LYING SACKS OF CRAP !

The school system is a bastion of education and enlightenment, a fortress of higher learning where our children can safely discover the facts about the way our world works.

Through this system we have the opportunity to grow and mature into responsible adults, secure in our knowledge of history, science, and mathematics.

Except, of course, for all THE RIDICULOUSLY IRRESPONSIBLE LIES THAT TEACHERS FEED TO STUDENTS.

School Teachers LIE and LIE and LIE !

They NEVER Stop !

America's Founding Fathers Were All Christian ?!?! ---

One of the prevailing LIES taught in history classes is that the Founding Fathers of America were all Christian.

The Declaration Of Independence talks about God.

The Pledge Of Allegiance (which, incidentally, wasn't even created until more than a century later) uses the words « *under God* ».

It all jumbles together into the idea that Washington and crew were Bible-thumping Christian men. [?!?!]

Well, they were NOT.

For starters, Thomas Jefferson and Benjamin Franklin were both believed to be DEISTS, who do not follow the Bible explicitly, but assume there is a « *god* » because nature is so great.

George Washington most likely followed PANTHEISM, which is the belief that nature is god.

John Adams was UNITARIAN, an offshoot of Christianity that believes Jesus was a great guy, but not God's Son.

Alexander Hamilton was a typical Christian — but ONLY LATER IN LIFE, after his son was killed.

America Originally Had Thirteen Colonies ?!?! ---

It's easy to understand why people believe this LIE, but it is a LIE nonetheless.

The American flag has thirteen stars representing the original thirteen colonies — but really there were ONLY TWELVE.

That's because Delaware was NEVER A SEPARATE COLONY.

After the British invaded the region and stole it from the Dutch in the 1660s, the Delaware territory was juggled between Maryland and Pennsylvania.

Eventually it ended up under the ownership of William Penn — the guy who also owned Pennsylvania — and it remained a part of Pennsylvania until the Revolutionary War.

In fact, it wasn't even called Delaware — it was just known as « *The Three Lower Counties* ».

DDT Is Bad For You ?!?! ---

The LIE taught in school — DDT is bad. [?!?!]

For over one-half century, DDT has been used as part of the solution to one of the world's great problems.

What is not being taught in school is the fact that DDT has been responsible for SAVING MILLIONS OF LIVES.

During World War II, when blankets were treated with DDT, not one soldier died of typhus fever.

More soldiers in World War I died from typhus fever than from enemy bullets.

People are NOT harmed by DDT, but they SICKEN and DIE from MALARIA ... which is largely controlled by indoor spraying campaigns using DDT.

Before being banned, DDT prevented 500 million human deaths, due to MALARIA.

In 1970, the U.S. National Academy of Sciences summed up the situation with the following excerpt from their book Life Sciences. —

« *To only a few chemicals does man owe as great a debt as to DDT. [...] In little more than two decades. DDT has prevented 500 million human deaths, due to MALARIA, that otherwise would be inevitable.* »

School Teachers

Liars

In 2004, popular author Michael Crichton summed up the situation with the following excerpt from his book entitled *State Of Fear* —

« Arguably, the greatest tragedy of the Twentieth Century was the removal of DDT. DDT was the best insecticide for the control of mosquitoes. Despite views to the contrary, no other products were as efficient, or as safe. Since the removal of DDT, it has been estimated that thirty to fifty million people have died unnecessarily from the effects of **MALARIA**. Sadly, removing DDT has **KILLED MORE PEOPLE THAN HITLER**. Before the removal of DDT, **MALARIA** had become almost a minor illness, with only fifty thousand deaths per year throughout the world. »

Deoxygenated Blood Is Blue ?!?!

— Which Is Why Your Veins Appear Blue ?

If you look closely at the inside of your wrist, you will probably see a small network of blue veins running up into your hand.

Despite the LIES taught to you in elementary school, that is NOT blue blood running through there.

The LIE is that deoxygenated blood is blue, while blood leaving the heart is red because it's been filled with fresh oxygen.

When you bleed, the blood is immediately red because it's exposed to oxygen in the air. [?!?!]

But if you've ever given blood or had blood taken at the doctor's office, you'll know that it's not some alien blue liquid filling up that sealed tube — it's, well, it's blood.

The reason your veins look blue is a simple trick of the light, and the way your eyes perceive colors.

When light filters through the layers of skin, the low frequency wavelengths (like red) are refracted by pigmentation and thin fat layers, leaving mostly blue light to reflect back to your eyes.

An albino person will usually have red veins because of the lack of pigmentation in their skin.

Diamonds Are Made from Coal ?!?! ---

If you believe the school LIE that diamonds are made from highly compressed coal, don't worry — so does everyone else.

But it is COMPLETELY FALSE.

Diamonds are found in vertical shafts filled with rocks formed by volcanoes, while coal is mainly found among other types of rocks — like limestone and shale.

Coal is almost NEVER found in the same type of environment as diamonds.

Coal is formed near the surface from plant matter, while diamonds are formed in the Earth's mantle — over ninety miles (145 km) closer to the core — and then carried up to the crust during volcanic eruptions.

It's true that diamonds are formed from carbon by intense heat — 2,000 degrees Fahrenheit (1,100 degrees Celsius) — and high pressure, but it's unlikely that the carbon comes from coal.

So while the idea of a lump of coal becoming a beautiful diamond makes a pretty picture, it's still one big spoonful of LIES.

On the other hand, modern science can pretty much turn anything into a diamond in the lab — even the corpse of your recently deceased loved one.

Aww.

Environmental Activists Are Credible ?!?! ---

One of the GREAT LIES taught by teachers is that Anti-Pesticide and Environmental Activists, like David Suzuki, are all credible experts. [?!?!]

In fact, these activists DO NOT KNOW WHAT THEY ARE TALKING ABOUT.

Unfortunately, there are virtually NO activists who are scientists or researchers with credentials in fields like pest control products or the environment.

Activists are NOT CREDIBLE EXPERTS, they are NOT COMPETENT, and they are THE LEAST QUALIFIED TO PROVIDE ANY ADVICE.

They are NOT CREDIBLE and they are NOT EXPERTS.

Activists COMPENSATE for their LACK-OF-CREDIBILITY and INCOMPETENCE by becoming COMPULSIVE LIARS.

Sadly, they have the means to LIE, but have NO REAL FACT TO LIE WITH.

Moreover, Activists have HUGE VESTED INTERESTS IN LYING because THEY ARE PAID TO DO SO.

Moreover, activists will LIE and SAY ANYTHING in order to get their PROFITS.

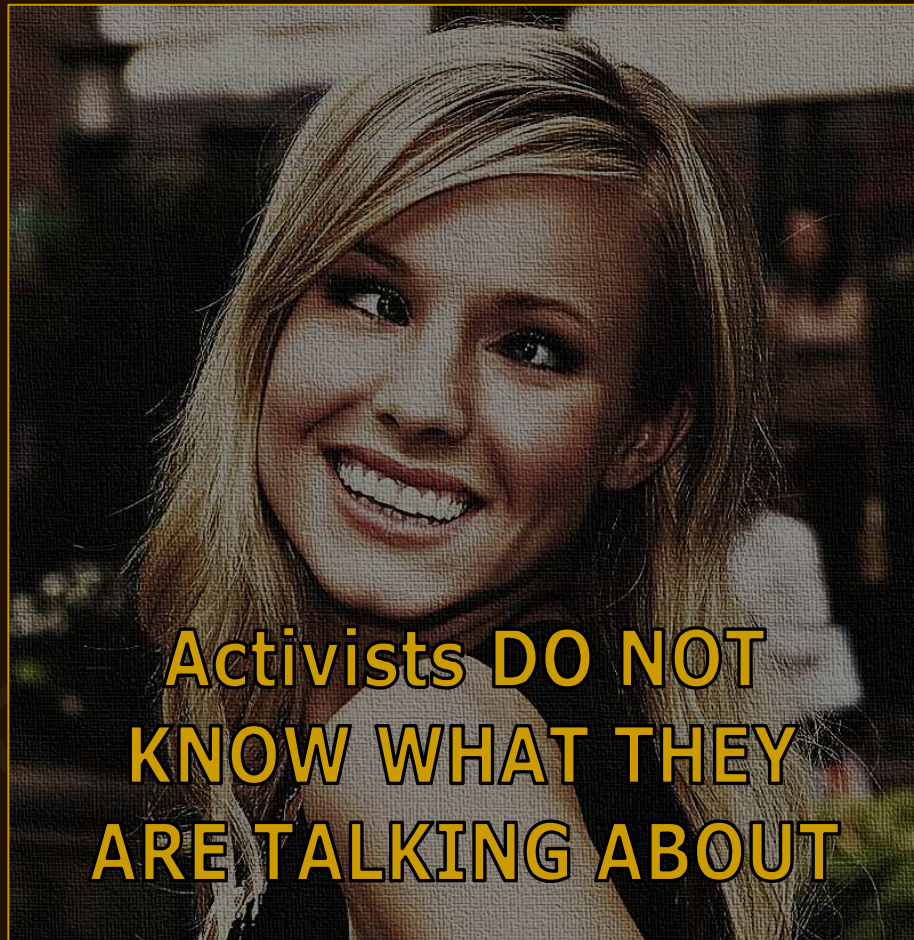

Consequently, several Anti-Pesticide and Environmental Activists are presently UNDER INVESTIGATION FOR CHARITY FRAUD AND CONSPIRACY.

Global Warming Is Real ?!?! ---

One of the GREAT LIES taught by teachers is that Global Warming Is Real.
[?!?!]

Global Warming was a MYTH and a HOAX, and has been DEBUNKED !

Global Warming was The Scam Of Our Lifetime.

The warmists relied upon LIES, FEAR-MONGERING, MISCONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRACIES.

In the glory years of the GLOBAL WARMING HOAX, warmists derived PROFIT from the GRAVY TRAIN of awards, speech fees, and grants.

The warmists' INTELLECTUAL CLAP-TRAP added up to a TOTALITARIAN BELIEF that people who disagreed with them should either be JAILED or KILLED.

The warmists became increasingly desperate as THEIR DREAMS OF GLOBAL DOMINATION FELL APART.

Humans Evolved From Apes ?!?! ---

In this scenario Christians have it right — but not the way they think.

Early classes on evolution usually leave one basic impression — humans evolved from apes.

Go to a zoo, and you can watch your genetic ancestors frolicking and flinging poop at each other.

But that's not the way it happened, and it is a LIE taught in school.

Evolution was a MYTH, and has been DEBUNKED !

After all, evolution works by eliminating the inferior species while the stronger, and better-adapted ones, thrive.

If that had happened, then there wouldn't be any apes left, because we would have out-competed them.

The more likely theory is that humans and the great apes — chimpanzees, gorillas, and orangutans — started with a common ancestor, and then EVOLVED IN SEPARATE DIRECTIONS.

And it's still happening — in the animal kingdom, at least.

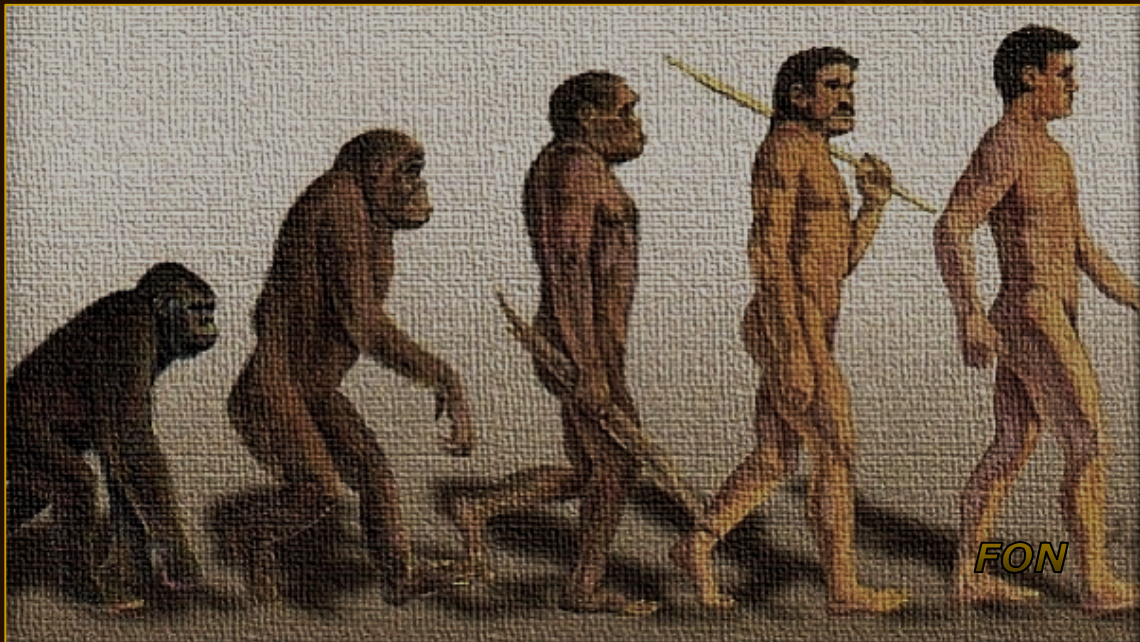

Researchers believe that less than one million years ago, the Eastern and Western Gorillas PARTED EVOLUTIONARY WAYS, and are now DEVELOPING IN DIFFERENT DIRECTIONS.

Lincoln Was Strongly Opposed to Slavery ?!?! ---

Teachers LIE when they place Abraham Lincoln on a pedestal as one of the greatest opponents of slavery for freeing the slaves with his Emancipation Proclamation in 1862.

In fact, he struggled with conflicting and ambiguous views on slavery — not to mention sexuality — during his entire Presidential career.

Lincoln was NOT a stalwart supporter of abolition.

He only wanted to do what would make the Union stronger (remember, this was a time when the Confederate states had split from the Union and were at war).

In Lincoln's own words — « *If I could save the Union, WITHOUT FREEING ANY SLAVE, I would do it, and if I could save it by freeing all the slaves I would do it; and if I could save it by freeing some and leaving others alone I would also do that. What I do about slavery, and the colored race, I do because I believe it helps to save the Union.* »

This is called TALKING OUT OF BOTH SIDES OF YOUR MOUTH.

The Emancipation Proclamation did NOT really touch on racial equality or human rights.

It was a wartime decision ... « *as a fit and necessary military measure. ... All persons held as slaves in the Confederate states will thenceforward ... be free.* »

In other words ... ONLY THE ENEMY'S SLAVES WERE FREED ... Hooray to The Great Emancipator !

Liquid Glass ?!?! ---

The LIE taught in school — old window-panes are thicker at the bottom because glass is a slow-moving liquid. [?!?!]

At some point in time, a historian looked at an ancient window-pane and noticed something unusual — the glass was thicker at the bottom than at the top.

Since there was no other way to account for it, the historian came to the conclusion that glass was an extremely slow moving liquid that settled over the years, resulting in thin, brittle glass at the top that gradually thickened towards the bottom edge of the window-pane. [?!?!]

And then everybody believed him.

The LIE spread until even college professors were teaching it in their classes, since even scientists don't understand science sometimes.

But one researcher recently decided to test the viscosity (rate of flow) of glass, and came to the result that even the most viscous type of glass wouldn't change much before 10^{32} years — about three times the length of the existence of the universe.

Though why we should believe him more than the first scientist is a bit of a mystery — effectively, THEY ARE BOTH MAKING IT UP.

The real reason antique glass windows are bottom-heavy goes back to the way they were made in the Middle Ages.

School Teachers

Liars

Window-makers would blow glass into a large sphere, then flatten it into a disk by spinning it.

The spinning motion caused the edges of the disk to thicken, much like spinning a pizza dough.

And when they cut the disk into windows, THEY PLACED THE THICKER SIDE AT THE BOTTOM FOR STABILITY.

Pesticides Cause Cancer ?!?! ---

Contrary to what teachers LIE about, there are NO pest control products that are known or probable carcinogens.

In fact, pest control products are SCIENTIFICALLY SAFE, CAUSE NO HARM, and DO NOT CAUSE CANCER.

Scientific research shows that, as reported through Environmental Protection Agency's and Health Canada's VAST TOXICOLOGY DATABASES, NO HARM WILL OCCUR, when pest control products are applied properly in the Urban Landscape.

The RISK ASSESSMENT of pest control products indicates that they are PRACTICALLY-NON-TOXIC.

There are NO pest control products that are known or probable carcinogens.

Moreover, Canadian Cancer Society's web-sites STATE REPEATEDLY that scientific research does NOT provide a conclusive link between pest control products and cancer.

There is NOT ONE KNOWN CANCER DEATH from the proper use of pest control products used in the Urban Landscape.

In comparison, there are THOUSANDS OF KNOWN DEATHS per year from KNOWN CANCER-CAUSING SUBSTANCES such as unhealthy diet, physical inactivity, excess body weight, alcohol consumption, and over-exposure to the sun.

Slaves Were Kidnapped By Europeans ?!?! ---

This isn't meant to trivialize slavery, or pardon any of the people who took part in it, or condone it in any way.

But let's face it ... teachers LIE by giving the impression that colonial-era slavery got its start with white people sailing over to Africa, kidnapping hundreds of thousands of people, and bringing them back to Europe and America in chains.

Only parts of that are true.

There were a lot of chains, and many Africans were certainly kidnapped.

But despite the picture painted by many history textbooks, the majority of those slaves were actually sold to Europeans by other African slave traders — slave traders who had been operating on the continent for thousands of years.

Slavery was nothing new to the world — it was actually pretty normal around that time.

In fact, Egyptians were using Caucasian slaves in their armies during the thirteenth century, and even the Bible endorsed the practice !

As far as the Atlantic Slave Trade was concerned, in-country African slaves were typically members of a defeated tribe.

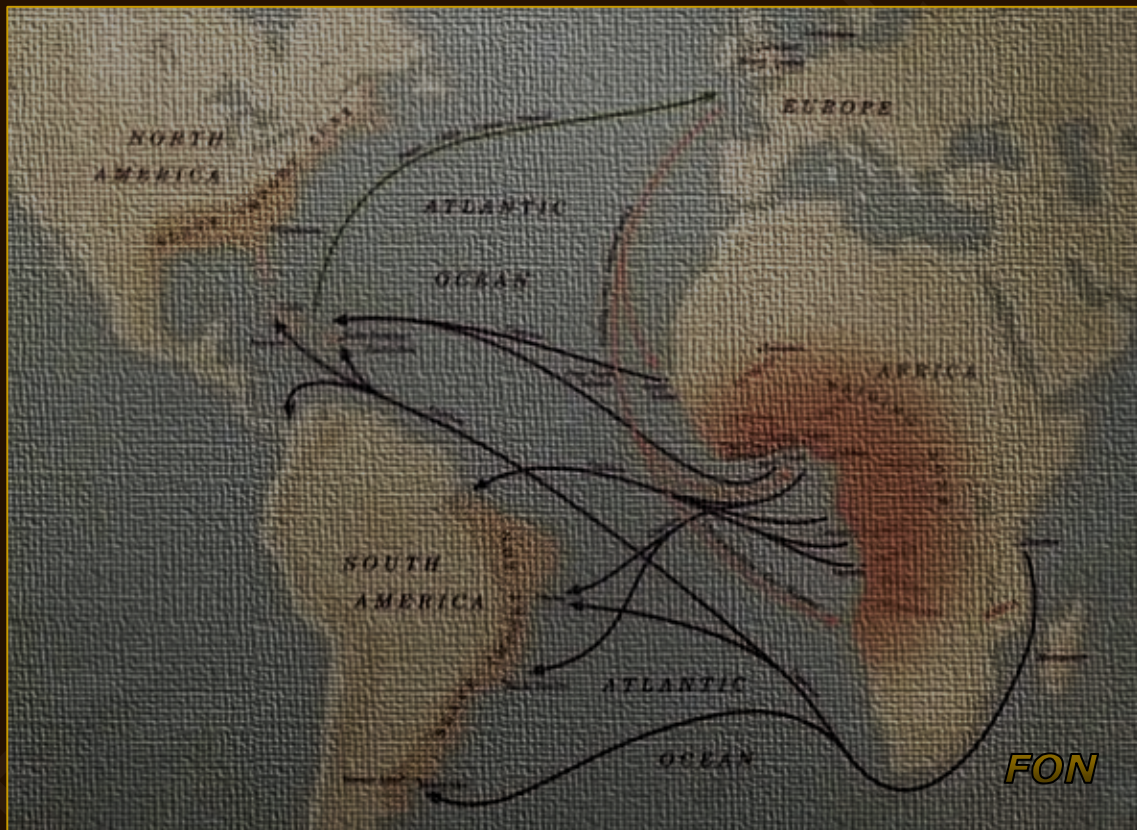

But as soon as slave traders realized that Europeans would pay for their slaves, they actively began kidnapping people just to sell them on the Nigerian coast.

Thanksgiving (All Of It) ?!?! ---

Here are the LIES taught in school about Pilgrims on the Mayflower arriving at Plymouth Rock in 1620.

And, unprepared for the harsh winter, the Pilgrims were saved by the friendly natives, who gave them food and taught them how to plant corn. [?!?!]

And, the following autumn, on their first harvest in the New World, the Pilgrims had a feast to commemorate the hardships they had survived, and Pilgrim and Indian (sorry, Native Americans) joined hands in celebration. [?!?!]

The REAL STORY is a more cruel, murderous, and genocidal.

Three years before the Pilgrims arrived, European fisherman and settlers had INTRODUCED A PLAGUE that had swept through the tribes of coastal New England, and WIPED OUT NEARLY NINETY-SIX PER CENT of the entire population.

There were reportedly so many bodies that settlers would leave the towns rather than deal with them — only to introduce the bug to the next tribe they encountered.

One report from a man named Howard Simpson stated — « *Villages lay in ruins because there was no one to tend them. The ground was strewn with the skulls and the bones of thousands of Indians who had died and none was left to bury them.* »

School Teachers

Liars

There is also evidence that the Pilgrims already knew about the plague, and so chose Cape Cod because they knew that the Indians had already been wiped out, leaving cleared lands and corn fields ripe for the taking.

Even worse, the Pilgrims would steal food and tools from any Indians left alive, who were too weak to fight back.

But the settlers in Virginia were actually eating the Indians, so we guess the Pilgrims weren't that bad by comparison.

Yes, we did say eating them.

Van Gogh Cut Off His Own Ear ?!?! ---

If you ask a teacher to describe Vincent van Gogh, they're more than likely to LIE to you by saying that he cut off his ear and mailed it to his girlfriend.

NONE OF THAT EVER HAPPENED — but the truth is probably even more gruesome.

The new theory on van Gogh's ear is that it was sliced off by his fellow painter, Paul Gauguin, during a fight.

After looking through old records and letters from van Gogh, historian Hans Kaufmann believes that the two painters got into a scuffle, during which van Gogh threw a wine glass at his friend.

Gauguin responded by unsheathing his sword, and sliced off van Gogh's ear.

Gauguin then made up the entire story of van Gogh going mad so that he would not be arrested.

There was obviously a rash of this kind of fighting going around because the homosexual lovers Arthur Rimbaud and Paul Verlaine got into a similar scuffle.

In their case, Rimbaud stabbed Verlaine in the hand with a fork — under the influence of absinthe — and then proceeded to get a rather painful reprimand in the behind, which landed Verlaine in the clink.

FORCE OF NATURE, A LOOK AT, and their various incarnations, was the brainchild of William H. Gathercole and his colleagues in 1991. Mr. Gathercole is now retired, although his name continues to appear as founder.

Here is a brief summary of Mr. Gathercole's career —

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University • University of Guelph • the first person ever to obtain university degrees and contribute to both the professional lawn care and golf maintenance industries

Expertise in — environmental issues and anti pesticide terrorism • turf and ornamental maintenance and troubleshooting • history of the industry • sales and distribution of seeds, chemicals, fertilizers, and equipment • fertilizer manufacturing and distribution

Notable activities — worked in virtually all aspects of the green space industry, including golf, professional lawn care, distribution, environmental compliance, government negotiations, public affairs, and workplace safety • supervisor, consultant, and, programmer for the successful execution of hundreds of thousands of management operations in the golf and urban landscape, as well as millions of pest control applications • advisor, instructor, and trainer for thousands of turf and ornamental managers and technicians • pesticide certification instructor for thousands of industry workers • founder of the modern professional lawn care industry • prolific writer for industry publications and e-newsletters • first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouver / Fraser Valley region • with Dr. Peter Dernoeden, confirmed the presence of Take All Patch as a disease of turf in Eastern Canada • with Dr. David Shetlar, confirmed the presence of Kentucky Bluegrass Scale as an insect pest in South Western Ontario, and later, in the Montreal and Vancouver regions

Special contributions — creator of the exception status that has allowed the golf industry to avoid being subjected to anti pesticide prohibition • creator of the signs that are now used for posting after application • co-founder of annual winter convention for Quebec golf course superintendents • the major influence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated daffodils • the only true reliable witness of the events of anti pesticide prohibition in the town of Hudson, Quebec • retired founder of FORCE OF NATURE and A LOOK AT reports

Notable award — the very first man of the year for contributions leading to the successful founding of Quebec professional lawn care industry, which served as a beach-head against anti pesticide activists in the 1980s and 1990s

Legacy — Mr. Gathercole and his colleagues ... designed and implemented strategies that reined anti pesticide activists to provide peace and prosperity for the entire modern green space industry across Canada • orchestrated legal action against anti pesticide activists in the town of Hudson, Quebec • launched the largest founding professional lawn care business in Canada • quadrupled the business revenues of one of the largest suppliers in Canada

Mr. Gathercole is now retired, although his name continues to appear as founder of FORCE OF NATURE and A LOOK AT reports.
