

Overview From An Independent Perspective

Who are the activists who DESTROYED HUNDREDS OF BUSINESSES operating in the Professional Lawn Care Industry ?!?!

There are BARELY 150 PROMINENT CULPRITS WHO CONSPIRE TO PROHIBIT against the use of pest control products ... holding the Canadian public as PESTICIDE-HOSTAGES.

Almost HALF, approximately 60, of all these CULPRITS (a.k.a. CANCER-LUNATICS) are DIRECTLY SUPPORTED BY CANADIAN CANCER SOCIETY.

About 60 Cancer-Lunatics are provided SAFE, SECURE, WELL-PAYING JOBS, with PAY-OFFS in the form of AWARDS, INCENTIVES, BONUSES, BOUNTIES, and ORGANIZATIONAL FINANCING ...

... these PAY-OFFS are provided AT THE EXPENSE OF the jobs they ultimately destroy in the Professional Lawn Care Industry.

These Cancer-Lunatics are EMPLOYEES WHO ARE PAID SUBSTANTIAL AMOUNTS OF MONEY to work as HIRED-GUNS TO COERCE, INTIMIDATE, AND ALARM GOVERNMENT OFFICIALS INTO PROHIBITING PEST CONTROL PRODUCTS.

Virtually all are same-sex ... uneducated housewives.

Because of Cancer-Lunatics, the owners, employees, and families dependent on Professional Lawn Care businesses have faced TERROR, DESPAIR, and DESTITUTION.

Canadian Cancer Society is a PRINCIPAL ARCHITECT in the CONSPIRACY TO PROHIBIT against pest control products used in the Urban Landscape.

Canadian Cancer Society is RIDICULOUSLY IMPLYING that its NON-EXPERT ASSESSMENT concerning pest control products is somehow being withheld from Health Canada and EVERY other regulatory agency in the world.

Its ANTI-PESTICIDE TERRORIST ACTS OF SUBVERSION have EXTENSIVELY DAMAGED and DESTROYED the Professional Lawn Care Industry.

Its Cancer-Lunatics operate as Anti-Pesticide TERRORISTS.

And the Golf and Agriculture Industries WILL BE TERRORIZED NEXT !

Canadian Cancer Society is responsible
for the DESTRUCTION of the Modern
Professional Lawn Care Industry,
and its Cancer-Lunatics operate
as Anti-Pesticide Terrorists

Our Position On Pesticides

January 29th, 2013

Media Release

Canadian Cancer Society

Selected And Adapted Excerpts

INTRODUCTION

In Canada, pesticides are used for either cosmetic reasons (to improve the look of gardens, lawns and other green spaces) or non-cosmetic reasons (to protect our food and water supply, or to prevent the spread of disease).

Our position on the use of pesticides depends on what they are being used for.

OUR POSITION ON COSMETIC USE OF PESTICIDES

The [Canadian Cancer] Society CALLS FOR A BAN ON PESTICIDES USED TO IMPROVE THE APPEARANCE OF GREEN SPACES.

The cosmetic use of pesticides provides no health benefit, and may cause harm. [Wrong !]

Subversive, Contemptible & Radical Canadian Cancer Society

Cancer-Lunatic Position On Pesticides

Commentary From An Independent
Perspective

EVIDENCE ABOUT CANCER NOT DEFINITE

The EVIDENCE ABOUT PESTICIDES AND CANCER IS NOT DEFINITE, but some research studies show a stronger link between some types of pesticides and cancers.

[Wrong !]

Pest Control Products DO NOT CAUSE CANCER.

Canadian Cancer Society has NO CREDIBLE EXPERTISE since it is a mere FUND-RAISING, PROFIT-SEEKING, and LOBBYING organization, and it is NOT a science, research, or health organization.

Canadian Cancer Society has STATED REPEATEDLY that scientific research does NOT provide a conclusive link between pest control products and cancer.

What is their problem ?!?!?!?

Why is Canadian Cancer Society WASTING EVERYBODY'S TIME on the issue of pest control products ?

Health Canada, and NOT Canadian Cancer Society, has THE ESSENTIAL EXPERTISE on the subject of pest control products.

Pest control products are SCIENTIFICALLY SAFE, CAUSE NO HARM, and DO NOT CAUSE CANCER.

Scientific research shows that, as reported through Health Canada's VAST TOXICOLOGY DATABASE, NO HARM WILL OCCUR when pest control products are applied properly in the Urban Landscape.

The RISK ASSESSMENT of pest control products indicates that they are PRACTICALLY-NON-TOXIC.

There are NO pest control products that are known or probable carcinogens.

There is NOT ONE KNOWN CANCER DEATH from the proper use of pest control products used in the Urban Landscape.

Subversive, Contemptible & Radical Canadian Cancer Society

Cancer-Lunatic Position On Pesticides

THE PRECAUTIONARY PRINCIPLE

Our position is based on the precautionary principle, which states

...

When an activity raises threats of harm to human health or the environment, precautionary measures should be taken even if some cause-and-effect relationships are not fully established scientifically.

(If something may cause harm to humans or the environment, we should be cautious even if the link is NOT DEFINITE yet.)

Commentary From An Independent
Perspective

The Precautionary Principle Is DISCREDITED.

The ANTI-PESTICIDE VERSION of the so-called Precautionary Principle is ABSOLUTIST, MISUSED, VACUOUS, and is simply another MALICIOUS WEAPON OF COERCION AND ULTIMATE TERROR concocted by Anti-Pesticide Lunatics.

The ANTI-PESTICIDE VERSION of the Precautionary Principle has been DISCREDITED by TRUE EXPERTS like Dr. Keith Solomon.

Solomon is Professor at the Centre for Toxicology and Department of Environmental Biology, University of Guelph, and Director, Canadian Network of Toxicology Centres.

According to Solomon —

Landscape and garden use of pest control products DOES NOT QUALIFY FOR CONSIDERATION under the precautionary principle.

They are not serious, they are selective to pests, have low toxicity to non-target organisms, and are well understood.

The effects of these pest control products are NOT IRREVERSIBLE.

There is rapid recovery through reinvasion and weed seeds and most need to be used at least once per year.

Subversive, Contemptible & Radical Canadian Cancer Society

Cancer-Lunatic Position On Pesticides

Commentary From An Independent
Perspective

GREEN ALTERNATIVE PESTICIDES

The [Canadian Cancer] Society supports the use of SAFER WAYS [a.k.a. Green Alternative Pesticides] to maintain and improve the appearance of lawns, gardens, parks and other green spaces, but does not support the use of Integrated Pest Management for cosmetic purposes.

Green Alternatives Are
NOT Safer And NOT Better.

Green Alternative (a.k.a. Organic) Pesticides are NOT SAFER and DO NOT WORK !

There are NO viable, efficacious, economical, practical and/or low-risk alternatives to replace conventional pest control products.

In many cases, Green Alternative Pesticides are questionably HIGHER IN TOXICITY, and pose HIGHER ENVIRONMENTAL RISKS.

They are BOGUS AND DISMAL FAILURES.

It is IMPOSSIBLE for home-owners or professionals to keep their properties beautiful, or for growers to control pests in crops, by using so-called Green Alternative Pesticides.

A well-maintained conventional lawn and landscape, or a pest-free crop, can ONLY BE ACHIEVED WITH CONVENTIONAL pest control products.

Fortunately, CONVENTIONAL pest control products are SAFE, EFFECTIVE, ECONOMICAL, and LOW-RISK.

The SAFEST WAY to maintain Green Spaces is with pest control products that are HEALTH-CANADA-APPROVED, FEDERALLY-REGULATED, SCIENTIFICALLY-SAFE, PRACTICALLY-NON-TOXIC, and CAUSE NO HARM.

Subversive, Contemptible & Radical Canadian Cancer Society

Cancer-Lunatic Position On Pesticides

GOLF COURSES AND SPORTING FACILITIES

The [Canadian Cancer] Society wants the use of pesticides to be PHASED-OUT at GOLF COURSES and sports facilities, especially where children often are, or if they are located next to residential and public areas.

Commentary From An Independent
Perspective

Total Pesticide Ban
(a.k.a. Phase-Out)
Against Golf Industry.

Cancer-Lunatics want to DESTROY the Golf Industry !

Canadian Cancer Society DEMANDS A PHASE-OUT OF PESTICIDE USE AT GOLF COURSES.

PHASE-OUT means TOTAL GOLF PESTICIDE BAN.

Canadian Cancer Society has TAKEN AIM AGAINST THE GOLF INDUSTRY since 2007, and has CONTINUOUSLY AND REPEATEDLY DEMANDED NO GOLF INDUSTRY EXCEPTION STATUS.

When the TOTAL GOLF PESTICIDE BAN is IMPOSED, the owners, employees, and families dependent on businesses operating in the Golf Industry will face TERROR, DESPAIR, and DESTITUTION.

Cancer-Lunatics want to DESTROY their businesses, as well as their assets, their playing-customers, their homes, their lifestyles, their job security, their families, their children, their loved-ones, and their future.

Canadian Cancer Society has OFFICIALLY AND PUBLICLY DEMANDED A GOLF PESTICIDE BAN, or FALSELY ALLEGED THAT GOLF COURSE PESTICIDES ARE CARCINOGENS, on the following dates

- February 21st, 2007
- January 14th, 2008
- April 20th, 2009
- December 2nd, 2009, Prince Edward Island
- November 2011
- July 7th, 2012
- January 29th, 2013.

Subversive, Contemptible & Radical Canadian Cancer Society

Cancer-Lunatic Position On Pesticides

PESTICIDES USED AS A LAST OPTION

PESTICIDES SHOULD BE USED AS THE LAST OPTION, in the smallest possible amount, and only where needed to make a place usable. [Wrong !]

Commentary From An Independent
Perspective

NO BENEFIT And NO SCIENTIFIC BASIS For Use As Last Option.

There is NO BENEFIT and NO SCIENTIFIC BASIS to simplistic messages like « *use least toxic pesticides as a last resort* » for the large number of end-users who apply pest control products according to the label and practice good stewardship.

Nor are these messages beneficial for those who neither seek training nor adequately read the label — believing instead that it is safe, practical, and effective to simply choose a product considered a « *least toxic pesticide* » and apply it only as a « *last resort* ».

These messages hinder safety and stewardship education and practices that are in the best interest of the end-user, our food supply, public health, and ecosystem preservation.

American Phytopathological Society, Entomological Society of America, and Weed Science Society of America do not promote the use of pest control products above other pest management techniques.

Pest control products should ONLY be used when needed, when risks to non-target organisms and habitats have been carefully considered, and when diligent attention will be given to following all label directions and other applicable laws.

In addition, general and product-specific stewardship must always be practiced to prevent undesired effects under the particular application conditions.

Subversive, Contemptible & Radical Canadian Cancer Society

Cancer-Lunatic Position On Pesticides

Commentary From An Independent
Perspective

RE-ENTRY INTERVAL AFTER AN APPLICATION

People should STAY AWAY from treated areas for at least 48 HOURS after the last amount of pesticide is applied. [Wrong !]

Keep People Off Treated Area
Until Foliage Is Dry.

Re-Entry Intervals are set to ensure that any remaining pest control product residues on the treated surface do not pose an unacceptable risk to human health.

Re-Entry Intervals reflect the amount of time required for pest control product levels to dissipate (either from uptake into the plant, or degraded by natural processes) to a level that is well below any point of concern.

Re-Entry Intervals are established using a science-based approach to predict the amount of a pest control product that may be deposited onto the skin from contact with any treated surface.

All pest control products used by Professional Lawn Care companies require the following Re-Entry Interval —

*Keep people off treated area
until foliage is dry.*

This requirement applies to MOST products applied on Golf Course Turf, except Compass 50 WG, which has a Re-Entry Interval of 12 hours, and Heritage MAXX, which has a Re-Entry Interval of 4 hours.

There are NO pest control products applied to turf that require a Re-Entry Interval that is beyond 12 hours, and certainly, there are NONE where 48 hours is required.

Subversive, Contemptible & Radical Canadian Cancer Society

Cancer-Lunatic Position On Pesticides

Commentary From An Independent
Perspective

AGRICULTURE INDUSTRY

The use of pesticides in home or personal fruit-and-vegetable gardens should also be PHASED OUT.

Although the pesticides you use at home may be milder than those used for AGRICULTURE ...

[Wrong !]

... and you may use them less often ...

... there is still risk. [?!?!]

In the AGRICULTURE BUSINESS, there are usually more rules in place to reduce exposure, such as training for people who apply pesticides to properly use equipment that protects them, plans to reduce residue levels and pesticide drift, and rules to limit access to sprayed areas.

We encourage farming practices that reduce the use of pesticides.

[?!?!]

Growers Are Being LULLED
Into LUNATIC LA-LA LAND.

Growers in the Agriculture Industry DO NOT want to get too involved with the issue of the PROHIBITION against pest control products used in the Urban Landscape.

For growers, LUNATIC LA-LA LAND is a euphoric dream-like mental state detached from the reality that Anti-Pesticide Enviro-Lunatics will IMMINENTLY ANNIHILATE the Agriculture Industry.

Cancer-Lunatics from Canadian Cancer Society want to DESTROY the Agriculture Industry !

Growers are DELUDED into believing that the Agriculture Industry will be FOREVER granted an EXCEPTION STATUS from Anti-Pesticide PROHIBITION.

Growers DO NOT understand that the HATED GOLF INDUSTRY also enjoys an EXCEPTION STATUS, which itself will be SHORT-LIVED.

Both GOLF INDUSTRY and AGRICULTURE INDUSTRY use the VERY SAME ingredients for the control of pests.

If it is safe to eat pesticide-treated food, then it is safe to play on pesticide-treated golf courses.

Anti-Pesticide Cancer-Lunatic Terrorists DISAGREE !

Agriculture Is NEXT !

Cancer-Lunatics want to DESTROY their Agricultural Businesses, as well as their assets, their customers, their homes, their lifestyles, their job security, their families, their children, their loved-ones, and their future.

Subversive, Contemptible & Radical Canadian Cancer Society

OUR POSITION ON NON-COSMETIC USE OF PESTICIDES

The [Canadian Cancer] Society believes that when pesticides are needed to protect our health, safety or food supply, they should be part of a plan that includes pest prevention, using pesticides in the lowest amounts possible and using safer choices.

Where pesticides are necessary to protect our food supply or against the spread of disease, the Society recommends that :

The choice of chemicals should take into account their potential long-term health effects, like the risk of developing cancer in later years. [?!?!]

Widespread chemical spraying should be used only as a last option [?!?!] to protect human health and safety. [?!?!]

If chemical spraying is needed, people must be warned about the risks and helped to protect vulnerable family members such as infants, elderly people and people with weak immune systems. [Wrong !]

[In fact, there are NO valid reports of pest control product problems with infants, elderly people, and people with weak immune systems.

Furthermore, MEDICATION is the leading cause of poisoning in children, and NOT pest control products.

Besides, who is more knowledgeable ?

The 350 educated independent scientists at Health Canada who evaluate all the existing evidence to determine whether pest control products meet stringent health and safety requirements ...

... or the Fact-Deficient Non-Expert Cancer-Lunatic Liars who MISINFORM and TERRORIZE the public for mere donations to Canadian Cancer Society.]

NORAHG

We are living in the 9|11 Era of Anti Pesticide and Environmental Terrorism where at least ONE SUBVERSIVE ACT OF TERROR is Perpetrated EVERY SINGLE DAY by enviro lunatics.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FAKE SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, and INTERNET RUMOUR — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

NORAHG is the National Organization Responding Against HUJE that seek to harm the Green space industry.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OPPOSED to Anti Pesticide PROHIBITION and the CLOSURE of green spaces under the RIDICULOUS PRETEXT of somehow « saving » the environment.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

Anti Pesticide HUJE are enviro lunatics and lawn haters who particularly DESPISE the golf industry — they are Hateful Underhanded Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS.

There is NO RECOURSE but LITIGATION against Anti Pesticide HUJE.

Another RECOURSE is to SEEK the CANCELLATION of GOVERNMENT GRANTS and REVOCATION of the TAX EXEMPT STATUS of Anti Pesticide Organizations.

HUJE should Get OFF Our grASS, and they should Roast In Hell.

NORAHG manages the Library of Force Of Nature Reports and References, which is a VAST ARCHIVE of REPORTS, MEDIA REFERENCES, AUDIO CLIPS, and VIDEOS on ALL Anti Pesticide Terrorist Acts of Subversion.

The purpose of this ARCHIVE is to provide information that will lead to a SUCCESSFUL LITIGATION AGAINST Anti-Pesticide Organizations.

All names, statements, activities, and affiliations have been ARCHIVED for the intention of eventual CRIMINAL CHARGES.

When CRIMINAL CHARGES for FRAUD and CONSPIRACY are laid, legal experts say that the ARCHIVE is sufficient to lead to a SUCCESSFUL PROSECUTION !

NORAHG also produces FORCE OF NATURE, reports that present THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE about environmental issues, including anti pesticide terrorism.

FORCE OF NATURE is a series of reports destined for the green space industry, the environmental terrorist movement, governments, and the media, nationwide across Canada, the United States, and overseas.

FORCE OF NATURE is committed to SOUND SCIENCE, as well as ground breaking original reporting that informs, entertains, and creates real change.

FORCE OF NATURE was launched for CONTINUOUS transmission on the Internet on January 1st, 2009 — however, the VERY FIRST Stand-Alone FORCE OF NATURE Report was issued on September 19th, 2008.

By early 2009, the reports were released no more than five times per week, but by August 25th, 2009, FORCE OF NATURE was produced on a DAILY basis.

On March 15th, 2010, Uncle Adolph independently launched the Blog-Site called The Pesticide Truths, for the posting of information right-off-the-press.

By May 27th, 2010, Uncle Adolph expanded Pesticide Truths to a SECOND Blog-Site, and independently acquired the rights to archive the ENTIRE FORCE OF NATURE Library of Reports.

The Whole Truth from an Independent Perspective

NORAHG

By mid-December 2010, ENTIRE FORCE OF NATURE Library of Reports was FULLY SUMMARIZED and CROSS-REFERENCED, and by early 2012, the library was archived on The Pesticide Truths Web-Site, in the form of Web-Pages.

The information presented in FORCE OF NATURE has been developed for the education and entertainment of the reader by providing a sequence of events WITH COMMENTARY, striving for accuracy in history, politics, and science.

FORCE OF NATURE is TOTALLY INDEPENDENT and provides NO guarantee regarding accuracy or completeness. In no event shall FORCE OF NATURE be liable for any incidental or consequential damages, lost profits, or any indirect damages.

NORAHG also produces A LOOK AT, a series of reports providing TECHNICAL INFORMATION on issues such as Career Management, Golf Course Maintenance, Green Alternatives, Summer Stress, Turfgrass Pests, and Turfgrass Species.

Finally, NORAHG frequently responds to anti pesticide activists in LETTERS TO THE EDITOR in newspapers across Canada and around the world.

All information, excerpts, and pictures contained in FORCE OF NATURE, A LOOK AT, and LETTERS TO THE EDITOR were retrieved from the Internet, and may be considered in the public domain.

FORCE OF NATURE, A LOOK AT, and their various incarnations, was the brainchild of William H. Gathercole and his colleagues in 1991. Mr. Gathercole is now retired, although his name continues to appear as founder.

Here is a brief summary of Mr. Gathercole's career —

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University • University of Guelph • the first person ever to obtain university degrees and contribute to both the professional lawn care and golf maintenance industries

Expertise in — environmental issues and anti pesticide terrorism • turf and ornamental maintenance and troubleshooting • history of the industry • sales and distribution of seeds, chemicals, fertilizers, and equipment • fertilizer manufacturing and distribution

Notable activities — worked in virtually all aspects of the green space industry, including golf, professional lawn care, distribution, environmental compliance, government negotiations, public affairs, and workplace safety • supervisor, consultant, and, programmer for the successful execution of hundreds of thousands of management operations in the golf and urban landscape, as well as millions of pest control applications • advisor, instructor, and trainer for thousands of turf and ornamental managers and technicians • pesticide certification instructor for thousands of industry workers • founder of the modern professional lawn care industry • prolific writer for industry publications and e-newsletters • first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouver / Fraser Valley region • with Dr. Peter Dermoeden, confirmed the presence of Take All Patch as a disease of turf in Eastern Canada • with Dr. David Shetlar, confirmed the presence of Kentucky Bluegrass Scale as an insect pest in South Western Ontario, and later, in the Montreal and Vancouver regions

Special contributions — creator of the exception status that has allowed the golf industry to avoid being subjected to anti pesticide prohibition • creator of the signs that are now used for posting after application • co-founder of annual winter convention for Quebec golf course superintendents • the major influence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated daffodils • the only true reliable witness of the events of anti pesticide prohibition in the town of Hudson, Quebec • retired founder of FORCE OF NATURE and A LOOK AT reports

Notable award — the very first man of the year for contributions leading to the successful founding of Quebec professional lawn care industry, which served as a beach-head against anti pesticide activists in the 1980s and 1990s

Legacy — Mr. Gathercole and his colleagues ... designed and implemented strategies that reined anti pesticide activists to provide peace and prosperity for the entire modern green space industry across Canada • orchestrated legal action against anti pesticide activists in the town of Hudson, Quebec • launched the largest founding professional lawn care business in Canada • quadrupled the business revenues of one of the largest suppliers in Canada

Mr. Gathercole is now retired, although his name continues to appear as founder of FORCE OF NATURE and A LOOK AT reports.
