MAPLE RIDGE NEWS

MAPLE RIDGE, BRITISH COLUMBIA

Vast Majority AGAINST Prohibition

Polls showing resident-support for PROHIBITION have been DEBUNKED.

Anti-Pesticide organizations often use these Enviro-Polls to SUBVERT AND POLLUTE the course of events leading to the NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION of conventional pest control products.

According to the MORE LEGITIMATE 2011 POLL conducted by Canadian Consumer Specialty Products Association in British Columbia ...

- The VAST MAJORITY of residents are OPPOSED to the PROHIBITION of conventional pest control products
- The VAST MAJORITY of residents FAVOUR THE CONTINUED USE OF PEST CONTROL PRODUCTS around their homes and in public green spaces
- Only an INFINITELY SMALL number of residents say « *no* » to the use of pest control products
- Residents want to continue to have the option to use pest control products
- Residents SUPPORT THE CONTINUED USE OF PEST CONTROL PRODUCTS in the Urban Landscape

The Fraser Institute

According to The Fraser Institute, the highly-rated Think-Tank of TRUE EXPERTS, PROHIBITIONS on the use of pest control product are ILL-

CONCEIVED and DO NOT accurately reflect the current state of scientific knowledge

Also according to The Fraser Institute, HASTY PROHIBITIONS of pest control products SHOULD NOT BE IMPLEMENTED until the underlying science is conclusive, and until a comprehensive analysis of the potential side-effects resulting from the PROHIBITION has been undertaken

Incredibly, some municipalities and provinces ARBITRARILY PROHIBIT pest control products that are, in fact, ...

- Health-Canada-Approved,
- Federally-Legal,
- Scientifically-Safe, and
- Practically-Non-Toxic.

Moreover, any PROHIBITION of pest control products is NOT JUSTIFIED because STRICT REGULATIONS BASED ON SCIENTIFIC RESEARCH ALREADY PROTECT OUR HEALTH and OUR ENVIRONMENT.
