We are living in the 9/11 Era of Environmental Terror !

Spring Signals the Fresh Smell of Swallows, Buzzards, and Cancer-Basterds

SWALLOWS ANNUAL RETURN TO SAN JUAN CAPISTRANO

Every year, the CAPISTRANO SWALLOWS return from Villa Ventana, Argentina, to the Mission San Juan Capistrano in California, on, or around, March 19th. In recent years, the swallows have failed to return to the Mission, and now nest in the Chino Hills of Southern California, north of San Juan Capistrano. Thousands of these small birds build their mud nests in the eaves of the Vellano Country Club, with community buildings situated around a golf course in the Chino Hills.

BUZZARDS ANNUAL RETURN TO HINCKLEY

Hinkley Township has become known across the State of Ohio and the United States as the HOME OF THE BUZZARDS. On March 15th of every year, buzzards arrive in large flocks at the town, as if on a very exact biological clock. The town began celebrating the arrival of the birds in 1957, and today as many as 50,000 visitors visit the Hinckley Reservation in the town annually on Buzzard Day to witness the return of the avian residents. The event is used to mark the beginning of spring for Hinckley and the surrounding towns

CANCER-BASTERDS ANNUAL RETURN TO TERRORIST ACTIVITIES IN CANADA

Spring signals a fresh wave of anti-lawn care activity in Canada from the Enviro-Lunatic-BASTERDS of the Contemptible and Radical Canadian-Cancer-Society. Just like the BUZZARDS in Ohio.

ENVIRONMENTAL TERRORIST ORGANIZATION

Canadian Cancer Society approaches spring
with renewed effort to ban lawn care pesticides

March 1st, 2011

Selected and adapted excerpts

As surely as SWALLOWS RETURN TO SAN JUAN CAPISTRANO and BUZZARDS TO HINCKLEY, OHIO, spring signals a FRESH WAVE OF ANTI-LAWN CARE ACTIVITY in Canada.

The message is as predictable as April showers, and it's always the same —

WE WANT TO BAN THE USE OF LAWN CARE CHEMICALS !

The anti-pesticide drumbeat begins in mid-winter and intensifies as the snow and ice retreat.

Typically, groups (the Canadian-Cancer-Society is always in the fore-front) begin a publicity campaign to « *educate* » property owners about the alleged health risks of using or allowing lawn care chemicals to be used on their properties.

Then, gaining the support of local (and vocal) activists, they build pressure on provincial or local law-makers to OUTLAW lawn care chemicals, which they maintain have NO PURPOSE other than to make lawns more attractive.

This season, ANTI-PESTICIDE ACTIVITY has been GREATEST in Alberta and British Columbia (BC), provinces in Western-Canada, and, predictably, is being SPEAR-HEADED by the Canadian-Cancer-Society, a national, community-based charitable organization of volunteers.

It is Canada's largest national cancer charity.

To date, a handful of communities in British Columbia, but NO municipalities in Alberta, have BANNED THE USE OF LAWN CARE CHEMICALS.

Elsewhere in Canada, these campaigns have been surprisingly effective, especially in its most populous provinces, Ontario and neighbouring Quebec, where the anti-lawn care movement began more than 10 years ago.

CANCER–TERRORIST–ACTIVITIES IN THE CITY OF EDMONTON

Most recently activists have turned their attention to the City of Edmonton, the provincial capital of Alberta.

As I write this, it is not clear whether this city of 730,000 people will ban pesticide use or not.

Earlier this year, a report from a city committee opined that ...

- pesticide bans are difficult to enforce,
- pesticide bans can add millions to the cost of park maintenance,
- pesticide bans allow green natural spaces to deteriorate, and
- pesticides do not seem to lead to ill health effects.

Not unexpectedly, the report was heavily criticized by pesticide critics, but gave some hope to individuals and businesses that routinely use these products, many of which have been on the market for decades.

On February 24th, 2011, lawn care spokesman David Montgomery asked the city council's transportation and public works committee —

<< *What's wrong with having a beautiful, lush, green lawn ?
When did that become a criminal offence, to enjoy having pride
in your property ?* >>

Regardless, the Canadian–Cancer–Society claims it has overwhelming support from the public to ban « *the use and sale of cosmetic pesticides* » on home lawns.

CANCER-TERRORIST ALLEGED SECRET RESEARCH

Canadian-Cancer-Society continues to claim that research links pesticide exposure with an increased risk of both childhood and adult cancers.

These include childhood and adult leukemia, non-Hodgkin's lymphoma, prostate, brain and lung cancers.

It also maintains that studies show that children may be at a higher risk due to their rapidly developing bodies.

According to Lorne Hepworth, President of CropLife Canada —

CANADIAN-CANCER-SOCIETY MUST PROVIDE THE PROOF !

According to Hepworth —

<< As it stands now, THE WEIGHT OF SCIENTIFIC RESEARCH PROVES THAT PESTICIDES CAN BE SAFELY USED, and Canadians should feel comfortable if they choose to use them. >>

<< If the Canadian-Cancer-Society has information to back up its pesticide claims, it is IRRESPONSIBLY SQUANDERING ITS EFFORTS on municipal campaigns rather than presenting « proof » to Health Canada, which regulates the products, or to the industry, which runs hundreds of tests on each and every product seeking federal government registration. >>

<< If the Canadian-Cancer-Society had even A SHRED OF RELEVANT AND COMPELLING INFORMATION, Health Canada would be all over it. >>

NORAHG

Force Of Nature presents THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from National Organization Responding Against HUJE that seek to harm the Green Space Industry (NORAHG). It is a series of Reports destined for the Green Space Industry, the Environmental Terror Movement, Governments, and the Media, nationwide across Canada, the United States, and overseas. The information presented in Force Of Nature has been developed for the education and entertainment of the reader by providing a sequence of historical events WITH COMMENTARY. The neutrality of these Reports might be disputed. Don't thank us. It's a public service. And we are glad to do it.

HUJE are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each Enviro Lunatic Culprit is a misguided adversary, each still deserves our respect. The use of the terms Lunatic, Maniac, Culprit, Terrorist, or Basterd are not accusations of any legal wrong doing. Force Of Nature is simply holding Enviro Lunatic Activists accountable for conspiring to change public policies that TERRORIZE, HARM, and THREATEN the Green Space Industry.

HUJE is a term used to describe Enviro Lunatic Activists that routinely concoct FEAR MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRACIES that are DESIGNED to SCAM and DECEIVE the public into believing there is some IMAGINARY DANGER with conventional pest control products. HUJE also SCAM and DECEIVE Government Officials into the NEEDLESS, SENSELESS, and MALICIOUS CONSPIRACY to PROHIBIT conventional pest control products that are HEALTH CANADA APPROVED, FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE.

HUJE have created LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, inflicting DESPAIR and DESTITUTION for THOUSANDS of hapless victims throughout the Green Space Industry. The DEPRAVED INDIFFERENCE of Lunatic Culprit Terrorist Basterd HUJE is viewed as a form of TERROR, HARM, and THREAT against the Green Space Industry.

This Report provides NO guarantee regarding accuracy or completeness. In no event shall Force Of Nature be liable for any incidental or consequential damages, lost profits, or any indirect damages. Force Of Nature is TOTALLY INDEPENDENT of any trade association or business operating within the Green Space Industry. The events, characters, companies, and organizations, depicted in this Report are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental. All information, excerpts, and pictures contained in this Report were found somewhere on the Internet, and may be considered in the public domain, serving one of the following purposes — archive, education, promotion, publicity, or press release.

Force Of Nature, and its various incarnations, is the brainchild of William H. Gathercole and his colleagues. Mr. Gathercole is a principal FOUNDER of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from MCGILL UNIVERSITY. He has worked in virtually all aspects of the Green Space Industry, including GOLF, PROFESSIONAL LAWN CARE, and CHEMICAL INDUSTRY, and has served in environmental compliance, government negotiations, public affairs, and workplace safety. Mr. Gathercole has supervised, consulted, programmed, and/or overseen the successful and safe execution of HUNDREDS OF THOUSANDS of pest control applications in the urban landscape. He has trained, instructed, and consulted with THOUSANDS of turf managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority.

Mr. Gathercole and his colleagues have followed the evolution of LUNATIC ENVIRONMENTAL TERRORISM for over a quarter century. For FIFTEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of the VERMIN OF ENVIRONMENTAL TERROR for the entire Modern Green Space Industry across Canada. Their involvement in Environmental Issues reached a fevered pitch in the 1990s, when he orchestrated, with his colleagues, legal action against the Forces of Environmental Evil in the Town of Hudson, Quebec.

Today, Mr. Gathercole is the ONLY TRUE RELIABLE WITNESS of the Hudson Affair. Mr. Gathercole is personally credited for crafting the Golf Industry Exception Status that endures to this day. He is also the creator of the signs that are now used for posting after application. His vast knowledge of our long journey with Environmental Issues is UNDENIABLE — hopefully ! Mr. Gathercole is now retired, although his name continues to appear as FOUNDER of Force Of Nature.
