

## \*NEW\* Protection Against Disease

- ✓ Attractive turf quality
- ✓ Protection from several common turf diseases

### Characteristics:

Armor creeping bentgrass (*Agrostis stolonifera*) is from a new generation of Jacklin bentgrass and brings an extra layer of protection against several turf diseases and pests to enhance your greens, tees, approaches and fairways. Armor has proven itself over 10 years of breeding development, with impressive turf quality and is now available in the market as part of Jacklin's bentgrass line-up.

**Adaptation:** Armor thrives across the cool, temperate regions of the world, and it is adapted well into the transition zone between warm and cool-season areas.

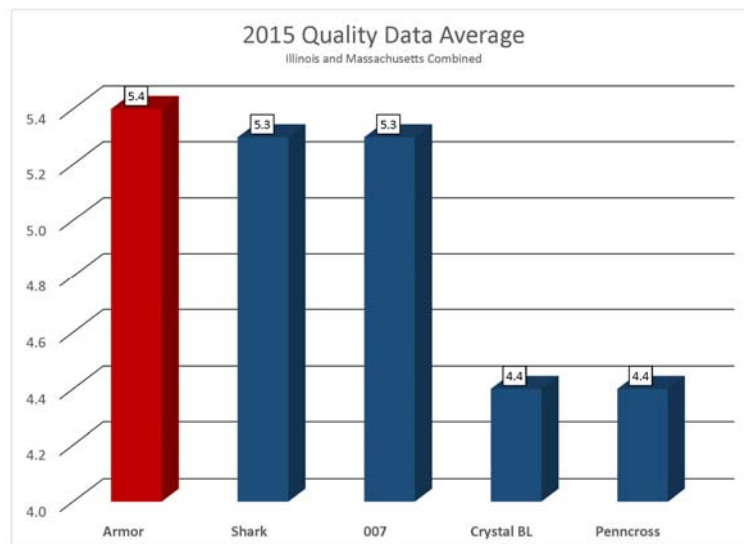

### Seeding Rate:

New Seeding: 1-2 lbs. per 1000 ft<sup>2</sup> (5-10 g/m<sup>2</sup>)  
 Interseeding: 2-4 lbs. per 1000 ft<sup>2</sup> (10-20 g/m<sup>2</sup>)
