- Canadian-Cancer-Society DOES NOT PUT HEALTH AND ENVIRONMENT FIRST !

Pest control products are one of the PRIMARY TOOLS OF HEALTH AND PROSPERITY in the era of the 20th and 21st Century

*The majority of donations to
Canadian-Cancer-Society are
NOT USED FOR CANCER RESEARCH*

I have read with interest the comments regarding the City of Kamloops and the Canadian-Cancer-Society getting together in a ban on the use of « cosmetic » pesticides.

We can be assured that as long as a ban is implemented that informed members of the scientific and medical community were not part of the conversation.

It needs to be pointed out that the American version of this organization does not support the context that pesticides are the cause of cancers, rather tobacco, alcohol, and obesity.

If Canadian-Cancer-Society of British Columbia were to devote the same level of energy to the primary causes of cancer, that being life-style, rather than fund-raising, lives could certainly be saved.

Remember this is an organization where THE MAJORITY OF FUNDS DO NOT GO INTO RESEARCH.

The majority of funds goes to supporting the offices and wages of its employees and lobbyists.

THE PRIMARY REASON FOR ITS EXISTENCE DOES NOT SEEM TO BE THE HEALTH of British Columbians.

Canadian-Cancer-Society DOES NOT PUT HEALTH AND ENVIRONMENT FIRST !

Unfortunately for the public, who have little time or resources to investigate such an issue, the tactic of claiming that our children's exposure to a possible death through something that is benign but unseen has far more cash value.

Pest control products are one of the PRIMARY TOOLS OF HEALTH AND PROSPERITY in the era of the 20th and 21st Century

*ALLEGATIONS from Canadian-Cancer-Society
about the IMAGINARY DANGER of
pest control products are TOTALLY FALSE,
and are UNTRUE MIS-REPRESENTATIONS
designed to alarm and enrage the public and
enhance its BUSINESS, CASH-FLOW and PROFIT*

Statements have been made by Canadian-Cancer-Society ALLEGING that « research has linked pesticide exposure with and increased risk of both childhood and adult cancers – these include childhood and adult leukemia, non-Hodgkin's lymphoma prostrate, brain and lung cancers » and « studies show that children may be at a higher risk due to their rapidly developing bodies ».

These statements, as they apply to the pest control products used in Canada today, are FALSE AND UNTRUE MIS-REPRESENTATIONS, designed to enrage the public and enhance the CASH-FLOW and PROFIT of their business.

Yes, business.

THE PRIMARY REASON FOR THE EXISTENCE of Canadian-Cancer-Society is BUSINESS, CASH-FLOW, and PROFIT.

ONLY 22 PER CENT OF ALL THE MONEY RAISED BY CANADIAN-CANCER-SOCIETY GOES TO RESEARCH.

The remaining 78 per cent of the funds are SQUANDERED AND MISAPPROPRIATED to finance QUESTIONABLE CAMPAIGNS such as the CONSPIRACY to PROHIBIT pest control products in the Urban Landscape.

The Wisdom of a REAL Expert

*Pest control products are one of the
PRIMARY TOOLS OF HEALTH AND PROSPERITY
in the era of the 20th and 21st Century*

The Canadian-Cancer-Society CONSPIRACY to PROHIBIT pest control products merely designed to increase its BUSINESS, CASH-FLOW, and PROFIT.

It is time that we as the public demand from such people an accounting of their ALLEGATIONS — Canadian-Cancer-Society should name the pest control products registered in Canada for use in lawns, parks, and back yards, that it ALLEGES are so-called carcinogens.

In fact, PROHIBITION IS UNECESSARY since pest control products are carefully regulated by Health Canada to PREVENT ADVERSE EFFECTS on Canadians' health or their environment.

Pest control products are one of the PRIMARY TOOLS OF HEALTH AND PROSPERITY in the era of the 20th and 21st Century.
