Force of Nature Media Report :
The Environmental Movement
in the Media from an
Independent Perspective.

What follows is an example of the consequences resulting from the terrorist activities of the environmental movement.

Consequences.

Part 4.

The owner of an Ontario lawn care company will no longer support Canadian Cancer Society (C.C.S.).

Dear Force of Nature

My father died of prostate cancer and I was with him all through the course of his disease and right up to the end. I have lost friends and family to this tragic illness and am fully aware that we need to support research into a cure and support families and patients as they cope with this sickness.

Because of this, my family and I have supported the CCS for years.

No longer !

Consequences.

Part 4.

30/06/2009

I was recently asked to participate in a Golf Tournament in the Niagara area to raise funds for the CCS. I will not participate.

Also two of my three children wanted to run in the CCS walk for a cure. I stopped them.

Instead we donate our money DIRECTLY to a local hospice for terminally ill cancer patients. This way we know that all of our money is going towards helping people that are suffering from this terrible disease and not lining the pockets of activists and advancing their junk science agenda !

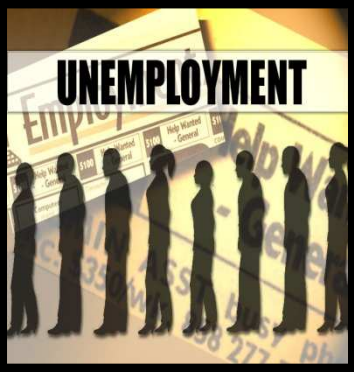
Mission Accomplished for the Environmental Terrorists.



Elimination of employment.

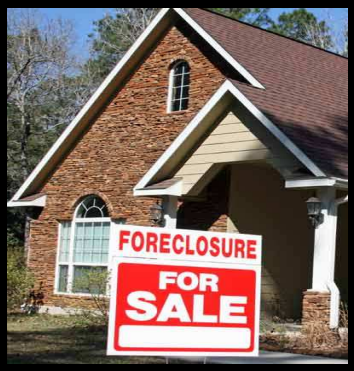
The destructive policies advocated by the environmental movement will lead to the needless elimination of tens of thousands of stable jobs.

Tens of thousands unemployed.

Annihilation of companies.

The destructive policies advocated by the environmental movement will lead to the needless annihilation of thousands of stable businesses.

Thousands of business failures.



Disruption of home life.

The destructive policies advocated by the environmental movement will lead to the needless disruption of tens of thousands of stable homes.

Tens of thousands homes lost.

Destitution and despair.

The destructive policies advocated by the environmental movement will lead to needless suffering and hardship for tens of thousands of professionals.

Tens of thousands suffering.

Consequences.

Part 4.

Lies perpetrated by environmental opportunists :
<< [...] *legislation will be a boon to our economy -- boosting business and creating green jobs.* >>

There are now frightening predictions regarding the toll caused by environmental terrorism and the destructive policies leading to prohibition of legal, safe, and irreplaceable pest control products.

Consequences.

Part 4.

30/06/2009

The following figures are based upon indicators in markets that have prohibited pest control products.

In the Province of Ontario, the Professional Lawn Care Industry will suffer the following damages because of the prohibition of legal, safe and irreplaceable pest control products :

$500 million in annual loss of revenue.

8,300 to 12,500 people unemployed.

780 business failures & bankruptcies.

Mission Accomplished for the Environmental Terrorists.

Consequences.

Part 4.

The villagers of F.O.N. have one wish ...

... may those culprits who conspired against them roast in the fires of hell after suffering the thousand cuts.

Part 4.

FORCE OF NATURE was launched for continuous transmission on the Internet on January 1st, 2009. It is a series of e–newsletters destined for the GREEN SPACE INDUSTRY, the ENVIRONMENTAL MOVEMENT, politicians, municipalities, and the media, nation–wide across Canada, and parts of the United States. FORCE OF NATURE is produced in two parts. First. The MEDIA REPORT itself that reports on the current events affecting the future of the GREEN SPACE INDUSTRY. Second. INDEPENDENT PERSPECTIVE, which is a running commentary, sometimes also of a more technical in nature.

FORCE OF NATURE is the brainchild of William H. Gathercole and his entourage. The opinions expressed in these e–newsletters, even though from an **INDEPENDENT PERSPECTIVE**, may not reflect those of everyone in the GREEN SPACE INDUSTRY, or Mr. Gathercole's many associates. Be warned ! Mr. Gathercole and his team may sometimes be very irreverent and fearless with these e–newsletters.

William H. Gathercole holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from MCGILL UNIVERSITY. He has worked in virtually all aspects of the GREEN SPACE INDUSTRY, including public affairs, personal safety, and environmental issues. Mr. Gathercole has been a consultant and instructor for decades. Mr. Gathercole has been following the evolution of ENVIRONMENTAL TERRORISM for over a quarter–century. His involvement in environmental issues reached a fevered pitch in the 1990s, when he orchestrated, with others, legal action against unethical and excessive municipal regulations restricting the use of pest control products. (i.e. the Town of Hudson.) Although he can be accused of being ANTI–ENVIRONMENT–MOVEMENT, he is, in fact, simply a strong advocate FOR the GREEN SPACE INDUSTRY. However, this position has not precluded him from criticizing the industry itself. Nonetheless, his vast knowledge of our long journey with environmental issues is UNDENIABLE. (Hopefully !) For many years, Mr. Gathercole has been a contributing columnist for TURF & RECREATION Magazine, Canada's Turf and Grounds Maintenance Authority.

All pictures contained in FORCE OF NATURE were found somewhere on the Internet. We believe that they are in the public domain, as either educational tools, industry archives, promotional stills, publicity photos, or press media stock.

Information presented in FORCE OF NATURE has been developed for the education and entertainment of the reader. The events, characters, companies, and organizations, depicted in this document are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental.
