Exchange Between Environment Minister Barry Penner and Environment Critic and Enviro-Maniac Rob Fleming Regarding Cosmetic Use of Pesticides

Province of British Columbia

Selected and adapted excerpts

Statements from Enviro-Maniac Fleming —

Throne speeches outline a government's legislative agenda, and based on the throne speech last August, British Columbians expected the PROTECT HUMAN HEALTH and the environment.

These are protections from TOXIC EXPOSURE that almost 22 million Canadians have today, but four million British Columbians do not have.

Why is he still permitting the widespread use of these HARMFUL CHEMICALS in our playgrounds and neighbourhoods?

Statements from Environment Minister Penner —

We're ending the session the way we began, with the NDP Environment

The throne speech commitment from August 2009 — and I'll read it own research.

Since it's apparent that the Environment critic couldn't find the time to do his own research and actually read what the throne speech commitment was, I'll read it into the record for all members.

« British Columbians will be consulted on new statutory protections to further safeguard our environment from cosmetic chemical pesti-

Mr. Speaker, that's exactly what has taken place.

Our ministry is busy reviewing those suggestions, those comments.

I've asked ministry staff to develop a number of proposals.

But all British Columbians should know that no substance is allowed to be sold in British Columbia unless it's first approved by experts at Health Canada.

Statements from Enviro-Maniac Fleming —

Maybe the minister, if he wouldn't like to take my word for it, would very clearly that the B.C. Liberals are not moving on consultations that were completed months ago.

This government hasn't presented legislation to this House based on the advice that it received from COUNTLESS EXPERTS.

It continues to ignore the Union of B.C. Municipalities, which speaks for all local governments in British Columbia.

It ignores warnings from the World Health Organization.

It ignores the opinion of 80 percent of British Columbians who want legislation like this.

My question is to the Minister of Environment again.

Why is he breaking his pledge to ban cosmetic pesticide use in British Columbia?

Statements from Environment Minister Penner —

As I've already indicated, we have met the commitment to consult with British Columbians, and we've in fact posted the results of that consultation on the ministry website.

Now again, I wouldn't expect the member to have taken the time to actually do his own research and read the document.

But if you review that document, you'll see that we got a wide range of suggestions from all British Columbians across the province.

But let me be very clear about something here, and I'll be a little bit personal.

No one takes the issue of cancer more seriously than I do.

It's obviously something that all people in this House take seriously,

Force Of Nature, and its various incarnations, is the brainchild of William H. Gathercole and his colleagues. Mr. Gathercole is a principal FOUNDER of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the UNI-VERSITY OF GUELPH, and another pure and applied science degree from McGILL UNIVERSITY. He has worked in virtually all aspects of the Green Space Industry, including GOLF, PROFESSIONAL LAWN CARE, and CHEMICAL INDUSTRY, and has served in environmental compliance, government negotiations, public affairs, and workplace safety. Mr. Gathercole has supervised, consulted, programmed, and/or overseen the successful and safe execution of HUNDREDS OF THOUSANDS of pest control applications in the urban landscape. He has trained instructed, and consulted with THOUSANDS of turf managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority.

Mr. Gathercole and his colleagues have followed the evolution of ENVIRONMENTAL TERRORISM for over a quarter century. For FIFTEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of the VERMIN OF ENVIRONMENTAL TERROR for the entire Modern Green Space Industry across Canada. Their involvement in Environmental Issues reached a fevered pitch in the 1990s, when he orchestrated, with his colleagues, legal action against the Forces of Environmental Evil in the Town of Hudson. Ouebec.

Today, Mr. Gathercole is the ONLY TRUE RELIABLE WITNESS of the Hudson Affair. Mr. Gathercole is personally credited for crafting the Golf Industry Exception Status that endures to this day. He is also the creator of the signs that are now used for posting after application His vast knowledge of our long journey with Environmental Issues is UNDENIABLE — hopefully! Mr. Gathercole is now retired, although his name continues to appear as FOLINDER of Force Of Nature
