

SAANICH IS HANDING OUT EXCEPTION STATUS PERMITS THAT ARE ARBITRARY & UNFAIR !

On January 25th, 2010, district of Saanich legislated its reckless & arbitrary prohibition against conventional pest control products used in the urban landscape. Three months later, on May 1st, 2010, this fanatical & unnecessary life-style choice was imposed against both residential properties & city-owned green spaces. City council validated its prohibition under the following FALSE PRETEXTS — • that residents were concerned about the NON-ESSENTIAL USE OF PESTICIDES and the RISK that pesticides may pose to the natural environment • that the application of pesticides contributes to the cumulative chemical load absorbed by the natural environment [?!?!] • that ALTERNATIVES to the application of pesticides exist [?!?!].

And yet, Saanich has allowed the spraying for the control of gypsy moth insects. This is ARBITRARY & UNFAIR ! Any gypsy moth exception status implies that ... if it is safe for children and adults to walk and play in pesticide-treated areas around Elk Lake, then it should also be safe for them to walk and play on pesticide-treated lawns. In order to be consistent and fair, Saanich must provide NO exception status for gypsy moths.

WE SPEAK THE WHOLE TRUTH ABOUT PROHIBITION FAILURES IN BRITISH COLUMBIA FROM AN INDEPENDENT PERSPECTIVE !

We are the National Organization Responding Against HUJE that conspire to destroy the Green space and other industries (NORAHG). As a non-profit and independent organization, we are environmentalists who are dedicated to reporting about truth-challenged pesticide-hating fanatics (HUJE) who conspire to destroy businesses that are dependent on the use of safe and effective conventional pest control products. We also report on the work of several highly-rated leading experts who have recognized expertise, training, and background in matters concerning pest control products, and who promote environmental realism and pesticide truths.

We dare to defy the pesticide-hating fanatics by exploring the whole truth from an independent perspective on The Pesticide Truths Web-Site ...
