farmer and beekeeper whose bees are being killed (and whose crops & land are being contaminated) by pesticides spread on neighbouring properties.
Franklin Taylor	Clinton, Canada	2015-11-05	Because I have lost faith in Health Canada. Too many years helping multinationals get what they want and not paying attention to the safety of Canadians.
N A	Saint-Jean-sur-Richelieu, Canada	2015-11-05	Parce que ce doit être prouver hors de tout doute que ce produit est sécuritaire à court terme et à long terme pour les gens et ce sans compter qu'il y a de plus en plus de personne qui deviennent intolérant et ou allergique au produit chimique dans l'alimentation, merci.
Pierre-Paul Desrochers	Kingston, Canada	2015-11-05	Things that can affect the health of people should be a matter of public record!!
Nancy Wolfe	Winnipeg, Canada	2015-11-05	The research shows it is cancerous and it harms the natural pollinators which are critical to our survival as a human race!
susan hicks	Hinchinbrooke, Canada	2015-11-05	It is widely used in the country here and I always wonder how safe it is, especially as our well is quite shallow ? We deserve to know.
Brian Stedman	Ottawa, Canada	2015-11-05	If it isn't safe we sure as shooting ought not to be letting it get into food chain
Caroline Cutmore	Winnipeg, Canada	2015-11-05	I want good healthy clean organic food for all Ca
Helen Moore	St. John's, Canada	2015-11-05	I would like to see test results, not sponsored by the industry. Then make a decision on how safe it is.
Michael Chownyk	Cambridge, Canada	2015-11-05	I want our food to be free of deliberate tampering with possibly dangerous herbicides.
Chris Plank	Caledonia, Canada	2015-11-05	My grandchildren are NOT Guinea pigs...
Justine Pasen	Sussex Corner, Canada	2015-11-05	Irving is killing NB one clear-cut at a time, herbicide spraying is just another insult to our environment here! HELP!
Katy McCormick	Toronto, Canada	2015-11-05	This effects our basic human health - all the way up the food chain. Let's get the facts straight. If the evidence for safe use is not there let's stop using this product.
Jody Berlinguette	Sherwood Park, Canada	2015-11-05	It matters to me, my children and my future grandchildren.
Avril Kitchen	Regina, Canada	2015-11-05	Let's know it is safe!!
Jesse Thompson	Georgetown, Canada	2015-11-05	Sign for your health your kids health
Brent Heard	Delta, Canada	2015-11-05	The truth is out there.
PAUL HOEGER	Waterloo, Canada	2015-11-05	glyphosate is NOT safe.
Crystal Dillon	Mooringsport, LA	2015-11-05	I'm signing because we need to go back to basics. Know what's good for our bodies, souls & minds. Non-toxic items should be common. Instead, they are rare. Have you ever eaten an organic banana? Use Round-Up and that sweetness disappears. I want to live without fear of food. What about you? What do you feed your family?

Silvia Spampinato	Montreal, Canada	2015-11-05	<p>Two very worrying articles have recently confirmed how bad is the situation with regard to pesticides and their regulation:</p> <p>- The Ministry of Agriculture of Quebec has declared that pesticide producers like Monsanto are "more powerful than the QC government"</p> <p>http://www.ledevoir.com/environnement/actualites-sur-l-environnement/453325/les-geants-des-pesticides-sont-plus-puissants-que-l-etat-reconnait-pierre-paradis</p> <p>- The use of pesticides has recently been defined as "out of control" in Quebec.</p> <p>http://ici.radio-canada.ca/nouvelles/national/2015/10/21/001-pesticides-quebec-agriculture-rivieres.shtml</p> <p>Please sign!</p>
dhananjay mudbhary	scarborough, Canada	2015-11-05	Our health matters.
Suzanne Brochu	Saint-Antoine-sur-Richelieu, Canada	2015-11-05	Parce ce que c'est important pour la survie de l'humain, pout nos abeilles
Lyna Khem	Edmonton, Canada	2015-11-05	I care
vivian kaloxilos	montreal, Canada	2015-11-05	if we stop using glyphosate and start switching to practices that heal the soil, not kill it, we can actually start reversing climate change. we can reverse eutrophicate lakes, SEQUESTER LOADS OF CARBON by improving the soil conditions, and grow food organically, without pests and diseases, and usually keep the same or increased yield. so what's your argument for supporting glyphosate? does it have as many benefits as the alternative? i don't think so!
Jane Keast	Collingwood, Canada	2015-11-05	Mr Justin Trudeau, PM, the bullying tactics and lack of respect for our health and the health of animals and planet- went out with Harper right?
Edith Cunningham	Oakville, Canada	2015-11-05	We are slowly killing the planet - I am tired of being poisoned against my will.
Audrey Duff	Toronto, Canada	2015-11-05	If info has to be hidden, there's probably something wrong with it.
devan tomyk	Regina, Canada	2015-11-05	I am not so much concerned for my own health but for the next generation. Even a Monsanto rep wouldn't drink a glass of glyphosate after saying it was safe to drink.
bouchard jacques	stoneham, Canada	2015-11-05	mauvais pour la santé
Therese Taylor	Mississauga, Canada	2015-11-05	I'm signing because you are what you eat.
Emily Weber	Little Current, Canada	2015-11-05	I'm concerned about the health of the land, the air, the water, and the animals, which are all components of human health.
lucy fellowes	Westmount, Canada	2015-11-05	Too many unknowns in the products used to treat our crops. If this one is safe, demonstrate that. Or we must assume it is not. We can no longer serve as the subject of experiments for the profit of industry.
Mathieu Lacroix	St-Georges, Canada	2015-11-05	I like crop fields.
Christina DeMille	Toronto, Canada	2015-11-05	It is poison. In everything in the atmosphere. Cancer causing xenoestrogens are killing the bees and us

Name	Location	Date	Comment
Elizabeth Bouwmeester	Hamilton, Canada	2015-11-05	I am signing because I am concerned for the safety and welfare of my children and grandchildren regarding of the food we ingest.
Donald Wilson	Tatamagouche, Canada	2015-11-05	This product is like what the tobacco industry once said about it's product . Glyphosate is not safe for mankind , especially children , nor by any air breathing life form .
Florence Baribeau	Sault Ste Marie, Canada	2015-11-05	To Health Canada, yes prove glyphosate is safe!!!
Sally Deschamps	Cochrane, Canada	2015-11-05	I know that glyphosate can not be good for anyone's health in 10 years the government will realize it.
Louise Lalonde	Charlottetown, PEI, Canada	2015-11-05	I know glyphosate is not safe.
Yeojeong Park	Calgary, Canada	2015-11-05	Honestly I wish to feel safe while eating food products.
Pierre-Paul Deslippe	La Prairie, Canada	2015-11-05	J'ai peur des entreprise comme Monsanto ...
Isabelle Banini	Montréal, Canada	2015-11-05	I'm signin because i dont want to état That thing...
Christine Maurin Parent	Frelighsburg, Canada	2015-11-05	Inadmissible que des compagnies comme Monsanto existent encore aujourd'hui. Les etudes ont démontré que ce sont des empoisonneurs à l'échelle planétaire. Honte aux grands de ce monde qui laissent prospérer ce type dentreprises en se faisant d'ailleurs graisser la patte au passage.
Abbas Jafry	Richmond Hill, Canada	2015-11-05	I care about the health of all Canadians.
lisa kosko	Coquitlam, Canada	2015-11-05	if it kills anything it is a poison
Eleanor Anderson	Collingwood, Ontario, Canada	2015-11-05	This information is long past due - we remain concerned about these agricultural chemicals when they seem to be used without regard for human life!
Edith Smith	Combermere, Canada	2015-11-05	I care because I am buying and eating this food, if it is related to This is a matter of life or death to me personally.
jennifer phjpps	niagara-on -the-lake, Canada	2015-11-05	I live in a area where spraying from the air takes place.... ...
BUSHLIEWOO REXY	ON, Canada	2015-11-05	What we do matters to all other living things and it is wrong to kill them.
Hardev Grewal	Surrey, Canada	2015-11-05	I'm going to sign the petition because I think if we are healthy then Canada is healthy.
Jean Cantin	Montréal, Canada	2015-11-05	Je signe p.c.q.c mon expertise et mes lectures m'ont convaincues des effets néfastes du glyphosate. Et que je considère que l'ARLA n'est pas transparente et suffisamment professionnelle dans ses décisions.
Bob Cadman	Kitchener, Canada	2015-11-05	We are all riddled with glyphosate and flame retardants. Stop killing us all slowly with deadly toxins so that corporations can make big bucks. Round Up destroys our soil and renders it useless.
Dorothy Rosiek	Oshawa, Canada	2015-11-05	its important! to know what is being put in our foods , air, etc !!! Our food should be kept as natural and untouched as possible and when the use of anything is considered- it shouldnt be used at the expense of our health and life!
Cynthia Dowse	Winnipeg, Canada	2015-11-05	I'm signing because I CARE.
Marlene Lynn	Toronto, Canada	2015-11-05	If glyphosate is not a threat to human health...why then is there not complete disclosure of any and all clinical studies?

Name	Location	Date	Comment
Christine Paradis	Mont St-Hilaire, Canada	2015-11-05	Les ingrédients qu'on étend sur les champs m'inquiètent Peut-on faire preuve de prudence avant de privilégier les profits ? La santé des gens dépend d'une nourriture sécuritaire !
Justine Vinet	Châteauguay, Canada	2015-11-05	C'est important
bruce woodfine	Ennismore, Canada	2015-11-05	I believe that companies especially Monsanto do not give a damn if chemicals it sells are safe or not as long as they make millions from selling the junk.
Bromley John	Banff, AB, Canada	2015-11-05	It is an overused herbicide, and I believe that it is not safe for human consumption.
Léah Domingue	Québec, Canada	2015-11-05	Roundup is not only dangerous for human or animals, it is for our agricultural lands. This herbicide transforms soil, which become poor and where other seeds cannot grow...
Morris Holmes	Cawston, Canada	2015-11-05	As a Certified Organic farmer I find it abhorrent a conventional farmer needn't provide documentation about their inputs, as I am more than willing to do, in order to sell their product A product which is potentially dangerous to unsuspecting Canadians
Helen O'Hagan	Dunnville, ON, Canada	2015-11-05	BECAUSE WE HAVE A RIGHT TO KNOW WHAT WE ARE INGESTING INTO OUR BODIES...PERIOD!!!!
Steve Dunlop	Oakville, Canada	2015-11-05	Monsanto has been poisoning the air water and food of most of the world. Glyphosate has been declared a carcinogen by the state of California. It is so widely used that the implications for the Ag industry are monstrous. This will become an issue that demands a huge and temporarily disruptive change that will be resisted by the massively funded players in the industry. It however must be done for all our sake and the future generations to come. I call on Justin Trudeau to start the ball rolling by beginning the removal of this poison from our country.
Kevin Harris	Delta, Canada	2015-11-05	Safety is paramount. We all need assurance this chemical is safe for use in food production.
Robert Sizeland	Nanaimo, Canada	2015-11-05	I want to know if GMO foods are safe or not.
John Wilmott	Lewisporte, Canada	2015-11-05	The "probable carcinogen" designation is the result of 1 less scientist voting to have it classified as a "definite carcinogen". That coupled with the fact that GMOs take up the pesticides so contamination is systemic and that most processed foods are made with GMOs so, once again, contamination is systemic. Instead of waiting on the pipe dream of big pharma to come up with cures to our ever-expanding health problems, why not stop eating poison? At least label it.
allen kosonic	Lexington, KY	2015-11-05	Because the new govt. in the 'CHAIR' and it's new Minister of Agriculture and new Minister of Health & Safety may actually do something about this travesty.
Christian Lavoie	McMasterville, Canada	2015-11-05	Christian Lavoie
Dianne McIntyre	Whitchurch-Stouffville, Canada	2015-11-05	Why would we knowingly expose ourselves to an untested chemical without being aware of it's long term affects?Our gov't should have an open policy to release this info. upon request.
Charmaine Dupuis	London, Canada	2015-11-05	Glyphosate is evil
sheri shorting	wpg, Canada	2015-11-05	Canada matters to me
Leonard Bauder	Edm., Canada	2015-11-05	I've always wondered about it's safety!
lilly and don thornton	london, Canada	2015-11-05	there should be transparency,when it comes to our health
sandra balcovske	toronto, Canada	2015-11-05	I prefer not to be poisoned.

Name	Location	Date	Comment
Wayne Wiebe	Swift Current, Sask., Canada	2015-11-05	I want to know, if it is safe for humans
Kenyon Clarke	Abbotsford, Canada	2015-11-05	Monsanto again!
Richard Hart	Mississauga, Canada	2015-11-05	Great question
Louise Weilbrenner	Montréal, Canada	2015-11-05	l'environnement doit être une priorité
Robert Sim	BRAMPTON, Canada	2015-11-05	For health reasons
Joshua Lamboo	Saskatoon, Canada	2015-11-05	Now is the time for countries around the world to start putting in serious effort to ensure our environment is properly cared for and that we are not introducing more toxic elements to our environment.
Gwen Kada	Stockholm, SK, Canada	2015-11-05	I am overly concerned about the health and environmental disasters created by the chemical sprays farmers use on their land which eventually find their way into water streams, rivers, and lakes... and, eventually the water table.
Carolyn Johnson	Toronto, Canada	2015-11-05	We need to phase out the use of pesticides
Ann Cox	Thornbury, Canada	2015-11-05	I quite agree. There should have been studies which can be shown to the public and which can be reproduced.
Susan Schachinger	Flesherton, Canada	2015-11-05	Canada, land of the free! Free to choose healthy choices for our families. canada needs to rid itself of the corporations that force this chemical on us through our food. I loved Kraft Dinner as a child. The ingredients were simple. Now it is one of the top UNHEALTHY foods. All kids love it, but hurting themselves because of the ingredients. We are begging you Prime Minister Trudeau, put Canada back on the map for being innovative, strong and free. Stop the corporations from making us sick.
Franz Settels	Dollard des Ormeaux, Canada	2015-11-05	I'm worried
judy lewis	Toronto, Ontario, Canada, Canada	2015-11-05	We cannot afford to put the welfare of a handful of rich people ahead of the biosphere. (In the end, their greed will kill them too.)
Alison Moore	Boulder, Canada	2015-11-05	I am an organic farmer now living in Peachland BC and I am concerned about Glyphosates in the food system.
Dennis Looker	Low, Canada	2015-11-05	It's time bring this information out into the light of for the public knowledge and for truth.
Debbie Dekker	Calgary, Canada	2015-11-05	stop tampering with our sustenance...
Corinne Vautour	Oshawa, Canada	2015-11-05	Glyphosate is not safe
James Sheldrick	Toronto, Canada	2015-11-05	I fervently oppose the use of glyphosate in our vegetables and fruit because only a moron would need a study to show that weed killer is harmful to humans. Now is the time to end Glyphosate use in Canada. Since 2000, in Europe the use of Glyphosate has been banned.
Caroline Gilbert	ottawa, Canada	2015-11-05	On Es en 2015 !!
Natasha Hockley	London, Canada	2015-11-05	Our health is being exploited by cooperation's that have one thing in mind.. their wallets. Please take care of your nation and stop allowing us to be test subjects for such harmful chemicals.
catherine Cave	London Ont, Canada	2015-11-05	I'm signing because I own a small farm, have many flower beds and wild bees live in my buildings. i do NOT want pesticides / herbicides that kill pollinators ..please prove that glyphosate is not detrimental
IRENE BRECKON	Elliot Lake, Canada	2015-11-05	the future of our food supply is in jeopardy
Valerie Creed	Montague, Canada	2015-11-05	We are being poisoned by our food supply.

Name	Location	Date	Comment
Barb Shurmer	Calgary, Canada	2015-11-05	I am tired of the unhealthy practices that are allowed to be perpetrated upon the citizens of Canada all in the name of profit. When are we going to ask is this appropriate?
René Bourgeot	Lachine QC H8T 3K4, Canada	2015-11-05	René Bourgeot
Helen Taulien	Edson, Canada	2015-11-05	We, the people of Canada. Want proof that this ingredient is indeed not going to be harmful& cause serious health issues in our population..show us the safety tests please!!!
Domenica Mariotti	Laval, Canada	2015-11-05	Canadians have a right to know about the chemicals in their foods. Glyphosate is very toxic and should be banned immediately.
Heather Ellis	Niagara falls, Canada	2015-11-05	I am concerned about my health and that of my Family
Rae Clancey	Clandeboye, Canada	2015-11-05	And please ban until then!
Brenda Reid	Madoc, Canada	2015-11-05	this is important to our health
Sandra Davis	Revelstoke, Canada	2015-11-05	I have the right to know what I am putting into the mouths of my children, and as an organic gardener, I find the use of pesticides redundant. Let Mother Nature do her job.
Heather Erickson	Anola, Canada	2015-11-05	I am very concerned about the legacy we are leaving. I have had cancer 4 times. I can't help but feel there are environmental implications. If it kills weeds, there is not that much difference between Homo Sapien and a dandelion. If it is not good for the weed, it is likely not good for us. Please investigate and prove the pudding.
Lloyd Jamieson	Toronto, Canada	2015-11-05	Grandchildren
Marie-Pier Poulin	Montréal, Canada	2015-11-05	L'accès à un environnement sain et ce, pour tous les canadiens, doit être une priorité.
Janie Bellemare	Trois-Rivières, Canada	2015-11-05	Parce que nous voulons être en bonne santé plus longtemps
Cynthia Seeser	Burnaby, Canada	2015-11-05	The Canadian people have a right to know what is sprayed on their food crops.
Tim Wittke	Alberta, Canada	2015-11-05	I want to see change!
Michael Jensen	Hatley, Canada	2015-11-05	sounds good to me..
Eddie Jarvensivu	Kitchener, Canada	2015-11-05	Since the World Health Organization considers Glyphosate "probably carcinogenic to humans".... Why isn't it banned? I know why, because Biotech would lose profits! How sad. Who cares about human health anyways. This toxic chemical needs to go. Justin Trudeau, look out for your country and do the right thing!
Samantha Stoutjesdyk	chilliwack, Canada	2015-11-05	I don't want this product approved, but I do want it tested! Why is it in our food and it has not been affectively tested??? It's outrageous!
Lauren M	Mississauga, Canada	2015-11-05	We trust the government to have our best interests in mind. GMO's, RoundUp and Glyphosate are very controversial and we need to know the truth. If they aren't damaging to our health, then why do companies like Monsanto crush any attempt to label GMO's on their products? Wouldn't they be proud of their products if they were safe? I know I'd be proud to have an organic seal on my food!
connie robilliard	london ont, Canada	2015-11-05	please sign this petition important that we know what they are spraying on our fields and the harm its doing to the food we eat for our children we have to get to the bottom of this please sign get your friends to sign thank you
veronique deschenes	Montreal, Canada	2015-11-05	Pour Notre planete Terre-Mere et notre Cosmos qui nous permet la vie□□

Derek Nathaniel	Montreal, Canada	2015-11-05	Stop feeding us poison. When will we ever learn to value life over money?
Christine Cull	Oliver, Canada	2015-11-05	Way to go Tony !!! This is the right thing to do.
Debbie Smith	Wynndel, Canada	2015-11-05	I am signing this because I am one of the thousands of Canadians that are sick because of the chemicals applied to our food.
Sebastien Richard	Montréal, Canada	2015-11-05	Ma santé et celle du monde que j'aime me tient à coeur !
Sophia Boucher	Dorval, Canada	2015-11-05	Ce sujet m'intéresse beaucoup car nous sommes ce que nous mangeons et si les produits utilisés en argriculture sont dangereux pour la santé humaine et animale, on doit faire quelque chose!
Bill Ward	Winnipeg, Canada	2015-11-05	world health issues are at an all time high, we are all apparently trying to eat healthy, but still getting sick, could it be from the food we are all eating??
HeLen seymour	Bay Roberts, Canada	2015-11-05	I want a safe environment for my grand children.
Alex Axsen	Lloydminster, Canada	2015-11-05	I just moved to Saskatchewan from Vancouver Island. It is a difficult transition because Vancouver island is all about growing organic. Here it is about growing GMO canola sprayed with toxic round-up. Very scary.
Diana Daghofer	Rossland, BC, Canada	2015-11-05	We need transparency and honesty from the corporate sector. We need a health assessment of any product that has such widespread use.
James Botaitis	Winnipeg, Canada	2015-11-05	Under a transparent government proof of product safety should be easy to read and understand let alone obtain.
sheilagh Currie	Niagara Falls, Canada	2015-11-05	We don't need to poison mother Earth anymore. This need to be tested to be safe for Canada!
William wice	Calgary, Canada	2015-11-05	transparency
nizar mecklai	NEWMARKET, Canada	2015-11-05	I BELIEVE IT IS IMPORTANT TO SAFEGUARD OUR HEALTH
Rex Eaton	Surrey, Canada	2015-11-05	IARC has determined glyphosate is a probable carcinogen - a determination that should trigger a complete review of its use in Canada..
James Teakles	Calgary, Canada	2015-11-05	If you've been following the recent big news about Monsanto's infamous weedkiller RoundUp and cancer, you'll have heard that industry's "dirty little secret" just got dirtier. In case you missed it: the international scientific community sent us two very loud wake-up calls last month. First, the UN World Health Organization's prestigious International Agency for Research on Cancer released a consensus report that glyphosate, the active ingredient in RoundUp, is a "probable carcinogen." A few days later, a team of international scientists based in New Zealand reported that widely available commercial formulations of RoundUp, 2,4-D and dicamba can lead to the development of antibiotic resistance in common disease-causing bacteria. In addition to these findings, there's a growing body of evidence on health impacts associated with exposure to glyphosate or RoundUp, such as endocrine disruption, organ damage and birth defects.
Robert Friesen	SURREY BC, Canada	2015-11-05	Round up , I was told by a wheat farmer, is used to "mature" grains just prior to harvest in some parts of Canada
Francine Pépin	Laval, Canada	2015-11-05	Je suis contre les produits chimiques
Holt Mansfield	Toronto, Canada	2015-11-05	Science before capitalism.
Daniel Boudreau	Calgary, Canada	2015-11-05	If Monsanto had nothing to hide, prof that Glyphosate is safe is something that they should be happy to produce. The fact that Monsanto is so militant on not providing info and lobbying to do so speaks volumes.

Name	Location	Date	Comment
Wendy Klein	Ottawa, Canada	2015-11-05	Also the test must be done by an independent, unbiased agency.
Margaret Davidson	Gabriola, Canada	2015-11-05	Any poison that kills plants likely also kills the insects and birds who eat them, and thus moves up the food chain. We must know with certainty whether the crops this herbicide are sprayed on are safe for human consumption.
Pete Snidal	Grand Forks BC, Canada	2015-11-05	Monsanto=Death
Jason Kosolofski	Calgary, Canada	2015-11-05	I want proof!
Robert Littley	Roberts Creek, B.C., Canada	2015-11-05	I am tired of one company playing God with our health...
eric Gouin	Laval, Canada	2015-11-05	I am concern about my kids health
Alexander Cohen	Thornhill, Canada	2015-11-05	Our health is our business and government works for us
sandra crosby	Charlottetown, Canada	2015-11-05	i am signing this petition because this is especially important to those of us who live on PEI where cancer has a very high rate and these types of herbicides are freely sprayed. we need to be able to live safely ! would you want your children and grandchildren at risk??? we must think of
Sandra Hamp-Lane	Williamsville, Canada	2015-11-05	We should take NO chances!
Stephanie Berry	Chesterville, Canada	2015-11-05	I don't believe glysohate is safe.
Brian Trotto	Saanichton, BC, Canada	2015-11-05	We have finally passed the industry tobacco denials... now it's past time to address what they are feeding us for corporate profits.
Anita Legault	Quebec, Canada	2015-11-05	Je veux connaitre les herbicides employés pour les légumes du Québec.
John MacMillan-Jones	Peterborough, Canada	2015-11-05	We need to protect our health from the ground up.
Mary Morgan	Westlock, Canada	2015-11-05	Roundup and gmo are NOT safe I want it out of my food
Nancy Theriault	Charlottetown, Canada	2015-11-05	I have many environmental allergies and cannot live in the country because of the heavy spraying going on in the summer and I'm sure of the seepage of the chemicals into water wells. Even the city's citizens spraying for "weeds" is a hazard to myself, children, animals, insects and many with allergies that may not even realize that they do have negative reactions to what is being used for a lawn to remain a lawn and look good. All for the sake of appearance.
Anne Tasker	vancouver, Canada	2015-11-05	Tonys request is absolutely reasonable. I want to see that report too.
Jennifer Carilla	Mississauga, Canada	2015-11-05	This herbicide is not safe for humans, animals and the environment.
albert lorman`	Jasper, Canada	2015-11-05	we have the right to know what is used in our food process's
Grant Scott	Sarnia, Canada	2015-11-05	We must ensure our food supply is safe to eat.
Margarete Wiebe	Toronto, Canada	2015-11-05	Anything that seeps into our food chain, particularly if it is deliberately added, is a major health concern to all Canadians. I am sick to death of the cavalier addition of known or potential toxins to our food chain which place corporate profits ahead of human wellbeing. When will this abominable situation ever end? We have the right to be informed about the safety of what we are consuming.
susan kern	Uxbridge, Canada	2015-11-05	It is time to stop poisoning the Earth!
Bernie Miller	Winnipeg, Canada	2015-11-05	I don't want to be a test subject in a massive experiment!
Andrey Rac	Kitchener, Canada	2015-11-05	We have the right to know what is the effects of the chemical being widely administered.
Darlene Chase	Kelowna, BC, Canada	2015-11-05	I know too many people who are suffering long term illness due to intolerance of glysohates in anything used in the home or other places

Name	Location	Date	Comment
Vera van Diepen	London, Ontario, Canada	2015-11-05	I'm tired of previous Canadian governments supporting the slow poisoning of it's population.
J N	Toronto, Canada	2015-11-05	It's poison
annie osborne	Cantley, Canada	2015-11-05	My health is important to me and rich people should not be able to poison us...
Sara Marsala	Stouffville, Canada	2015-11-05	The integrity of our food supply is at risk, as is our health and the health of our children.
Nadia St-Amour	Ripon, Canada	2015-11-05	I am a organic vegetable farmer
Ronald Lewis	Naughton, Canada	2015-11-05	I am signing because the general public is generally oblivious to the dangers of Glyphosate. Moreover, once something, like this, is on the market the public assumes that it is safe and approved by government, so by default, government is responsible.
Gillian A. Walker	Vancouver, Canada	2015-11-05	I want the Government to get back to objective science-base decision making.
Connie Kuramoto	Nanaimo, Canada	2015-11-05	As a mother, a grandmother and a Horticulturalist I am concerned that there has not been adequate testing of round up.
Scott Crofford	Kelowna, Canada	2015-11-05	Accountability is the foundation stone of good government.
Ray Toivainen	Toronto, Canada	2015-11-05	After 9/11 western governments have taken a fascist role of controlling it's population and killing brown skinned people. Chemicals, pharmaceuticals, media propaganda, police state tactics, invasion of our privacy by intel corporations, stealing mineral wealth with puppet governments, all contribute to our enslavement, as well as future generations. Please wake up people; we stopped Hitler once, and the Soviets went bankrupt. We are the resistance. Check out Prison Planet.com and other alternative sites which promote democracy. Thx. RT
Richard Beaucher	Sherbrooke, Canada	2015-11-05	C'est une responsabilité majeure pour le Gouvernement de protéger la santé des citoyennes et citoyens. Plusieurs entreprises privées priorisent d'abord le profit...
Cécile Richer	Deux-Montagnes QC, Canada	2015-11-05	Please give this matter your earliest possible attention given its priority. Thank you.
Sherry Bergman	Esterhazy, Canada	2015-11-05	I live in saskatchewan in a farming area spray planes this year went over my yard too many times spraying was happening here for over three weeks.i even took pics of planes over my house my animals are sick after this runny eyes I should have some course of action to stop this from coming on my property.sask has highest rates of cancer ,really hard to figure out why.i want it to stop and it is not only roundup being sprayed
Samantha Autin	Red Deer, Canada	2015-11-05	Why eat something that doesn't need to be in a food.. I grow carrots and tomatoes as well as a couple other vegetable and fruits. I use non of the gmo android Chemicals in my products nor do other farmers locally. There is no need for this to be in our consumption
chris santos	vernon, Canada	2015-11-05	Show us where the money is, Trudeau!
Nicole Starrett	Oakville, Canada	2015-11-05	Chemicals are contributing to poor health and weight gain in your population!
shirley johnson	Chilliwack, Canada	2015-11-05	I want a safe food supply. And chemicals are not the way to do that!
lyn paterson	heriot bay, Canada	2015-11-05	I've read bad news about glyphosate from independent studies
Patrick Le Monnier	St Luc de Bellechasse - QC, Canada	2015-11-05	It could be better to forbid definitely this poison.
Susan Birley	Regina, Canada	2015-11-05	Canadians are exposed to too many invisible toxins in our air, water and soil. Health Canada needs to be working on our behalf - providing scrutiny to test results and making the results publicly available.

Name	Location	Date	Comment
Paulette Chung	Whitby, Canada	2015-11-05	I care about my health, my family's health and the negative impact this pesticide could have in our well being.
Rosalyn Kew	London, Canada	2015-11-05	Because I don't believe it's safe at all.
Lawrence Romanko	Sudbury, Canada	2015-11-05	Glyphosate is also used to control bio diverse flora in commercial tree re-planting programs in our forests. I have noticed over a 20 years period that the wildlife species have diminished significantly in numbers in such areas.
Bob Large	Calgary, Canada	2015-11-05	Not safe. Time to prove it's not for the slow learners.
Girard Linda	Sainte-Rose-du-Nord, Canada	2015-11-05	Because I dont understand why we use this herbicides not good for ower healty. En 2015, je ne comprend pas encore comment les gouvernements ne réagissent pas à ces produits qui nuisent à notre santé mais également à la santé de la terre, de nos eaux, poissons, oiseaux, mammifères, la flore et la faune dans son ensemble... Nous sommes la flore et la faune, nous dépendons d'eux.
Jean claude Drapeau	Quebec City, Canada	2015-11-05	Il faut revoir nos façons de faire !
Sylvie Carrier	Trois-Rivières, Canada	2015-11-05	Pour la santé de la planète et des humains qui y habitent

Mark Vasil	Burlington, Canada	2015-11-05	I am against the use of unapproved chemicals on our food and against the cover ups and protected measures that large businesses like Monsanto hide behind to put toxic products into the supply chain.
Peter Michael	Guelph, Canada	2015-11-05	First off!!! NO Testing of anything should be done on animals. People like you should take there place!!! You fucking asshole!!!!
Melissa Deziel	Summerside, Canada	2015-11-05	PEI has one of the highest cancer rates and we are the smallest province in Canada! Something NEEDS to change!!!
Darren Hoem	Surrey, Canada	2015-11-05	Healthy living is important to me
Dorothy Fedacsek	Brampton, Ontario, Canada	2015-11-05	Too many harmful products are in our food.
Ralph Gould	Fort McMurray AB, Canada	2015-11-05	Protect the earth.
Doug Amos	Kingston, Canada	2015-11-05	I am concerned because they are spraying toxic chemicals on our food, & we end up being sick, or getting cancer or some other illness because of the chemicals sprayed on our food.
Melissa Moore	North bay, Canada	2015-11-05	I eat.
Andrew Black	London, Canada	2015-11-05	I am worried!
Janice McGuigan	Sammamish, WA	2015-11-05	I have signed so many petitions to stop the use of glyphosate perhaps this will be the one!
Greg Hood	Kanata, Canada	2015-11-05	Sounds like what Tony was requesting is the sort of thing a citizen should be able to ask for and get from the feds.
gerard gosselin	France	2015-11-05	Cette société utilise les mêmes produits chez nous en France
Sandy Haradyn	Waterdown, Canada	2015-11-05	Next to clean air and water, there is nothing more sacred than our food supply.
Mike Hynes	Fort McMurray, Canada	2015-11-05	I'm sick of corporate and government corruption! The governments do whatever the corporations want! That is fascism!!
Bill Waddington	North Vancouver, BC, Canada	2015-11-05	Destroy Monsanto, incarcerate the ceo's and blackwadder (their body guard cronnies)

Name	Location	Date	Comment
Jose Dussault	Magog, Canada	2015-11-05	Too many information is hidden from companies for mnoey purpuse who prefer making money even if people get sick and ie from their pooisnous products. Government must be more firm as health should be the priority #1 and test must be conducted under independant laboratory's supervision to assure truth results, not tricky results.
Denise Olson	Gibsons, Canada	2015-11-05	The health of canadians is at risk..AND proven detrimental affects to pollinating insects should make this a clear need..
Ken Swanson	Midway, Canada	2015-11-05	Roundup has already been proven unsafe by French Chemists. Health Canada has become lax in taking care of the Canadian population by believing chemists that work for corporations rather than testing these chemicals themselves. This is leaving the foxes in charge of the henhouse. Look at what David Schindler found when he examined the Athanasca River water downstream from Athabasca Tar Sands. Corporate donations to political parties should be banned immediatly and the election process should be paid for out of the tax system. This is the only way that Canadians will have government that uses our tax money properly, and puts Canadians ahead of Corporations, and makes Corporations operate safely within Canada's borders. To maintain our sovereignty NO MORE FIPA Agreements!!!
carol collicutt	coleman, CA	2015-11-05	Cancer is killing us all
Joan Green & Garry Guild	Fredericton, NB, Canada	2015-11-05	We believe glyphosate should be banned in Canada as it has been in many countries. When there is doubt(as per the UN report) to our safety & health, you have the duty to take action on our behalf!
Don Butler	Ottawa, Canada	2015-11-05	I agree with Mitra that the government should produce reports as he asks or tell us by what standards it considers glyphosphate safe and what testing was done to show those standards are met
Richard Gilbert	Fonthill, Canada	2015-11-05	I have always been concerned about Glyphosate and believe there are long term impacts that have not been studied.
Allison Azulay	Renfrew, Canada	2015-11-05	It is more than time "Health" Canada stopped giving blanket approvals to rich companies for untested and/or unsafe products. The mandate of the ministry is to TEST and to VERIFY the safety BEFORE giving any approvals of any product. It is up to the ministry to seek or make unbiased tests and assessments, not merely rubber-stamp the self-serving reports of industry. Further, it is the responsibility of the ministry/government to provide summaries for laymen to the public, not reports that can only be understood by specialist insiders.
Daniel Rhody Armitage	Riverview, Canada	2015-11-05	if its safe why did I receive a notice of spraying and to stay clear especially if I'm pregnant. Were my camp is they have clear cut replanted sprayed. The habitat has moved on. Also in New Brunswick I believe the tax payer is on the hook for the spray program in turn the Irvings reap the benefits at great losses to out wilderness.
sari Otaqui	Toronto, Canada	2015-11-05	Because we are already seeing the damages
Richard Stevenson	Kitchener, Canada	2015-11-05	I would like to be informed of any safety hazards involved with it's use in agriculture and it's possible effects on health. Being totally informed is the best way to make an informed decision based on scientific fact and not on dogma preached from both sides as to whether it's use is safe or not.
Patsy Zolondek	Grand-falls, Canada	2015-11-05	I'm signing this because any chemicals that are used in the environment that has ill effects on animals, plants or humans should be completely banned. Poisoning the environment is the leading cause of cancer and other illness to humans and other life forms. If we are to live in a healthy environment, glyphosate if harmful has no place in our country or any other country for that matter. Way to go Tony, I am behind you 100%.

Name	Location	Date	Comment
Julie Leduc	Montréal, Canada	2015-11-05	it just make BIG SENS!!!!
claudette preece	courtenay, Canada	2015-11-05	For a long time I have been suspicious of Roundup as other countries do not allow it and tests have proven it causes tumours. I would like independent tests done, not tests done by Monsanto.
Crystal Rogers	Stewart, Canada	2015-11-05	I'm signing because I care.
Susan Walters	Smiths Falls, Canada	2015-11-05	Get rid of these chemical poisons once and for all time!
Hugh Campbell	Kapuskasing, Canada	2015-11-05	The public has a right to know what is used on the human food chain.
John Profit	Calgary, Canada	2015-11-05	No longer can we just accept that ingredients especially "big word" are safe just because the industry says so. There has been too much overlooked and hidden. Transparency is necessary to the smallest molecule. Especially when it comes to chemicals. There is a chemical formula to structure the substance and equally there is a formula to prove its safety to living things. Simple!
Beverly Hall	Red Deer, Canada	2015-11-05	I strongly believe that far too many toxins have been unsafely introduced to our environment. I also believe this is detrimental to civilization.
Terry Bertram	Calgary, Canada	2015-11-05	This could be a serious health issue.
Brad Abernethy	King, Canada	2015-11-05	NO chemical is safe for human consumption. This one has NEVER been proven safe over any term!
Trina Kennedy	London, Canada	2015-11-05	We have the right to know!
Gary Goode	Fernie B.C., Canada	2015-11-05	I've had enough of big business poisoning my environment, food, me and my children and my government supporting them.
Pat Chapman	Edmonton, Canada	2015-11-05	Please stop this poison from hurting people, animals and the environment!! We do not this!!
Dominic Lavoie	Trois-Rivières, Canada	2015-11-05	Parce qu'il faut mettre au pied du mur les diffuseurs de mensonges accro aux expériences chimique contre nature.
Suzanne Beaudry	Sainte-Apolline-de-Patton, Canada	2015-11-05	Round-up is still used at large in agriculture. Is it réally safe? I havé doubts.
Jillian Soper	Carbonear, Canada	2015-11-05	Its safety has never been proven to the Canadian people.
Sandra Pate	Leduc, AB, Canada	2015-11-05	Poisonous sprays need to be banned from using on crops and any place else.
Doug Cunningham	Barrie, Canada	2015-11-05	Round up the heads of Monsanto and exile them to a Pacific atoll about to go under the waves.
Maria Jang	North York, Canada	2015-11-05	I'm signing because all Canadian citizens have the right to know if Glyphosate on food is safe to eat.
Tracey Versteeg	Brandon MB, Canada	2015-11-05	I want to ensure what I'm putting into my body is safe.
David Howell	Salt Spring Is. BC, Canada	2015-11-05	I believe that these types of Chemicals should all be checked out extensively before they are allowed to be used. I am much more concerned with the "neonicotine" pesticides than I am with the glyphoate hebicides. However proper studies need to be done on all these things. The Neonicitoids are such an effective insectocides that they are wiping out our bees and helpful insects along with the harmful ones. this is resulting in a population crash of small birds etc etc on down the food chain.
potvin lucille	Québec, Canada	2015-11-05	C'est vraiment très important que la lumière soit faite sur la sécurité de ces tests reliés au Glyphosate.
rachel dixon	val-therese, Canada	2015-11-05	Canada is not your guini pig , GMO everything , pesticides herbicides enough already my family matters and so should yours .

Andée Danika Breen	Châteauguay, Canada	2015-11-05	Pour continuer de défendre mes valeurs
Robin kehler	Sechelt, Canada	2015-11-05	I know friends and love ones who suffer from IBS. There's no doubt in my mind after we eat organic flour that wife was eight is the problem hi Robin Kehler I was born in here in Manitoba
Andrea Nobbs-Thiessen Nobbs-Thiessen	Port Coquitlam, Canada	2015-11-05	Our land and people are valuable and precious, we as Canadians must take responsibility and protect ourselves and the earth. We the people of Canada expect integrity from our government, please follow through in providing the information outlined, we appreciate the transparency.
Barb Hashimoto	Lake Charlotte, Canada	2015-11-05	It is time to keep our food and bees safe.
Alison Cutts	Nelson, Canada	2015-11-05	Glyphosate is used so widely we need proper toxicology studies to support continued use before we further degrade our food supply and our soils.
William Rees	Vancouver, BC, Canada	2015-11-05	Glyphosate is increasingly coming under scrutiny elsewhere. On what test grounds does Canada maintain its approval?
Gerald Michel	Lillooet, Canada	2015-11-05	Other sources state that glyphosate is harmful to the environment
Phyllis Ruthven	Delta, BC, Canada, Canada	2015-11-05	As a parent , grandparent and great grandparent, I am concerned about this product being on store shelves for indiscriminate use by people not aware of the potential damage it is doing to the environment and health of those who contact it. I do not believe Monsanto that it is safe. They pushed 24D and similar on us saying it was safe. Please have honest impartial testing done and in meantime strongly regulate use of this product with strictest handling and licensed uses.
Laury Drury	Barrie, Canada	2015-11-05	I am concerned about the health risks associated with roundup and have a mistrust of some government regulations because of a lack of transparency.
Trevor DeLaVergne	maple ridge, Canada	2015-11-05	It is very important that the government supply the people with correct information. Especially on a topic so huge, that effects everyone
Arthur Joyce	New Denver, Canada	2015-11-05	Recent reports from scientists and journalists reveal that Monsanto has been falsifying safety data for glyphosate for decades. It's time for Health Canada to stop acting as a shill for corporations and protect public health!
Gerald Martin	Maple Ridge, Canada	2015-11-05	I am skeptical of such government endorsements, to say nothing of the relevant manufacturer's claims. Regardless, WE have a right to know the truth.
Catherine beamer	Brampton, Canada	2015-11-05	I have right to safe food.
norbert skiba	Oakville, Canada	2015-11-05	No chemicals on our Food Nice start Mr prime minister
andreas meyhoefer	toronto, Canada	2015-11-05	OUR LEADERS HAVE NO FEELINGS.
Rose Kanitz	Mississauga, Canada	2015-11-05	We have to be able to have foods that are safe to consume.
Joanne Giesbrecht	GRINDROD, Canada	2015-11-05	I agree with the necessity of seeing un-tampered with test results documents.
Darryl Paquette	kelowna, Canada	2015-11-05	Over the years some have tried to convince the public that we must spray our food to prevent pest from entering in to our food change & now as it turns out some of those pest were part of what has made some be more successful
Kobie Kearney	Chilliwack, Canada	2015-11-05	RoundUp is deadly and so is anything that has it in the product.
Bob Heron	Honey Harbour, Canada	2015-11-05	I have used Roundup since 1978, with excellent not results. So I believe the truth should be told about its safety, if used properly
Federico Hiebert	Winkler, Canada	2015-11-05	of my health and safety

Name	Location	Date	Comment
Marian Hargrove	Salt Spring Island, Canada	2015-11-05	Glyphosate is now a broad contaminant due to years of use and until the risks are faced we will not respond by stopping its application.
Syd & Judi Speijer	Burlington, Canada	2015-11-05	I care about the food we eat and the future of our grandkids.
glenda Donovan	Grand-Barachois, Canada	2015-11-05	I believe roundup is a dangerous chemical and we have a right to know.
helen kalogiannides	scarborough, Canada	2015-11-05	My own reading has demonstrated the poison that is glyphosate.
Anne Kivari	Nanaimo, Canada	2015-11-05	For the health and safety of all Canadians
Georges Trano	Saint-Eustache, QC, Canada	2015-11-05	As a scientist myself, I do approve.
Sabrina Kanho	Toronto, Canada	2015-11-05	Because we all know IT ISN'T! And passing the buck, coming up with a paid-for scientific analysis and just not rocking the boat ISN'T ACCEPTABLE ANYMORE!
Dustin Cummings	Yarmouth, Canada	2015-11-05	Enough already.
Trish Spilker	Toronto, Canada	2015-11-05	It has already been determined by WHO that glyphosate causes cancer. Our government should ban its use period. It is not safe. It is a cancer causing toxin and it is our government's responsibility to stop its use throughout our country. The idiotic bureaucracy for a decision on this very open subject is mind boggling to one's intellect.
Ferdinand Vondruska	Garibaldi Highlands, Canada	2015-11-05	It's well known that Glycosulphates do cause substantial health problems
Pam Evely	Fort Erie, Canada	2015-11-05	Agree, except the tests should be done on humans, if we want to know if it's safe for people. I'm sure they've already tested and tortured thousands of innocent animals, to help keep the sadistic "scientists" and breeders in business. Unfortunately, our government is bought off by these labs and companies that make these poisons, so I won't hold ny breathe for roundup to be banned. But we definately don't need any more animals sacrificed in labs.
Keith Hillier	Pasadena, Canada	2015-11-05	No chemical should be approved unless proven safe. Sick of hearing companies defend use by saying there are no studies showing a particular chemical or product is unsafe. If they want to sell a product prove it is safe first.
Joanne Peterson	Stony Plain, Canada	2015-11-05	This seems like a pretty reasonable request. It is astounding to me that the Canadian government approves chemicals based on data provided by the chemical company that manufactures them. The whole system of pesticide/herbicide approval needs a complete overhaul to become transparent.
Lise Blais	Sainte-Julie, Canada	2015-11-05	Maintenant, nous avons un ministère de l'environnement ouvert !
Michelle welsh	Langley, Canada	2015-11-05	Put an end to harsh chemicals in the environment it's bad for animals and the air we breath it needs to stop
Marc Malloy	Montreal, Canada	2015-11-05	Because I care
Tina Fischer	Surrey, Canada	2015-11-05	Enough of the chemicals ...
Cate McLaren	Vancouver, Canada	2015-11-05	GMO foods have no taste and make me feel bloated and gaseous.
Joseph Duhaime	St Catharines, Canada	2015-11-05	This should be stopped
Christoph's Stadtlander	Peterborough, Canada	2015-11-05	We have the right to know.
Georgina Martin	Charlottetown, Canada	2015-11-05	The health of our people, our environment and our oceans are of paramount importance!
Nancy Crouse	Fort Erie Ontario, Canada	2015-11-05	Glyphosate is the active ingredient in RoundUp and it is NOT safe. Please discontinue the use of all things with this chemical in the products. This is poisoning people, plants and the environment.

Name	Location	Date	Comment
Deanna Henderson	Calgary, Canada	2015-11-05	I'm tired of worrying that the presumably healthy food I buy for my family may in fact be slowly poisoning them.
Susan McAdam	Swift Current, Canada	2015-11-05	I do not believe the product(s) is safe.
Diane Gorman	Russell, Canada	2015-11-05	We mat be poisoning all aspect of our environment without really knowing what Round Up independent safety tests would tell us.Actually,it's the responsible thing to do.
Corinne Hersey	Fredericton, Canada	2015-11-05	Stop poisoning our food, land, and water. We cannot be healthier than our planet.
Mary Dunn	Surrey, Canada	2015-11-05	I seem to recall that the WHO has now classified Glyphosate as a carcinogen.
Darcie Lanthier	Stratford, Canada	2015-11-05	RoundUp has no place in the food chain. Known and probable human carcinogens must be excluded from food and our forests.
Sonit Nangia	Scarborough, Canada	2015-11-05	Please follow the 33 other countries and ban GMOs.
Susan Kreutzwieser	White Fox, Canada	2015-11-05	I am hoping our country could adopt a policy similar to many European countries where the company has to prove the safety of it's product. I am under the impression that in Canada the company does not have to prove this and can apply for sale again if they only slightly change their product.
micheline farkas	Granby, Canada	2015-11-05	Because the govt needs to know about the poison in roundup and if animals are injesting pastures that have been sprayed then all our meet intake is poisinous as well as much produce causing cancer and other disease we are not immune to ..govt needs to ban monsanto roundup and much more .the minister of environment should go on the fields and do their own testings..
Joy Percival	Calgary, AB, Canada	2015-11-05	I want to see Glyphosate taken out of herbicides.
jim walton	Peterborough, Canada	2015-11-05	I am not in favour of using animals as test subjects! The Government however, should supply the safety data on this biocide. Maybe we are the test subjects!
Grace Eidse	Winnipeg, Canada	2015-11-05	It's important to insist on good science, and safety for us all.
Suzanne Blair	London, Canada	2015-11-05	I am unconvinced that Glyphosate is safe for humans. Where are the studies that demonstrate the impact of the chemical on humans over a period of five years? The product should be withdrawn from the market until there is a longitudinal study demonstrating its safety.
Jamie Griffith	Etobicoke,On, Canada	2015-11-05	It's obvious
susan coleman	Delta, Canada	2015-11-05	Acknowledging an issue is the first step to correcting it. We should not be exposed to chemicals without knowing all the risks.
Samuel Raymond	Longueuil, Canada	2015-11-05	How could it be? Fighting nature has never proven to be viable.. We lose all the time :P
Patrice Lord	Laval, Canada	2015-11-05	Trop d'études scientifiques ont été mises de côté par le gouvernement conservateur au profit de leurs amis corporatifs, sur le dos des citoyens Canadiens. Donnons un coup de main au nouveau gouvernement pour mettre à jour notre santé.
Chloe Shackelton	Oakville, Canada	2015-11-05	I want my food, soil and water to be chemical free.
Elaine Gardner	Port Alberni, Canada	2015-11-05	Proving this stuff is safe, cannot be done.
Chris Stethem	Canmore, Canada	2015-11-05	safety of the food supply is essential to the present and future
Margaret Giddings	Charlottetown, Canada	2015-11-05	We need to ban these unsafe practices
Caroline Fortin	Terrebonne, Canada	2015-11-05	L'environnement c'est important! Mangez des pesticides c'est assez!! Surtout ce produit!
james hermon	burnaby, Canada	2015-11-05	We cannot and must not trust industry to thoroughly validate the safety of their own chemical products; this is counter to their own interests.

Name	Location	Date	Comment
Natalie Cox	Ottawa, Canada	2015-11-05	Knowing what I'm eating is important to me.
E R-J	Picton, Canada	2015-11-05	I want to ensure we are minimizing exposure to hazardous chemicals in our environment
Devin Toderash	Kenville, Canada	2015-11-05	I'm concerned about what's going into/onto my food.
Chug Nation	vancouver, Canada	2015-11-05	lysol ?
Doug Currie	Toronto, Canada	2015-11-05	We have the right to know what is safe and what is not.
Patricia Downing	Milestone, Canada	2015-11-05	Plus they need to make labeling mandatory, since even if they banned glyphosate it will take a long time before it is out of the food. We have a right to know what is in our food.
Elaine Mazur	Warren, Canada	2015-11-05	WE NEED TO QUIT POISONING OUR LAND.
jeanne koroway	Annan, Canada	2015-11-05	This product is available for sale/ use. I do not believe it is safe, but my neighbors are using it. I expect my government to provide scientific evidence one way or the other. Monsanto cannot be trusted to provide us with unbiased evidence.
Subhro Ganguly	Maple Ridge, Canada	2015-11-05	I strongly feel that glyphosate should be banned from all communities as latest research shows its toxicity level is extremely high on human digestive system. Canada can eliminate half of its healthcare cost if this pesticide is banned forever.
Cathryn Massaro	Vaughan, Canada	2015-11-06	I think prevention of health issues is so important. We could focus less on how to cure preventable diseases and focus more on why things happen and how we can prevent them in the first place. The population would be healthier as a whole and less would be spent funding treatment for preventable problems. Our children eat these foods. Our future. They should have the best options available to them. Not secrets and lies.
LEVI FRANZ	Medicine Hat, Canada	2015-11-06	I don't like the fact that we use poisonous chemicals on our food to begin with, plus the fact that most of the food that farmers grow is to feed dirty livestock!
Andrea Weber	Laverlochere, Canada	2015-11-06	IL est grand temps qu'on arrete Monsanto...cette machine qui tue en empoisonnant la planète et tous ceux qui s'en nourrissent!
Herve Leger	Ottawa, Canada	2015-11-06	Canadians (and others) must not be exposed to any harmful product that has the potential to cause a severe health problems resulting from the use of glyphosate.The ministry must act responsibly to protect all Canadians.
Mel & Pat Webber	Burlington, ON, Canada	2015-11-06	I'm signing because I'm concerned for my own and my families long term health.
Darrell MacKinnon	Capreol, Canada	2015-11-06	We have a right to know what's being sprayed on the food we eat! I know this stuff is not safe... It's been proven by many European countries already.
Lieve Segers	Gatineau, Canada	2015-11-06	Je signe parce que ce produit a été qualifié de probablement cancérigène par l'OMS, et parce que beaucoup de plantes ont été génétiquement modifiées juste pour pouvoir y résister. Respectons la nature!
Arlette Lemire	Prince Albert, Canada	2015-11-06	Governments all over the world need to stop working hand in glove with/for corporations and start working more directly for what is best for their people.
jeff muckle	Halmoon bay, Canada	2015-11-06	just because the FDA (fake data accommodaters) says it safe does not make it is safe. Altered genes twisted truth by Steven M Druker is a great book
jacquie cottingham	Kakabeka Falls, Ontario, Canada	2015-11-06	I believe the poison on our food from pesticide control to dessication is the cause of stomach and bowel cancers.
Shelagh young	ellerslie, Canada	2015-11-06	We are drenched in this chemical, and its use must be questioned.

Name	Location	Date	Comment
Simon Gaudet-Lavallée	Montréal, Canada	2015-11-06	Information
Sandra Clark	Calgary, Canada	2015-11-06	Health reasons and government transparency
Suzie Anderson	Penticton, Canada	2015-11-06	Big agra is poisoning us, our children our animals and our environment. What will be left? It's time to see the truth and expose the corrupt politicized science. Read Stephen Drucker's book "Altered Genes, Twisted Truth".
Nadine Erickson	Salmon Arm, Canada	2015-11-06	We need to know the facts about this chemical.
Cindy A. Burton	Pickering, Canada	2015-11-06	Oh come on!! Anyone with half a brain knows you don't introduce chemicals into the food system without proper extensive testing. And you wonder why cancer, Alzheimer's and other diseases are on the rise. Dduuuuhhhh!!!
Lily Girard	Joliette, Canada	2015-11-06	Pour notre santé.
Glenn Whitehead	London, Canada	2015-11-06	All of the research (including California's recent classification and labeling) indicates This should be a banned substance.
dale roscovich	Powell River, Canada	2015-11-06	Withheld Truth is profiteering treason
sue york	nanaimo, Canada	2015-11-06	this is of major importance
jack scrivener	toronto, Canada	2015-11-06	we need help with our food
Jean Le Marquand	Laval, Canada	2015-11-06	We are hearing more and more of the very real risks that pesticides pose to human health. Results of the nefarious effects of glyphosate or any other chemical making its way into the food chain should be made public.
Helene Usherwood	Yellowknife, NT, Canada	2015-11-06	With Harper muzzling all scientists, it is important that we follow-up on what studies have been done and need to be completed.
June Caskey	Hamilton, Canada	2015-11-06	I care about what Canadians ingest through the agricultural use of glyphosate which is quite likely to be proven to be a very harmful poison
Courtney Bowlen Henry	Edmonton, Canada	2015-11-06	I think this chemical should be band in Canada for the safety of our farms, our bees, and most importantly our children and the health of our nation.
Christine Pritchett	Burnaby, Canada	2015-11-06	We deserve to know
Murielle Tétreault	Beaconsfield, Canada	2015-11-06	J'ai des petits enfants et je ne veux pas qu'ils soient empoisonnes ou qu'ils developpent un cancer dans quelques années
Perry Grimm	Fort Sask., Canada	2015-11-06	I know it is not safe.
Dan Diduck	Edmonton, Canada	2015-11-06	I have been following this quite closely for a number of years. I believe that glyosphate to be very hazardous.
camille girard-métivier	Sainte-Thérèse, Canada	2015-11-06	health is so important for me
Michel Bégin lamy	Lévis, Canada	2015-11-06	Les citoyen doivent connaître la vérité sur tout ce qui les concerne.
John Pagliacci	Oakville, Canada	2015-11-06	I'm signing because I find it appalling that there is any resistance to providing this information, and more appalling to think that since it has not been made available, perhaps the reason is that the proper testing has not been done!!
Elizabeth Coombs	Burlington, Canada	2015-11-06	I'm signing because there are far too many untested chemicals that are allowed to enter the food chain or to come into contact with the air we breathe, or into direct contact with the skin.
Katie Johnston	Lethbridge, Canada	2015-11-06	I read a lot of research and don't buy anything with it in. We are finding it in mothers milk so it is not inert when it hits the ground.
Leslie Milthorpe	Toronto, Canada	2015-11-06	Because it's 2015
Charlene Clarke	Regina, Canada	2015-11-06	Because all chemicals should be removed from our crops! There simple is no such things as safe for human consumption chemicals!!

Name	Location	Date	Comment
Randy Gerich	Trail, Canada	2015-11-06	Protection of Canadian food supplies is important and making sure food is safe for human consumption.
David Pegg	Everett, Canada	2015-11-06	Monsanto is getting away with legalized murder.
Debbie Currie	Bolton, United Kingdom	2015-11-06	We all have a right to know what we are all consuming.....
t.luke lukaszek	vancouver, Canada	2015-11-06	I don't think that there has ever been a safety test done on Glyphosate. A test where they evaluate the cumulative build up of glyphosate in human bodies
Timothy Phillips	Maxwell ON, Canada	2015-11-06	We don't expect anything good from Justin Trudeau either.
Ron Currie	Williams Lake, Canada	2015-11-06	Transparency is demonstrated by sharing the scientific results of tests if it exists.
Jodi Mykula	Edmonton, Canada	2015-11-06	we should all have the right to know what we are putting in our bodies.
melodie Tancon	Comox, Canada	2015-11-06	Please protect our food and water, nothing else is more important.
Andrena Ewart	Welland, Canada	2015-11-06	we need the truth
Jennifer Aird	Toronto, Canada	2015-11-06	I've experienced living in the near vicinity of fields sprayed with glyphosate, and I cannot say that it made me feel healthy and good. It's worth looking into the effects of something that is poured onto our soils and crops, every year, by the unknown gallon.
Barbara Marcell	Thunder Bay, Canada	2015-11-06	I want to know that my food is safe for me and the people who are at my table.
Barbara Philbrook	Delta, Canada	2015-11-06	I'm signing because this is a known carcinogenic.
Paolo De Luca	Mississauga, Canada	2015-11-06	If this new government led by our new Prime Minister Justin Trudeau is sincere about protecting our environment and our health, then Minister of Health, release the documents regarding glyphosates from Monsanto.
Keeks Grace	Langley, Canada	2015-11-06	I care about our future. I believe our new government leaders do too!
Roberta Stuart	Vancouver, Canada	2015-11-06	Its reasonable to ask for the proof...
moira romano	Kleinburg, Canada	2015-11-06	Why use glycosate, a proven human carcinogen - let's remove it from the ecosystem and see unbiased test results first
Suzanne Touchie	Portmoody., Canada	2015-11-06	i care about the future of my children and fellow Canadians.
Sharon Sadler	Penticton, Canada	2015-11-06	People are getting sicker from too many chemicals in our air and food.
Jennifer Barr	Carleton Place, Canada	2015-11-06	We deserve protection of our health over big business. We need to stop keeping consumers and tax payers in the dark. We deserve the best chance for healthy futures.
art phillips	keswick, Canada	2015-11-06	It's important to know what is being done to our food source.
Adena Trevor	Ajax, Canada	2015-11-06	Who wants to eat poisons? Poisons that kills bees.
Mathieu Lefebvre	Montréal, Canada	2015-11-06	Je me préoccupe de ma santé et de celle de ma famille.
Roni-lil Shapka	Calgary, Canada	2015-11-06	This is a serious health issue concerning every single Canadian
Rosemary Breschuk-Chiu	Newmarket, Canada	2015-11-06	Glyphosate is NOT safe!
David Holdsworth	edmonton, Canada	2015-11-06	Government has a responsibility to ensure industry uses safe products that do not detrimentally affect our health or environment.
Syed Reza	Mississauga, Canada	2015-11-06	The health of Canadians are paramount here. We have to do whatever we can at our disposal.
Cameron MacInnes	Ottawa, Canada	2015-11-06	Don Huber, professor emeritus at Purdue University and USDA senior scientist delivered to the UK Houses of Parliament a damning indictment of glyphosate agriculture as a most serious threat to the environment, livestock, and human health.

Name	Location	Date	Comment
Scott Hellenburg	Simcoe, Canada	2015-11-06	WE have waited far too long already to address these issues concerning the health of this planet, pesticides being one of the greatest concerns. It is the job of our government to ensure that the health of our citizens and environment is absolutely protected.
frances nokes	Comox, Canada	2015-11-06	I cannot begin to describe the importance of this environmental issue.
Allen Schofield	Vancouver, Canada	2015-11-06	This is another dangerous chemical produced by Monsanto that is probably dangerous to the environment, animals and people. Shake up the Ministry of Health and get rid of the Harper plants that our destroying our science and safety.
Potri Lighthouse	Port Hardy, Canada	2015-11-06	A great deal of scientific data is indicating that glyphosate is not safe and should be subject to the precautionary principle. In short disallowed until proven safe via rigorous independent research.
wendy Stephenson	Vancouver, Canada	2015-11-06	People's health should come before the convenience and profits of food producers so the test results need to be available to know whether or not this chemical is safe on food for human consumption.
Karalee Mcaskill	Stratford, Canada	2015-11-06	I care about my health and the future generations health, I'm a scientist and I know the disastrous affects of this chemical on our ecology, on our wildlife and aquaculture and then from there, into our bodies where we are not protected from its affects. I can assure you millions of dollars are spent on trying to heal and save lives from the affects from this chemical on their body.
Diana Donnelly	The Blue Mountains, Canada	2015-11-06	We have a right to know!!
Heather Butler	Hamilton, Canada	2015-11-06	Glyphosate is not safe.
Audrey Wedge	Wellington, Canada	2015-11-06	More & more cancer every year... Something had To be causing it
Sylvie Janelle	mississauga, Canada	2015-11-06	La sante est essentielle a la race humaine.
Chiara Turner	Tottenham, Canada	2015-11-06	I'm signing this petition because it's obvious that our bodies and planet are so inundated by all of the chemicals that we use for farming and weed control as well as all of the hidden chemicals in our food and everyday products that we shouldn't use any harmful chemicals....period.
Norm Chantigny	River Valley, Canada	2015-11-06	I'm very concerned about this because every year we have bees nest on our property and by the end of August they all die.
Denis Dubé	Montreal, Canada	2015-11-06	Je signe parce que la Santé Publique s'empoisonne de tous ces pesticides chimiques et ces engrais sur-productifs en parallèle avec le marché de la viande avec les organismes génétiquement modifiés. Denis Dubé, Mikmak-Trickster.Blogspot.ca

Name	Location	Date	Comment
Lorna Wood Houck	Martock, Canada	2015-11-06	Dear Justin Trudeau and Minister of health, Canada, Please carefully read the requests in Tony Mitra's petition. Please read it not only from the perspective of a government official but take a few minutes (or more) to look at this from the perspective of all beings (including human beings) on this planet. Please do this for your children who you value so much. Please do it for the next generation for all the children Who will inherit this earth after you; and who have, along with their parents placed their trust in you, they need you to take a few minute(or more) and read this petition with a discerning eye. We are depending upon you to do the right thing. The health of the entire planet as one entire ecosystem is in jeopardy here. We are confident that you represent transparency. We believe you've got what it takes to look at important issues with a fresh and unbiased perspective, and not cater to individuals and corporations that only have money on their agenda. Glyphosate appears to be incrementally more toxic then the public was ever lead to believe. The studies supposedly proving glyphosates safety we're not done in a comprehensive and unbiased manner. Please... Ban this poison from being sprayed even one more day, until sufficient data can be reviewed by a third-party, not by individuals with vested interest. The results of this recent election have given Canadian citizens a renewed sense of hope and well-being ... We know you will do the right thing and protect all of us who are at risk every time we go into the grocery store. Safe food should be a given, a right. Thank you Justin Trudeau and Minister of health, Canada, for doing the right thing and banning Glyphosate/Round Up until it can be proven safe
Yves Maurice	Ste Genevieve de Batiscan, Canada	2015-11-06	Une des promesse du nouveau premier ministre concernait la transparence et une autre de baser ses décision sur des donnée scientifique en conséquence la publication des études et de leur méthodologie serait une preuve de la bonne foie du gouvernement libéral
Ralph Drotar	Hamilton, Canada	2015-11-06	enough is too much
Josee Girard	Saguenay, Canada	2015-11-06	Josee girard
Hamid Tizhoosh	Waterloo, Canada	2015-11-06	Let the facts speak.
Justine Kerr	Halifax, Canada	2015-11-06	I'm signing because this doesn't feel safe & it needs to change!
Marcel Beaudry	Nanaimo, Canada	2015-11-06	I would've imagined this data would be public access. Seems like it's not... I demand that it is.
Jane Clemens	Ben Lomond, CA	2015-11-06	Let the public know what health risks they face by eating pesticides and GMOs.
Brenda Johnson	Winnipeg, Canada	2015-11-06	I care very much about what's being done to us with chemicals, especially what's being sprayed.
Moir Logan	Delta, Canada	2015-11-06	I care about the safety of food for the Canadian people
Gilles Vaillancourt	Québec, Canada	2015-11-06	Je signe parce que je crois fermement que les produits chimiques nuisent à la santé et qu'il est de loin préférable de faire de la prévention. Aussi parce que je crois qu'une meilleure connaissance de la nature nous permettrait d'utiliser des agents naturels pour contrer les nuisibles en agriculture.
Franc Gorenc	Kitchener, Canada	2015-11-06	I care about environment and food supply!!
Deidrie Gardmer	Toronto, Canada	2015-11-06	There are so many neurological disorders children are being saddled with in this generation. We have a responsibility to remove chemicals from our environment that could possibly compromise the long term health of our children
Marie-jose Gaudreault	Montréal, Canada	2015-11-06	C'est trop grave
Jacquelyn Mullin	Qualicum Beach, Canada	2015-11-06	We need to make food clean again. No pesticides etc. Tests should be done by scientists not connected to Monsanto.

Name	Location	Date	Comment
Jenny Kuri	TORONTO, Canada	2015-11-06	I do not want people to think it is safe when it is not even though you can buy it from the hardware store. Why is it the only product locked in a plastic case?
Robert Mckenzie	Calgary, Canada	2015-11-06	It's wrong
s c	harrow, Canada	2015-11-06	Stop poisoning everything we need to start taking care of all living being and stop being greedy
deborah price	Ocean City, MD	2015-11-06	I want this poisoning of our foods stopped. Disclosure of all information is demanded by the public.
Maggie Nebout	Toronto, Canada	2015-11-06	We must know whether this product is safe.
Walter Fredrick	Allen, TX	2015-11-06	Glyphosate causes cancer and Monsanto needs to go out of business.
Tara Bradley	Vernon, Canada	2015-11-06	Science has now proven the link between glyphosate and obesity. That is not the only negative health out one from this harmful chemical. When your attempt to prove it "safe" fails, please ban it as many other countries have done.
Jason whiteman	Oshawa, Canada	2015-11-06	I worry about my health, my family's health, and the health of all Canadians. Let's be transparent and accountable
Mary Jane Kelly	Ottawa, Canada	2015-11-06	This must be done!
brian Campbell	kingston, Canada	2015-11-06	Documented research is the only way to make sound decisions of this magnitude.
Bonita Nowak	McConnelsville, OH	2015-11-06	People should have the right to read the test data so that they may make informed choices about the foods they consume and grow.
Patricia Calvert	Sundre, A.B, Canada	2015-11-06	concerned citizen
Wayne Chauvin	belle river, Canada	2015-11-06	I have the right to know what I am consuming.
geoffrey moore	Montreal, Canada	2015-11-06	I am so sick of this cozy, corrupt, back-room access these corporations have to MY government. Be the science based government you promised us you would be. Be transparent. Be responsive to citizens' information requests. If it isn't safe then get it off the market IMMEDIATELY. Move to a precautionary method of approval for chemical products. That is to say ensure there have been open, transparent, independent and peer reviewed long term scientific studies BEFORE approving any chemical product.
Kathleen LeRoux	Calgary, Canada	2015-11-06	I want to know what chemicals the food I consume has been in contact. It is very important for the health of everyone. I am tired of information being withheld from the public. I want the truth not doctored documents.
Jo-Anne Burlton	Saint-Armand, Canada	2015-11-06	I've VERY concerned with what they're feeding us
Dino Spaziani	Montreal, Canada	2015-11-06	I just care of what I and we all eat.
Lois Dow	Lakewood, CO	2015-11-06	Our health is important and glyphosate is unsafe. Test data will verify.
vivian constantineau	Ottawa, Canada	2015-11-06	I know the dangers of Glyphosate and I demand they be banned in Canada, we want safe food, NO GMOs either.
Colleen Heffren	Toronto ON, Canada	2015-11-06	I am signing this petition to flag this environmental and subsequent health concern of glyphosate with the new Liberal government. The Harper Ministry's response of unloading spurious industry documents is an irresponsible avoidance tactic. Canadians deserve the right to know the consequences of any long-term build-up of deleterious chemicals that destroy the natural balance of nutrients required for the longevity of crops. Thank you for restoring Canadian environmental laws which do not liquidate our environment to an abstract and unstable market value driven by greed only.

Name	Location	Date	Comment
Beryl Pearson	Enderby, Canada	2015-11-06	I'm signing this petition because of the overwhelming scientific research repeatedly proving the deadly effects from Glyphosate. It should be banned globally.
Randa Speller	Chatham-Kent, Canada	2015-11-06	Increasing levels of cancer and other diseases are killing Canadians. Time to ferret out the root causes and environmental impacts of chemicals being widely used!
Stephanie Smith	Toronto, Canada	2015-11-06	Dear Leaders, The human bodies micro-biome needs to be healthy in order for people to have good health and be productive citizens. I wanted to be an organic farmer as a kid but was told it was a not a good career. I think organic farming in Canada should be a focus. Glyphosate interferes with the human bodies ability to detoxify properly. Fluoride in our water also adds to the bodies toxic load. With the rates of cancer so high I am asking humbly for this new government to help lessen the toxic load we people are exposed too. Kind regards, Stephanie Smith
Marcella Pedersen	Cut Knife, Canada	2015-11-06	i have experience with GMO canola oil, and it is not safe, so why should I believe that glyphosate is safe? I want proof. If we are eating antibiotics all the time, is it any wonder we are not responding to antibiotics when we really need them?
Bob Trudeau	Kamloops, Canada	2015-11-06	I'm signing because I believe all test results should be public and no chemicals/drugs should be approved without rigorous independent testing and rigorous review and testing by government scientists.
Linda McFarland	Port Franks, Canada	2015-11-06	We are against the use of this harmful chemical that should be banned. Farmers are profiting from this at the expense of the people's health and the environment.
Elaine Tipple	London, Canada	2015-11-06	I'm tired of being poisoned by Monsanto. This is death by a thousand cuts/toxins. Their 'gm0s' and 'roundup ready' seeds are destroying our natural plants... especially corn and canola. They must be checked!!!
Dan Kingsbury	Roberts Creek, Canada	2015-11-06	I'm a dentist and I understand enough to care.
David Fisher	Calgary, Canada	2015-11-06	I am concerned about the toxicity of chemicals added to the environment and the food chain.
Robert Christiani	Waldersee, Canada	2015-11-06	Increased aerial spraying of crops in my area. The seeming lack of government oversight and regulating bodies for aerial spraying. Little recourse for private citizens to protect their property and person from these questionable chemicals and invasive agricultural practices.
Milly Saville	Prince George, Canada	2015-11-06	I want healthy produce sold in Canada
Brenda Levesque	Brighton, Canada	2015-11-06	I am concerned about how much of this pesticide is in our food chain being consumed by unsuspecting Canadians.
Catherine Gibson	Regina, Canada	2015-11-06	It is my understanding that 100 % pure glyphosate is not harmful to animals NOR does it kill weeds! I also understand that the tests presented to FDA, for initial approval of Round-Up, were glyphosate only. It is the so called inactive ingredients in Round-Up and other brands of this herbicide that makes it toxic to man, beast and weeds. What is needed is testing of the actual off the shelf products that are being sold to grain farmers and the public.
Sara Golling	Rossland, BC, Canada	2015-11-06	I believe in following the Precautionary Principle, and there is some evidence that glyphosate is NOT safe, and that residues remain in foods. So why are we allowing it to be sprayed on food crops?

Name	Location	Date	Comment
Jackie Baker	Ottawa, Canada	2015-11-06	I want safe food for myself and my family!
hiliary aulando	Coquitlam, Canada	2015-11-06	Glyphosate may be connected to the exponential rise in many so-called lifestyle diseases. Increasing evidence points to connection with birth defects in areas where glyphosate is used without adequate protection for agricultural workers and their families. Until a sufficiently large scale independent peer reviewed study is down, the precautionary principle would indicate that this product be pulled out of production and all use halted until it can be proven without question to not pose a harm to human and animal health, and the environment.
Andy Verheyden	Westlock, Canada	2015-11-06	I'm concerned about big businesses ruining our food supplies for profit...
simon fortin	Québec, Canada	2015-11-06	Cest important!
Mike Lang	Naramata, Canada	2015-11-06	My health is very important to me!
Kevin Hamilton	Dunnville, Canada	2015-11-06	Please tell me that you have documents proving the safety on the most widely used biocide in agriculture! Please restore my broken faith in government regulators.
John Deringer	Flaxcombe, Canada	2015-11-06	Please everyone. It's not just glyphosate we have to concentrate on. It is the toxic brew of 37 other ingredients in roundup, and other brand names, what they do to increase the toxicity of the target in this patition. Testing glyphosate alone is not the answer. No where is only glyphosate used. It's in a brew of chemicals that are not exactly healthy. I have tried to add to this patition, but the link for it is not working. If in anyway this can be included in the draft letter to parliament, it will be lights out for Monsanto.
Larry Myrick	Burnaby, Canada	2015-11-06	I'm signing because the WHO has classified Glyphosate as probably carcinogenic and that its used widely in agriculture and most likely getting into the food chain. Even if an old study is available, a new study, and not one by the manufactures, should be conducted. A lot has changed in the last 15 years.
John Deringer	Flaxcombe, Canada	2015-11-06	Please everyone. It's not just glyphosate we have to concentrate on. It is the toxic brew of 37 other ingredients in roundup, and other brand names, what they do to increase the toxicity of the target in this patition. Testing glyphosate alone is not the answer. No where is only glyphosate used. It's in a brew of chemicals that are not exactly healthy. I have tried to add to this patition, but the link for it is not working. If in anyway this can be included in the draft letter to parliament, it will be lights out for Monsanto.
Linda Larson	North Vancouver, Canada	2015-11-06	I have been reading for years that glyphosate is not good for us and causes a myriad of health problems. Prove that it doesn't if we are going to continue using it.
William Milligan	Vancouver, Canada	2015-11-06	Agree with Tony, that actual data proving the safety of long-term exposure to glyphosate should be publicly available for review.
Ana Costa	Drayton, Canada	2015-11-06	I want to live in a clean environment and not be afraid of what I am eating. I also worry about the effects it has on our honey bees.
Jean Weighill	Bowser, Canada	2015-11-06	I believe it is my right to know that the food I eat is not toxic.
Sira Ansley	Orangeville, Canada	2015-11-06	That's a little crazy
Jeff Melnychuk	Dawson, Canada	2015-11-06	We need safe agricultural practices.
WILLIAM C SMITH	CAMPBELLTON, Canada	2015-11-06	Let me get this straight. Justin Trudeau wants to legalize pot because it's safe but won't criminalize a known poison. Help me from my confusion.
Margaretann Simon	Nakusp, Canada	2015-11-06	Im signing because i believe you will help stopthis poisoning . If you dont you are not worththe spit it will cause in your throat . No serians as well . They are rapists and women haters . Not good for canada .

Name	Location	Date	Comment
Sarsh Herstead	Oshawa, Canada	2015-11-06	This request is very reasonable considering the previous government's lack of transparency and trust in true scientific data.
Terrilyn Kerr	Murray River, Canada	2015-11-06	We need to know and then use a safer alternative if there is one.
Shannon Hawkey	Stony Plain, Ab., Canada	2015-11-06	Sick and tired of fighting for something to eat that isn't trying to kill me!!!! ENOUGH OF THIS GARBAGE!!!!
Melissa C	London, Canada	2015-11-06	I don't support any of it
chris gordon	Kamloops, Canada	2015-11-06	I don't think it is safe. I am opposed to everything GMO and Monsanto in particular. Let's follow Europe's lead.
Amanda Moore	Smithville, Canada	2015-11-06	I am concerned about the use of glyphosphate, which has been linked to cancer, in agriculture.
Cameron De Baets	Winnipeg, Canada	2015-11-06	I'm signing because it's the right thing to do.
Maryanne Reavie	Kelowna, Canada	2015-11-06	I'm signing because I am extremely concerned about the use of pesticides and herbicides and the impact on our food system. Glyphosate is not safe. I choose to only buy and consume organic foods; however, every family should be able to eat safe food, irregardless of education or income level. Disclose safety tests immediately and ban the use of glyphosate.
Sheridan Price	Ottawa, Canada	2015-11-06	I am very suspicious of how companies manage to get deadly chemicals approved as safe.
joseph kennedy	ottawa, Canada	2015-11-06	There are many scientific papers from various scientists around the world that claim the harmfulness of glyphosate and many examples of actual crop failures to support these claims. Companies like Monsanto, Dow, and other chemical companies deserve not to be believed anymore. We must totally rely on government agencies to thoroughly test products following precautionary principles to ensure the safety of the public.
Michael Javert	O' Fallon, MO	2015-11-06	People have the right to know if their food have been sprayed with poisonous chemicals that cause the cancer. Monsanto knew since 1981 glyphosate caused the cancer and hid that information, covered it up, lied about it, continue to lie about it, and pay scientist to lie about it.
Susan McAdam	Swift Current, Canada	2015-11-06	Glyphosate is a probable human carcinogen to humans (WTO 2015). Glyphosate combined with other substances that are frequently used together have increased threats to the environment in low level doses over time. The government of Canada should not provide funding to projects that are in any way associated with Glyphosate.
Brenda Young	Logy Bay, Canada	2015-11-06	We need to keep our food safe.
Lloyd Benedict	Akwesasne, Canada	2015-11-06	I think we the people deserve not to be poisoned and we need to protect our Mother Earth for the sake of our children and grandchildren
Bryan Beattie	Bawlf , Alberta, Canada, Canada	2015-11-07	I want my food to be safe. I don't trust current system.
N A	Black Diamond, Canada	2015-11-07	Monsanto is hiding something again. We have a right yo know what testing has been done. Independent, unbiased tests that will say whether this stuff is safe...or not.
chris young	emo, Canada	2015-11-07	Very, very important!!!
jesse zuccatto	Edmonton, Canada	2015-11-07	I stongly agree glyphosate should be tested and the results made public
Linda-Claire Steager	Oyama, Canada	2015-11-07	I,too, am not at all convinced of the safety of glyphosate. I believe that the tests tat were done were not carried out in an unbiased manner ,nor were controls set up .

Name	Location	Date	Comment
Monique Silver	Owen Sound, Canada	2015-11-07	We must advocate for our own safety but the only way to do that is based on facts. I hope this petition is successful!
Hyacinth Ysaguirre	Belize city, Belize	2015-11-07	BAN GLYSOPHATE in Belize, and the rest of the world.
John Palmer	Trail, Canada	2015-11-07	We need to return to a holistic approach to farming that is safe and sustainable.
Ron Lafleur	Nanoose Bay, Canada	2015-11-07	Please look at the science and determine whether this is a safe product to spray on our food and soil.
Jessie Lennox	Courtenay, Canada	2015-11-07	I am allergic to wheat, and the more research I do, the more roundup seems to be the culprit. Roundup is not safe in my opinion and spraying chemical on food that we ingest seems crazy, especially if there haven't been any tests done. Please look into this and prove this.
Sheena De Langen	Sooke, Canada	2015-11-07	Glysohate is a known carcinogen that we ingest daily. It's even in women's tampons! Thanks for the cervical cancer, Canada!
carol baryluk	thunder bay, Canada	2015-11-07	Why would we trust Monsanto?
Myriam Guignard	Montréal, Canada	2015-11-07	Nous nous devons de savoir ce qu'il y a dans nos assiettes. Il y a déjà beaucoup trop de produits chimiques et transformés sur le marché qui peuvent nous rendre malades à long terme.
Nick Tarasiuk	Westbank BC, Canada	2015-11-07	I'm signing because the Liberal Government has to repair some of the damages Harper left with you, and Glyphosate is one of the bad ones! Glyphosate kills
Roseline Roux	Sherbrooke, Canada	2015-11-07	je me préoccupe de ce que je mange.
Marlene Barry	Sooke, Canada	2015-11-07	We have to get back to really growing our food and looking after the land so we can continue to grow food! These chemicals are killing everyone and everything eventually!
Sirtaz Ranauta	Sherwood Park, Canada	2015-11-07	I'm signing because I don't want poison in my food!
Kristie Elgersma	Edmonton, Canada	2015-11-07	I'm tired of not knowing what is in our food supply. This is unacceptable. The people need remedy and relief. Monsanto is a corporate monster.
Holly Dressel	St-Chrysostome, Canada	2015-11-07	Please note that the World Health Organization, in just the last few weeks, officially declared glyphosate a human carcinogen, placing it with other major poisons such as DDT. I don't understand why this important development is not in the petition.
Holly Dressel	St-Chrysostome, Canada	2015-11-07	http://www.scientificamerican.com/article/widely-used-herbicide-linked-to-cancer/
Holly Dressel	St-Chrysostome, Canada	2015-11-07	http://www.scientificamerican.com/article/widely-used-herbicide-linked-to-cancer/
Linda Knight-Archer	Guelph, Canada	2015-11-07	With so much cancer and autism out there, please do these studies. It is the environment you are exposed to plus your genes that will enable cancer and other mutations to our DNA to evolve.
Rebecca Lascelle	Ottawa, Canada	2015-11-07	https://m.youtube.com/watch?v=sVtwKGnbADc&sns=fb
Catharine goheen	Kelowna BC, Canada	2015-11-07	I am concerned about the food i eat. And I want to buy Canadian when ever possible. cathy goheen
Diana Gillies	Naksup, Canada	2015-11-07	This is such an important issue and the truth IS going to be exposed

Name	Location	Date	Comment
Karli Raine	Beaumont, Canada	2015-11-07	I want my children to trust the food they eat is not doing them harm.
J.V. CHUDZIK	Winnipeg, Canada	2015-11-07	We should have scientific proof of something as serious as this.
Trevor Goodger-Hill	Trottier Mills, Canada	2015-11-07	As the main ingredient of Monsanto's Roundup, Glyphosate is being used in ever-increasing amounts as Monsanto genetically modifies the crops to be able to absorb more of this chemical because of resistance. thus impregnating the food we and domestic animals ingest. More Glyphosate anyone? Bonne appetite.
Richard Miller	Aldergrove, Canada	2015-11-07	I have been affected with serious health issues and it turns out glyphosate is responsible
Debra (Lou) Jones	Calgary AB, Canada	2015-11-07	I prefer to not include poison in my air, water and food. The proof is there, duh!
Kim Brown	Saint Catharines, Canada	2015-11-07	The amount of synthetics and carcinogens in our daily lives is intolerable.
Nancy Van Hal	Okotoks, Canada	2015-11-07	I would like to NOT have my family poisoned \
Nancy Van Hal	Okotoks, Canada	2015-11-07	We have to stand up against all the people and companies that are poisoning our families. It has to stop RIGHT NOW!!!
Bernard Claing	Montreal, Canada	2015-11-07	https://fr.wikipedia.org/wiki/Glyphosate#Toxicologie
Laquita Rollins	Spillimacheen, Canada	2015-11-07	we must keep on fighting 'the good fight' as there are loads of stupid people out there still using this stuff. Please sign. Laquita Rollins
Alan Faulkner	Courtenay, Canada	2015-11-07	I do not believe that any credible science exists that shows long term effects of the safety of Glyphosate has been demonstrated.
Marlène Robert	Calgary, Canada	2015-11-07	GMO should be banned!!!!!!
Gord Vaux	Vernon, Canada	2015-11-07	I live amongst the orchards in the north okanagan
Misty Swimmer	Calgary, Canada	2015-11-07	I have a family and I want to be asure they are eating healthy food
Denis Lavoie	Nelson, Canada	2015-11-07	It is time to stop the use of dangerous chemicals!
Louise Taylor	Kaslo, Canada	2015-11-07	I call on you to ensure that glyphosate and other toxic chemical herbicides. pesticides, fungicides and fertilizers are prohibited in Canada. We need to return to organic, permaculture or biodynamic farming which is good for the soil, farmer, consumer and environment. It will solve so many of our problems. Thanks, Ms. Philpott for taking action which your predecessor failed to do.
Gasper Jack	Lillooet, B.C., Canada	2015-11-07	we are cognizant of unsafe and deadly substances that end life to all life forms, companies that make and administer these should be fined and banned from being the cause of rampant death to all coming in contact of said substances.
Maryse Couillard	Montréal, Canada	2015-11-07	Je signe parce que c'est de notre santé qu'il s'agit. Mais en réalité, je crois que nous devrions bannir ce genre de produits car il existe de bien meilleures techniques tout à fait naturelles pour protéger les récoltes.
dave allan	Vancouver, Canada	2015-11-07	Common sense demands it
Donna Hawkey	Rocky Rapids, Canada	2015-11-07	I want to know what vegetables to avoid due to glyphosate spray.
Vivian Tsang	Vancouver, Canada	2015-11-07	We should stop poisoning our future generations!
Danny Boyle	Letterkenny, Ireland	2015-11-07	Its time people came before greed.
Alison King	Burnaby, B.C., Canada	2015-11-07	It is my firm belief that Monsanto's Glyphosate is not safe and should never be used on crops. I would like independant testing done and the results made public.
Alex Hutchison	Calgary, Canada	2015-11-07	I used to work spraying oil sites.

Name	Location	Date	Comment
Mary MacLachlan	New Glasgow, Canada	2015-11-07	If you wouldn't put glyphosate in a smoothie and drink it. It shouldn't be sprayed on our food.
Susan Green	Gloucester, Canada	2015-11-07	corporations should be responsible for proving safety rather than experimenting on humans then denying a relationship between illness and the product
Terry Roscoe	RR 4, Annapolis Royal, NS, Canada	2015-11-07	Allow open access to test results of pesticides; don't jeopardize our health by contaminating our food.
Kathy Parsons	Red Deer, Canada	2015-11-07	I don't believe glyphosate belongs in our food chain or our environment.
Ashley Levins	East York, Canada	2015-11-07	Anything that has the possibility of effecting or health should be rigorously tested.
Charles Carr	Saskatoon, SK, Canada	2015-11-07	Glyphosate is a proven toxin and carcinogen should be banned from use on any agricultural or food products.
Keith Taylor	Peterborough, Canada	2015-11-07	I am concerned about toxicity having an agent affect on our population causing many diseases at an alarming Rate!!!
Mike Horvath	Veron, Canada	2015-11-07	Mankind has to start to think what they are doing and long term effects instead of being their worst enemy
Linda Mimeault	Duncan, Canada	2015-11-07	I care about the soil that feeds us, the insects - visible and not - that live in that soil and are essential to good soil tith & chemistry.
Tracey Regehr	strathmore, Canada	2015-11-07	I have concerns about the nutritional value and safety of our food supply.
Conner Wright	COURTENAY, Canada	2015-11-07	It's Poison !!!!
Margery Wright	St. Albert, Canada	2015-11-07	I am skeptical that anything which can cause all non-GMO plants to die could be safe for other organisms (including people). If you say it's safe, show us the proof.
Maureen Harrison	Winnipeg, Canada	2015-11-07	I am signing this petition because we should have access to all information such as this, not just the info that they, whoever they may be, want us to know. It is absolutely astounding that we are left in the dark regarding something which may be potentially harmful to us and/or the environment which would ultimately bring harm to us in the long run. Have we learned nothing? My brother, who was incredibly healthy, died of a blood cancer. Although an exact cause is not known, exposure to chemicals is one theory. I am amazed by the number of blood cancers that I hear of, are they becoming more common? If they are, I for one cannot help but fear it is due to all the chemicals we are bombarded with now, whether in the soil and ultimately the food we eat, in the air we breathe or others that are possibly transported by some other means. I for one find it alarming, to say the least, and we surely have a right to find out the ingredients that are used indiscriminately which could have dire consequences on mankind. The days of blindly trusting that everyone is acting in our best interests are gone, and they should be. Too many people are only interested in profits, which is understandable, but not at the expense of public and environmental safety. We have a right to know the contents and the dangers of these products. Please demand that full disclosure is published!
Brett Marrow	Hamilton, Canada	2015-11-07	I believe health is our first concern before production.
Donna Wagner	Kimberley, B.C., Canada	2015-11-07	Super important to get rid of this POISON!
Richard Martin	Clearwater, B.C., Canada	2015-11-07	Because every honest study completed so far proves that glyphosates are deadly, and cancer-causing chemicals - not to mention GMO's. Monsanto needs to be charged criminally, sued for damage, and rejected from our country completely! It's a 'no-brainer'!
Tommy Alarie	Saint-Boniface, Canada	2015-11-07	je suis agriculteur et je connais la dangerosité du produit!
N Carswell	Shellbrook, Canada	2015-11-07	I believe in the precautionary principle.

Name	Location	Date	Comment
Jodi smith	Windsor, Canada	2015-11-07	I care.
Lin Burman	Toronto, Canada	2015-11-07	We had more than enough secrecy under the previous lot. Liberals, please be transparent about the risks posed by Glyphosate.
Anja Noel	Vancouver, Canada	2015-11-07	Glyphosate is toxic to all organisms, to everything on this planet!
Wes Buyarski	Tofield, Canada	2015-11-07	It's time for the poisoning to stop! It's everywhere, there are no safe places....
Schimek Suzanna	Montréal, Canada	2015-11-07	Les pesticides tuent les abeilles à petit feu et nous non ????
Melanie Axford	Burnaby, Canada	2015-11-07	The officials, we the public elect are responsible to make sure that, we the public have the right to the information we request. It is our right to know about the safety of the food we are consuming. It is your responsibility to provide us with the information if we request it. I want to know if my food is being sprayed with poison! Thank you, Melanie Axford
Anne Lambert	Hearst, Canada	2015-11-07	I'm affected by this issue! All Canadians are.
kathy saluke	Victoria, B.C., Canada	2015-11-07	I'm signing because I have hope now that the science will be done properly and that the results will be available to all.
Derrick Jones	Calgary, Canada	2015-11-07	If the evidence from reliable third party studies in regard to glyphosate's detrimental effects on animals and the environment has not been adequately scrutinized by elected officials and nothing is done about it should tell you that they are not doing their jobs. OR If the data has been scrutinized, what does that tell you about these officials that are supposedly put in place to protect the public and the environment?
marjorie dodson	Pointe-du-Chêne, Canada	2015-11-07	Gmo products are life threatening
Ross Morben	North Vancouver, Canada	2015-11-07	I care about food safety. I believe food safety is more important than corporate profits.
DIANE LESSARD	Grenville-sur-la-Rouge, Canada	2015-11-07	I believe the government is trying to hide the fact that glyphosate is dangerous for people, animals, insects and the environment period. We are merely asking for raw data of safety tests to be made accessible to the public.
Melissa Holloway Bacon	Mission, Canada	2015-11-07	Companies should have to prove that chemicals are safe BEFORE they are allowed to be sold in Canada (or anywhere).
Samantha Pierrepont	Calgary, Canada	2015-11-07	Duh! Now that science is once again a priority to our new govt...please do the testing!
clint carleton	Maple Ridge, Canada	2015-11-07	This is madness and has to stop.. there are so many other solutions. this is only corporate evil..
Art Schievink	Abbotsford, Canada	2015-11-07	No chemical are safe. Period !
Sue Carbery	Geelong North, Australia	2015-11-07	I'm not a Canadian but have many friends there and suffering from copper poisoning which is now related to pesticides which contain copper peptides arsenic and other contaminants that we should not be consuming!!! I would hope Canada is able to stop this and shows Australia & New Zealand that it is not ok and we will all pay the cost in care for the side effects that will result!!! Signed a 40 year old mother of 2 who is crippled by side effects of poisoning!!!
Catherine Hume	Toronto, Canada	2015-11-07	These new ministers will be busy for the foreseeable future...
Helena Vladetic	Hamilton, Canada	2015-11-07	Roundup is killing bees which are important to our food chain!!
Dinorah Eelhart	Hay Lakes, Canada	2015-11-07	Because there are more and more cases of cancer reports out their. And it starts with the foods we eat.

Name	Location	Date	Comment
Greg Fraser	Richmond, BC, Canada	2015-11-07	The Ministry must remember that they actually work for the public interest and are not internal lobbyists within the government for industry.
Elsie Wilson	Ladysmith, Canada	2015-11-07	Real impartial testing is long overdue!!
Linda Hoechstetter	Roberts Creek, Canada	2015-11-07	Roundup is unsafe, so why allow it?
Marlene Smulders	calgary, Canada	2015-11-08	Round up is a killer
Neal Bonnor	Dundas, Canada	2015-11-08	We've polluted the planet enough and are endangering our existence on it. Let's do things better from now on, at least in Canada.
William Weiswasser	Red Deer, Alberta, Canada	2015-11-08	The fundamental role of government is to protect its people from dangers that individuals cannot defeat.
Terry Billard	Fort McMurray, Canada	2015-11-08	It has cost me over \$10,000 so far to remove/rectify the toxins out of my body that were put there growing up/working on a conventional farm & eating the poisoned foods from these toxic farms.
Gerry Pfaff	Chatham-Kent, Canada	2015-11-08	all products should be proven safe, not the other way around... Next up GMO's.
Liz Harkin	Hamilton, Canada	2015-11-08	I care!
Howard Weeks	Windsor, Canada	2015-11-08	I eat food.
Dean Camfferman	Burnaby, Canada	2015-11-08	Glyphosate is destroying human health
Moira McIntosh	Toronto, Ontario, Canada	2015-11-08	We have enough poisons were ingesting.
edwin Romero	Teguciglpa, Honduras	2015-11-08	They're poisoning many, by stealth.
John Fiore	New Waterford, Canada	2015-11-08	There has been shady conditions by the overseers to reveal the facts of the outcome they are hiding something the public is at risk
Debbie Gauchier	Calgary, Canada	2015-11-08	Transparency needed
Coleen Martin	Windsor, Ont, Canada	2015-11-08	We were promised transparency!
Joy McKinnon	Cochrane, Canada	2015-11-08	I feel that many of the Wheat "sensitivities" people are experiencing in Canada may be related to this product being used on the crop pre harvest.
Barbara Hudson	Dollard-Des Ormeaux, Canada	2015-11-08	Some independent testing would also be nice ...
marlaine Scott	Lakeside, Canada	2015-11-08	I think we should be allowed to know what we are getting done to what we have to eat to live.
Alisa Boyle	langley, Canada	2015-11-08	I believe that all sentient life on planet earth has a right to be here and safe from harm.
ALDONA GRINIUS	FREDERICTON, NEW BRUNSWICK, Canada	2015-11-08	A carcinogen is a carcinogen , is a carcinogen.....Which part of carcinogen and hormone disruptor does Health Canada not get?
David Guthrie	Pitt Meadows, Canada	2015-11-08	The WHO now suggests glyphosate is a probable carcinogen so as a Canadian citizen I would like to see the studies that my government is basing its decision to allow this toxin into my food source.
Thomas Tubbs	Surrey b.c., Canada	2015-11-08	Give bees a chance
Georgina Anderson	Maple Ridge, Canada	2015-11-08	We should have a right to know if what we are breathing is toxic or not!!
Troy Beley	Qualicum, bc, Canada	2015-11-08	I hope the ministry is doing their job. properly! In the near future we can set up our gov't so people are accountable if not doing their jobs. (Such as the Ministry of Health approving something that proves to be harmful, someone gets fired and /or legal action against them.)
Joanne Valin	North Bay, Canada	2015-11-08	I believe the public deserves to know how their food is produced and what impact it may have on their health and safety.

Name	Location	Date	Comment
Heidi Smith	Seattle, WA	2015-11-08	GMOs should be banned. The continued support and allowance of GMO crops will eventually collapse any choices in food due to genetic contamination. Did you know that corn is an aggressive cross pollinator, so much so that when farmers have a superior seed they collect and share with neighboring farmers so as to keep the quality high at his own farm. That's right, so GMO corn is mixing and contaminating all neighboring crops, it's so bad in washington the even Organic farms can't claim to be GMO free. This needs to stop world wide, and if this happens country by country then that's better than nothing. I hope the US has a chance, otherwise I plan on leaving America. It's that serious.
leslie anne lingard	Québec, Canada	2015-11-08	leslieanne lingard
lois mitchell	saskatoon, Canada	2015-11-08	I am very sure that it is NOT safe and I want the use of it BANNED
Elaine Macintyre	Windsor, Canada	2015-11-08	I believe we've gone the wrong way and need to return to safety first when it comes to our food supply.
Jean Beaudet	Lévis, Canada	2015-11-08	Round up is sprayed on 100 % of our farmland???
Heather Marsden	Barrie, Canada	2015-11-08	We as humans, as Canadians, have a right to know if what we are ingesting is harmful. We live in a first world country with access to facilities in which these chemicals can be tested (lets not test on animals though!!), so why not find out.
Joanne Stevens	Sudbury, Canada	2015-11-08	I am a board certified holistic health coach and I am VERY concerned about the safety of glyphosate and I do not trust the methods in which their use was approved.
Silvia Chung	Milton, Canada	2015-11-08	Sad that we the Canadian people should even have to be signing a petition for this. When the safety of this country and it's citizens should be top priority and such testing should be an automatic not a petitioned request.
Evelyne Lesage	Whitney, Canada	2015-11-08	There is a coverup which needs to be exposed.
Jerry Mcgregor	Nepean, Canada	2015-11-08	I want the new prime minister to do the walk (talking so far) and this is a prime example of doing the walk.
Joseph Dansereau	Québec, Canada	2015-11-08	Parce que c'est un poison qui s,attaque à l'humanité
Riverworks Studio	Windsor, Canada	2015-11-08	Harper's muzzling of scientists and his habit of making decisions and keeping information secret put the welfare of Canadians in danger. He put corporations and their profits ahead of the health and welfare of people. This was unacceptable, and it's partially why we elected Justin Trudeau to make things right. This matter needs attention ASAP.
Sarah Dahabieh	Ottawa, Canada	2015-11-08	Food safety is a right not a privilege.
Anna Westgate	eDMONTON, Canada	2015-11-08	I am concerned about the safety of the food we are consuming. Gyphosphate has not been proven to be safe for consumption by animals or man and if it has the documented proof has never been disclosed. Full disclosure and transparency in all governmental processes is the minimum standard I would demand.
tammy mowat	Sicamous, Canada	2015-11-08	Poisoning our good. Disgusting
Gaye Lynch	Douglas, N.B., Canada	2015-11-08	Glyphosate has been increasingly banned/restricted worldwide.just review data from other countries
Cheryl Ellis	Peterborough, Canada	2015-11-08	I want to know.
Annika Parance	Montréal, Canada	2015-11-08	apa

Name	Location	Date	Comment
David Avery	Abbotsford, Canada	2015-11-08	Independent studies done the world over have demonstrated that glyphosate is a probable carcinogen, in fact Monsanto's own patent language describes the inherent danger of this chemical. Furthermore, there are no studies done by the Biotech industry demonstrating the absolute safety when used in conjunction with GMO crops, where it is used primarily. It is time the Governments of the world apply Sciences own mandate of the precautionary principle and stop using people as Guinea pigs all in the name of profit.
SANDY BOTTINEAU	Edmonton, Canada	2015-11-08	Round up has been banned in most european countries wake up Canada to the danger
Robert Taillon	Montréal, Canada	2015-11-08	Malheureusement nos gouvernements n'agissant pas sur les règles en agriculture mettent nos vies en danger. Ils jouent avec le feu
Dana Lynn Thomas	Duncan, Canada	2015-11-08	We don't need any more chemicals that have heath impacts on our earth and on all li ing things
Therese Desrosiers	Elliot Lake, Canada	2015-11-08	I'm tired of a government that lets the huge companies put whatever they want in our food supply without independent safety testing.
Cathy Tyssen	Calgary, Canada	2015-11-08	it matters!
David Fletcher	Montreal, Canada	2015-11-08	It is not just Stephen Harper's Conservatives who have treated Canada's scientists, including those in the employ of federal ministries, with disdain and intimidation. Previous Liberal administrations have also muzzled scientists within Health Canada, whose mandate was to research the safety of chemicals to be employed in the food industry. Information on the environmental and health impacts has been suppressed under Liberal ministers such as Alan Rock, 1997 - 2002, according to whistleblower Dr Shiv Chopra, in his book "Corrupt to the Core." If the Trudeau administration is true to its electoral promise to respect the findings of Canadian scientists, then it will order an immediate review process for Glyphosate and other allegedly pernicious products. It will have them removed from the market until an open, transparent and thorough proof of their safety has been attained. Liberal credibility is at stake. Change the culture as you have promised.
Jose Fernando Mikan	Vancouver BC, Canada	2015-11-08	Glyphosate is not safe..it is known, so prove us the contrary.
robert pike	Kingston, Canada	2015-11-08	All chemicals which might adversely affect plants and animals, including us, should be openly tested and controlled
Kevin Coleman	North Newington, United Kingdom	2015-11-08	Its stupid to still be using something that can cause cancer. Murder is the premeditated killing of another. Monsanto have known for years that Glyphosate causes cancer and kills people. Just because the corporation known as Monsanto is supposedly entitled to make its profit under WTO rules doesn't make it right to kill people. Therefore shouldn't Monsanto top brass and scientists and distributors and sales personnel be arrested for murder?
Marjolaine Belair	Montréal, Canada	2015-11-08	Marjolaine Bélair
John Brazner	Herring Cove, Canada	2015-11-09	I am signing because I have done field research on the effects of glyphosphate and found the toxicity to aquatic animals to be significant.
Deb Jewett	Halifax, Canada	2015-11-09	More chemicals, more allergies, these chemicals are killing me and many others
Brenda Swalm	Kindersley, Canada	2015-11-09	The government should have first hand reports but I am opposed to animal testing. The government should insist on new testing methods that do not submit other species to horrible pain and suffering.

Name	Location	Date	Comment
Perry Andrew	Toronto, Canada	2015-11-09	I want affordable food grown as naturally as possible. If there are too many people to feed on this planet, and you want to go on manipulating nature with all you poisonous concoctions, then it's high-time to lower the population levels. We are living way beyond our means. Wake-up world! It's a toxic soup out there. Your governments simply don't care.
Samantha Braun	Winnipeg, Canada	2015-11-09	#wearenotanexperiment #ourkidsarenotacommodity #wecandobetterthanthis #justbecauseitsnormaldoesntmeanitsright #happybelliesforeveryone #goodfoodisgoodmedicine
Lida Baron	Ft. Saskatchewan, Canada	2015-11-09	I'm signing this petition because there has been no proof that glyphosate is safe for health.
Alvin Glover	Vancouver, Canada	2015-11-09	The WHO has indicated Gyphosate, a herbicide included in Monsanto's Roundup, is probably cancerous. Canada is supposed to be reassessing this herbicide, as is the US, Europe and Brazil. What are the new safety tests being undertaken on Glyphosate and what are the results?
Caroline Cutmore	Winnipeg, Canada	2015-11-09	Poisoning another human being even slowly is against the law so why is Monsanto and the big corps getting away with crimes against humanity. We need to bring forth the evidence about Glyphosate and show that our government agencies are compassionate and caring individuals that would look to protect and provide healthy food and medicine for all Canadians. Expose Glyphosate for what it is and remove it from our food and our country. Like Russia, Italy and other wise countries.
Teresa Barrett	Red Deer, AB, Canada	2015-11-09	Because I care about what goes into our environment and into our bodies.
Geoff Hayes	White Rock, Canada	2015-11-09	Of the risk to everyone's health.
Rodney Sceviour	Barrie, Canada	2015-11-09	I like to know what I'm eating. Food in this country should be safe.
Donna Macedo	Princeton ontario, Canada	2015-11-09	I am concerned what is on and in my food
Joanne Jackson	Amherstburg, Canada	2015-11-09	Chemicals are literally destroying our planet. Please look for safe alternatives to help farmers that don't kill beneficial insects and other wildlife. The planet can't take much more of man's pollution. Sure feel sorry for future generations that will have to deal with the mess we've made. Just remember, when it comes to man vs Mother Nature, Mother Nature will ALWAYS win!
barbara de giusti-zicaro	Kettleby, Canada	2015-11-09	I am currently buying produce and food products from Europe and the US as I am not confident with Canadian Food.
Joseph Monette	Kitchener, Canada	2015-11-09	As an actual person I actually eat food and potentially harmful chemicals, as opposed to corporate persons who only eat profits and poop out patents and political contributions. Fix the food chain!
Bob Stuart	Spiritwood, SK, Canada	2015-11-09	This stuff probably killed my mother with non-Hodgkins Lymphoma.
Andrea Mitchell	Dugald, Canada	2015-11-09	Because our health matters
Donna Mitchell	North Perth, Canada	2015-11-09	I believe there are too many unsafe chemicals being sprayed on our foods which we then consume directly affecting our health in a negative manner - or other animals/ cows consume and we consume animal meat thus being exposed again to these chemicals.
Vito Signorile	Windsor, Ontario, Canada	2015-11-09	Bottom Line: Precautionary Principle Better Line: If proper studies are lacking, government (not private parties) should carry them out and publish the results.
Shanna Ledoux	Straffordville, Canada	2015-11-09	I'm signing because this is an important issue for our future and our children's future.
Irwin Rapoport	Montreal, Canada	2015-11-09	it's 2015

Name	Location	Date	Comment
Lucie Daoust	Montreal, Canada	2015-11-09	More and more people have cancer and all kind of deseases that we hardly suspect are caused by all these poison that are allowed by our government. Stop please and show us the studies. I recomand also that you read the book of Chiv Shopra « Corrupt to the core ».
linda wright	Deux-Montagnes, Canada	2015-11-09	All pesticides/herbicides are banned in my municipality in Quebec. The Ministry of Health is responsible to the Canadian people, do the research to protect the next generation. Do not use target animals!
Nicholas Ryan	Simcoe, Canada	2015-11-09	I don't like governments that take shortcuts around human lives.
Sandra Norton	Woodstock, Canada	2015-11-09	Of concerns to our health.
Marlene Brown	Toronto, Canada	2015-11-10	I don't like being poisoned by our government..no GMO's, no geoengineering our weather!!!
margaret carmichael	Mahone Bay, Canada	2015-11-10	I'm signing because I care about my health, the planet's health and would like to help put an end to the poisoning of our planet.
anne taylor	kingston, Canada	2015-11-10	Once upon a time, and not too long ago, Rachel Carson was warning about things just like this. She was right
Bradley Richards	Mt Pearl, Canada	2015-11-10	we should approve the use of herbicides based on science and evidence.
Ernie Matchett	London, Canada	2015-11-10	Health Canada has a Moral Obligation to ensure the safety of Glyphosate a known Carcinogen. The people of Canada, expect nothing less. Monsanto equals Frankinstien Foods.
Ninon Trudrel	Levis, Canada	2015-11-10	Because Glyphosate is just a stronger poison for humans. We need to grow food the old way when food did not. Pole kill
Leandro Silva	Winnipeg, Canada	2015-11-10	it is about time to ban Glyphosate. We can live without it iterally
Amanda Parker	Oak Harbor, WA	2015-11-10	No GMO for me and my family, please.
Colleen Burns	Pitt Meadows, B.C, Canada	2015-11-10	Stop using/spraying poisons on our foods
Linda Moorcroft	Gibsons, Canada	2015-11-10	The health of people and our planet are important.
sandra Gamache	Kelowna, Canada	2015-11-10	Glyphosate is proving to be dangerous to the entire planet and all it's inhabitants. Ban it's use - worldwide before it's too late.
Marsha Bradshaw	Royal Oak, MI	2015-11-10	My Children deserve clean air, water and food!
Karen Macmillan	Toronto, Canada	2015-11-10	I am signing bc I want a better tomorrow for my son
Kaleb Penner	Sexsmith, Canada	2015-11-10	transparency is important!
jeanette poirier	Blockhouse, NS, Canada	2015-11-10	I am convinced Glyphosate is very dangerous to our health. I want it to be eliminated so that our children and grandchildren will be protected from its damaging effects on health.
Brian &Elaine Mackee	Powell River, Canada	2015-11-10	The health of our planet is being compromised. Expedience is over!!
linda lonsdale	Chestmermere, Canada	2015-11-10	I feel that our health is our paramount and they are putting it at risk. Remember sick people can't work and pay taxes!
Robert Adams	North Vancouver, BC, Canada	2015-11-10	Public health before profits!
Thomas Littlefield	Mifflin, PA	2015-11-10	Glyphosate is systemic, it is a poison, It should never be used on food crops. It cannot be washed off and is deadly at extremely low amounts. Also it should not be used on cotton. Since it leaches out when we wear cotton cloths.
Susan Locey	Burnaby, Canada	2015-11-10	I'm signing because I think the burden of proof should lie with the perpetrators who vouch (unscientifically) for glyphosate's harmlessness.

Name	Location	Date	Comment
Shirley Glover	Puce, Canada	2015-11-10	If there is a safer product let's use that.
Les Torok	Aurora, Canada	2015-11-10	I talked to a farmer who showed me how round up and gmo rounded him all right
Melanie Darveau	Cornwall, Canada	2015-11-11	I'm signing because I'm against it
Ivan Wood	Merrickville, Canada	2015-11-11	No product should be approved by the government without public consultation with all the evidence available for scrutaby.
Joni Green	Burnaby, Canada	2015-11-11	It's every persons right to know what they are eating for food, especially if the product at question has controversy surrounding it. Decisions made by greedy, power hungry people from big corporations (read Monsanto, Syrgenta, Bayer etc) does not constitute something is 'safe' to eat. Independent, third party testing with the proper controls is the most unbiased way to prove a hypothesis. PM Trudeau, let's see it in black and white if it is safe to consume Glysophate (which is an antibiotic when you really start doing your homework and all the antibiotic resistant bacteria that has risen since Monsanto has been drenching North America in it)
Alecia Schreyer	Edmonton, Canada	2015-11-11	I'm signing because we do not need to use these harmful chemicals in our environment. But I do not feel that animals should be subject to the testing either. Maybe test the farmers that use them verse the organic farmers that are miles away?
Jane Fong	Hamilton, Canada	2015-11-11	People have the right to know. Especially sick, and people who suffer with an illness, or disease that can worsen with exposure to this.
Christine Barker	Yellowknife, Canada	2015-11-11	Please stop killing life on earth.
Diana Fontaine	Long Beach, CA	2015-11-11	This stuff was never meant to be consumed. It's poison, get real.
Ruby Peters	Cornwall, United Kingdom	2015-11-11	Duh!
curtis roley	Winnipeg, Canada	2015-11-11	i believe its highly toxic
nancy avery	Toronto, Canada	2015-11-11	this needs to be investigated
Ralph Henly	Prince George B C, Canada	2015-11-11	I am very concerned that this chemical being extensively used by the forest industry is one of the main reason for the incredible decline in the moose population in BC
Kim Miskulin	Hillcrest Mines, Canada	2015-11-11	Please don't poison us!
Heather MacLeod	Grand Forks, Canada	2015-11-11	I am signing because we need to know the true impact of this substance. It should be banned if it is found harmful. We need proof that it is ok!
Priscilla Campos	Edmonton, Canada	2015-11-12	We are one.
Arlene Hartley	Cranbrook BC, Canada	2015-11-12	We are in need of change...for better air quality
Justin MacDonald	Mattawa, Canada	2015-11-12	organic and natural is best
jen Martin	Wiarion, Canada	2015-11-12	I want to know it is safe. I am shocked that the government may not have done its due diligence before approving this product. If it has, this information must be made public.
Silva Rehel	Frankville, Canada	2015-11-12	Health, safety and truth in food chain before lies and profits
Richard Baldy	Calgary, Canada	2015-11-12	Integrity
Larry Smokorowski	Toronto, Canada	2015-11-12	It's time the government cared about the welfare of Canadian citizens. Glyphosate was originally developed for chemical treatment of hot water boilers. Let's see the test records
Zoe Couch	North Bay, Canada	2015-11-12	We have a right to know if this product is a threat to our health or environment.
christina brennan	Toronto, Canada	2015-11-12	this is important!

Name	Location	Date	Comment
Monica Hromada	Vancouver, Canada	2015-11-12	The "un"-safety test data of toxic glyphosate is clear, and Canada must act, for our health's sake.
Howard Young	Nanaimo, Canada	2015-11-12	We shouldn't use dangerous chemicals in food production.
Muriel Doris	Chemainus, Canada	2015-11-12	I don't believe that glyphosate has no effect on the health of human beings and other animals. We use an enormous amount -- food crops are designed to tolerate it. It is used as both a herbicide and a desiccant, for some years. If it has been properly tested, it should be relatively easy to put our minds at rest.
eric johnson	Saint Catharines, Canada	2015-11-13	THIS IS CRIMINAL!!!!!!!!!!!!!! https://www.youtube.com/watch?v=JL1pKlnhvg0
Angela Powell	Brockville, Canada	2015-11-13	I am signing because my home now has GMO soybean fields directly beside and behind me as well as across the road. I have 2 children and I do NOT want them to grow up with glyphosate being sprayed all around them - no test have been conducted over a 20 year period to see the long term effects of exposure to humans. The soybean fields and farmers using glyphosate spray have more rights protecting them than my children do. It is sad and pathetic that the Canadian Government is doing NOTHING to protect the health and safety of its children.
Irene Barbe	Sudbury, Canada	2015-11-13	I'm signing because I would like to see the proof that it is safe, not a polatitions for it!
Tom Stevens	Pickering, ON, Canada	2015-11-13	Independent over-sight is expensive - but necessary. We can't rely on obviously conflicted persons conducting the only tests.
laara exsnar	New WESTMINSTER, Canada	2015-11-13	I deserve to live "clean" and safely and so do my grandkids!
Nathalie Bergeron	Montréal, Canada	2015-11-13	humans must respect life
Eleanor Brockenshire	Vancouver, Canada	2015-11-13	I have thyroid nodules and glyphosate are not helping!
James Anderson	Toronto, Canada	2015-11-13	great.. more chemicals. and we wonder why people are dying of cancer in their 20's.
Aaron Curwin	Lloydminster, Canada	2015-11-13	MONSANTO = CRIMINALS
Jonathan Charron	montreal, Canada	2015-11-13	Show us the proof !! We don't believe it !
Carey Gilbertson	Hinton, Canada	2015-11-13	We need to have a safe place to livw
Elena Irlanda	Surrey, Canada	2015-11-13	We have a right to know!
Stuart MacDonald	Kitchener, Canada	2015-11-13	Mr Trudeau: You unmuzzled the scientists, lets keep the science ball rolling!
Linda Garcia	Edmonton, Canada	2015-11-13	We find out too late the damage some chemicals do. So it is imperative we ensure any chemical we use is safe for our food chain.
S. Hunt	Toronto, Canada	2015-11-13	Many Scientists have already deemed Glyphosate as a Cancer causing agent. Monsanto's skills in FDA CDC and lobby will continue to ignore pleas for this ban. Please ban Glyphosate in our foods.
Cory Chetyrbok	Dauphin, Canada	2015-11-13	I live next to a farmed field that sprays this stuff. The tomatoes in the garden die, my child plays on our lawn 20' from the crop.
James Brown	Penticton, Canada	2015-11-13	I believe in reducing or eliminating pesticide use altogether.
Christina Fuoco	Montreal, Canada	2015-11-13	Our bodies are constantly assaulted with unhealthy chemicals, we need to avoid what we can.
jean rousseau	la baie, Canada	2015-11-13	je veux protéger l'environnement

Grandmaison claud	Montréal, Canada	2015-11-13	C'est mon droit de savoir à titre de citoyen payeur de taxes dans un état de droit démocratique
Danielle Caron	Kamouraska, Canada	2015-11-13	It's more than time to wake up.
Bill Kinal	St-Lazare, Canada	2015-11-13	Canadians want to know the transparent truth about using Roundup on food crops.
Sandra Sutherland	Township of Langley, Canada	2015-11-13	Our safety is paramount and proper safety test records should be readily made available to Cdn. public.
Leslie Leong	Whitehorse, Canada	2015-11-13	because we, as the public, have the right to know.
Dante Scameroni	Brampton, Canada	2015-11-13	It is important to understand the true depth of this chemical
Pat Morrison	Winlaw, Canada	2015-11-13	Important for the health of all citizens....since we all eat food !
Linda Smallwood	Moose Jaw, Saskatchewan, Canada	2015-11-13	There are plenty of unsafe herbicides in use. Please find out whether this one is safe before continuing to use it. Our health depends upon it.
Giselle Bali	Calgary, Canada	2015-11-13	I'm signing because pepticide is not safe for humans
Sandra Furlong	Toronto, Canada	2015-11-13	I believe this herbicide is dangerous to our health & well being.
Gordon Grant	Calgary, Canada	2015-11-13	Many cancers are caused by these applications.
Raymond Ponticelli	Gatineau, Canada	2015-11-13	Ray ponticelli
Jim Swettenham	Winnipeg, Canada	2015-11-13	The fewer chemicals we have in our lives the better off we will all be...
Brent Caughy	Mission B.C., Canada	2015-11-13	As soon as I saw the name Monsanto I signed this petition.
Dawna Lynn	Lancaster Park, Canada	2015-11-13	I want to know what's in my diet is isn't going to add to my risks of cancers
Rita Pollock	Coquitlam, Canada	2015-11-13	All testing should be done by independent third parties and not the companies that produce this product or any other.
Frédérique Tardif	BaIE D'URFÉ, Canada	2015-11-13	for my child tomorrow
Jennifer Johnson	Toronto, Canada	2015-11-13	The public would like access to this information.
Amir Abbas Shahvar	Toronto, Canada	2015-11-13	I am signing this petition because I believe people have the right to know.
irene quirion	Hinchinbrooke, Canada	2015-11-13	I'm signing because I care about the food I eat and want to be sure it is safe.
Elizabeth Abbott	Toronto, Canada	2015-11-13	The federal muzzle on scientists and their science is off! And now please prove that glyphosate is safe. No, not please: rather, you must must must prove that glyphosate is safe and show Canadians your proof.
Martha McGachie	Victoria, BC, Canada	2015-11-13	The test by Monsanto is not valid because they are the producer of this poison. Besides, what are the effects on people after decades of use? No wonder we see so much autism, cancer and many other fatal diseases today. NO to glyphosate!!
Christopher MacKay	Bakers Settlement, Canada	2015-11-13	This chemical isn't safe and not in the best interest of human beings, animal and plant life.
Kathleen McHugh	Russell, Ontario, Canada	2015-11-13	The entire approval process is flawed. Why would you put the fox in charge of the chicken coop?
Richard Smith	Niagara Falls, Canada	2015-11-13	I believe it is essential that we have clear and compelling data before any of these types of products being introduced into the food chain.
Tiffany Webb	Lawrencetown, Canada	2015-11-13	I believe we have the right to know exactly what's in our food.
Marie-Paule Avanthay	Winnipeg, Canada	2015-11-13	We should know exactly what is going on

Name	Location	Date	Comment
Brad Zemla	Selkirk, Canada	2015-11-13	It's no longer a secret that Monsanto has knowingly incorporated Glyphosates into our food supply, and it's time for the Minister of Health review this data, then cross reference it with real world statistics. European nations have already made the move to stop this as well as banning GMO. It's time for Canada to really stand strong and free by taking the first step to ban Glyphosates.
Bill Brock	Ontario, Canada	2015-11-13	We want to know!
Javier Alvarez	Toronto, Canada	2015-11-13	Because we have a right to know! If I were to poison someone, I would think and expect to be held accountable for my actions. By the same action it should be no different for the government. If anything they should be held to a higher standard because a whole country is trusting them with their safety and well being. Come clean now while we still have a way to reverse the effects of certain chemicals in our bodies and find other alternatives.
Ron Bolin	Nanaimo, Canada	2015-11-13	The public and I have the right to know what is being dispersed into our environment by corporations.
Joan Hodgson	Winnipeg, Canada	2015-11-13	I have grandchildren living in BC
jeff hood	Wendake, Canada	2015-11-13	We need a cleaner planet !
Byken Vong	Surrey, Canada	2015-11-13	The public should have the right to know for their own safety and everyone else's and make their own decisions.
Wendy Hoernig	Goderich, Canada	2015-11-13	I believe that a product should be proven safe beyond any doubt before it its use is permitted. We humans have learned to many tragic lessons it when products were not properly tested. think thalidomide! Take the time and spend the money t test it properly.
Judith Mackenzie	Kingston, Ontario, Canada	2015-11-13	Health Canada has an obligation to protect Canadians, and the environment, from harmful substances.
Nic DeGama-Blanchet	Calgary, Canada	2015-11-13	We are what we eat. It is the right of every Canadian to be properly informed about what is in or on their food.
Malinda Sentara	Co gp no1, Canada	2015-11-13	If in doubt, do without! At the very least I have the RIGHT TO KNOW!
Ken Thompson	Goulais River, Canada	2015-11-13	I care
Frank Garnish	Nanaimo, Canada	2015-11-13	Independent testing done be a trusted lab must be paid for by the applicant - not the Canadian public.
Matt Blackman	Garibaldi Highlands, Canada	2015-11-13	The evidence is growing that glyphosate based pesticides cause a growing list of health problems. It was rules as a probably carcinogenic by the World Health Org. Health Canada says it's safe? This is ridiculous!
David Lewis	Chilliwack, Canada	2015-11-13	Negative unintended consequences are always in play.
penny bouvier	timmins, Canada	2015-11-13	I want my family to be safe!
caroline yates	preston, United Kingdom	2015-11-13	Of increasing incidences of Chrohns and ulcerative colitis in Canada and no one can tell the cause so Monsanto what are you going to do about that?
David Howe	Val-des-Monts, Canada	2015-11-13	I have always questioned how harmful to humans roundup is.
Jordi Fisher	Crofton, Canada	2015-11-13	Science and policy making should be transparent. Especially in the case of food security.
Chantal Malette	Saint-Lazare, Canada	2015-11-13	Chantal Malette

Name	Location	Date	Comment
Michel Duhaime	Cumberland, Canada	2015-11-13	There is much evidence that it is actually glyphosphate (aka Roundup) which is the source of the health issues associated with GMO crops, not so much the genetic modifications themselves, although alarming enough. Roundup used to be a descaling agent. Its very success was based on its unequaled ability to bind to any metal element. It does the same in our body as it does in a fouled-up water line - it binds to the metal elements in our body and leads to all kinds of dysfunction in our cells. Please stop the madness. If it can be proven to be safe in our body, and even our environment, then ban it, like all those other countries who have the strength as sovereign to resist and indeed push back on the insidious invasion of corporate greed.
Dorothy Roginska	Canmore, Canada	2015-11-13	Health is very important
Hillary Rockvam	Kamloops, Canada	2015-11-13	I don't trust anything that Monsanto does. They are all about profits at the expense of the health of people.
Jacinthe Genereux	Montréal, Canada	2015-11-13	Because we need to know that our government cares once again.
sonam samchok	Calgary, Canada	2015-11-13	This affects all of us!
esther etchells	Waterloo, Canada	2015-11-13	I'm interested not only in my personal health but that of my granddaughter and future generations. I want to know without a shadow of a doubt that glyphosate are actually safe and actually helpful.
Jewel Brown	Calgary, Canada	2015-11-13	I'm signing because these are the important matters our people must be thinking of!! These are the things that are potentially killing us, our babies, animals and mostly the earth. Thank you for creating this petition. I support you all the way!
A. Louise LeBlanc	Ponoka, Canada	2015-11-13	Agree that we should know if what we are eating is safe and that it should also be a required to label GMO foods....we have the right to know if Glyphosates are harming the environment and the other living things in it as well as ourself?
Gordon Neate	Fort Langley, Canada	2015-11-13	I hope this new Liberal government will do the right thing.
Mark Hazell	Duncan, Canada	2015-11-13	I'm signing because there is ample evidence to question the intensive use of glyphosate, and it is simply irresponsible to ignore this evidence.
Robert Johnston	Calgary, Canada	2015-11-13	Glyphosate has been proven to be carcinogenic and is a chelator (removes minerals). Traces of it remain in food. The government needs to see all Monsanto information on it as well as other studies, and reject its use. Obviously Monsanto cannot be trusted to deliver complete and factual information on glyphosate (or GMO crops and systems). Monsanto is using the agriculture system as a corporate welfare scam, its entire business plan and range of products and activities is outside wise and ethical behavior.
carol beckmann	niagara on the lake, Canada	2015-11-13	The Harper government was so unethical about scientific matters - lets get the facts.
Dave Cantlon	The Pas, Canada	2015-11-13	I want our food supply to be safe and healthy.
Sophie Marier	Mascouche, Canada	2015-11-13	Il est plus que temps d'en finir avec ce produit! On est en retard par rapport à tellement de pays! Et puis il est aussi temps d'étiqueter les OGM de Monsanto pour qu'enfin nous puissions faire des choix éclairés
patricia beatty	toronto, Canada	2015-11-13	I can't even stand testing on animals seems totally immoral to me let alone this darn herbicide Lets get rid of them both while we're at it!!
Lynn McLean	Winnipeg, Canada	2015-11-13	Often we are the victims of toxins and carcinogens which get approved by our government without independent and scientific trials. (not the pseudo studies that are corporate funded). There are many examples - from thalidomide to lead based paint to herbicides and pesticides to numerous plastic products. Looking forward to More rigorous and independent studies under our new federal government.

Name	Location	Date	Comment
anne-marie kirkoryan	oakville, ontario, Canada	2015-11-13	I want the government to be honest with us. if it is dangerous for our health. tell it clearly!
Darcy Mclenaghan	Toronto, Canada	2015-11-13	It's time to stop giving potentially deadly chemicals and their makers the benefit of the doubt.
C Cotran	Dollard-des-Ormeaux, Canada	2015-11-13	Because it's 2015! Because it's high time we adopted healthy agricultural practices for all living things and for our living planet!!!
Ralph Hubert	Winnipeg, Canada	2015-11-13	Hiding the test data is unethical and reflects the last governments closed and secretive nature.
victoria Frank	Hannon, Canada	2015-11-13	Scientists are finally being unmuzzled. So, let's get this right.
Stephanie schmidt	Calgary, Canada	2015-11-13	Because I care about Canadians health more then our GDP
Lisa Young	Calgary, Canada	2015-11-13	Every person has the right to this information. The government is supposed to be representing us, not keeping information hidden.
maryse piche	rouyn noranda, Canada	2015-11-13	notre santé est tres précaire il y a beaucoup plus de cancer on ne respire plus la bonne air ce n'est que des poluant
Sylvia Gumpesberger	Toronto, Canada	2015-11-13	Please be more transparent and vigilant with respect to introducing glyphosate into the food system.
Sheila Asdal	Hope, Canada	2015-11-13	I am concerned because glyphosate is being sprayed in an area extending from the Nesakwatch River drainage in the south to the Nahatlatch River drainage in the north and from the Pitt River in the west to the Skagit River in the east. Besides affecting watersheds, streams, rivers & wildlife, there are towns, communities & numerous dwellings scattered throughout this area. Glyphosate must be proven safe by independent, non-affiliated scientists before any use is allowed.
Karen Page	Peterborough, Canada	2015-11-13	I'm concerned about the actual effects of this chemical on humans, and all other living creatures, as well as it's impact on our food supply and the environment in general. Please show us the data which suggest it's safety, and put our minds at ease, or ban it's use entirely. Thank you. KMP
Stacy Avery	Hamilton, Canada	2015-11-13	Blindly using a chemical that we are suspicious of its effect on wildlife and polinators should not be used or approved until current studies are done demonstrating it's safety. These studies should be made available to the public to scrutinize the results.
Anne Saltel	Sioux Lookout, Canada	2015-11-13	I believe our new government puts more faith in science.
Ben Lewis	Lethbridge, Canada	2015-11-13	Glyphosate is a very common herbicide. If it is not safe we MUST know about it.
Gudrun O'Flynn	Niagara Falls, Canada	2015-11-13	We have a right to know!!
Harold Bell	Ft at John, Canada	2015-11-13	Because I believe it to be unsafe for living lives
George Laceby	North York, Canada	2015-11-13	We need to know the truth. Please sign this petition.
Thomas Falkenham	Halifax, Canada	2015-11-13	I care about the health of the people !
David Longworth	Ottawa, Canada	2015-11-13	I'm signing because policy must be evidence-based and the new government is committed to that principle.
Lynne Bailey	Niagara Falls, Canada	2015-11-13	we need transparency in all things related to the production of all food.
Megan and Douglas Roberts	Waterloo, Canada	2015-11-13	Humans would be much healthier without pesticides such as glyphosate.
John Bismeyer	Nanaimo, Canada	2015-11-13	I use it and I want to know.

Name	Location	Date	Comment
Tinesja Vanel	North Vancouver, Canada	2015-11-13	I am concerned for the safety of our children. It is not easy to avoid everything that has been sprayed with glyphosate as it is hidden in many food products. Our children were sickish until we decided to only buy organic and avoid anything that could have hidden glyphosate in it. Our pantry looks very scarce, even though the content is of much higher cost than a regular household pantry with kids. Who of the general population is willing to go through such trouble?
may peters	prescott, Canada	2015-11-13	We have the right to know .
Angela Latham	Vancouver, Canada	2015-11-13	Don't kill us!
Anne MacLean	Richmond, Canada	2015-11-13	It's about time that government began protecting us and future generations from harmful elements created by corporations only interested in making more money. It's time for a paradigm shift where our first concern is environmental sustainability and not corporate profits.
Janice Morissette	Dunrobin, Canada	2015-11-13	The research results need to be transparent to the public. Many of us have a background that will allow us to interpret the data for ourselves. It's important to set a precedent for transparency in science and research, especially since that's one of the platforms that the new government advocated!
louise kahler	gimli, Canada	2015-11-13	We need to know what is going in to our food now
Mark Hermary	Kamloops, Canada	2015-11-13	It is time! Yes - the time has come to put this on the table - and then boot it out the door! Glyphosate and GMOs are not safe! We do not want them and we never did. Stop their use across Canada immediately!
Brian Ferguson	SIDNEY, Canada	2015-11-13	I would prefer that Canadian citizens are no longer treated as lab rats, but are subjected only to compounds proven safe with long term, government funded scientific testing, with all results available publicly.
Peter Ackermann	Thunder Bay, Canada	2015-11-13	This chemical's effects need to be transparently presented to the public, who can then decide if they want to put it into their bodies. I do not approve of the previous Minister of Health's handling of this matter (whether he didn't see the report, or let a third party speak for her...)
Uwe Mummenhoff	Vancouver, Canada	2015-11-13	We must ensure that what we are putting in the air and on the ground does not compromise our environment.
ancient clown	Fulford Harbour, Canada	2015-11-13	Unfortunately, Government officials make decisions based on fear and greed and the public deserves better. your humble servant, ancient clown
Janina Staniszewski	Toronto, Canada	2015-11-13	If there is nothing to hide, make it public. We all want to know we're safe and healthy.
terry capener	Pierrefonds, Canada	2015-11-13	We can never be too careful about chemical crop spraying
Leslie Bond	Ottawa, Canada	2015-11-13	This is a reasonable request and needs to be done to protect all life.
Rémy Legault	sainte-marthe-sur-le-lac, Canada	2015-11-13	Genocide should not be the solution adopted to face every problems.
Andrea Wiebe	Winnipeg, Canada	2015-11-13	I want the public to know the dangers of glyphosate and change mass agriculture procedures.
Peter Dmytrasz	Mississauga, ON, Canada	2015-11-13	Canada doesn't have the financial resources to do all of their own testing and may rely on testing done by 'other' nations' testing. However the 'others' may be biased towards influential powerful and self-serving lobbies.
M. Denise Leschart	Whitehorse, Canada	2015-11-13	Without our health, we don't have much. Our Prime Minister should care about our health.

Name	Location	Date	Comment
Jim Safianuk	Collingwood, Canada	2015-11-13	Glyphosate is chronically poisonous to the body when consumed over time. The Ministry of Health has morphed into a useless agency that does nothing to protect our health. It is time for many changes in this country. One of the first changes is to shut this corrupt to the core outfit down and start fresh with a new entity whose prime directive is to protect our health at all costs.
Alan Baigent	Thamesford, Canada	2015-11-13	I believe the agriculture sector is relying too heavily on chemicals without regard for the total effect on the health of all insects, birds, animals, not to mention humans!!
Cathy Morvai	Oshawa, Canada	2015-11-13	Cancer in my family
Khaled Taliani	Edmonton, Canada	2015-11-13	There is no reason not to.
Robert Toth	Kitchener, Canada	2015-11-13	There care no independent long term studies proving it's safety and IARC has classified it a probable carcinogen
Katherine Dore	London, Canada	2015-11-13	I worry for my grandchildren
Michele Barry	Calgary, Canada	2015-11-13	I am a Liberal party member. I would like to see everything Mr Harper has done in last 8 years behind closed doors reviewed. Including the TPP... Witch I am against
Julia Greenbaum	Toronto, Canada	2015-11-13	Time to prove this administration's decisions are more evidence based and grounded in science, especially when it comes to the population's health.
Diane Pleasance	Williams Lake, Canada	2015-11-13	I believe we use far too much herbicide & pesticide product in this day and age of increasing cancer and autism
Ralph Jones	Milton, Ontario, Canada	2015-11-13	ALL GMOs should also be tested on a LONG TERM basis!!!
Dan Lafreniere	St-Lambert, Canada	2015-11-13	Substances must be banned based on scientific EVIDENCE not Big Ag marketing!
David Krysko	Toronto, Canada	2015-11-13	I believe the new government can do a better job, and that they actually care about what is best for Canadians. Lets see how well they do...
Richard Shillitto	Kaleden,, Canada	2015-11-13	I don't trust anything Monsanto does, or is a party to.
William Marshall	Port Coquitlam, Canada	2015-11-13	More testing=better understanding.
Sam Lashuk	Salmon Arm, Canada	2015-11-13	I always worry about man made stuff for profit and just tells us its safe
Heather Caldwell	Coalhurst, AB., Canada	2015-11-13	I'm signing this because I am worried about our future, our children, our grandchildren. With every decision we make that favours the convenience or cost savings of business over our health and sustainability we are failing our children. We can still have all the resources we need. We just need to put health first. This is not beyond our control as citizens. It should be a personal right and responsibility to ensure policy is smart and balanced.
Derek Loewen	Winkler, Canada	2015-11-13	We must put safety over profit for the sake of health.
Casey Boroski	Windsor, Canada	2015-11-13	I want my food to be safe.
sonia ibanez	montreal, Canada	2015-11-13	Please
Katrina Erdos	New Westminster, Canada	2015-11-13	I believe that science should be used to guide regulatory decisions.
Doug Joyce	Surrey, B.C., Canada	2015-11-13	I don't believe there is such a thing as a safe chemical herbicide.
Jim Oei	Surrey, Canada	2015-11-13	I'm signing because I believe our food should be safe
faziah Gamaz	port coquitlam, Canada	2015-11-13	We are already sick enough so stop polluting our food
Kate LeBlanc	New Richmond QC, Canada	2015-11-13	The years of sliencing any data coming from our scientists have left this country's citizens needing lots of things double checked. The controversy on this chemical from other countries is very disturbing to me so please double check this one please.

Name	Location	Date	Comment
Robb Huff	Petrolia, Canada	2015-11-13	I am signing because it is the right thing to do, BUT, the liberals will find willing people (eg. Peter Mansbridge)who will pooh pooh it to the public
Steve Prosser	Willow Beach, Canada	2015-11-13	Chemical companies can't be trusted to tell us what is safe - they only care about profit!
Lois Ireland	Ladysmith, Canada	2015-11-13	THINK! Just think about all the stuff they spray on our food ! Do you ever wonder why there is a health epidemic ??? THINK!
Sandra Casey	Port Perry, Canada	2015-11-13	we have enough poison cancer causing junk in our food.
Bernard Walke	Ottawa, Canada	2015-11-13	Glyphosate has anti microbial properties that destroy valuable soil micro-organisms
Mireille Ouellet	Lévis, Canada	2015-11-13	I am a nutritionist and I am very concern about health and nutrition.
Laureen McMullan	Calgary, Canada	2015-11-13	These herbicides and pesticides have a documented link to children born with autism. A study in the USA tracked pregnant women exposed to Monsanto crop sprayi g and the very high incidence of their children born with autism throughout the USA!
Yigal Rachman	Calgary, Canada	2015-11-13	It is government's job to create and enforce regulations to ensure public safety
Pat Masci	Newmarket, Canada	2015-11-13	We need better oversight on the chemical market & we need to expose Monsanto for their corrupt business practices.
barb robins	Kingston, Canada	2015-11-13	Canadians need greater protection from health hazards ... ethical, transparent research is necessary. Barb Robins
debra miltimore	sherwood park, Canada	2015-11-13	I care about our food source and the health of all canadians The high amount of childhood cancers and diseases like HAAD and Autism is occurring because in part to the amount of chemicals being pumped into our food sources We get told that it is safe and only used to regulation BUT it seems to me that nobody cares that we the consumer may be getting triple amounts because we are consuming products ABC that may be legal individually but combined are toxic We need to have more control and stop gringo controlled by big businrss
Michele Vindum	Toronto, Canada	2015-11-13	So important since the WHO has come out to state there is a direct link to glyphosate and cancer.
Mary-Ann Jelonek	Toronto, Canada	2015-11-13	It's time that the citizens of our country are looked after, instead of big business. People matter, money - not so much!
maurice shapiro	Powell River, Canada	2015-11-13	or in addition have health Canada conduct its own research on glyphosates.
tom toth	Kitchener, Canada	2015-11-13	Paulette Toth, Kitchener
fern Walker	Sechelt, Canada	2015-11-13	The precautionary principle needs to be addressed.
Kathleen Schmitt	Burnaby, Canada	2015-11-13	I'm signing because we want integrity from our Canadian government especially in regard to issues of health.
Linda Whitefoot	Listowel, Canada	2015-11-13	I'm signing because I had my eyes opened to the toxicity of glyphosate from expert Dr. Stephanie Seneff from David Asprey's Podcast, #238. Take the time to listen http://www.podcastchart.com/podcasts/bulletproof-radio/episodes/dr-stephanie-seneff-glyphosate-toxicity-lowering-cholesterol-getting-off-statins-238

Name	Location	Date	Comment
Gudrun Fritz	Winnipeg, Canada	2015-11-13	I am concerned about the level of pollutants in our environment and how they may contribute to higher cancer rates by way of stressing and overloading our immune systems.
Kristine Eaton	Edmonton, Canada	2015-11-13	This is a matter of huge importance to a "environmentally" focused liberal government. Bring back sustainability and natural food.... Never mind killing other sources of our economy in depressed times.
Roger Hickson	Penticton, Canada	2015-11-13	Monsanto pretends to be creating GMO's to feed the world, when its obvious it is about control and profits. The World Health Organization says glyphosate is a carcinogen. That should be enough to remove this product from our store shelves and our farmers fields!
William Lepard	Richmond, Canada	2015-11-13	Glyphosate is everywhere, in everything, all on the name of maximum profit for corporate industrial food production. It is slowly killing all of us.
Robert Hand	Toronto, Canada	2015-11-13	Ethanol amine Salt causes skin and eye irritation. Mono ammonium can damage water sources. Dimethylamine salt causes skin and eye irritation, and have no information on toxicity or causes to water. All these suggest to be not inhaled. Also 50mg/kg killed 50% of all animals. These chemical are in Glyphosate. In 2007 180 million pounds was used for agriculture, 8 million pounds was used in your home gardens, and the Government used 15 million pounds for industry and commercial in the United States alone. Everyone at some point or other is getting exposed to levels above the safe zone. And you don't need a rocket science degree to figure that out.
Eileen McNeil	Calgary, Canada	2015-11-13	I am deeply concerned about the poisons and toxins that our foods and consequently our lives that are impacted by GMO's.
Gale Perry White	Niagara Falls, ON, Canada	2015-11-13	We should know if what we are spraying on our food is something beneficial or a deadly poison !
H Stewart	Merrickville, Canada	2015-11-13	It's good to deal with the facts. Let's see them.
Sandra Martin	Christina Lake, Canada	2015-11-13	I will NEVER eat foods grown in glyphosate!
Leanne Milne	Edmonton, Canada	2015-11-13	The pull of Monsanto frightens me and feel we need the government to protect they people they represent first and foremost.
Julie Quevillon	Toronto, Canada	2015-11-13	We have the right to know what is in our food.
Patrick Ards	Grande Prairie, Canada	2015-11-13	We are already consuming far too many unsafe chemicals in our food..
Janet Calcaterra	North Bay, ON, Canada	2015-11-13	Untested agricultural herbicides or insecticides can cause irreparable harm to people and animals who come in contact with the spray. Please disclose any safety test records regarding Glyphosate or do a study on its safety for humans and animals.
Moyra Mulholland	Gabriola, Canada	2015-11-13	A test done by Monsanto? Umm, can the be true and if so safe? I fear I have no trust in Monsanto.
Jan Meadows	Bamfield, Canada	2015-11-13	glyphosate is definitely not safe.
Nadine Chalifoux	Edmonton, Canada	2015-11-13	I'm signing because all companies and authorities should be open and held accountable for their actions, creations, and decisions to the people.
Debbie White	Trenton, Canada	2015-11-13	We have the right to know!
James Raines	Uxbridge, Canada	2015-11-13	PLEASE DO NOT POISON OUR PLANET.
Constance Cuthbert	Kingston, Canada	2015-11-13	It's time to focus on an individual's rights to a healthy life and not how a massive company can make more money using short cuts
Krista King	Winnipeg, Canada	2015-11-13	I'm signing because I don't want my child to grow up in a world where finding clean, real food is nearly impossible!

Name	Location	Date	Comment
Jane Iverson	Britannia Beach, Canada	2015-11-13	In my neighbourhood the Squamish Lillooet Regional District has approved and assisted with funding for Glyphosate to be applied to Japanese knotweed while ignoring the facts about this noxious and toxic herbicide. The Community seem to have turned a blind eye and need to be better educated about its negative health effects on our society.
Lisa Lauchlan	Calgary, Canada	2015-11-13	I want Canadians to be healthier in the next decade
Sauvons Nymous	Lévis, Canada	2015-11-13	Monsanto ou les profanateurs ! C'est une détail de nous empoisonner quand cette même monstrueuse compagnie a aussi répandu l'Agent Orange !
Sauvons Nymous	Lévis, Canada	2015-11-13	L'Agent Orange aussi c'est bon pour la santé ! Bande de débiles !
Carol Sonnenberg	Calgary, Canada	2015-11-13	I'm not convinced that glyphosate is harmless.
David Kirkpatrick	Owen Sound, Canada	2015-11-13	This is an opportunity for the Trudeau government to prove its claims of open discussion based on scientific evidence.
Steve Kaposy	Toronto, Canada	2015-11-13	I care about the health of our children.
Bev Heilbron	Oakville, Canada	2015-11-13	We pay our government to check all the chemicals put on our food and agree they are safe. Better still, don't put it on and lets be healthier in the long run.
William (Bud) Hodgson	Lethbridge, Canada	2015-11-13	Chemicals should not be in the foods we eat. Pesticides and Insecticides are a health hazard to everyone.
Don Slavens	Langley, Canada	2015-11-13	Glyphosate is totally unsafe!
ELIZABETH LUKOSIUS	Hamilton, Canada	2015-11-13	Companies like Monsanto have been proven to operate in questionable product testing to the detriment of the environment and all that lives within it.
Keith Park	Calgary AB, Canada	2015-11-13	Our food supply is essential. We must make sure anything we use with it will not have long term consequences.
Wilma Fraser	Toronto ON, Canada	2015-11-13	We need to know the truth!
Joel Lareau	Regina, Canada	2015-11-13	I don't trust Monsanto. Please look at Glyphosate for yourselves and figure out if it's worth approving.
Garnet Diaz	Carlisle, Canada	2015-11-13	Monsanto and others in similar businesses have been spending this dangerous, deadly substance for way too long,...time to Ban it from Canada, for the health of the Nation.
Terry Miller	Vancouver, Canada	2015-11-13	Evidence based decisions please.
Chuck Reid	London, Canada	2015-11-13	it's time we fight back against the fascism growing rapidly in the Western Democracies. BigAG is a perfect example and Glyphosate is the poster child.
John Gaul	Sudbury, Canada	2015-11-13	It is obvious over decades of experience that corporate interests often trumps the public interest even in democracies. Think tobacco, climate change denials, the DDT controversy and other numerous examples of corporations sometimes with the knowledge and aid of governments suppressing information to the public that might effect their profits. This may very well be another example to add to that long list.
Beverley Trounce	Port McNicoll, Canada	2015-11-13	It's time for action on this issue.
Eric Auliff	Peterborough, Ont., Canada	2015-11-13	It is extremely important that we are sure that this product is safe and that no ill effects will occur in the future as a result of its use.
Shirley Leduc	Fraserville,, Canada	2015-11-13	This is a health issue for all.
Laura Tapley	Mannville, Canada	2015-11-13	It's vitally important that we keep our bodies, insects and our soil healthy.. and Glyphosate will not do anything except poison everything.
Deborah Scott	Prince George BC, Canada	2015-11-13	it's relevent to us all and the right thing to do

Name	Location	Date	Comment
Thomas Kitchen	Langley, Canada	2015-11-13	We need bees to have a healthy Ecosystem. Many people have developed food sensitivities since the inception of Glyphosate. Show us the safety data, please.
Tatiana Stergiou	Toronto,, Canada	2015-11-13	We don't want dangerous chemicals in our food!! Do not poison us with them!!
Elizabeth Dorner	Chatham, Ontario, Canada	2015-11-13	our health is of utmost importance and the government should be our protector
Morgan Owen	Cranbrook, Canada	2015-11-13	I need to know that my food is safe
Debra Contreras	Qualicum Beach, Canada	2015-11-13	I promote the use of biological methods to grow crops. Pesticides of all sorts are not needed! Ever.
andy cottrell	Toronto, Canada	2015-11-13	To continue the use of glyphosate under the guise of self-regulation is simply madness. Suspend further use until a reviewed and regulated result allows. <{ ;
Ron Gee	Coldbrook, Canada	2015-11-13	I believe all types of pesticides, whether man made, (or "natural" when used outside their usual environs), must be tested and the results of those tests made available to the public.
Betty Chanyi	Port Rowan, Canada	2015-11-13	The scientific data needs to be shared with the public. Please help us discover that information.
Carole Lyon	windsor, Canada	2015-11-13	I believe we all have a right to know what's in our food, where its from, is it GMO. Good food keeps a nation strong. I don't personaly, want to eat poison through food. Shouldn't a government protect its people and safeguard them from harm. Don't we as people safeguard you. We have enough things to worry about, is it necessary to make food one of them? Thank you for your time
Guy St Hilaire	Ste Agathe, Canada	2015-11-13	I am signing because for too long ,the public have been told that glyphosate is not harmful for human beings.Now that we have a new government comitted to transparency it is incumbent upon them to walk the talk as we say.I am pleading with our government to do so.
Sidney Thompson	Smithville, Ontario, Canada	2015-11-13	Food safety for Canadians and indeed anywhere that we export our agricultural products to - is of paramount importance. Rules and standards must be stringently applied to industries that are often too focused on profit over human safety.
Susan Corbin	Halifax, Canada	2015-11-13	So much harm to our health is perpetrated by chemical sprays - it is not worth it in the long run!
Rose McEachreon	Minden, Ontario, Canada	2015-11-13	The use and overuse of herbicides is killing us all slowly.
Jill Meendering-Smith	St Thomas, Canada	2015-11-13	I'm so angry that we continue to allow the poisoning of our food. Of course we can show reports that claim safety but let's seriously look at who funds these scientists research. It's time for honesty and transparency. Health not greed should dictate our food sources.
Charlotte Smith	Fort Erie, Canada	2015-11-13	I believe the Canadian and U.S. governments need to start using "natural" methods of farming by looking to the past when chemicals were not used. I do not want to eat food sprayed with chemicals that have been proven to cause cancers. The governments have made mistakes in overlooking what nature created to deal with what the chemicals are used for but creating bigger, life-threatening problems. Please get rid of chemicals in our food production. Less cancer, less medical costs.
Janis Ellis-White	North Vancouver, BC, Canada	2015-11-13	I hate the use of chemicals.

Name	Location	Date	Comment
William Prestwich	Dundas, Canada	2015-11-13	The CBC is showing how, under the Harper government Health Canada has been forced to overlook companies misdoings.
Marie McLean	Saint Catharines, Canada	2015-11-13	Seriously, would you feed your baby that crap? Then why should adults be expected to eat it?
Scott Alic	Toronto, Canada	2015-11-13	I believe in transparency, in holding corporations accountable for their actions, in the primacy of valid scientific research over ideology, and in people before profit.
malcolm maclennan	Halifax, Canada	2015-11-13	I care about Canadian's health
Laureen Johnson	Duncan, Canada	2015-11-13	I am tired of large corporations deciding what we eat and what is considered safe based on flawed research.
Ashley brown	Niagara Falls, Canada	2015-11-13	we need to be test the substances being used on our food. It makes no sense to trust the results of so called "testing" done by invested companies such as Monsanto! They have proven time and again that they are not accountable and care only of profit ,and nothing, for the wellbeing of all that are basically forced to be subjected to their Franken products
germaine fryc	pembroke, Canada	2015-11-13	our air and bodies can only handle so much.
Tricia Schaefer	Rosburn, Canada	2015-11-13	I have MANY health problems that cannot be traced to any one particular allergy; only an ambiguous "sensitivity" to certain foods. Through much research and digging, I've discovered that numerous conditions (like mine as well as many others) are linked to the use of glyphosate and other chemicals, which is widespread in this modern era of corporate farming. And even though it is an additive to food while it's being grown, it is not a requirement for this and other chemicals to be labelled so that we know beyond a doubt what we are consuming! This is wrong! It's an abuse of innocent consumers who are perhaps too trusting in their government to protect them! In addition to this, there has NEVER been irrefutable evidence that glyphosate is SAFE for human consumption! Without this kind of proof, how can an entire nation be forced to eat food grown with this potentially dangerous chemical that has recently actually been proven to be a probable carcinogen? Please give Canadians an irrefutable reason to trust its government again by testing these dangerous chemicals and if it should turn out to be as dangerous as we all fear, ban it's use the way many countries in Europe and elsewhere around the world have!
Connie Quin-Vaillant	Sarnia, Canada	2015-11-13	I believe it is important to all Canadians to know the impact of glyphosate on human health.
Cameron Rice	Barrie, Canada	2015-11-13	I will not go into the already known and proven detrimental effects of Glyphosate especially against those with health problems or learning/developmental disabilities because I would be here for a long time. I will say that I will refuse to buy any product I even *suspect* has glyphosate in it and I will recommend any person I advise on health matters to do the same. Have a nice day.
Jennifer Vipond	The Blue Mountains, Canada	2015-11-13	I am signing this because anything that has to do with Monsanto must be scrutinized.
Corinne Radow	Montreal, Canada	2015-11-13	I'm sick of government hiding all the pollution we consume and inhale.
rich saville	abbotsford, Canada	2015-11-13	TEST it on Stephen Harper since he didn't want scientists working for our safety
Liz Ciconte	Mississauga, Canada	2015-11-13	Our food needs to be 100% safe! Stop putting toxins in Canadian foods!
Jocelyn Laveck	Whitehorse, Canada	2015-11-13	More objective testing should be done on this chemical.

Name	Location	Date	Comment
Jennifer Callaghan	Pickering, Canada	2015-11-13	I whole heartedly agree! And if our prime minister is as concerned about his public as he says he is, something will be done about this!
Bonnie Czarnecki	Parry sound, Canada	2015-11-13	We need to know the effects of these herbicides on our environment, animals and humans .an independent study should be made available
YVES DUTEAU	LACOLLE, Canada	2015-11-13	le publique est en droit de savoir si ce produit est dangereux pour l'être humain, l'environnement et pour la chaine alimentaire.
Sharon Murray	St. Albert, Canada	2015-11-13	I'm signing this because if humanity doesn't stop all the toxins we are exposed to while being told they are safe, the scale will tip to the point of no return.
Fabian Piersanti	Bolton, Ontario, Canada	2015-11-13	I am hoping that the caring and ethical persona that Prime Minister Trudeau portrays is for real and that he will take the steps to start protecting Canadians from harmful chemicals being used on our food and other products.
Jamie Bowman	Comox, Canada	2015-11-13	Show you are with us the people, not with the chemical companies
Mike Marion	Winnipeg, Canada	2015-11-13	Roundup is a killer of humans as well.
Sam Warning	Vernon BC, Canada	2015-11-13	My family and I eat food, in 2015.
Rosanne Chayer	Pointe-Fortune, Canada	2015-11-13	We do not need more junk in our world
J Sehelgen	Kelowna, Canada	2015-11-13	We need openness on Scientific tests and results, especially how it affects essential bees and other insects. No cloak and dagger stuff anymore.
Jolanta Lwowska	Oakville, Canada	2015-11-13	Any data concerning public safety should be disclosed.
JULIE WENZEL	Ottawa, Canada	2015-11-13	The Conservatives would looking to conserve anything, not even our independence, let alone our health!
Betty-Ann Crossman	Brandon, Canada	2015-11-13	I have a right to know.
peter taenzer	penticton, Canada	2015-11-13	we need the truth
Linda Laepple	Petersburg, Canada	2015-11-13	I am a farmer and manage well to farm without glyphosate. Everyone can do it.
Maureen Raymond	Chilliwack, Canada	2015-11-13	Monsanto is really' MONSTER 'and its time to rid the world of this monster
Barbara Smallwood	Naramata, BC, Canada	2015-11-13	I'm signing this petition because I and my family and friends could be eating unsafe, contaminated foods and anything sprayed onto produce should be thoroughly tested before allowing the public access to it.
marina johnston	Toronto, Canada	2015-11-13	The government needs to be accountable for this.
Patricia Chalkley	Ancaster, Canada	2015-11-13	I believe that the truth about this toxic substance has been covered up. I want to see independent studies proving whether it is safe or not and I think the latter will prove to be true.
Ken Wile	Coquitlam, Canada	2015-11-13	I worked for Environment Canada when Glyphosate was developed. On account of its very low acute toxicity to fish and relatively low environmental persistence it was a huge improvement over the common herbicides used in Agriculture which were highly toxic to all aquatic organisms and many were very persistent in both the aquatic and terrestrial environment. I definitely would like to see the results of independent studies to evaluate the environmental fate and effects of glyphosate.
Peter Scarr	Dundalk, Canada	2015-11-13	I prefer Non Toxic Food for my Family https://www.youtube.com/watch?v=7jWyrbP0TJQ.
Marlene Steele	Thamesford On, Canada	2015-11-13	let us see the rept
Danelle Lawson	Edmonton, Canada	2015-11-13	Many studies show that this herbicide is not safe, yet we continue to use it. Why is this??
Mikaela Benjamin	Edmonton, Canada	2015-11-13	prove safe - through multi-generations of health to come!

Name	Location	Date	Comment
Elaine Moore	Nelson, BC, Canada	2015-11-14	Enough with the chemicals, already! Any item that will be consumed by anyone (or anything) should be clean and safe.
Loretta Bernard	Vaughan, Canada	2015-11-14	I'm worried
Mike Hermann	Calgary, Canada	2015-11-14	This is an important issue, and requires that everyone has access to all research materials and studies. Fact-based and evidence-based decision making is impossible without it.
Gosia Ryan	Oakville, Canada	2015-11-14	This is a dangerous chemical
Stephen Cohen	TO, Canada	2015-11-14	There are enough carcinogens without adding another. This seems to be a no brainer. Please see this site for more info. http://www.panna.org/blog/roundup-cancer-future-food?gclid=Cj0KEQiAsZayBRCrioKRkYetvc0BEiQAI70-A1211hpLyJuGPgC4Zi5Qh6q-BnTrEfXalkJaHCFErOlaAs4O8P8HAQ
Don Vincent	Merritt, Canada	2015-11-14	We must use the Precautionary Principle when Mother Earth is at risk !
Amanda Grant	Lindsay, Canada	2015-11-14	Health matters!
Richard McIntyre	Newwestminster, Canada	2015-11-14	It's to do with Monsanto, so it can not be good. A no brainer.
Bernice A. Griffiths	Denman Island B.C., Canada	2015-11-14	genocide !
Karen Sharp	Vanier, Canada	2015-11-14	I do not want glyphosate used in any situation. It is devastating for the environment and human health.
Freya Mackenzie	Ste Anne de Bellevue, Canada	2015-11-14	this horrible chemical is contaminating groundwater everywhere in the world, including rural canada
Harriet McCready	Parrsboro, Canada	2015-11-14	I live in an area where this product is routinely sprayed --- I believe we should know the truth about it and make decisions accordingly.
blake gourley	courtenay, Canada	2015-11-14	It's Monsanto. Can't be trusted.
Regan Rempel	Dawson Creek, Canada	2015-11-14	I highly doubt that Glyphosate is safe for humans, as I live in an area that "depends" on its use, and diseases associated with Glyphosate are rampant here. This NEEDS to be addressed, and not just swept under the proverbial carpet again.
Rhiannon Smith	vancouver, Canada	2015-11-14	WE need to decrease pesticide use and develop safer means to grow food
Leanne Bishop	Vancouver, Canada	2015-11-14	Monsanto must be stopped!
Kim hoffman	Edmonton, Canada	2015-11-14	Haven't we been poisoned enough
Sheila Larcher	Orillia, Canada	2015-11-14	I don't want my family eating anything that crop poisoner flew over. Let him eat it.
daniel santo	toronto, Canada	2015-11-14	Time for some science-based policy? Or will Trudeau follow Harper's lead...
Christopher Gallant	Toronto, Canada	2015-11-14	Can we not let one corporation control the world's food supply... like please?
Joan Godin	Smiths Cove, Canada	2015-11-14	We need strict guidelines regarding herbicides
Yvonne Coletta	Surrey, Canada	2015-11-14	Because People deserve to know what they are in jesting . It's not too much to ask.
Lise Prevost	Limoges, Canada	2015-11-14	If there's nothing to hide, you hide nothing!!! All test results should be open to the public because it's our health that lies in the balance! We all should be aware of whatever that can harm us and it must be the Ministry of Health to make it public!!!!
Maegan Cookson	Owen Sound, Canada	2015-11-14	I'm signing because I do not want to consume glyphosate

Name	Location	Date	Comment
Corey Pirie	Regina, Canada	2015-11-14	I would like to see the results as to make an informed decision for my family
MICHELINE KINGSBERRY	WENTWORTH-NORD, Canada	2015-11-14	Nous avons la responsabilité de d'exiger la transparence de la part du PM Trudeau mais aussi de tous les élus.
samuel renee	Montréal, Canada	2015-11-14	Oh OUI!... Oh OUI Oh OUI !!!!!!!!
Jean Tremblay	Srsfield, On., Canada	2015-11-14	In the long run, any substance that can kill bugs or rodents will have a negative effect on humans. There is no such thing as a safe toxic substance. Let's not think we are smarter than the Creator of all things.
Jeannine Skead	Lakefield, Canada	2015-11-14	These are human beings who are being affected!
Rose Burelle	Montréal, Canada	2015-11-14	L'environnement doit être une priorité inéluctable!
Donna Ireland	Bancroft, Canada	2015-11-14	CFIA needs to do a better job vetting procedures and chemicals used in our food chain.
duane mackenzie	Winnipeg, Canada	2015-11-14	Gmo's & glyphosate are killing us. While Monsanto & other chemical polluters do not have to prove their safety to humans, other creatures or the environment. Stop the experiment
Kathy Ehman	Petrolia, Canada	2015-11-14	glyphosates have been used so incredibly extensively for so long that even the deep rooted trees in constantly glyppo'd fields are dying around here. I am not convinced the original science saying it's a safe product is valid.
caroline De Grave	edmonton, Canada	2015-11-14	Inndependant scientific testing required prior to approval of any chemical applied to our food sources required.
Janice Purcell	Sparta, Canada	2015-11-14	I believe this is causing diabetes type 2 in large numbers of people.
Rebecca Minogue	Callander, Canada	2015-11-14	The public need to understand more of the facts about the food we eat, the water we drink, the chemicals in the things in our homes. We have the right to know.
Albert Bouchard	Leduc, AB, Canada	2015-11-14	It's the right thing to do.
Brigitta Rabold	Coquitlam, Canada	2015-11-14	It is not safe to spray glyphosate on our food !!!!
Susan Milburn	New Westminster, Canada	2015-11-14	Unbiased scientific study must be done. Approval must never be based on the research done by a manufacturer!! That is a conflict of interest and open to corruption.. Please tighten up Canada's regulations when it comes to our health..
Kevin Barske	Winnipeg, Canada	2015-11-14	Untested and unregulated practices need to stop! Keep in mind members of government are supposed to be PUBLIC servants, not corporate servants. Time to put the Harper legacy of dirty deeds out with the rest of the trash!
donna sweeney	Nanaimo, Canada	2015-11-14	I don't trust Monsanto!
Allen Fuller	Edmonton, Canada	2015-11-14	I don't believe that Glyphosate is safe for use on foodstuffs
Kate Maxon	Lillooet, Canada	2015-11-14	I believe it comes down to "Revenue over Safety" and of course should be the other way around if this were a decent caring Society!
John Duffenais	South Porcupine, Canada	2015-11-14	Need to stop poisoning ourselves.
Leise Peddie	kincardine, Canada	2015-11-14	Every chemical should be tested by third party to remove potential risks to humans and animals. Destroying some links in the chain of biodiversity is disastrous
Gurvir Grewal	Mississauga, Canada	2015-11-14	Glyphostae is not safe and other countries are banning it, we should also ban it.

Name	Location	Date	Comment
Claire Cookson	Oakburn, Canada	2015-11-14	I don't want to be poisoned any longer!
Iris Tapley	Comox, Canada	2015-11-14	Science is for sale to the highest bidder these days. Just follow the money.
sabina leader mense	whaletown, bc, Canada	2015-11-14	I believe that decisions made on behalf of the public should be based on sound and verifiable scientific data. I also believe that the data should always be made public.....we do not need to be treated like children
John Philp	Merritt, Canada	2015-11-14	Monsanto has a habit of deceiving the public for no reason other than profit. Furthermore, has anyone ever proven that glyphosphate or any of the herbicides containing glyphosphate IS safe? To have to prove it is not safe is backwards.
doug southwell	collingwood, Canada	2015-11-14	WE NEED TO KNOW WHATS IN OUR FOOD ,,OR FOOD CHAIN ---ANIMAL FEED---!!!!!!!!!
Dave Bartlett	Camlachie, ON, Canada	2015-11-14	<p>What happens if the government does make public, any studies on glyphosate and health, and they all conclude glyphosate is safe? Do I trust that previous studies were completely unbiased? No, I don't. Money talks, and if a study were undertaken that could expose glyphosate as a problem, I'm fairly confident that pro-glyphosate forces would lobby to get the results they desire. If this sounds paranoid, well, it should. Big business and government has taught me that they are only interested in money, not my safety.</p> <p>This might be a good test for Trudeau, who promises openness and transparency for Canadians, as well as unmuzzling Canadian scientists. Provide the funding to several anonymous research teams, and then present the findings independently, so Canadians can compare results. Even then, would I trust that no interference took place? I'd have to think about that..... Who can you trust when big money is on the line?</p>
Vladimir CHIKHAOUI	WESTMOUNT, Canada	2015-11-14	Transparency is the very first step to democracy
Linda Whyard	Dryden, Canada	2015-11-14	This stuff is killing all life!!
James Holtz	Victoria, B.C., Canada	2015-11-14	How does Monsanto define toxicology ? Let's look at all the test data on genetically engineered products dating back to 1978.
Alex Hermann Kerr	Canoe, Canada	2015-11-14	I remember seeing ads saying how safe Round-Up is. So let us see the PROOF.
Paolo Tancon	Campbell River, Canada	2015-11-14	The Canadian public needs to be aware of what is being sprayed on our food crops.
Greg Strebel	Quesnel, Canada	2015-11-14	It appears that long term effects were not examined when regulatory approval was given.
Jennifer Howard	Toronto, Canada	2015-11-14	As if it's not bad enough that wheat has been genetically modified beyond recognition to increase yields, now it's also coated in chemicals that have been proven to be harmful to everything on our planet. Who knows how much residue is left on the plants and soil and how much has polluted our lakes and rivers. Stop the chemical dumping and re-educate farmers to return to more traditional farming methods through farm subsidies!
Maureen Hill	Nanaimo, Canada	2015-11-14	All evidence points to glyphosate being poisonous to humans and insects (bees in particular). We need to start now improving our environment, our food source, and our air quality for our children and all future children.
Evelyn Abercrombie	Halton Hills, Canada	2015-11-14	Truth before monetary gain! Squash the Lies and coverups. Truth is progress!
Dinah Franklin	Nanaimo BC, Canada	2015-11-14	I am so disgusted with the Harper governments policy of not relying on scientific factual evidence, and of actually letting the industries provide their own testing which is of course biased in their favour

Name	Location	Date	Comment
Becky Bayda	Saskatoon, Canada	2015-11-14	I'm signing because I am concerned about the health and safety of food consumption for myself and my family.
Neil E Mac	Halifax, Canada	2015-11-14	Anyone believing anything Monsanto related needs their head read.
mike strano	barrie, Canada	2015-11-14	I believe in Science
Eden Armstrong	Toronto, Canada	2015-11-14	Feeding my family with safe food is extremely important. We all suffer from the use of chemicals.
Peter Burns	Riv-beaudette, Canada	2015-11-14	public access
Gerry Baker	Westport, Canada	2015-11-14	We have the right to know if this is safe!
Bruce Todd	Whitehorse, Canada	2015-11-14	only reasonable thing to do
Heather Caldwell	Peterborough, Canada	2015-11-14	My children's health
Nancy Fisher	Uxbridge, Canada	2015-11-14	Glyphosate is considered a probable carcinogen by the WHO. What other reasons should be needed to cancel approval of this widely used chemical?
Lori Stanisavljevic	Branchton, Canada	2015-11-14	because this is why I love change.org
timmins ecological beekeeping association same	Timmins, Canada	2015-11-14	We also believe that the spraying of glyphosate in our forest is destroying our ecosystem and must be stop immediately .
Jamie McCamon	Canning, Canada	2015-11-14	I do not trust anything the Harper Government said or did.
Kim Arnott	Creemore, Ontario, Canada	2015-11-14	I have Multiple Chemical Sensitivities which has caused me to be unable to be gainfully employed, and has greatly negatively impacted my quality of life. I believe that the prevalence of widely and frequently used lawn care products, such as those containing glyphosate (as in Round-Up) has played a significant role in causing my poor state of health. It is impossible to avoid, and when I'm exposed to this particular glyphosate containing weed killer, I am ill for days. I am one of the 'canaries in the coal mine', being more sensitive and affected than most, and I believe with continued, prevalent use of such products others will increasingly also be affected and made ill as I have been. The number of people with MCS is on the rise. I believe we are being slowly poisoned by products like this. Please take action, Mr Trudeau, and have the safety data reviewed. Protect Canadians from slow death by poison and make Canada a safer, less toxic place to live.
victor sevigny	laval, Canada	2015-11-14	tout le monde sait que c'est CANCERIGENEU ,j'ai vu des gens tres malades a cause du Glyphosate en Ecuador.Y saw lots of peoples very sick in Ecuador because of Glyphosato.
Stephanie Robertson	Uxbridge, Canada	2015-11-14	All our food should be organic and pesticide free. We would see so much less cancer and chronic illness and our health system would benefit as well as peoples general health &t;3!
Kathryn Wall	Thornhill, Canada	2015-11-14	I think that all these are really poisoning our soil, water, and ultimately us. Like neonicotinoids which are killing the pollinators and will kill us as well as we consume foods tainted with them. I do not use any of these on the farm where my livestock live. I do not use them the food I grow. I do not want to have the stuff blowing around in the air and contaminating my place.
Kit Godin	Port Alberni, Canada	2015-11-14	I am signing for of my grandsons.
Janis Epnors	Orangeville, Canada	2015-11-14	I don't trust anything that the Conservative government has done.
Paul Emond	Napanee, Canada	2015-11-14	NONE OF THE MONSANTO GMO POISON SHOULD BE INGESTED.
Paul Emond	Napanee, Canada	2015-11-14	Anything from Monsanto is meant to fuck you up.

Name	Location	Date	Comment
Sandra Falcone	Mississauga, Canada	2015-11-14	We deserve to have food produced not only for today, more important for future generations. This is the right thing to do.
Robert McCann	Sarnia, Canada	2015-11-14	I believe that anything that isn't safe for the environment, wildlife or humans, shouldn't be allowed to be used. As for Monsanto, with their track record, anything that they produce should have independent testing done to ensure it's safety. Monsanto didn't get the scumbag of the year award for no reason. Lets see if the Trudeau government has the backbone to stand up to companies like Monsanto.
Betsy Thorsteinson	Winnipeg, Canada	2015-11-14	I'm concerned about our health and the health of our environment.
Leo Lefebvre	Sturgeon Falls, Ontario, Canada	2015-11-14	What is the actual safety test data of glyphosate?
daniel tremblay	Halifax, Canada	2015-11-14	I don't want another dangerous chemical unleashed on the environment and our children and pets. Mosanto has not exhibited ethical behavior in the past, so I don't expect the corporation to be ethical now.
Laurie Hollis-Walker	Fowler, Canada	2015-11-14	The tyranny of corporation interests over human and other life is untenable, unsustainable, and unjust. We must call corporations to accountability for the products they make a profit off, just as citizens of this country called Harper to account for his lies and deceptions. When we placed our trust in you, PM Trudeau we place the trust of all future generations too. Do you not care if glyphosate is -- truly -- safe? Do you not wonder what is the truth here?
Jeffrey Lazore	Akwesasne, Canada	2015-11-14	This is important and you know it, prove its safe, I doubt you can
Maria Kasstan	Toronto Ontario Canada, Angola	2015-11-14	I am signing because the current chemical based agricultural system is unsustainable and I do not consent to having these chemicals in my food.
Diego Bianchi	Belleville, Canada	2015-11-14	Our children's health is more important than the industry's wealth!!
Ken Pepperdine	Nanaimo, Canada	2015-11-14	I'd like to see an independent review of glyphosate safety research by the Cochrane Foundation
Louisa Fontaine	Winnipeg, Canada	2015-11-14	I'm signing because our children deserve a healthy future and not to be able to filled with poisons every time they eat.. Bring back real/natural food, eliminate simple food related/digestion problems and illnesses
Lynne Henderson	Edmonton, AB, Canada	2015-11-14	Simple - because I want to know
Ron Gullickson	Donalda, Alberta, Canada	2015-11-14	Glyphosate is likely the underlying cause of the sharp increase in many "unexplained" conditions
Michael Heiden	Creston, Canada	2015-11-14	There is too much evidence that Glyphosate is toxic to humans, the environment and our soil. It should be removed from use until, it can be proven safe. Not the other way around.
Marlies Sauv�	Timmins, Canada	2015-11-14	I am concerned that this herbicide's use is allowed in Canada without sufficient research, regulation, and oversight. Our government should hopefully err on the side of human and environmental well-being when presented with conflicting evidence. This herbicide is being used at alarming rates and has entered our food sources, the long term health effects not yet understood. Please reconsider the government's stance on this issue notwithstanding the European Union's recent opinion. There are many health issues brought on by contaminated food sources, cancer is only one.
Pat Raisbeck	Kamloops, Canada	2015-11-14	I Know that Glyphosate is costing us Millions of Dollars and that cost will go higher as people are exposed to it long term. Monsanto's promise of cheap food is a lie!
Nayana Ellepola	Montrel, Canada	2015-11-14	Ministry should make public the actual data on safety for Glyphosate or admit if it saw the actual data or not. So, until such happens, you should stop the use of Glyphosate

Name	Location	Date	Comment
Wendy Richardson	Clive, Canada	2015-11-14	I'm signing this out of concern for the levels of chemical in our food and water supply. Our food is meant to heal us and keep us healthy, but when it is filled with chemical it does quite the opposite. Like many other countries, please provide unbiased results on glyphosate safety tests.
John Mol	Sherwood Park, Canada	2015-11-14	We need to be more careful regarding chemical exposures
Maxine Henry	Carstairs, Canada	2015-11-14	I want to have safe food to eat.
Monica Papiz	Hamilton, Canada	2015-11-14	It's time that government was by the people for the people and not in the pockets of pharmaceuticals and corporate criminals. It's time that the government changed its ways and worked for the people, in favour of the people; we are not stupid. It's time the people voted into government got back to basics and started listening to the people. Mr. Trudeau, you can take on the mantle of what the Canadian people want and be a beacon for other countries to follow suit. It will take a lot of testicular fortitude, but in this regard, you can use the words so famously uttered by your father -- when challenged by the powers that be that say you can't do this, you can counter by saying, "Just watch me!"
Doug McEachern	Wellandport, Canada	2015-11-14	We must stop the use of, or at least limit the use of this toxic substance. There are too many red flags regarding the consequences of it's use.
Inga Thorsteinson	Winnipeg, Canada	2015-11-14	I think Health Canada is set up to support industry through self policing and I want Health Canada to change their mandate and mission statement to place the health of citizens first. Robust inspection and regulation to watch industry and not to assume they will follow 'guidelines'. Robust government labs and testing- not relying on industry to self- report that their product has tested "safe".
Robert Bright	Toronto, Canada	2015-11-14	The hypocrisy of Health Canada's demonisation of the Natural Health Supplements industry, while completely ignoring the Agro-chemical industry highlights the importance this change in government COULD have for the health and safety of all Canadians. Please do your due diligence, Liberal Party of Canada, and force Health Canada to honour and fulfill it's responsibilities to Canadians.
Anis Sumar	Calgary, Canada	2015-11-14	I am worried about what all toxins we are consuming that are harmful to our health.
Jane Marr	West Vancouver, Canada	2015-11-14	We tend to "reverse geometry" these issues and in hindsight have many regrets.
Lilly Gluscic	London, Canada	2015-11-14	I don't want to be subjected to glyphosate if it is unsafe. Make the records and study public otherwise cancel approval of glyphosate.
Debby Denolf	Lamont, Canada	2015-11-14	Glyphosate is poison -
Nicole Ridelle	Toronto, Canada	2015-11-14	Please clean up our world, so we can breathe.
Colleen Campbell	Red Deer, Alberta, Canada	2015-11-14	This chemical has been shown to be unsafe and should not be on our food. People are no longer able to eat Canadian wheat without serious consequences.
Jillian Vander Meulen	Medicine Hat, Canada	2015-11-14	We need clean food not polluted food. Come on already. It doesn't take a rocket scientist to figure out that pesticides have no place in the human body.
Coleen Ray	Campbell River, B.C., Canada	2015-11-14	Safety should come first; profits secondarily.
Sheila YOUNG	Ottawa, Canada	2015-11-14	The Trudeau government has promised Canadians full disclosure and transparency. This issue is one of many more.

Name	Location	Date	Comment
Doug morrison	Halifax,Nova Scotia, Canada	2015-11-14	its a good time to start to undo the horror show that was the Harper government
Sharon Kennedy	Etobicoke, Canada	2015-11-14	When it comes to the heath of the human, animal and environmental kingdoms secrecy cannot be exercised. Transparency is expected and must be honored in a democracy.
Laura Manrique	Gatineau, Canada	2015-11-14	No pesticide or herbicide is safe.
Michael Coates	Vancouver, Canada	2015-11-14	All herbicides and pesticides need to be thoroughly tested and have those tests scrutinized by at least one independent third party with the expertise to fully vet the product. That should be Health Canada or other federal agency on behalf of Canadian citizens. Our safety is more important than a new product launch. Neonicotinoids are just one example of bad policy for Canadian agriculture.
Nola Stewart	Hamilton, Canada	2015-11-14	safety 1st
DWAYNE KING	AURORA, Canada	2015-11-14	PROTECT THE ENVIRONMENT FOR ALL CREATURES!
Ross McDonald	Salmon Arm B.C., Canada	2015-11-14	I am concerned about the rising incidence of lymphoma
Ruth Moore	Toronto, Canada	2015-11-14	This compound is not something our bodies need, nor does our body know how to deactivate it. It is poisonous to all life.
Andreanne Martin	Roxboro, Canada	2015-11-14	I don't want my government to allow food companies to spray my food with chemicals that might be (probably are) unhealthy and cancer-causing. I want clean food!!
Diane Archer	Surrey, Canada	2015-11-14	I believe that the government has a responsibility to keep its citizens safe by insisting on intensive testing of products BEFORE allowing usage of the product.
Teresa Cuan	Toronto, Canada	2015-11-14	I m signing because I would like the studies showing glyphosate is safe. I want more transparency.
Liddy Gomes	Toronto, Canada	2015-11-14	This is a very important issue and should be made public.
Cindy Girard	Vernon, Canada	2015-11-15	Our population is becoming sicker and sicker. GMO foods and the pesticides they either include or can "tolerate" leave us injesting these pesticides. Glyphosate has been reected by many countries as carcinogenic. Why is it still allowed in Canada? Monsanto should be required to prove it is safe!
Terry Ferguson	Richmond, Canada	2015-11-15	I believe that Monsanto and it's government supporters know that it is dangerous but they want to push it anyway to advance their own corporate agenda. There is s good reason why most of the countries in Europe have now banned this and all Monsanto products. Do the real research!
Urs Brunner	Powell River, Canada	2015-11-15	Too many chemicals in our food.
Terry Clark	Roberts Creek, Canada	2015-11-15	It is time that the public had open access to research concerning the safety of all chemicals used in food production
Dhairya Bhatt	brampton, Canada	2015-11-15	I have a right to know what my food is being coated with.
Patricia Tucker	London, Canada	2015-11-15	I'm signing because I don't want anyone, whether it's my family, friends or ANYONE to go thru' the hell of sickness &/or death caused by Monsantos POISONS.
David Geary	Saskatoon, Canada	2015-11-15	Glyphasate is harmful and it is unnecessary.
Douglas B McCarten	Oakville, Canada	2015-11-15	If Health Canada previously said they saw evidence showing that this chemical is not harmful to humans they were suffering from delusional thinking! Science has already shown that this chemical (Roundup) is highly toxic and is a carcinogen! Please ban all GMO's!!

Name	Location	Date	Comment
Riley Thirsk	Abbotsford bc, Canada	2015-11-15	I'm tired of the zero transparency, and hidden fixed documentation
Chantal Laurin	Lasalle, Canada	2015-11-15	We deserve to know and we need to be safe and secure in our Great country.
Gisele Basque	Bouctouche, Canada	2015-11-15	I saw first hand what it did to my dad and his little dog while he was spraying that round up, my dad could feel the moisture of the spray, he got ill that same afternoon, and his little dog, the same because he was with him outside... the dog died from complications, his organs were affected one after another, and my dad, a month after his belly looked like he was going to have triplets and developed bowel cancer and even with surgery, his kidneys failed one month and a half after and wherever it is sprayed, I brought my dogs for walks and all died of cancer . It is a deadly poison and it needs to be stopped. Also where I lived they used to spray in my backyard and I woke up with a lump on my breast overnight, breast cancer, so aggressive that I was told that I might not even have 3 mths to live. I lived so I can tell my story... this is pure poison and it is killing and causing serious problems in animals and humans
Hazel MacPhail	Oshawa, Canada	2015-11-15	I really care what is sprayed on our crops and into the environment don't you?'
Perry Rozon	Regina, SK, Canada	2015-11-15	I'm signing because we have to stop companies like Monsanto from killing us.
April Goodman	Burnaby, Canada	2015-11-15	After years of public concern and research alerts, the WHO has finally admitted that glyphosate has a possible causal link with cancer. I am concerned that the future health of Canadians will be jeopardized due to the contamination of our food and water with this suspected carcinogen. Additionally, the costs to our public health service will be astronomical! If our Department of Health has any courage, it will step up and call for a Public Inquiry into the safety of this substance, and its associated genetically modified plants and animals.
sarah witney	pugwash, Canada	2015-11-15	let's grow food responsibly
Kerry Brookes	Hamilton, Canada	2015-11-15	I'm signing because this stuff is TOXIC!
Sandra Goodyer	Yarker, Canada	2015-11-15	I want to know what safety tests say. I think the public should be able to know what can harm us in our environment. I do not trust corporations to value the truth when it comes to profits. Monsanto has proved itself to be on the side of profit. s. Goodyer
Marian Hargrove	Saltspring Island, BC, Canada	2015-11-15	The WHO has classed glyphosate as a "probable carcinogen". This safety of this common herbicide which contaminates a large proportion of Canada's agricultural and urban land should be withdrawn until proof of safety is established.
Randall Swarts	Windsor, Canada	2015-11-15	Monsanto has lied to us for 50 years about glyphosate and Roundup that it is safe and not found in the food chain. Stand up to Big Business for a change and demand that the truth be finally told. Monsanto buys off politicians everywhere to stop any investigations into their products. They are the most corrupt company in the world.
Robin Gabert	Kelowna, Canada	2015-11-15	Our food's safety should be our number #1 priority.
Jennifer Wilson	Winnipeg, Canada	2015-11-15	we need to stop destroying the world and our own health and use real science to make informed decisions to save the environment and all that live on the planet. The situation is much more dire than we are being told or lead to believe.
vaughn gibbons	stevensville, Canada	2015-11-15	I believe glyphosate is unsafe to people ,animals and the environment. No more harm to our health, so corporations can continue to prosper.

Name	Location	Date	Comment
Christina Roberts	Calgary, Canada	2015-11-15	It is shocking how many people, especially children, are being gravely affected and even totally disabled by the spraying of chemicals (such as herbicides and pesticides) on crops right where they live, in developing countries. Any such products obviously should be stringently tested for human safety norms and then strictly controlled and carefully applied.
Zdenka Vojkuvkova	Calgary, Canada	2015-11-15	This is pure necessity to know about chemicals used to destroy our health.
maxim bourque	st-jean-sur-richelieu, Canada	2015-11-15	Please, respect nature. Economy at the service of humanité. Not thé opposite.
paula hines	Toronto, Canada	2015-11-15	I want the truth
Nancy de Blauw	Innisfil, ON, Canada	2015-11-15	Transparency is key to trust. If the tests have been done & the chemicals proven to be safe, there shouldn't/wouldn't be any logical reason for keeping them secret.
Sherry Awde	Ontario, Canada, Canada	2015-11-15	Further study needs to be done on this and other chemicals before approved as "safe".
Ian Whybrow	Hamilton, Canada	2015-11-15	I did some research and this stuff is even being found in products made from GMO cotton. even tampons. Pretty scary stuff if you ask me.
anna xanthacou	Ottawa, Canada	2015-11-15	We have a right to have full disclosure of tests that may affect our health! If study results are kept secret, it can only mean one thing, we will not like the results!
Brian Blaffert	Greater Sudbury, Canada	2015-11-15	Civilized cultures would at bare minimum provide the public with unbiased information about the safety of a product and let the people decide (in a free society.)
Irene Schnell	Chatham, ON, Canada	2015-11-15	The safety of all animals is compulsory from a humane perspective, and mandatory if the animals are destined for human consumption.
marie beauchemin	Percé, Canada	2015-11-15	Des études doivent être faites pour approuver un tel produit. La santé de vos enfants en dépendent.
wayne leblanc	lively, Canada	2015-11-15	it's killing my honeybees.
Susan Brown	Almonte, ON, Canada	2015-11-15	Prevention is the best medicine.
Sarah Williams	Victoria, Canada	2015-11-15	I am not against reasonable use of glysohate, but I am against the massive GMO driven usage, and do question the long term health effects when used in such high amounts, particularly if you taken into account Monsanto's history of cover ups related to their products (DDT, Agent Orange to name 2)
nadeije athlan	Eastman, Canada	2015-11-15	Nous sommes déjà tous trop toxiques...on retrouve des toxines dans le lait maternel, dans nos cellules...un principe de prudence devient essentiel car l'accumulation de tous ces pesticides et produits chimiques n'est pas anodin, même à dose infime elles s'accumulent.
Sandra Scarrow	Victoria, Canada	2015-11-15	Where roundup isn't necessarily evil, roundup ready monoculture food crops certainly are something that needs serious reconsideration, food designed to be heavily sprayed by pesticides can never be right.
Bill Prowse	Peterborough, Canada	2015-11-15	The Canadian government must begin fulfilling its mandate in regards to human health and taking the safety of Canadians seriously. If our government been allowing chemicals into the human food chain without evidence based proofs of safety for humans then Canadians have the right to know.
heather lee	Gatineau, Canada	2015-11-15	I'm tired of major monopoly corporations poisoning our earth, soil and food. I'd like to see the monstrously insidious Monsanto and dupont with their crown jewel Glysohate cut down to size and ban from hitting our plates.

Name	Location	Date	Comment
Karl Geluk	Chilliwack, Canada	2015-11-15	There are enough safe options, we no longer need to use chemicals but should use scientists wisdom to explore and develop safe materials and different agricultural practises to feed this world.
Joyce Gerth	Burnaby BC, Canada	2015-11-15	I fear for the futures health of my grandchildren
Jean Pycock	Havelock, Canada	2015-11-15	I live in a rural farming area where Round Up is widely used.
Bruce Tewnton	Donnelley, Canada	2015-11-15	Genetic experimentation on humans through our foods should be stopped until there is definitive proof that it's safe. Glyphosate is another DDT type poison that puts profits before people! And I am aware that it's a herbicide and not a pesticide like DDT but just as dangerous nonetheless.
Patrick Capper	Clinton, Canada	2015-11-15	I am concerned about the overuse of roundup
aneela siddiqui	richmondhill, Canada	2015-11-15	I care about my health.
Helena deJong	Lantzville,, Canada	2015-11-15	We as Canadians need to know the truth of this spray
Victoria De Iuliis	Burlington, Canada	2015-11-15	I dont want to eat alot of poison
Lyn schwarz	edmonton, Canada	2015-11-16	Please look into this
Patricia Hutton	Kowloon, Hong Kong	2015-11-16	I'm signing because the public deserves to know the truth about glysophate.
Matthew Gass	Dartmouth, Canada	2015-11-16	I believe Glyphosate is destroying our digestive system's. Having healthy bacteria in our gut is essential to our physical and mental health. Nothing is more important that the food we eat and the water we drink.
Melinda Auten	Tyendinaga, Canada	2015-11-16	I believe glyphosate needs to be brought to the forefront of health care issues. With testing that proves kidney and liver failure we need to give it serious consideration as an ingredient in pesticides being used on our foods. The people of this country deserve to know the truth! Will you, Prime Minister Trudeau, make the health of Canadians a priority over the interest of big business corporations such as Monsanto? Please, I beg you...prove to the world that glyphosate is safe for human consumption!
Alexi Bracey	petrolia, Canada	2015-11-16	glyphosates are toxic and cancer causing. They should not be in anything we eat, breathe or consume
jennifer green	Kamloops, Canada	2015-11-16	GMO, pesticides and chemicals in are food will kill us. I am highly allergic to GMO food.
Keith Light	Pender Island, Canada	2015-11-16	We must know that any chemicals used in our enviroment, and especially on our food, has been thoroughly tested
Diane Cromwell	Abbotsford, Canada	2015-11-16	A lot of these are causing cancer
DeEtta Ives	Winnipeg, Canada	2015-11-16	It is time for the Government of Canada to call a halt to the 30 year + human population glyphosate experiment. To say there is mounting scientific evidence to support a ban on glyphosate is an understatement. Healthy food crops equal healthy Canadians.
Nathalie plouffe	Gatineau, Canada	2015-11-16	faut arrêter sa!!!! je veut une sécurité maximum pour le futur de mes enfants.
Dorothy Welburn	Saint-Laurent, Canada	2015-11-16	I live in a rural area where crops are grown and the spray plane passes right next to my house. I want to know I am safe.
alexis roy	Quebec City, Canada	2015-11-16	I'm worried about the effects on animals more than humans.
Lee Saunders	Edmonton, Canada	2015-11-16	I want the truth
Lin Grist	Guelph, Canada	2015-11-16	I'm signing because I want to protect thehealth of my children and grandchildren. I want the tests to be seen and appraised by scientists who work in the public interest.

Name	Location	Date	Comment
David Conway	Stratford, Canada	2015-11-16	I believe the trudeau government should follow the scientific evidence and make it available to the Canadian public.
Linda Lewis	Halifax, Canada	2015-11-16	This herbicide is questionable. It's an unsafe practice to allow Monsanto to do the testing!
Rudi Peters	Winnipeg, Canada	2015-11-16	There is so much mess the Harper government left behind. Best wishes to you and your colleagues as you clean up.
Stephanie Beaulieu	Douglas, Canada	2015-11-16	I believe in a healthier tomorrow ☐
Sonheya Brandfourde	Delta, Canada	2015-11-16	I have read of the damaging effects of glyphosate (Round UP) and chemicals containing Glyphosate. It should be banned from use. STOP POISONING THE POPULATION!!!! not to mention the bees, and wildlife.
joanne daniels	whitehorse, Canada	2015-11-16	Bees and birds are a clear sign , God knows what we can't . These companies that profit from our harm are just like the tobacco companies ! Exon now too .
Arnold Dunlop	Barrie, Canada	2015-11-16	I believe the safety of Glyphosate has not been proven to the standards required of competent scientific investigation.
Lucie Lafrance	Ste. Genevieve, Canada	2015-11-16	Transparency is not negotiable.The taxpaying public has the right to know what the government is doing with its money.
Susan Watson	North Vancouver, Canada	2015-11-16	We have been lied to about so many things already. A truly transparent Government would not do that. I voted Liberal for the first time ever. I want to make sure what was promised is kept. Make me feel I can trust Politicians please.
D Hamm	Baddeck, Canada	2015-11-16	PROVE IT!!!! With REAL third party tests not based upon industry bias!!!!
Lynne Knox	Guelph, Canada	2015-11-17	I'm signing this petition because all products that are sold in our stores that are designated for human use MUST be safe and if this product is not what regulatory body failed???
patricia petrin	Lindsay, Canada	2015-11-17	Of course we should know!
Thomas Selwyn	Lanark, Canada	2015-11-17	Can I NOT eat pesticides? Thanks. ;)
Philippe Mineau	Ottawa, Canada	2015-11-17	It's time to change our defective approval system, not just for novel chemicals, but also for pharma. The old system works on the basis that government doesn't have the funds to test for safety themselves, and relies on corporate test data to assure themselves of safety. But scientists in companies tell us this data is routinely fudged for approvals. Time for a reset.
Frank Nacsa	Toronto, Canada	2015-11-17	Openness is required in these types of decisions impacting human health.
Desiree Kaufmann	Red deer, Canada	2015-11-17	I believe everyone should have the right to make informed decisions about what goes into their bodies. If glyphosate is harmful then I certainly do not want to consume it.
Roland Leitner	Sorrento, Canada	2015-11-17	I am concerned about the vast number ofcides we put into environment without first showing they are safe to living organisms, nor do we know the cumulative effects of the combinations of variouscides on living organisms.
ALINE LECLERC	Drummond, Canada	2015-11-17	I am signing because I want to know what is in my food....is it safe for me and my family
FERNANDE QUESNEL	VANCOUVER, Canada	2015-11-17	Prove glyphosate is save for humans.
Jacky Smith	Creston, Canada	2015-11-17	I am fed up with large corporations not caring about what they are doing to our food supply. All they care about is the bottom line.
Joan MacDonald	Kelowna, Canada	2015-11-17	Glyphosate is not safe

Name	Location	Date	Comment
Waverley Birch	Parry Sound, Canada	2015-11-17	We need to place a higher importance on scientific evidence when deciding on policies.
Tomas Smith	Buckhorn, Ontario, Canada	2015-11-17	I want to know that the food I prepare for my children is safe from chemical pollutants that have been shown to adversely affect human health. Farm workers in Mexico and South America are the canaries in the coalmine, as their labour intensive farming puts them at closer proximity. They are getting sick, and starting to sue Monsanto. Let's stop this practice in Canada and follow the majority of the world's example and ban gmo's.
Don McDonald	Limekiln, NB, Canada	2015-11-17	<p>The articles from the Lancet and International Agency for Research on Cancer seem to contain the most up to date information re glyphosate. Both state that glyphosate is a probable cause but neither states that glyphosate causes cancer.</p> <p>The Precautionary Principle and the fact that glyphosate is a probable cause of cancer are sufficient reasons in my mind to ban its use pending proof that it is safe. The NB Government has references the Precautionary Principle in some instances.</p> <p>Carcinogenicity of tetrachlorvinphos, parathion, malathion, diazinon, and glyphosate http://www.thelancet.com/pdfs/journals/lanonc/PIIS1470-2045(15)70134-8.pdf</p> <p>International Agency for Research on Cancer IARC Monographs Volume 112: evaluation of five organophosphate insecticides and herbicides http://www.iarc.fr/en/media-centre/iarcnews/pdf/MonographVolume112.pdf</p> <p>Malathion, Diazinon and Glyphosate are classified as 2A where "The 2A classification of diazinon was based on limited evidence of carcinogenicity in humans and experimental animals, and strong mechanistic evidence; for malathion and glyphosate, the mechanistic evidence provided independent support of the 2A classification based on evidence of carcinogenicity in humans and experimental animals."</p>
Lynn Hartt	Harvey, Canada	2015-11-17	This chemical is a known carcinogen and has been banned in other countries. What is it about Canadians that we do not deserve protection from carcinogens?
Joseph Labonte	Calgary, Canada	2015-11-17	Silencing scientists threatens evidence-based decision making
Joseph Labonte	Calgary, Canada	2015-11-17	Even though there's a lack of trust in government, there are still credible and trustworthy people in government departments—the scientists. The scientists who work in government are subject to the same scrutiny as those in academia; they publish in academic journals, sit on graduate committees and supervise graduate students in academic departments across the country. They are objective scientists, just like their peers working at universities. They possess the same level of credibility. So why are government scientists trusted to provide “credible and trustworthy information” to their peers, but not to the general public? Too often we hear about government scientists being denied permission to speak to media about their research—Kristi Miller and Max Bothwell are two prominent examples.

Name	Location	Date	Comment
John Sauls	Toronto, Canada	2015-11-17	your,killing the only good people left. Canadians.
Caroline Utinowatum	Fort Vermilion, Canada	2015-11-17	I am signing because enough already we are not even safe anywhere anymore
victor sevigny	laval, Canada	2015-11-17	Because glyphosato,is poison for human.I saw when i was living in Ecuador people from Columbia spraying bananas fields with Glyphosato near Ecuador border lines. small is the line between the twoo countries,and the fume crossing the river by the wind made sick animals and peoples vomiting, plagas all over the arms in Ecuador,they had TV emissions about that in Quito and others Tv channels
Joanna Nelson	Toronto, Canada	2015-11-17	This should be self explanatory and we should all feel the same
theresa pritchard	Whitby, Canada	2015-11-18	I care what goes into growing our food especially for upcoming generations. We do not know the long-term effects of many chemicals we put in our soil. Please make this issue a priority.
ELIZABETH BURROWS	Toronto, Canada	2015-11-18	Like you I believe in ensuring the best possible health of Canadians.
Leo Næsager	New Minas, Canada	2015-11-18	We must do what is right, to do otherwise is stupid.
Linda Gregg	Cobourg, ON, Canada	2015-11-18	The future of our children is important & precious
Aida Hulse	Australia	2015-11-18	I am sick of people who spray these poisons on our crops. I am sick of hearing of those poor persons, who have contracted diseases like Cancer and other related diseases, which causes them death. Get rid of this darned Glyphosate and do not spray our food supply with it. We need tolive a clean and happy life not die in pain and suffering caused by these evil scientists, who only live for money, money, money. Their greed empowers their stupidity and they do not realize that they are also killing themselves and their families by using Glyphosate on our crops.
Marion Bedford	Kanata, Canada	2015-11-18	Chemical pesticides are dangerous to health, and are known to cause cancer.
Bonnie Clark	Calgary, Canada	2015-11-18	It just makes sense that spraying a product on growing food plants that require the operator to wear a mask and protective clothing cannot be healthy for us. Please look into this.
Daniel Marsh	Ottawa, Canada	2015-11-18	Because why shouldn't the EPA not be certain about a drug before administering it to the public
Brenda Jeppesen	Burlington, Canada	2015-11-18	I want to have a choose what I breath, consume, absorb ...even if it costs more... It's time to change our thinking and move into the realm of clean green organic sustainable growing
Lyn Pople	Perth Road, Canada	2015-11-18	Can society not see that the point being made is that... if ... testing was properly done we as citizens want to see the testing and results and have them scrutinized by todays scientific community due to advancements of decades old technology. Governments of the past would have made decisions based on that which was known at that time. Unless of course the testing was flawed or ...non existant. Safety should be the ultimate reason for Health Canada to step up to the plate and ensure that all of society is safe from all the greedy people . If they will not then maybe we as a country need to evaluate the governments worth in our lives and wallets In the meantime grow your own , be as self sufficient as possible and teach your children.
Juil Yoon	Toronto, Canada	2015-11-18	People shouldn't have to worry about whether their food is being poisoned.
Lisa Goguen Campbell	Kensington, Canada	2015-11-18	Because we need to save this planet and it's people!!!!
Gordon Kelsey	Grande prairie, Canada	2015-11-18	We already know it's carcinogenic.
Olesia Kowalsky	Saskatoon, Canada	2015-11-18	Glyosphate is poison
Jas Olson	Victoria, Canada	2015-11-18	I am signing because I want to ensure the health of my family and generations beyond

Darryl Kolewaski	Spruce Grove, Canada	2015-11-19	I want food transparency including GMO labelling.
Valerie Landreville	Longueuil, Canada	2015-11-19	Je ne veux pas de pesticides dans ma nourriture.
maria burgess	MONTREAL, Canada	2015-11-19	Its destroying the world
Debra Walker	White Rock, Canada	2015-11-19	honesty, integrity and disclosure is sadly lacking
Jason Girard	Sherwood Park, Canada	2015-11-19	We got to know if this is safe !!
Patrick Thériault	Montreal, Canada	2015-11-19	Les petits gestes comptent!
charlane mcconkey	Lakefield, Canada	2015-11-20	it is not safe.. and never will be..... it is poison...why do they suit up when they spray it..... it is made from Monsanto. please stop spraying... the air is 75% round up now..... everyone's children's lives are compromised with this.. and it is going to get worse. plus...kick Monsanto out... like other countries have... Russia has.. I am proud of them for that. thank you
Peter Varty	Rockwood, Canada	2015-11-20	I live in a rural, surrounded by farms growing Roundup ready corn and soybeans. My water source is a well. I want to be assured that it is free from pollution and healthy to drink, now and in the future. We must know if Glyphosate (or any of the other pesticides and herbicides for that matter) are in our ground water and food. Independent tests on these chemicals and their effects must be done and the results made public.
April Poirier	Brampton, Canada	2015-11-20	The World Health Organization's International Agency for Research on Cancer found that glyphosate, commonly sold as Roundup, is a "probable human carcinogen." 'Nuff said.
Marie Brehaut	Calgary, Canada	2015-11-20	Why are we approving so many untested products for public consumption in Canada that have been proved dubious at best in Europe. I hope this government will not turn a blind eye, as the Harper government has done.
Gloria Lisgo	New Denver BC, Canada	2015-11-20	Everything I read is warning us not to use this product (Glyphosate). Where are you Health Canada?. Your credibility is questionable.
james kennedy	Prince George, Canada	2015-11-21	Man should never never f--k with Nature ...it has been proven time and time again!!!!
Jeanne Maki	Belfast, Canada	2015-11-21	It's so important to stop the use of such a harmful pesticide.
Stirling Giddings	Summerside, Canada	2015-11-21	This data needs to be public and I see no reason it shouldn't be.

Name	Location	Date	Comment
Michael turcotte	Saint-Quentin, Canada	2015-11-21	Je signe pqc j'abite une région forestière avec utilisation intensive de ce produit qui pour ma part élève de la nourriture aux animaux sauvages et a des répercussions sur leur santé donc la nôtre. La compagnie IRVING impose cette pratique au gouvernement et leur vend le produit
JERRY GOGAN	Petitcodiac, Canada	2015-11-22	Whmis documentation must be made available it's the LAW
Linda Easthouse	Calgary, Canada	2015-11-22	I am signing this because it is important to know what is in our food and who is putting it there.
David Godwin	Vancouver, Canada	2015-11-22	I am very concerned about "industry" doing their own testing. The money spent by industry to prevent labelling indicates a desire to hide the results from my perspective.
Corrie Laven	Toronto, Canada	2015-11-22	Food regulations and information need updating and transparency, generally!
Sheila White	Moose Jaw, Canada	2015-11-22	I'm concerned
Pam Nosworthy	Parksville, Canada	2015-11-22	I am against the use of any product being used in the environment that will harm any living being....
Iain Brodie	Ajax, Canada	2015-11-22	My town council are mostly environmentalists. This small cost could let us know our locally produced food is glyphosate free and encourage the support of locally produced food.
Donald Kretz	Edmonton, Alberta, Canada	2015-11-22	It is possibly carcinogenic and destroys soil. Pesticides in general need to be reduced and replaced by more sustainable forms of farming.
Joy Pickering	London, Canada	2015-11-22	Is not good for my body..it doesn't recognize this foreign stuff. Just like fluoride..it's pesticides.. And cancer forming
S Perret	West Vancouver, Canada	2015-11-22	because it's 2015
Roger Landry	West Kingston, RI	2015-11-22	It is vital to the future of humanity!
Charlotte Harris	Chatham-Kent, Canada	2015-11-22	I want to hold the government accountable. I am not convinced that glyphosate is safe to use.
Greg Stanley	London, Canada	2015-11-22	Let's do more research...
David Walton	Chatsworth, Ont., Canada	2015-11-22	Glyphosate is probably much more toxic than we have been told by Monsanto
Kathleen Boeriu	Gillies Bay, Canada	2015-11-23	There has been far too much secrecy in this matter. It is time to address it.
ness kuhn	Milton, Canada	2015-11-23	Future generations
Kenneth Nicholls	Procter, Canada	2015-11-23	If it ain't transparent....it ain't safe. Simple.
holly crowe	Kimberley, Canada	2015-11-23	They should get a clue with so many diseases and then they worry on how to fund to treat them!!
Jess Woolford	Winnipeg, Canada	2015-11-23	Everything depends upon a healthy environment!
Sam Groom	Sheffield, United Kingdom	2015-11-23	I'm signing because I believe that I have a severe allergy to glyphosate (sprayed on wheat crops). The illnesses, diseases and viruses that I have gone through before knowing that I was allergic were horrific. If I hadn't recognized this allergy, I would most probably have had part of my colon removed, diabetes and severe anxiety and stress. Why would anybody want to impose these illnesses on anyone? For more money? Money that is made from people's illnesses. Awful.
claude prieur	Coquitlam, Canada	2015-11-23	fed up
Dwana Atkins	Edmonton, Canada	2015-11-23	I truly do not believe glyphosphate is good for any species: human or animal. It should be removed from the market.
Linda Carrigan	Ailsa Craig, Canada	2015-11-23	I am concerned about my health

Name	Location	Date	Comment
Colleen Lavender	Puslinch, Canada	2015-11-23	I want safe, healthy food, soil, water, land and air and I want the Canadian Government to provide accurate information to its citizens!
Royce Hamer	Freelton, Canada	2015-11-24	Health Canada has a record over the years of being one of the most corrupt government agencies in Canada
Gaetan Desjardins Desjardins	Hollywood, FL	2015-11-24	I want to eat healthy food to remain healthy. I do not trust Monsanto with genetically modified food nor its roundup-glyphosate herbicide. I am aware of how this technology got on the market without proper testing and the work of Dr Seralini in France. It is wrong for politicians to protect the interest of the Big Agra food industry at the expense of the health of the population. All Europe is banning roundup-glyphosate and GMO and they are perfectly right to take this decision to protect the population and the earth.
Dan Gieg	Edmonton, Canada	2015-11-24	Our foods should not be grow with the help of chemicals
Judy Dalle Ave	Edmonton, Canada	2015-11-24	I, too, am very concerned about Glyphosate. Please have this herbicide checked out, and/or ban it until it is tested.
Terry House	Port Moody B.C., Canada	2015-11-24	Transparency ...
Terri Robins	Fernie, Canada	2015-11-24	Time to promote the old tried and true - Organic farming. Time to move away from all the chemicals that are destroying the environment and our health!.
shirley grierson	Walker, Canada	2015-11-24	I'd rather eat poison free food?
john rosser	sointula, Canada	2015-11-24	many tons of this toxic herbicide are being dumped on crops and runoff is poisoning aquatic ecosystems. The manufacturer cannot be trusted to provide accurate unbiased safety test data
Desiree Derkach	Guelph, Canada	2015-11-24	Our food should be safe
Ann Pratt	New Glasgow, Canada	2015-11-24	I strongly oppose the use of glyphosate. It is killing us and it needs to be banned.
samantha O'Connor	Montreal, Canada	2015-11-25	BECUSE I HAVE ACHID AND CAREWHATS BEING USED
Klaus Ferlow	Mission, British Columbia,, Canada	2015-11-25	Because it has to be banned!!!
Terry Schiesser	Golden, Canada	2015-11-25	I'm concerned because there may be a link to the number of Canadians that are intolerant to wheat products.
emeth whatmough	ottawa, Canada	2015-11-25	Freedom of information
veronica macinnis	Darwell, Canada	2015-11-26	Glyphosate should never be in any kind of food...it's poison and I don't want to eat it or feed it to anyone. Please have it removed.
Jess Arnold	Spruce Grove, Canada	2015-11-26	Being taught in school that this chemical and its use is "mostly benign" when the WHO has added it to its list of carcinogenic materials is not ok.
Jacky Smith	Creston, Canada	2015-11-27	I'm sick (literally) of having large corporations running our country and doing whatever they want to our food supply for profit.
Lynda Anderson	Spruce Grove, Canada	2015-11-27	I have not EVER seen evidence the the content of weed free GMO's are safe for human consumption over a long period of time. The last Gov't refused to acknowledge this yet the evidence is growing and now shows conclusive proof that we are not only damaging the soil but our health as well with 'super' chemicals. I hope that the Liberals will address this health issue with better research teams in place.
Phyllis Cameron	Saskatoon, Canada	2015-11-27	How could it be possible that weed killer in our food is considered SAFE?
lee long	New Westminster, Canada	2015-11-27	glyphosate causes cancer and then some
Daniel Olmstead	Woodstock, Canada	2015-11-28	because we are being poisoned for profits based on lies

Name	Location	Date	Comment
Justin Espey	Bracebridge, Canada	2015-11-28	I'm the man
Liesa & Enzo Cianchino	Mississauga, Canada	2015-11-28	Prove glyphosate is safe. Thank you.
Mimi Scoretz	North Vancouver, Canada	2015-11-28	Please, safeguard our health!
Gloria Schwenneker	Saint Albert, Canada	2015-11-29	I'm signing because I agree with this petition
Aryte Darline	Spruce grove ab, Canada	2015-11-29	Sprays are poisoning us and the land I am often affected by this I know that is the plan. Family farms are very important way of life in our country. Big business is taking over and it is enough.
larry hallett	Deseronto, Canada	2015-11-29	WERE KILLING THE PLANET AND OURSELVES
blair fraser blair_fras@yahoo.com	Albany, Canada	2015-11-29	This product kills and disrupts the natural food chain. Long term effects!! "Starvation".
Jean Tovell	Milton, Canada	2015-11-29	I have good luck growing living vegetables -not using GMO seeds.
Valluvan Alagirisamy	Toronto, Canada	2015-11-29	We need to know the truth before it damages our health and ecosystem.
dr john clark	vancouver, Canada	2015-11-29	From my understanding Glyphosate was first used as a descaling agent to clear mineral deposits from within pipes. It was effective due to its ability to chelate mineral and metal ions. This activity chelates minerals in the soil reducing uptake by crops already growing on trace mineral depleted soils(courtesy of decades on intensive agriculture) More alarmingly it has been proposed that glyphosate we consume in our produce may chelate mineral and metal ions that are key to the function of many enzyme systems in humans! I hope Health Canadas oversight on Round up safety does not result in massive liability for them in the future.
Tim Boudreau	Fredericton, Canada	2015-11-29	I am signing because I care about the well being of our forests, for not just future generations to enjoy. But for all of our wildlife who depend highly on it to survive, whether on land or in the water.
Derek Cummings	Northampton, Canada	2015-11-29	Needs to stop
Tom Mckay	Hampton, Canada	2015-11-29	This needs to stop. Now.
Robert Sherwood	Elgin, Canada	2015-11-29	hunting,fishing& healthy future generations
Debra Macdonald	Gagetown, Canada	2015-11-29	Irving Oil has been getting away with these kinds of unenvironmentally friendly practices for too long. And unfortunately owns all the papers in NB. Social media is one way to bring this issue to the attention of public officials.
Andrew Joudrey	Woodmans Point, Canada	2015-11-30	I care about the health of our forests in New Brunswick.
Brad Vail	millbrook, Canada	2015-11-30	Products used are known to be cancerous and we are the only province in Canada that allows it. Our Forrest are dwindling and our government is Turing a blind eye letting Irving run them. It's time someone in the government grew a set of balls and stood up for what's right.
Brady Allen	Cape Tormentine, Canada	2015-11-30	I want healthy forests in my province for years to come.
Benjamin Roundell	Fredericton, Canada	2015-11-30	The burden of proof to prove glyphosate spraying in combination with dispersants is absolutely safe is on the people and businesses using them. The potential long term consequences for everyone outweigh the potential short term profit margins of the few. This same conversation happened 40 years ago with Agent-Orange spraying in NB, and we are still living in the aftermath of that disaster. A chemical designed to kill should not be treated lightly, and our forests shouldn't be treated with them at all.

Name	Location	Date	Comment
Adam Comeau	Moncton, Canada	2015-11-30	It's killing all wildlife
charle cormier	Cocagne, Canada	2015-11-30	spraying poison can not have good results,things have to change before it's to late
Tyler Daley	Hanwell, Canada	2015-11-30	Please please make a change, stop our once beautiful province from being destroyed.
Bonnie Price	Sioux City, IA	2015-11-30	We need to stop this
Ian Leavitt	Utopia, Canada	2015-11-30	Time to make a change!
Evan Cassidy	Saint John, Canada	2015-11-30	I grew up in oak point, grew up in the woods on private family land amd watched the forest around be cleared and sprayed and im sick of it
Annie theriault	charlo, Canada	2015-11-30	I am very concerned that the WHO has labelled this product "probably carcinogenic" and yet it keeps being widely used in New-Brunswick.
colette murphy	toronto, Canada	2015-11-30	Without bees our excosystem collapses
Denise Trafford	Calgary, Canada	2015-11-30	We're in trouble. Consumers have to take command. Buy real food. Pay now, stay healthy or pay later in medical costs.
Jean-Guy Levesque	Saint-André, NB, Canada	2015-11-30	Time to BAN Glyphosates
Gayle Hunter	Kamloops, Canada	2015-11-30	Consuming poison should be optional. Not required.
Paul Chase	Red Bank Queens Co, Canada	2015-11-30	all my family and friends are dying of cancer
Jodie Bruning	Tauranga, New Zealand	2015-11-30	<p>The current studies used by regulators to prove safety of glyphosate are old, private, unpublished, not subject to peer scrutiny, dismiss effects that are not dose related, do not allow for subtle endocrine disrupting effects, do not allow for the toxicity of the full formulation that our children and families consume in their staple foods - and are exposed to in their neighborhoods.</p> <p>The current toxicity studies used by regulators do not test at our current levels of exposure and they exclude current scientific literature that demonstrates the levels the Canadian population are exposed to are dangerous.</p> <p>Publicly released scientific literature demonstrates there is no safe level of glyphosate exposure.</p> <p>Let the public have access to these earlier studies - and the science that the scientists may use to declare that effects are 'normal.'</p> <p>The Canadian public needs access to this - they have a right to good health and wellbeing. Current corporate - or seller sponsored science - riddled with conflicts of interest denies this right.</p>
Pam Vernon	Foxton, New Zealand	2015-11-30	I strongly believe glyphosate needs banning. Openness & honesty required here.
Daniel deVilliers	Vancouver BC, Canada	2015-12-01	I agree, there has to be proper safety tests.
Rudi Stade	Huntsville, Canada	2015-12-01	Glyphosate is a carcinogenic poison. . Humans are not and never will be "Roundup ready"!
janice wilson	north vancouver, Canada	2015-12-01	Glyphosate is being used in metro vancouver on so called invasive plants. Local governments are wrong to support this. Glyphosate should be banned.
Heather Beattie	Saguenay, Canada	2015-12-01	It is important that the government be transparent in decisions that may affect the general health of the Canadian population.
Jacques Smith	Mtl, Canada	2015-12-01	Je ressens tout l'importance de protéger notre santé et celle de l'Humanité en général.

Name	Location	Date	Comment
Bernadette Telfare	Portland, ME	2015-12-01	Glyphosate is a plague on Mankind.
Glenda Berry	Gabriola, Canada	2015-12-01	Please protect citizens health over corporate profits.
Beverly Skwerniuk	Courtenay, Canada	2015-12-01	I like a good fight against Big Pharma and wealthy bio-tech companies that have been killing people since WW2.
surette gilles	bouctouche nb, Canada	2015-12-01	glyphosate
W Gunning	Australia	2015-12-01	I'm signing this because I have had breast cancer three times and feel strongly glyphosate was a factor in these cancers.
Hilbrand B Ausema	Prairieville, LA	2015-12-01	Glyphosate is a known carcinogen. To deny that would be like saying Christians deny Christ!!!!
Karla MacKay	Dorset, Canada	2015-12-01	old school farming is the BEST way...no more sprays!!!
Teresa Wilson	Timmins,On, Canada	2015-12-01	We have a right too know!
Donald Kavalench	Langley, BC, Canada	2015-12-02	We need to know.
sue linn	port carling, Canada	2015-12-02	I want our food too not kill us.....really simple
Merle Kuennen	Elkader, IA	2015-12-02	I have observed the effects of glyphosate in livestock production.
michelle manson	Riverview, Canada	2015-12-02	i want the right to clean forestry, information about whats being sprayed and honesty as to whats safe!
Wally Richards	Palmerston North, New Zealand	2015-12-02	Monsanto trials in the 1980's showed the harmful effects of glyphosate on human health then they hid these studies under trade secrets with the FDA. If you are aware of these studies and do not ban the poison glyphosate then you are also accountable for the harm done just as Monsanto is.
John Bagnall	Fredericton, Canada	2015-12-03	It kills fish
Caitlynn Newell	Rimbey, Canada	2015-12-03	I expect better from a Liberal Government.
Max Kennedy	Englehart, Canada	2015-12-03	It'S past time truth was known INDEPENDENT of Monsanto's BS
Michael Trott	Auckland, New Zealand	2015-12-03	Safety concerns for our food & crops and the increasing amount of glyphosate use and lower crop yields.If Canada ratifies the TPP environmental standards may decline.
Sandra Picard	Montreal, Canada	2015-12-03	I dont want my food or air to contain this chemical.
April Reeves	Bowden, Canada	2015-12-03	Posted it all over the NB gov page: they would not let me post on their pages section. Wow, a government that bans rebellious posts! Send a few emails to select people. She needs to come out and speak, regardless of her gag order. What is happening when good people stand up for all of us and lose their positions for it: a corrupt system that demands our attention.
John McLauchlan	Powell River, Canada	2015-12-03	When people's health is in jeopardy I want those in the know to be able to speak up without threat of losing their job for blowing the whistle on seriously dangerous practices!
Hermel Desjardins	Grand Falls, Canada	2015-12-03	We are entitle to know about what we breathe, eat.
Micheline Belisle	Lac-du-Cerf, Canada	2015-12-03	We, the people, have a right to know.
Lionel Arsenault	Grand-Sault, Canada	2015-12-03	La santé et l'environnement sont plus importants que l'argent pour les multinationales
jody young	Kaleden, B.C, Canada	2015-12-03	I'm signing this because it's time we stopped swallowing all the American FDA rhetoric and just blindly following suit in allowing certain meds, pesticides & food that's "safe" We need & demand full disclosure.
Laura Scarpelli	Lethbridge, Canada	2015-12-03	Our government has this far allowed chemicals in and on our food that causes sickness, disease and death. This needs to change!!!

Name	Location	Date	Comment
Jane Iverson	Britannia Beach, Canada	2015-12-03	Glyphosate is being applied in our Community (Britannia Beach BC) twice a year in an attempt to eradicate Japanese Knotweed. Hand cutting methods are far more effective, non toxic and likely less expensive. The health risks are being downplayed by the Invasive Species Council. There is an element of fear mongering about the devaluation of private properties to discourage people from protesting its use. We need to have full disclosure about the harmful effects of glyphosate so that even the ignorant can be convinced that it is a toxic herbicide.
Ken Fisher	Kelowna, Canada	2015-12-04	The TRUTH should be made public
Bernadette Letchford	Victoria, BC, Canada	2015-12-04	Canadians need to know the safely of Glyphosate.
Dean Morgan	Brooks, Canada	2015-12-04	Of my children's future
Bradley Mac Intosh	Sydney Nova Scotia, Canada	2015-12-04	There are entirely too many toxins in our food chain.
PD MacMillan	Toronto M9N 2C9, Canada	2015-12-04	I was concerned about Monsanto's RoundUp even before WHO linked it to cancer. Why is Health Canada dragging its feet on banning it?
Raymonde Laforest	Grand-Sault, Canada	2015-12-04	Totalement contre une telle décision! Je crois qu'il y a quelqu'un de gros et de fort derrière cette décision!
Dawn Colpitts	Notre-Dame, Canada	2015-12-04	I love nb and corporate greed is ruining it. Peoples health and mbs wildlife is at stake!
Linda McKelvie	Ponoka, Canada	2015-12-04	I'm worried about fall applications of this on the grains people and other animals consume.
Dean LeBlanc	Johnson Settlement, Canada	2015-12-04	i want them to stop using Glysofosate
Gaye Kapkin	Saint John, Canada	2015-12-05	I'm signing because I'm calling for the immediate reinstatement of Dr. Eilish Cleary to her position as Chief Medical Officer of New Brunswick. Furthermore, I am seeking clear and forthright answers about why Dr. Cleary was put on leave.
Denise Bruyere	Mansfield, Canada	2015-12-05	I am concerned for my children and grandchildren...so far we only have this planet to live on!!!
Carl Dahl	Tisdale, Canada	2015-12-05	We should have the right to know what's being sprayed on our food , land and water
Gerold Russello	TORONTO, Canada	2015-12-05	Monsanto PR war falls short: Séralini wins lawsuit http://anonhq.com/41353-2/
fran Neuman	Calgary, Canada	2015-12-06	I believe in quality not quantity, health and safety should be our primary concern. We can eat less and still be healthy, most of us consume too much food, look at how thin we all were in the 70's. Look at us now. The culprits are only trying to supply us with what we demand. Consume less meat and baked goods people.
David Sharpe	Saint John, NB, Canada	2015-12-07	personal health reasons
ricky lapointe	benjamin river, Canada	2015-12-07	I belive that this is a real concern, that needs to be addressed!
wayne mullin	bouctouche,new brunswick, Canada	2015-12-07	This is not exceptable and the government has to be held accountable.
Deana Latta	Amherstburg, Canada	2015-12-07	It's important to me to know what is in the food that I am eating. Most families eat what they assume is healthy. But what is healthy about glyphosate? Nothing. Stop allowing these poisons in our food!

Name	Location	Date	Comment
Blair Lindsay	Bathurst, Canada	2015-12-07	This poison is being used extensively in my home Province. I want to know how safe it really is.
Adam ketch	Fredericton, Canada	2015-12-07	No Trudeau's words... It's 2015.
David Lewis	Ammon, NB, Canada	2015-12-07	We need to know!
Brian Tozer	Sillikers, Canada	2015-12-08	Because I want it banned ,for ever
Jason Anthony	Abbotsford, Canada	2015-12-08	You are glyphosychotic if you don't sign this petition.
Don Anderson	Alert Bay, Canada	2015-12-08	Frightening how corporate lobbyists manipulate government for profit at citizens and environment expense including as we now see our health and safety. .
Patricia Buckley	Belleville, Canada	2015-12-08	There are NO safe levels...Please Act Minister Philpott.....
Bernice Shepherdson	Dryden, Canada	2015-12-08	Every single thing we drop on Mother Earth affects every living thing. People growing their own gardens for their own health are affected by all spraying and that in itself is wrong...plain and simple. We never get a say...politics and money drown out our voices.
James Gullison	Williamsburg, Canada	2015-12-08	The poisoning of our food,environment, with this Cancer causing spray must stop. It is nothing short of murder for our government to allow this to continue.
Michael Breneol	Moncton, Canada	2015-12-08	I am against the spraying of cancer causing cartogens and chemicals to stop the growth of hardwoods in our Crown forests.
Gilbert Lagace	Gilbert lagace, Canada	2015-12-08	I is not right for human to consume any of that shit!
Elaine Semler	Aurora, Canada	2015-12-08	I'm signing because I care!
Cathy White	Moncton, Canada	2015-12-08	Because I ☐! These big corps need to be stopped Reed in their tracks b4 our Mother Earth is dead!
Patricia Ellsworth	Fredericton, NB, Canada	2015-12-08	It is 2015 and we must do what is right.
Greg Cook	Saint John, Canada	2015-12-08	We do need multiple causes for self-inflicted genocide.
louise weber	Drayton Valley, Canada	2015-12-08	Absolute BS! This is a silent WW3 and Monsanto is a very irresponsible company that needs to be stopped.
Michael W Stoneleigh	memramcook, Canada	2015-12-08	The planet needs protection from the likes of Monsanto.
Chris White	Boundary Creek, Canada	2015-12-08	I love the woods and the traditions that go along with this enjoyment. It breaks my heart to see how in just 30 years our forests have changed in such a negative fashion. At the rate we are going my 8 year old will not see much of it by the time she graduates. We have an opportunity to stop poisoning ourselves and our government should act and assist us in doing so by disclosure.
jim bjork	huntsville, Canada	2015-12-08	during the election, tony clement said there was no science behind banning glyphosate; so here it is, tony!
Taryn Ross-Troy	Brampton, Canada	2015-12-08	No gmo
MISTER BARON	fuckoffsville, Canada	2015-12-08	Stop poisoning us!!!!
Toby Barazzuol	Vancouver, Canada	2015-12-08	It's critical that we understand the real implications of Glyphosate in our food. We are killing ourselves and our planet.
Lynn Roberts	Bocabec, Canada	2015-12-08	The health of Canadians is at stake where this chemical is used
Marlisle Carlton	Penticton, Canada	2015-12-08	Time to sweep out that lumpy rug.....
Ann Pohl	Bass River NB, Canada	2015-12-08	I have grandchildren.
Ritchie Sinclair	Pte des robichaud, Canada	2015-12-08	we need proactive actions from governments, not platitudes & excuses after the fact.
Trevor Morris	Lower Coverdale, Canada	2015-12-08	I worry about NB's environment, wildlife and the health and well-being of New Brunswickers.

Name	Location	Date	Comment
Sharon Caswell	Oak Hill, Canada	2015-12-08	STOP poisoning us all.
Alan Gough	Palm Desert, CA	2015-12-08	Monsanto is too big brother and must fail for freedom
Sheila Barazzuol	North Vancouver, Canada	2015-12-08	I have believed this for some time and i am concerned for all humans in the future!!!!
edward corcoran	miramichi n.b., Canada	2015-12-08	im a woodsman and when this spray is used all animal and bird life vacate the area.it kills the food for deer,moose,birds etc and this does not bode well for our envirement
Jan Klyve	Frogner, Norway	2015-12-08	Because Glyphosate is murdering us all, including my children in Canada. It is time to charge Monsanto With intentional murder, and the EPA, FDA & gang too. Bless us all!
Jean Pyka	Salmon Arm,BC., Canada	2015-12-08	I am sick and tired of Monsanto messing about with our health!
Linda Benjamin	Shelby, MT	2015-12-08	The correlation of Glyphosate usage and various growing disease rates are serious and test records should be available to the public to make an educated decision in regards to their health.
Patricia Reavy	Stratford, Canada	2015-12-08	I live in a agricultural area and have already had cancer. Please stop this potentially life-threatening chemical.
John Fortner	Youngsville, LA	2015-12-08	Captain Obvious agrees.
terry wishart	harvey NB, Canada	2015-12-08	Brian Gallant's Liberal government has gone back on its word to uphold the independence of the CMOH office to work in the best interests of the health and wellbeing of the public by firing Dr. Eilish Cleary so they can facilitate further the crimes and ongoing stranglehold of the Province of NB by the Irving oligarchy. Shame!
Gordon M. Barton	Anola, Canada	2015-12-08	Monsanto is a human destroyer. This cause is well worth while.
Darren McMackin	Hammondvale, Canada	2015-12-08	I care about our environment,and equally as important I care about transparency in our government.
George Semler	Aurora, Canada	2015-12-09	I want to leave a country that is fit for my grandchildren to live in.
Alice Mangum	Virginia Beach, VA	2015-12-09	I do not want this toxic substance in my food and I will not buy any processed food If there is any possibility that it is a contaminant.
Donald Murphy	Stratford, Canada	2015-12-09	I will put my trust in nature instead man made chemical controls of nature.
Joanne Soucie	Cambridge, Canada	2015-12-09	I am concerned about the health and welfare of Canadians. I am an Integrative Nutrition Health and Wellness Coach
Christel Bodenstein	Vancouver, Canada	2015-12-09	We need independent studies on glyphosate. There is increasing evidence that it is harmful. The precautionary principle should prevail.
Ron Prins	Lacombe, Canada	2015-12-09	Glyphosate is having a terrible impact on our food systems and health.
Deborah Desilets	Bonnington, Canada	2015-12-09	This is a concern for us all.
Damla Parkan	Calgary, Canada	2015-12-09	i am signing because if there is any doubt about the safety of our food products, I believe we have to err on the side of caution.
John Biggs	Edmonton, Canada	2015-12-09	glyphosate is poisoning our microbiome as well as that of animals, the soil and the planet
Albert Carrier	Barnaby NB, Canada	2015-12-09	Show the results and retest in conjunction with its various solutions. They are the ones who are proving most harmful in world wide testing results.

Name	Location	Date	Comment
Jenny Hinsman	brewster, NY	2015-12-09	I'm signing this because our government and the FDA needs to understand that Glyphosate is killing people. Please ban Roundup. 250 million gallons are sprayed on crops per year, which gets into the water supply and our soil permanently.
Lisa Staples	Bedford, Canada	2015-12-09	As a health coach, I am concerned that we are being exposed to a dangerous, toxic chemical without independent safety testing.
lawrence turner	GLENDORA, CA	2015-12-09	i hate the poisoners and the poison they make you take
Craig Andrews	Nackawic, Canada	2015-12-09	I own a Hunting Lodge on a Crown Lease in N.B. and am witnessing the effects of this herbicide on the biodiversity of the area especially in relation to the whitetail deer population. It is not natural to limit regrowth of harvested land to a specific species and to use a chemical that has not had sufficient testing to ensure it is not harmful to humans and other animals.
Aaron Chubb	Saskatoon, Canada	2015-12-09	Our food supply and our bodies deserve to be treated with more respect than is being shown.
mike gallant	Moncton, Canada	2015-12-09	This is important , I'm signing so should you
Chris Larocque	Creighton, Canada	2015-12-09	I want safe food for myself and my children.
Ben McFadden	Riverview, Canada	2015-12-09	I don't agree with spaying..and I beleive we know enough about iy
Melody Fielding	Victoria, Canada	2015-12-10	I have been living in Portugal for 2 months and my and my husbands' "arthritis" have disappeared. I am very suspect of the food we consume in Canada. Please!! It is time to clean up our act!!!
Melody Fielding	Victoria, Canada	2015-12-10	My husband and I have been living in Portugal for 2 months and our "arthritis" has disappeared. I am suspect of our food in Canada. Please!!!! We must clean up our act!!
Jill LeBlanc	Saint John, NB, Canada	2015-12-10	Show the truth instead of hiding what is making us sick!! Grow some!
Ryan Wright	Saskatoon, Canada	2015-12-10	This is an extremely important issue to me.
gerd bader	jhb, South Africa	2015-12-10	i have ms and don't need more
Maureen Kelley	Rahway, NJ	2015-12-10	Glyposate is an alien amino acid that is used as a herbicide/pesticide. It can potentially interact wherever glycine can. Extremely hazardous to life.
Jim MacDonald	Fredericton, Canada	2015-12-10	It would be good to know if it's giving people Cancer and what are all the effects of it, Irving say's it is safe, are We to believe them...enough
Peggy Jenkins	Plaster Rock, Canada	2015-12-10	I am signing this because I have been diagnosed with fibromyalgia and it have devastated my life.
Lois pedersen	Lacombe, Canada	2015-12-10	For my Health and my Children and Grandchildren
Maureen Charron	Vancouver, Canada	2015-12-10	Big business has gained so much traction and has so much international power, that at times, it is beyond the reach of our governments and our (society's) control. The balance needs to shift back so there is transparency and people make the decisions.
Doug Wills	Aurora, Canada	2015-12-10	Monsanto Has Known Glyphosate Promotes Cancer Since 1981 Dr Mercola
Jessica Rudderham	Brandon, Canada	2015-12-10	Glyphosate is not only an herbicide, but is a carcinogen. Would you rather a few weeds in your field or a few tumours in your body?
Simeon Horrox	Goodwick, United Kingdom	2015-12-10	It's imperative that Glyphosate is banned globally to save the planet and all who live on it.
Sonsoles Breau	Scoudouc Road, Canada	2015-12-10	She tells the truth we need more people like that
Angela Hames	Edmonton, Canada	2015-12-10	I want to know

Name	Location	Date	Comment
Jessica Minaker	Innisfail, Canada	2015-12-11	Poisoning our people and our land is not how we make the true North, strong and free.
JUNE RIBALDI	IRIVNE, CA	2015-12-11	Yes because Monsanto has know since 1981 facts
Pawel Szopa	Nanoose Bay, Canada	2015-12-11	Glyphosate needs to be banned
Sharon Raeburn	Saint John, Canada	2015-12-11	Glyphosate has not been proven safe! We need a moratorium! on spraying on forests/ tree plantations until authentic Glyphosate testing is public/ public.
Emer Barry	Dublin, Ireland	2015-12-11	This is crazy stuff.Anyone with any common sense would not want this in their food !!
Eugene Gardner	Independence, MO	2015-12-11	I just had a new grand daughter born in PA, and I want her to experience the ultimate joy of having one, herself!!!
Ninon Hebert	Lévis, Canada	2015-12-11	I want farmers to go back to the old methods of cultivating. No no no Monsanto - no seed - no pesticide Nothing from MONSANTO. we need to save our earth - it's people and the planet.
Rebecca Champion	Rockford, IL	2015-12-11	I care about our health.
Ruth May	Oakville, Canada	2015-12-11	SICK OF GovMENTAL ILLNESS MAD SHILLS With MAD-SKILL-SETS! FOLLOW The HOLLOW BEHIVED HUBRIS! Of OBSCENE/DEPRAVED POWER-MAD MONEY MONKEY-MINDS! & Their BRUTAL-LIES That BRUTALIZE WE, The SOVEREIGN PEOPLE! TRACK These LIARS To THEIR LAIRS! ROOT-'em OUT! BRAVO! Anthony Samsel! RESPECT! ~*EveryDAY RESOLUTE HERO Of The Final RESIST-STANCE!*~ "ALL-IN" "ONE-LOVE!" "LIVE-WIRED" ~*TESLA-STYLE!*~
Jaan Kuum	Edison, NJ	2015-12-11	How can such a poison be allowed to be produced?
Noel Parrott	Norwood, Canada	2015-12-11	The pesticide industry cannot be trusted!The regulators cannot be trusted either!
Scott Bryan	Oshawa, Canada	2015-12-11	Trade secrets should not cause harm!
Nancy Strabac	Ste. Anne de Kent NB>, Canada	2015-12-11	A good society, lives in harmony with nature. Taxpayers, unknowingly are financing this harm..forest profits are taken, off shore, and help only the corporation, not the public.
Irene Williamson	Vancouver, Canada	2015-12-11	I, like I am sure most if not all Canadians, am concerned about the decline of peoples health in Canada and in North America and would like to know, since the WHO has declared glyphosate is "probably carcinogenic to humans" if independent studies have been done on glyphosate and where one might access the results...or even why it has not been banned by now considering the WHO's findings. Thank you.
Lucy Rolfe	Moncton NB, Canada	2015-12-11	Lets save the future generations by saving our water, land, and air!

Name	Location	Date	Comment
Linda Gordon	Saint John, Canada	2015-12-12	I'm tired of corporations testing on humans. It's about time the onus was on them to prove the stuff is safe.
Eileen Warren	Glace Bay, Canada	2015-12-12	It causes more problems than it is worth
Sonya Makaroff	Vancouver, Canada	2015-12-12	In line with the precautionary principle I would prefer to avoid the possibility of being poisoned, and expect to be allowed the choice thereof.
David Belliveau	Memramcook, Canada	2015-12-12	I'm signing because I can't remember when it became legal to poison the environment.
Todd Melton	Indianapolis, IN	2015-12-12	I care about All life and our planet...
Virginia Morris	Los Angeles, CA	2015-12-12	We need to stop using glyphosate to help future generations- of all species!!!
Melissa Severa	Mountain Center, CA	2015-12-12	I want glyphosate banned!
lauren sipone	courtenay, Canada	2015-12-12	I am tired of being used as a Guinea pig for corporations profit. It is time we learn to live within nature's parameters and flourish without capitalism.
Susie McDonell	Enfield, nS, Canada	2015-12-12	There's no way this isn't harmful
Penny Oyama	Burnaby, Canada	2015-12-12	Having heard Dr. Thierry Vrain twice, there is NO DOUBT in my mind that political leaders MUST rid the world not only of chemicals like glyphosate, but also of corporations like Monsanto!!!
Thea Marshall	Pie Town, NM	2015-12-12	It's not only genocide, it's profitable genocide. End it!
CHARMAINE NOEL	Barrie, Canada	2015-12-13	Ban this stuff already!!
Michael Forsyth	Lacombe, Canada	2015-12-13	Don't trust the US - they are corrupt
Linda Brine	Stratford, Canada	2015-12-13	I'm signing because so many of our public institutions with a duty of care have been corrupted by corporate interests. Big Pharma, Big Agra, Big Oil, etc. The toll is enormous for the human, plant animal occupants our finite little planet. Please do the right thing.
Joanne Fletcher	Harvey, Canada	2015-12-13	Health concerns should be a priority for any government that cares about it's people.
Anita DEN DIKKEN	DELTA, Canada	2015-12-13	As do so many others, I, too, am very concerned about our environment and the toxins unleashed on it. Let us proceed with caution, using the precautionary principle.
Susan Schachinger	Flesherton, Canada	2015-12-13	This chemical is in everything we touch, eat, smell. We deserve to know how it will affect our health, not to mention our environment, wildlife. please Prime Minister Trudeau, please shut glyphosate down.
Charles Walton	Winnipeg, Canada	2015-12-13	This is important, as it is a life and death issue for the inhabitants of our planet and will cause irreparable damage which is irreversible. What will it take for you to reconsider withdrawing your support of the manufacture and distribution of the product?
Alana lewis	Windsor Junction, Canada	2015-12-13	I have kids, hate cancer and other early deaths
Neil Erickson	Vernon, Canada	2015-12-14	Glyphosate causes cancer and is linked to autism. WHO .
Ron Ettinger	Langley, Canada	2015-12-14	I truly believe we are being poisoned on a daily basis!
Sherrie Moore	Pahoa, HI	2015-12-14	I am a U.S. citizen and convinced that our EPA has been totally infiltrated by and sold out to the chemical companies. Better luck to Canada, do NOT be foolish enough to follow the lead of the Corporate Plutocrats here in the USA.
Reta Meloche	Tillsonburg, Canada	2015-12-14	I am against chemicals that harm animals & people & worse still companys trying to hide it.
Suzanne Price	West Vancouver, Canada	2015-12-14	We need to get the chemicals out of our lives, once and for all.

Name	Location	Date	Comment
Shelley Wilson	Eastend, Canada	2015-12-14	im tired of our food industry poisoning the hell out of us.
Annie Purse	Red Deer, Canada	2015-12-14	I want a healthier world for my grandkids.
Mary Jane Eason	Winnipeg, Canada	2015-12-14	I am concerned about the effects of glyphosate in our food, water, air and soil. We need science in the interest of the public good to objectively address the health and environmental concerns on exposure to glyphosate. This means that corporations that stand to benefit by using glyphosate have a conflict of interest on this issue and their opinion must not be given scientific credibility. I would also appreciate language that is respectful. Name calling on a petition is not effective. Name calling only deflects from the issue . Mary Jane Easoin
Pamela Bolton	Hampton, Canada	2015-12-14	I'm signing because all citizens have a right to know if tests were done, if they were done in a valid scientific manner and the unfiltered results of any tests.
COLLEEN DITTO	Calgary, Canada	2015-12-14	I feel we are all being slowly poisoned. There are millions of children who are just not well!
William Braham	Pahoa, HI	2015-12-14	Our lives' health depends on a total and complete ban of chemical-based global agribusiness associated with corporations like Monsanto, Dow, etc.
Janice Wristen	Kendal, Canada	2015-12-15	I'm signing because I don't believe there are records to show the safety of glyphosate. I expect, in the dearth of evidence that the only logical and moral step forward will be to put a freeze upon the use of these chemicals in all food products while testing is completed by AN INDEPENDENT SOURCE, not by the company!
Carolyn Shipley	Grayslake, IL	2015-12-15	It is criminal negligence to permit it's continued use. It is a crime against the world.
Anne Goodwin	Linden, Canada	2015-12-15	I live in an area where they are spraying every fall and I always end up sick and so does my neighbour. We are hearing from more and more that are saying the same thing.
Robert Farough	Essex, Canada	2015-12-15	I agree. If proper tests have been conducted then let the public see the results. If it is so safe. If tests have not been conducted or have failed to verify the safe use of Glyphosate then this product should be banned until it has been rendered safe to humans.
Stan Shyu	Toronto, Canada	2015-12-16	For everyone's health
Ernest Moniz	Langley, Canada	2015-12-16	I do want the Government to do their job and not be influenced by corporations that are in a conflict of interest position.
Megan McKenzie	Kincardine, Canada	2015-12-16	The government is allowing too many unsafe products to be used that are causing cancer and other diseases.
Steve Hanniman	Tiverton, Canada	2015-12-16	I'm concerned about the safety of our food supply.
Cathy Jones	Hinton, Canada	2015-12-16	I know something is amiss in our food system. This means foods that nourish the bodies of the men, women & children of Canada is suspicious. I do NOT want to be poisoned or any of my friends or family. I hope the government of Canada will not continue to be complicit in letting this issue slide.
Connie Toohey	Kingsport, TN	2015-12-16	Yes, I too have talked with Dr. Vallianatos about how to reduce the pollution here in Kingsport, Tn.. One of the industries here is a Canadian paper plant known as Domtar. They are polluting our river and air and us.
Sue Sipila	Kincardine, Canada	2015-12-16	concerns for myself and family members of unsafe food and water consumption.
Robert Manke	Nevada, IA	2015-12-16	I want science untainted by political massage of corporations.
Peter Knight	Medicine Hat, Canada	2015-12-16	We need to get dangerous chemicals out of our food chain.

Name	Location	Date	Comment
tammy paradis	Noonan, Canada	2015-12-17	I want to protect the health of our kids and grandkids, without them, there is no future.
Armand Pouliot	St-Épiphane, Canada	2015-12-17	C'est très très important
Barbara Williams	Barrie, Canada	2015-12-17	Shocking!
Ron -Anna Winship	Newport Beach, CA	2015-12-17	We know Evaggelos...
Johann François-Bongarçon	North Vancouver, Canada	2015-12-17	Because I am watching you poison your people and I will not rest until I know the accomplices to this murder are in prison.
Pamela Rempel	Creston, Canada	2015-12-18	I think regardless of what they find we need a true independent testing with no bias or payoffs.
Kelly Franklin	Nanaimo, Canada	2015-12-18	I'm signing because my research on glyphosate unalterably steered me to the realization it is a poison.
Dawna Sturrock	Egbert, Canada	2015-12-19	We are being poison
Julie Bancroft	Nova Scotia, Canada	2015-12-21	I have the right to know what I am eating
Isabelle Henri	Montreal, Canada	2015-12-21	I know these are not safe and are banned in the EU, there is no reason they should be allowed here.
David Lam	vancouver, Canada	2015-12-22	Scientific proof for the public to decide. No filtered results we want raw data.
eric johnson	Saint Catharines, Canada	2015-12-22	THIS IS DISGUSTING.... HEALTH CANADA SHOULD BE INVESTIGATED FOR MASSIVE CORRUPTION ...
Lianna Bolt	Chilliwack, Canada	2015-12-24	PLEASE SIGN THIS! THIS AFFECTS EVERYONE!
Andre Piver	Nelson, Canada	2015-12-25	As a medical doctor , I understand the precautionary principle. The bigger issue is restoring funding for independent research into basic science questions; not only mapping the path to a (applied science) patent but mapping the ecosystem along that path, contours and territory .
SUSAN EYRE	SLOCAN PARK, Canada	2015-12-25	It is imperative that the most up-to-date research, data collection and science papers are used to make informed decisions. I am aware that outdated data has been used, instead of the most recent. Taxpayers should not be paying for shoddy research, and now have a critical eye on such decisions.
Isobel Garry	Oakville, Canada	2015-12-30	Our planet and it's ecosystem is in crisis and needs saving. We have systematically polluted our Earth, which is a shared space and should be considered as such by world leaders when corporate decision making impairs the basic human right to health. We have polluted our food, water and air in the name of progress and prosperity by those whose goal is financial gain. Instead of creating simple goals to augment our basic needs for clean air, clean water and clean food to invest in a better world for all, decisions and allowances in the name of progress over many generations have completely compromised our future health for those living now, and particularly, in generations to come. I truly struggle to understand how scientists who develop new biologics and the chair people, in companies like Monsanto, sleep at night let alone live with themselves. With the production and widespread use of Glyphosate alone, not only is our current world population at increased risk for disease in this lifetime, thanks to their unwarranted contribution to the food chain ... but future generations are perhaps at even greater risk. To be honest, it may be too late. But still, we must have hope and act responsibly. Help the human race. Help to obliterate Glyphosate.
Indra Sian	Delta, Canada	2016-01-01	I believe that chemicals should not be used on our food

Name	Location	Date	Comment
Fran Lumsden	Nanaimo, Canada	2016-01-02	I have long known about Roundup and its harmful effects...where are our watchdogs?
Jack Baird	Langley, Canada	2016-01-02	The government needs to be favouring the health concerns of the people of Canada by determination of science over lobbying money and corporate profits.
valerie cormier	winnipeg mb, Canada	2016-01-03	Wake up to the reality that Glyphosate's cause serious health issues !
Anne Temple	Hartland, WI	2016-01-04	Glyphosate should not be produced -- ever again.
Joyce DeLaVergne	Sandpoint, ID	2016-01-04	I'm signing because I'm concerned with the quality of food that is being produced in our country.
zen honeycutt	Mission Viejo, CA	2016-01-04	Much of the grains and most of the canola in our vegetable oils used in restaurants comes from Canada. These crops are often sprayed with glyphosate. I don't often eat out, but if I do I don't want weedkiller in my food.
Barbara Groundwater	Ammon, NB, Canada	2016-01-04	I do not believe Glyphosate is safe to ingest.
Alice Thomson	Winnipeg Manitoba, Canada	2016-01-04	Just what the heck is going on AND who is the person we can get REAL info on what is happening , my opinion is IF it has Monsanto involved it is NO GOOD for anyone or anything. Just how much crap is being fed to the population without their knowledge ??
Sharon Delaney	Toronto, Canada	2016-01-04	I am disgusted with DuPont Monsanto
wendy challis	kitchener, Canada	2016-01-04	It's dangerous for people and animals.
Terry Lawrence	Surrey, Canada	2016-01-04	We need to thoroughly study any insecticide or herbicide before it is permitted to be sold. Herbicides and Pesticides are specifically designed to kill plants and animals, either through direct toxicity or indirectly by altering some aspect of their cell structure or DNA. It is very doubtful that either of those can ever be safe, but many toxins are short live and break down into non-toxic by-products. Substances that interfere with DNA or cell structure are potentially much more dangerous, and may in some circumstances be replicated through generations.
Alexander Kennedy	Cut Knife, Canada	2016-01-04	Glyphosate has been listed to cause cancer in USA.
Wendy Appleton	Bracebridge, Canada	2016-01-04	I believe we have the right to know
Aline Blaney	Burlington, Canada	2016-01-04	I am signing because of the harmful synergistic effects glyphosate has when combined with vaccines. containing mercury and aluminum and also because it is carcinogenic. It should not be allowed in our food chain.
Evert Weenink	Blackfalds, Canada	2016-01-04	eborah
Lynne Blanc	Edmonton, Canada	2016-01-04	This has gone on long enough; "because it's 2016"...
Heather Donaldson	Squamish, Canada	2016-01-04	i'm signing because I don't want people die from cancer unnecessarily Hugs Heather
Johann Burkhardt	Toronto, Canada	2016-01-04	This involves every single person and farm animal on the continent. Let's open the debate in public then have a vote on the topic. We need to protect open debate! Dr. Eilish Cleary must not be silenced!!!!!!!!!!!!
Vanessa Harris	Edmonton, Canada	2016-01-05	I value LIFE and GOOD HEALTH. Responsible people do not poison themselves OR the world they live in!!

Name	Location	Date	Comment
Brian Ey	Campbell River, Canada	2016-01-05	Time to fight back , our government & those in power & position to protect us have been hurting & killing us on countless situations being paid by Big business to just pass it through with no testing or testing covered up by lies & falsified documents has gone on far to long & it's time we all stood up to make them accountable & lose their positions of office & authority have charges brought against them to pay for their crimes & be put in Jail . it is time we get healthy again physically , mentally & Spiritually !!!
Gerry LeBlanc	Rogersville N.-B., Canada	2016-01-05	It is my opinion that Glyphosate is poisoning the environment and it is a Crime Against Humanity. Every living creatures has a right to life.
Samuel MacLaggan	Taxis River, Canada	2016-01-05	Glyphosate, why are you poisoning us with it?
Richard Leger	Toronto, Canada	2016-01-05	I'm signing because it is our responsibility as individual citizens to resist the systematic poisoning of our environment, else we will all individually be responsible for the consequences of our silence.
reg barton	minto nb, Canada	2016-01-05	I see the damage that the hericides (glyphosate) is doing to our forest and wild life in this province.
Arthur Damase Doucet	Sormany NB, Canada	2016-01-05	It KILLING US
Christian Plourde	Moncton, Canada	2016-01-05	Spraying Glyphosate will cause adverse health effects for many Canadians, and it will also cause cancer in humans per WHO.
Nicole Mallet	Shippagan nb, Canada	2016-01-05	IL faut arrêter épandages d'herbicides aux Nouveau-Brunswick et partout au Canada!
Ashley Martin	Taylor Village, Canada	2016-01-05	We deserve the right to know!
KRISTINA NORRAD	Basswood ridge, Canada	2016-01-05	I know it kills
Diane Doiron	Shediac, Canada	2016-01-05	I believe the spray is poisonous, not good for our health and the same for all animals
Michael Matchee	Meadow Lake, Canada	2016-01-05	Crimes against humanity should not be forgotten.
Léo-Paul Lévesque	Moncton N.-B., Canada	2016-01-05	Il a raison ...
Brent Dillon	Keswick, Canada	2016-01-05	I don't agree with killing all the natural hard wood species. Mother nature will take care of our forests.
Heather Wilkins	Keswick, Canada	2016-01-05	Glyphosate is being sprayed within 1/2 kilometre from my new home by NB Power to kill undergrowth under a powerline. No one in the area is ever notified of date and time of spraying and no information is provided to those in the area regarding the dangers of glyphosate. We walk our pets daily in that area and there is wildlife in the area, what will it do to them? Will it leach into our well water? How can we protect ourselves, our pets, and our property? Answers need to be given to the public!
Danielle Saulnier	Kedgwick Ouest, Canada	2016-01-05	I'm signing because many country did baned glysohate why not Canada! No more testing on animals!
Clara Tassone	Vaughan, Canada	2016-01-05	<p>Researcher finds internal Monsanto documents revealing they knew over 30 years ago that glyphosate caused adenomas and carcinomas in the rats that they've studied</p> <p>Glyphosate is patented as an antibiotic, and research shows Roundup damages your gut flora. In addition to chelating vitamins and minerals, glyphosate disrupts bacteria-manufacturing amino acids</p> <p>Secret documents and unpublished industry studies clearly show Monsanto knew in 1981 that glyphosate causes tumorigenic growth and carcinomas in multiple organs and tissues</p>

Name	Location	Date	Comment
Maria Fallone	Woodbridge Ontario, Canada	2016-01-06	I'm sick and tired of the government allowing such products so harmful to humans
Virginia balch	Madison, WI	2016-01-06	Because maybe, just maybe our governments should get their acts together and wake up and actually realize the crap they put in our food, drinks etc is NOT safe For god sakes get off hour butts and wake up. Would you allow your own families to have this? If so you must really hate them
Tom McGraw	Saint John, Canada	2016-01-06	I want to know the truth.
Kathleen Ford	Toronto, Canada	2016-01-06	I want glyphosate banned.
Jean Richard	Dieppe, Canada	2016-01-06	Want to hear what the medical chief of this province had discovered in her research and why is one of the smallest provinces in Canda has the highest number of cancer cases.
Michelle Kelly	Tbay, Canada	2016-01-06	I want safe glyphosate free food for my family
Anna Gofeld	Maple, Canada	2016-01-06	I want safe food!!!
Patrick Parry	Bartlesville, OK	2016-01-06	terrible for our wildlife
Ali Kouchak	Aurora, Canada	2016-01-06	Transparency is always a good idea.
Suzanne Keeptwo	Gatineau, QC, Canada	2016-01-06	I believe in a healthy community, country and globe and MUST be able to trust our elected leaders believe in the same for the benefit of all.
Douglas Jackart	Lakeville Corner, Canada	2016-01-07	I wish to have everything known about chemicals being used by the NB gov't. As a cancer survivor whose oncologist has been unable to determine what has caused this illness, I support this petition for full disclosure on aLL chemicals that have been given the so called "green light"!
jacinthe larouche	Sainte-Béatrix, Canada	2016-01-07	Jacinthe Larouche
a miller	Elsinore, CA	2016-01-08	Canadian people need to know what is going on with their air, water, and land in relationship to the Industrial Farm Crops. They need to know what insecticides are being sprayed on their food and hopefully ask for organic foods which will create more jobs and variety of crop and rotation farming techniques. go Canada join the revolution against glysohate.
Adam Van Es	Vancouver, Canada	2016-01-08	Tired of being poisoned
Debbie Kriz	Flesherton, Canada	2016-01-08	Which would include stopping the spraying of Ontario forests and hydro corridors poisoning wild animals that hunters think are 'clean'. And create GMO free zones for organics to grow without threat of contamination
Sara Morton	Chilliwack, Canada	2016-01-08	I'm concerned about the environment. I don't use any pesticides myself...."give me spots on my apples, but leave me the birds & the bees....." (Joni Mitchell)
Alvin Schlangen	Freeport, MN	2016-01-09	Our health depends on this info and our lives depend on our health
Hannah Hoh	Delta, Canada	2016-01-09	I really would want to know the truth about glyphosate - a thorough, long terms animal/human health test results, if possible at least 10 years research result.
cynthia newcombe	Moose Jaw Saskatchewan, Canada	2016-01-09	canada needs to be a country to be proud of leading the way in safe foods and enviroment, more people need to be made aware of these problems
Jennifer Correia	Quispamsis, Canada	2016-01-09	.
Lesley Brooke	Newmarket, Canada	2016-01-09	Glucophage is not safe
N A	Saint John, Canada	2016-01-10	We do not need to be using chemicals to kill young hardwood for the sole purpose of boosting production and profits for multi billion dollar company's. Our health as well as the health of the wildlife is far more valuable then an extra 2% boost in softwood.

Name	Location	Date	Comment
seth foster	cocoa beach, FL	2016-01-11	Glyphosate is a probable human carcinogen and it's in our air, land, water, and soil.
Ronald Robichaud	Cormier Village, NB, Canada	2016-01-13	I care about the future of all of Canada's health and the truth about the safety of glyphosate should be known before it's used.
Robert Robinson	Anagance, Canada	2016-01-13	Very concerned!!!!
Justin Cormier	Springfield, Canada	2016-01-13	It is our right to know
james burris	Riverview, Canada	2016-01-13	I think Glyphosate is harmful to humans and our natural environment.
Wendy Holmes	Didsbury, Canada	2016-01-13	Too many people are have adverse health issues from an abundance of chemicals in our food. If our new government truly wants to be transparent, lets begin with our food. We have the right to know what is in it! This chemical is being sprayed on our food, even non gmo crops - to desiccate crops before harvest. Ban Glyphosate in Canada!
William Buckels	Gimli, Canada	2016-01-16	All studies that are related to public health should be transparent by default and accessible to all citizens of Canada, regardless of what Corporate entity paid for the study. If any study has been suppressed then the individuals or entities who repressed the study should be legally accountable, including under the Criminal Code of Canada.
Frank MacDonald	Fort McMurray, Canada	2016-01-16	What will happen when we do not have the bees
chris doole	Winnipeg, Canada	2016-01-16	governments have been stupid about this
Andrew Sloss	Roberts Creek, Canada	2016-01-16	There needs to be much more transparency (well any transparency would be appreciated) in the process of accepting any biocide, or Genetically re manufactured entity
Douglas Cotton	Southampton, Canada	2016-01-16	Poison that you say is safe I want you people that think it to eat it
Beverley Christensen	Sorrento, Canada	2016-01-16	Glyphosate not good for the organisms in the soil...prove it's good for human food.
Ron Findlay	Inwood, Canada	2016-01-17	the co(Monsanto)claims this stuff is harmless When it alters our cells thus changing us and promoting deseas in our bodies .
Tom Ostero	Taylor, Canada	2016-01-17	The two year study on GMO corn and glyphosate contaminated water fed to two hundred rats ,conducted by the French molecular biologist Gilles-Eric Seralini, resulted in 70% of the female rats developing massive mammary tumors. Just under 1 in 2 males, and just over 1 in 3 female humans develop cancer. Are we, the unsuspecting public, the "Lab Rats " of a now 42 year, experiment?
Donna Soutar Bilan	North Bay, Canada	2016-01-17	Working with glyphosate in the fields killed my father too young.
Kelly Anne Smith	North Bay, Canada	2016-01-17	glyphosate is poison. get it out of our atmosphere.
Kim Lucas	Okotoks, Canada	2016-01-17	These pesticides are out of control an ruining our countryside
Chad Chambers	Pennfield, Canada	2016-01-17	I'm concerned for all nb people and there health as I have seen some over the last 10 years what so many close friends and relatives have gone thru. It's a know fact that Irving is spraying this chemical that cause many illness. Also the farmers were told they wernt allowed to spray on there crops now why is Irving allowed. Oh ya we forget one thing Irving runs the maratimes.
Janice Henly	Prince George, Canada	2016-01-17	I believe this product has detrimentally affected the wildlife populations in northcentral BC.
Tania Tuer	Calgary, Canada	2016-01-17	I am very concerned about my children's health and the far reaching impacts these chemicals are having on our planet.

Name	Location	Date	Comment
Paul Zulauf	Toronto, Canada	2016-01-17	science and awareness are essential to the integrity of our civilization. The food we eat should be tantamount to analyze and understand. If a chemical company intentionally or incidentally is killing pollinator species, harming human health and polluting the environment, then they SHALL NOT profit while inducing suffering and destruction.
Jane Paquette	Woodstock, Canada	2016-01-17	The health of the planet matters far more than the corporate profits gained by endangering it. Governments should represent the population not the corporation.
Dianne Mowdy	Winnipeg, Canada	2016-01-17	I am very concerned about the safety of our food supply, which I believe Government has an ethical and moral responsibility to protect. Too many governments have succumbed to Corporate greed and influence and have unleashed toxic products into our food supply. It is time that Government institutes the "precautionary principle" with respect to food safety and stops the use of Glyphosate until credible, independent research that demonstrates its safety in the human/ animal/plant food supply chain is demonstrated. Thank You.
Cynthia Gallagher	Hanwell, Canada	2016-01-17	I honestly feel our PM Trudeau wants to live a healthy and safe environment for not my children but his as well. I trust PM Trudeau will do the right thing. Cynthia
Jerri Wheatley	Centennial, CO	2016-01-17	I want non toxic food to eat for all people.
lauri poirier	lasalle, Canada	2016-01-18	I want to live .
Tom Gallagher	Hanwell, Canada	2016-01-18	I'm signing because I've lost faith in our elected officials giving a shit!
Daiv Mowbray	waterloo, Canada	2016-01-18	Stop poisoning the planet and its people.
George Neville	Ottawa, Canada	2016-01-18	In addition to alleged glyphosate tests on target animals, we need to know if such tests were done on bees, particularly honey bees and bumble bees. If not, then such testing of glyphosate solution spray must be done on bees and other pollinators, because these insects drink from puddles of spray on the fields, etc., and they become inactive from it, disoriented, and have been seen to die at the edge of such puddles.
Madeleine Love	Benalla, Australia	2016-01-19	Thanks for getting these statements up.
Gottfried Glöckner	Germany	2016-01-19	http://gut-gemacht.123webseite.de
Mike Schell	Olds, Canada	2016-01-19	I want the truth
Paul Auerbach	Douglaston, NY	2016-01-19	I'm aware that profit-driven corporations will choose dollars over human health. They must be monitored with the eyes of a hawk.
Peter Novotny	Port Alberni, Canada	2016-01-20	Our bees are dying
Lisa Dufresne	Guelph, Canada	2016-01-20	NOW! Please.
Holly Mackenzie	Seymour Arm, Canada	2016-01-24	There's enough concern over many years now - let's look into it closely.
Sheila Chillson	Etobicoke, Canada	2016-01-29	It's time to clean up our environment!
peter gold	Nanaimo, Canada	2016-01-31	I'd like to know what I'm eating isn't going to kill me or my kids
Debbie Burkhart	Victoria, Canada	2016-02-01	We need to rid Canada of all GMO seeds and crops.
Kevin Aubin - Depatie	Alexandria, Canada	2016-02-02	We should be wise and seek what is best for our people.
Peter Exel	Barrie, Canada	2016-02-03	Both my boys have Autism and I have Diverticulitis
Monica Petrie	Pender Island, Canada	2016-02-03	I believe that glyphosates are carcinogenic, kill beneficial soil bacteria and there is no "safe limit" Please do your due diligence concerning possible harm to soil, plants, pollinators, birds, animals and humans.

Name	Location	Date	Comment
Amanda Nickels	Anola, Canada	2016-02-04	Because the citizens of this country deserve NOT to be poisoned knowingly by their government. We are a first world country with first world standards.
Andrew Gilmour	Bridgetown, Canada	2016-02-04	The WHO has concluded that glyphosate is "probably cancerous". http://www.cbc.ca/news/canada/new-brunswick/herbicide-chemical-glyphosate-probably-carcinogenic-who-agency-finds-1.3018545
Harry VanZyllDeJong	Okotoks, Canada	2016-02-04	I'm tired of big companies poisoning us just to make a buck.
Philip Hoberg	Halfmoon Bay, Canada	2016-02-04	Because I want to know the truth about glyphosate and if is safe
Dianne Dawe	Winnipeg, Canada	2016-02-04	We need to know what we're eating and how it may affect us down the road. I am fed up with drug companies pushing their stuff onto the unsuspecting populace and our government going along with it. Government is supposed to be "for the people", not for what they want to line their pockets. I am sick of this attitude that they can do what they want without consulting and making everything known to the public.
Patricia Wilson	Burlington, Canada	2016-02-05	We as Canadians need to know that the people in charge actually care about their fellow Canadians and don't just approve for a bonus from the company they support.
David Lochhead	Ottawa, Canada	2016-02-06	You are approving it on the public's behalf, well the public would like to see the evidence first before we approve it.
Kim Hruden	Winnipeg, Canada	2016-02-07	Healthy food is a right of all people. For profit at any cost ecocidal practices must be stopped if we are to survive.
Svetlana Sapon	Maple, Canada	2016-02-08	Health for the mother of Earth and ourselves.
Isabelle Sampson	St. Peters, Canada	2016-02-09	We all deserve to know the truth!
Nicole Wylie	North Saanich, Canada	2016-02-10	The general public have no idea that wheat is sprayed with glyphosphate just a few days prior to harvest as a "convenient" way of desiccating it. I have a huge problem with this!
Bernadette Sampson	L'Ardoise, N.S., Canada	2016-02-10	I'm tired of our government not doing their job! Monsanto is going to end up killing us. My government's job and duty is to investigate this and keep Canada safe. I voted for Justin I hope it was not a mistake! God bless Canada!
ANDRE LEFEBVRE	Picture Butte, Canada	2016-02-13	Every summer is a traumatic season for us, and especially my wife who suffers from chemical sensitivity. We live in a rural area and planes fly about to spray all through summer. We don't know what is used, but we can smell it. This is 2016!! STOP IT ALREADY!!
jenn martian	calgary, Canada	2016-02-13	glyphosate is poison
Bill Friesen	Bowser, Canada	2016-02-14	The public has the right to know what the contents are of any material used in the public domain.
Norma ButZ	Edmonton, Canada	2016-02-15	My son died less than two months ago of pancreatic cancer. He did not want to die and did not deserve to die. My heart is shattered. This needs to be taken off the market and our food system cleaned up. Please restore humanity in this country.
Michele Bougie	Ottawa, Canada	2016-02-15	This is a health issue that affects everybody
Judy Green	Richmond, bc, Canada	2016-02-18	Monsanto's glyphosate is used on industrialized farmed Round-Up Ready GMO crops which are NOT healthy. This practice is destroying the natural ecological balance of soils. This is a Big problem in the U.S. and I assume here in Canada (Canadian Agricultural) as well. Disappearance of The Honey Bee??? The use of Glyphosates should be banned.
matt schroetlin	Aurora, CO	2016-02-20	Scared of my own food

Brian Lee	Hoffman Estates, IL	2016-03-19	I want an end to the use of these chemicals
mehdi najari	Saanich, Canada	2016-03-19	Stop killing people for corporate interest.
Regina Creeley	Hudson, ME	2016-03-19	I'm signing because more and more children have developmental disabilities and Stephanie Seneff from MIT states that glyphosate and vaccine ingredients produce developmental disabilities. The vaccine health studies were not done on children with body burdens of glyphosate.

Name	Location	Date	Comment
Angela Verley	Herefordshire, United Kingdom	2016-03-19	Glyphosate needs to be banned. NOW!
Lisa Hopkins	Australia	2016-03-19	I want a future for my children's!
Shaun Caffet	Regina, Canada	2016-03-19	We need to protect ourselves and future generations. This has to stop now.
Doreen Miller	Boston, MA	2016-03-20	Glyphosate destroys health and life. Ban it now.
Heather Chang	Monterey, CA	2016-03-20	The unrestricted use of glyphosate has gone much too far. It is a huge problem in the US because Monsanto does everything in its power to refute the evidence of harms caused by this very toxic substance. Please ban glyphosate containing products from the market .
Pamela Hall	Santa Rosa, CA	2016-03-20	World wide health risk!
ronald atkinson	Australia	2016-03-20	Deadly poisonous to the Human Race. Immediate BAN World wide needed NOW.
frederick churchill	Montreal, Canada	2016-03-20	Monsanta doit etre arreter!!
RENE M. PARSONS	RUMFORD, ME	2016-03-21	Glyphosate is BAD NEWS for all life on planet earth!
Ben Samson	Pembroke, Canada	2016-03-21	I am signing because I believe everyone should have a right to choose what they eat and do, at least label this garbage.
Robert Castonguay	Prince George, Canada	2016-03-22	What goes into the food chain concerns ALL humans .
Karen Boyd	Osgoode, Canada	2016-03-22	Monsanto products are killing our planet - they have total disregard for anyone's safety. I want a place free of harmful chemicals for my grandchildren to grow up in.
Karen Allen	Duncan BC, Canada	2016-03-22	I have no doubt that this is one of the biggest poisons in our world and is affecting all of us and destroying our health. Glyphosate needs a global ban and should not ever be replaced with a similar chemical.
Greta Jansen	Courtenay, BC, Canada	2016-03-23	The Monsanto monster has to be stopped. Anyway, the weeds are already showing resistance to Roundup and growing stronger and faster than ever while the land, insects, birds, animals and air are poisoned. Follow the money
Dyan Obrien	Vancouver, Canada	2016-03-24	This needs to stop, please Mr. Priminister!
Anja Noel	Vancouver, Canada	2016-03-24	Thank you Tony! Such issues should be a main focus during election time. By now most of us know what empty promises, well-meaning speeches, hot-dog BBQ's and kissing babies really amounts too....
Mary Baker	Quesnel, Canada	2016-03-24	we have a right to safe food and the right to know the truth and the right to have people we elected to do something about it!
Angela Schmidt	Newcastle, WA	2016-03-25	I believe governments should be open and transparent and it could be that glyphosate is safe to use.
Peter Henry	Oshawa, Canada	2016-03-26	tHERE MUST BE A BETTER WAY
Guy Brideau	Memramcook, Canada	2016-03-27	I care and deserve to be aware of what you are feeding us.
Carmel Richards	Georgetown, Canada	2016-03-28	The author is correctly requesting safety data for product. It seems curious that such potent herbicide does not have supportive documentation at hand, available for reference.
Marilyn Riley	Markham, Canada	2016-03-29	This chemical should be banned. Any studies done by Monsato the manufacturer of this chemical should be suspect.
Christina Hamill	Duncan, Canada	2016-03-29	I'm very concerned about the use of herbicides for the safety of human beings, animals, insects, and the life cycle of bees which secures our food cycle.
Anna Butler	Paradise, Canada	2016-03-29	The health of the people is important, we need to speak out to keep out those chemicals that are damaging to our health.

Name	Location	Date	Comment
Nadine Sheppard	North Vancouver, Canada	2016-03-29	If the results are kept under lock and key, there absolutely is something to hide.
John Dwyer	Vancouver, Canada	2016-03-30	Open, responsible government should publish test records re public health issues.
Peter Probst	Surrey, Canada	2016-03-30	Gmo is a crime against thousands of years of smart selective breeding of pest and parasite resistive crops, only to make more profit and completely control the food chain. Supported by governments in Complicity and even paying with our own tax money for these crimes. Buying seed companies and destroying proven crops. Criminal, extremely criminal
Sherri JACKSON	stayner, Canada	2016-03-30	The legal system needs to create precedent whereby human rights and the safety of human lives are given priority over corporate profits.
Kate Chung	Toronto, Canada	2016-03-31	I am concerned about safety for people and the environment.
Wendy Sharpe	London, Canada	2016-03-31	I want Canada to be able to grow SAFE food for my children and grandchildren.
Olivia Tawiah	Düsseldorf, Germany	2016-04-01	It is unacceptable, that those who poison us never have to proof the safety of their products. This means, we are all part of the test, without being asked. And when the test fails, we are the collateral damage. But when the damage is done, no sorry and no money can mend it. That's why I firmly believe: No release, no authorization, no license without transparency on safety tests and clear proof of safety.
Kristy Franklin	Windsor, Canada	2016-04-01	People are getting sick, the environment is being affected, this is a huge concern.
Arlene Saunders	Elora, Canada	2016-04-01	The risk of not knowing the safety of this chemical is too great!!!!
Opal Hines	Hardwood Lands, Canada	2016-04-01	I care.....
Sandie Jordan	Courtenay, B.C., Canada	2016-04-01	I want to know this information
JANICE Smalley	NEWCASTLE, Canada	2016-04-01	We need to wake up and stop destroying our agriculture with chemicals. Please stop destroying the planet.
Terri Reardon	Chicago, IL	2016-04-01	With the ever-increasing proliferation of Roundup Ready GE crops being grown in Canada and the US, causing an exponential increase in the incidence of glyphosate being introduced into our air, water and food, we MUST face the truth about potential dangers of this probable carcinogen.
Cathy Wolfe	Alexander, Canada	2016-04-01	It is important for the legitimacy of governmental decisions that information like this be openly available to the public.
Helen Grond	Hornby island, Canada	2016-04-01	I believe glyphosate is potentially dangerous and needs more attention
Tom Rankin	Kamloops, Canada	2016-04-01	I don't trust the govt. and I don't trust Monsanto or other mega-corps. Be honest with us. Release the data, please.
Shannon Warwick	Saluda, NC	2016-04-01	No more poisons!!!!
Fran Kwiecien	Courtenay, Canada	2016-04-01	I suffered horribly from fibromyalgia for many years & still do on occasion & I believe it is all related to toxins in our environment. Glyphosate is one such toxin which was used without our knowledge for too long!
cheryl newton	Comox, Canada	2016-04-01	It only makes sense !!! Really people !!
Kira Neumann	Black Creek, Canada	2016-04-01	Because I care about our food supply, the environment and our future generations. It's time for a new way of thinking about how we grow our food.

Sheri Gress	Medicine Hat, Canada	2016-04-01	I'm sick of not only me being poisoned but all the children!! Something needs to be done!
Yvonne Hummel	Kamloops, BC, Canada	2016-04-01	I believe (based on scientific data) that glyphosate should be banned from this earth we all share
Allea Wolfe	Brandon, Canada	2016-04-01	Chemical testing should be thorough and transparent; done by third parties. The company that seeks to profit from said chemical cannot be trusted to honestly provide solid health information if their product turns out detrimental in the long term.
Sheri Anton	Medicine Hat, Canada	2016-04-01	Enough is enough already, we all know we are being poisoned... Do something about it!
Joan Russow	Victoria, Canada	2016-04-01	Glyphosate should have been banned years ago; I opposed its use, on railway tracks, in 1975 in Vancouver
Antonietta Pavone	North Vancouver, Canada	2016-04-01	We have the right to know what we are being fed ...
David van Berckel	Vancouver, Canada	2016-04-01	It's the right thing to do.
Mel Gellner	Courtenay, Canada	2016-04-01	We need more support for organic farming!
Paul Wallace	Medicine Hat, Canada	2016-04-01	Monsanto is a criminal organization
June Grain	Campbell River, Canada	2016-04-01	I don't want any chemicals in my food.
Helen Galgay	St. John's, Canada	2016-04-01	Canadians have a right to know what they are ingesting. Please share this info. Knowledge is power :-)
Jennifer Beeson	Spirit River, Canada	2016-04-01	I have the RIGHT to know
Deana Longland	Campbell River, Canada	2016-04-01	If you don't have your health you have nothing. Money cannot buy you good health. It is not acceptable to keep allowing toxic chemicals in to our environment and food chain. The Canadian government needs to take action and ban this chemical as well as many other toxic chemicals still used in Canada.
Zeb Landon	Simcoe, Canada	2016-04-02	There are ways to farm that don't require glyphosate. Why not learn about them from successful organic and biodynamic producers?
Marc Bilz	Peterborough, Canada	2016-04-02	I'm very concerned about the effects of glyphosate on human health and want to see this contaminant removed from the food supply if it can't be proven safe
Chris Powell	saanich, Canada	2016-04-02	please do the right thing...
sylvia greier	Campbell River, Canada	2016-04-02	The onus for safety should be placed on the companies trying to sell the product. The product should be determined safe before it is used or put on store shelves. Instead, the product is sold or used & it is up to consumers to prove it is unsafe. That is so wrong on so many levels. Safety of all Canadians is & should be the 1st priority. The health of our nation is @ stake & the govt needs to remedy this ASAP.
Elaine Codling	Courtenay, Canada	2016-04-02	I want to see that test.
Joan Schindel	Meadow Lake, Canada	2016-04-02	I don't believe this substance has ever been tested in Canada. There are also concerns that the other chemicals mixed with glyphosate in Round Up are even worse than glyphosate itself. We want to know that this substance being used on crops that become food for us and for animals is safe on a long term basis. Which means it should not be used at all and should be banned until proven safe over a period of years.
Candace Roy	Moncton, Canada	2016-04-02	I feel that all test results regarding our health should be public knowledge
Shelley MacDonald	Kilworthy, Canada	2016-04-02	We need to protect these children. The first step is to address the food supply.
Doris Cameron	Campbellton, Canada	2016-04-02	I care about what I eat and feed to my family!

Name	Location	Date	Comment
Christian Keen	Montreal, Canada	2016-04-02	Glyphosphate polares every and all sources of water!!
Graham Macdonald	Port mc neill, Canada	2016-04-02	Can not export wild food if it tests for Glyphosate now showing up in every ones urine
Louis Maingon	Courtenay, Canada	2016-04-02	I'm a scientist and I believe all data should be open sourced.
Stephen Bagnald	Ottawa, Canada	2016-04-02	I'm signing because I want to ensure safe, health and sustainable farming practices are implemented in our country and around the world.
Bat-Ami Hensen	Victoria, Canada	2016-04-02	Would like to see the data.
Andrew Jamieson	Hazelbrook, Canada	2016-04-02	I live near farm land
Katia de Pena	Toronto, Canada	2016-04-02	There is enough suspicion here to release information to us.
Brent Schaffrick	Edmonton, Canada	2016-04-02	I want to know how exactly Glyphosate is affecting the beneficial bacteria in our digestive system.
Pam Rogers	RR #2 Staffa, Canada	2016-04-03	Organic farmer surrounded by this stuff. Please make them stop.
Lindy Berkowitz	Black Creek, Canada	2016-04-03	I'm against spraying pesticides, and contamination of crops.
Barbara Cresswell	Windsor, Canada	2016-04-03	I want my family to eat healthy food...???
Al George	Vernon, Canada	2016-04-03	This is deadly to insects that birds feed on in flight during migrations etc.. Said to be safer than the DDT it replaced. BS
Donna Dixon	Port Credit, Canada	2016-04-03	I don't want poison in my food!!
Murray Little	Coutenay, Canada	2016-04-03	Glyphosate is a nasty and dangerous chemical, and should not be anywhere newr food or agricultural products..
Linda Davidson	Kamloops, BC, Canada	2016-04-03	I don't believe glyphosate is safe. It is called a likely carcinogen by the WHO. It has been proven by not to be in independent studies by scientists not owned by it's manufacturer, Monsanto. Can you show me proof that it safe?
Louise Baker	Vernon, BC, Canada	2016-04-03	There are so many studies showing long-term devastating health problems with glyosphates that we really cannot afford to ignore them any longer!
James Heggs	West Vancouver, Canada	2016-04-04	I disagree and demand to know the truth regarding glyphosate. Is it safe???
Mari Abraham	Calgary, Canada	2016-04-04	You are doing a great job on this Tony. Keep it up !
John Keirstead	Shawnigan Lake, Canada	2016-04-04	I want the government to ensure that the rights of individuals access to safe food, drinking water and environments to live in is preserved and not endangered by the big corporations, that put profits ahead of people.
Iorna waddell	Toronto, Canada	2016-04-04	I want to know whats in the food I eat! I don't not want to consume GMO's!
Kelli Urquhart	Burton, Canada	2016-04-04	Keeping the (safety) results from ANY study, much less one which has such a massive amount of worldwide controversy surrounding it, is ridiculous!
Tanya Ogertschnig	Edmonton, Canada	2016-04-04	Glyphosate is a poison and it needs to be banned in Canada like other countries around the world.
Nicholas Raymond	Ottawa, Canada	2016-04-05	I am Canadian

Name	Location	Date	Comment
Laura Armstrong	Toronto, Canada	2016-04-05	I am signing this petition because I believe that our elected government must look out for the health interests of the Canadian people and not, as it too often does, accept the research and arguments of the businesses and corporate entities selling any given product in question : whether it be GMO's or the glyphosate that GMO's were built to tolerate, or whether it be chemical asparaginase sold to counter the the appearance of acrylamide in food (which is indeed the principle ingredient in RoundUp herbicide, introduced to that food at the beginning of the food chain). We should not be accepting that chemicals, that can not be handled safely by humans in their raw form, become safe when digested by the foods that we in turn digest. Rice has arsenic, not because arsenic is intrinsic to rice, but because the herbicide liberally sprayed on rice crops has arsenic. What are we thinking ???
Don Goalder	Smithers, Canada	2016-04-05	I want to see the evidence.
Tony Bennion	Hoogerheide, Netherlands	2016-04-05	This needs to be opened up!
Andrew Foster	Toronto, Canada	2016-04-05	These pesticides are making the population sick day by day ingesting this crap!!! What is wrong with these idiots!!!! Test Test Test and don't allow the spraying of this deadly herbicide/pesticide. Its also been proven as a bee killer!!! Just stop!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!
Dianne Bersea	Kaleden, Canada	2016-04-06	All these chemical treatments are a deaden, even if individually they can be considered safe. Saw a pesticide sprayer today driving along the side of the road on the Upper Bench in Penticton BC. He was on a public road on a tractor towing spraying equipment. He was dressed head to toe in white plastic coveralls with a ventilator mask over his mouth and nose. There were birds, people, houses and traffic moving in the area. If whatever he was spraying was too toxic for the sprayer, it is too toxic for the rest of us who would be exposed.
Linda Boos	Hamilton, Canada	2016-04-06	I want transparency in the food system. Food should be our medicine, not poison
sihaanm ardon	Ontario, Canada	2016-04-07	Life.
Frances Adamson	Oshawa, Canada	2016-04-07	This toxic chemical must be banned
Eva Jurcovic	Delta, Canada	2016-04-08	I do care and also am a resident of Delta.
mary lowther	mesachie lake, Canada	2016-04-08	no more pollutants please!
Sahab Jamshidi	Ancaster, Canada	2016-04-08	I'm well familiar with the toxicity and damage glycofosphates cause to life and our environment. These products have been banned in many modern counties due to good reason and we should consider the dangers of their use on our lives and the effects on the lives of future generations.
Larry Webb	Toronto, Canada	2016-04-08	I am fed up with the previous government's desire to keep the people uninformed and hope that this government will undo a lot of the damage the previous regime created!
Alana Lewis	Windsor Junction, NS, Canada	2016-04-08	I care about my health and the health of my family, especially my young children.
Glenna Popoff	Castlegar, Canada	2016-04-09	Glyphosate is bad for the environment and human life.
Sherry Prokopuk	Edmonton, Canada	2016-04-09	I don't think glyphosphate is safe!
Doris Garvin	Belleville, Canada	2016-04-10	This affects the animals, wild & domestic. I sure hope something is done to prevent this..
David Cherubin	toronto, Canada	2016-04-10	Glyphosate is evil and a product of Monsanto which is also evil.
Cyndi Pham	Toronto, Canada	2016-04-10	I care for the well being of the people of Canada including my family.
Danielle Qawwas	Windsor, Canada	2016-04-10	I want our food supply to be safe and our environment to be healthy.

Name	Location	Date	Comment
Julie MacCallum	Burlington, Canada	2016-04-11	over 60 Countries have banned glyphosates. It's time to do the same.
Erin Nickerson	Oakville, Canada	2016-04-11	It is my belief that Glyphosate is NOT safe! And it is IN my body in the form of tampons and sanitary napkins that I have no choice but to use. I want you to PROVE to Canadians that it is harmless or get rid of it!
Penny Duke	Niagara Falls, Canada	2016-04-11	This must be investigated
allan swain	Minden, Canada	2016-04-11	Any data from Monsanto cannot be trusted.They only care about money not peoples health.
Heidi Fiebig	Toronto, Canada	2016-04-11	I'm signing because this product is poisoning us all and needs to be banned immediately. There is plenty of scientific/medical evidence to prove the toxicity of glyphosate..
Laurent Ramadier	voivres, France	2016-04-11	I'm tired to see this planet ruined for big \$\$\$\$\$\$ AND NOTHING ELSE! Certainly not to give food for everybody... that's the le'ast of concern for Monsanto and co... BAYER, BASF and all those
Mary-Wynne Ashford	Victoria, Canada	2016-04-11	Research is more and more clear that Glyphosate is a terrible contaminant worldwide, and that the genetically modified plants created to work hand in hand with it are also dangerous to bees, animals and humans. Please take action to ban this chemical immediately.
Janice Mac Gowan	Alliston, Canada	2016-04-11	Our health depends on it
Connie Nordli	Gibsons, Canada	2016-04-11	I believe in pulling out weeds, not poison, as the poison hurts bees too
Denny Nordli	Medicine Hat, Canada	2016-04-11	I care about our environment and safety
Susan Koswan	Kitchener, Canada	2016-04-11	The widespread use of Glyphosate is disturbing and it is not innocuous.
Martin Golder	Victoria, Canada	2016-04-11	It is absolutely obvious that Glyphosate is dangerous. To omit it would therefor be pandering to Monsanto
K Ible	Innisfail, Canada	2016-04-12	Because I read the label on the 10 L commercial jug
Randy Keats	Vancouver, Canada	2016-04-12	I believe in transparency and disclosure, something which has been and continues to be lacking in government and industry.
Barbara Cuddy	Hudson, Canada	2016-04-12	I have had cancer and don't want to eat poison!
Roberta Jamieson	Codrington, Canada	2016-04-12	Chemical exposures and heavy metal toxicity are the leading causes of chronic disease . THIS HAS TO STOP!
M Hantsy	Mississauga, Canada	2016-04-12	Please Eradicate Glyphosate from our environment!
elizabeth Fedorkow	Toronto, Canada	2016-04-12	I believe we need a cleaner environment and stop the insanity of not focusing on causes of our sick planet and its people
Deb Jennings	Deniliquin, Australia	2016-04-12	We are under biological attack If the government do nothing they are assisting the chemical company
emma sefton	Australia	2016-04-12	I am sick of them not taking our and and kids life not to mention the future generation and all living things seriously very pissed about this
philippe druelle	Senneville, Canada	2016-04-12	stop just think about our children
Andra Walters	Grand Valley, Canada	2016-04-12	I care about what is now and what is to come with all these toxic products allowed onto the market to make money but to maim and destroy humans and animals! DO SOMETHING RIGHT FOR THE COUNTRY AND MAYBE I WILL GAIN SOME RESPECT FOR THE LIBERAL PARTY!
Lyne Gagné	Montreal, Canada	2016-04-13	Responsabilisons nous. Assurons le bien être de nos enfants et descendants.
Joady Bell	Surrey, Canada	2016-04-13	Municipalities should be testing food, soil and water for Glyphosate.

Name	Location	Date	Comment
Philip Kirtyzinger	Hudson's Hope, Canada	2016-04-13	I believe we need truth about this be known
Meredith Lukez	Milton, Canada	2016-04-13	I'm signing because I would like to see the government stop all use of GMO pesticides and the selling of foods made from GMO.
sandiford sandiford	Abbotsford, Canada	2016-04-13	stop messing with our natural food
Cindy Murray	Erickson, Canada	2016-04-15	I have great concern on how often this chemical is used around us. It is used in the fall to desiccate the crops, so it is right on the food stuffs we eat.
Zoran Lalic	Toronto, Canada	2016-04-16	It exposes lies that governments are "serving" to their citizens all over the world and we should finally wake up and demand to stop with those practises. It is our health and lives that are threatened!
Nancy Moysiuk	Toronto, Canada	2016-04-18	studies linking glyphosate to killing gut flora, the studies from Criigen linking it to cancer, not to mention the adjuvants that are used with glyphosate that are tested dangerous to health
Mary Bartlett	Bayside, NB, Canada	2016-04-18	I'm signing because of the high incidents of cancer in New Brunswick; because of the declining deer herds and numbers of songbirds.
Pollie Lumby	Calgary, Canada	2016-04-19	I care for our planet and especially my children who I want to grow up without the effects of Glyphosate on their health.
Diane Roy	Bathurst, Canada	2016-04-23	I don't want it on my food!
Phil Tkachuk	Edmonton, Canada	2016-04-25	I have no faith in the statements from the manufacturers about the safety of glyphosate.
Joanna McIlveen	Port Coquitlam, Canada	2016-04-26	I want safe food!
Jeannie Graham	Black Creek BC Canada, Canada	2016-04-26	It's an absolute disgrace that our govt. has looked out for and kissed up to big corps - but not for the health and safety of the people of Canada! A travesty, one of many - this govt needs to step up to the plate!
Maxine Sidran	Toronto, Canada	2016-04-26	I am frightened by what is being done to our food supply
Rachelle Cormier	Moncton, Canada	2016-04-27	We have a right to know!
Francois Couturier	notre dame des monts, Canada	2016-04-28	C important Et nous sommes en 2016...j'habite a moins de 1km d'une zone d'arrosage sur les terres de là Couronne...
mark achbar	toronto, Canada	2016-04-28	We don't want poison in our bodies.
wayne king	Chatham-Kent, Canada	2016-04-28	Monsanto has proven themselves an untrustworthy corporation with knowingly fraudulent claims, unethical business practices causing illness and death, all in the sole aim of profit. And find it alarming that people don't see a connection of the worlds largest chemical manufacturer being in the pharmaceutical business.
keith noel	Châteauguay, Canada	2016-04-29	I don't want the next generation to die from cancer due to the GMOs, herbicides and pesticides.
Cosimo Reale	Toronto, Canada	2016-04-29	we want glyphosate to be removed from society completely.
Anja Noel	Vancouver, Canada	2016-04-30	Tony, your efforts are commendable; however when officials say they will Look Into It = to me a mere phrase to get you our of their hair.
Cory Thomas	calgary, Canada	2016-05-04	You were allowing the poisoning of the people of Canada. And we are going to stop you
ken martin	Surrey, Canada	2016-05-05	we need to do more to see whats affecting our earth, This may be why our honeybee population is shrinking
Beth Richardsen	Lethbridge County, Canada	2016-05-07	I care about my health ad the future

Name	Location	Date	Comment
Mira Von Maldghem	Calgary, Canada	2016-05-07	I am signing because ,Canadian Cityzen should get rid of that glysohate who harm so mucheverything alive. We want to be healthy. Regards . Mira Von Maldeghem.. LPC member
Tanessa Holt	Dartmouth, Canada	2016-05-09	I am tired of being sick from the food that is available to us
kyle wyenberg	Lower Sackville, Canada	2016-05-09	We need change
Kathleen Bordeleau	Cold Lake, Canada	2016-05-10	I care about what is in my grand children's food

Name	Location	Date	Comment
Christine T.	Pacifica, CA	2016-05-12	<p>Glyphosate can be degraded by certain gut bacteria to final glycine, an inhibiting NEUROTRANSMITTER, a ligand for the NMDA receptor, responsible for synaptic plasticity and our memory!! Already in 1951 scientists knew that glycine concentrates in Ehrlich ascites tumor cells in peritoneal cavity:</p> <p>http://www.ncbi.nlm.nih.gov/pubmed/14927593 They also knew, that these tumor cells specifically concentrated free glycine from the surrounding environment without using hydrolysis of ATP for that process. This tumor type and all its features, including the very anomalous behavior of glycine concentration were discovered years earlier, around 1930!!! Here just few citations for you:</p> <p>1. Concentrative uptake of amino acids by the Ehrlich mouse ascites carcinoma cell. 1952, J. Biol. Chem., 194, 57–68. by Christensen HN et al., "Ehrlich ascites carcinoma cells contained GLy, Ala, Gly, Gln at far higher concentrations than in peritoneal suspending fluid. at 38degC the gradient steepened."</p> <p>2. Biochemical Studies of the Ehrlich Ascites Carcinoma-Bunyamwera Virus System. JS.. Colter et. al. which says:</p> <p>"The Ehrlich ascites carcinoma of mice, first described by Loewenthal and Jahn (Ztschr. f. Krebsforsch., 37:439-47, 1932), has in recent years been the subject of a great many investigations. Klein et al. have studied certain of the biological properties and the nucleic acid content of this tumor (15, 17), and Christensen and co-workers (7, 8) have inquired into the capacity of the tumor to concentrate amino acids. Moldave (33) has used the cells for studies of protein turnover. Sugiura (51) has examined the effects of numerous compounds on the growth of the tumor, while LePage and others have made extensive studies of purine metabolism (9, 11, 24) and have suggested that the incorporation of glycine-2-C14 into the purines of the tumor cell be used as a convenient test system for the examination of the potential anti-cancer agents (25). Kun et al. (23), Williams-Ashman (54), McKee and his associates (30), and others (29, 40, 49) have investigated many of the metabolic properties of the Ehrlich ascites tumor."</p> <p>Thus the 'safety history' of glyphosate, inevitable related to the glycine, a neurotransmitter and the simple canonical amino acid, which accumulates in specific types of cancers (known since 1930-ies). Most recent publications about that: (http://www.ncbi.nlm.nih.gov/pmc/articles/PMC3989988) "Serine and glycine metabolism in cancer"</p> <p>Ivano Amelio, Francesca Cutruzzolá, Alexey Antonov, Massimiliano Agostini, and Gerry Melino and http://www.cancerandmetabolism.com/content/1/1/20 "The metabolic demands of cancer cells are coupled to their size and protein synthesis rates") and most recent article in Science. 2012 May 25; 336(6084): 1040–1044., available at: http://www.ncbi.nlm.nih.gov/pmc/articles/PMC3526189 with the title: "Metabolite Profiling Identifies a Key Role for Glycine in Rapid Cancer Cell Proliferation" by Mohit Jain, et al.</p> <p>Is there any reason not to think, that we are a TARGET of a global genocide??</p>

Name	Location	Date	Comment
Jocelyn Chouinard	Lunenburg, NS, Canada	2016-05-13	There is absolutely NO QUESTION that Glyphosate is toxic to anything that it comes in touch with. The complete negligence on the part of Canada's Minister and Ministry of Health is nothing less than criminal. Any Ministry involved in Public or Environmental Safety is 100% negligent by choosing to accept completely biased and bogus research data from the Mega Company that has created the toxic poison in question rather than demand third party legitimate research! Then to let let this disgraceful fact go uncontested for 35 years is the responsibility of all Ministers and the entire Ministry of Health. These irresponsible and corrupt officials who are and were obviously on Monsanto's payroll should all be required to undergo a thorough investigation and be subject to an investigation of criminal negligence. Monsanto should be fined and held accountable for crimes against humanity. This is NOT a small matter and Canadians will hold all those involved accountable!
jeff demetrioff	victoria, Canada	2016-05-14	My child's safety and health for her children!
Laurie Johnson	MULMUR, Canada	2016-05-14	This is proven to be a carcinogen! Get it away from us!!
Marion Brunen	Strathmore, Canada	2016-05-14	using glyphosate in Canada is using a weapon on one's own citizens.
Elisabeth Hines	Rockwood, Canada	2016-05-15	I believe that the public has a right to know the health risks of glyphosate.
Wade Lillico	loverna, Canada	2016-05-15	we want to see the test results and be informed
Janel Hopper	Menlo Park, CA	2016-05-15	I want to move to glyciophosphate free canada
Janice Blanke	Montcalm, Canada	2016-05-15	The public needs to be informed on what they are being exposed to on all levels!!
joan massey	dartmouth, Canada	2016-05-15	Show us the test results and also stop testing on animals in the first place.
John Keay	Markham, Canada	2016-05-16	This could prove to be a very dangerous chemical and the Canadian public should see the results of previous testing in order to a). Allay fears or b). If proven dangerous, protest its use.
Diane Rorke	Toronto, Canada	2016-05-20	I don't want poison in my food.
Laurel Graham	Edmonton, Canada	2016-05-22	I don't believe it is safe, feed these fish and anything else to grow bigger and faster will make us grow bigger and faster, babies going into puberty that's what was documented years ago. I won't buy any fish ever again. Keep these products off the shelf. The bottom line is money and that's a bad reason to harm peoples health. I buy organic and do my best to eat healthy so give me a break and help me have the best and safest product to choose from. Stop this GMO shit in this country like other countries that care about their people.
nick bens	Sault Ste. Marie, Canada	2016-05-25	Stop killing our resources there are better solutions to feed people.

Name	Location	Date	Comment
sue cybulsky	Ottawa, Canada	2016-05-25	The people are not going to back down or go away, so better address this promptly and appropriately. This is unacceptable to represent the people of Canada yet continue to allow corporations to profit from not just one, not just two, but many aspects of this. Think of the burden it causes the health system? Think of the people who voted for you?? Think about people you know with cancer??? I would like to know what is on your table, in your fridge, and what your diet consists of. I am betting organic. We are demanding the ban! Enough selling us out. We expect more. Prove to us this is safe. Instead of going ahead and giving our country to corporate greed. The world is saying no! So are we!!! and one way or another, mainstream media or not, we will be heard, loud, and clear... stop this now. we know too much to turn the other way and we are more aware than ever... prove to Canadians, "put your money where your mouth is" literally....
Antonina Manka	Brockville, Canada	2016-05-25	I am signing because I have a right to know. If the government really serves its people it would stop acting in a manner that profits big agra and Monsanto.
Tom Taman	saskatoon, Canada	2016-05-25	roundup is cancer proven over and over again.
Reed Hortie	Vancouver, Canada	2016-05-25	Stop allowing this poison on our food.
Steven Scott	Ottawa, Canada	2016-05-25	Our health is our most important asset, not corporate profits.
Steve Hampton	Gananoque, Canada	2016-05-25	Monsanto = evil. Canada only has voluntary GMO labelling. Education needed.
Travis Teesdale	Chilliwack, B.C., Canada	2016-05-25	I don't want my family or anyone to get sick because of corporate greed.
Julie Bilodeau	Ste marthe sur le lac, Canada	2016-05-25	Gmo's and the herbicides used deplete the soil and has been proen carcinogen to humans .
jordan mahlmann	Pitt Meadows, Canada	2016-05-25	I'm signing because I want to know my food is safe and not covered in cancer causing agents!
Stephen Andrews	London, Canada	2016-05-26	Be honest and not beholden to money. People before profits minister.
Lorraine Davidson	Coombs, Canada	2016-05-26	I don't want my grand children (or anyone else) to be eating foods that are toxic
Robin Wesman	Jaffray, Canada	2016-05-26	I'm signing because I watched my son nearly die in my wife's arms because of accumulative pesticide spraying
Mary Dancey Clarke	Aylmer, Canada	2016-05-26	I am signing because I truly believe that few studies of glyphosate were done and not for a prolonged length of time. The total number of studies, locations, number of test plots and total findings should be revealed. I am VERY concerned by the recent approval of GM Salmon and GM Alfalfa. These are totally unnecessary, especially the Alfalfa and this product will put many farms at risk of contamination. Please wake up, return any funds used for greasing the wheel of approval and protect us, not from ourselves, but from concentrated contamination.
Tom Kalman	Aylmer, Ont., Canada	2016-05-26	I believe this product and its over use is sterilizing our valuable farmland soil biotica. This decimation of soil bacteria and other organisms follows the same chemical pathway that kills the weeds. We eat the crops, and ingest the pesticide. Therefore it is killing the beneficial flora in our guts. I also believe there is an overuse of this product. It should be licenced with restrictions for its use to reduce the tonnage per field. Its registration should be stricter as well.
Kellie Western	Cornwall, Canada	2016-05-26	I don't want to eat poison
Michelle Myre-Madden	Athens, Canada	2016-05-26	I'm tired of big companies poisoning people for a profit. My children and I suffer from many good sensitivities and I blame all the toxins and GMO that we are being fed!
Cath Black	Toronto, Canada	2016-05-26	It is unacceptable that the Cdn Ministry of Health would not have the highest standard of scientific proof to back any of their decisions on safety of products.

Name	Location	Date	Comment
Racheal D'Amours	Sudbury, Canada	2016-05-26	Because I love my planet and every living thing on it. Who knows how much damage these chemicals are actually causing. I believe in the all natural organic way of doing things.
Bonnie Cook	Hannon. ON, Canada	2016-05-26	Please research glyphosates. Recently while in Greece and Italy my daughter and I found we could eat wheat products there, while we can't in Canada without pain. Now I eat organic North American wheat without trouble, as well as imported Italian pasta that is GMO and glyphosate free.
che tulane	Winnipeg, Canada	2016-05-27	Only a sociopath would think it's ok to poison the populace.
rose gunn	Niagara falls. Ontario, Canada	2016-05-27	I truly believe this chemical is detrimental to our health and I want it removed from the shelves in Canada. It has been proven to cause diseases in Argentina and other places throughout the world. It should never have been approved in Canada in the first place.
Shelley Wesman	Jaffray, Canada	2016-05-28	I witnessed my own son being harmed by pesticides to the point he nearly died, and I have not had any support for him to test these toxins here in Canada????
Ailsa Hebert	Boswell, Canada	2016-05-29	I am against chemicals being sprayed on plants. It is bad for our health and is very detrimental to the bees.
Jennifer Corning	Dartmouth, Canada	2016-05-31	This needs to stop! People and animals are getting sick!!!
Maria-Christina Warmenbol	Jaffray, Canada	2016-06-01	I'm signing up because I know that a good friend's son of 6y. old almost died after his neighbour sprayed Round Up on his yard. Are dandelions more important than children?
Ruth McRae	Calgary, Canada	2016-06-05	I am interested in ensuring that all this research is presented in the case against Monsanto in The Hague, Netherlands in October. There has never been a more serious threat facing humanity as the threat we face right now, and it has to stop. We the members of the human society need to stand up and stop this criminal intrusion of humanities ability to thrive. This in my opinion is the gravest crime against all humanity and all living things, is the greatest threat to the ecosystems of the world, and the corporate and governmental giants perpetuating and growing in wealth and power as a result, must be made accountable. This has to stop.
Genevieve Hall	Victoria, Canada	2016-06-07	We have a right to know!
John Stewart	Saint Lambert, Canada	2016-06-15	Proper evaluation of man-made chemicals is needed before their widespread propagation in the environment
kirsten beaupre	melfort, Canada	2016-06-15	I am tired of being poisoned.
carolyn gotsalks	Belgrave, Australia	2016-06-15	Of course it's not safe
dave munroe	powell riverr, Canada	2016-06-15	it is the right thing to do for the health of Canadian citizens now and for future Canadians
Cher Staite	Fort Langley, Canada	2016-06-15	I care.
Deborah Buckingham	Brampton, Canada	2016-06-16	I'm concerned for my son's future
Kathleen E corkery	dartmouth, Canada	2016-06-16	i do not want to eat poison food. or feed it to family
diane gregoire	Saint-Jérôme, Canada	2016-06-16	For a better life.
Amandah Jensen	Lytton, CA	2016-06-16	You are free to ingest all the poison you wish, but you must prove to me it is safe if you expect me to support any chemical.
Ross Chapman	chilliwack, Canada	2016-06-16	I simply care and wanna know wtf is goin on,if it's safe then release the data if not stop using it immediately!
Lynn Lawrence	Chilliwack, Canada	2016-06-16	I'm very focussed and interested in the health and safety of the plant, and in particular for myself, my family and my fellow Canadians as well as the rest of the world!

Name	Location	Date	Comment
Norma Butz	lloydminster, Canada	2016-06-16	I do not believe glysohate is sate and is a danger to the health of all Canadians. it is your departments responsibility to pull these toxic and poisonous products, so please do your job.
Michael Towe	Montreal, Canada	2016-06-16	Monsanto is committing fraud. In a recent study-https://www.sciencedaily.com/releases/2016/05/160517131632.htm , shows this does not work for crop yields. The total unnecessary pollution of our world, murder of the insect world will ultimately affect us if not already. Stop this criminal activity!
Murray Donovan	Hampton, Canada	2016-06-16	I can bet the stuff is unsafe.
Ohara Mark	Vancouver, Canada	2016-06-16	i want to know my food is not going to kill me due to deadly pesticide spraying
Janice Newton	Pointe-claire, Canada	2016-06-16	Every person deserves to live in as clean an environment as possible. We, the people, are well overdue to have our rights respected...is it not high time that large corporations chose the right path instead of the profitable one. Isn't it time that we recognized that health is the greatest wealth of all, rather than money in the pockets of the "chosen" few? Wake up!
angela hanoski	port coquitlam, Canada	2016-06-17	I believe we should have full disclosure and am concerned over health risks
Beth McCann	Saint John, Canada	2016-06-17	I believe glyhosate is at the root of many environmental illnesses and needs a national ban.
Miriam Wood	Charlottetown, Canada	2016-06-17	All safety info should be accessible re our food supply.
Nadeane Trowse	Richmond, Canada	2016-06-17	I understand support for Glyphosate leans on the need to provide food at reasonable prices etc. but that is false logic. And must be weighed against what the safety test data REALLY show. And then I hope this product will be clearly seen as UNSafe and appropriate action taking it off the market!
karl kennie	Hamilton, Canada	2016-06-17	I believe widespread use of glyphosate on crown forests, like allowed in New Brunswick, is doing irreparable damage to our ecosystems from the ground up...
Jane Wharton	Ottawa, Canada	2016-06-17	Our health and our children's health is being ignored.
daniel richard	Powell River, Canada	2016-06-17	I'm concerned that glyhosate, the active ingredient of Monsanto's RoundUp, may be a cause of cancer, according to the World Health Organization and is the probably cause of bee and butterfly deaths Worldwide.
Barbara Milne	Calgary, Canada	2016-06-17	I disagree with use of this pesticide
Steve Apelman	Centereach, NY	2016-06-20	Failing to stop Monsanto is suicide. Their glysohate and GMO products are banned in the EU FOR A REASON, and they need to be here as well,
Stephen Justason	Sussex, Canada	2016-06-21	It is time to know the truth!!!
Lydia Travers	Vancouver, BC, Canada	2016-06-23	You must start to save our environment. You promised!!!
Tammy McIntyre	Sudbury, Canada	2016-07-09	Stop poisoning our lands!
Richard Adam	Delta, Canada	2016-07-11	At my age having done extensive research now well understand what who and why the deceit behind current policies of silence in the genocide presently on going. Charges will soon be presented and the parties involved prosecuted.
Julia Alvarez	Calgary, Canada	2016-07-12	I will not consent to toxic corporate terrorists doing business with the Government of Canada.
Anne Tipler	Mississauga, Canada	2016-07-12	Human health is more important than the concerns of Big Business.
Erika Koenig-Workman	Richmond, Canada	2016-07-12	I believe everything Rachel Carson wrote about in Silent Spring, published in 1962. Are we listening?

Name	Location	Date	Comment
Jennifer Coy	Winnipeg, Canada	2016-07-15	My food and health matters. It matters to the people I love, too. Capitalism should NOT come at the cost of health and happy life.
Kathy Dayanara Milla	Winnipeg, Canada	2016-07-16	We have a right to know and make informed choices. Freedom from toxins that make us sick.
Fred Flores	VICTORIA, Canada	2016-07-16	Better late than never, for government to wake up.
linda radmore	Gibraltar, Spain	2016-07-17	This product is NOT safe
Phaedra Sawbridge	London, United Kingdom	2016-07-20	The use of Glyphosate is a crime against humanity.
Dennis Looker	Low, Canada	2016-07-25	It is time for those elected to set up and be the voice of those who elected them and not be hacks for the chemical corporate world. Our children and their children need our voices now..not later.
Kim MacMillan	Salmon Arm, Canada	2016-07-25	I have long been concerned about the effects of pesticides and because I do not trust Monsanto.
Steve Zimmermann	Toronto, Canada	2016-07-25	When I visit Europe... they ask me why so many North Americans are sick... after some discussion... I was schooled on how the European nations use only 15% of the pesticides that we do.... and even then, it's only for really bad situations... not as a habit of agriculture, just because...
Carol McAndrew	Salmon Arm, Canada	2016-07-25	Is this DDT all over again! Stop it now so we can protect our future generations.
lynn Hussey	Cape Breton Nova Scotia, Canada	2016-07-26	This is an important issue!
Bob McIvor	Kelowna, Canada	2016-07-26	We should have access to this type of information .
Elaine Hughes	Archerwill, SK, CANADA, AL	2016-07-26	I am totally fed up with every summer, usually on one of the most beautiful day, having a helicopter spraying its load of poison on three sides of my land and home. How does that qualify for 'the right to enjoy my land'???
jean marc fortin	matane, Canada	2016-07-26	Destruction de la sante...
Shelley Corbin	Salmon Arm, Canada	2016-07-26	Please also read these informative links. Make no mistake, glyphosate is NOT SAFE! http://www.nationalobserver.com/2016/07/04/opinion/last-roundup http://www.nationalobserver.com/2016/07/25/opinion/last-roundup-how-monsanto-created-fable-%E2%80%9C-world%E2%80%99s-safest-herbicide%E2%80%9D
Carolyn Brown	Arden, Canada	2016-07-27	I'm sick of sickness ☹ I'm sad for my Mother Earth ☹
shadow cru	Kelowna, Canada	2016-07-27	You need to look at this in the long term and how it affects people , many are getting sick because of the is practice of spaying poison on our food . Wake up and get out of the pocket of big business , we voted you in not them
Del Morrison	Maple Ridge, Canada	2016-07-27	I know the Anti-GMO people won't like the answer so ill sign this. Because i love watching them move goal posts.

Name	Location	Date	Comment
Kyra Slubowski	Kelowna, Canada	2016-07-27	<p>Make the records public!</p> <p>Stop with the anti-science rhetoric. Organic requires higher volume of pesticides, and those pesticides are often more dangerous in smaller quantities.</p> <p>Make them public, and let these irrational fears be put to rest! :)</p>
chris pitman	colinton, Canada	2016-07-28	concerned about widespread use of chemicals.
Lorraine Gauthier	Winnipeg, Canada	2016-08-05	Un-natural chemicals are dangerous in our foods. Testing to prove its safety should be done before marketing such a product.
Debbie Whyte	Winnipeg, Canada	2016-08-06	We have to quit using glycoophates that rid the earth of valuable minerals and deplete our souls.
Anne-Marie Gélinas	Montréal, (QC), Canada	2016-08-06	On a le droit de savoir, et les producteurs agro-alimentaires ont le devoir de nous le dire!
Andre Babineau	Moncton NB, Canada	2016-08-06	We need our government to stand up and fight with us, instead of against us.
Betty Baquero	Mississauga, Canada	2016-08-07	I want to know how safe is Glyphosate for human and animal health.
Gail Tiefenbach	Regina, Canada	2016-08-07	I am signing because this product has not been proven safe. And that's a good enough reason to ban it.
Adam Pennington	Newcastle upon Tyne, United Kingdom	2016-08-07	I want to know what is in my food
Kaaren Soby	Telkwa, Canada	2016-08-10	Glyphosate is used as a chelator to help prepare "Roundup " readiness in plants....in the human physiology its chelation properties strip minerals from the linings of our own organs. IT has also been declared cRcinogenic by the WHO....the far reaching effects of the greed and corruption of enormously powerful corporate bodies such as Monsanto and Baers ,and the "business model " of proceed whTever the consequences is abhorrent and destructive to our health
John Foster	Clearwater, Canada	2016-08-11	I have extensuvely studied them chemical an it has widespread harmful impacts on human health, ecosystems and social justice.
Martin Koebel	Calgary, Canada	2016-08-11	I am concerned about the health of my children
Mark Vignale	Kemptville, Canada	2016-08-12	Products like glyphosate should be proved safe. It shouldn't be up to a public body to prove that it is unsafe.
Laurel Young	Kleinburg, Canada	2016-08-23	Laurel Young
Robert DelVecchio	Sydney, Australia	2016-08-31	The truth about Glyphosate needs to come out. We, the people are sick of being lied to by biocorps. And for what?? Money and power??? Really??
Alan Thompson	Port Ewen, NY	2016-08-31	Monsanto must be stopped before it's too late
Amy Duncan	Fort Hood, TX	2016-08-31	We don't need to be using this toxic mess! Organic Non GMO for the WIN!
Jon Richardson	Milton, DE	2016-08-31	My life has been changed because of this chemical
Billie Jo Young	Brockport, NY	2016-08-31	My five year old son can only eat organic food because food with glyphosate makes home have diarrhea and vomiting.
Sharon Blomsma	Little River ,Albert, Canada	2016-08-31	it is NOT safe!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!
Carey McGregor	Hamilton, Canada	2016-08-31	Aerial spraying of glyphosate from August 1 to Sept 30 yearly in NB
Marie Blythe	Moncton, NB, Canada	2016-08-31	This chemical product is killing humans and wildlife!
Heather Hawkins	Nestor Falls, Canada	2016-08-31	We need to stop poisoning our children.

Name	Location	Date	Comment
Ingrid Raudsepp	Mississauga, Canada	2016-08-31	I am already convinced that glyphosate is unsafe. It should be banned completely. Signing because for some reason, people still need proof. Also, I will sign anything that puts Monsanto out of business.
RICHERE DEZIEL	morin-heights, Canada	2016-08-31	Je tiens à ma santé !
Michelle Papas	Toronto, Canada	2016-08-31	I'm signing because the people have a fight to know and make informed buying decisions. This stuff is killing us long term and future generations will pay the sad price!
John Mark Robertson	Belleville, Canada	2016-08-31	Our health should be the paramount concern.
Len Sherman	Fosterville, Canada	2016-08-31	spraying the forests with glyphosate is just wrong - what's the point - the way a forest is clearcut will take a minimum of 40 years to grow back or are they poisoning the land to make it easier to lay the pipeline, which is something else that should be banned - neither of these practices are any good, especially when there are more sustainable methods available.
Amanda Palmer	Summerside, Canada	2016-08-31	Please protect the safety and the health of your people!
Michaele Kustudic	Wolfville. Nova Scotia, Canada	2016-09-01	because Glyphosate sounds like a dangerous substance which can harm otherwise healthy people. Canadians deserve to be protected from it.
Peter Storoschuk	Tisdale, Canada	2016-09-01	It's poison
Patrick J Hatwan	Lincoln, NE	2016-09-01	The dangers of chemical assault are more than Mankind can tolerate.
Brian McLeod	Watson, Sask., Canada	2016-09-01	It's poison and it's causing a lot of illness. This is a no brainer, so maybe the politicians can even understand it
Mary Meier	Smithers, Canada	2016-09-01	I do not want my food sprayed with this pesticide that is not proven to be safe
Macushla Rielly	Hamilton, New Zealand	2016-09-01	I care about the health of our future generations
Lisa Er	Auckland, New Zealand	2016-09-01	Ban glyphosate and all product with it in - like Round Up
Brett Murphy	Auckland, New Zealand	2016-09-01	I believe poisons such as glyphosates may terminate mankind. I believe it is time to reverse the destructive direction of world
Robert Crilly	Delisle, Canada	2016-09-01	Robert k Crilly
Kim Joette Hefler	Middle Sackville, Canada	2016-09-01	Because Nova Scotia just gave the ok to spray 2,600 hectares of forest with glyphosate saying it's safe. I disagree.
Bev Braat	Sherwood Park, Canada	2016-09-01	Tired of Chemical and Pharmaceutical Companies making money on making us sick!
joey schmare	halifax, Canada	2016-09-01	stop this production now!
lola lawton	flinton, Canada	2016-09-01	Transparency honesty from the government. Stop supporting GMO and Monsanto using Canadian Labs, research institutions Label all herbicide's ,pesticides. Label all food and supplements with a complete ingredient list. I ask my government to do what's in the best interest of Canadians Health and safety. We depend on our government to provide truthful information on this. Our lives and Health are not expenditures.
Marie Tyler Wiley	Noank, CT	2016-09-01	I'm signing this because our government is not protecting us and only re-enforcing their marriage to Big Pharma. Get rid of this crap NOW!
Elizabeth Mallett	Parkindale, Canada	2016-09-01	There is NO WAY a spray that kills all other vegetation but a franken-tree is safe. And what about all the other living creatures besides us selfish humans?
John Houck	Bible Hill, Canada	2016-09-01	This seems like the blind leading the blind. Precautionary Principle should apply.

Name	Location	Date	Comment
matt gillen	calgary, Canada	2016-09-01	I'm am fed -up with corruption in corporations and in Government.
Ron Ettinger	Langley, Canada	2016-09-01	POISON...POISON and it is deforming almost ALL the babies! Glyphosate attaches to our RNA....IT... is mother's breast milk and evident in baby formula! Banned almost round the world but US and Canada because MONSANTO makes BIG payola to government. PLEASE STOP POISONING US !!!!
Deborah Haevens	Fawcett Hill, Canada	2016-09-01	It SHOULD Be proven SAFE before usage
daniela Kaufman	Thornhill, Canada	2016-09-01	I am a mother of four and Grandmother and a health practitioner and very concerned about the effects of glyphosate
Catherine Burr	Shelby, MI	2016-09-01	I have great concern about the toxins in our environment and many worries about the increased numbers of children being diagnosed with autism. As a former special education teacher and administrator I have personally witnessed the devastating effects on children, their families, insurance companies, educational expenses, and emotional teams for all involved. This is a crisis and someone needs to be held accountable. Change needs to happen immediately to protect the citizens of this country and the world.
ann hayes	Hamilton, Canada	2016-09-01	CONCERNED ABOUT CONTAMINATION---BUT I'm A FIRM BELIEVER IN IMMUNISATION .
melanie langley	Port Dufferin, Canada	2016-09-01	we need our hardwood!
Gladys J. Von schilling	Courtenay, Canada	2016-09-01	I don't want pesticides in my food !
Lynn Frydrych	Goderich, Canada	2016-09-01	Because politician need to listen to what the public wants.....just once and awhile. nlol sigh
Suzie Anderson	Penticton, Canada	2016-09-01	It is the right thing to do!
Sue Skipton	Bridgetown, Canada	2016-09-01	They can but won't, I was told you could stand in the middle of spraying by Environment office in Middleton NS. I challenged the guy to come out and prove it to me, He didn't show up. The govt doesn't want to know nor do they care. This needs to stop immediately, time has already proven it is dangerous to health and welfare of both humans and animals.
christine corkum	bridgetown, Canada	2016-09-01	its going to kill animals and people
Tony Clark	Middleton, Canada	2016-09-01	this is not a safe product for people or wildlife
christine budimir	Qualicum Beach, Canada	2016-09-01	Because it has to end. I can't believe its all about money and not about health
Vincent Rowe	Waitakere, New Zealand	2016-09-01	It is wise to prevent Herbicide and Pesticides that have been designed to kill, from entering our food chains and being applied in public places for someone's economic gain, when there are ongoing Unwanted Long Term hindering impacts on health and environments.
Murray Stentiford	Auckland, New Zealand	2016-09-01	It's time we put a stop to this nonsense.
karen hall	bridgewater, Canada	2016-09-01	I believe this is very dangerous to all of us please stop putting us all at risk
Jennifer Niemi	Kingston, Canada	2016-09-01	IF it truly is safe, you'll have no issues with disclosing the records. If they're not fully disclosed, one must assume glyphosate is unsafe.
Nancy Mason	Pinegrove, Canada	2016-09-01	It is dangerous...This is not right or needed!

Name	Location	Date	Comment
lou sweeney	nictaux, Canada	2016-09-02	I'm sick and tired of being poisoned I don't want it at all and I thought ministers and politicians worked for the welfare of the people.we don't know what we are eating anymore.cancers are everywhere it's sickening how a life is worth nothing anymore.these poisons that you are putting out there are going to kill instead of helping.how many millions of people does it take to make you understand we don't want this if you do have it done in your backyard and disclose the finding we are always lied to and we are fed up.put my tax dollars to good use and stop this
Rennae Kletzel-Gilham	nova scotia, Canada	2016-09-02	this substance should not not be used in our forests, or in products that can effect our health.
Dori Osmond	Toronto, Canada	2016-09-02	BAN Glyphosate!!
Afra McClanahan	Fayetteville, NC	2016-09-02	There should be no question that vaccines are safe for everyone including healthy newborns, so that there is no mistaking the cause of disease which was not evident before vaccines were administered.
Shirley Phillips	Rosedale, Canada	2016-09-02	I do not want to ingest or be injected with poisonous substances.
Sheri Giachetto	Lemont, IL	2016-09-02	I am opposed to the use of Glyhosate and its deadly effects on human RNA.
Sylvie Kingston	Halifax, Canada	2016-09-02	Spraying chemicals to cull hardwood is primitive and socially irresponsible, especially when WHO deemed the chemical in 2015 as a human health hazard ... Let alone flora and fauna that currently exist I our forests. How much damage can we humans do to destroy our habitat?!
N A	RD1 Levin, New Zealand	2016-09-02	Stop poisoning the planet, you idiots.
Margaret Tabak	New Germany, Canada	2016-09-02	I would like to see the people of this province survive without being poisoned by idiotic.
Marianne Fraser	Pictou, Canada	2016-09-02	This has to stop!
kym burt	new ross, nova scotia, Canada	2016-09-02	Glypsate is a probable carciagenic. What about the life living in these forests which is not a tree.
Lesley Toole	Oromocto, Canada	2016-09-02	I am signing because I care about the health and safety of every person and our beautiful land and animals.
larry ward	lawrencetown, Canada	2016-09-02	I hate poison on our land!!
Adam Shoree	Dartmouth, Canada	2016-09-02	I don't want this stuff anywhere near me, my family and the places where I practice sports and recreation.
Damien Rose	Lakeville westmorland N.B, Canada	2016-09-02	It's criminal that's why.
Kate Kelly	edmonton, Canada	2016-09-02	The government is are assshats that need to listen to its people !!!! Please please listen!!
Tom Zamara	Toronto, Canada	2016-09-02	Canada's new Liberal government is hopefully open to scientific research in support of human health, regardless of Big Pharma's business interests.
Jonathan Webber	Lower Sackville, Canada	2016-09-02	Because this is one of the most ill informed initiatives Nova Scotia has ever allowed to go forward.
Kate Inglis	Western Shore, Canada	2016-09-02	Please don't let the NS Government spray us with chemicals that aren't healthy for us or our forests. This is an outrage.

Name	Location	Date	Comment
Sharon Hallam	Halifax, Canada	2016-09-02	<p>This is a known to be carcinogenic and is mfg by the big Agrochemical (two words that do not belong together) firms. Are you kidding me? If there are scientists reading this...all one has to do is check out the nasty molecular structure.....which says it all. Where is the leadership regarding this? Where?????</p> <p>What about our woodlands and our marshes?? N.S. has pretty healthy marshes unlike the rest of Canada....are we going to destroy that as well for the sake of the all mighty \$. Canada is supposed to be a leader in eco sensitive decisions....where is the leadership in Ottawa right now regarding this matter? As a Canadian I want to know!!!</p>
Susan Feader	Pine Grove, Canada	2016-09-02	You don't have to be real smart to know this isn't good for anyone. Stop spraying.
Kelly Cooper	KINSAC, Canada	2016-09-02	<p>I do not want this sprayed in my province. I do not want the plants and animals to die.</p> <p>Please take this post serious everyone. The Nova Scotia Government just gave the green light to spray 2,600 hectares of woodland with VisionMax, a herbicide containing the active ingredient glyphosate. Glyphosate increases the risk of cancer, liver disease, lung disease, heart disease, etc.</p>
Caylen Wamboldt	Bridgewater, Canada	2016-09-03	Think of the children
phillip Stewart	Oxford, Canada	2016-09-03	Not safe for human beings or animal.
violet S	Halifax, Canada	2016-09-03	Please sign.
Melanie Mulrooney	Upper Tantallon, Canada	2016-09-03	Governments are representatives of the people, and should be looking out for our best interests. Bombarding our environment with harmful chemicals and ignoring data that proves it is unsafe is not ok!
Tracy Tappin	Frankville, Canada	2016-09-03	Glyphosate needs to be banned. We have enough cancer in our society and this is probably a big part of it as it is so widely used. Shake your heads people!!
Cynthia McCarthy	Amherst, Canada	2016-09-03	Recent approval for spraying in this province is alarming to me and disappointing considering a Liberal government claims environmental concern. We need to care for this fragile home of ours. It's the only one we have.
Martha Hill	Grayland, WA	2016-09-03	ImWorried about the next SEVEN generations of children and what we are leaving them. How will you explain this to YOUR children, your grandchildren and your great great-grandchildren? Will money rule your soul? What are you taking with you when you die? What legacy will your family speak of when you are no more? What will they whisper about?
Susanne Roy	Guysborough, Canada	2016-09-03	Please start choosing health over profit.
Trisha Devenish	Victoria, Canada	2016-09-03	This needs to be banned.
Michelle Breen	Upper Tantallon, Canada	2016-09-03	We need to take a prove it is safe approach like the EU rather than wait and see. Our environment, wildlife and health care systems are paying the price for blindly believing corporations put citizen safety ahead of the almighty profit dollars.
Rebecca Watts	Langley, Canada	2016-09-03	As a farm producing vegetables, livestock and bee keeping, the proposal to spray with a toxic substance greatly troubles me and I am adamantly opposed to it. Full unbiased research and disclosure is what is needed here.
Gail Ross	Clay Springs, AZ	2016-09-03	Glysohphate must be BANNED
kathy houghtaling	prince george, Canada	2016-09-04	I do not believe in any chemical process! Our poor earth!!!! And! our little one's!!! doesn't anyone care about them!!!!

Name	Location	Date	Comment
Cornelia Verkade	Denman Island, Canada	2016-09-04	I makes me sick to see so much Glyphosate being used in The U.S /Australia/New Zealand and Canada and Europa to a lesser ex stand what is the future for our children.We are destroying our soil and bodies for money
Karen Keeping	dartmouth, Canada	2016-09-04	Once you know the dangers of a dangerous chemical and the effects it has on the environment how can you ignore it?
Peggy Tremblett	Liverpool, Nova Scotia, Canada	2016-09-04	Glyphosate hurts and our environment and human life matter..
polly tickle	newfield, ME	2016-09-04	New information discloses glyphosate incorporates into our RNA as protein/collagen mimic.
Francoise D-Couturier	St-André, N.-B., Canada	2016-09-04	Il faut se montrer solidaire à dénoncer ce fléau qui, trop souvent, n'est pas connu du public en général!
Elise Comeau	Saulnierville, Canada	2016-09-04	Trees give us many things, lets not poison what keeps us alive.
Dana Giles	Whites Lake, Canada	2016-09-04	There has to be a better way, not a "corporate" profiteering scheme.
William Watt	Lachine, Canada	2016-09-04	I have no trust in this company or their products !
sara bugler	Blenheim, New Zealand	2016-09-05	I live in the most poisoned valley where round up is applied in copious amounts and our cancer rates are amongst the highest in the world. We need change and now!
Cheryl Singh	Ravenswood, WV	2016-09-05	The use of Glyphosate needs to end, and because they need to halt all GMO from production. Natural is so much better. Ever see an insect land on an ear of corn, bite it and drop dead. So scary.
Sandra Wrightman	Gibsons, Canada	2016-09-06	Vaccines have effects that are not helping us be healthy. I had long standing toxicity from my Salk vaccine. My daughter became ill following a vaccine at 16 months. We need to be much more informed about the contents of vaccines and the effects of those ingredients. Say no to vaccines and say yes to health and a healthy life sty:e
Sandra Sammartino	White Rock BC, Canada	2016-09-06	Further testing needed to understand the safety of vaccine-glyphosate link.
Barby Cochrane	Sheet Harbour, Canada	2016-09-06	I think this spraying is unhealthy for people and animals, and we need hardwood for firewood. No Liberal vote for me next time if this isn't stopped.
Susan Burch	Kentville, Canada	2016-09-11	I feel that culling the hardwood with this product is not only harmful to humans but especially to the environment. Putting big business over the health of humans and the environment.
Janet Owl (Patterson)	Massey Ontario Canada, Canada	2016-09-13	first: it is wrong to single out once specie over all others for profit. first nations have never been consulted on this kind of forest management practise on the traditional territories. third, it is just wrong.
Jan Guerin	1022, New Zealand	2016-09-17	Ban poisoning our home planet. It must be stopped
Maria Ryan-Ead	Halifax, Canada	2016-09-20	No need to have herbicides! We have natural resources to combat with. Stop killing us!
Naomie THERIAULT	Moncton, Canada	2016-09-21	Glysophate is really bad
Amy Drover	Elmsdale, Canada	2016-09-26	I'm concerned for my family especially my two children and what we are eating...
Natasha Gubert	Oakland, CA	2016-10-03	do they want to kill us all?
Stephan Williams	Pefferlaw, Canada	2016-10-05	Release the information already in hand and immediately institute a new round of research from an unbiased government lab if there is such a thing anymore...
mary williams	Tweed, Canada	2016-10-05	I have Morgellons lyme's out of control due to Round up exposure and nobody can tell me any different!

Name	Location	Date	Comment
visnu ram	India	2016-10-08	we dont want GM
jordan taylor	Mariposa, CA	2016-10-11	People need to be accountable for their actions
Amelia McLeod	Paris, Canada	2016-10-18	We care and want our government to start looking at things seriously and it's obvious to many, our foods are poisoning us!
jerry ackerman	Parham, Canada	2016-10-28	Poisoned earth, plants and people is not what I want my offspring and yours to experience
Olga Comeau	Hampton, Canada	2016-10-28	Glyphosate has been banned in other countries and had been proven to be unsafe. Canada should ban all use .
Rosemary Paige	Vancouver, CO	2016-10-29	We must establish what could be a life-threatening connection to the whole planet without objective independent analysis and change to the way agriculture and nutritional practices are overseen.
Kim G	Eagle Bay, Canada	2016-10-29	I'm worried about what is killing our bees and making our children sick.... also had morgellons disease.
Linda Shaben	Cumberland, B.C., Canada	2016-10-29	Subsequent research into Glyphosate is providing strong evidence that this chemical is contributing to a number of auto-immune diseases. Many other countries have banned the use of Glyphosate in response to this research.
Katie Curtin	Toronto, Canada	2016-11-01	From what I've heard so far, glyphosates are very dangerous to our health, let alone the impact they have on nature,
Peter Askin	Mayne Island, Canada	2016-11-02	Please sign and share for the environment!
Ilse Dyck	Winnipeg, Canada	2016-11-02	I want healthy safe and organic food and a transparent food market!
Sydnee L McKay	Dartmouth, Canada	2016-11-02	Because we pay your salary, you work for us and we have a right to know what's in our food.
Chantal Thérien	Saint Antoine Abbé, Canada	2016-11-02	Par amour de La Vie...
Helen Smyth	Coquitlam, Canada	2016-11-02	We once thought Thalidomide was safe! I don't believe much is tested before we are forced to accept it and if it is the test group is rarely independent.
Amy Liu	Tainan, Taiwan	2016-11-03	Everything we eat can affect our body. It's important that we get nice food and not worry about it.
Lynda Koile	nova scotia, Canada	2016-11-04	I care about the future
Ryan Dutchak	Winnipeg, Canada	2016-11-04	I am signing becuase glyphophate has been proven carcinogenic in other countries and leads to super weeds in agriculture.
Debbie Buchanan	Sarto, Canada	2016-11-07	I do not want to eat food spayed with chemicals!
Lee Stevenson	Mercer, PA	2016-11-07	This has been proven to be for more harmful even in small amounts then they claimed.
Elisabeth Horvath	Guayaquil, Ecuador	2016-11-09	People have a right to know with what they are being poisoned
Kim Lavallee	Sultan, Ontario, Canada	2016-11-09	I tried to get testing for glyphosate and it is not available to citizens through the labs in Ontario.
N A	Lake Country, Canada	2016-11-11	I don't want my son living in a world where unhealthy additives are legal for his consumption.
Rio Levan	Kelowna, Canada	2016-11-11	It's time to go back to a natura,l organic and sustainable way of living.
chandler rogers	Argenta, Canada	2016-11-16	Show me the science, just like you promised.
Nancy Bale	Regina, Canada	2016-11-16	No more known toxins or carcinogens in our land or water or bodies. We have a right to safe and clean environments and the buzz is our future depends on it. Justin- please be a leader.

Florence La Rose	Cambridge, Canada	2016-11-16	The government needs to stop cooperating in Big Corporations assault on citizens for profit.
Susan Swanson	Richmond, Canada	2016-11-16	Scientifically proven to cause cancer and other health issues. Looks like we are being controlled by big corps. just like the US. What are we doing okaying this when Monsanto facing lawsuits and investigation in The Hague. What is the hidden agenda PM Trudeau?
Marg Roussel	Calgary, Canada	2016-11-16	I am absolutely signing this petition. There is an abundance of scientific evidence of the harmful effects of glyphosate. I find it hard to believe that you as a medical doctor are not aware of these! This toxic substance found in Monsanto pesticide/herbicides must never be okayed for use in Canada. It has very harmful health affects for those exposed to it and those eating foods sprayed with it. Please do the research. Anyone not realizing the harmfulness of glyphosate must have had their heads in the sand. If this government approves its use I am seriously done with it. What a disappointment to someone who was so excited after the election and hopeful for truly sunnier ways. I appreciate your serious research and reflection on this vitally important issue apparently being considered for Canada! #NEVERGLYPHOSATE Sincerely, Margaret Roussel
Adyceum Magna Ccari	Lynnwood, WA	2016-11-16	I suffer from a degenerative skin malformation due to preservatives, pesticides and other man made chemicals
Catherine Heather Graham	Gatineau, Canada	2016-11-17	Poisoning us has got to stop!
Janet Nesselbush	Sacramento, CA	2016-11-17	American food shouldn't be grown with Roundup, an endocrine disruptor, probable carcinogen, and registered antibiotic. Humans need to stop poisoning our food and return to agro-ecology.
Jay Clennan	Delta, Canada	2016-11-17	Get the poison out of our food.
Anja Noel	Vancouver, Canada	2016-11-17	Monsanto & cohorts are tightly knit with governments globally, including Canada. Leaders, regardless how squeaky-clean they appear, all are part of the big money, ultimate control wheel. I am open to be proven wrong, perhaps PM Trudeau will be that person.
Ruth Krampitz	Mississauga, Canada	2016-11-17	I want my child to live to a healthy old age!
Laura Anderson	Duncan, Canada	2016-11-17	I am signing because Canadians' health matters! We need to know about glysohates and respond appropriately.
vida cropas	St. Norbert, Canada	2016-11-18	Pesticides are pervasive and negatively impact all living things: Birds, fish, soil biology, bees and yes, our children.
Jeanette Grittani	Salmon Arm, Canada	2016-11-18	I want to eat food, not poison, and keep bees alive on the planet to continue to pollinate.
Jan Kudelka	Toronto, Canada	2016-11-18	You were elected for your transparency and willingness to put our safety ahead of corporations. 0 please do not let us down
Gertruda Hadwin	N. Vancouver, Canada	2016-11-18	I'm signing this because I've read that this stuff is very dangerous.
Norman Campbell	Cornwall.ON, Canada	2016-11-21	I wonder if honey is affected from hives located close by atrazine treated fields
darryl Braaten	Calgary, Canada	2016-11-22	i am concerned that glyphosate is harmful to humans and based on the fact that it is a poison (herbicide)
