LETTER TO THE EDITOR — MEDIA RELEASE

RESPONSE TO CANADIAN CANCER SOCIETY

PROVINCE OF BRITISH COLUMBIA

Outrage Over Money That Could Help the Sick

Health Care Observers have expressed outrage over the misuse of donation money by Canadian Cancer Society.

The society's 8-week anti-pesticide advertising campaign in newspapers across British Columbia will cost an estimated \$250,000.

In total, Canadian Cancer Society has spent between \$2,500,000 to \$5,000,000 on this campaign.

Canadian Cancer Society claims it fundraises for only one reason — to raise critical funds for its mission of eradicating cancer and improving the quality of life for those living with it.

Health Care Observers are concerned that the society is not living up to its mission, and the campaign money could have otherwise been used to save lives, prevent cancer, and help those who are living with the disease.

A province-wide pesticide ban is not supported by health and policy experts, and is not supported by local residents.

According to Dr. Len Ritter, the nation's leading expert in the field of toxicology and pesticide safety, pesticides do not cause cancer, and there is no increase in cancer deaths in Canada when you consider that the population is aging and increasing.

The Fraser Institute, one of the top 25 leading think-tanks in the world, has said that the proposed BC ban is ill-conceived, and does not accurately reflect the current state of scientific knowledge.

NORAHG

A recent poll conducted by Canadian Consumer Specialty Products Association showed that the vast majority of BC residents are opposed to a pesticide ban, and they actually favour the continued use of these products around their homes and in public green spaces.

Scientific research shows, as reported through Health Canada's vast toxicology database, that no harm will occur when pesticides are used according to label directions.

Children across Canada, even in those jurisdictions with no pesticide bans, are all protected since these products are applied at very low doses and represent no threat to children.

The safety assessment of pesticides by the Pest Management Regulatory Agency of Health Canada (PMRA) takes into consideration children's physiology, behaviours, and habits while playing on treated grass.

According to Dr. Ritter, Health Canada is a good system that is very thorough before it approves any pesticides.

"There are lots of UNQUALIFIED people out there trying to undermine the efforts of the PMRA," said Dr. Ritter.

NORAHG is the National Organization Responding Against HUJE that seek to harm the Green space industry.

NORAHG

WILLIAM H. GATHERCOLE AND NORAH G

NORAHG is the National Organization Responding Against HUJE that seek to harm the Green space industry.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OPPOSED to Anti Pesticide PROHIBITION and the CLOSURE or ABANDONMENT of green spaces under the RIDICULOUS PRETEXT of somehow « saving » the environment.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

NORAHG was the brainchild of William H. Gathercole and his colleagues in 1991. Mr. Gathercole is now retired, although his name continues to appear as founder.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, and INTERNET RUMOUR — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

HUJE are enviro-lunatics, anti-pesticide activists, and lawn-haters, who particularly DESPISE the golf industry.

There is NO RECOURSE but LITIGATION against these HUJE.

Another RECOURSE is to SEEK the CANCELLATION of GOVERNMENT GRANTS and REVOCATION of the TAX EXEMPT STATUS of their organizations.

HUJE should Get OFF Our grASS, and they should Roast In Hell.

NORAHG manages the Library Force Of Nature Reports and References, which is a VAST ARCHIVE of DOCUMENTS, AUDIO CLIPS, and VIDEOS on ALL Anti Pesticide Terrorist Acts of Subversion.

The purpose of this ARCHIVE is to provide information that will lead to a SUCCESSFUL LITIGATION against Anti-Pesticide Vermin.

All names, statements, activities, and affiliations have been ARCHIVED for the intention of eventual CRIMINAL CHARGES.

When CRIMINAL CHARGES for FRAUD and CONSPIRACY are laid, legal experts say that there is sufficient information to lead to a SUCCESSFUL PROSECUTION !
