

A woman with long blonde hair, wearing a white sleeveless dress, is shown from the waist up, looking back over her shoulder. She is positioned on the right side of the frame. The background is a dark, swirling mass of smoke or fire, with some lighter, wispy areas. The overall mood is mysterious and dramatic.

Anti-Pesticide Presentations — Part 3

November 25th, 2011

The Tyee

[Province of British Columbia (BC)]

Selected and adapted excerpts

Since October 6th 2011, Special Committee on Cosmetic Pesticides in British Columbia held MOCK-CONSULTATIONS concerning a proposal to PROHIBIT pest control products in the Urban Landscape.

Here is a sample of what NON-EXPERT Anti-Pesticide BASTERDS told the committee —

British Columbia

Western Canada Conspiracy to Prohibit Pest Control Products

NOVEMBER 17TH, 2011

Pesticide Free British Columbia (PFBC)

According to NON-EXPERT Anti-Pesticide Activist Judy Wigmore —

I became aware of the limitation of the municipal bylaws when advocating for a pesticide-free Kamloops in 2005 and realized that a provincial ban is the only way to protect our vulnerable children, our pets and the environment from exposure to harmful cosmetic pesticides. [?!?!]

Judy Wigmore's SUBVERSIVE activities as an Enviro-Lunatic date back to 2005 at Marion Schilling Elementary School in Kamloops, British Columbia, where she COERCED and TERRORIZED officials concerning SCENTED PRODUCTS.

Wigmore is a retired grade school teacher, and has NO recognized education, training, or experience in matters concerning pest control products — however, she does have a background in SENSELESS FEAR-MONGERING.

Wigmore is PAID-FOR-PROFIT by Canadian Cancer Society.

The role of Pesticide Free BC is to give the public the FALSE and FRAUDULENT IMPRESSION that the Anti-Pesticide Movement has considerable size and power, when in fact, it does not.

Otherwise, Pesticide Free BC is nothing more than a LITTLE ALTERNATIVE LIFE-STYLE CLUB created by bored housewives like Wigmore.

Show Us the Bodies

We say ... SHOW US THE BODIES ... *Nobis Corpus* (Latin).

Anti-Pesticide Activists like Judy Wigmore are UNABLE To Provide Bodies, Bodies, Bodies.

The public must be warned that the issues concerning pest control products are CONTROVERSIAL only because they were CONCOCTED by Anti-Pesticide Activists like Wigmore.

Anti-Pesticide Activists like Wigmore ALLEGE that so-called « *inconvenient studies* » or « *secret evidence* » are somehow withheld by manufacturers from ALL the regulatory agencies in the world.

Unfortunately, Anti-Pesticide Activists are UNABLE to provide bodies, bodies, bodies.

Bodies of REAL evidence.

Bodies of REAL evidence, and NOT JUNK SCIENCE REPORTS that have been DOMESTICALLY AND INTERNATIONALLY REFUTED AND DISCREDITED.

Bodies of REAL evidence, and NOT JUNK SCIENCE REPORTS that have NEVER been made available for independent review.

Bodies of REAL evidence, and NOT JUNK SCIENCE REPORTS intended to DISCREDIT the work of REAL experts, such as Health Canada.

Bodies of REAL evidence, and NOT « *secret evidence* » or DEBUNKED REPORTS.

Bodies of REAL evidence, and NOT « *secret evidence* » from disgruntled former government officials who were terminated from employment and suddenly became anonymous « *whistle-blowers* » with UNVERIFIABLE stories.

Show Us the Bodies (continued)

More specifically, medical records, medical records, medical records.

More specifically, PROOF that studies are being somehow with-held from the ENTIRE WORLD.

Who are, or were, those people ALLEGEDLY harmed by pest control products ?

Where are the medical records ?

Where are the so-called « *inconvenient studies* » ?!?!

Make them available for public review.

We say ... SHOW US THE BODIES.

Anti-Pesticide Activists say that there are so-called issues with pest control products.

Surely they can produce ONE medical record.

Anti-Pesticide Activists MUST STOP using « *mythical growing bodies of research reports* » that DO NOT EXIST.

Anti-Pesticide Activists like Wigmore MUST STOP using « *secret evidence* » and DEBUNKED REPORTS.

Anti-Pesticide Activists like Wigmore MUST STOP using TOTALLY FALSE and UNTRUE MIS-REPRESENTATIONS designed to alarm and enrage the public and enhance their BUSINESS, CASH-FLOW, PROFIT, or CELEBRITY.

Unfortunately, Anti-Pesticide Activists are UNABLE to provide bodies, bodies, bodies.

We are living in the DARK AGE OF ANTI-PESTICIDE TERRORISM where science is trumped by FABRICATION, INNUENDO, and INTERNET RUMOUR.

Western Canada Conspiracy to Prohibit Pest Control Products

OCTOBER 26TH, 2011

Western Canada Turfgrass Association (WCTA)

National Allied Golf Association (a.k.a. Western Canada Turfgrass Association, WCTA) —

But mostly, I would comment, those are the weeds.

Frankly, we [Western Canada Turfgrass Association] don't care too much about the dandelions.

They don't bother too many people.

It is INCONCEIVABLE that the elected leaders and staff of Western Canada Turfgrass Association support the PROHIBITION of pest control products in the Urban Landscape.

This IDIOTIC trade association not only BETRAYED the ENTIRE Green Space Industry, it have also VALIDATED the Anti-Pesticide agenda, which will lead to TOTAL PROHIBITION of pest control products AND even fertilizers ... INCLUDING the Golf Industry.

Western Canada Turfgrass Association has even gone out of its way to SUPPORT Anti-Pesticide PROHIBITION that will IMMINENTLY BE DEVASTATING to the Professional Lawn Care Industry — legal experts have indicated that this is GROUNDS FOR A LAWSUIT, and a consensus is building among members of Professional Lawn Care companies to seek damages with a class-action lawsuit against the elected leaders and staff of Western Canada Turfgrass Association.

IDIOTIC Trade Associations

In Canada, Anti-Pesticide VALIDATION by the Golf and Landscape Industries has reached MALICIOUSLY INEPT and INCONCEIVABLE levels.

The following Canadian trade associations SUPPORT the PROHIBITION of pest control products in the Urban Landscape —

- Canadian Golf Superintendents Association (CGSA)
- Canadian Nursery Landscape Association (CNLA)
- Golf Canada (a.k.a. Royal Canadian Golf Association)
- Landscape Ontario
- Landscape Nova Scotia
- Western Canada Turfgrass Association (WCTA)

These IDIOTIC trade associations not only BETRAYED the ENTIRE Green Space Industry, they have also VALIDATED the Anti-Pesticide agenda that will lead to TOTAL PROHIBITION of pest control products AND even fertilizers ... INCLUDING the Golf Industry and the Nursery Production Industry.

The voices of these trade associations DO NOT speak for the Professional Lawn care Industry !

Because of the attitude of their trade association leaders — an attitude of denial, protectionism, and mock-dismay at any form of criticism — these IDIOTIC trade associations are ignoring the supreme historic opportunity to join forces with the Professional Lawn Care Industry, and LITIGATE against the forces of Anti-Pesticide Terrorism.

Professional Lawn Care Industry

Incredibly, these IDIOTIC trade associations have gone out of their way to SUPPORT Anti-Pesticide PROHIBITION that is IMMINENTLY DEVASTATING to the Professional Lawn Care Industry.

These IDIOTIC trade associations, particularly Golf Canada, have supplied MILLIONS OF DOLLARS to SUBVERSIVE, CONTEMPTIBLE, and RADICAL Anti-Pesticide Organizations like Canadian Cancer Society.

Thanks to IDIOTIC Golf Industry trade associations, Anti-Pesticide Activists have VIRTUALLY LIMITLESS FUNDS to WREAK Anti-Pesticide CARNAGE.

These IDIOTIC trade associations operate like Anti-Pesticide Terrorist-Organizations by TORPEDOING the Professional Lawn Care Industry.

In many Canadian jurisdictions, the Professional Lawn Care has already SUFFERED IMMENSE LOSSES because of Anti-Pesticide PROHIBITION.

Anti-Pesticide PROHIBITION INFLICTED HORRENDOUS CARNAGE on the Professional Lawn Care Industry.

Anti-Pesticide PROHIBITION led to LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT.

The BANNED pest control products were otherwise HEALTH-CANADA-APPROVED, FEDERALLY-LEGAL, SCIENTIFICALLY-SAFE, and PRACTICALLY-NON-TOXIC.

The SPREAD of Anti-Pesticide Terrorism

It is only a matter of time before conventional pest control products WILL BE PROHIBITED from industries like agriculture, forestry, golf, mosquito control, nursery, sod production, and sports fields.

These industries currently use the VERY SAME INGREDIENTS that are used to control damaging weed and insect pests by the Professional Lawn Care Industry.

The SUBVERSIVE CONSPIRACIES of Anti-Pesticide PROHIBITION will NEVER END — and they WILL EVEN SPREAD to the Golf Industry.

NO MORE Golf Exception Status

In many jurisdictions, the Golf Industry has been provided with an Anti-Pesticide PROHIBITION EXCEPTION STATUS, and its use of pest control products HAS NOT BEEN PROHIBITED.

The Golf Industry is on a Collision Course with the LOOMING SHIPWRECK of Anti-Pesticide and even Anti-Fertilizer TERRORISM !

IDIOTIC trade associations like Western Canada Turfgrass Association and Canadian Golf Superintendents Association will soon be RESPONSIBLE for the EXPECTED RESCINDING of the Exception Status the Golf Industry enjoys in several jurisdictions.

The BLACK DEATH and CARNAGE of Anti-Pesticide PROHIBITION will be THEIR FAULT.

NO Prohibition Exception for Golf

In Canada, the leading SUBVERSIVE LUNATIC Non-Expert Anti-Pesticide Terrorist Organizations are DEMANDING ... NO Prohibition Exception for Golf —

- Canadian Cancer Society (CCS)
- Canadian Association of Physicians for the Environment (CAPE)

- Canadian Coalition for Health and Environment (CCHE)
- Canadian Environmental Law Association (CELA)
- David Suzuki Foundation
- Equiterre (Quebec)
- Green Party of Ontario
- New Democratic Party of Ontario (NDP)
- Pesticide Free BC
- Pesticide Free Ontario (PFO)
- Registered Nurses' Association of Ontario (RNAO)
- Sierra Club of Canada

How Will Golf LOSE Its Exception Status

The Golf Industry has 6 MILLION GOLFERS ACROSS CANADA, including 2.3 MILLION GOLFERS IN ONTARIO.

Interestingly, golfers are EXPOSED to the VERY SAME PROHIBITED INGREDIENTS used in Professional Lawn Care maintenance.

The Golf Industry enjoys the benefits from an Anti-Pesticide PROHIBITION EXCEPTION STATUS despite the fact that it uses the VERY SAME INGREDIENTS used in Professional Lawn Care maintenance.

If it is safe to walk and play on a pesticide-treated golf course putting green, it is also safe to walk on a pesticide-treated lawn.

Moreover, Professional Lawn Care maintenance requires LESS PESTICIDE-INPUTS than Golf Course turf.

Moreover, in those jurisdictions that REFUSE TO RESCIND or IMPOSE PROHIBITION, the Professional Lawn Care Industry will no doubt DEMAND THAT ALL EXCEPTIONS TO PROHIBITION BE RESCINDED — including GOLF.

The Golf Industry must plan for the INEVITABLE and TOTAL REVOCATION of its EXCEPTION STATUS in most jurisdictions across Canada, in two to four years.

The Beginning of the End for Golf

The Golf Industry Anti-Pesticide PROHIBITION EXCEPTION STATUS will be first rescinded in the Provinces of Prince Edward Island and British Columbia.

Even in the Province of Prince Edward Island (PEI), the Golf Industry was provided with an Anti-Pesticide PROHIBITION EXCEPTION STATUS, and its use of pest control products WAS NOT PROHIBITED.

In fact, the BEGINNING OF THE END of the Golf Industry EXCEPTION STATUS occurred on December 2nd, 2009, when a Prince Edward Island (PEI) Government Official issued the following WARNING —

We're allowing (2,4-D) on GOLF COURSES because it's a major industry for PEI and we're working towards getting off it.

What we're basically saying is you [THE GOLF INDUSTRY] better find a way to get off it over the next couple of years.

On February 22nd, 2010, a Government Official in the Town of Revelstoke, located in the Province of British Columbia, issued the following WARNING to the Golf Industry —

Give it [PROHIBITION] a time frame for people to comply.

Everybody's going to cry, maybe extend the deadline if it's not working but get it started anyway.

There should be a phase in, especially to help the city-owned REVELSTOKE GOLF CLUB.

The SUBVERSIVE CONSPIRACIES of Anti-Pesticide PROHIBITION will NEVER END — and they WILL SPREAD to the Golf Industry.

The Golf Industry is on a Collision Course with the LOOMING SHIPWRECK of Anti-Pesticide and even Anti-Fertilizer TERRORISM !

The Golf Industry Should Tell Anti-Pesticide Activists to Get OFF Our grASS and Roast In Hell.

NO Prohibition Exception for Agriculture

Anti-Pesticide CONSPIRACIES are being organized AGAINST the Agriculture Industry, which includes Farms and Nurseries.

In particular, Canadian Cancer Society is planning to ANNIHILATE the Agriculture Industry, which includes the Nursery Production Industry.

Consequently ...

- Farms and Nurseries will be BASELESSLY SMEARED
- Farms and Nurseries will be FALSELY ACCUSED
- Farms and Nurseries will be GROTESQUELY PUNISHED
- Farms and Nurseries will be INNOCENTLY CONVICTED
- Farms and Nurseries will be MERCILESSLY TERRORIZED
- Farms and Nurseries will be SHAMELESSLY PERSECUTED, and
- Farms and Nurseries will be WRONGFULLY DEPRIVED.

Here is a 2008 statement from Canadian Cancer Society —

For years, the Canadian Cancer Society has argued in favour of bans on the cosmetic use of pesticides around homes and gardens.

But it has remained silent on the country's biggest use of bug and weed killers — ON FARMS.

Now, the society is considering weighing in on whether THESE SPRAYS POSE A CANCER RISK TO FARMERS, other rural residents near them, and to the wider public from eating foods carrying pesticide residues.

To that end, the society is holding a conference starting today [August 13th, 2008] at which it has assembled experts to advise it on whether cosmetic pesticide restrictions, which now exist in Ontario, Quebec and many municipalities, should be followed by TOUGHER ACTION AGAINST THE USE OF SPRAYS IN AGRICULTURE.

The society doesn't have a view on the related issue of whether organically grown foods are a better option, a topic that will also be discussed.

The conference mentioned in the above excerpt was organized and held by Canadian Cancer Society on August 13th, 2008 in Toronto — it was called EXPLORING THE CONNECTION — A STATE OF THE SCIENCE CONFERENCE ON PESTICIDES AND CANCER.

According to Canadian Cancer Society ...

Experts from around the world will lead discussions on the CANCER RISKS OF PESTICIDES USED ON AGRICULTURAL CROPS, at a ground-breaking conference organized and hosted by the Canadian Cancer Society.

Canadian Cancer Society is planning to ANNIHILATE the Agriculture Industry, which includes the Nursery Production Industry.

We are living in the 9|11 Era of Anti Pesticide Terrorism where at least ONE SUBVERSIVE ACT OF TERROR is Perpetrated EVERY SINGLE DAY by enviro lunatics.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FAKE SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, and INTERNET RUMOUR — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

NORAHG is National Organization Responding Against HUJE that seek to harm the Green Space Industry.

NORAHG represents the VAST SILENT MAJORITY of people in the Green Space Industry who are OPPOSED to PROHIBITION.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization dedicated to reporting the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

Anti Pesticide HUJE are enviro lunatics and lawn haters who particularly DESPISE the golf industry — they are Hateful Underhanded Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS.

There is NO RECOURSE but LITIGATION against these HUJE, as well as CANCELLATION of GOVERNMENT GRANTS and REVOCATION of the TAX EXEMPT STATUS of their organizations. HUJE should Get OFF Our grASS, and they should Roast In Hell.

FORCE OF NATURE, A LOOK AT, and their various incarnations, was the brainchild of William H. Gathercole and his colleagues in 1991. Mr. Gathercole is now retired, although his name continues to appear as founder.

Here is a brief summary of Mr. Gathercole's career —

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University • University of Guelph • the first person ever to obtain university degrees and contribute to both the professional lawn care and golf maintenance industries

Expertise in — environmental issues and anti pesticide terrorism • turf and ornamental maintenance and troubleshooting • history of the industry • sales and distribution of seeds, chemicals, fertilizers, and equipment • fertilizer manufacturing and distribution

Notable activities — worked in virtually all aspects of the green space industry, including golf, professional lawn care, distribution, environmental compliance, government negotiations, public affairs, and workplace safety • supervisor, consultant, and, programmer for the successful execution of hundreds of thousands of management operations in the golf and urban landscape, as well as millions of pest control applications • advisor, instructor, and trainer for thousands of turf and ornamental managers and technicians • pesticide certification instructor for thousands of industry workers • founder of the modern professional lawn care industry • prolific writer for industry publications and e-newsletters • first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouver / Fraser Valley region • with Dr. Peter Dernoeden, confirmed the presence of Take All Patch as a disease of turf in Eastern Canada • with Dr. David Shetlar, confirmed the presence of Kentucky Bluegrass Scale as an insect pest in South Western Ontario, and later, in the Montreal and Vancouver regions

Special contributions — creator of the exception status that has allowed the golf industry to avoid being subjected to anti pesticide prohibition • creator of the signs that are now used for posting after application • co-founder of annual winter convention for Quebec golf course superintendents • the major influence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated daffodils • the only true reliable witness of the events of anti pesticide prohibition in the town of Hudson, Quebec • retired founder of FORCE OF NATURE and A LOOK AT reports

Notable award — the very first man of the year for contributions leading to the successful founding of Quebec professional lawn care industry, which served as a beach-head against anti pesticide activists in the 1980s and 1990s

Legacy — Mr. Gathercole and his colleagues ... designed and implemented strategies that reined anti pesticide activists to provide peace and prosperity for the entire modern green space industry across Canada • orchestrated legal action against anti pesticide activists in the town of Hudson, Quebec • launched the largest founding professional lawn care business in Canada • quadrupled the business revenues of one of the largest suppliers in Canada

Mr. Gathercole is now retired, although his name continues to appear as founder of FORCE OF NATURE and A LOOK AT reports.
