

AUGUST 19th, 2011
LETTER TO THE EDITOR
RESPONSE TO JOHN J.HOLLAND
THE DAILY NEWS
KAMLOOPS, BRITISH COLUMBIA

Congratulations to Holland for a well-thought-out response.

However, we believe that Holland is giving way too much credit to the 81-year-old Cottam, whoever he/she may be.

COTTAM is actually a designation for a group of Anti-Pesticide Ghost-Writers.

The REAL Cottam is an 81-year-old divorced chronologically-gifted computer-challenged non-expert octogenarian.

With her advanced years, her basic skills are severely limited, to a point where she has complained having problems opening pdf documents.

Sadly, because of her age and diminished capacity, ANONYMOUS Anti-Pesticide Activists have been using the COTTAM name as a SHIELD AGAINST IMMINENT LEGAL REPRISALS FOR FRAUD AND CONSPIRACY.

The Cottam name is also used in order to give an unsuspecting public the FALSE and FRAUDULENT impression that the Anti-Pesticide Movement has considerable size and power, when in fact, it does not.

According to a 2011 poll conducted by Canadian Consumer Specialty Products Association (CCSPA) in British Columbia, only an INFINITELY SMALL number of residents actually say « no » to the use of pest control products.

Ghost-Writers include cottamkj, Dog Lover, HatesCrap, Jean Cottam, Jean Sergent, Miss or Missy Goat 78, Richard Clarkson, and other Anti-Pesticide Activists.

They often give themselves a PLETHORA OF CONCOCTED TITLES, such as doctor, high-ranking civil servant, honorary observer, intelligence analyst, retired scientist, and federal public servant — NONE OF WHICH ARE TRUE.

These Ghost-Writers continually attempt to CONFUSE and SUBVERT the issues surrounding pest control products.

In 2004, Government Officials at HEALTH CANADA were deceived by a letter written by Ghost-Writers using the COTTAM name.

HEALTH CANADA Officials took the time to answer EVERY SINGLE ONE of their concerns regarding pest control products.

NOT ONE of their allegations was confirmed, including the issues of EPIDEMIOLOGY.

It is a fact that ONLY Health Canada's HUNDREDS of expert scientists have ANY recognized expertise, training or background in matters concerning pest control products.

Health Canada oversees the testing and approval of pest control products by using SOUND SCIENCE in order to ensure that they are SCIENTIFICALLY-SAFE.

SCIENCE is the basis of all Health Canada regulatory decisions for pest control products.

Close examination of this letter has revealed that it was written by Anti-Pesticide Activist Meg Sears and others.

Sears has substantially reduced her public exposure, fearing IMMINENT LEGAL REPRISALS FOR FRAUD AND CONSPIRACY against the Professional Lawn Care Industry.

Any attempts to respond to ANY letter from a Cottam-Ghost-Writer merely VALIDATES the activities of ANONYMOUS writers who are clearly attempting to EVADE the consequences of their actions.
