Organizations that conspire to prohibit federally legal, scientifically safe & totally irreplaceable pest control products in British Columbia

Many of following organizations are part of a SUZUKI ALLIANCE, a coalition of health care workers and environmental groups. The head of this alliance is the PUPPET MASTER himself and his foundation, David Suzuki.

Alliances are needed to set up a pool public-relations expertise in manipulating public policy, and, more importantly, to guarantee continued funding to the ENVIRONMENTAL TERROR MOVEMENT. Alliances are also designed to

give everyone the impression that the ENVIRONMENTAL TERROR MOVEMENT has considerable size and power, when in fact, it does not. The movement in British Columbia is operated by a mere dozen ENVIRO-MANIACS, culprits that conspire to prohibit legal, safe, and irreplaceable pest control products. Some of these culprits often operate more than one organization. Consequently, many of the so-called independent ENVIRO-TERROR GROUPS are basically one-in-the-same group. THESE CULPRITS REPRESENT THEIR OWN INTERESTS ONLY, AND SEEK TO IMPOSE THEIR LIFE-STYLE CHOICES ON EVERYONE THROUGH LIES, MIS-REPRESENTATION, COERCION, AND TERROR. Surprisingly, NOT A SINGLE CULPRIT HAS ANY RECOGNIZED EXPERTISE IN MATTERS CONCERNING PEST CONTROL PRODUCTS.

- CANADIAN ASSOCIATION OF PHYSICIANS FOR THE ENVIRONMENT (C.A.P.E.).
- CANADIAN CANCER SOCIETY (C.C.S.) – B.C. and Yukon Division.
- CANADIAN COALITION FOR HEALTH AND ENVIRONMENT (C.C.H.E.).
- DAVID SUZUKI FOUNDATION.
- PESTICIDE FREE COLUMBIA BASIN COALITION (Formerly PESTICIDE FREE COLUMBIA VALLEY COALITION.).
- SIERRA CLUB OF CANADA.
- SUNSHINE COAST CLEAN AIR SOCIETY.
- TOXIC FREE CANADA.
- WEST COAST ENVIRONMENTAL LAW (W.C.E.L.).
- WESTERN CANADA WILDERNESS COMMITTEE.
- WILDSIGHT.

The Industry Strikes Back !

Part 4

27/09/2009

The [British Columbia] coalition of health and environmental groups [that includes David Suzuki Foundation, Canadian Cancer Society, Canadian Association of Physicians for the Environment, and Toxic Free Canada] has recommended provincial legislation that :

- 1. Bans the use and sale of pesticides used to improve the appearance of lawns and gardens, including a requirement for golf courses to phase-out pesticides.***
- 2. Allows exemptions only when necessary to protect public health and safety.***
- 3. Allows municipalities to enact and enforce bylaws that are more restrictive of pesticide use than the provincial law.***
- 4. Includes a ' white list ' of low-risk pesticides that are permitted on lawns and gardens to promote public awareness.***

Background Information from an Independent Perspective

The *INTEGRATED ENVIRONMENTAL PLANT MANAGEMENT ASSOCIATION OF WESTERN CANADA* (I.E.P.M.A.), in conjunction with its membership, has been VERY decisive regarding the conspiracy to prohibit legal, safe, and irreplaceable pest control products in British Columbia.

The *INTEGRATED ENVIRONMENTAL PLANT MANAGEMENT ASSOCIATION OF WESTERN CANADA* has correctly recognized that this is our last chance to prevent the prohibition, and save the industry and our future. It needs our support !

Please contact and give support to I.E.P.M.A. at 250-578-8383 or iepma@shaw.ca

I.E.P.M.A. web site is <http://www.iepma.ca>

*We must defend the industry,
whatever the cost may be !*

(ADAPTED FROM CHURCHILL, 1940.)

Media Release

IMPORTANT EFFORT BEING UNDERTAKEN BY THE I.E.P.M.A. OF WESTERN CANADA and YOU

The British Columbia (B.C.) Government has announced that they will “*REVIEW*” the use of cosmetic pesticides. Now is the time to make our voice heard. Below you will find a link to our online petition to the B.C. Government requesting that there be no ban of ‘*COSMETIC*’ pesticides. It is quick and simple to fill in, and then just click “*SEND*”.

We suggest that you have everyone in your family of voting age complete and send their own form. Note: anyone completing the form must reside in British Columbia.

Print out copies of the attached form. At your office, or when you or your staff visit a customer, request that they, and family members of voting age, complete the form. You can then transfer their information to the online version of the petition. If the customer/friend is also interested in getting others to send in the electronic form, provide them with the website address for the petition (as below). Of course, you can also give it out on the phone.

The Industry Strikes Back !

Part 4

27/09/2009

When customers fill out the written form :

- Make sure that they also sign it, as proof of permission to send it on their behalf.
- Keep the signed form.
- Once the form is completed, you can transfer the information to the online version.

Note : When the form arrives at the offices of the Premier, Minister of the Environment, and Minister of Community and Rural Affairs, the email address seen as its origin will be that which has been entered into the petition form.

Have all of your friends and their families (of voting age) who agree with our stance also fill in the form, either online or one of the printed forms.

Anytime you visit a customer, have enough forms for their families to complete, and be sure to regularly transfer the information to the online version.

The Industry Strikes Back !

Part 4

27/09/2009

REMEMBER : This is a numbers game. The Suzuki organization is having similar forms sent to the Government, but with the opposite request. We have to show the Premier that there are more people wanting the legal and proper use of pesticides than those opposed.

THE SUCCESS OF THIS VENTURE DEPENDS ON YOU. It is imperative that you get as many people as possible to fill in and remit the form. We are also looking at other means of illustrating to the Government that pesticides are an important, proper, and needed tool, but this is one of the clearest ways for you to help prove it !

THIS IS TO BE AN ONGOING, LONG-TERM EFFORT. Keep getting forms completed until the Government announces that 'cosmetic' pesticides will not be banned, even if it takes a year. This will only work if you get enough interested people to sign on.

The misinformed anti-pesticide groups are pressuring the Government and its representatives on an ongoing basis, so we have to ensure that our point of view is heard loudly and clearly.

Let's get as many as names as possible on this petition — before a final decision is reached.

If you have questions, call me at 250-764-7628, or Jacquie Doherty (President, IEPMA) at 250-578-8383.

IMPORTANT EFFORT BEING UNDERTAKEN BY THE I.E.P.M.A. OF WESTERN CANADA and YOU ONLINE PETITION

If you wish us, on your behalf, to add you to our electronic petition, please fill out and sign the form below.

The form will be emailed exactly as seen below (with the exception of the signature), to Premier Gordon Campbell, Hon. Barry Penner (Minister of the Environment), and Hon. Bill Bennett (Minister of Community and Rural Development).

If you do not wish to include all your address information, please be sure to at least add your city and email address.

ONLINE PETITION (Continued)

BRITISH COLUMBIA DOES NOT REQUIRE A COSMETIC PESTICIDE BAN

Premier Gordon Campbell, Hon. Barry Penner, Hon. Bill Bennett:

I understand that your Government plans to review the use of cosmetic pesticides. It is my belief that both homeowners and professional applicator companies should be able to use any pest control product that has been registered by Health Canada as safe to use when label recommendations are followed. Health Canada's respected Pest Management Regulatory Agency has the real experts on this subject. Their conclusions should be the foundation on which decisions are made regarding cosmetic pesticides.

I am of voting age in the Province of British Columbia, and request that your Government stand by the real science of pesticides, not the incorrect and emotion-based stance of uninformed anti-pesticide organizations and persons. I do not want to see the prohibition of the legal and proper use of these products.

Thank you

The Consequences of Failure Against Environmental Terror !

Elimination of employment.

The destructive policies advocated by the environmental terror movement will lead to the needless elimination of tens of thousands of stable jobs.

Tens of thousands unemployed.

Annihilation of companies.

The destructive policies advocated by the environmental terror movement will lead to the needless annihilation of thousands of stable businesses.

Thousands of business failures.

Disruption of home life.

The destructive policies advocated by the environmental terror movement will lead to the needless disruption of tens of thousands of stable homes.

Tens of thousands homes lost.

Destitution and despair.

The destructive policies advocated by the environmental terror movement will lead to needless suffering and hardship for tens of thousands of professionals.

Tens of thousands suffering.

Part 4

27/09/2009

FORCE OF NATURE was launched for continuous transmission on the Internet on January 1st, 2009. It is a series of e-newsletters destined for the GREEN SPACE INDUSTRY, the ENVIRONMENTAL TERROR MOVEMENT, politicians, municipalities, and the media, nation-wide across Canada, and parts of the United States and overseas. FORCE OF NATURE is produced in two parts. First, The MEDIA REPORT itself that reports on the current events affecting the future of the GREEN SPACE INDUSTRY. Second, INDEPENDENT PERSPECTIVE, which is a running commentary, sometimes technical in nature. Force of Nature is the WHOLE TRUTH from an INDEPENDENT PERSPECTIVE !

FORCE OF NATURE is the brainchild of William H. Gathercole and his entourage. Norah G is actually an acronym for the stable of writers that contribute to this e-newsletter. The opinions expressed in Force of Nature, even though from an INDEPENDENT PERSPECTIVE, may not reflect those of everyone in the GREEN SPACE INDUSTRY, or Mr. Gathercole's many associates. Be warned ! Mr. Gathercole and Norah G may sometimes be very irreverent and fearless with these e-newsletters. DON'T THANK US. IT'S A PUBLIC SERVICE. AND WE ARE GLAD TO DO IT.

William H. Gathercole holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from MCGILL UNIVERSITY. He has worked in virtually all aspects of the GREEN SPACE INDUSTRY, including public affairs, personal safety, and environmental issues. Mr. Gathercole has been a consultant and instructor for decades. He also been an agricultural agronomist. Mr. Gathercole has been following the evolution of ENVIRONMENTAL TERRORISM for over a quarter-century. His involvement in environmental issues reached a fevered pitch in the 1990s, when he orchestrated, with others, legal action against unethical and excessive municipal regulations restricting the use of pest control products. (i.e. the Town of Hudson.) Although he can be accused of being ANTI-ENVIRONMENT-MOVEMENT, he is, in fact, simply a strong advocate FOR the GREEN SPACE INDUSTRY. However, this position has not precluded him from criticizing the Green Space Industry itself. Nonetheless, his vast knowledge of our long journey with environmental issues is UNDENIABLE. (Hopefully !) For many years, Mr. Gathercole has been a contributing columnist for TURF & RECREATION Magazine, Canada's Turf and Grounds Maintenance Authority.

All document excerpts and pictures contained in FORCE OF NATURE were found somewhere on the Internet. We believe that they are in the public domain, serving one of the following purposes : archive, education, promotion, publicity, or press release.

We believe that environmental terrorism can be BEATEN ! Information presented in FORCE OF NATURE has been developed for the education and entertainment of the reader. The events, characters, companies, and organizations, depicted in this document are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental. The mission of Force of Nature is to respond to those statements and activities originating from culprits that conspire to prohibit FEDERALLY LEGAL, SCIENTIFICALLY SAFE, and TOTALLY IRREPLACEABLE conventional pest control products. Culprits are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each culprit is a mis-guided adversary, each still deserves our respect. The term « culprit » is not an accusation of any legal wrong-doing. Force of Nature is simply holding culprits accountable for changes in public policy that have terrorized the Green Space Industry. Force of Nature believes that the prohibition policies of the ENVIRONMENTAL TERROR MOVEMENT will lead to UNEMPLOYMENT, BANKRUPTCY, BUSINESS FAILURE, DESPAIR, and DESTITUTION. The actions of the movement is viewed as a form of TERROR against the Green Space Industry.
