**Western Canada Conspiracy to Prohibit Pest Control Products**

## PRETENSE of Special Committee on Cosmetic Pesticides

November 16<sup>th</sup>, 2011

The Townsman

[ Province of British Columbia ( BC ) ]

Selected and adapted excerpts

THE GOVERNMENT OF BRITISH COLUMBIA HAS AN 85-MEMBER-ELECTED LEGISLATIVE ASSEMBLY.

THE PROVINCE IS GOVERNED BY THE LIBERAL PARTY UNDER PREMIER CHRISTY CLARK.

THE NEW DEMOCRATIC PARTY ( NDP ) AND ITS PREDECESSORS HAVE BEEN THE MAIN OPPOSITION FORCE TO BUSINESS-ORIENTED PARTIES.

GREEN PARTY OF BRITISH COLUMBIA PLAYS A LARGER ROLE IN THE POLITICS THAN GREEN PARTIES DO IN MOST OTHER JURISDICTIONS IN CANADA, ALTHOUGH THE PARTY'S VOTE SHARE HAS DECLINED IN THE LAST TWO ELECTIONS.

# British Columbia

When Special Committee on Cosmetic Pesticides recommends PROHIBITION,  
it WILL be for political reasons and NOT for scientific reasons

ALL British Columbia political parties have  
CONSPIRED to PROHIBIT pest control  
products in the Urban Landscape,  
and operate as the POLITICAL SHIELDS  
for the Anti-Pesticide Movement

Bill Bennett is a Kootenay East Member of the Legislative in British Columbia.

He has his hands full.

Back in July 2011, he was appointed to the Special Committee on Cosmetic Pesticides, a legislative committee made up of elected officials from the Liberal and New Democratic Parties.

Both parties have CONSPIRED to PROHIBIT pest control products in the Urban Landscape, and operate as the POLITICAL SHIELDS for the Anti-Pesticide Movement.

Then in September 2011, Anti-Pesticide Premier Christy Clark asked Bennett to chair the committee after Margaret McDiarmid stepped down to take a cabinet position.

Since then, the committee has met six times, and has been given over twenty presentations on pest control products.

# British Columbia

When Special Committee on Cosmetic Pesticides recommends PROHIBITION,  
it WILL be for political reasons and NOT for scientific reasons

Despite MOCK-CONSULTATIONS,  
Special Committee on Cosmetic Pesticides  
will nonetheless recommend PROHIBITION

While seemingly listening to all interested parties regarding the fate of « *cosmetic pesticides* », Special Committee on Cosmetic Pesticides will, BEYOND ANY DOUBT, recommend the PROHIBITION of pest control products in the Urban Landscape.

Special Committee on Cosmetic Pesticides wants MAINTAIN THE PRETENSE that it wants to hear what the public has to say with MOCK-CONSULTATIONS.

Nonetheless, the ULTIMATE GOAL of some Anti-Pesticide Lunatic members of this committee is to IMPOSE the PROHIBITION of pest control product used in the Urban Landscape.

Speakers have ranged from career-long toxicologists, to lunatic-environmental-terrorist.

Bennett said he has heard from Health Canada and Integrated Environmental Plant Management Association of Western Canada, organizations that have RECOGNIZED EXPERTISE in matters concerning pest control products.

# British Columbia

When Special Committee on Cosmetic Pesticides recommends PROHIBITION,  
it WILL be for political reasons and NOT for scientific reasons

Special Committee on Cosmetic Pesticides  
is INFESTED with Anti-Pesticide Lunatics

Bennett has also heard Canadian Cancer Society and Toxic Free Canada, organizations with Lunatic Anti-Pesticide Activists who have NO recognized background, training, or expertise in matters concerning pest control products.

Predictably, Anti-Pesticide Activists have FLOODED the Special Committee on Cosmetic Pesticides with THOUSANDS, YES THOUSANDS, OF COMMENTS consisting of LIES and MIS-INFORMATION.

Anti-Pesticide Activists have CARPET-BOMBED and TERRORIZED the Special Committee on Cosmetic Pesticides.

In fact, Special Committee on Cosmetic Pesticides wants to PROJECT AN IMAGE OF FAIRNESS when, in fact, it is INFESTED with Anti-Pesticide Lunatics who are NOT interested in fair discussion concerning the matter of pest control products.

Moreover, ALL members of Special Committee on Cosmetic Pesticides must respect their party platforms concerning SUPPORT for the PROHIBITION of pest control products in the Urban Landscape.

Bennett WILL HAVE NO CHOICE BUT SUPPORT PROHIBITION.

# British Columbia

When Special Committee on Cosmetic Pesticides recommends PROHIBITION,  
it WILL be for political reasons and NOT for scientific reasons

Canadian Cancer Society is SCIENTIFICALLY  
ILLITERATE and AFRAID OF ALL CHEMICALS

According to Bill Bennett —

*<< I think there is a paradox for the committee that we're going to have to come to grips with.*

*On one hand, you have a society [ Canadian Cancer Society ] that is largely SCIENTIFICALLY ILLITERATE and AFRAID OF ALL CHEMICALS.*

*On the other hand, we have 350 toxicologists who work for Health Canada.*

*In the case of the very readily available pesticides, they have been determined by Health Canada to be SAFE TO USE. >>*

Nonetheless, Bennett WILL HAVE NO CHOICE BUT SUPPORT PROHIBITION.

And, the Professional Lawn Care Industry WILL HAVE NO CHOICE BUT LAUNCH LITIGATION against those Anti-Pesticide Government Officials and Activists who CONSPIRED TO PROHIBIT pest control products.

# British Columbia

Special Committee on Cosmetic Pesticides  
is INFESTED with Anti-Pesticide Lunatics

When Special Committee on Cosmetic Pesticides  
recommends PROHIBITION, it WILL be for  
political reasons and NOT for scientific reasons

Bennett said the Director of the Centre of Toxicology at the University of Guelph, Dr. Keith Solomon, gave the committee his point of view.

According to Bill Bennett —

<< *This man [ Dr. Keith Solomon ] has studied cosmetic pesticides his whole career.*

*His statement to the committee was ...*

« *If you ban these pesticides, at least be honest enough to admit that you're doing so for POLITICAL REASONS and NOT for scientific reasons.* » >>

In fact, ALL PROHIBITIONS across Canada are 100 per cent Politically-Based and 0 per cent Science-Based.

# British Columbia

When Special Committee on Cosmetic Pesticides recommends PROHIBITION,  
it WILL be for political reasons and NOT for scientific reasons

Trying to make a report to the legislature based on so much information, and so many vastly differing opinions, is one of the hardest things he's done in his career, Bennett suggested.

According to Bill Bennett —

*<< It's the most technical exercise that I have encountered since I've been an MLA.*

*It's going to be very difficult from a POLITICAL PERSPECTIVE.*

*I think society is very suspicious about any chemical, and we're not very well informed about these things.*

*We're not scientists and we're not capable of assessing the different scientific points of view.*

*However, I think we are capable of standing back at the end of this process and looking at which groups and individuals have the most credibility when it comes to an opinion on the risk from chemical pesticides.*

*I frankly think that a toxicologist is an expert in the field.*

*In that context of this public suspicion of chemicals, we are going to have to make a recommendation that is science-based but which also MEETS THE EXPECTATIONS OF THE PUBLIC. >>*

# Background Information from an Independent Perspective

## Myth —

PROHIBITION in British Columbia would somehow have a positive effect on health, environment, and economy — WRONG !

## Response —

In other jurisdictions, PROHIBITION has led to IMMENSE LOSSES OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, inflicting TERROR, DESPAIR, and DESTITUTION on thousands of hapless victims throughout the Green Space Industry.

## Prohibition Is NOT Necessary.

Any PROHIBITION of pest control products is NOT JUSTIFIED because STRICT REGULATIONS BASED ON SCIENTIFIC RESEARCH ALREADY PROTECT OUR HEALTH and OUR ENVIRONMENT.

ALL PROHIBITIONS are 100 per cent Politically-Based and 0 per cent Science-Based.

The MAJOR SOURCE of exposure to pest control products is from FOOD SUPPLY, and NOT the Urban Landscape.

Incredibly, some jurisdictions ARBITRARILY PROHIBIT pest control products that are, in fact, ...

- Health-Canada-Approved
- Federally-Legal
- Safe For Children \*
- Scientifically-Safe
- Practically-Non-Toxic

\* Except when stored improperly in the home.

# Background Information from an Independent Perspective ( continued )

## **Consequences of Prohibition**

PROHIBITION has INFLICTED HORRENDOUS CARNAGE in jurisdictions such as Halifax Regional Municipality, and the Provinces of Quebec and Ontario.

In jurisdictions like Ontario, PROHIBITION led to the DEATH of an elderly man who was forced to hand-pull TOXIC NOXIOUS WEEDS.

Because of PROHIBITION, green spaces are OVER-RUN WITH WEEDS, INFESTED WITH INSECTS, and DISMALLY DESTROYED — they look like GARBAGE DUMPS.

In ALL jurisdictions across Canada, Anti-Pesticide PROHIBITION led to IMMENSE LOSSES OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT.

### **Halifax**

Because of Anti-Pesticide PROHIBITION in Halifax Regional Municipality, CUSTOMERS DISINTEGRATED BY OVER 50 PER CENT.

### **Quebec**

As a sad consequence of Anti-Pesticide PROHIBITION in the Province of Quebec, OVER 60 PER CENT of the Professional Lawn Care Industry WAS ANNIHILATED.

### **Ontario**

Because of PROHIBITION in Ontario, the Professional Lawn Care Industry LOST OVER 500,000,000 DOLLARS, with UP TO 12,500 UNEMPLOYED.

Because of PROHIBITION in Ontario, ONE-COMPANY-PER-WEEK DISAPPEARS INTO TOTAL OBLIVION.

The SAME fate awaits British Columbia.

# Integrated Environmental Plant Management Association of Western Canada

## Representation

The ONLY trade association that LEGITIMATELY REPRESENTS the Professional Lawn Care Industry in British Columbia is Integrated Environmental Plant Management Association of Western Canada ( IEPMA )

## IEPMA Decisiveness

The Integrated Environmental Plant Management Association of Western Canada, in conjunction with its membership, has been VERY decisive regarding the CONSPIRACY to PROHIBIT pest control products in British Columbia.

After all, conventional pest control products are HEALTH-CANADA-APPROVED, FEDERALLY-LEGAL, SCIENTIFICALLY-SAFE, and PRACTICALLY-NON-TOXIC.

The Integrated Environmental Plant Management Association has correctly recognized that this is a BEACH-HEAD in the FIGHT FOR VICTORY against the TERRORIST CONSPIRACY to PROHIBIT pest control products in British Columbia.

## IEPMA Position

Integrated Environmental Plant Management Association of Western Canada supports the use of pest control products under the guidelines of ...

- Health Canada's Pest Management Regulatory Agency, and
- British Columbia's Integrated Pest Management Act and Regulations.

# Background Information from an Independent Perspective ( continued )

## **IEPMA Position**

( continued )

Integrated Environmental Plant Management Association of Western Canada  
DOES NOT SUPPORT FURTHER RESTRICTIONS.

Integrated Environmental Plant Management Association of Western Canada  
( IEPMA ) believes pest control products ARE NOT COSMETIC.

IEPMA believes that pest control products are necessary tools for home-  
owners and companies throughout British Columbia.

IEPMA believes in a SCIENCE-BASED APPROACH when dealing with pest  
control products.

The MAJORITY of British Columbians, according to a 2011 survey, support  
the continued use of pest control products.

Integrated Environmental Plant Management Association of Western Canada  
WILL HAVE NO CHOICE BUT LAUNCH LITIGATION against those Anti-  
Pesticide Government Officials and Activists who CONSPIRED TO PROHIBIT  
pest control products.

## **Other Trade Associations**

Trade associations like Western Canada Turfgrass Association ( WCTA ) and  
Canadian Nursery Landscape Association ( CNLA ) DO NOT represent the  
Professional Lawn Care Industry in British Columbia.

Incredibly, as evidenced by their activities and statements, WCTA and CNLA  
both actually SUPPORT the PROHIBITION of pest control products in the Ur-  
ban Landscape.

# Critical Issues For Integrated Environmental Plant Management Association of Western Canada

TO AVOID THE IMPENDING BLACK ANTI-PESTICIDE DEATH, Integrated Environmental Plant Management Association of Western Canada Must Immediately Address Several CRITICAL ISSUES.

In order to successfully deter the malicious efforts of all Lunatic Anti-Pesticide Terrorists, Integrated Environmental Plant Management Association of Western Canada must immediately address the following CRITICAL ISSUES.

1. Integrated Environmental Plant Management Association MUST STRONGLY ADOPT THE POSITION THAT CONVENTIONAL PEST CONTROL PRODUCTS ARE SCIENTIFICALLY-SAFE AND CAUSE NO HARM.
2. Integrated Environmental Plant Management Association MUST ALSO ADOPT THE POLICY that its use of ANY FERTILIZERS DOES NOT HARM THE ENVIRONMENT.
3. Integrated Environmental Plant Management Association MUST OPPOSE ALL FORMS OF PROHIBITION AGAINST pest control products used in the Urban Landscape. It must OPPOSE even PROHIBITION on PUBLIC PROPERTY since this is a FIRST STEP towards TOTAL PROHIBITION.
4. Integrated Environmental Plant Management Association MUST ALSO OPPOSE ALL FORMS OF PROHIBITION AGAINST FERTILIZERS.
5. Integrated Environmental Plant Management Association MUST CEASE ATTEMPTING TO EDUCATE AND NEGOTIATE with Anti-Pesticide Environmental Lunatic Government Officials and Activists. They are to be considered ENEMIES of the industry. Anti-Pesticide-Environmental Lunatics WILL NEVER reverse their attitudes AGAINST pest control products. NO ONE MUST NEGOTIATE WITH TERRORISTS, either environmental or political.

# Critical Issues For Integrated Environmental Plant Management Association of Western Canada ( continued )

6. Integrated Environmental Plant Management Association MUST ADOPT THE POLICY that the ONLY COURSE OF ACTION AGAINST PROHIBITION IS THROUGH LITIGATION.

7. Integrated Environmental Plant Management Association MUST LAUNCH LITIGATION against those Anti-Pesticide Enviro-Lunatic Government Officials and Activists who have CONSPIRED TO PROHIBIT pest control products. These products are, in fact HEALTH-CANADA-APPROVED, FEDERALLY-LEGAL, and PRACTICALLY-NON-TOXIC.

8. Integrated Environmental Plant Management Association MUST DEMAND THAT ALL PROHIBITIONS pertaining to the use of pest control product in the Urban Landscape BE RESCINDED in ALL MUNICIPAL JURISDICTIONS.

9. In those jurisdictions that REFUSE TO RESCIND PROHIBITION, Integrated Environmental Plant Management Association MUST THEN DEMAND THAT ALL EXCEPTIONS TO PROHIBITION BE RESCINDED. ALL conventional pest control products MUST BE PROHIBITED from industries like agriculture, forestry, golf, mosquito control, nursery, sod production, and sports fields. These industries use the VERY SAME INGREDIENTS that are used to control damaging weed and insect pests by the Professional Lawn Care Industry.

10. In SELECTED jurisdictions where PROHIBITION has been IMPOSED, LEGAL ACTION MUST BE STARTED. Integrated Environmental Plant Management Association SHOULD SEEK DAMAGES on behalf of Professional Lawn Care companies. These companies will be NO LONGER able to reproduce the business results obtained prior to PROHIBITION, and the VALUE of their businesses will have been DESTROYED.

11. In SELECTED jurisdictions where PROHIBITION has been IMPOSED, Professional Lawn Care companies MUST DEMAND COMPENSATION FROM MUNICIPAL GOVERNMENT since PROHIBITION will have created LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT.

# Critical Issues For Integrated Environmental Plant Management Association of Western Canada ( continued )

12. Integrated Environmental Plant Management Association MUST TERMINATE ALL RELATIONSHIPS from ALL Trade Associations like Western Canada Turfgrass Association ( WCTA ) and Canadian Nursery Landscape Association ( CNLA ). Incredibly, they SUPPORTED the NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION of pest control products. If they are not WITH US, then they are AGAINST US !

13. Integrated Environmental Plant Management Association MUST DENOUNCE the so-called GREEN ALTERNATIVES to conventional pest control products as BOGUS. Green Alternatives DO NOT WORK. There will likely be NO viable, efficacious, or economical Green Alternatives within our collective lifetime.

14. Integrated Environmental Plant Management Association MUST DEMAND that ALL USES OF NEMATODE INSECTICIDES BE PROHIBITED until they are REGISTERED under federal law. Even though they are Green Alternatives, they are pest control products that MUST BE REGULATED.

15. Integrated Environmental Plant Management Association MUST ALSO DENOUNCE CULTURAL PRACTICES as a so-called alternative to the use of pest control products. Cultural practices DO NOT WORK in controlling pests.

16. Integrated Environmental Plant Management Association MUST SCIENTIFICALLY DEFINE and PUBLICALLY DISCREDIT the mis-leading term « Organic Maintenance », and establish policies for EXPELLING companies using this inaccurate and misleading term from its trade associations. These companies are not WITH US, they are AGAINST US !

17. Integrated Environmental Plant Management Association MUST VIGOROUSLY EMBARK ON A MASSIVE PUBLIC RELATIONS CAMPAIGN to STOP the proposed scheme by Anti-Pesticide Activists and New Democratic Party of Canada ( NDP ) threatening a NATIONAL PROHIBITION of pest control products. NDP functions as a political shield for the Anti-Pesticide Terrorist-Movement.

# Critical Issues For Integrated Environmental Plant Management Association of Western Canada ( continued )

18. Integrated Environmental Plant Management Association MUST VIGOROUSLY EMBARK ON A MASSIVE PUBLIC RELATIONS CAMPAIGN declaring that Pesticide-Free Urban Green Spaces are a DISMAL FAILURE !

19. Integrated Environmental Plant Management Association MUST VERY STRONGLY ADDRESS AND DISCREDIT ALL MISCONCEPTIONS concerning imidacloprid, 2,4-D, and other ingredients.

20. Integrated Environmental Plant Management Association MUST TERMINATE ALL RELATIONSHIPS with ALL TEACHING AND RESEARCH INSTITUTIONS that SUPPORT the PROHIBITION of pest control products. These include Gaia College and University of British Columbia ( UBC ). ALL joint activities and educational seminars MUST BE ENDED FOR AN INDEFINITE PERIOD OF TIME. If they are not WITH US, then they are AGAINST US !

21. Integrated Environmental Plant Management Association MUST OPENLY AND FINANCIALLY SUPPORT ALL POLITICAL CANDIDATES WHO OPPOSE ANY PROHIBITION of pest control products.

22. Integrated Environmental Plant Management Association MUST CEASE focusing on the INEFFECTIVE Integrated Pest Management ( IPM ) strategies as the solution to its public affairs problems. Besides, IPM DOES NOT WORK.

23. Integrated Environmental Plant Management Association MUST ADVOCATE that using the services of a Professional Lawn Care company is SAFER than Do-It-Yourself-Home-Owners.

24. Integrated Environmental Plant Management Association MUST STRIKE BACK WITH LITIGATION against its ENEMIES who are Anti-Pesticide Environmental-Terrorists. These lunatics COULD NOT CARE LESS about SCIENCE-BASED EVIDENCE. THEY HATE AND DESPISE THE PROFESSIONAL LAWN CARE INDUSTRY, AND WILL DESTROY IT AT ANY COST.

**STOP lying around  
doing NOTHING against  
Lunatic Terrorist  
PROHIBITION**

**FIGHT AGAINST the  
CONSPIRACY to PROHIBIT  
pest control products  
in the Urban Landscape**

# N

We are living in the 9|11 Era of Anti-Pesticide Terrorism where Science is Trumped by Internet Rumor, Innuendo, and Fabrication.

At least ONE SUBVERSIVE ACT OF TERROR is Perpetrated EVERY SINGLE DAY by enviro lunatics.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, and INTERNET RUMOUR — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

NORAHG is National Organization Responding Against HUJE that seek to harm the Green Space Industry.

NORAHG represents the VAST SILENT MAJORITY of people in the Green Space Industry who are OPPOSED to PROHIBITION.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization dedicated to reporting the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

Anti Pesticide HUJE are enviro lunatics and lawn haters who particularly DESPISE the golf industry — they are Hateful Underhanded Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS.

There is NO RECOURSE but LITIGATION against these HUJE, as well as CANCELLATION of GOVERNMENT GRANTS and REVOCATION of the TAX-EXEMPT STATUS of their organizations. HUJE should Get OFF Our grASS, and they should Roast In Hell.

Anti Pesticide HUJE are advised that all names, statements, activities, and affiliations have been ARCHIVED for eventual CRIMINAL CHARGES.

NORAHG manages the Library Computer Access and Retrieval System for all anti pesticide terrorist acts of subversion.

The NORAHG Library Computer Access and Retrieval System is a VAST ARCHIVE of DOCUMENTS, AUDIO CLIPS, and VIDEOS on ALL anti pesticide ACTS OF SUBVERSION — this archive has been made AVAILABLE to anyone interested in LITIGATION.

These ARCHIVES contain names, statements, activities, and affiliations of ALL anti pesticide vermin, including government officials, as well as charitable prohibition terrorist organizations that DO NOT DESERVE ANY tax exempt status.

Interested parties need only to send NORAHG their REQUESTS for ANY INFORMATION needed in the War Against Lunatic Terrorist PROHIBITION.

NORAHG also produces FORCE OF NATURE, reports that present THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE about environmental issues, including anti pesticide terrorism.

FORCE OF NATURE is a series of reports destined for the green space industry, the environmental terrorist movement, governments, and the media, nationwide across Canada, the United States, and overseas.

FORCE OF NATURE is committed to SOUND SCIENCE, as well as ground breaking original reporting that informs, entertains, and creates real change.

The information presented in FORCE OF NATURE has been developed for the education and entertainment of the reader by providing a sequence of events WITH COMMENTARY, striving for accuracy in history, politics, and science.

FORCE OF NATURE is TOTALLY INDEPENDENT and provides NO guarantee regarding accuracy or completeness. In no event shall FORCE OF NATURE be liable for any incidental or consequential damages, lost profits, or any indirect damages.

NORAHG also produces A LOOK AT, a series of reports providing TECHNICAL INFORMATION on issues such as Career Management, Golf Course Maintenance, Green Alternatives, Summer Stress, Turfgrass Pests, and Turfgrass Species.

Finally, NORAHG frequently responds to anti pesticide activists in LETTERS TO THE EDITOR in newspapers across Canada and around the world.

All information, excerpts, and pictures contained in FORCE OF NATURE, A LOOK AT, and LETTERS TO THE EDITOR were retrieved from the Internet, and may be considered in the public domain.

FORCE OF NATURE, A LOOK AT, and their various incarnations, was the brainchild of William H. Gathercole ( now retired ) and his colleagues.

Here is a brief summary of Mr. Gathercole's career —

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University • University of Guelph • the first person ever to obtain university degrees and contribute to both the professional lawn care and golf maintenance industries

Expertise in — environmental issues and anti pesticide terrorism • turf and ornamental maintenance and troubleshooting • history of the industry • sales and distribution of seeds, chemicals, fertilizers, and equipment • fertilizer manufacturing and distribution

Notable activities — worked in virtually all aspects of the green space industry, including golf, professional lawn care, distribution, environmental compliance, government negotiations, public affairs, and workplace safety • supervisor, consultant, and, programmer for the successful execution of hundreds of thousands of management operations in the golf and urban landscape, as well as millions of pest control applications • advisor, instructor, and trainer for thousands of turf and ornamental managers and technicians • pesticide certification instructor for thousands of industry workers • founder of the modern professional lawn care industry • prolific writer for industry publications and e-newsletters • first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouver / Fraser Valley region • with Dr. Peter Dernoeden, confirmed the presence of Take All Patch as a disease of turf in Eastern Canada • with Dr. David Shetlar, confirmed the presence of Kentucky Bluegrass Scale as an insect pest in South Western Ontario, and later, in the Montreal and Vancouver regions

Special contributions — creator of the exception status that has allowed the golf industry to avoid being subjected to anti pesticide prohibition • creator of the signs that are now used for posting after application • co-founder of annual winter convention for Quebec golf course superintendents • the major influence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated daffodils • the only true reliable witness of the events of anti pesticide prohibition in the town of Hudson, Quebec • retired founder of FORCE OF NATURE and A LOOK AT reports

Notable award — the very first man of the year for contributions leading to the successful founding of Quebec professional lawn care industry, which served as a beach-head against anti pesticide activists in the 1980s and 1990s

Legacy — Mr. Gathercole and his colleagues ... designed and implemented strategies that reined anti pesticide activists to provide peace and prosperity for the entire modern green space industry across Canada • orchestrated legal action against anti pesticide activists in the town of Hudson, Quebec • launched the largest founding professional lawn care business in Canada • quadrupled the business revenues of one of the largest suppliers in Canada

Mr. Gathercole is now retired, although his name continues to appear as founder of FORCE OF NATURE and A LOOK AT reports.
