

### Overview from an Independent Perspective

OUR WORLD OF POLITICIZED SCIENCE

The discussion of « politicized science » is ANATHEMA to the Environmental-Terror-Activists, who do not like it when certain issues are examined that may not be generally known, but need to be explained.

Many deeply held beliefs need to be

Many of these beliefs have been entrenched in our minds for decades by our trust in social policies that has become « politicized » with the perpetuation of « junk science », and the use of coercion through « environmental terrorism ».

In our world, the « politicization » of science occurs when Environmental-Terror-Activists use economic or legal pressures to influence public policy.

ror-Activists Policies spread to certain portions of the population, such as the Green Space Industry.

Policies of Environmental-Terror often cies, unemployment, despair, and des-

The depraved indifference of Environmental-Terror-Activists has even led to DEATH - on a MASSIVE scale.

« Politicized science » has triumphed whenever politics have outweighed scientific fact.

« Politicized science » has prevailed had little basis in fact or « sound science ».

It is now common knowledge that the world of « politicized science » DE-MONIZED one of the most impressive chemicals of the Twentieth Century —

We are told that the current array of modern and conventional pest control products used by the Green Space Industry MAY create the problems once encountered with the likes of DDT.

This is false!

The Green Space Industry needs to CONCEPTIONS concerning DDT.

The public needs to be given a reality check on this matter.

REMOVING DDT — AN EXAMPLE OF DEPRAVED INDIFFERENCE

The removal of DDT from the world market is a good example where social politics were implemented based upon « junk science ».

### Overview from an Independent Perspective

The measures that were urged for the removal of DDT had LITTLE BASIS in fact or science.

DDT had to be eliminated in order to « save » the environment — a move that was self-serving and under-

The fact that millions of people were hurt and killed with the removal of DDT has been ignored, since, sadly, the « saving » of the environment appeared to be a cause that was greater

Some observers have described this as a form of « depraved indifference », and even « eco-manslaughter », by Environmental-Terror-Activists.

A classic example of « depraved indifwas displayed in 1971, during Congressional testimony before the U.S. House Committee on Agriculture. The discussion focused on the chemical alternatives to DDT.

acceptable to Enviro-Terror-Activists, but they were truly UNSAFE for use by applicators, such as farm workers.

The response from Enviro-Terror-Activists was SHOCKING!

The following statement was attributed to an executive of the Environmental Defense Fund, a U.S. Environmental-Terror-Organization —

« It doesn't make a lot of difference because the organophosphate [ alterfarm workers, and most of them are Mexicans and Negroes. »

#### FACTS ABOUT DDT

The following nine statements challenge the « politicized science » that DEMONIZED DDT.

These statements are examined in detail in other reports.

Many deeply held beliefs about DDT need to be re-examined -

- Things were NOT better before DDT.
- 2. DDT was a pretty good product.
- DDT saved countless lives.
- The turf industry embraced DDT.
- 5. The environmental effect of DDT was contradictory.
- 6. The effect of DDT on birds was
- 7. Removing DDT was politically
- 8. The removal of DDT led to the death of millions.
- DDT is back again today.

# DDT is essentially **NON-TOXIC**

### Just Another Piece of Anti-DDT Propaganda

### BASELESS ATTACKS AGAINST DDT

November 16<sup>th</sup>, 2010

HealthFactsAndFears.com

Selected and adapted excerpts

DDT was banned in the United States since 1972 as part of a world-wide campaign against the pesticide — a crusade that has perversely ( and we presume unintentionally ) been responsible for the loss of millions of African children from PREVENTABLE MALARIA DEATHS.

But the « excellent powder » is now being blamed for THINNING CONDOR EGGS in California — well, ONE OR TWO EGGS, anyway.

Writing in The New York Times, John Moir reports that biologists with the Ventana Wildlife Society suspect a handful of breeding pairs in Big Sur [ in the Central California Coast ] have been eating dead sea lions contaminated by the pesticide.

There's NO KNOWN SOURCE of DDT near Big Sur, but the biologists SPECULATE the sea lions could have been contaminated from ocean deposits off the Coast of Los Angeles, where Montrose Chemical Corp. released tons of DDT into the sewer system in the 1950s and 60s.

According to Dr. Gilbert Ross of the American Council on Science and Health (ACSH) -

[ The report is ] thoroughly hysterical — baseless.

I don't even know what to call it.

It's not even an article — what would you say when someone is musing in The New York Times science section about DDT harming condors without any evidence?

And it's not just idle musing — as the end result will be that MORE THIRD WORLD CHILDREN WILL DIE OF MALARIA.

According to Dr. Josh Bloom of the American Council on Science and Health (ACSH) -

A nonsensical screed.

DDT is essentially NON-TOXIC.

In fact, it takes about four times as much DDT as caffeine to cause fatalities in rodents.

Hardly the deadly poison that this article portrays it as.

Screed is a long monotonous speech or piece of writing.

Dr. Ross says studies purporting to show DDT thins birds' egg-shells were FLAWED; those birds were deficient in calcium, and when fed a proper diet, laid SOLID eggs.

According to Dr. Ross —

It's just another piece of anti-DDT propaganda — but it's IN The New York Times.

> Bird eggs were allegedly affected by DDT bioaccumulation ?!?! them with a stick — what do you think?

#### FALSE ALLEGATIONS CONCERNING DDT

birds during the course of its activities.

And neither did DDT.

No doubt, the placement of these birds on endangered lists was a strong factor

Read the next segments, and formulate your own conclusions about the EXAG-GERATED EFFECTS of DDT on birds, and our world of JUNK SCIENCE.

#### THE ALLEGED EFFECT OF DDT ON BIRDS

Beginning in the 1950s, DDT was used on a massive scale to control the insect vectors of the Dutch Elm Disease, as well as the larvae of the Gypsy Moth and the

Some people commented that a reduction in bird activity after an application of DDT could mean several things.

This would lead to the birds flying elsewhere for food.

It would not necessarily mean that DDT was killing birds.

#### THE DISGRACEFUL AND MISLEADING WURSTER ARTICLE

regarding the alleged death of certain bird species following DDT applications for Dutch Elm Disease in Hanover, New Hampshire.

The author was Charles Frederick Wurster Junior.

Wurster claimed that —

« Severe mortality of both resident and migrant birds occurred in Hanover during spring 1963, and the evidence IMPLICATES DDT as its cause. »

son between Hanover and Norwich, Vermont.

Norwich itself was never sprayed with DDT.

habits of some birds APPEARED changed.

Obviously, DDT was held accountable!

WHO WAS CHARLES FREDERICK WURSTER JUNIOR ?

The disgraceful and misleading article discussed in the preceding segment was cowritten by Enviro-Maniac Charles Frederick Wurster Junior.

Wurster eventually became a co-founder and « volunteer scientist » for the Envi-

EDF was the Environmental-Terror-Organization that instigated a major conspir-

However, the intentions of this organization may not have been pure-at-heart.

U.S. Enviro-Maniac Charles F. Wurster Junior grinned like the Cheshire Cat

#### DAMNING STATEMENT FROM WURSTER

following damning statement in the Seattle Times —

other environmental issues, A LEVEL OF AUTHORITY THEY HAVE NEVER HAD BE-FORE. In a sense, then, much more is at stake than DDT. »

CREASE THEIR POWER.

There may never have been a bird issue!

WHERE WERE THE DEAD BIRDS?

In fact, there appear to be NO valid scientific reports of « birds falling out of the sky and bird carcasses littering the countryside » following the application of DDT.

> Did birds really fall out of the sky during the « DDT years » ? No way !!!

birds, where were the thousands of dead bodies?

So did Michael Crichton.

The restrictions on the use of DDT has resulted in millions of unnecessary deaths

#### THE WISDOM OF MICHAEL CRICHTON

Michael Crichton was the famous author who wrote books like State of Fear and Jurassic Park. Crichton was also a scientist and researcher.

« I can tell you that DDT [ ... ] did not cause birds to die, and should never have Twentieth Century history of America. »

Moreover, the restrictions on the use of DDT resulted in MILLIONS OF UNNECES-SARY DEATHS!

« Arguably, the greatest tragedy of the Twentieth Century was the removal of DDT.

Despite views to the contrary, no other products were as efficient, or as safe.

fifty thousand deaths per year throughout the world. »

#### THE STOCKHOLM CONVENTION

The STOCKHOLM CONVENTION on Persistent Organic Pollutants was the result of tions Environment Programme.

The objective of the STOCKHOLM CONVENTION was to arbitrarily control, reduce, or eliminate discharges, emissions, and losses of persistent organic pollutants to the environment.

In 2004, the STOCKHOLM CONVENTION called for the elimination of DDT, as well countries ratified the convention.

THE WISDOM OF PAUL K. DRIESSEN

In 2003, Paul K. Driessen wrote the book « Eco-Imperialism — Green Power, Black Death ».

Driessen claimed that MALARIA DEATHS are TWO MILLION PER YEAR.

Moreover, the hundreds of millions who « survive » the disease are too sick to work or take care of their families.

They become more vulnerable to subsequent diseases, such

The survivors are obviously not able to adequately contrib-

« It's no wonder that Sub-Saharan Africa is one of the most destitute regions on Earth. »

It has been observed that the removal of DDT showed that the West has a lack of compassion for those suffering in Third World countries.

Treatments were used long enough in the Southern United States and Southern Europe to eliminate insect-borne diseases, but now that DDT is only needed in

According to Driessen —

« Now, well-off environmental activists can afford to rail against pesticide use in bestows upon them. »

#### PRESSURE TO GIVE UP DDT

Many African nations want to use DDT to SAVE LIVES, but they have been told their agricultural exports may not be accepted if spraying becomes « widespread ».

tional health and environmental agencies to give up DDT, or face losing aid grants

countries like Uganda that seek to use DDT, even solely for malaria control.

Fortunately, the 2004 STOCKHOLM CONVENTION inadvertently paved the way for the world-wide endorsement of DDT to control and repel the malaria insect vector.

Happily, anti-DDT policies changed, thanks to President George W. Bush.

#### A TURNABOUT FOR DDT

by President George W. Bush in 2005, to spend an additional 1.2 billion dollars on malaria control over the next five years.

( USAID ) reversed its long-time opposition to the purchase

This represented a momentous turnabout in U.S. foreign pol-

The following is an excerpt from a speech that Bush presented on December 14<sup>th</sup>, 2006 -

against malaria. At home, malaria was eliminated decades ago. It is possible to laria. The vast majority were children under five — their lives ended by nothing over five years to provide bed nets, and INDOOR SPRAYING, and anti-malarial

Moreover, in 2006, the European Union (EU) indicated that it would NO LONGER HEALTH CRISIS.

Evidently, the malarial affliction of more than 515 million people per year, and « health crisis », as defined by the 2004 STOCKHOLM CONVENTION.

In essence, the 2004 STOCKHOLM CONVENTION paved the way for the world-wide endorsement of DDT in order to control and repel the malaria insect vector.

#### WORLD HEALTH ORGANIZATION ENDORSED DDT

On September 16<sup>th</sup>, 2006, the World Health Organization (WHO) announced that DDT could be used once again as a principal tool against malaria.

spraying ».

As of 2006, WHO endorsed DDT for « indoor residual spraying » in those areas

Ironically, several environmental groups now grudgingly endorse the indoor use of

finally grew a conscience? Not completely!

The World Wildlife Fund and others still lobby against DDT.

DDT was safe to use even inside airplanes

Force Of Nature presents THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from National Organization Responding Against HUJE that seek to harm the Green Space Industry (NORAHG). It is a series of Reports destined for the Green Space Industry, the Environmental Terror Movement, Governments, and the Media, nationwide across Canada, the United States, and overseas. The information presented in Force Of Nature has been developed for the education and entertainment of the reader by providing a sequence of historical events WITH COMMENTARY. The neutrality of these Reports might be disputed. Don't thank us. It's a public service. And we are glad to do it.

HUJE are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each Enviro Maniac Culprit is a misguided adversary, each still deserves our respect. The use of the terms Maniac, Culprit, Terrorist, or Basterd are not accusations of any legal wrong doing. Force Of Nature is simply holding Enviro Maniac Activists accountable for conspiring to change public policies that TERRORIZE, HARM, and THREATEN the Green Space Industry.

HUJE is a term used to describe Enviro Maniac Activists that routinely concoct FEAR MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRACIES that are DESIGNED to SCAM and DECEIVE the public into believing there is some IMAGINARY DANGER with conventional pest control products. HUJE also SCAM and DECEIVE Government Officials into the NEEDLESS, SENSELESS, and MALICIOUS CONSPIRACY to PROHIBIT conventional pest control products that are FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACE-ABLE, and ABSOLUTELY INDISPENSABLE.

HUJE have created LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, inflicting DESPAIR and DESTITUTION for THOUSANDS of hapless victims throughout the Green Space Industry. The DEPRAVED INDIFFER-ENCE of Maniac Culprit Terrorist Basterd HUJE is viewed as a form of TERROR, HARM, and THREAT against the Green Space Industry.

This Report provides NO guarantee regarding accuracy or completeness. In no event shall Force Of Nature be liable for any incidental or consequential damages, lost profits, or any indirect damages. Force Of Nature is TOTALLY INDEPENDENT of any trade association or business operating within the Green Space Industry. The events, characters, companies, and organizations, depicted in this Report are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental. All information, excerpts, and pictures contained in this Report were found somewhere on the Internet, and may be considered in the public domain, serving one of the following purposes — archive, education, promotion, publicity, or press release.

Force Of Nature, and its various incarnations, is the brainchild of William H. Gathercole and his colleagues. Mr. Gathercole is a principal FOUNDER of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from McGILL UNIVERSITY. He has worked in virtually all aspects of the Green Space Industry, including GOLF, PROFESSIONAL LAWN CARE, and CHEMICAL INDUSTRY, and has served in environmental compliance, government negotiations, public affairs, and workplace safety. Mr. Gathercole has supervised, consulted, programmed, and/or overseen the successful and safe execution of HUNDREDS OF THOUSANDS of pest control applications in the urban landscape. He has trained, instructed, and consulted with THOUSANDS of turf managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority.

Mr. Gathercole and his colleagues have followed the evolution of ENVIRONMENTAL TERRORISM for over a quarter century. For FIFTEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of the VERMIN OF ENVIRONMENTAL TERROR for the entire Modern Green Space Industry across Canada. Their involvement in Environmental Issues reached a fevered pitch in the 1990s, when he orchestrated, with his colleagues, legal action against the Forces of Environmental Evil in the Town of Hudson, Ouebec.

Today, Mr. Gathercole is the ONLY TRUE RELIABLE WITNESS of the Hudson Affair. Mr. Gathercole is personally credited for crafting the Golf Industry Exception Status that endures to this day. He is also the creator of the signs that are now used for posting after application. His vast knowledge of our long journey with Environmental Issues is UNDENIABLE—hopefully! Mr. Gathercole is now retired, although his name continues to appear as FOUNDER of Force Of Nature.
