Be Safe

The Canadian Cancer Society endorses the precautionary principle: "It is better to be safe than sorry."

When it comes to the cosmetic or, non-essential, use of pesticides, the Canadian Cancer Society is guided by the **precautionary principle**. Because the cosmetic use of pesticides has the potential to cause harm, and safe, effective alternatives exist, the Canadian Cancer Society is calling for a ban on cosmetic pesticide use. In other words, it is better to be safe than sorry.

The Truth ...

THE MYTH OF THE TWISTED–ENVIRO–VERSION OF THE SO–CALLED PRECAUTIONARY PRINCIPLE

Description of the Twisted Principle ...

The TWISTED–ENVIRO–VERSION OF THE SO–CALLED PRECAUTIONARY PRINCIPLE states that if an action or policy might threaten to human health or the environment, precautionary measures should be taken even if the cause–and–effect relationships are not fully established scientifically. Presumably, the burden of proof falls on those IGNORANT and DEMENTED Cancer–Maniac–Vixens who would advocate taking the action.

CANCER–VIXENS ARE LYING SACKS OF ENVIRO–MANIAC CRAP !

See later segment for a list of Cancer–Maniac–Vixens.

It is truly amazing how Cancer–Maniac–Vixens concoct their TWISTED–ENVIRO–VERSION OF THE PRECAUTIONARY PRINCIPLE and deceive the public by associating it with hollow and despicable expressions like « *cancer* », along with « *toxic poison* » and « *children at risk* » !

For almost fifty years, paranoid conspiracy theorists, Environmental–Terrorists, and other vermin of society, have deceived the public by concocting FEAR–MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRACIES such as the TWISTED–ENVIRO–VERSION OF THE SO–CALLED PRECAUTIONARY PRINCIPLE.

The Truth ...

Reasons for Concocting the Twisted Principle ...

√ **FACT :** Environmental–Terror–Organizations like Canadian–Cancer–Society conspire towards NEEDLESS, SENSELESS, and MALICIOUS prohibition of FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE conventional pest control products by TWISTING terms like « *Precautionary Principle* » !

√ **FACT :** GREEDY and AVARICIOUS Environmental–Terror–Organizations like Canadian–Cancer–Society attract MORE MEMBERS, MORE DONATIONS, and MORE MONEY by CONCOCTING the TWISTED–ENVIRO–VERSION OF THE SO–CALLED PRECAUTIONARY PRINCIPLE.

√ **FACT :** The TWISTED–ENVIRO–VERSION OF THE SO–CALLED PRECAUTIONARY PRINCIPLE is another form of JUNK SCIENCE used by those Cancer–Maniac–Vixens that conspire to pretentiously prohibit FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE conventional pest control products.

√ **FACT :** The TWISTED–ENVIRO–VERSION OF THE SO–CALLED PRECAUTIONARY PRINCIPLE is used as another malicious WEAPON OF MASS DESTRUCTION by Cancer–Maniac–Vixens against the Green Space Industry.

Validity of the Twisted Principle ...

√ **FACT :** The use of pest control products in the urban landscape **DOES NOT** qualify for consideration under the so–called Precautionary Principle.

√ **FACT :** **NOT** A SINGLE CANCER–MANIAC–VIXEN in the Canadian–Cancer–Society has **ANY** recognized expertise, training, or background, in matters concerning pest control products, and they are UNQUALIFIED to comment upon the application of the so–called Precautionary Principle !

The Truth ...

The Twisted–Enviro–Version of
the Precautionary Principle is
DISCREDITED, VALUELESS, & WORTHLESS !

√ **FACT :** **NOT** A SINGLE MANIAC–VIXEN in the Canadian–Cancer–Society has **ANY** valid understanding of **ANY** so–called Precautionary Principle !

√ **FACT :** Overall, the opinions originating from Cancer–Vixens concerning the so–called Precautionary Principle are VALUELESS and WORTHLESS.

√ **FACT :** Cancer–Maniac–Vixens know NOTHING about pest control products or the so–called Precautionary Principle, but know lots about MINDLESS, SENSELESS, and FRAUDULENT FEAR–MONGERING ! **CANCER–VIXENS ARE LYING SACKS OF ENVIRO–MANIAC CRAP !**

History of the Twisted Principle ...

For years, the Environmental–Terror–Movement has UNOFFICIALLY CONCOCTED its own TWISTED–ENVIRO–VERSION OF THE SO–CALLED PRECAUTIONARY PRINCIPLE, which is actually called the Wingspread Statement —

> *<< When an activity raises threats of harm to human health or the environment, precautionary measures should be taken even if some cause and effect relationships are not fully established scientifically. >>*

√ **FACT :** The TWISTED–ENVIRO–VERSION OF THE SO–CALLED PRECAUTIONARY PRINCIPLE has been INTERNATIONALLY DISCREDITED.

√ **FACT :** The TWISTED–ENVIRO–VERSION OF THE SO–CALLED PRECAUTIONARY PRINCIPLE is VALUELESS and WORTHLESS.

William H. Gathercole & NORAHG | force.of.de.nature@gmail.com | Force Of Nature

The Truth ...

The Valid Version of the Principle ...

The OFFICIAL Precautionary Principle has been defined by the United Nations Conference on Environment and Development in Rio de Janeiro in 1992.

> << *Where there are threats of* **SERIOUS OR IRREVERSIBLE DAMAGE**, *lack of full scientific certainty shall not be used as a reason for postponing cost-effective measures to prevent Environmental degradation.* >>

√ **FACT :** Conventional pest control products used by the Green Space Industry **ARE NOT** a threat for serious and irreversible damage.

The Wisdom of Solomon ...

The Precautionary Principle has been explained by Dr. Keith Solomon, Professor at the Centre for Toxicology and Department of Environmental Biology, University of Guelph, and Director, Canadian Network of Toxicology Centres —

According to Solomon —

> << *Landscape and garden use of pest control products* **DOES NOT QUALIFY FOR CONSIDERATION** *under the precautionary principle. They are not serious, they are selective to pests, have low toxicity to non-target organisms, and are well understood. The effects of these pest control products are* **NOT IRREVERSIBLE.** *There is rapid recovery through reinvasion and weed seeds and most need to be used at least once per year.* >>

The Truth ...

The Wisdom of British House of Commons Committee ...

The Precautionary Principle has been explained by the prestigious British House of Commons Select Committee on Science and Technology, which was stated that —

> << [...] *the term « precautionary principle »* **SHOULD NOT BE USED**, *and* [we] *recommend that it cease to be included in policy guidance.* >>

More Wisdom from British House of Commons Committee ...

Also stated, by the British House of Commons Select Committee on Science and Technology, was the following —

> << *In our view, the terms « precautionary principle » and « precautionary approach » in isolation from any such clarification have been the subject of such confusion and different interpretations as to be devalued and of little practical help, particularly in public debate. Indeed, without such clarification and explanation, to elevate the precautionary approach or principle to a scientific methodology, which can be proved or disproved to have been applied in any particular case, is both unrealistic and impractical. It also provides ammunition for those seeking to promote an overly cautious approach to innovation or exposure to any risk at all.* >>

The Truth ...

The Truth About the Precautionary Principle ...

The TWISTED–ENVIRO–VERSION OF THE SO–CALLED PRECAUTIONARY PRINCIPLE is simply another MALICIOUS WEAPON OF MASS DESTRUCTION concocted against the Green Space Industry.

Environmental–Terror–Organizations concocted the TWISTED–ENVIRO–VERSION OF THE SO–CALLED PRECAUTIONARY PRINCIPLE to conspire towards NEEDLESS, SENSELESS, and MALICIOUS prohibition of FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE conventional pest control products.

Cancer–Maniac–Vixens **DO NOT** care about valid principles, but simply want to ANNIHILATE the Green Space Industry across Canada by imposing NEEDLESS, SENSELESS, and MALICIOUS prohibition !

♦ **WARNING :** Cancer–Maniac–Vixens will eventually use the same the TWISTED–ENVIRO–VERSION OF THE SO–CALLED PRECAUTIONARY PRINCIPLE to DESTROY the **HATED** Golf Industry as well !

√ **FACT : CANCER–VIXENS ARE LYING SACKS OF ENVIRO–MANIAC CRAP !**

√ **FACT :** Conventional pest control products are SCIENTIFICALLY SAFE ! Overall, when they are used properly, there are **NO** harmful irreversible effects to health and the environment !

√ **FACT :** The use of pest control products to enhance the urban landscape is GOOD for the environment.

NORAHG

FORCE OF NATURE was launched for continuous transmission on the Internet on January 1ST, 2009. It is a series of e–newsletters destined for the Green Space Industry, the Environmental–Terror–Movement, Government Officials, and the Media, nation–wide across Canada, the United States, and overseas.

Force Of Nature is the brainchild of William H. Gathercole and his entourage. Norah G is actually an acronym for the stable of anonymous producers and writers that contribute to this e–newsletter and have now replaced Mr. Gathercole. They consist of people from the following industries : Distribution, Fertilizer, Golf, Lawn Care, Manufacturing, Municipal, Nursery, and Orchard. Many of these people are leaders in their own industries. The opinions expressed in Force Of Nature, even though from an INDEPENDENT PERSPECTIVE, may not reflect those of everyone in the Green Space Industry, or Mr. Gathercole's many associates. Be warned ! Force Of Nature may sometimes be very irreverent and fearless with these e–newsletters. Mr. Gathercole is now retired from Force Of Nature, although his name continues to appear as the founder.

William H. Gathercole is a principal FOUNDER of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from McGILL UNIVERSITY. He has worked in virtually all aspects of the Green Space Industry, including GOLF and PROFESSIONAL LAWN CARE, and has served in public affairs, workplace safety, and environmental compliance. Mr. Gathercole has supervised, consulted, programmed, and/or overseen the execution of HUNDREDS OF THOUSANDS of pest control applications in the urban landscape. He has trained, instructed, and consulted with THOUSANDS of turf managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority.

Mr. Gathercole has followed the evolution of ENVIRONMENTAL–TERRORISM for over a quarter–century. His involvement in Environmental Issues reached a fevered pitch in the 1990s, when he orchestrated, with his colleagues, legal action against the prohibition of pest control products in the Town of Hudson, Quebec. For FIFTEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of Environmental–Terror for the entire Modern Green Space Industry across Canada. Mr. Gathercole is personally credited for crafting the Golf Industry Exception Status, that endures to this day. He is also the creator of the signs that are now used for posting after application. Although he can be accused of being Anti–Environment–Movement, he is, in fact, simply a strong advocate FOR the Modern Green Space Industry. However, this position has not precluded him from criticizing the Green Space Industry itself. His vast knowledge of our long journey with Environmental issues is UNDENIABLE. (Hopefully !)

Force Of Nature is the instrument of National Organization Responding Against Huje that harm the Green Space Industry (NORAHG) by routinely concocting FEAR–MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRACIES to DECEIVE the public into believing that families are in some NON–EXISTENT danger with conventional pest control products. They also SCAM Government Officials into the NEEDLESS, SENSELESS, and MALICIOUS prohibition of FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE conventional pest control products. Enviro–Maniac–Activists are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each Enviro–Maniac–Culprit is a mis–guided adversary, each still deserves our respect. The terms Maniac, Culprit, Terrorist, or Basterd are not accusations of any legal wrong–doing. Force Of Nature is simply holding alleged culprits accountable for conspiring to change public policies that TERRORIZE and THREATEN the Green Space Industry. Their pretentious prohibitionist rants has created LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, inflicting DESPAIR and DESTITUTION for THOUSANDS of hapless victims throughout the Green Space Industry. The DEPRAVED INDIFFERENCE of Maniac–Culprit–Terrorist–Basterds is viewed as a form of TERROR against the Green Space Industry. The information presented in Force Of Nature has been developed for the education and entertainment of the reader by providing a sequence of historical events with commentary. Additionally, Force Of Nature inspires people to believe that ENVIRONMENTAL–TERRORISM can be STOPPED ! The events, characters, companies, and organizations, depicted in this document are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental. All document excerpts and pictures contained in Force Of Nature were found somewhere on the Internet.
