THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from
National Organization Responding Against HUJE that seek to harm the Green Space Industry (NORAHG)

**In the 9/11 Era of
Environmental Terror**

**Enviro-Terrorist-Lunatics
rely upon lies, fear-mongering,
misconceptions, coercion,
threats, deceptions, terror,
and paranoid conspiracies.**

**These Depraved-Lunatics concoct
fraudulent, non-existent,
and alarmist issues, such as
the so-called problems with DDT
as well as the imaginary threat of
pest control products !**

**These Enviro-Basterds
cannot be trusted !**

We are living in the 9/11 Era of Environmental Terror !

The quest for the ELIMINATION of DDT use

DDT

Our World of Politicized Science

The United Nations' SCIENTIFIC FRAUD Against DDT

PART 5

MOTIVATIONS FOR FALSE CLAIMS OF SUCCESS

January 2011

Roger Bate, Donald Roberts, Richard Tren

AEI Outlook Series

Selected and adapted excerpts

Key points in this Outlook :

- UN agencies are misleading the public by claiming that malaria can be controlled without insecticides, notably DDT. The stated aim is to stop DDT use globally by 2020.
- UN agencies are committing scientific fraud by deliberately and incorrectly interpreting data on malaria control using non-insecticide methods.
- While DDT is no panacea, it is still a critical weapon in the battle against malaria and other insect-borne diseases.

DDT

Our World of Politicized Science

United Nations Environment Program (UNEP), Global Environment Facility (GEF), the Stockholm Convention Secretariat, and environmental health units of the World Health Organization (WHO) and Pan American Health Organization (PAHO) have been the driving force behind the Mexico and Central America (Mexico/CA) Project and subsequent similar projects.

Public statements reveal THEIR QUEST FOR GREATER CONTROL OVER DDT USE and malaria-control policies.

There is a LONG HISTORY OF ACTIVISM AGAINST THE USE OF INSECTICIDES in public health.

In 1997, the World Health Assembly (WHA), the governing body of the World Health Organization (WHO), approved Resolution 50.13, which CALLS ON COUNTRIES TO REDUCE THEIR RELIANCE ON INSECTICIDES IN DISEASE CONTROL.

For over seventy years, DDT has been a vital insecticide in the battle against disease.

Yet it is vilified for largely illegitimate concerns about its impact on the environment and human health.

Through a mix of environmental fervour, self-interest, and disregard for evidence-based policy, United Nations (UN) agencies are misleading the public about DDT — mistakenly claiming it is not needed and can be eliminated globally by 2020.

Such claims must be withdrawn, and the aggressive timeline for the elimination of DDT must be shelved.

DDT

Our World of Politicized Science

The World Health Organization resolution calling on countries to reduce their reliance on insecticides in disease control was passed in the absence of any credible evidence

This resolution was passed due to lobbying efforts by activist groups and powerful governments of malaria-free countries.

The resolution was adopted IN THE ABSENCE OF ANY CREDIBLE EVIDENCE that insect-borne diseases can be controlled without public-health insecticides.

The Stockholm Convention Conference of Parties (COP) authorized the Secretariat to assess the ongoing need for DDT in disease control, an activity that one would expect to be led by the World Health Organization (WHO), the world's leading technical agency for public health.

Furthermore, the World Health Assembly, the governing body of the World Health Organization, must prioritize the needs of malarial countries ahead of the political agenda of UN agencies and set a positive agenda for the use of DDT and the development of much-needed new public-health insecticides.

Independent donors should continue to fund DDT use where needed for malaria control.

The campaign against DDT means it is used far less than is efficient or desired by malaria-control programs.

DDT

Our World of Politicized Science

*The priority of World Health Organization
is the ELIMINATION of DDT*

Yet, World Health Organization (WHO) is led by the Stockholm Convention Secretariat, with the WHO involved ONLY as a collaborator.

As the Stockholm Convention Secretariat explained ...

« *The priority of WHO is malaria control.* »

« *This priority at times superseded the goal of the ELIMINATION of DDT and altered the focus of the strategy.* »

« *It is essential that the Secretariat takes ownership of this strategy while gaining endorsement from WHO and UNEP Chemicals to ensure that the focus on ELIMINATION of DDT is maintained.* »

Although strategies APPEAR FOCUSED ON DDT, their stated goals go far beyond this issue.

DDT

Our World of Politicized Science

The May 2009 joint press release from United Nations Environment Program (UNEP), World Health Organization (WHO), and Global Environment Facility (GEF), announced a ...

« ... rejuvenated international effort to combat malaria with an incremental REDUCTION of reliance on the synthetic pesticide DDT. »

This effort is embodied in the global program Demonstrating and Scaling-Up of Sustainable Alternatives to DDT in Vector Management (Global DSSA Program), which consists of ten Global Environment Facility (GEF) projects in forty countries to test NON-CHEMICAL METHODS TO CONTROL MALARIA, at an estimated cost of 78.3 MILLION DOLLARS.

The program is supposed to be building on the results achieved from the Mexico and Central America (Mexico/CA) Project.

The UNEP/GEF long-term goal for the Global DSSA Program (as described by UNEP's Jan Betlem) is to re-formulate ...

« ... the WHO Global Malaria Program in order to promote global vector-borne disease control interventions while at the same time ELIMINATING THE APPLICATION OF DDT AND REDUCING THE USE OF OTHER CHEMICALS. »

DDT

Our World of Politicized Science

Additionally, Betlem cites World Health Assembly (WHA) Resolution 50.13 as a factor in the UNEP/GEF plan for reformulating World Health Organization's Global Malaria Program.

So, anti-insecticide advocates come full circle.

They lobbied for the World Health Assembly (WHA) resolution and then used it to justify their plans for deciding how to control malaria.

*The World Health Organization Global Malaria Program is being re-formulated in order to promote global vector-borne disease control interventions while at the same time
ELIMINATING THE APPLICATION OF DDT*

DDT

Our World of Politicized Science

Far from being an impartial arbiter and defender of sound scientific evaluation in the debate over DDT, the WHO is merely a conduit for anti-DDT interests

Donald Roberts is Emeritus Professor of Tropical Medicine at Uniformed Services University of the Health Sciences.

Background Information from an Independent Perspective

Background Information from an Independent Perspective

It is the principal reason why people in Africa are living in abject poverty.

Both North America and Europe have not harboured Malarial mosquitoes since the 1940s.

This was accomplished through the use of a range of public health measures, as well as generally increasing health and living standards.

In fact, the beginning of the decline of Malaria was due principally to the drainage of swamp-land and the removal of mill-ponds.

Background Information from an Independent Perspective

It had been known since 1914 that Malaria could be controlled by fluctuating water levels.

Nonetheless, DDT contributed to the final eradication of Malaria in the developed world.

In 1955, the World Health Organization (WHO) began a program to eradicate Malaria throughout the ENTIRE world.

The program RELIED GREATLY upon the application of DDT to control mosquitoes, with a practice called DDT Residual House Spraying.

As a result of this program, by 1967, Malaria was eradicated from all developed countries where Malaria was endemic.

Background Information from an Independent Perspective

- Our modern day world of politicized science refuses to admit that DDT has prevented hundreds of millions of deaths with its life-saving eradication of human diseases

For over one-half century, DDT has been used as part of the solution to one of the world's great problems.

Through the policies of depraved indifference of Environmental-Terrorist-Organizations, DDT will be prohibited in a manner that can only be described as « *Eco-Manslaughter* ».

Additionally, these Enviro-Terrorist-Organizations prefer seeing money wasted on investigating myths like so-called GLOBAL WARMING rather than solving some REAL world problems, such as with POVERTY, AIDS, POLLUTED DRINKING WATER, and MALARIA, which are afflicting and killing many times more people than GLOBAL WARMING ever will.

Is Perpetrated EVERY SINGLE DAY

NORAHG

Force Of Nature presents THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from National Organization Responding Against HUJE that seek to harm the Green Space Industry (NORAHG). It is a series of Reports destined for the Green Space Industry, the Environmental Terror Movement, Governments, and the Media, nationwide across Canada, the United States, and overseas. The information presented in Force Of Nature has been developed for the education and entertainment of the reader by providing a sequence of historical events WITH COMMENTARY. The neutrality of these Reports might be disputed. This is what we do. Don't thank us. It's a public service. And we are glad to do it.

HUJE are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each Enviro Lunatic Culprit is a misguided adversary, each still deserves our respect. The use of the terms Lunatic, Maniac, Culprit, Terrorist, or Basterd are not accusations of any legal wrong doing. Force Of Nature is simply holding Enviro Lunatic Activists accountable for conspiring to change public policies that TERRORIZE, HARM, and THREATEN the Green Space Industry.

HUJE is a term used to describe Enviro Lunatic Activists that routinely concoct FEAR MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRACIES that are DESIGNED to SCAM and DECEIVE the public into believing there is some IMAGINARY DANGER with conventional pest control products. HUJE also SCAM and DECEIVE Government Officials into the NEEDLESS, SENSELESS, and MALICIOUS CONSPIRACY to PROHIBIT conventional pest control products that are HEALTH CANADA APPROVED, FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE.

HUJE have created LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, inflicting DESPAIR and DESTITUTION for THOUSANDS of hapless victims throughout the Green Space Industry. The DEPRAVED INDIFFERENCE of Lunatic Culprit Terrorist Basterd HUJE is viewed as a form of TERROR, HARM, and THREAT against the Green Space Industry.

This Report provides NO guarantee regarding accuracy or completeness. In no event shall Force Of Nature be liable for any incidental or consequential damages, lost profits, or any indirect damages. Force Of Nature is TOTALLY INDEPENDENT of any trade association or business operating within the Green Space Industry. The events, characters, companies, and organizations, depicted in this Report are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental. All information, excerpts, and pictures contained in this Report were found somewhere on the Internet, and may be considered in the public domain, serving one of the following purposes — archive, education, promotion, publicity, or press release.

Force Of Nature, and its various incarnations, is the brainchild of William H. Gathercole and his colleagues. Mr. Gathercole is a principal FOUNDER of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from MCGILL UNIVERSITY. He has worked in virtually all aspects of the Green Space Industry, including GOLF, PROFESSIONAL LAWN CARE, and CHEMICAL INDUSTRY, and has served in environmental compliance, government negotiations, public affairs, and workplace safety. Mr. Gathercole has supervised, consulted, programmed, and/or overseen the successful and safe execution of HUNDREDS OF THOUSANDS of pest control applications in the urban landscape. He has trained, instructed, and consulted with THOUSANDS of turf managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority.

Mr. Gathercole and his colleagues have followed the evolution of LUNATIC ENVIRONMENTAL TERRORISM for over a quarter century. For FIFTEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of the VERMIN OF ENVIRONMENTAL TERROR for the entire Modern Green Space Industry across Canada. Their involvement in Environmental Issues reached a fevered pitch in the 1990s, when he orchestrated, with his colleagues, legal action against the Forces of Environmental Evil in the Town of Hudson, Quebec.

Today, Mr. Gathercole is the ONLY TRUE RELIABLE WITNESS of the Hudson Affair. Mr. Gathercole is personally credited for crafting the Golf Industry Exception Status that endures to this day. He is also the creator of the signs that are now used for posting after application. He and his colleagues are recognized as THE MAJOR INFLUENCE for the decision by Canadian Cancer Society to STOP selling for profit PESTICIDE-TREATED DAFFODILS. Mr. Gathercole's vast knowledge of our long journey with Environmental Issues is UNDENIABLE — hopefully ! Mr. Gathercole is now retired, although his name continues to appear as FOUNDER of Force Of Nature.
