Anti-Pesticide Activists are basically LUNATIC-LIARS !

They LIE and LIE and LIE and LIE.

They NEVER Stop !

These Lunatic-Liars CONSPIRE AGAINST pest control products, or any other product they arbitrarily deem as unwanted.

To paraphrase Robert F. Kennedy ...

*Anti-pesticide lunatics are against everything all the time.*

In the 9|11 Era of Anti-Pesticide Lunatic-Terrorism, at least ONE MALICIOUS ACT OF TERROR is Perpetrated EVERY SINGLE DAY by Anti-Pesticide LUNATIC-LIARS.

Anti-Pesticide LUNATIC-LIARS make the LIE big, make it simple, keep saying it, and eventually the public believes them.

If these LUNATIC-LIARS wore Swastikas, and lived in the 1930s and 1940s, they would be leading the Third Reich.

Anti-Pesticide Activists have created hostile ideology global in scope, atheistic in character, ruthless in purpose, and insidious in method.

## Anti-Pesticide

On May 17<sup>th</sup>, 2012, the British Columbia's Special Committee On Cosmetic Pesticides tabled it's report.

The committee DID NOT recommend PROHIBITION against the use of pest control products in the Urban Environment.

Pest control products CAUSE NO HARM and are SCIENTIFICALLY SAFE.

Not surprisingly, the Special Committee On Cosmetic Pesticides AGREED ... and deserves CONGRATULATION.

According to Bill Bennett, Chair of the Special Committee On Cosmetic Pesticides —

*The majority of the committee DOES NOT THINK THE SCIENTIFIC EVIDENCE, at this time, WARRANTS AN OUTRIGHT BAN.*

*We are not prepared to say to home-owners that purchasing 2,4-D is prohibited, under all circumstances, or that they cannot hire a qualified person to apply it to their lawns.*

Instead of an all-out ban, the committee put forth 17 recommendations aimed at promoting the safe use of pest control products.

Not surprisingly, the final decision of the committee was NOT UNANIMOUS since the minority of the committee, composed of members of the New Democratic Party ( NDP ), somehow came to the conclusion that Anti-Pesticide PROHIBITION was necessary.

New Democratic Party functions as the POLITICAL SHIELD for Anti-Pesticide and Environmental-Terrorist Organizations — most of these organizations are presently UNDER INVESTIGATION FOR CHARITY FRAUD AND CONSPIRACY.

## Anti-Pesticide Lunatic-ENTRAPMENT

---

Bill Bennett, Chair of the Special Committee On Cosmetic Pesticides, may have CORRECTLY DESCRIBED people who support a ban as « *politically motivated left wing conspiracy theorists* ».

In a May 30<sup>th</sup>, 2012, message to Anti-Pesticide Lunatic Bill Wells, Bennett wrote « *I'll take the 350 scientists at Health Canada over the politically-motivated left wing conspiracy theorists any day* ».

Wells had written to Bennett calling the committee's recommendation against a ban « *disgraceful* » and expressed MOCK-DISAPPOINTMENT.

Bennett's first response to Wells said, « *I am pleased to hear that you can read and encourage you to put your skill to work reading the Special Committee's Report. Perhaps even an old dog can learn a new trick !* »

When Wells wrote back saying the chemical industry has somehow under an undue influence on Health Canada, Bennett responded — « *And a commie under every rock and the grassy hill in Dallas and all corporations and all that jazz. Sorry, I'm not a conspiracy theorist.* »

This was clearly an Anti-Pesticide Lunatic-ENTRAPMENT designed to embarrass Bennett.

Anti-Pesticide Lunatics like Wells will continue to harass and embarrass Government Officials like Bennett until they hear the answers they want.

### Who Is Bill Wells

---

Non-Expert Anti-Pesticide Activist Bill Wells is THE LEAST QUALIFIED to provide ANY advice concerning pest control products.

Wells has ABSOLUTELY NO recognized training, expertise, or background in matters concerning pest control products.

His training is merely in soils mapping and terrain classification.

Wells has VESTED INTERESTS in CONSPIRING to PROHIBIT pest control products.

Wells is a HIGH-RANKING OFFICIAL within the ORGANIC FOOD INDUSTRY in British Columbia, and actually DERIVED PERSONAL PROFIT from a PESTICIDE-FREE FARM.

It is DISTURBING that Wells has attempted to ADD PROFIT TO HIS VESTED INTERESTS ... AT THE EXPENSE OF THE JOBS HE INTENDS TO DESTROY in the Professional Lawn Care Industry.

Moreover, it is now common knowledge that Organic Food is a DISMALLY BOGUS FAILURE.

Anti-Pesticide Activists like Wells are NOT CREDIBLE experts on pest control products.

Wells is also CLOSELY ATTACHED to Anti-Pesticide Organizations like Canadian Cancer Society, New Democratic Party, and Wildsight — these ATTACHMENTS make his opinion COMPLETELY SUSPECT.

## Communications Show Wells' BIAS

---

Wells immediately shared his communications with Anti-Pesticide New Democrat Lunatic Michelle Mungall [ she was on Wells' « cc » list ].

New Democratic Party functions as the POLITICAL SHIELD for Anti-Pesticide and Environmental-Terrorist Organizations — most of these organizations are presently UNDER INVESTIGATION FOR CHARITY FRAUD AND CONSPIRACY.

Mungall also expressed MOCK-PARTISAN-OUTRAGE —

« *When I first read it, I was very shocked* » she said. [ ?!?! ]

« *It was an inappropriate way to respond to anybody ... I would never respond to someone like that in an e-mail.* » [ Blah ! Blah ! Blah ! ]

While Wells was unavailable to speak on the phone, now FEARING THE SPOTLIGHT OF THE MEDIA, Mungall CLAIMED to have spoken with him.

« *He was quite upset* » Mungall ALLEGED [ which is HEAR-SAY ].

« *He was quite frustrated. He definitely felt dismissed.* » [ ?!?! ]

Bennett's response clearly shows that he DID NOT DISMISS Wells.

In fact, Wells received more of a response than he deserved.

### Is Wells More Knowledgeable Than Health Canada ?!?!?

---

**NO !**

Wells has conveniently considered the hundreds of qualified scientists of Health Canada's respected Pest Management Regulatory Agency to be incompetent and/or incapable of arriving at correct scientific findings concerning conventional pest control products.

In order to allow **SOUND SCIENCE** to be effectively practiced, it would be preferable leave the interpretation of scientific research about pest control products to those people who **ARE COMPETENT** to do it — Health Canada, and **NOT Wells**.

Health Canada requires each new pest control product to go through a comprehensive set of over **TWO-HUNDRED SEPARATE TESTS** and a **REVIEW** of all scientifically credible studies that exist to ensure that the product will **NOT CAUSE HARM TO PEOPLE, ANIMALS OR THE ENVIRONMENT**.

Not surprisingly, Wells **HAS NEVER** conducted a serious scientific study on pest control products ... evidently because he is **NOT COMPETENT OR MOTIVATED** to do so.

Nonetheless, Wells **COULD NOT EVEN BE BOTHERED** to have used the **EXTENSIVE TOXICOLOGY DATABASE** that is available from either Health Canada or U.S. Environmental Protection Agency.

Health Canada, and **NOT Anti-Pesticide Activists** like Wells, has **THE ESSENTIAL EXPERTISE** on the subject of pest control products.

Mr. Bennett,

I read where you are just Not going to ban cosmetic pesticides ... no matter what knowledgeable land management professionals, citizens, medical doctors, or anyone else has to say about it. [ ?!?! ]

Do I have that right ?

You must realize that your KANGAROO REPORT [ ?!?! ] sending the message that pesticides are benign and nothing to worry about is an embarrassment to BC in general [ ?!?! ] , and to any thinking person who can see the membership of your 'panel'. [ ?!?! ]

For over twenty-five years as a member of the BC Institute of Agrologists ( much of the time as councillor from Kootenay Boundary Branch ), I witnessed the chemical and genetic engineering industries aggressively attempt ( and succeed ) to manipulate agricultural practice toward their benefit. [ ?!?! ]

And of course the home-gardeners are a large potential market bloc too, so that market is pandered to by the « *lawn care profession* », who attempt to convince unsuspecting home-owners and smallholders that what they must have are mono-

I am retired now, but I can still read a paper and type a ltter [ *sic* ].

I read how disrespectfully you and your committee treated at least one very knowlegeable [ *sic* ] and experienced medical doctor — knowledgeable and experienced about effects of chemicals from home-gardening poisons. [ *?!?!* ]

Since I am now retired, and am in a position to express not only my scientific opinion [ *?!?!* ] that products like Killex and Round-Up have no place in home-gardens, in public places, and near domestic water sources, but I'm in a position to express my personal and moral disappointment that a committee of the BC Legislature would be so prejudiced in reaching their « *decision* » that they ignore and humiliate those who would come to them to provide them with actual facts and knowledgeable guidance. [ *?!?!* ]

Your committee came to a wrong and disgraceful conclusion. [ *?!?!* ]

Dear Mr. Bennett,

I have read your report.

I don't know what dog you refer to.

I try to teach my old dog the new trick of staying off lawns where somebody has sprayed a bunch of herbicides, as many labels actually do suggest.

As for me, I'm learning new tricks every day.

One is to be evermore [ *sic* ] cautious and vigilant of SNAKE OIL SALES DEPARTMENTS. [ ?!?! ]

The majority's finding that they rely on the PMRA's « *impressive* » scientific scrutiny would be fine if the PMRA was free from EXCESSIVE INFLUENCE BY THE AG CHEMICAL INDUSTRY, had it's [ *sic* ] own independent scientists working in independent laboratories, and if the Harper government weren't busily reducing funding for a wide range of scientific inquiry and environmental protections.

But it looks like you and the likes of MR. WILLIAM GATHERCOLE and his friends have won the day.

Most of my acquaintances and professional colleagues hope this is only a temporary victory for you.

We are living in the 9|11 Era of Anti Pesticide and Environmental Terrorism where at least ONE SUBVERSIVE ACT OF TERROR is Perpetrated EVERY SINGLE DAY by enviro lunatics.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FAKE SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, and INTERNET RUMOUR — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

NORAHG is the National Organization Responding Against HUJE that seek to harm the Green space industry.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OPPOSED to Anti Pesticide PROHIBITION and the CLOSURE of green spaces under the RIDICULOUS PRETEXT of somehow « saving » the environment.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

Anti Pesticide HUJE are enviro lunatics and lawn haters who particularly DESPISE the golf industry — they are Hateful Underhanded Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS.

Another RECOURSE is to SEEK the CANCELLATION of GOVERNMENT GRANTS and REVOCATION of the TAX EXEMPT STATUS of Anti Pesticide Organizations.

HUJE should Get OFF Our grASS, and they should Roast In Hell.

NORAHG manages the Library of Force Of Nature Reports and References, which is a VAST ARCHIVE of REPORTS, MEDIA REFERENCES, AUDIO CLIPS, and VIDEOS on ALL Anti Pesticide Terrorist Acts of Subversion.

All names, statements, activities, and affiliations have been ARCHIVED for the intention of eventual CRIMINAL CHARGES.
