Namibian Health Minister — Give Us DDT

**Republic of Namibia's** Minister of Health and Social Services writes in The Wall Street Journal Europe that when it comes to using DDT for MALARIA CONTROL, his country and others still FACE PRESSURE from ANTI-INSECTICIDE ACTIVISTS and RESTRICTIONS FROM AN INTERNATIONAL ENVIRO-MANIAC TREATY called the Stockholm Convention. [ See later segment. ]

Spraying DDT insecticide inside houses to repel mosquitoes, called Indoor Residual Spraying, is THE CORNERSTONE of an effort to eliminate malaria in Southern Africa.

## Our World of Politicized Science

Richard Nchabi Kamwi, Minister of Health and Social Services, says that the number of manufacturers of DDT have dwindled to just one, a state-owned factory in India.

Richard Nchabi Kamwi writes further —

*There are several reasons to defend DDT and ensure we have ongoing supplies.*

*First, DDT is SAFE FOR HUMANS AND THE ENVIRONMENT.*

*Since the 1940s, thousands of scientific studies have investigated potential harm to human health from DDT.*

*Almost all these studies are WEAK, INCONCLUSIVE, or CONTRADICTORY.*

*In other words there is NO EVIDENCE OF HARM.*

*On the other hand, there is well-documented evidence of its GREAT PUBLIC-HEALTH BENEFITS.*

*As Minister of Health, I have to evaluate the full body of scientific evidence and balance risks.*

*With regard to DDT and malaria, ANY RATIONAL BALANCING OF RISKS WILL FAVOR DDT.*

According to Dr. Gilbert Ross —

*DDT has SAVED MORE LIVES than any other chemical known to man.*

*The HYSTERIA-BASED, UNSCIENTIFIC regulation of it — based mainly on Rachel Carson's Silent Spring, the opposite of a science-based risk analysis — is intolerable and should be revoked.*

Dr. Gilbert Ross is the Executive Director and Medical Director of the American Council on Science and Health (ACSH), a consumer education–public health organization. He received his undergraduate degree in Chemistry from Cornell University's School of Arts and Sciences in 1968, and received his M.D. from the N.Y.U. School of Medicine in 1972.

## THE IMPACT OF THE REMOVAL OF DDT

— MICHAEL CRICHTON

There is still a great deal of controversy regarding the decision to remove DDT from the world market.

One popular debate can be summarized as follows —

The restrictions on the use of DDT has resulted in MILLIONS OF UNNECESSARY DEATHS !

In 2004, popular author **Michael Crichton** summed up the situation with the following excerpt from his book entitled « *State of Fear* » —

« *Arguably, the greatest tragedy of the Twentieth Century was the removal of DDT.*

*DDT was the best insecticide for the control of mosquitoes.*

*Despite views to the contrary, no other products were as efficient, or as safe.*

*Since the removal of DDT, it has been estimated that THIRTY TO FIFTY MILLION PEOPLE have DIED UNNECESSARILY from the effects of malaria.*

*Sadly, removing DDT has KILLED MORE PEOPLE THAN HITLER.*

*Before the removal of DDT, malaria had become almost a minor illness, with only fifty thousand deaths per year throughout the world. »*

## THE STOCKHOLM CONVENTION

---

The STOCKHOLM CONVENTION on Persistent Organic Pollutants was the result of enviro-maniac negotiations that began in Montreal in 1998 under the United Nations Environment Programme.

The objective of the STOCKHOLM CONVENTION was to arbitrarily control, reduce, or eliminate discharges, emissions, and losses of persistent organic pollutants to the environment.

In 2004, the STOCKHOLM CONVENTION called for the elimination of DDT, as well as other persistent organic pollutants, barring any health crisis.

Ninety-eight countries ratified the convention.

## PAUL K. DRIESSEN

---

In 2003, **Paul K. Driessen** wrote the book « *Eco-Imperialism — Green Power, Black Death* ».

Driessen claimed that MALARIA DEATHS are TWO MILLION PER YEAR.

Moreover, the hundreds of millions who « *survive* » the disease are too sick to work or take care of their families.

They become more vulnerable to subsequent diseases, such as AIDS, dysentery, and tuberculosis.

The survivors are obviously not able to adequately contribute to the economy.

According to Driessen —

« *It's no wonder that Sub-Saharan Africa is one of the most destitute regions on Earth.* »

It has been observed that the removal of DDT showed that the West has a lack of compassion for those suffering in Third World countries.

Treatments were used long enough in the Southern United States and Southern Europe to eliminate insect-borne diseases, but now that DDT is only needed in poor countries, such as those found in Africa and Asia, it has been removed.

According to Driessen —

« Now, well-off environmental activists can afford to rail against pesticide use in Africa, while they enjoy all the comforts that our high-tech, malaria-free society bestows upon them. »

## PRESSURE TO GIVE UP DDT

---

Many African nations want to use DDT to SAVE LIVES, but they have been told their agricultural exports may not be accepted if spraying becomes « widespread ».

Some people assert that many countries have been under pressure from international health and environmental agencies to give up DDT, or face losing aid grants or trade sanctions.

Both Belize and Bolivia have gone on record to say that they gave in to such pressure from the U.S. Agency for International Development ( USAID ).

Additionally, the European Union ( EU ) has threatened trade sanctions against countries like Uganda that seek to use DDT, even solely for malaria control.

Fortunately, the 2004 STOCKHOLM CONVENTION inadvertently paved the way for the world-wide endorsement of DDT to control and repel the malaria insect vector.

Happily, anti-DDT policies changed, thanks to President George w. Bush.

## A TURNABOUT FOR DDT

---

DDT now plays a crucial part in the U.S. program, announced by **President George W. Bush** in 2005, to spend an additional 1.2 billion dollars on malaria control over the next five years.

Later in 2005, the U.S. Agency for International Development ( USAID ) reversed its long-time opposition to the purchase of DDT.

This represented a momentous turnabout in U.S. foreign policy.

# NORAHG

Force Of Nature presents THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from National Organization Responding Against Huje that seek to harm the Green Space Industry (NORAHG). It is a series of Reports destined for the Green Space Industry, the Environmental Terror Movement, Governments, and the Media, nationwide across Canada, the United States, and overseas. The information presented in Force Of Nature has been developed for the education and entertainment of the reader by providing a sequence of historical events WITH COMMENTARY. The neutrality of these Reports might be disputed.

Huje is a term used to describe Enviro Maniac Activists that routinely concoct FEAR MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRACIES that are DESIGNED to SCAM and DECEIVE the public into believing there is some NON-EXISTENT danger with conventional pest control products. Huje also SCAM and DECEIVE Government Officials into the NEEDLESS, SENSELESS, and MALICIOUS CONSPIRACY to PROHIBIT conventional pest control products that are FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE.

All information, excerpts, and pictures contained in this Report were found somewhere on the Internet, and may be considered in the public domain, serving one of the following purposes — archive, education, promotion, publicity, or press release. The events, characters, companies, and organizations, depicted in this Report are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental. Force Of Nature is TOTALLY INDEPENDENT of any trade association or business operating within the Green Space Industry. Don't thank us. It's a public service. And we are glad to do it.

Force Of Nature, and its various incarnations, is the brainchild of William H. Gathercole and his entourage. Mr. Gathercole is a principal FOUNDER of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from MCGILL UNIVERSITY. He has worked in virtually all aspects of the Green Space Industry, including GOLF, PROFESSIONAL LAWN CARE, and CHEMICAL INDUSTRY, and has served in public affairs, workplace safety, and environmental compliance. Mr. Gathercole has supervised, consulted, programmed, and/or overseen the successful and safe execution of HUNDREDS OF THOUSANDS of pest control applications in the urban landscape. He has trained, instructed, and consulted with THOUSANDS of turf managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority. Mr. Gathercole is now retired from Force Of Nature, although his name continues to appear as the FOUNDER. Mr. Gathercole is personally credited for crafting the Golf Industry Exception Status, that endures to this day. He is also the creator of the signs that are now used for posting after application. His vast knowledge of our long journey with Environmental Issues is UNDENIABLE — hopefully ! For FIFTEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of Environmental Terror for the entire Modern Green Space Industry across Canada. Mr. Gathercole's involvement in Environmental Issues reached a fevered pitch in the 1990s, when he orchestrated, with his colleagues, legal action against the Forces of Environmental Evil in the Town of Hudson, Quebec. Mr. Gathercole is the ONLY TRUE RELIABLE WITNESS of the Hudson Affair.

Mr. Gathercole and his entourage have followed the evolution of ENVIRONMENTAL TERRORISM for over a quarter century. Through Force Of Nature, Enviro Maniac Activist Huje are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each Enviro Maniac Culprit is a misguided adversary, each still deserves our respect. The use of the terms Maniac, Culprit, Terrorist, or Basterd are not accusations of any legal wrong doing. Force Of Nature is simply holding Enviro Maniac Activists accountable for conspiring to change public policies that TERRORIZE, HARM, and THREATEN the Green Space Industry. Their pretentious prohibitionist rants have created LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, inflicting DESPAIR and DESTITUTION for THOUSANDS of hapless victims throughout the Green Space Industry. The DEPRAVED INDIFFERENCE of Maniac Culprit Terrorist Basterd Huje is viewed as a form of TERROR, HARM, and THREAT against the Green Space Industry.
