17/08/2009

The Executive Director of **C.A.P.E.** is **GIDEON FORMAN**. He is one of the culprits that can be held accountable regarding the conspiracy to prohibit pest control products.

gideon@cape.ca

In the *PROVINCE OF NEW BRUNSWICK*, **GIDEON FORMAN** and **C.A.P.E.** have become heavily involved on the debate concerning the provincial prohibition. Here are some of **FORMAN**'s comments regarding an *EXCEPTION STATUS* for the *GOLF COURSE INDUSTRY* in New Brunswick. —

Canadian Association of Physicians for the Environment.

The idea for this non-profit group was conceived in Ottawa in 1993, and the group was eventually established in Winnipeg in 1995. The C.A.P.E. headquarters is now in Toronto.

C.A.P.E. is a militant trade organization claiming to be ...

<< *The national voice of physicians on issues of health and the environment.* >>

C.A.P.E. has mandated itself to educating health care professionals and the public in matters of **POLITICIZED SCIENCE** and environmental public policy. Children's environmental health is reportedly its priority issue. C.A.P.E. is potentially a **MULTI-MILLION DOLLAR MONEY-MAKING MACHINE**.

C.A.P.E. currently has more than 4000 members, only half being actually doctors. The cost of a C.A.P.E. membership is one hundred dollars per year. Its operating budget appears to be less than 1,000,000 dollars per year with about a dozen employees.

Part 4.

17/08/2009

<< *One option would be the introduction of a province wide ban on cosmetic pesticides [which was eventually legislated in the province of New Brunswick].*

Golf courses, as well as the agricultural and forestry industries, would likely be excluded from such a ban. [which has since happened]

*Gideon Forman, executive director of the physicians group, argued that **golf courses** should also be included in the ban.*

*Forman said **golf courses** do not qualify as an essential sector for herbicides or pesticides. While acknowledging the economic importance of golf courses, he said it's possible to maintain courses through alternative, non-toxic methods.*

*I think we recognize that **golf courses** have some special challenges, so they may need some extra time perhaps, but we would like to see them included in the ban, he said. >>*

FEBRUARY 18TH, 2009

Telegraph-Journal

The Looming Golf Industry Shipwreck.

Part 4.

17/08/2009

The leading *ENVIRONMENTAL TERROR ORGANIZATIONS*, the ones that are already conspiring to impose prohibitionist policies on the *PROFESSIONAL LAWN CARE INDUSTRY* in every Province across Canada, have publicly stated, in one form or another, that they *DO NOT WANT ANY PROHIBITION EXCEPTIONS* pertaining to pest control products for the *GOLF INDUSTRY*.

The *TEN* following organizations have publicly stated, in one form or another, that they *DO NOT WANT ANY PROHIBITION EXCEPTIONS* pertaining to pest control products for the *GOLF INDUSTRY*. As we speak, they are aggressively lobbying government legislators, demanding that any exception status be rescinded or avoided. —

- *CANADIAN ASSOCIATION OF PHYSICIANS FOR THE ENVIRONMENT (C.A.P.E.).*
- *CANADIAN CANCER SOCIETY (C.C.S.).*
- *CANADIAN COALITION FOR HEALTH AND ENVIRONMENT (C.C.H.E.).*
- *CANADIAN ENVIRONMENTAL LAW ASSOCIATION (C.E.L.A.).*
- *DAVID SUZUKI FOUNDATION.*
- *GREEN PARTY OF ONTARIO.*
- *NEW DEMOCRATIC PARTY OF ONTARIO (N.D.P.).*
- *PESTICIDE FREE ONTARIO (P.F.O.).*
- *REGISTERED NURSES' ASSOCIATION OF ONTARIO (R.N.A.O.).*
- *SIERRA CLUB OF CANADA.*

The Modern Golf Industry Is under direct threat of ANNIHILATION !

<< *Golf courses are often also as unnaturally pumped-up as a steroid-addled East-German shot-putter.* >>

— The official position of the rabid U.S. *SIERRA CLUB* in **2007.**

Despite the golf course exception status in Ontario and Quebec, Force of Nature will nevertheless repeat its warning to the Golf Industry.

The Golf Industry should not feel too smug about its exception from either the Ontario or the Quebec prohibition. Government conditions will be attached to this exception, and these conditions will soon grow exponentially and become increasingly unreasonable. The exception status will very likely be entirely withdrawn within three to five years. The only long-term hope for the Golf Industry is a strong coalition with the rest of the Green Space Industry that utterly opposes Enviro-Maniacs and their political allies.

Enviro-Maniacs, also known as environmentalists or activists, are represented by several Environmental Terror Groups that have adopted uncontrollable and sadistic tendencies to harm and terrorize the people of the Green Space Industry by imposing crazed and maniacal environmental social policies, such as prohibiting legal, safe, and totally irreplaceable pest control products.

Part 4.

17/08/2009

Regardless of its exception status, the *GOLF INDUSTRY* faces some huge challenges because of its high degree of *VULNERABILITY* concerning several public affairs issues. *FORCE OF NATURE* has extensively reviewed these issues, and has concluded that, in order to successfully deter the malicious efforts of all *ENVIRONMENTAL TERROR GROUPS*, the *GOLF INDUSTRY* must *IMMEDIATELY* address the following *FIFTEEN* critical issues. —

1. The *GOLF INDUSTRY* must cease focusing on the ineffectual *I.P.M.* as the solution to its public affairs problems.
2. The *GOLF INDUSTRY* must clearly provide scientific facts that explain why its chemicals are definitely minimum-risk.
3. The *GOLF INDUSTRY* must denounce the green alternatives to pest control, the so-called biological-natural-organic methods, as almost ineffective and non-existent.
4. The *GOLF INDUSTRY* must develop a fully transparent and publicly accessible database for right-to-know information concerning its chemicals.
5. The *GOLF INDUSTRY* must directly and actively support litigation launched against the Ontario prohibition of pest control products, and cease being a mere casual observer.
6. The *GOLF INDUSTRY* must embark on a massive public relations campaign to stop the proposed scheme by environmental groups and National Democratic Party of Canada for a national prohibition of pest control products.
7. The *GOLF INDUSTRY* must explain why some of its chemicals are prohibited by other nations, but not in Canada, and cease the *WAG THE DOG* policies on irrelevant issues such as saving quintozene.
8. The *GOLF INDUSTRY* must review and justify its current and extensive array of chemicals.
9. The *GOLF INDUSTRY* must plan for the inevitable loss of its exception status in Ontario and Quebec in three to five years.
10. The *GOLF INDUSTRY* must provide the public with scientific information supporting the idea that its innovative management practices may reduce the use of pest control products.
11. The *GOLF INDUSTRY* must publish golf maintenance protocols and the performance standards expected by its playing customers.
12. The *GOLF INDUSTRY* must scientifically define and publically discredit the misleading term *ORGANIC GOLF COURSE*, and establish policies for expelling clubs using this term from its trade associations.
13. The *GOLF INDUSTRY* must strongly address and discredit the misconceptions concerning imidacloprid, chlorothalonil, 2,4-D, and other chemicals.
14. The *GOLF INDUSTRY* must terminate all relationships with environmental groups like Canadian Cancer Society, World Wildlife Fund, and others, and suspend all related charitable tournaments that provide financial donations and support to these groups.
15. The *GOLF INDUSTRY* must openly and financially support all political candidates that oppose any prohibition legislation.

Part 4.

17/08/2009

FORCE OF NATURE was launched for continuous transmission on the Internet on January 1st, 2009. It is a series of e-newsletters destined for the GREEN SPACE INDUSTRY, the ENVIRONMENTAL TERROR MOVEMENT, politicians, municipalities, and the media, nation-wide across Canada, and parts of the United States. FORCE OF NATURE is produced in two parts. First, THE MEDIA REPORT itself that reports on the current events affecting the future of the GREEN SPACE INDUSTRY. Second, INDEPENDENT PERSPECTIVE, which is a running commentary, sometimes also of a more technical nature.

FORCE OF NATURE is the brainchild of William H. Gathercole and his entourage. The opinions expressed in these e-newsletters, even though from an INDEPENDENT PERSPECTIVE, may not reflect those of everyone in the GREEN SPACE INDUSTRY, or Mr. Gathercole's many associates. Be warned! Mr. Gathercole and his team may sometimes be very irreverent and fearless with these e-newsletters.

William H. Gathercole holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from MC GILL UNIVERSITY. He has worked in virtually all aspects of the GREEN SPACE INDUSTRY, including public affairs, personal safety, and environmental issues. Mr. Gathercole has been a consultant and instructor for decades. Mr. Gathercole has been following the evolution of ENVIRONMENTAL TERRORISM for over a quarter-century. His involvement in environmental issues reached a fevered pitch in the 1990s, when he orchestrated, with others, legal action against unethical and excessive municipal regulations restricting the use of pest control products. (i.e. the Town of Hudson.) Although he can be accused of being ANTI-ENVIRONMENT-MOVEMENT, he is, in fact, simply a strong advocate for the GREEN SPACE INDUSTRY. However, this position has not precluded him from criticizing the industry itself. Nonetheless, his vast knowledge of our long journey with environmental issues is UNDENIABLE. (Hopefully!) For many years, Mr. Gathercole has been a contributing columnist for TURF&RECREATION Magazine, Canada's Turf and Grounds Maintenance Authority.

All pictures contained in FORCE OF NATURE were found somewhere on the Internet. We believe that they are in the public domain, as either educational tools, industry archives, promotional stills, publicity photos, or press media stock.

Information presented in FORCE OF NATURE has been developed for the education and entertainment of the reader. The events, characters, companies, and organizations, depicted in this document are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental.
