

FORCE OF NATURE | THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from  
National Organization Responding Against HUIE that seek to harm the Green Space Industry (NORAHG)

## Overview from an Independent Perspective

Newfoundland ( and Labrador ) is a province of Canada on the country's Atlantic coast.

This eastern-most Canadian province is comprised of two main regions – the island of Newfoundland off the country's eastern coast, and Labrador on the mainland to the north-west of the island.

The province is often referred to by the abbreviation « NL ».

The population is greater than 500,000, and the capital city is Saint John's.

In 2011, Newfoundland and Labrador ARBITRARILY IMPOSED the NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION against pest control products used by the Modern Professional Lawn Care Industry.

This Canadian Province operates like Hitler's Nazi Germany, which includes a LUNATIC-INFORMANT-SERVICE and a small army of Anti-Pesticide Lunatics.

If these lunatics wore Swastikas, and lived in the 1930s and 1940s, they would be leading the Third Reich.

Just like the Nazis, Anti-Pesticide Lunatics receive guidance and instruction from the SUBVERSIVE and LUNATIC MASTER RACE, like Canadian Cancer Society and Coalition For Alternatives To Pesticides.

Hitler claimed that Jews were enemies of the Aryan race, and ARBITRARILY and FALSELY held them responsible for problems in Europe.

Similarly, these Anti-Pesticide Lunatics ARBITRARILY and FALSELY hold pest control products responsible for IMAGINARY PROBLEMS, despite the fact that they are HEALTH-CANADA-APPROVED and SCIENTIFICALLY-SAFE.

Just like the Nazis, these Anti-Pesticide Lunatics operate with INFORMANTS.

Anti-Pesticide  
Terrorism  
NEVER Ends — ●

Through a LUNATIC-INFORMANT-SERVICE called THE PESTICIDE SPRAY ADVISORY.

These Anti-Pesticide Lunatics are using SOCIAL ENGINEERING ( i.e. Nazi Eugenics ) to IMPOSE LIFE-STYLE CHOICES, such as the PROHIBITION of pest control products in the Urban Landscape.

These Anti-Pesticide Terrorists CLAIM TO BE PROTECTING the CHILDREN and the ENVIRONMENT, when, in fact, they are not.

These lunatics TERRORIZE Modern Professional Lawn Care businesses.

## Overview from an Independent Perspective ( continued )

### Despicable and Politicized Decision-Making

---

In early August 2012, the issue of pest control products became news over Tordon 101, a herbicide used along provincial highways to control vegetation in areas where brush cutting has taken place to improve visibility and reduce moose-vehicle collisions.

Tordon 101 contains the active ingredient 2,4-D ( 2,4-dichlorophenoxyacetic acid ), one of five pest control products PROHIBITED from being used in the Urban Landscape.

Exceptions were made for what Government Officials called non-cosmetic use, including golf courses, agriculture and forestry use, and road and infra-structure maintenance.

The government allowed these industries to use pest control products only if applicators have WRITTEN AND PASSED AN EXAMINATION.

In essence, these industries are NO DIFFERENT than Professional Lawn Care businesses.

Basically, Newfoundland's PROHIBITION POLICY FAVOURS COMMERCIAL/INDUSTRIAL APPLICATORS, but DISCRIMINATES AGAINST RESIDENTIAL APPLICATORS WHO USE THE SAME INGREDIENTS.

Newfoundland is DESPICABLE IN ITS OBVIOUS OBJECTIVE OF DESTROYING THE PROFESSIONAL LAWN CARE INDUSTRY BECAUSE OF ARBITRARY AND POLITICAL DECISION-MAKING BASED UPON POLICIZED SCIENCE.

According to Boyd Loveless, of Landscape Newfoundland & Labrador Trade Association, the decision to implement PROHIBITION was POLITICAL –

*We've got local politicians, provincial politicians, making decisions based on what – political science or real science ?*

On August 8<sup>th</sup>, 2012, Tom Hedderson, the Anti-Pesticide Transportation and Works Minister, said that PROHIBITION WAS NOT IMPLEMENTED IN 2012 FOR HEALTH REASONS.

Instead, he said it was because SPRAYING WAS OVERUSED IMPROPERLY and that ITS USE WAS GETTING OUT OF HAND. [ ?!?! ]

If the government's concern was not health related, Loveless suggests it should have consulted with the industry, and taken an Integrated Pest Management approach whereby products would only be applied when necessary –

*They should have consulted with the professionals that are trained to apply these products and follow the Health Canada regulations.*

While Loveless said it is possible Hedderson may have only meant to target the improper application of pest control products by home-owners, he added if that was the case, the government should have simply removed the product from store shelves instead of issuing an OUTRIGHT BAN –

*They've ATTACKED A SMALL INDUSTRY within Newfoundland and Labrador.*

*They've PUT EMPLOYEES' LIVES IN JEOPARDY.*

*Personally, if I thought I was going to harm any one of my four children, I wouldn't be using it.*

## Overview from an Independent Perspective ( continued )

### Anti-Pesticide and Environmental-Terrorist Organizations

---

In the list below, every single organization is infested with Anti-Pesticide Lunatics who have CONSPIRED TO PROHIBIT AGAINST PEST CONTROL PRODUCTS in Newfoundland and Labrador.

Many of the following organizations are mere small local garden or social clubs with cutesy titles.

Many are operated by unemployed or unemployable housewives.

Many have disappeared into obscurity once prohibition was legislated in the local community, or once grant and tax-payer money was no longer available.

Many organizations are operated by greedy and avaricious Anti-Pesticide Lunatics who have CONCOCTED all sorts of IMAGINARY DANGERS regarding pest control products, hoping to PROSPER from cash donations, illicit businesses, unqualified employment, and grants, quite often without paying a single penny in taxes.

If these organizations want to be involved with SUBVERSIVE PARTISAN POLITICS and ANTI-PESTICIDE TERRORISM, then their CHARITY TAX-EXEMPT STATUSES MUST BE REVOKED.

Directly or indirectly, previously or currently, the following Anti-Pesticide Organizations have participated in the CONSPIRACY to PROHIBIT against conventional pest control products in Newfoundland and Labrador –

### NATIONAL Anti-Pesticide Organizations Operating in Newfoundland

---

Canadian Association of Physicians for the Environment ( CAPE )  
Canadian Cancer Society – Newfoundland & Labrador Division  
Sierra Club of Canada – Atlantic Chapter

### LOCAL Anti-Pesticide Organizations and Small Clubs Operating in Newfoundland

---

Coalition for Alternatives to Pesticides ( a.k.a. NL Provincial Coalition on Pesticides, a.k.a. Concerned Citizens Group, and SHIELD for Canadian Cancer Society )  
Food Education Action Saint John's – Saint John's  
Grand Riverkeeper Labrador  
Kelligrews Ecological Enhancement Program  
Mercy Centre for Ecology and Justice  
Newfoundland & Labrador Environment Network ( NLEN ) – Cornerbrook  
Newfoundland & Labrador Lung Association  
Newfoundland & Labrador Provincial Coalition on Pesticides  
Northeast Avalon Atlantic Coastal Action Program  
Saint John's Safer Soil – Saint John's  
Stephenville Sustainability Network  
The Pesticide Spray Advisory ( SHIELD for Coalition for Alternatives to Pesticides, and Newfoundland & Labrador Environment Network )  
The Tordon Players

## Overview from an Independent Perspective ( continued )

### Newfoundland Organization Operating as a SHIELD for Canadian Cancer Society

---

Coalition for Alternatives to Pesticides ( a.k.a. NL Provincial Coalition on Pesticides )

### Newfoundland MEDICAL INSTITUTION Conspiring in Anti-Pesticide Subversion

---

Newfoundland & Labrador Medical Association

### Newfoundland POLITICAL PARTIES Operating As SHIELDS for Anti-Pesticide Organizations

---

Green Party  
Liberal Party ( legislated and implemented prohibition )  
New Democratic Party

### Newfoundland TRADE ASSOCIATIONS Conspiring in Anti-Pesticide Subversion

---

Municipalities of Newfoundland & Labrador  
Newfoundland & Labrador Medical Association  
Newfoundland & Labrador Association of Registered Nurses

### Organization Operating as a SHIELD for Canadian Cancer Society

---

Coalition for Alternatives to Pesticides ( a.k.a. NL Provincial Coalition on Pesticides )

### Newfoundland 2009 COALITION FOR ALTERNATIVES TO PESTICIDES

---

In 2009, this coalition was created as a PUBLIC POLICY SHIELD ORGANIZATION by Canadian Cancer Society, along with mostly insignificant little clubs of Anti-Pesticide Lunatics, such as –

Canadian Association of Physicians for the Environment  
Concerned Citizens' Group  
Food Education Action Saint John's  
Grand Riverkeeper Labrador  
Kelligrews Ecological Enhancement Program  
Mercy Centre for Ecology and Justice  
Municipalities of NL

NL Association of Registered Nurses  
NL Environment Network  
NL Lung Association  
NL Medical Association  
Northeast Avalon Atlantic Coastal Action Program  
Saint John's Safer Soil  
Sierra Club of Canada – Atlantic Chapter  
The Pesticide Spray Advisory

## Taking A Reasonable Approach and Working With Government

August 27<sup>th</sup>, 2012

**Doreen Layman**

The Telegram

Selected and Adapted Excerpts

Doreen Layman is President of Landscape Newfoundland & Labrador Trade Association, which represents the Professional Lawn Care Industry.

# Doreen Layman

## Concerns Of The Professional Lawn Care Industry

---

As industry professionals, our primary concern is the environment — we work to maintain it, enhance it and conserve it.

Our entire industry depends on the environment and we have a history of being its stewards.

The Professional Lawn Care Industry applies pest control products **ONLY AS NEEDED, WHEN NEEDED, IF NEEDED**, as part of the strategy of Integrated Pest Management.

The Professional Lawn Care Industry provides valuable services to assist and reduce the impact of pest control products to the environment.

## A Reasonable Approach

---

Newfoundland's Department of Environment and Conservation can provide the **TRAINING AND LICENSING FOR PROFESSIONALS** who apply pest control products.

# Hero

## Speaking Out Against Anti-Pesticide Terrorism

### Newfoundland & Labrador PROHIBITION

---

Newfoundland's Anti-Pesticide PROHIBITION concentrated on lawn and garden pest control products.

The LACK OF KNOWLEDGE AMONG HOME-OWNERS regarding safe and appropriate use of pesticides was a contributor to the PROHIBITION of products containing specific ingredients.

[ On July 14<sup>th</sup>, 2011, Newfoundland's Department of Environment and Conservation announced that the following ingredients would no longer be permitted for application on lawns in the province – carbaryl, 2,4-D ( 2,4-dichlorophenoxyacetic acid ), mecoprop, dicamba, and MCPA ( 2-methyl-4-chlorophenoxyacetic acid ). ]

Landscape Newfoundland & Labrador believes that the basis on which some of the decisions were made during development of the new regulations [ i.e. Anti-Pesticide PROHIBITION ] were misplaced.

### No Pesticide Poisonings Ever Reported

---

It is important to note that there has NEVER BEEN A POISONING REPORTED in either Canada or the U.S. resulting from a residential or commercial lawn being treated properly by a professional applicator.

The majority of pesticide poisonings involving children occur in the home or in the homes of friends and relatives, and BECAUSE PRODUCTS WERE NOT STORED SECURELY, allowing young children to gain access ( According to Northern Exposure: Acute Pesticide Poisonings in Canada, 2007, David Suzuki Foundation ).

# Doreen Layman

## Incitement Of Fear

---

Ultimately, the Department of Environment and Conservation wishes to REDUCE the amount of chemicals in our environment, NOT FOR HEALTH REASONS as stated, but AS A RESULT OF SOME OTHER EXTERNAL PRESSURES [ i.e. Anti-Pesticide Lunatics ].

Landscape Newfoundland & Labrador ( LNL ) understands that there are individuals in the general public who have concerns about the use of any pesticide.

Some [ Anti-Pesticide Lunatics ] are INCITING FEAR through the publication of INCOMPLETE INFORMATION.

## The Silent Majority

---

There is a strong, silent group [ i.e. the Silent MAJORITY ] within the general public that BELIEVES IN THE USE OF PEST CONTROL PRODUCTS as a tool in protecting their green spaces.

The latter may not continue to remain silent as ALLERGIES FLARE UP, and INSECTS and other toxic species INFEST THEIR GREEN SPACES, because there is no lawful remedy due Newfoundland's Anti-Pesticide PROHIBITION that concentrates on product vs. the proper use and overall net impact.

# Hero

## Speaking Out Against Anti-Pesticide Terrorism

### Industry Use Of Pest Control Products

---

[ Pest control products are regulated by Health Canada's Pest Management Regulatory Agency ( PMRA ), which requires thorough scientific reviews and safety assessments to ensure they meet strict health and environmental standards and are shown to have value. Pest control products are one of the most stringently regulated products in Canada. ]

The Pest Management Regulatory Agency of Health Canada DOES NOT classify pest control products as « *non-essential* » or « *cosmetic* ».

Moreover, pest control products are still consumed in AGRICULTURAL PRODUCTION to assist farmers for the control of pests.

The herbicides used in our environment for lawn and gardens constitute LESS THAN ONE PER CENT of pest control products use in this country, while the vast majority is used in the production of our foods.

Thus, the argument that the Government of Newfoundland has made is accurate — Health-Canada-regulated pest control products are SAFE FOR OUR CONSUMPTION.

Therefore, if products containing 2,4-D WERE NOT PROHIBITED FOR HEALTH REASONS, we can assume that Newfoundland and Labrador wishes to ensure that the environment is maintained pristinely.

# Doreen Layman

## Industry Reducing The Use Of Pest Control Products

---

The Newfoundland Anti-Pesticide PROHIBITION, in its current state, is FAILING TO REDUCE the use of pest control products by the public, and it HINDERS THE PROFESSIONALS from properly using tools to address the complex issues of Integrated Pest Management.

The Professional Lawn Care Industry's involvement and practice in the application of pest control products HELPS REDUCE PESTICIDE use while maintaining Green Spaces at their healthiest form, making these living organisms more resistant to pests and requiring less input to keep them healthy.

These practices further REDUCE any potential harmful environmental impact, while increasing the POSITIVE ENVIRONMENTAL IMPACTS of Green Spaces.

## Joint Effort Between Industry and Government

---

The Professional Lawn Care Industry confidently believes that it can WORK COLLABORATIVELY with the Department of Environment and Conservation to REDUCE THE IMPACT of pest control products, while IMPROVING THE ENVIRONMENT AND HEALTH of the living plants that constitute our great province.

The Professional Lawn Care Industry WORKING WITH GOVERNMENT to better educate and control the use of these tools will have a greater result in our objective to have a BETTER ENVIRONMENT.

# Hero

## Speaking Out Against Anti-Pesticide Terrorism

Through **JOINT EFFORTS**, we can then regulate the proper use of these products in the same way prescription medication and other products are sold.

As such, the Professional Lawn Care Industry recommends that the **CREATION OF A GOVERNMENT-INDUSTRY WORKING GROUP** to better serve our environment with **SOUND SCIENCE** and a **REASONABLE APPROACH**.

We can **WORK TOGETHER** to improve the health of our Green Spaces.

### Doreen Layman

---

Layman is President of Landscape Newfoundland & Labrador Trade Association, where she has been a member for 16 years.

Landscape Newfoundland & Labrador was founded in March 1992 as a non-profit professional trade association of business owners and operators in the landscaping and horticultural ( non-food ) industry sector in the Province of Newfoundland.

Layman has owned and operated a business within the landscape industry for 25 years, operates a Professional Lawn Care business called Mr. Turf, and is a member of the Better Business Bureau.

She is a Certified Horticultural Technician with 18 years' experience in lawn maintenance and landscaping.

Layman earned a Bachelor of Arts for an undergraduate program from Memorial University.

She has taught at the College of North Atlantic for three years.

The Professional Lawn Care Industry Must

# STRIKE

Back

## Critical Issues

### Critical Issue

#### 1. Pest Control Products Are Scientifically Safe

---

The Professional Lawn Care Industry **MUST STRONGLY ADOPT THE POSITION THAT CONVENTIONAL PEST CONTROL PRODUCTS ARE SCIENTIFICALLY-SAFE AND CAUSE NO HARM.**

Furthermore, the Professional Lawn Care Industry **MUST ADVOCATE** that using its services is **SAFER** than Do-It-Yourself-Home-Owners who must store **PESTICIDE CONCENTRATES** in the home within reach of children.

### Critical Issue

#### 2. Fertilizers Do Not Harm The Environment

---

The Professional Lawn Care Industry **MUST ALSO ADOPT THE POLICY** that its use of **ANY FERTILIZERS DOES NOT HARM THE ENVIRONMENT.**

### Critical Issue

#### 3. No Prohibitions Against Pest Control Products

---

The Professional Lawn Care Industry **MUST OPPOSE ALL FORMS OF PROHIBITION AGAINST PEST CONTROL PRODUCTS USED IN THE URBAN LANDSCAPE.**

It must **OPPOSE** even **PROHIBITION** on **PUBLIC PROPERTY** since this is a **FIRST STEP** towards **TOTAL PROHIBITION.**

Pest control products used in the Urban Landscape are **SCIENTIFICALLY-SAFE** and **CAUSE NO HARM** to people and environment.

The Professional Lawn Care Industry Must

# STRIKE

Back

## Critical Issues

Critical Issue

### 4. No Prohibitions Against Fertilizers

---

The Professional Lawn Care Industry **MUST ALSO OPPOSE ALL FORMS OF PROHIBITION AGAINST FERTILIZERS, INCLUDING PHOSPHORUS.**

Turf fertilizers are **NOT** a major source of water pollution.

Critical Issue

### 5. No Negotiation With Terrorists

---

The Professional Lawn Care Industry **MUST CEASE ATTEMPTING TO EDUCATE AND NEGOTIATE** with Anti-Pesticide Enviro-Lunatic Government Officials and Activists.

They are to be considered **ENEMIES** of the industry. Anti-Pesticide-Lunatics **WILL NEVER** reverse their attitudes **AGAINST** pest control products. **NO ONE MUST NEGOTIATE WITH TERRORISTS**, either environmental or political.

Critical Issue

### 6. Sue The Basterds' Brains Out

---

The Professional Lawn Care Industry **MUST LAUNCH LITIGATION** against those Anti-Pesticide Anti-Fertilizer Enviro-Lunatic Government Officials and Activists who have **CONSPIRED TO PROHIBIT PEST CONTROL PRODUCTS.**

The Professional Lawn Care Industry Must

# STRIKE

Back

## Critical Issues

Professional Lawn Care businesses SHOULD SEEK DAMAGES since they will be NO LONGER able to reproduce the business results obtained prior to PROHIBITION, and the VALUE of their businesses will have been DESTROYED.

In ALL jurisdictions where PROHIBITION has been IMPOSED, Professional Lawn Care businesses MUST DEMAND COMPENSATION FROM GOVERNMENT since PROHIBITION will have created LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT.

See later segment entitled No Recourse But Litigation — SUE THEIR BRAINS OUT !

Critical Issue

### 7. Rescind All Current Prohibitions

---

The Professional Lawn Care Industry MUST DEMAND THAT ALL PROHIBITIONS pertaining to the use of pest control product in the Urban Landscape BE RESCINDED in ALL PROVINCIAL AND MUNICIPAL JURISDICTIONS.

Critical Issue

### 8. No Exception Status For Anybody

---

In those jurisdictions that REFUSE TO RESCIND or IMPOSE PROHIBITION, the Professional Lawn Care Industry MUST DEMAND THAT ALL EXCEPTIONS TO PROHIBITION BE RESCINDED.

If PROHIBITION is IMPOSED against the Professional Lawn Care Industry, then ALL conventional pest control products MUST BE PROHIBITED from uses like agriculture, forestry, golf, mosquito control, nursery, rose gardens, sod production, and sports fields.

The Professional Lawn Care Industry Must

# STRIKE Back

## Critical Issues

These industries employ the VERY SAME INGREDIENTS that are used to control damaging pests in routine turfgrass maintenance.

Critical Issue

### 9. Get Rid Of Anti-Pesticide Trade Associations

---

ALL Professional Lawn Care businesses MUST RESIGN THEIR MEMBERSHIPS from ALL Trade Associations that have SUPPORTED the NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION against pest control products.

If they are not WITH US, then they are AGAINST US !

Examples of Trade Associations conspiring in Anti-Pesticide SUBVERSION —

BC Landscape and Nursery Association ( BCLNA, British Columbia ) • Canada Nursery Landscape Association ( CNLA ) • Canadian Golf Superintendents Association ( CGSA ) • Golf Canada ( a.k.a. Royal Canadian Golf Association ) • Landscape Nova Scotia ( Nova Scotia ) • Landscape Ontario ( LO, Ontario ) • National Allied Golf Association ( British Columbia ) • Union of BC Municipalities ( British Columbia ) • Western Canada Turfgrass Association ( WCTA, British Columbia ).

Critical Issue

### 10. Denounce Green Alternatives

---

The Professional Lawn Care Industry MUST DENOUNCE the so-called GREEN ALTERNATIVES to conventional pest control products as BOGUS. Green Alternatives DO NOT WORK.

There will likely be NO viable, efficacious, or economical Green Alternatives within our collective lifetime.

The Professional Lawn Care Industry Must

# STRIKE

Back

## Critical Issues

Examples of BOGUS Green Alternatives — Corn Gluten Meal Herbicide • Fiesta Herbicide • Manual Weed-Picking • Neem Oil Insecticide • Nematode Insecticides • Phoma macrostoma Herbicide • Weed-Burning Flame Throwers.

The Professional Lawn Care Industry MUST ALSO DENOUNCE CULTURAL PRACTICES as so-called alternatives to the use of pest control products. Cultural practices DO NOT WORK in controlling pests.

Critical Issue

### 11. Prohibit Nematode Insecticides

---

The Professional Lawn Care Industry MUST DEMAND that ALL USES OF NEMATODE INSECTICIDES BE PROHIBITED UNTIL THEY ARE REGISTERED UNDER FEDERAL LAW.

Even though they are Green Alternatives, they are pest control products that MUST BE REGULATED.

Besides, Nematode Insecticides are NOT viable, efficacious, or economical Green Alternatives to replace conventional insect control products.

In those jurisdictions where PROHIBITION has been IMPOSED, it would be preferable for the home-owner or Professional Lawn Care business to DO NOTHING rather than use Nematode Insecticides.

Critical Issue

### 12. Denounce Integrated Pest Management

---

The Professional Lawn Care Industry MUST CEASE focusing on the INEFFECTIVE Integrated Pest Management ( IPM ) strategies as the solution to its public affairs problems.

The Professional Lawn Care Industry Must

# STRIKE

Back

## Critical Issues

Besides, IPM DOES NOT WORK.

It is IMPOSSIBLE for Professional Lawn Care businesses to keep their properties playable and/or beautiful by using IPM.

Critical Issue

### 13. Discredit Organic Maintenance

---

The Professional Lawn Care Industry MUST SCIENTIFICALLY DEFINE and PUBLICALLY DISCREDIT the mis-leading term « *Organic Maintenance* », and establish policies for EXPELLING companies using this inaccurate and misleading term from its trade associations.

Moreover, the VAST MAJORITY of these companies CONSPIRE TO PROHIBIT conventional pest control products for their own VESTED INTERESTS.

These companies are not WITH US, they are AGAINST US !

Examples of BUSINESSES THAT MUST BE EXPELLED FROM TRADE ASSOCIATIONS — Organic Landscape ( Alliance ) Association ( OLA ) • The Environmental Factor.

Critical Issue

### 14. Embark On Public Relations Campaign

---

The Professional Lawn Care Industry MUST VIGOROUSLY EMBARK ON A MASSIVE PUBLIC RELATIONS CAMPAIGN to STOP the proposed scheme by Anti-Pesticide Activists and New Democratic Party of Canada ( NDP ) threatening a NATIONAL PROHIBITION of pest control products.

NDP functions as a POLITICAL SHIELD for the Anti-Pesticide Terrorist-Movement.

The Professional Lawn Care Industry Must

# STRIKE

Back

## Critical Issues

The Professional Lawn Care Industry MUST VIGOROUSLY EMBARK ON A MASSIVE PUBLIC RELATIONS CAMPAIGN declaring that ORGANIC PESTICIDE-FREE MAINTENANCE DOES NOT WORK AND IS A DISMAL FAILURE !

The Professional Lawn Care Industry MUST VERY STRONGLY ADDRESS AND DISCREDIT ALL MISCONCEPTIONS concerning —

2,4-D Herbicide • DDT Insecticide • Glyphosate Herbicide ( Roundup ) •  
Herbicide Orange ( Agent Orange ) • Imidacloprid Insecticide ( Merit ), and other  
ingredients.

Critical Issue

### 15. Get Rid Of Anti-Pesticide Institutions

---

The Professional Lawn Care Industry MUST TERMINATE ALL RELATIONSHIPS with ALL TEACHING and RESEARCH INSTITUTIONS that SUPPORT the PROHIBITION of pest control products.

ALL joint activities and educational seminars MUST BE ENDED FOR AN INDEFINITE PERIOD OF TIME.

If they are not WITH US, then they are AGAINST US !

Examples of TEACHING and RESEARCH INSTITUTIONS that are INFESTED WITH ANTI-PESTICIDE LUNATICS —

Dalhousie University • Gaia College • McMaster University • Simon Fraser  
University • University of British Columbia • University of Guelph • Universi-  
ty of Manitoba • University of Ottawa • University of Waterloo • University of  
Western Ontario • University of Winnipeg • University of Windsor.

The Professional Lawn Care Industry Must

# STRIKE

Back

## Critical Issues

Critical Issue

### 16. Provide Political Support

---

The Professional Lawn Care Industry MUST OPENLY AND FINANCIALLY SUPPORT ALL POLITICAL CANDIDATES WHO OPPOSE ANY PROHIBITION of pest control products and fertilizers.

If the Professional Lawn Care Industry wants to EXERT INFLUENCE on Elected Government Officials, it MUST OPENLY AND FINANCIALLY SUPPORT ALL POLITICAL CANDIDATES who oppose ANY Anti-Pesticide PROHIBITION.

Forget about EDUCATING and CONVINCING Elected Government Officials.

GIVE THEM MONEY AND GIVE THEM SUPPORT during the next General Election.

No Recourse But Litigation — SUE THEIR BRAINS OUT !

---

The Professional Lawn Care Industry MUST STRIKE BACK with LITIGATION against its ENEMIES who are Anti-Pesticide Anti-Fertilizer Environmental-Terrorists.

These lunatics COULD NOT CARE LESS about SCIENCE-BASED EVIDENCE.

THEY HATE AND DESPISE THE PROFESSIONAL LAWN CARE INDUSTRY, and WILL DESTROY IT AT ANY COST.

The Professional Lawn Care Industry MUST ADOPT THE POLICY that the ONLY COURSE OF ACTION AGAINST PROHIBITION IS THROUGH LITIGATION.

When criminal charges for FRAUD and CONSPIRACY are laid against Anti-Pesticide Government Officials and Activists, legal experts say that there is sufficient information to lead to a SUCCESSFUL PROSECUTION !

The Professional Lawn Care Industry Must

# STRIKE Back

Whenever Anti-Pesticide PROHIBITION is IMPOSED, the Professional Lawn Care Industry MUST LAUNCH LITIGATION against those Government Officials and Activists who CONSPIRED TO PROHIBIT PEST CONTROL PRODUCTS.

The Professional Lawn Care Industry Must STOP Being IN DANGER From Anti-Pesticide Lunatics.

It Must Become THE DANGER Against the Lunatics.

SUE THEIR BRAINS OUT !

When Anti-Pesticide PROHIBITION is IMPOSED, businesses operating in the Professional Lawn Care Industry MUST SEEK DAMAGES since they will be NO LONGER able to reproduce the results obtained prior to PROHIBITION, and the VALUE of their operations will have been DESTROYED.

When Anti-Pesticide PROHIBITION is IMPOSED, businesses operating in the Professional Lawn Care Industry MUST DEMAND COMPENSATION FROM GOVERNMENT since PROHIBITION will have created LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT.

To support LITIGATION, NORAHG manages a VAST ARCHIVE of DOCUMENTS, AUDIO CLIPS, and VIDEOS on ALL SUBVERSIVE ANTI-PESTICIDE CONSPIRACIES, including those perpetrated in Manitoba.

The purpose of this archive is to provide information that will lead to a successful LITIGATION against Anti-Pesticide Government Officials and Activists in Manitoba.

The NORAHG archive is AVAILABLE to anyone interested in LITIGATION.

When criminal charges for FRAUD and CONSPIRACY are laid, legal experts say that there is sufficient information to lead to a SUCCESSFUL PROSECUTION !

A woman with long dark hair, wearing a white, long-sleeved, high-necked dress with a keyhole cutout at the bust, stands in a room. She is looking towards the camera with a serious expression. Her right hand is resting on a decorative wall panel, and her left hand is on a door handle. The room features ornate wall decorations, a large lamp with a white shade, and a vase of flowers on a table to the left. The overall lighting is dim, creating a dramatic atmosphere.

**STOP

FORCE OF NATURE | THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from  
National Organization Responding Against HUIE that seek to harm the Green Space Industry (NORAHG)

# NORAHG

We are living in the 9|11 Era of Anti Pesticide Terrorism where at least ONE SUBVERSIVE ACT OF TERROR is Perpetrated EVERY SINGLE DAY by enviro lunatics.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FAKE SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, and INTERNET RUMOUR — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

NORAHG is the National Organization Responding Against HUJE that seek to harm the Green space industry.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OPPOSED to Anti Pesticide PROHIBITION and the CLOSURE of green spaces under the RIDICULOUS PRETEXT of somehow « saving » the environment.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

Anti Pesticide HUJE are enviro lunatics and lawn haters who particularly DESPISE the golf industry — they are Hateful Underhanded Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS.

There is NO RECOURSE but LITIGATION against Anti Pesticide HUJE.

Another RECOURSE is to SEEK the CANCELLATION of GOVERNMENT GRANTS and REVOCATION of the TAX EXEMPT STATUS of Anti Pesticide Organizations.

HUJE should Get OFF Our grASS, and they should Roast In Hell.

NORAHG manages the Library of Force Of Nature Reports and References, which is a VAST ARCHIVE of REPORTS, MEDIA REFERENCES, AUDIO CLIPS, and VIDEOS on ALL Anti Pesticide Terrorist Acts of Subversion.

The purpose of this ARCHIVE is to provide information that will lead to a SUCCESSFUL LITIGATION AGAINST Anti-Pesticide Organizations.

All names, statements, activities, and affiliations have been ARCHIVED for the intention of eventual CRIMINAL CHARGES.

When CRIMINAL CHARGES for FRAUD and CONSPIRACY are laid, legal experts say that the ARCHIVE is sufficient to lead to a SUCCESSFUL PROSECUTION !

NORAHG also produces FORCE OF NATURE, reports that present THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE about environmental issues, including anti pesticide terrorism.

FORCE OF NATURE is a series of reports destined for the green space industry, the environmental terrorist movement, governments, and the media, nationwide across Canada, the United States, and overseas.

FORCE OF NATURE is committed to SOUND SCIENCE, as well as ground breaking original reporting that informs, entertains, and creates real change.

The Force Of Nature Series of Reports — Agriculture • ALBERTA Conspiracy • Bee Colony Collapse Disorder • Bee Colony Collapse Disorder • Benefits of the Turfgrass Industry • Beyond Pesticides • Books That Screwed Up the World • BRITISH COLUMBIA Conspiracy • Canadian Cancer Society • Canadian Association of Physicians for the Environment • CARNAGE and Consequences of Lunatic Terrorist Prohibition • Controversial Prohibitions • Culprits of the Prohibition Conspiracy • Daffodils, Toxic Pesticide Treated Flowers Soaked Formaldehyde • Dating Services for Enviro Maniacs • David Suzuki Foundation • DDT and Our World of Politicized Science • Death and Illness (Alleged) • Departure Letters • Ecojustice Canada • Energy Sector • Environmental Terrorists UNMASKED • Environmental Terrorist Organizations • Enviro PROFIT • Environmental Defence • FAILURE of IPM, Pesticide Manufacturers, Prohibition, Trade Associations • Famous Quotations About Enviro Lunatics • Fertilizer TERROR • Food and Farming • Get Off Our grASS • Global Warming, The Scam of Our Lifetime • Glyphosate Herbicide • Golf Industry • Green Alternatives • Green Party • Halloween Terror • Happy Holidays • Health Canada • Health Concerns with Pest Control Products • Heroes Speaking Out Against Environmental Terror • History of Environmental Terror in Canada • History of the Turfgrass Industry • Letters to the Editor • LIARS and Lying Sacks of (Enviro Maniac) Cwap • Mock Advertisements • Mock Speeches • Myth BUSTING • NATIONAL Prohibition • NEW BRUNSWICK Conspiracy • NO Prohibition Exception for AGRICULTURE Industry • NO Prohibition Exception for GOLF Industry • NOVA SCOTIA Conspiracy • North America Free Trade Agreement (NAFTA) • ONTARIO Conspiracy, Haven For Environmental Terrorists • Ontario College of Family Physicians • Organic Golf Courses • Organic Maintenance • Organizations of the Prohibition Conspiracy • Pesticide Q & A (Questions and Answers) • Positive Waves (Interesting and Innovative Thinking) • PRINCE EDWARD ISLAND (PEI) Conspiracy •

The information presented in FORCE OF NATURE has been developed for the education and entertainment of the reader by providing a sequence of events WITH COMMENTARY, striving for accuracy in history, politics, and science.

FORCE OF NATURE is TOTALLY INDEPENDENT and provides NO guarantee regarding accuracy or completeness. In no event shall FORCE OF NATURE be liable for any incidental or consequential damages, lost profits, or any indirect damages.

NORAHG also produces A LOOK AT, a series of reports providing TECHNICAL INFORMATION on issues such as Career Management, Golf Course Maintenance, Green Alternatives, Summer Stress, Turfgrass Pests, and Turfgrass Species.

Finally, NORAHG frequently responds to anti pesticide activists in LETTERS TO THE EDITOR in newspapers across Canada and around the world.

All information, excerpts, and pictures contained in FORCE OF NATURE, A LOOK AT, and LETTERS TO THE EDITOR were retrieved from the Internet, and may be considered in the public domain.

FORCE OF NATURE, A LOOK AT, and their various incarnations, was the brainchild of William H. Gathercole and his colleagues in 1991. Mr. Gathercole is now retired, although his name continues to appear as founder.

Here is a brief summary of Mr. Gathercole's career —

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University • University of Guelph • the first person ever to obtain university degrees and contribute to both the professional lawn care and golf maintenance industries

Expertise in — environmental issues and anti pesticide terrorism • turf and ornamental maintenance and troubleshooting • history of the industry • sales and distribution of seeds, chemicals, fertilizers, and equipment • fertilizer manufacturing and distribution

Notable activities — worked in virtually all aspects of the green space industry, including golf, professional lawn care, distribution, environmental compliance, government negotiations, public affairs, and workplace safety • supervisor, consultant, and, programmer for the successful execution of hundreds of thousands of management operations in the golf and urban landscape, as well as millions of pest control applications • advisor, instructor, and trainer for thousands of turf and ornamental managers and technicians • pesticide certification instructor for thousands of industry workers • founder of the modern professional lawn care industry • prolific writer for industry publications and e-newsletters • first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouver / Fraser Valley region • with Dr. Peter Dernoeden, confirmed the presence of Take All Patch as a disease of turf in Eastern Canada • with Dr. David Shetlar, confirmed the presence of Kentucky Bluegrass Scale as an insect pest in South Western Ontario, and later, in the Montreal and Vancouver regions

Special contributions — creator of the exception status that has allowed the golf industry to avoid being subjected to anti pesticide prohibition • creator of the signs that are now used for posting after application • co-founder of annual winter convention for Quebec golf course superintendents • the major influence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated daffodils • the only true reliable witness of the events of anti pesticide prohibition in the town of Hudson, Quebec • retired founder of FORCE OF NATURE and A LOOK AT reports

Notable award — the very first man of the year for contributions leading to the successful founding of Quebec professional lawn care industry, which served as a beach-head against anti pesticide activists in the 1980s and 1990s

Legacy — Mr. Gathercole and his colleagues ... designed and implemented strategies that reined anti pesticide activists to provide peace and prosperity for the entire modern green space industry across Canada • orchestrated legal action against anti pesticide activists in the town of Hudson, Quebec • launched the largest founding professional lawn care business in Canada • quadrupled the business revenues of one of the largest suppliers in Canada

Mr. Gathercole is now retired, although his name continues to appear as founder of FORCE OF NATURE and A LOOK AT reports.
