force of nature

Remembrance Day

On Remembrance Day, we pay tribute to the many heroes who have made the ultimate sacrifice so that we may live in a country free from tyranny and governed by freedom, democracy, and justice.

We stand in silent reflection for those brave men and women throughout history who, when called upon to defend the values we hold dear, did not waver.

Instead, they left family and loved ones for far away battlefields from which many would never return.

From the battle of Vimy Ridge, to the beaches of Normandy, to the dusty roads of Afghanistan, these brave men and women put their countrys' welfare before their own, and we owe them and their families a debt of gratitude that can never be repaid.

As we know all too well, the tolls of war have been felt from generation to generation.

Our society's long and proud tradition of standing up for those who couldn't is forever imbedded in our fabric.

Lest We Forget Our TRUE Heroes.

Heroes

Who Have Spoken Out Against Terror Enviro

DiGIOVANNI, Tony, is Executive Director of Landscape Ontario Trade Association. In Letters to the Editor across Ontario, DiGiovanni has personally spoken out against the prohibition of pest control products on a very frequent basis. Unfortunately, DiGiovanni appears to be a lone voice among other leaders who operate Landscape Ontario.

DRYSDALE, Art C., is one of Canada's best-known horticulturists. For the past four decades he has been writing, and presenting radio and television broadcasts, with practical garden hints. On his radio show, and in his i-Can-Garden blog, Drysdale is an outspoken critic of the prohibition of pest control products.

HEPWORTH, Lorne, is President of CropLife Canada. In Letters to the Editor across Canada, Hepworth has personally spoken out against activists and prohibitions on a very frequent basis. Unfortunately, Hepworth appears to be a lone voice among those manufacturers who are refusing to get more directly involved to fight the prohibition conspiracy, except, of course, for Dow AgroSciences.

HOLLAND, John J., is Communications Director for Integrated Environmental Plant Management Association of Western Canada Trade Association. He an eloquent and intelligent writer on the subject of public policy and pest control products.

Heroes

Who Have Spoken Out Against ^{Enviro}Terror

LOWES, Jeffrey P., is Director of Government and Industrial Relations for M-REP Communications. M-REP Communications represents lawn and tree-care companies in Ontario, Manitoba, Saskatchewan, Alberta, and British Columbia. M-REP Communications has embarked on engaging the Federal levels of government that regulate or use the services of the lawn and tree-care industries and working with their provincial counter parts.

SOLOMON, Professor Keith R., Ph.D., is a Professor in the Department of Environmental Biology at the University of Guelph, and is also Director of the Centre for Toxicology. He has more than thirty years of experience in research and teaching in pesticide science and environmental toxicology. In Letters to the Editor across Ontario, both Professor Solomon and his wife Sandra have personally spoken out against activists on a frequent basis.

Despite the shortcomings of its trade associations, the Golf Industry can boast having had strong and impressive public affairs Heroes, such as those listed below —

- Jarrod Barakett — Ontario Golf Superintendents Association (OGSA)
- Bob Burrows — Canadian Golf Superintendents Association (CGSA)
- Teri Yamada — Royal Canadian Golf Association (RCGA)

Several Heroes from the Professional Lawn Care Industry have also spoken out against prohibition-terrorism, such as those listed below —

- Gerry Okimi — Turf King — Ontario
- Grace Edwards — Salmon Arm Property Maintenance Ltd. — British Columbia
- Henry Van Der Molen — Supergreen Lawn and Tree Care — British Columbia
- Paul Visentin — Kootenay Lawn Doctor Inc. — British Columbia
- Ron Pattermann — Orchardist — British Columbia
- Trevor Ely — Elements Lawn Maintenance — British Columbia

Those who have FAILED the Green Space Industry

Several trade associations have FAILED the Green Space Industry.

The POLICIES of these associations have even SUPPORTED the prohibition of pest control products, or have DONE NOTHING to fight prohibition-terror-ism.

A grade of FAILURE must be assigned to the following trade associations —

- x FAILURE — Canadian Golf Superintendents Association (CGSA)
- x FAILURE — CropLife Canada
- x FAILURE — Golf Canada (formerly Royal Canadian Golf Association, RCGA)
- x FAILURE — International Society of Arboriculture (ISA)
- x FAILURE — LandsCAPE Ontario (LO)
- x FAILURE — Urban Pest Management Council

Landscape Ontario

The leadership and staff of LandsCAPE Ontario endorse the PROHIBITION of pest control products and support the policies of Environmental-Terror-Organizations.

It has decided to BOW TO THE CATACLYSM OF PROHIBITION —

<< There is a great deal of concern about future viability. Our role is to assist in the transition [towards the prohibition of pest control products]. >>

CropLife Canada

CropLife Canada, the group that represents the manufacturing sector, has preferred to make WISHY-WASHY and NON-COMMITTAL STATEMENTS —

<< We support a focus on eliminating the improper or unnecessary use of pesticides. >>

Those who have FAILED the Green Space Industry

Canadian Golf Superintendents Association

The leadership and staff of Canadian Golf Superintendents Association endorse the PROHIBITION of pest control products and support the policies of Environmental-Terror-Organizations.

<< Associations like the Canadian Golf Superintendents Association [...] applauded McGuinty and the governing Liberals for making this announcement [regarding prohibition in Ontario]. A reason for the golf industry's support of this provincial initiative stems from the fact we will be exempted. >>

Instead of speaking out against prohibition-terrorism, Canadian Golf Superintendents Association leaders and staff decided to simply Wag The Dog by generating pointless policy papers, and by addressing irrelevant issues such as « *saving* » quintozene fungicide.

Quintozene is a product that is plagued with HEALTH and ENVIRONMENTAL ISSUES, and that is CONTAMINATED with controversial DIOXINS.

Golf Canada

The Loathsome and Ridiculous Golf Canada is supplying millions of dollars to Canadian-Cancer-Society, a Environmental-Terror-Organization that CONSPIRES TO ANNIHILATE the entire Modern Green Space Industry with the NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION of pest control products that are FEDERALLY LEGAL, SCIENTIFICALLY SAFE, and TOTALLY IRREPLACEABLE.

Canadian-Cancer-Society has TERRORIZED the Professional Lawn Care Industry ... and Canadian-Cancer-Society plans to TERRORIZE the Golf Industry NEXT !

Golf Canada must immediately STOP ALL FINANCIAL SUPPORT of Canadian-Cancer-Society.

We are living in the 9/11 Era of Environmental Terror !

It is INCONCEIVABLE
that the elected leaders and staff of
some Trade Associations

support the prohibition
of pest control products

support the failed
Integrated Pest Management

support the annihilation of
the Professional Lawn Care Industry

support the policies of
environmental-terror-organizations

Future generations will ask — Why ?

The 2009-2010 leaders of LandsCAPE Ontario Association who supported Prohibition, BOGUS Green Alternatives, and the Demise of the Modern Professional Lawn Care Industry

Future generations will ask the question — Why ?

The group of decision-makers within LandsCAPE Ontario that allegedly represent the interests of the Professional Lawn Care Industry is called the Lawncare [sic] Commodity Group.

One-third of the Lawncare Commodity Group originated from four business groups — Doctor Green, Nutri-Lawn, Weed Man, Wright.

One-quarter of the Lawncare Commodity Group board members originated, DIRECTLY OR INDIRECTLY, from business interests in the BOGUS and failed Green Alternative Sarritor — Weed Man, Doctor Green.

One-seventh of the Lawncare Commodity Group originated from direct business interests (investors) in the BOGUS and failed Green Alternative Sarritor — Gaspar (Weed Man), Van Haastreht (Doctor Green).

One-tenth of the Lawncare Commodity Group board members originated from the SAME family — Van Haastreht (Doctor Green).

According to observers, the LandsCAPE Ontario Lawncare Commodity Group may have not necessarily represented the interests of the MAJORITY of the Professional Lawn Care Industry in Ontario.

**What have YOU done in the war against
ENVIRONMENTAL TERROR ?!?!?!**

N

Force Of Nature presents THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from National Organization Responding Against HUJE that seek to harm the Green Space Industry (NORAHG). It is a series of Reports destined for the Green Space Industry, the Environmental Terror Movement, Governments, and the Media, nationwide across Canada, the United States, and overseas. The information presented in Force Of Nature has been developed for the education and entertainment of the reader by providing a sequence of historical events WITH COMMENTARY. The neutrality of these Reports might be disputed. Don't thank us. It's a public service. And we are glad to do it.

O

HUJE are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each Enviro Maniac Culprit is a misguided adversary, each still deserves our respect. The use of the terms Maniac, Culprit, Terrorist, or Basterd are not accusations of any legal wrong doing. Force Of Nature is simply holding Enviro Maniac Activists accountable for conspiring to change public policies that TERRORIZE, HARM, and THREATEN the Green Space Industry.

HUJE is a term used to describe Enviro Maniac Activists that routinely concoct FEAR MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRACIES that are DESIGNED to SCAM and DECEIVE the public into believing there is some IMAGINARY DANGER with conventional pest control products. HUJE also SCAM and DECEIVE Government Officials into the NEEDLESS, SENSELESS, and MALICIOUS CONSPIRACY to PROHIBIT conventional pest control products that are FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE.

HUJE have created LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, inflicting DESPAIR and DESTITUTION for THOUSANDS of hapless victims throughout the Green Space Industry. The DEPRAVED INDIFFERENCE of Maniac Culprit Terrorist Basterd HUJE is viewed as a form of TERROR, HARM, and THREAT against the Green Space Industry.

R

This Report provides NO guarantee regarding accuracy or completeness. In no event shall Force Of Nature be liable for any incidental or consequential damages, lost profits, or any indirect damages. Force Of Nature is TOTALLY INDEPENDENT of any trade association or business operating within the Green Space Industry. The events, characters, companies, and organizations, depicted in this Report are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental. All information, excerpts, and pictures contained in this Report were found somewhere on the Internet, and may be considered in the public domain, serving one of the following purposes — archive, education, promotion, publicity, or press release.

Force Of Nature, and its various incarnations, is the brainchild of William H. Gathercole and his colleagues. Mr. Gathercole is a principal FOUNDER of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from MCGILL UNIVERSITY. He has worked in virtually all aspects of the Green Space Industry, including GOLF, PROFESSIONAL LAWN CARE, and CHEMICAL INDUSTRY, and has served in environmental compliance, government negotiations, public affairs, and workplace safety. Mr. Gathercole has supervised, consulted, programmed, and/or overseen the successful and safe execution of HUNDREDS OF THOUSANDS of pest control applications in the urban landscape. He has trained, instructed, and consulted with THOUSANDS of turf managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority.

A

Mr. Gathercole and his colleagues have followed the evolution of ENVIRONMENTAL TERRORISM for over a quarter century. For FIFTEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of the VERMIN OF ENVIRONMENTAL TERROR for the entire Modern Green Space Industry across Canada. Their involvement in Environmental Issues reached a fevered pitch in the 1990s, when he orchestrated, with his colleagues, legal action against the Forces of Environmental Evil in the Town of Hudson, Quebec.

Today, Mr. Gathercole is the ONLY TRUE RELIABLE WITNESS of the Hudson Affair. Mr. Gathercole is personally credited for crafting the Golf Industry Exception Status that endures to this day. He is also the creator of the signs that are now used for posting after application. His vast knowledge of our long journey with Environmental Issues is UNDENIABLE — hopefully! Mr. Gathercole is now retired, although his name continues to appear as FOUNDER of Force Of Nature.
