

In the 9/11 Era of **Environmental Terror** 

Environmental-Terror-Lunatics rely upon lies, fear-mongering, misconceptions, coercion, threats, deceptions, terror, and paranoid conspiracies.

They concoct fraudulent and non-existent alarmist issues such as the so-called problems with DDT as well as the imaginary threat of pest control products!

### The RE-INTRODUCTION of DDT is NEEDED since it is THE MOST EFFECTIVE in the fight against MALARIA

## MALAWI WANTS DDT IN MALARIA FIGHT

Selected and adapted excerpts

The Republic of Malawi is a landlocked country in South-East Africa that was formerly known as Nyasaland. It is bordered by Zambia to the North-West, Tanzania to the North-East, and Mozambique on the East, South and West.

The Parliamentary Committee on Health and Population has proposed REIN-TRODUCTION of DDT in the fight against MALARIA, arguing it is MORE EFFECTIVE than other pesticides.

This proposal comes against a background of opposition to the reintroduction of DDT by Environmental-Lunatics, who falsely allege the chemical has negative effects on humans and the environment.

In the 1950s and 1960s, most countries used DDT to wipe out malaria

According to a report presented to the National Assembly on December 7<sup>th</sup>, 2010 -

<< DDT was approved as the right pesticide for prevention of malaria by the WHO (World Health Organisation). However, it is not being used as it is reported that it is harmful to tobacco and the environment. Other alternatives such as pyrethroids are four times expensive than DDT. >>

Malawi has close to eight million episodes of MALARIA annually. The disease accounts for 40 per cent of hospital admissions, and a similar per cent for outpatients.

WHO Global Malaria Programme RECOMMENDS the use of DDT for INDOOR RE-SIDUAL SPRAYING as it has LONGEST RESIDUAL EFFICACY when sprayed on walls and ceilings. It is said to last up to a maximum of 12 months compared to sprays such as pyrethroids (which last three to six months) and organophosphates and carbamates (two to six months).

The Parliamentary Committee report also quotes Malaria Control Programme officials as highlighting that in the 1950s and 1960s, most countries in Western Europe and America used DDT to WIPE OUT MALARIA before banning the pesticide.

Force Of Nature, and its various incarnations, is the brainchild of William H. Gathercole and his colleagues. Mr. Gathercole is a principal FOUNDER of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from McGILL UNIVERSITY. He has worked in virtually all aspects of the Green Space Industry, including GOLF, PROFESSIONAL LAWN CARE, and CHEMICAL INDUSTRY, and has served in environmental compliance, government negotiations, public affairs, and workplace safety. Mr. Gathercole has supervised, consulted, programmed, and/or overseen the successful and safe execution of HUNDREDS OF THOUSANDS of pest control applications in the urban landscape. He has trained, instructed, and consulted with THOUSANDS of turf managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority.

Mr. Gathercole and his colleagues have followed the evolution of ENVIRONMENTAL TERRORISM for over a quarter century. For FIFTEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of the VERMIN OF ENVIRONMENTAL TERROR for the entire Modern Green Space Industry across Canada. Their involvement in Environmental Issues reached a fevered pitch in the 1990s, when he orchestrated, with his colleagues, legal action against the Forces of Environmental Evil in the Town of Hudson, Ouebec.

Today, Mr. Gathercole is the ONLY TRUE RELIABLE WITNESS of the Hudson Affair. Mr. Gathercole is personally credited for crafting the Golf Industry Exception Status that endures to this day. He is also the creator of the signs that are now used for posting after application. His vast knowledge of our long journey with Environmental Issues is UNDENIABLE hopefully! Mr. Gathercole is now retired, although his name continues to appear as FOUNDER of Force Of Nature.
