DDT

Our World of Politicized Science

Plenty of Bugs in EPA Priorities

February 9th, 2011

American Council on Science and Health

Selected and adapted excerpts

As the Bed-Bug epidemic continues to spread through New York City and elsewhere, the United States Environmental Protection Agency (US EPA) is now planning to commence research aimed at developing pesticide alternatives, especially genetic-based solutions, rather than allow DDT to be used.

PBS NewsHour reported on February 7th, 2011, that chemically-based anti-Bed-Bug methods, particularly DDT, are « *noxious but effective* », and highlighted the growing resistance of Bed-Bugs to more commonly employed pesticides.

DDT

Our World of Politicized Science

According to Dr. Gilbert Ross of the American Council on Science and Health (ACSH) —

DDT is NOT noxious.

DDT is one of the most well-studied chemicals, and there's very clear evidence that it poses NO HEALTH RISK TO HUMANS.

The reason we can't use DDT to eradicate Bed-Bugs is based upon the long-debunked fear generated by Rachel Carson.

This baseless fear of pesticides is also the prime cause of the spread of West Nile virus around the country, an epidemic which could have been prevented in 1999 had the city been able to use sufficient amounts of pesticides without the interference of 'environmental groups'.

Dr. Josh Bloom, however, predicts this fear will disappear quickly once the Upper West Side gets infested.

According to Dr. Josh Bloom of the American Council on Science and Health (ACSH) —

The dilettante environmentalists will be climbing all over each other at Home Depot to get to the most toxic pesticides available.

It will make the Rodney King Riots look like tea time at Buckingham Palace. ☺

DDT

Our World of Politicized Science

*This baseless fear of pesticides like DDT
is also the prime cause of the spread of
West Nile virus around the country*

Dr. Gilbert L. Ross is the Executive Director and Medical Director of the American Council on Science and Health (ACSH), a consumer education–public health organization. He received his undergraduate degree in Chemistry from Cornell University's School of Arts and Sciences in 1968, and received his M.D. from the N.Y.U. School of Medicine in 1972.

Dr. Josh Bloom is the Associate Director of the American Council on Science and Health (ACSH), a consumer education–public health organization. Bloom is an organic chemist, and has worked in the pharmaceutical industry for about twenty years.

Dr. Elizabeth M. Whelan is President of the American Council on Science and Health (ACSH) and a member of its Board of Trustees. She founded ACSH in 1978. Whelan is a graduate of Connecticut College . She has a Masters' Degree in Public Health from the Yale School of Medicine, a Master of Science from the Harvard School of Public Health , and a Doctor of Science from the Harvard School of Public Health.

Background Information from an Independent Perspective

LET'S PAUSE ...
AND LOOK AT SOME ALARMING STATISTICS

It has been predicted that so-called GLOBAL WARMING will affect the Arctic, as well as the African and Asian countries, North America, and Europe.

Consequently, it is expected that dozens of millions of refugees will be created, and that famine will affect 80 to 200 million people.

We should all be reminded that many experts view GLOBAL WARMING as purely SPECULATIVE.

We are also advised to get a grasp on factual existing problems that plague our entire planet.

As we speak, we have real problems, with poverty, AIDS, polluted drinking water, and Malaria, which are afflicting and killing many times more people than global warming ever will.

Hunger is the most extreme form of poverty.

Presently, 854 million people across the world are hungry.

Every day, almost 16,000 children DIE from hunger-related causes — almost 6 MILLION CHILDREN DIE ANNUALLY due to hunger.

The latest statistics on the world epidemic of AIDS and HIV indicate that 39½ million people are living with it.

AIDS deaths for 2006 were 2.9 million, despite recent improvements to access to anti-retroviral treatment.

Equally serious is the fact that a world-wide shortage of fresh drinking water affects forty per cent of the planet's population.

Each year, 11 MILLION PEOPLE DIE of diseases related to water that is not clean enough for consumption.

Finally, some observers believe that Malaria acutely afflicts MORE THAN 515 MILLION PEOPLE PER YEAR.

Background Information from an Independent Perspective

It had been known since 1914 that Malaria could be controlled by fluctuating water levels.

Nonetheless, DDT contributed to the final eradication of Malaria in the developed world.

In 1955, the World Health Organization (WHO) began a program to eradicate Malaria throughout the ENTIRE world.

The program RELIED GREATLY upon the application of DDT to control mosquitoes, with a practice called DDT Residual House Spraying.

As a result of this program, by 1967, Malaria was eradicated from all developed countries where Malaria was endemic.

Large areas of tropical Asia and Latin America were freed from the risk of infection.

In Sub-Saharan Africa, the campaign was only launched in three countries since it was not considered feasible in the others.

Swaziland and Mozambique are examples of countries that have very successfully REDUCED Malaria infestations with DDT.

Throughout the years, spectacular DECREASES in Malaria infections and deaths were seen after implementing an extensive anti-mosquito program with DDT.

Here are five examples. —

- India ■ 1945
 - Almost 1 million Malaria deaths reported
- India ■ 1960
 - Only a few thousand cases were reported
- Republic of China (Taiwan) ■ 1945
 - 1 million cases of MALARIA. DDT was soon adopted
- Republic of China ■ 1969

- Only 9 cases were reported, and shortly thereafter, Malaria was eradicated from the island

- Sri Lanka (Ceylon) ■ 1946
 - 28 million cases of Malaria

- Sri Lanka ■ 1961
 - Only 110 cases were reported

- Sri Lanka ■ 1969
 - The DDT program was halted, and Malaria rebounded with 2½ million cases

NORAHG

Force Of Nature presents THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from National Organization Responding Against HUJE that seek to harm the Green Space Industry (NORAHG). It is a series of Reports destined for the Green Space Industry, the Environmental Terror Movement, Governments, and the Media, nationwide across Canada, the United States, and overseas. The information presented in Force Of Nature has been developed for the education and entertainment of the reader by providing a sequence of historical events WITH COMMENTARY. The neutrality of these Reports might be disputed. Don't thank us. It's a public service. And we are glad to do it.

HUJE are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each Enviro Lunatic Culprit is a misguided adversary, each still deserves our respect. The use of the terms Lunatic, Maniac, Culprit, Terrorist, or Basterd are not accusations of any legal wrong doing. Force Of Nature is simply holding Enviro Lunatic Activists accountable for conspiring to change public policies that TERRORIZE, HARM, and THREATEN the Green Space Industry.

HUJE is a term used to describe Enviro Lunatic Activists that routinely concoct FEAR MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRACIES that are DESIGNED to SCAM and DECEIVE the public into believing there is some IMAGINARY DANGER with conventional pest control products. HUJE also SCAM and DECEIVE Government Officials into the NEEDLESS, SENSELESS, and MALICIOUS CONSPIRACY to PROHIBIT conventional pest control products that are FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE.

HUJE have created LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, inflicting DESPAIR and DESTITUTION for THOUSANDS of hapless victims throughout the Green Space Industry. The DEPRAVED INDIFFERENCE of Lunatic Culprit Terrorist Basterd HUJE is viewed as a form of TERROR, HARM, and THREAT against the Green Space Industry.

This Report provides NO guarantee regarding accuracy or completeness. In no event shall Force Of Nature be liable for any incidental or consequential damages, lost profits, or any indirect damages. Force Of Nature is TOTALLY INDEPENDENT of any trade association or business operating within the Green Space Industry. The events, characters, companies, and organizations, depicted in this Report are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental. All information, excerpts, and pictures contained in this Report were found somewhere on the Internet, and may be considered in the public domain, serving one of the following purposes — archive, education, promotion, publicity, or press release.

Force Of Nature, and its various incarnations, is the brainchild of William H. Gathercole and his colleagues. Mr. Gathercole is a principal FOUNDER of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from MCGILL UNIVERSITY. He has worked in virtually all aspects of the Green Space Industry, including GOLF, PROFESSIONAL LAWN CARE, and CHEMICAL INDUSTRY, and has served in environmental compliance, government negotiations, public affairs, and workplace safety. Mr. Gathercole has supervised, consulted, programmed, and/or overseen the successful and safe execution of HUNDREDS OF THOUSANDS of pest control applications in the urban landscape. He has trained, instructed, and consulted with THOUSANDS of turf managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority.

Mr. Gathercole and his colleagues have followed the evolution of LUNATIC ENVIRONMENTAL TERRORISM for over a quarter century. For FIFTEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of the VERMIN OF ENVIRONMENTAL TERROR for the entire Modern Green Space Industry across Canada. Their involvement in Environmental Issues reached a fevered pitch in the 1990s, when he orchestrated, with his colleagues, legal action against the Forces of Environmental Evil in the Town of Hudson, Quebec.

Today, Mr. Gathercole is the ONLY TRUE RELIABLE WITNESS of the Hudson Affair. Mr. Gathercole is personally credited for crafting the Golf Industry Exception Status that endures to this day. He is also the creator of the signs that are now used for posting after application. His vast knowledge of our long journey with Environmental Issues is UNDENIABLE — hopefully ! Mr. Gathercole is now retired, although his name continues to appear as FOUNDER of Force Of Nature.
